the provision of an accessible OTRB, the operator must meet this request, as long as it does not displace another passenger with a reservation.

Example 4. A tour bus trip is nearly sold out three weeks in advance of the trip date. A passenger with a disability calls 48 hours before the trip is scheduled to leave and requests a seat and the provision of an accessible OTRB. The operator need not meet this request if it will have the effect of displacing a passenger with an existing reservation. If other passengers would not be displaced, the operator must meet this request.

§ 37.191 Special provision for small mixed-service operators.

(a) For purposes of this section, a small mixed-service operator is a small operator that provides both fixed-route and demand-responsive service and does not use more than 25 percent of its buses for fixed-route service.

(b) An operator meeting the criteria of paragraph (a) of this section may conduct all its trips, including fixed-route trips, on an advance-reservation basis as provided for demand-responsive trips in § 37.189. Such an operator is not required to comply with the accessible bus acquisition/equivalent service obligations of § 37.183(b).

§ 37.193 Interim service requirements.

(a) Until 100 percent of the fleet of a large or small operator uses to provide fixed-route service is composed of accessible OTRBs, the operator shall meet the following interim service requirements:

(i) Beginning one year from the date on which the requirements of this subpart begin to apply to the operator, it shall ensure that any individual with a disability that requests service in an accessible OTRB receives such service.

(ii) The operator may require up to 48 hours’ advance notice to provide this service.

(iii) If the individual with a disability does not provide the advance notice the operator requires, the operator shall nevertheless provide the service if it can do so by making a reasonable effort.

(b) Demand-responsive systems. The requirements of § 37.189 apply to demand-responsive systems operated by private entities not primarily in the business of transporting people. If such an entity operates a demand-responsive system, and purchases or leases an OTRB for or in contemplation of use on the system, it is not required to purchase or lease an accessible bus except as needed to meet the requirements of § 37.189.

§ 37.195 Purchase or lease of OTRBs by private entities not primarily in the business of transporting people.

This section applies to all purchases or leases of new vehicles by private entities which are not primarily engaged in the business of transporting people, with respect to buses delivered to them on or after the date on which this subpart begins to apply to them.

(a) Fixed-route systems. If the entity operates a fixed-route system and purchases or leases an OTRB for or in contemplation of use on the system, it shall meet the requirements of § 37.183 (a) or (b), as applicable.

(b) Demand-responsive systems. The requirements of § 37.189 apply to demand-responsive systems operated by private entities not primarily in the business of transporting people. If such an entity operates a demand-responsive system, and purchases or leases an OTRB for or in contemplation of use on the system, it is not required to purchase or lease an accessible bus except as needed to meet the requirements of § 37.189.

§ 37.197 Remanufactured OTRBs.

(a) This section applies to any private entity operating OTRBs that takes one of the following actions:

(i) On or after the date on which this subpart applies to the entity, it remanufactures an OTRB so as to extend its useful life for five years or more or makes a solicitation for such remanufacturing; or

(ii) Purchases or leases an OTRB which has been remanufactured so as to extend its useful life for five years
