Sec. 3 Specifications.

(a) It shall be incumbent upon the representatives of the Authority on each and every vessel requiring repairs for the account of the National Shipping Authority to prepare complete, detailed and fully descriptive specifications of the particulars of each repair item, identified in each particular case by the appropriate voyage number. Decisions of the Coast Directors’ Ship Repair and Maintenance Staffs with respect to the need for any particular item in repair specifications shall be final. The specifications for voyage repairs shall itemize the work involved and shall be numbered consecutively and shall be arranged in accordance with the group classification set forth in section 18 of this order with the segregation by the three departments, namely, deck, engine and steward.

(b) The specifications shall in their final written form be explicit in every respect and shall include drydocking, if required, as well as all other items of work known to be required or discernible through visual inspection and examination regardless of the fact that later decision may be made to eliminate or defer some of the items of work. In no case shall an item of work, the accomplishment of which is problematical, be so identified or segregated in the specifications. Resorting to such general phraseology as “overhaul as necessary,” “open up for examination and repair or renew as necessary,” “repair or renew,” etc., shall not be permitted in preparing and writing the specifications.

(c) Where an exact and final determination of the extent of the work cannot be ascertained until an examination has been made, the particular items involved shall so specify and the specifications with respect to said items shall be limited to such examinations as are necessary.

(d) If it is desired by the representatives of the Authority to change any item in the specifications after the specifications have been issued to bid such changes shall be reduced to writing and shall be distributed to the invited bidders at least by such time prior to the time originally specified for the opening of bids as shall reasonably permit the bidders to revise their estimates. If determined to be necessary or desirable under the circumstances, the representative of the Authority may extend the time for opening of bids.

(e) Any exceptions taken to the specifications by a prospective bidder shall be made known to the representative of the Authority prior to the time specified for opening the bids. If it is finally determined by the representative of the Authority that the exceptions are justified, then the procedure set forth in the preceding sub-paragraph shall be followed. Exceptions accompanying bids not processed as herein prescribed, but made known at the time the bids are opened will not be acceptable, and will be a cause for rejecting such bids.

(f) When it is anticipated that the cost of a job will be in excess of a Coast Director’s delegated authority, one (1) copy of specifications, and in case of bids a copy of Invitation for Bids, Instructions to Bidders and listing of contractors invited to bid shall be forwarded to the Chief, Division of Ship Repair and Maintenance, Washington, DC, simultaneously with the specifications being issued to the contractors.

(g) In all cases where materials, parts or equipment are required in connection with the performance of any particular repair item the representatives of the Authority shall utilize to the fullest possible extent spares and replacement parts stocked in Maritime Administration warehouses. Prior to arranging for the purchase or furnishing of repair parts by repair contractors, it shall be the responsibility of the representatives of the Authority awarding work to determine that the required parts are not available in the Maritime Administration warehouse in the area involved, contingent upon the urgency of the particular situation, ship’s sailing schedule, etc.

Sec. 4 Procedure for securing competitive bids.

(a) The geographical area within which bids will be invited involves the exercise of sound administrative judgment. All the relevant factors should be considered in deciding over what areas competitive bids should be invited. Such factors will include the
Maritime Administration, DOT Sec. 4

scope and nature of the work, the location of the vessel, and the time and expense involved in shifting and returning the vessel to its loading berth consistent with the operating requirements.

(b) Invitations for Bids shall be sent to all contractors, within the area as determined in paragraph (a) of this section, who are considered to be financially qualified and to be capable of performing all of the work set forth in the specifications either by the utilization of their own or subcontractors' facilities. In this regard attention is invited to section 15 of this order.

(c) When inviting Bids the NSA form entitled “Invitation for Bids, Instruction for Bidders, and Specifications for Repairs, Renewals, Alterations and Additions to the Vessel ______” shall be used.

(d) Attention is called to the fact that the Invitation for Bids form includes a statement of the completion date for the work. In the event bids are invited the individual vessel’s period of availability and the extent of the proposed work shall be considered in fixing a completion date that is consistent with the scope of the work involved. Consideration must be given to the fact that it will not be possible in every case to get lower bids by extending a completion date beyond the normal time required to do the work merely because the vessel’s availability is exceptionally long. At the same time, care is to be exercised to insure that the repair period is not shortened, when there is no urgent need for the use of the vessel, to such an extent that it is impossible for the contractor to accomplish the work under normal working conditions. A completion date can only be fixed so as to be financially and otherwise to the best interests of the Government after due consideration has been given to all of the factors involved.

