(4) Include individually identified goals and desired outcomes.
(5) Reflect the services and supports (paid and unpaid) that will assist the individual to achieve identified goals, and the providers of those services and supports, including natural supports. Natural supports are unpaid supports that are provided voluntarily to the individual in lieu of State plan HCBS.
(6) Reflect risk factors and measures in place to minimize them, including individualized backup plans and strategies when needed.
(7) Be understandable to the individual receiving services and supports, and the individuals important in supporting him or her. At a minimum, for the written plan to be understandable, it must be written in plain language and in a manner that is accessible to individuals with disabilities and persons who are limited English proficient, consistent with §435.905(b) of this chapter.
(8) Identify the individual and/or entity responsible for monitoring the plan.
(9) Be finalized and agreed to, with the informed consent of the individual in writing, and signed by all individuals and providers responsible for its implementation.
(10) Be distributed to the individual and other people involved in the plan.
(11) Include those services, the purchase or control of which the individual elects to self-direct, meeting the requirements of §441.740.
(12) Prevent the provision of unnecessary or inappropriate services and supports.
(13) Document that any modification of the additional conditions, under §441.710(a)(1)(vi)(A) through (D) of this chapter, must be supported by a specific assessed need and justified in the person-centered service plan. The following requirements must be documented in the person-centered service plan:
   (i) Identify a specific and individualized assessed need.
   (ii) Document the positive interventions and supports used prior to any modifications to the person-centered service plan.
   (iii) Document less intrusive methods of meeting the need that have been tried but did not work.
   (iv) Include a clear description of the condition that is directly proportionate to the specific assessed need.
   (v) Include a regular collection and review of data to measure the ongoing effectiveness of the modification.
   (vi) Include established time limits for periodic reviews to determine if the modification is still necessary or can be terminated.
   (vii) Include informed consent of the individual; and
   (viii) Include an assurance that the interventions and supports will cause no harm to the individual.

(c) Reviewing the person-centered service plan. The person-centered service plan must be reviewed, and revised upon reassessment of functional need as required in §441.720, at least every 12 months, when the individual's circumstances or needs change significantly, and at the request of the individual.

§441.730 Provider qualifications.

(a) Requirements. The State must provide assurances that necessary safeguards have been taken to protect the health and welfare of enrollees in State plan HCBS, and must define in writing standards for providers (both agencies and individuals) of HCBS and for agents conducting individualized independent evaluation, independent assessment, and service plan development.

(b) Conflict of interest standards. The State must define conflict of interest standards that ensure the independence of individual and agency agents who conduct (whether as a service or an administrative activity) the independent evaluation of eligibility for State plan HCBS, who are responsible for the independent assessment of need for HCBS, or who are responsible for the development of the service plan. The conflict of interest standards apply to all individuals and entities, public or private. At a minimum, these agents must not be any of the following:
   (1) Related by blood or marriage to the individual, or to any paid caregiver of the individual.
(2) Financially responsible for the individual.
(3) Empowered to make financial or health-related decisions on behalf of the individual.
(4) Holding financial interest, as defined in §411.354 of this chapter, in any entity that is paid to provide care for the individual.
(5) Providers of State plan HCBS for the individual, or those who have an interest in or are employed by a provider of State plan HCBS for the individual, except when the State demonstrates that the only willing and qualified agent to perform independent assessments and develop person-centered service plans in a geographic area also provides HCBS, and the State devises conflict of interest protections including separation of agent and provider functions within provider entities, which are described in the State plan for medical assistance and approved by the Secretary, and individuals are provided with a clear and accessible alternative dispute resolution process.

(c) Training. Qualifications for agents performing independent assessments and plans of care must include training in assessment of individuals whose physical, cognitive, or mental conditions trigger a potential need for home and community-based services and supports, and current knowledge of available resources, services, and best practices to improve health and quality of life outcomes.

§ 441.735 Definition of individual’s representative.

In this subpart, the term individual’s representative means, with respect to an individual being evaluated for, assessed regarding, or receiving State plan HCBS, the following:

(a) The individual’s legal guardian or other person who is authorized under State law to represent the individual for the purpose of making decisions related to the person’s care or well-being. In instances where state law confers decision-making authority to the individual representative, the individual will lead the service planning process to the extent possible.

(b) Any other person who is authorized under §435.923 of this chapter, or under the policy of the State Medicaid Agency to represent the individual, including but not limited to, a parent, a family member, or an advocate for the individual.

(c) When the State authorizes representatives in accordance with paragraph (b) of this section, the State must have policies describing the process for authorization; the extent of decision-making authorized; and safeguards to ensure that the representative uses substituted judgment on behalf of the individual. State policies must address exceptions to using substituted judgment when the individual’s wishes cannot be ascertained or when the individual’s wishes would result in substantial harm to the individual. States may not refuse the authorized representative that the individual chooses, unless in the process of applying the requirements for authorization, the State discovers and can document evidence that the representative is not acting in accordance with these policies or cannot perform the required functions. States must continue to meet the requirements regarding the person-centered planning process at §441.725 of this chapter.

§ 441.740 Self-directed services.

(a) State option. The State may choose to offer an election for self-directing HCBS. The term ‘‘self-directed’’ means, with respect to State plan HCBS listed in §440.182 of this chapter, services that are planned and purchased under the direction and control of the individual, including the amount, duration, scope, provider, and location of the HCBS. For purposes of this paragraph, individual means the individual and, if applicable, the individual’s representative as defined in §441.355.

(b) Service plan requirement. Based on the independent assessment required in §441.720, the State develops a service plan jointly with the individual as required in §441.725. If the individual chooses to direct some or all HCBS, the service plan must meet the following additional requirements:

(1) Specify the State plan HCBS that the individual will be responsible for directing.
