§ 2.75–70 Welding procedure and performance qualifications.

(a) Whenever it is determined that a specific item is not in compliance with the applicable laws, rules, and regulations, and the requirements specified in the approval issued by the Coast Guard, the District Commander or the Officer in Charge, Marine Inspection, will immediately notify the holder of the approval wherein the specific item fails to meet applicable requirements. If the defects, deficiencies or variations in the item are deemed important, such officer is authorized and may immediately suspend the approval, may require the holder to surrender the certificate of approval (if any), and may direct the holder to cease claiming the defective items are Coast Guard approved, pending a final decision from the Commandant in the matter.

(b) The procedures for appealing the temporary suspension shall be those described in §2.01–70.

§ 2.75–50 Withdrawals or terminations of approvals and appeals.

(a) The Commandant may withdraw approval for any item which is found not to be in compliance with the conditions of approval, found to be unsuitable for its intended purpose, or does not meet the requirements of applicable regulations.

(b) Approvals of equipment are terminated when the manufacturer is no longer in business, or when the item is no longer being manufactured, or when the approval expires.

(c) Any person directly affected by a decision to deny, withdraw, or terminate an approval may appeal the decision to Director of Commercial Regulations & Standards (CG–5PS) as provided in §1.03–15 of this chapter.

§ 2.75–60 Hazardous ships’ stores.

Hazardous ships’ stores, as defined in §147.3 of this chapter, must not be brought on board or used on any vessel unless they meet the requirements of part 147 of this chapter.

[CGD 84–044, 53 FR 7748, Mar. 10, 1988]
§ 2.85–1 Assignment of load lines.

Most U.S. vessels, and foreign vessels in U.S. waters are required to have load line assignments in accordance with 46 U.S.C. Chapter 51. The load lines marks, when placed on a vessel, indicate the maximum draft to which such vessel can be lawfully submerged, in the various circumstances and seasons applicable to such vessel. See subchapter E (Load Lines) of this chapter for applicable details governing assignment and marking of load lines.

§ 2.90–1 General requirements.

(a) Drawings, blueprints or plans showing the details of construction of vessels subject to inspection or installations thereon are required to be submitted for approval in accordance with applicable regulations in this chapter, information as to which may be obtained at any local Marine Inspection Office.

(b) The requirements for passenger vessel construction are in parts 45–46, 70–78, of this chapter.

(c) The requirements for tank vessel construction are in parts 30–39, 43–45, of this chapter.

(d) The requirements for cargo and miscellaneous vessel construction are in parts 43–45, 90–97, of this chapter.

(e) The requirements for marine engineering installations or equipment are in parts 50–69 of this chapter.

(f) The requirements for electrical engineering installations or equipment are in parts 110–113 of this chapter.

(g) The requirements for items to be manufactured under specific approval by the Commandant are in parts 160–164 of this chapter.

(h) The requirements for vessels carrying certain bulk dangerous cargoes are in parts 148, 151, 153, and 154 of this chapter.

(i) The requirements for subdivision and stability plans and calculations are in part 170 of this chapter.
