§ 101–25.108 Multiyear subscriptions for publications.

Subscriptions for periodicals, newspapers, and other publications for which it is known in advance that a continuing requirement exists should be for multiple years rather than for a single year where such method is advantageous for the purpose of economy or otherwise. Where various bureaus or offices in the same agency are subscribing to the same publication, consideration shall be given to consolidating these requirements, to the extent practical, on an agency-wide basis and on a multiyear basis. Payment covering issues to be delivered during the entire subscription period may be made in advance from currently available appropriations (31 U.S.C. 530a).

§ 101–25.109 Laboratory and research equipment.

(a) This section prescribes controls for use by Federal agencies in managing laboratory and research equipment in Federal laboratories. Agencies may establish such additional controls as are appropriate to increase the use of already-owned equipment instead of procuring similar equipment.

To the extent practicable, agencies should observe the provisions of this section with regard to commercial laboratories and laboratory facilities which operate under contract with the Government and use Government-furnished equipment.
