(2) Documentation of approval for the human subjects research protocol, questionnaires, surveys, advertisements, and informed consent forms by the cognizant IRB;

(3) Documentation of continuing IRB approval by the cognizant IRB at appropriate intervals as designated by the IRB, but not less than annually; and/or

(4) Documentation to support an exemption for the project from the Common Rule [Note: this option is not available for activities that fall under 45 CFR part 46 subpart C].

(f) In addition, if the contractor modifies a human subjects research protocol, questionnaire, survey, advertisement, or informed consent form approved by the cognizant IRB, the contractor shall submit a copy of all modified material along with documentation of approval for said modification by the cognizant IRB to the Contracting Officer for institutional review and approval. The contractor shall not implement any IRB approved-modification without written approval by the Contracting Officer.

(g) No work involving human subjects may be undertaken, conducted, or costs incurred and/or charged to the project, until the Contracting Officer approves the required appropriate documentation in writing.

(End of provision)

[75 FR 10570, Mar. 8, 2010; 75 FR 14496, Mar. 26, 2010]

As prescribed in 48 CFR 1335.006(b), insert the following clause:

PROTECTION OF HUMAN SUBJECTS (APR 2010)

(a) Contractor has satisfied the requirements set forth in solicitation # , related to the Protection of Human Subjects in research. The Government has determined that the research involving human subjects to be conducted under this contract is exempt from the requirements of the Common Rule for the Protection of Human Subjects. The exemption memorandum executed by the Government and the attachments are hereby incorporated by reference into this contract. If contractor uses an informed consent form for the exempt research, contractor must use the informed consent form contained in the attachments in its conduct of research involving human subjects under this contract.

(b) If the conditions upon which the exemption is based should change in any way, contractor shall immediately notify the Contracting Officer in writing of the specified change. The Government will review the change and make a determination as to whether the change requires a change to the exemption approval. Contractor shall not proceed until notified in writing of the Contracting Officer’s approval. Contractor shall obtain prior written approval from the Contracting Officer for any change to the existing human subjects protocol or informed consent form before proceeding.

(c) No other research involving human subjects is permitted under this award unless expressly authorized in writing by the Contracting Officer. Such writing will specify the details of the approved research involving human subjects and will be incorporated by reference into this contract.

(d) The Federal Policy for the Protection of Human Subjects (the “Common Rule”), adopted by the Department of Commerce at 15 CFR Part 27, requires contractors to maintain appropriate policies and procedures for the protection of human subjects in research. The Common Rule defines a “human subject” as a living individual about whom an investigator conducting research obtains data through intervention or interaction with the individual, or identifiable private information. The term “research” means a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.

(e) The Common Rule also sets forth categories of research that may be considered exempt from this policy. These categories may be found at 15 CFR 27.181(b).

(f) In the event the human subjects research involves pregnant women, prisoners, or children, contractor is also required to follow the guidelines set forth at 45 CFR part 46 subpart B, C and D, as appropriate, for the protection of members of a protected class.

(g) Should additional research involving human subjects be required under the contract, prior to beginning such research, contractor shall submit the following documentation to the Contracting Officer:

(1) Documentation to verify that contractor has established a relationship with an appropriate Institutional Review Board (“cognizant IRB”). An appropriate IRB is one that is located within the United States and within the community in which the human subjects research will be conducted;

(2) Documentation to verify that the cognizant IRB is registered with the United States Department of Health and Human Services’ Office for Human Research Protections (“OHRP”) and is designated as contractor’s cognizant IRB;

(3) Documentation to verify that contractor has a valid Federal-wide Assurance (FWA) issued by OHRP; or

(4) Documentation necessary to support a determination that the research is exempt from the requirements of the Common Rule for the Protection of Human Subjects.
Department of Commerce

(b) Prior to starting any additional research involving human subjects, the contractor shall submit appropriate documentation to the Contracting Officer for institutional review and approval or exemption determination. This documentation may include:

