

Environmental Protection Agency

§ 52.2525

light of a comment received on its July 31, 2012 proposed rule (77 FR 45302), EPA is reviewing West Virginia State Rule 45CSR14 to determine the extent to which its definition of “regulated NSR pollutant” satisfies the corresponding Federal definition, and will address this issue in a separate action.

(2) EPA is also approving those portions of West Virginia’s SIP submissions dated December 3, 2007, December 11, 2007, April 3, 2008, October 1, 2009, October 26, 2011, and February 17, 2012 which address the PSD-related requirements set forth in CAA section 110(a)(2)(D)(i)(II) for the 1997 PM_{2.5} NAAQS, 1997 8-hour ozone NAAQS, 2006 PM_{2.5} NAAQS, 2008 lead NAAQS, and 2008 ozone NAAQS, as well as CAA Section 110(a)(2)(C) and (J) for the 2008 lead NAAQS and 2008 ozone NAAQS, except for the narrow issue of the requirement to include condensable emissions of particulate matter in the definition of “regulated NSR pollutant” found at 45CSR14 section 2.66. EPA is not finalizing its July 31, 2012 proposed approval (77 FR 45302) of WVDEP’s SIP submissions dated December 3, 2007, December 11, 2007, April 3, 2008, October 1, 2009, October 26, 2011, and February 17, 2012 submitted to meet the PSD-related infrastructure SIP obligations set forth at CAA sections 110(a)(2)(C), (D)(i)(II) and (J) with respect to the narrow issue of the requirement to include condensable emissions of particulate matter in the definition of “regulated NSR pollutant” found at 45CSR14 sec-

tion 2.66. EPA will address this issue in a separate action.

(j)(1) EPA is disapproving a narrow portion of West Virginia’s August 31, 2011 submittal because it does not satisfy the requirement that emissions of PM_{2.5} and PM₁₀ shall include gaseous emissions which condense to form particulate matter at ambient temperatures. This disapproval extends only to the lack of condensable emissions within the definition of “regulated NSR pollutant,” found at 45CSR14 section 2.66, and does not alter EPA’s October 17, 2012 (77 FR 63736) approval of the remaining portions of West Virginia’s August 2011 SIP submittal.

(2) EPA is disapproving specific portions of West Virginia’s infrastructure SIP submissions dated December 3, 2007, December 11, 2007, April 3, 2008, October 1, 2009, October 26, 2011, and February 17, 2012 which address certain obligations set forth at CAA sections 110(a)(2)(C), (D)(i)(II) and (J) relating to the West Virginia PSD permit program. Because West Virginia’s definition of “regulated NSR pollutant” in 45CSR14 does not address condensables for PM_{2.5} and PM₁₀ emissions, EPA is determining that West Virginia’s infrastructure SIP submissions do not meet certain statutory and regulatory obligations relating to a PSD permit program set forth at CAA sections 110(a)(2)(C), (D)(i)(II) and (J) for the narrow issue of condensables as set forth in the following table.

Submittal dates	NAAQS	Infrastructure element(s) disapproved in this action
December 11, 2007; April 3, 2008	1997 PM _{2.5}	110(a)(2)(D)(i)(II).
December 3, 2007; December 11, 2007 ..	1997 ozone	110(a)(2)(D)(i)(II).
October 1, 2009	2006 PM _{2.5}	110(a)(2)(D)(i)(II).
October 26, 2011	2008 lead	110(a)(2)(D)(i)(II), (C), and (J).
February 17, 2012	2008 ozone	110(a)(2)(D)(i)(II), (C), and (J).

§§ 52.2523–52.2524 [Reserved]

§ 52.2525 Control strategy: Sulfur dioxide.

(a) [Reserved]

(b) EPA approves the attainment demonstration State Implementation Plan for the City of Weirton, including the Clay and Butler Magisterial Districts area in Hancock County, West

Virginia, submitted by the West Virginia Department of Environmental Protection on December 29, 2003.

[43 FR 52240, Nov. 9, 1978, as amended at 51 FR 40676, Nov. 7, 1986; 69 FR 24992, May 5, 2004; 78 FR 33985, June 6, 2013]

§ 52.2526 Control strategy: Particulate matter.

(a) EPA approves West Virginia's November 15, 1991 SIP submittal for fulfilling the PM₁₀-specific requirement of part D for contingency measures required under section 172(c)(9) of the Clean Air Act applicable to the Follansbee, West Virginia PM₁₀ non-attainment area.

(b) *Determinations of Attainment.* EPA has determined, as of November 20, 2009, the Martinsburg-Hagerstown, WV-MD, the Parkersburg-Marietta, WV-OH and the Wheeling, WV-OH PM_{2.5} non-attainment areas have attained the 1997 PM_{2.5} NAAQS. These determinations, in accordance with 40 CFR 52.1004(c), suspend the requirements for these areas to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as these areas continue to meet the 1997 PM_{2.5} NAAQS.

(c) *Determination of Attainment.* EPA has determined, as of September 7, 2011, that based upon 2007–2009 air quality data, the Huntington-Ashland, West Virginia-Kentucky-Ohio, non-attainment Area has attained the 1997 annual PM_{2.5} NAAQS. This determination, in accordance with 40 CFR 52.1004(c), suspends the requirements for this Area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this Area continues to meet the 1997 annual PM_{2.5} NAAQS.

(d) *Determination of Attainment.* EPA has determined, as of September 14, 2011, that based on 2007 to 2009 ambient air quality data, the Steubenville-Weirton nonattainment area has attained the 1997 annual PM_{2.5} NAAQS. This determination, in accordance with 40 CFR 52.1004(c), suspends the require-

ments for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 1997 annual PM_{2.5} NAAQS.

(e) *Determination of Attainment.* EPA has determined, as of October 11, 2011, that based on 2007 to 2009 ambient air quality data, the Charleston nonattainment area has attained the 1997 annual PM_{2.5} NAAQS. This determination, in accordance with 40 CFR 52.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 1997 annual PM_{2.5} NAAQS.

(f) *Determination of Attainment.* EPA has determined, as of November 18, 2011, that based on 2007 to 2009 ambient air quality data, the Charleston non-attainment area has attained the 24-hour 2006 PM_{2.5} NAAQS. This determination, in accordance with 40 CFR 51.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 24-hour 2006 PM_{2.5} NAAQS.

(g) *Determination of Attainment.* EPA has determined, as of May 14, 2012, that based on 2008 to 2010 ambient air quality data, the Steubenville-Weirton non-attainment area has attained the 24-hour 2006 PM_{2.5} NAAQS. This determination, in accordance with 40 CFR 52.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 24-hour 2006 PM_{2.5} NAAQS.

(h) EPA approves the maintenance plan for the West Virginia portion of
