(iii) The modification of any sealed bid or negotiated contract (whether or not certified cost or pricing data were initially required) or any subcontract covered by paragraph (a)(1)(ii) of this subsection. Price adjustment amounts must consider both increases and decreases (e.g., a $200,000 modification resulting from a reduction of $500,000 and an increase of $300,000 is a pricing adjustment exceeding $700,000). This requirement does not apply when unrelated and separately priced changes for which certified cost or pricing data would not otherwise be required are included for administrative convenience in the same modification. Negotiated final pricing actions (such as termination settlements and total final price agreements for fixed-price incentive and redeterminable contracts) are contract modifications requiring certified cost or pricing data if—

(A) The total final price agreement for such settlements or agreements exceeds the pertinent threshold set forth at paragraph (a)(1) of this subsection; or

(B) The partial termination settlement plus the estimate to complete the continued portion of the contract exceeds the pertinent threshold set forth at paragraph (a)(1) of this subsection (see 49.105(c)(15)).

(2) Unless prohibited because an exception at 15.403-1(b) applies, the head of the contracting activity, without power of delegation, may authorize the contracting officer to obtain certified cost or pricing data for pricing actions below the pertinent threshold set forth in paragraph (a)(1) of this subsection, provided the action exceeds the simplified acquisition threshold. The head of the contracting activity shall justify the requirement for certified cost or pricing data. The documentation shall include a written finding that certified cost or pricing data are necessary to determine whether the price is fair and reasonable and the facts supporting that finding.

(b) When certified cost or pricing data are required, the contracting officer shall require the contractor or prospective contractor to submit to the contracting officer (and to have any subcontractor or prospective subcontractor submit to the prime contractor or appropriate subcontractor tier) the following in support of any proposal:

(1) The certified cost or pricing data and data other than certified cost or pricing data required by the contracting officer to determine that the price is fair and reasonable.

(2) A Certificate of Current Cost or Pricing Data, in the format specified in 15.406-2, certifying that to the best of its knowledge and belief, the cost or pricing data were accurate, complete, and current as of the date of agreement on price or, if applicable, an earlier date agreed upon between the parties that is as close as practicable to the date of agreement on price.

(c) If certified cost or pricing data are requested and submitted by an offeror, but an exception is later found to apply, the data must not be considered certified cost or pricing data as defined in 2.101 and must not be certified in accordance with 15.406-2.

(d) The requirements of this subsection also apply to contracts entered into by an agency on behalf of a foreign government.

15.403-5 Instructions for submission of certified cost or pricing data.

(a) Taking into consideration the policy at 15.402, the contracting officer shall specify in the solicitation (see 15.408 (l) and (m))—

(1) Whether certified cost or pricing data are required;

(2) That, in lieu of submitting certified cost or pricing data, the offeror may submit a request for exception from the requirement to submit certified cost or pricing data;

(3) Any requirement for data other than certified cost or pricing data; and

(4) The requirement for necessary preaward or postaward access to offeror’s records.

(b)(1) Format for submission of certified cost or pricing data. When certification is required, the contracting officer may require submission of certified cost or pricing data in the format indicated in
Table 15-2 of 15.408, specify an alternative format, or permit submission in the contractor’s format (See 15.408(l)(1)), unless the data are required to be submitted on one of the termination forms specified in subpart 49.6.

(2) Format for submission of data other than certified cost or pricing data. When required by the contracting officer, data other than certified cost or pricing data may be submitted in the offeror’s own format unless the contracting officer decides that use of a specific format is essential for evaluating and determining that the price is fair and reasonable and the format has been described in the solicitation.

(3) Format for submission of data supporting forward pricing rate agreements. Data supporting forward pricing rate agreements or final indirect cost proposals shall be submitted in a form acceptable to the contracting officer.

[75 FR 53145, Aug. 30, 2010]

15.404 Proposal analysis.

15.404–1 Proposal analysis techniques.

(a) General. The objective of proposal analysis is to ensure that the final agreed-to price is fair and reasonable.

(1) The contracting officer is responsible for evaluating the reasonableness of the offered prices. The analytical techniques and procedures described in this section may be used, singly or in combination with others, to ensure that the final price is fair and reasonable. The complexity and circumstances of each acquisition should determine the level of detail of the analysis required.

(2) Price analysis shall be used when certified cost or pricing data are not required (see paragraph (b) of this subsection and 15.404–3).

(3) Cost analysis shall be used to evaluate the reasonableness of individual cost elements when certified cost or pricing data are required. Price analysis should be used to verify that the overall price offered is fair and reasonable.

(4) Cost analysis may also be used to evaluate data other than certified cost or pricing data to determine cost reasonableness or cost realism when a fair and reasonable price cannot be determined through price analysis alone for commercial or non-commercial items.

(5) The contracting officer may request the advice and assistance of other experts to ensure that an appropriate analysis is performed.

(6) Recommendations or conclusions regarding the Government’s review or analysis of an offeror’s or contractor’s proposal shall not be disclosed to the offeror or contractor without the concurrence of the contracting officer. Any discrepancy or mistake of fact (such as duplications, omissions, and errors in computation) contained in the certified cost or pricing data or data other than certified cost or pricing data submitted in support of a proposal shall be brought to the contracting officer’s attention for appropriate action.

(7) The Air Force Institute of Technology (AFIT) and the Federal Acquisition Institute (FAI) jointly prepared a five-volume set of Contract Pricing Reference Guides to guide pricing and negotiation personnel. The five guides are: I Price Analysis, II Quantitative Techniques for Contract Pricing, III Cost Analysis, IV Advanced Issues in Contract Pricing, and V Federal Contract Negotiation Techniques. These references provide detailed discussion and examples applying pricing policies to pricing problems. They are to be used for instruction and professional guidance. However, they are not directive and should be considered informational only. They are available via the internet at http://www.acq.osd.mil/dpap/cpic/cp/contract_pricing_reference_guides.html.

(b) Price analysis for commercial and non-commercial items. (1) Price analysis is the process of examining and evaluating a proposed price without evaluating its separate cost elements and proposed profit. Unless an exception from the requirement to obtain certified cost or pricing data applies under 15.403–1(b)(1) or (b)(2), at a minimum, the contracting officer shall obtain appropriate data, without certification, on the prices at which the same or similar items have previously been sold and determine if the data is adequate for evaluating the reasonableness of the price. Price analysis may include evaluating data other than certified...
