Environmental Protection Agency

§ 80.1160 What acts are prohibited under the RFS program?

(a) Renewable fuel producer or importer violation. Except as provided in §80.1154, no person shall produce or import a renewable fuel without generating a batch-RIN as required under §80.1126.

(b) RIN generation and transfer violations. No person shall do any of the following:

(1) Improperly generate a RIN (e.g., generate a RIN for which the applicable renewable fuel volume was not produced).

(2) Create or transfer to any person a RIN that is invalid under §80.1131.

(3) Transfer to any person a RIN that is not properly identified as required under §80.1125.

(c) RIN use violations. No person shall do any of the following:

(1) Fail to acquire sufficient RINs, or use invalid RINs, to meet the party's

Observation: This text is a legal document concerning regulations for renewable fuel standards, including requirements for producers and importers, as well as prohibited acts. It details the responsibilities and restrictions for producing and importing renewable fuels, including provisions for record-keeping and verifications.

Are subject to the provisions of §§80.1150 through 80.1152, and §80.1164.
