§ 745.325 Lead-based paint activities: State and Tribal program requirements.

(a) Program elements. To receive authorization from EPA, a State or Tribal program must contain at least the following program elements for lead-based paint activities:

(1) Procedures and requirements for the accreditation of lead-based paint activities training programs.

(2) Procedures and requirements for the certification of individuals engaged in lead-based paint activities.

(3) Work practice standards for the conduct of lead-based paint activities.

(4) Requirements that all lead-based paint activities be conducted by appropriately certified contractors.

(5) Development of the appropriate infrastructure or government capacity to effectively carry out a State or Tribal program.

§ 745.325 Lead-based paint activities: State and Tribal program requirements.

(a) Program elements. To receive authorization from EPA, a State or Tribal program must contain at least the following program elements for lead-based paint activities:

(1) Procedures and requirements for the accreditation of lead-based paint activities training programs.

(2) Procedures and requirements for the certification of individuals engaged in lead-based paint activities.

(3) Work practice standards for the conduct of lead-based paint activities.

(4) Requirements that all lead-based paint activities be conducted by appropriately certified contractors.

(5) Development of the appropriate infrastructure or government capacity to effectively carry out a State or Tribal program.
(b) Accreditation of training programs. The State or Indian Tribe must have either:
   (1) Procedures and requirements for the accreditation of training programs that establish:
      (i) Requirements for the accreditation of training programs, including but not limited to:
         (A) Training curriculum requirements.
         (B) Training hour requirements.
         (C) Hands-on training requirements.
         (D) Trainee competency and proficiency requirements.
         (E) Requirements for training program quality control.
      (ii) Procedures for the re-accreditation of training programs.
      (iii) Procedures for the oversight of training programs.
      (iv) Procedures for the suspension, revocation, or modification of training program accreditations; or
   (2) Procedures or regulations, for the purposes of certification, for the acceptance of training offered by an accredited training provider in a State or Tribe authorized by EPA.

(c) Certification of individuals. The State or Indian Tribe must have requirements for the certification of individuals that:
   (1) Ensure that certified individuals:
      (i) Are trained by an accredited training program; and
      (ii) Possess appropriate education or experience qualifications for certification.
   (2) Establish procedures for re-certification.
   (3) Require the conduct of lead-based paint activities in accordance with work practice standards established by the State or Indian Tribe.
   (4) Establish procedures for the suspension, revocation, or modification of certifications.
   (5) Establish requirements and procedures for the administration of a third-party certification exam.

(d) Work practice standards for the conduct of lead-based paint activities. The State or Indian Tribe must have requirements or standards that ensure that lead-based paint activities are conducted reliably, effectively, and safely. At a minimum the State’s or Indian Tribe’s work practice standards for conducting inspections, risk assessments, and abatements must contain the requirements specified in paragraphs (d)(1), (d)(2), and (d)(3) of this section.
   (1) The work practice standards for the inspection for the presence of lead-based paint must require that:
      (i) Inspections are conducted only by individuals certified by the appropriate State or Tribal authority to conduct inspections.
      (ii) Inspections are conducted in a way that identifies the presence of lead-based paint on painted surfaces within the interior or on the exterior of a residential dwelling or child-occupied facility.
      (iii) Inspections are conducted in a way that uses documented methodologies that incorporate adequate quality control procedures.
      (iv) A report is developed that clearly documents the results of the inspection.
   (2) The work practice standards for risk assessment must require that:
      (i) Risk assessments are conducted only by individuals certified by the appropriate State or Tribal authority to conduct risk assessments.
      (ii) Risk assessments are conducted in a way that identifies and reports the presence of lead-based paint hazards.
      (iii) Risk assessments consist of, at least:
         (A) An assessment, including a visual inspection, of the physical characteristics of the residential dwelling or child-occupied facility;
         (B) Environmental sampling for lead in paint, dust, and soil;
         (C) Environmental sampling requirements for lead in paint, dust, and soil that allow for comparison to the standards for lead-based paint hazards established or revised by the State or Indian Tribe pursuant to paragraph (e) of this section; and
         (D) A determination of the presence of lead-based paint hazards made by comparing the results of visual inspection and environmental sampling to the standards for lead-based paint hazards established or revised by the State or Indian Tribe pursuant to paragraph (e) of this section.
§ 745.326 Renovation: State and Tribal program requirements.

(a) Program elements. To receive authorization from EPA, a State or Tribal program must contain the following program elements:

(1) Procedures and requirements for the distribution of lead hazard information to owners and occupants of target housing and child-occupied facilities before renovations for compensation.

(2) Procedures and requirements for the accreditation of renovation and dust sampling technician training programs. A State and Tribal program is not required to include procedures and requirements for the dust sampling technician training discipline if the State or Tribal program requires dust sampling to be performed by a certified lead-based paint inspector or risk assessor.

(3) Procedures and requirements for accredited initial and refresher training for renovators and dust sampling technicians and on-the-job training for other individuals who perform renovations.

(4) Procedures and requirements for the certification of individuals and/or firms.

(5) Requirements that all renovations be conducted by appropriately certified individuals and/or firms.

(b) Pre-renovation education. To be considered at least as protective as the Federal program, the State or Tribal program must:

(1) Establish clear standards for identifying renovation activities that trigger the information distribution requirements.

(iv) The program elements required in paragraph (d)(2)(iii)(C) and (d)(2)(iii)(D) of this section shall be adopted in accordance with the schedule for the demonstration required in paragraph (e) of this section.

(v) The risk assessor develops a report that clearly presents the results of the assessment and recommendations for the control or elimination of all identified hazards.

(vi) The certified risk assessor or the firm retains the appropriate records.

(3) The work practice standards for abatement must require that:

(i) Abatements are conducted only by individuals certified by the appropriate State or Tribal authority to conduct or supervise abatements.

(ii) Abatements permanently eliminate lead-based paint hazards and are conducted in a way that does not increase the hazards of lead-based paint to the occupants of the dwelling or child-occupied facility.

(iii) Abatements include post-abatement lead in dust clearance sampling and conformance with clearance levels established or adopted by the State or Indian Tribe.

(iv) The abatement contractor develops a report that describes areas of the residential dwelling or child-occupied facility abated and the techniques employed.

(v) The certified abatement contractor or the firm retains appropriate records.

(e) The State or Indian Tribe must demonstrate that it has standards for identifying lead-based paint hazards and clearance standards for dust, that are at least as protective as the standards in §745.227 as amended on February 5, 2001. A State or Indian Tribe with such a section 402 program approved before February 5, 2003 shall make this demonstration no later than the first report submitted pursuant to §745.324(h). A State or Indian Tribe submitting its program on or after February 5, 2003 shall make this demonstration in its application.

§ 745.326 Renovation: State and Tribal program requirements.
