§ 76.1610 Change of operational information.

The Operator shall inform the Commission on FCC Form 324 whenever there is a change of cable television system operator; change of legal name, change of the operator’s mailing address or FCC Registration Number (FRN); or change in the operational status of a cable television system. Notification must be done within 30 days from the date the change occurs and must include the following information, as appropriate:

(a) The legal name of the operator and whether the operator is an individual, private association, partnership, corporation, or government entity. See §76.5(cc). If the operator is a partnership, the legal name of the partner responsible for communications with the Commission shall be supplied;

(b) The assumed name (if any) used for doing business in each community;

(c) The physical address, including zip code, and e-mail address, if applicable, to which all communications are to be directed;

(d) The nature of the operational status change (e.g., operation terminated, merged with another system, inactive, deleted, etc.);

(e) The names and FCC identifiers (e.g., CA 0001) of the system communities affected.

(f) The operator’s FCC Registration Number (FRN) as required under part 1, subpart W of this chapter.

(g) The FCC Registration Number (FRN).

Note 1 to §76.1610: FCC system community identifiers are routinely assigned upon registration. They have been assigned to all reported system communities based on previous Form 325 data. If a system community in operation prior to March 31, 1972, has not previously been assigned a system community identifier, the operator shall provide the following information in lieu of the identifier: Community Name, Community Type (i.e., incorporated town, unincorporated settlement, etc.), County Name, State, Operator Legal Name, Operator Assumed Name for Doing Business in the Community, Operator

§ 76.1604 Charges for customer service changes.

If a cable operator establishes a higher charge for changes effected solely by coded entry on a computer terminal or by other similarly simple methods, as provided in §76.980(d), the cable system must notify all subscribers in writing that they may be subject to such a charge for changing service tiers more than the specified number of times in any 12 month period.

§ 76.1607 Principal headend.

A cable operator shall provide written notice by certified mail to all stations carried on its system pursuant to the must-carry rules at least 60 days prior to any change in the designation of its principal headend.

§ 76.1608 System technical integration requiring uniform election of must-carry or retransmission consent status.

A cable system that changes its technical configuration in such a way as to integrate two formerly separate cable systems must give 90 days notice of its intention to do so to any television broadcast stations that have elected must-carry status with respect to one system and retransmission consent status with respect to the other. If the system and the station do not agree on a uniform election 45 days prior to integration, the cable system may require the station to make such a uniform election 30 days prior to integration.

§ 76.1609 Non-duplication and syndicated exclusivity.

Within 60 days following the provision of service to 1,000 subscribers, the operator of each such system shall file a notice to that effect with the Commission, and serve a copy of that notice on every television station that would be entitled to exercise network non-duplication protection or syndicated exclusivity protection against it.
Mail Address, and Year and Month service was first provided by the physical system.

§76.1611 Political cable rates and classes of time.

If a system permits a candidate to use its cablecast facilities, the system shall disclose to all candidates information about rates, terms, conditions and all value-enhancing discount privileges offered to commercial advertisers. Systems may use reasonable discretion in making the disclosure; provided, however, that the disclosure includes, at a minimum, the following information:

(a) A description and definition of each class of time available to commercial advertisers sufficiently complete enough to allow candidates to identify and understand what specific attributes differentiate each class;

(b) A description of the lowest unit charge and related privileges (such as priorities against preemption and make goods prior to specific deadlines) for each class of time offered to commercial advertisers;

(c) A description of the system’s method of selling preemptible time based upon advertiser demand, commonly known as the “current selling level,” with the stipulation that candidates will be able to purchase at these demand-generated rates in the same manner as commercial advertisers;

(d) An approximation of the likelihood of preemption for each kind of preemptible time; and

(e) An explanation of the system’s sales practices, if any, that are based on audience delivery, with the stipulation that candidates will be able to purchase this kind of time, if available to commercial advertisers.

§76.1614 Identification of must-carry signals.

A cable operator shall respond in writing within 30 days to any written request by any person for the identification of the signals carried on its system in fulfillment of the must-carry requirements of §76.56.

§76.1615 Sponsorship identification.

(a) When a cable television system operator engaged in origination cablecasting presents any matter for which money, service, or other valuable consideration is either directly or indirectly paid or promised to, or charged or accepted by such cable television system operator, the cable television system operator, at the time of the cablecast, shall announce that such matter is sponsored, paid for, or furnished, either in whole or in part, and by whom or on whose behalf such consideration was supplied: Provided, however, that “service or other valuable consideration” shall not include any service or property furnished either without or at a nominal charge for use on, or in connection with, a cablecast unless it is so furnished in consideration for an identification of any person, product, service, trademark, or brand name beyond an identification reasonably related to the use of such service or property on the cablecast. For the purposes of this section, the term “sponsored” shall be deemed to have the same meaning as “paid for.” In the case of any political advertisement cablecast under this paragraph that concerns candidates for public office, the sponsor shall be identified with letters equal to or greater than four (4) percent of the vertical picture height that air for not less than four (4) seconds.

(b) Each cable television system operator engaged in origination cablecasting shall exercise reasonable diligence to obtain from employees, and from other persons with whom the system operator deals directly in connection with any matter for cablecasting, information to enable such system operator to make the announcement required by this section.

(c) In the case of any political origination cablecast matter or any origination cablecast matter involving the discussion of public controversial issues for which any film, record, transcription, talent, script, or other material or service of any kind is furnished, either directly or indirectly, to a cable television system operator as an inducement for cablecasting such matter, an announcement shall be made both at the beginning and conclusion of such
