§ 52.247 Control Strategy and regulations: Fine Particle Matter.

(a) Determination of Attainment: Effective February 8, 2013, EPA has determined that, based on 2009 to 2011 ambient air quality data, the San Francisco Bay Area PM\(_{2.5}\) nonattainment area has attained the 2006 24-hour PM\(_{2.5}\) NAAQS. This determination suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment for as long as this area continues to attain the 2006 24-hour PM\(_{2.5}\) NAAQS. If EPA determines, after notice-and-comment rulemaking, that this area no longer meets the 2006 24-hour PM\(_{2.5}\) NAAQS, the corresponding determination of attainment for that area shall be withdrawn.

(b) Determination of Attainment: Effective February 11, 2013, EPA has determined that, based on 2009 to 2011 ambient air quality data, the Yuba City-Marysville PM\(_{2.5}\) nonattainment area has attained the 2006 24-hour PM\(_{2.5}\) NAAQS. This determination suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment for as long as this area continues to attain the 2006 24-hour PM\(_{2.5}\) NAAQS. If EPA determines, after notice-and-comment rulemaking, that this area no longer meets the 2006 24-hour PM\(_{2.5}\) NAAQS, the corresponding determination of attainment for that area shall be withdrawn.

(c) Determination of Attainment: Effective August 14, 2013, EPA has determined that, based on 2010 to 2012 ambient air quality data, the Sacramento PM\(_{2.5}\) nonattainment area has attained the 2006 24-hour PM\(_{2.5}\) NAAQS. This determination suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment for as long as this area continues to attain the 2006 24-hour PM\(_{2.5}\) NAAQS. If EPA determines, after notice-and-comment rulemaking, that this area no longer meets the 2006 24-hour PM\(_{2.5}\) NAAQS, the corresponding determination of attainment for that area shall be withdrawn.

§§ 52.248–52.251 [Reserved]

§ 52.252 Control of degreasing operations.

(a) “Degreasing” means any operation using an organic solvent as a surface cleaning agent prior to fabricating, surface coating, electroplating, or any other process.

(b) This section is applicable in the Sacramento Valley, San Joaquin Valley, and San Francisco Bay Area Intrastate Air Quality Control Regions (the “Regions”), as described in 40 CFR part 81, dated July 1, 1979, except as follows:

(1) In the following portions of the Sacramento Valley Region, this section is rescinded:

(i) Sacramento County APCD.

(ii) Placer County APCD (Mountain Counties Air Basin portion).