(1) Copies of the human subjects research protocol, all questionnaires, surveys, advertisements, and informed consent forms approved by the cognizant IRB;
(2) Documentation of approval for the human subjects research protocol, questionnaires, surveys, advertisements, and informed consent forms by the cognizant IRB;
(3) Documentation of continuing IRB approval by the cognizant IRB at appropriate intervals as designated by the IRB, but not less than annually; and/or
(4) Documentation to support an exemption for the project from the Common Rule (Note: this option is not available for activities that fall under 45 CFR part 46 subpart C).

(i) In addition, if the contractor modifies a human subjects research protocol, questionnaire, survey, advertisement, or informed consent form approved by the cognizant IRB, the contractor shall submit a copy of all modified material along with documentation of approval for said modification by the cognizant IRB to the Contracting Officer for institutional review and approval. The contractor may not implement any IRB approved modification without written approval by the Contracting Officer.

No work involving human subjects may be undertaken, conducted, or costs incurred and/or charged to the project, until the Contracting Officer approves the required appropriate documentation in writing.

(End of clause)

As prescribed in 48 CFR 1335.006(c), insert the following clause:

**Protection of Human Subjects—Institutional Approval (APR 2010)**

(a) This contract/order includes non-exempt human subjects research that must be conducted pursuant to the requirements of the Federal Policy for the Protection of Human Subjects (the “Common Rule”), adopted by the Department of Commerce at 15 CFR part 27. Contractor has submitted documentation establishing review and approval of the human subjects research protocol, including all informed consent forms, advertisements, and other recruitment materials, by a qualified Institutional Review Board (IRB) that has a current Federal-wide Assurance (FWA) issued by the Department of Health and Human Services (DHHS).

(b) By accepting this contract/order, the contractor certifies the accuracy of the documentation provided to its cognizant IRB and to the Government in support of the human subjects research specified therein. Based upon the contractor’s documentation and following the Government institutional review thereof, the following specific involvement of human subjects in research is hereby approved by the Contracting Officer:

<table>
<thead>
<tr>
<th>Name of IRB:</th>
</tr>
</thead>
<tbody>
<tr>
<td>(IRB # )</td>
</tr>
<tr>
<td>Title of IRB Protocol:</td>
</tr>
<tr>
<td>Recruiting Letter Approval Date (if appropriate):</td>
</tr>
<tr>
<td>Consent Form Approval Date:</td>
</tr>
<tr>
<td>Assurance of Compliance Number:</td>
</tr>
</tbody>
</table>

(c) Unless incorporated by written contract modification approved by the Contracting Officer, no other involvement of human subjects in research under this contract may be undertaken or conducted, or costs incurred and/or charged to the project, except as specified in the study plan reviewed and approved by the cognizant IRB and Government. Therefore, if the contractor modifies a human subjects research protocol, advertisement, or informed consent form approved by the cognizant IRB, contractor shall submit a copy of all modified materials, along with documentation of approval for said modification by the cognizant IRB, to the Contracting Officer for agency institutional review and approval. Contractor may not implement any IRB-approved modification without written approval by the Contracting Officer.

Documentation of continuing IRB approval is required each year by the renewal date assigned by the cognizant IRB. Documentation of continuing IRB approval must be submitted to the Government for review and approval as soon as it occurs. Continuing approval of the human subjects research must be obtained from the cognizant IRB and provided to the Government until the research is completed or terminated. The contractor may proceed with previously approved human subjects research, if any, under this contract while the Government is conducting continuing review and approval of the human subjects research protocol. In the event that the Government determines, during the course of its review, that the human subjects research in this contract is not in compliance with the regulations set forth at 15 CFR part 27, or this contract, the Contracting Officer may take the appropriate enforcement action, including disallowing costs, suspending or terminating the human subjects protocol or the contract, by notifying the contractor in writing.