(e) The Invitations for Bids shall provide that the contractors shall submit, simultaneously with their responses to Invitations for Bids, unit prices for each item of specification work in a separate sealed envelope. Only the envelope containing the separate item prices of the contractor determined to be the low bidder shall be retained by the representative of the Authority and shall not be opened until after the award is made. All other envelopes containing separate item prices shall be returned unopened to each contractor by the representative of the Authority. In the event the low bid is rejected, the itemized prices of the low bidder shall be returned to him in the unopened envelope. Item prices submitted by contractors will not be subject to public perusal.

(f) Vessel repair work contracted for by representatives of the National Shipping Authority is subject to the provisions of the Davis-Bacon Act, except in those cases where at the time of the issuance of the Invitations for Bids the site of the work is not known. Where bids are being invited from bidders in more than one port area, the port area in which the award will be made will not be known, and the Invitations for Bids, accordingly, must state that the work in question is not subject to the Davis-Bacon Act.

(g) The Invitations for Bids shall also include a statement of the per day liquidated damages, for the particular type vessel on which the work is to be performed.

(h) The Invitation for Bids shall state where the bids are to be opened.

(i) When Invitations for Bids are issued by a General Agent, the General Agent, at the time the invitations are issued shall make available to the local Ship Repair and Maintenance office, three (3) copies of the specifications, three (3) copies of a list of contractors to whom invitations have been sent, and three (3) copies of the Invitation for Bids.

(j) Where the scope and probable cost of the work and the time required for effecting such work are secondary as compared to the ship’s time, and where the preparation of formal specifications and the issuance of formal Invitations for Bids are not practicable, the representative of the Authority may orally contact as many qualified contractors as is feasible, in order to obtain written “Spot Bids.” Each contractor who indicates its intention to bid shall be fully advised as to the specific work involved and given an opportunity to inspect the vessel to enable it to prepare a bid. The contractor shall
be verbally advised of a time and place for the submission of the “Spot Bids.” If such bids are invited by the General Agent, the General Agent shall also advise the Coast Director or his duly appointed representative of the time and place of opening the “Spot Bids,” and if practicable, the NSA representative shall attend such opening. If submission of such spot bids is not in writing the contractors shall immediately confirm their respective Spot Bids by written tenders. The representative of the Authority shall, if requested by responsive contractors, furnish invitations for bids and supporting specifications to the contractors.

Sec. 5 Procedure for negotiated price awards.

(a) In the award of vessel repair work upon the basis of negotiation or request for quotation, other than work covered by a supplemental job order, the contractor shall be furnished with the information provided for in Article 1(a) of the NSA-LUMPSUMREP Contract.

(b) The contractor, within the time specified in a request for a quotation, may quote a price and shall submit itemized prices and the price breakdown provided for in Article 1(c) of the NSA-LUMPSUMREP Contract. In the event a mutually satisfactory price cannot be agreed to, a price shall be determined by the representative of the Authority making the award which shall be set out in the job order or the supplemental job order issued to the contractor. Within thirty (30) days from the receipt of such job order or supplemental job order the contractor may appeal such price to the Director of the Authority as a dispute under Article 27 of the NSA-LUMPSUMREP Contract.

Sec. 6 Awarding of work.

(a) Those portions of all bids reflecting the total aggregate cost of the work involved shall be opened publicly. The work shall be awarded to the contractor submitting the lowest qualified bid. The term lowest shall mean the bid most advantageous to the Government after evaluation of all bids by the application of differentials and any other relevant factors set forth in the Invitation for Bids. All pertinent costs of moving the vessel from the port where said vessel is located at the time bids are invited to the port of the responsive bidders’ work sites and/or plants are to be stated on the Invitation for Bids. If the vessel is scheduled to return to the same port where located at the time bids were invited, all costs of returning the vessel to that port shall also be included on the Invitation for Bids and considered in the bid evaluation.

(b) Immediately after an award of a job order or a supplemental job order on a negotiated basis a written report shall be submitted by the representative of the Authority, making the award, to the appropriate Coast Director’s office stating the pertinent reasons for awarding the job on a negotiated rather than bid basis. A copy of this report must be attached to the Ship Repair Summary.

(c) When an award is made, a job order in the form attached to the NSA-LUMPSUMREP Contract shall be issued to the contractor and when awards are made in excess of the Coast Directors’ Authority one copy each of all job orders and supplemental job orders and supporting specifications are to be forwarded to the Chief, Division of Ship Repair and Maintenance, Washington, DC, simultaneously with the issuance of said orders to the contractors.

Sec. 7 Job order numbering.

(a) The NSA-LUMPSUMREP Contract number shall be inserted in every job order and supplemental job order thereto awarded to a Contractor. The Chiefs of local Ship Repair and Maintenance offices shall give consecutive numbers starting with No. 1 to job orders and supporting specifications are to be forwarded to the Chief, Division of Ship Repair and Maintenance, Washington, DC, simultaneously with the issuance of said orders to the contractors.
