applications relying on previously submitted information to satisfy the information requirements of paragraphs (a)(1) through (a)(10) of this section, and of paragraphs (b)(1) through (b)(4) of this section, where all of the following conditions are met:

(i) An exemption was granted for the same pesticide at the same site to the same applicant the previous year;
(ii) The emergency condition could reasonably be expected to continue for longer than 1 year;
(iii) EPA has not declared the use ineligible for re-certification;
(iv) The use is not subject to public notice pursuant to §166.24(a)(1) through (a)(6);
(v) The applicant certifies that all of the following are true:
(A) The emergency condition described in the preceding year’s application continues to exist;
(B) Except as expressly identified, all information submitted in the preceding year’s application is still accurate;
(C) Except as expressly identified, the proposed conditions of use are identical to the conditions of use EPA approved for the preceding year;
(D) Any conditions or limitations on the eligibility for re-certification identified in the preceding year’s notice of approval of the emergency exemption have been satisfied;
(E) The applicant is not aware of any alternative chemical or non-chemical practice that may offer a meaningful level of pest control, or has provided documentation that each such known practice does not provide adequate control or is not economically or environmentally feasible.

(c) Information required for a quarantine exemption. An application for a quarantine exemption shall provide all of the following information concerning the nature of the emergency:

(1) The scientific and common name of the pest;
(2) The origin of the pest and the means of its introduction or spread if known; and
(3) The anticipated impact of not controlling the pest.

(d) Information required for a public health exemption. An application for a public health exemption shall provide all the following information concerning the nature of the emergency:

(1) The scientific and common name of the pest to be controlled and, if the pest is a vector, a description of the disease it is expected to transmit;
(2) A discussion of the magnitude of the health problems which are expected to occur without the pesticide use; and
(3) Discussion of the availability of medical treatment for the health problem.

§ 166.22 Consultation with the Secretary of Agriculture and Governors of the States.

The Agency, in determining whether or not such emergency conditions exist, shall consult with the Secretary of Agriculture and the Governor of any State concerned if they request such determination.

§ 166.24 Public notice of receipt of application and opportunity for public comment.

(a) Publication requirement. The Administrator shall issue a notice of receipt in the Federal Register for a specific, quarantine, or public health exemption and request public comment when any one of the following criteria is met:

(1) The application proposes use of a new chemical;
(2) The application proposes the first food use of an active ingredient;
(3) The application proposes any use of a pesticide which:
   (i) Was the subject of a notice under section 6(b) of the Act and was subsequently cancelled, and
   (ii) Is intended for a use that poses a risk similar to the risk posed by any use of the pesticide which was the subject of the notice under section 6(b);
(4) The application proposes use of a pesticide which:
   (i) Contains an active ingredient which is or has been the subject of a Special Review, and
   (ii) Is intended for a use that poses a risk similar to the risk posed by any use of the pesticide which was the subject of the notice under section 6(b);
