(7) Forecast of Operations. Utilizing the revenues and expenses provided in paragraphs (c)(4),(5) and (6) of this section, you shall provide a forecast of operating cash flow, as defined in paragraph (d)(4) of this section, for the Title XI project for the first full year of operations and the next four years. The cash flow statements should be footnoted to explain the assumptions used.

(d) Objective Criteria. We must make a finding of economic soundness as to each project based on an assessment of the entire project. In order for the project to receive approval, we must determine that a project meets the following criteria:

(1) The projected long-term demand (equal to length of time that you request financing) for the particular Vessel(s) or new Shipyard Project to be financed must exceed the supply of similar vessels or new shipyard project in the applicable markets. We will determine the supply of similar vessels and similar shipyard projects based on:
(i) Existing equipment,
(ii) Similar vessels or new shipyard project under construction, and
(iii) The projected need for new equipment in that particular segment of the maritime industry.

(2) We will base our determination of the project’s economic soundness on the following:
(i) Conformity of your projections with our supply and demand analyses;
(ii) Availability of charters, letters of intent, outstanding contractual commitments, contracts of affreightment, transportation agreements or similar agreements or undertakings; and
(iii) Your existing market share compared with the market share necessary to meet projected revenues.

(3) In cases where market conditions are temporarily inadequate for you to service the Obligation indebtedness at the time of Vessel delivery, or completion of the Shipyard Project, we may approve your application only if you have sufficient outside sources of cash flow to service your indebtedness during this temporary period.

(4) With respect to the asset for which Obligations are to be issued, the operating cash flow to Obligation debt service ratio over the term of the Guarantee must be in excess of 1:1. Operating cash flow means revenues less operating and capital expenses including taxes paid but exclusive of interest, accrued taxes, depreciation and amortization for the Title XI asset. Debt service means interest plus principal.

(b) A non-refundable fee of $3,000 is due, payable at the time of the request. The fee defrays all costs of processing and reviewing a joint application by a mortgagor and/or Obligor and a proposed transferee of a Vessel or Shipyard Project, which is security for Title XI debt, if the proposed transferee is to assume the Mortgage and/or the Security Agreement.

§ 298.17 Evaluation of applications.

(a) In evaluating project applications, we shall also consider whether the application provides for:

(1) The capability of the Vessel(s) serving as a naval and military auxiliary in time of war or national emergency.

(2) The financing of the Vessel(s) within one year after delivery.

(3) The acquisition of Vessel(s) currently financed under Title XI by assumption of the total obligation(s).

(4) The Guarantees extend for less than the normal term for that class of vessel.

(5) In the case of an Eligible Shipyard, the capability of the shipyard to engage in naval vessel construction in time of war or national emergency.

(b) Detailed statement. You must provide a detailed statement, with the Guarantee application, which will provide the basis for our consideration.

(c) Required conditions. We shall approve your application for loan guarantees under this section if we determine the following:

(1) The term for such Guarantees will not exceed the reasonable economic useful life of the collective assets which comprise this Shipyard Project;

(2) There is sufficient collateral to secure the Guarantee; and

(3) Your application will not prevent us from guaranteeing debt for a Shipyard Project that, in our sole opinion, will serve a more desirable use of appropriated funds. In making this determination, we will consider:
