§ 102–75.1180

(i) HUD will act on all requests for review within 30 days of receipt of the landholding agency’s response and will notify the representative of the homeless and the landholding agency in writing of its decision.

(ii) If a property is determined suitable as a result of the review, HUD will request the landholding agency’s determination of availability pursuant to §102–75.1190(a), upon receipt of which HUD will promptly publish the determination in the FEDERAL REGISTER. If the determination of unsuitability stands, HUD will inform the representative of the homeless of its decision.

REAL PROPERTY REPORTED EXCESS TO GSA

§ 102–75.1180 For the purposes of this subpart, what is the policy concerning real property reported excess to GSA?

(a) Each landholding agency must submit a report to GSA of properties it determines excess. Each landholding agency must also provide a copy of HUD’s suitability determination, if any, including HUD’s identification number for the property.

(b) If a landholding agency reports a property to GSA that has been reviewed by HUD for homeless assistance suitability and HUD determined the property suitable, GSA will screen the property pursuant to §102–75.1180(g) and will advise HUD of the availability of the property for use by the homeless as provided in §102–75.1180(e). In lieu of the above, GSA may submit a new checklist to HUD and follow the procedures in §102–75.1180(c) through §102–75.1180(g).

(c) If a landholding agency reports a property to GSA that has not been reviewed by HUD for homeless assistance suitability, GSA will complete a property checklist, based on information provided by the landholding agency, and will forward this checklist to HUD for a suitability determination. This checklist will reflect any change in classification, i.e., from unutilized or underutilized to excess.

(d) Within 30 days after GSA’s submission, HUD will advise GSA of the suitability determination.

(e) When GSA receives a letter from HUD listing suitable excess properties in GSA’s inventory, GSA will transmit to HUD within 45 days a response that includes the following for each identified property:

(1) A statement that there is no other compelling Federal need for the property and, therefore, the property will be determined surplus;

(2) A statement that there is further and compelling Federal need for the property (including a full explanation of such need) and that, therefore, the property is not presently available for use to assist the homeless.

(f) When an excess property is determined suitable and available and notice is published in the FEDERAL REGISTER, GSA will concurrently notify HHS, HUD, State and local government units, known homeless assistance providers that have expressed interest in the particular property, and other organizations, as appropriate, concerning suitable properties.

(g) Upon submission of a Report of Excess to GSA, GSA may screen the property for Federal use. In addition, GSA may screen State and local governmental units and eligible non-profit organizations to determine interest in the property in accordance with current regulations. (See GSA Customer Guide to Real Property Disposal.)

(h) The landholding agency will retain custody and accountability and will protect and maintain any property that is reported excess to GSA as provided in §102–75.965.

SUITABILITY CRITERIA

§ 102–75.1185 What are suitability criteria?

(a) All properties, buildings, and land will be determined suitable unless a property’s characteristics include one or more of the following conditions:

(1) National security concerns. A property located in an area to which the general public is denied access in the interest of national security (e.g., where a special pass or security clearance is a condition of entry to the property) will be determined unsuitable. Where alternative access can be provided for the public without compromising national security, the property will not be determined unsuitable on this basis.
Federal Management Regulation

§ 102–75.1195 Property containing flammable or explosive materials. A property located within 2,000 feet of an industrial, commercial, or Federal facility handling flammable or explosive material (excluding underground storage) will be determined unsuitable. Above ground containers with a capacity of 100 gallons or less, or larger containers that provide the heating or power source for the property, and that meet local safety, operation, and permitting standards, will not affect whether a particular property is determined suitable or unsuitable. Underground storage, gasoline stations, and tank trucks are not included in this category, and their presence will not be the basis of an unsuitability determination unless there is evidence of a threat to personal safety as provided in paragraph (a)(5) of this section.

(3) Runway clear zone and military airfield clear zone. A property located within an airport runway clear zone or military airfield clear zone will be determined unsuitable.

(4) Floodway. A property located in the floodway of a 100-year floodplain will be determined unsuitable. If the floodway has been contained or corrected, or if only an incidental portion of the property not affecting the use of the remainder of the property is in the floodway, the property will not be determined unsuitable.

(5) Documented deficiencies. A property with a documented and extensive condition(s) that represents a clear threat to personal physical safety will be determined unsuitable. Such conditions may include, but are not limited to, contamination, structural damage, extensive deterioration, friable asbestos, PCBs, natural hazardous substances such as radon, periodic flooding, sinkholes, or earth slides.

(6) Inaccessible. A property that is inaccessible will be determined unsuitable. An inaccessible property is one that is not accessible by road (including property on small off-shore islands) or is land locked (e.g., can be reached only by crossing private property and there is no established right or means of entry).

Determining of availability

§ 102–75.1190 What is the policy concerning determination of availability statements?

(a) Within 45 days after receipt of a letter from HUD pursuant to §102–75.1170(a), each landholding agency must transmit to HUD a statement of one of the following:

(1) In the case of unutilized or underutilized property—
   (i) An intention to declare the property excess;
   (ii) An intention to make the property available for use to assist the homeless; or
   (iii) The reasons why the property cannot be declared excess or made available for use to assist the homeless.

(2) In the case of excess property that had previously been reported to GSA—
   (i) A statement that there is no compelling Federal need for the property and that, therefore, the property will be determined surplus; or
   (ii) A statement that there is a further and compelling Federal need for the property (including a full explanation of such need) and that, therefore, the property is not presently available for use to assist the homeless.

(b) [Reserved]

Public notice of determination

§ 102–75.1195 What is the policy concerning making public the notice of determination?

(a) No later than 15 days after the last-45 day period has elapsed for receiving responses from the landholding agencies regarding availability, HUD will publish in the Federal Register a list of all properties reviewed, including a description of the property, its address, and classification. The following designations will be made:

(1) Properties that are suitable and available.

(2) Properties that are suitable and unavailable.

(3) Properties that are suitable and to be declared excess.

(4) Properties that are unsuitable.
