Centers for Medicare & Medicaid Services, HHS

§ 438.808 Exclusion of entities.

(a) General rule. FFP is available in payments under MCO contracts only if the State excludes from the contracts any entities described in paragraph (b) of this section.

(b) Entities that must be excluded. (1) An entity that could be excluded under section 1128(b)(8) of the Act as being controlled by a sanctioned individual.

(2) An entity that has a substantial contractual relationship as defined in

§ 438.806 Prior approval.

(a) Comprehensive risk contracts. FFP is available under a comprehensive risk contract only if—

(1) The Regional Office has confirmed that the contractor meets the definition of an MCO or is one of the entities described in paragraphs (b)(2) through (b)(5) of § 438.6; and

(2) The contract meets all the requirements of section 1903(m)(2)(A) of the Act, the applicable requirements of section 1932 of the Act, and the implementing regulations in this part.

(b) MCO contracts. Prior approval by CMS is a condition for FFP under any MCO contract that extends for less than one full year or that has a value equal to, or greater than, the following threshold amounts:

(1) For 1998, the threshold is $1,000,000.

(2) For subsequent years, the amount is increased by the percentage increase in the consumer price index for all urban consumers.

(c) FFP is not available in an MCO contract that does not have prior approval from CMS under paragraph (b) of this section.

§ 438.804 Primary care provider payment increases.

(a) For MCO, PIHP or PAHP contracts that cover calendar years 2013 and 2014, FFP is available at an enhanced rate of 100 percent for the portion of the expenditures for capitation payments made under those contracts to comply with the contractual requirement under § 438.6(c)(5)(vi) only if the following requirements are met:

(i) The state must submit to CMS the following methodologies for review and approval:

(A) The state develops a reasonable methodology, based on rational and documented data and assumptions, for identifying the provider payments that would have been made by MCO, PIHP or PAHP for specified primary care services furnished as of July 1, 2009. This methodology can take into consideration the availability of data, and the costs and burden of administering the method, but should produce a reliable and accurate result to the fullest extent possible.

(B) The state develops a reasonable methodology, based on rational and documented data and assumptions, for identifying the differential in payment between the provider payments that would have been made by the MCO, PIHP or PAHP on July 1, 2009 and the amount needed to comply with the contractual requirement under § 438.6(c)(5)(vi). This methodology can take into consideration the availability of data, and the costs and burden of administering the method, but should produce a reliable and accurate result to the fullest extent possible.

(ii) The state submits the methodologies described in paragraphs (a)(1)(i) and (ii) of this section to CMS for review no later than the end of the first quarter of CY 2013.

(b) CMS will use the approved methodologies required under this section in the review and approval of MCO, PIHP or PAHP contracts and rates consistent with § 438.6(a).

§ 438.802 Basic requirements.

FFP is available in expenditures for payments under an MCO contract only for the periods during which the contract—

(a) Meets the requirements of this part; and

(b) Is in effect.
