interest of the program or project involved. The “cost-plus-a-percentage-of-cost” or “percentage of construction cost” methods of contracting shall not be used.

(d) Contracts shall be made only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of the proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources or accessibility to other necessary resources. In certain circumstances, contracts with certain parties are restricted by 49 CFR part 660, Buy America Requirements and part 661, Buy America Requirements—STAA of 1982. In addition, for FTA recipients, nonregulatory guidance is contained in FTA Circular 4220.1B, Third Party Contracting Guidelines, Chapter I, section 11. Non-regulatory guidance for FAA programs is contained in FAA Order 5100.38A and special conditions in grant awards.

(e) Recipients shall, on request, make available for the Federal awarding agency, pre-award review and procurement documents, such as request for proposals or invitations for bids, independent cost estimates, etc., when any of the following conditions apply.

1. A recipient’s procurement procedures or operation fails to comply with the procurement standards in this part.

2. The procurement is expected to exceed the small purchase threshold fixed at 41 U.S.C. 403 (11) (currently $25,000) and is to be awarded without competition or only one bid or offer is received in response to a solicitation.

3. The procurement, which is expected to exceed the small purchase threshold, specifies a “brand name” product.

4. The proposed award over the small purchase threshold, specifies an apparently low bidder under a sealed bid procurement.

5. A proposed contract modification changes the scope of a contract or increases the contract amount by more than the amount of the small purchase threshold.

(f) Additional procurement procedures.

2. Section 511(a)(16) of the Airport and Airway Improvement Act of 1982, 49 U.S.C. app. 2210, requires FAA recipients and subrecipients to extend the use of qualifications-based (e.g., architectural and engineering services) contract selection procedures to certain other related areas and to award such contracts in the same manner as Federal contracts for architectural and engineering services are negotiated under Title IX of the 1949 Federal Property and Administrative Services Act, or equivalent airport sponsor qualifications-based requirements. Non-regulatory guidance for FAA programs is contained in FAA Order 5100.38A and special conditions in grant awards.

3. Section 3(a)(2)(C) of the Federal Transit Act, as amended, (49 U.S.C. app. 1602(a)(2)(C)) prohibits the use of grant or loan funds to support procurements utilizing exclusionary or discriminatory specifications. Nonregulatory guidance is contained in FTA Circular 4220.1B, Third Party Contracting Guidelines, Chapter I, section 15 and Attachment A.

§ 19.45 Cost and price analysis.

Some form of cost or price analysis shall be made and documented in the
§ 19.46 Procurement records.

Procurement records and files for purchases in excess of the small purchase threshold shall include the following at a minimum:

(a) Basis for contractor selection,
(b) Justification for lack of competition when competitive bids or offers are not obtained, and
(c) Basis for award cost or price.

§ 19.47 Contract administration.

A system for contract administration shall be maintained to ensure contractor conformance with the terms, conditions and specifications of the contract and to ensure adequate and timely follow up of all purchases. Recipients shall evaluate contractor performance and document, as appropriate, whether contractors have met the terms, conditions, and specifications of the contract.

§ 19.48 Contract provisions.

The recipient shall include, in addition to provisions to define a sound and complete agreement, the following provisions in all contracts. The following provisions shall also be applied to subcontracts.

(a) Contracts in excess of the small purchase threshold shall contain contractual provisions or conditions that allow for administrative, contractual, or legal remedies in instances in which a contractor violates or breaches the contract terms, and provide for such remedial actions as may be appropriate.

(b) All contracts in excess of the small purchase threshold shall contain suitable provisions for termination by the recipient, including the manner by which termination shall be effected and the basis for settlement. In addition, such contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(c) Except as otherwise required by statute, an award that requires the contracting (or subcontracting) for construction or facility improvements shall provide for the recipient to follow its own requirements relating to bid guarantees, performance bonds, and payment bonds unless the construction contract or subcontract exceeds $100,000. For those contracts or subcontracts exceeding $100,000, the Federal awarding agency may accept the bonding policy and requirements of the recipient, provided the Federal awarding agency has made a determination that the Federal Government’s interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder shall, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the contractor’s obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A “payment bond” is one executed in connection with a contract to assure payment as required by statute of all persons supplying labor and material in the execution of the work provided for in the contract.

(4) Where bonds are required in the situations described herein, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties pursuant to 31 CFR part 223, “Surety Companies Doing Business with the United States.”

(d) All negotiated contracts (except those for less than the small purchase threshold) awarded by recipients shall...
