that competitive eligible telecommunications carriers serving remote areas in Alaska and subject to paragraph (e)(3) of this section shall continue to receive support at the level described in paragraph (e)(3)(v) of this section.

(6) Eligibility after Implementation of Mobility Fund Phase II. If a competitive eligible telecommunications carrier becomes eligible to receive high-cost support pursuant to the Mobility Fund Phase II, it will cease to be eligible for phase-down support in the first month for which it receives Mobility Fund Phase II support.

(7) Line Count Filings. Competitive eligible telecommunications carriers, except those subject to the delayed phase down described in paragraph (e)(3) of this section, shall no longer be required to file line counts beginning January 1, 2012. Competitive eligible telecommunications carriers subject to the delayed phase down described in paragraph (e)(3) of this section shall no longer be required to file line counts beginning July 1, 2014, or the date after the first line count filing following the implementation of Mobility Fund Phase II, whichever is later.

§ 54.309 Connect America Fund Phase II Public Interest Obligations.

(a) A price cap carrier electing Phase II model-based support is required to provide broadband service at actual speeds of at least 4 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas, at rates that are reasonably comparable to rates for comparable offerings in urban areas.

(b) In addition, a price cap carrier electing Phase II model-based support is required to provide broadband service with actual speeds of at least 6 Mbps downstream to a specified number of locations, and upstream speeds of at least 1.5 Mbps to a specified number of locations, as determined by the Wireline Competition Bureau.

[79 FR 11335, Feb. 28, 2014]

§ 54.310 Connect America Fund for Price Cap Territories—Phase II

(a) Geographic areas eligible for support. Connect America Phase II support may be made available for census blocks or other areas identified as eligible by public notice, including locations identified by the forward-looking cost model as extremely high-cost. The number of supported locations will be identified for each area eligible for support will be identified by public notice.

(b) Term of support. Connect America Phase II model-based support shall be provided to price cap carriers that elect to make a state-wide commitment for five years. Connect America Phase II support awarded through a competitive bidding process shall be provided for ten years.

(c) Deployment schedule. Recipients of Phase II funding must complete deployment to 85% of supported locations within three years of notification of Phase II support authorization and to 100% of supported locations within five years of notification of Phase II support authorization. For purposes of meeting the obligation to deploy to the requisite number of supported locations, incumbent price cap carriers accepting a state-level commitment may serve locations in census blocks with costs above the extremely high-cost threshold instead of locations in eligible census blocks, provided that they meet the public interest obligations set forth in §54.309 for those locations, and provided that the total number of locations covered is greater than or equal to the number of locations in the eligible census blocks for which the state-level commitment is made.

(d) Disbursement of Phase II funding. An eligible telecommunications carrier will be advised by public notice when it is authorized to receive support. The public notice will detail how disbursements will be made.

(e) Provider eligibility. Any eligible telecommunications carrier is eligible to receive Connect America Phase II support in eligible areas.
(1) An entity may obtain eligible telecommunications carrier designation after public notice of winning bidders in a competitive bidding process for the offer of Phase II Connect America support. An applicant in the competitive bidding process shall certify that it is financially and technically qualified to provide the services supported by Connect America Phase II in order to receive such support.

(2) To the extent an applicant in the competitive bidding process seeks eligible telecommunications carrier designation prior to public notice of winning bidders for Phase II Connect America support, its designation as an eligible telecommunications carrier may be conditional subject to the receipt of Phase II Connect America support.

(f) Transition to model-based support. Eligible telecommunications carriers electing model-based support in states where that support is less than their Phase I frozen support will transition to model-based support as follows: In addition to model-based support, in the first year of Phase II, they will receive 75% of the difference between Phase I frozen support and model-based support; in the second year of Phase II, they will receive 50% of the difference between Phase I frozen support and model-based support; and in the third year of Phase II, they will receive 25% of the difference between Phase I frozen support and model-based support.

§ 54.312 Connect America Fund for Price Cap Territories—Phase I.

(a) Frozen High-Cost Support. Beginning January 1, 2012, each price cap local exchange carrier and rate-of-return carrier affiliated with a price cap local exchange carrier will have a “baseline support amount” equal to its total 2011 support in a given study area, or an amount equal to $3,000 times the number of reported lines for 2011, whichever is lower. For purposes of this section, price cap carriers are defined pursuant to §61.3(aa) of this chapter and affiliated companies are determined by §32.9000 of this chapter. Each price cap local exchange carrier and rate-of-return carrier affiliated with a price cap local exchange carrier will have a “monthly baseline support amount” equal to its baseline support amount divided by twelve. Beginning January 1, 2012, on a monthly basis, eligible carriers will receive their monthly baseline support amount.

(1) “Total 2011 support” is the amount of support disbursed to a price cap local exchange carrier or rate-of-return carrier affiliated with a price cap local exchange carrier for 2011, without regard to prior period adjustments related to years other than 2011 and as determined by USAC on January 31, 2012.

(2) For the purpose of calculating the $3,000 per line limit, the average of lines reported by a price cap local exchange carrier or rate-of-return carrier affiliated with a price cap local exchange carrier pursuant to line count filings required for December 31, 2010, and December 31, 2011 shall be used.

(3) A carrier receiving frozen high cost support under this rule shall be deemed to be receiving Interstate Access Support and Interstate Common Line Support equal to the amount of support the carrier to which the carrier was eligible under those mechanisms in 2011.

(b) Incremental Support in 2012. From January 1, 2012, to December 31, 2012, support in addition to baseline support defined in paragraph (a) of this section will be available for certain price cap local exchange carriers and rate-of-return carriers affiliated with price cap local exchange carriers as follows.

(1) For each carrier for which the Wireline Competition Bureau determines that it has appropriate data or for which it determines that it can make reasonable estimates, the Bureau will determine an average per-location cost for each wire center using a simplified cost-estimation function derived from the Commission’s cost model. Incremental support will be based on the wire centers for which the estimated per-location cost exceeds the
