

§ 52.2300 [Reserved]

§ 52.2301 Federal compliance date for automobile and light-duty truck coating. Texas Air Control Board Regulation V (31 TAC chapter 115), control of air pollution from volatile organic compound, rule 115.191(1)(8)(A).

(a) The requirements of section 110 of the Clean Air Act are not met regarding the final compliance date, as found in TACB rule 115.191(a)(8)(A), for the requirements of TACB Rule 115.191(a)(8)(A).

(b) TACB adopted revisions to rule 115.191(a)(8)(A) on October 14, 1988, and submitted them to EPA on December 13, 1988. Prior to the submittal, automobile and light-duty truck coating operations were to have complied with final control limits of § A115.191(a)(8)(B) of the federally approved State Implementation Plan (SIP), by December 31, 1986. In the December 13, 1988, submittal, the final control limits had been moved to § 115.191(a)(8)(A) and had been given a new extended compliance date of December 31, 1987. EPA does not recognize the later compliance date and retains the original compliance date for the final emission limits of December 31, 1986. The owner or operator of an automobile and light-duty truck coating operation shall comply with the requirements of TACB rule 115.191(a)(8)(A) no later than December 31, 1986.

§ 52.2302 [Reserved]

§ 52.2303 Significant deterioration of air quality.

(a) The plan submitted by Texas is approved as meeting the requirements of part C, Clean Air Act for preventing significant deterioration of air quality. The plan consists of the following:

(1) Prevention of significant deterioration plan requirements as follows:

(i) December 11, 1985 (as adopted by the Texas Air Control Board (TACB) on July 26, 1985).

(ii) October 26, 1987 (as revised by TACB on July 17, 1987).

(iii) September 29, 1988 (as revised by TACB on July 15, 1988).

[56 FR 40257, Aug. 14, 1991]

Editorial Note: For Federal Register citations affecting § 52.2303, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.
Environmental Protection Agency

§ 52.2305

(iv) February 18, 1991 (as revised by TACB on December 14, 1990).

(vi) August 31, 1993 (as recodified, revised and adopted by TACB on August 16, 1993).

(x) June 30, 2014 (as revised by the Texas Commission on Environmental Quality on April 20, 2011 and submitted on May 19, 2011) to address PSD permitting requirements for PM2.5 promulgated by EPA on May 16, 2008, October 20, 2010, and December 9, 2013.

(b) The plan approval is partially based on commitment letters provided by the Executive Director of the Texas Air Control Board, dated September 5, 1989 and April 17, 1992.

(c) The requirements of section 160 through 165 of the Clean Air Act are not met for federally designated Indian lands. Therefore, the provisions of §52.2305 except paragraph (a)(1) are hereby made a part of the applicable implementation plan and are applicable to sources located on land under the control of Indian governing bodies.

§ 52.2304 Visibility protection.

(a) Reasonably Attributable Visibility Impairment. The requirements of section 169A of the Clean Air Act are not met because the plan does not include fully approvable measures for meeting the requirements of 40 CFR 51.305 for protection of visibility in mandatory Class I Federal areas.

(b) Regulation for visibility monitoring. The provisions of §52.26 are hereby incorporated and made a part of the applicable plan for the State of Texas.

(c) Regional Haze. The requirements of section 169A of the Clean Air Act are not met because the regional haze plan submitted by Texas on March 31, 2009, does not include fully approvable measures for meeting the requirements of 40 CFR 51.308(d)(3) and 51.308(e) with respect to emissions of NOx and SO2 from electric generating units. EPA has given limited disapproval to the plan provisions addressing these requirements.

§ 52.2305 What are the requirements of the Federal Implementation Plan (FIP) to issue permits under the Prevention of Significant Deterioration requirements to sources that emit greenhouse gases?

(a) The requirements of sections 160 through 165 of the Clean Air Act are not met to the extent the plan, as approved, for Texas does not apply with respect to emissions of the pollutant GHGs from certain stationary sources. Therefore, the provisions of §52.2304 except paragraph (a)(1) are hereby made a part of the plan for Texas for:

(1) Beginning on May 1, 2011, to sources described in §52.21(b)(49)(iv), and

(2) Beginning July 1, 2011, in addition to the pollutant GHGs from sources described under paragraph (a)(1) of this
