§ 39.51 What is the general requirement for PVOs’ provision of auxiliary aids and services to passengers?

(a) If you are a PVO that is a public entity, you must furnish appropriate auxiliary aids and services where necessary to afford an individual with a disability an equal opportunity to participate in, and enjoy the benefits of, a service, program or activity. In determining what type of auxiliary aid or service is necessary, you must give primary consideration to the requests of individuals with disabilities.

(b) If you are a PVO that is a private entity, you must furnish appropriate auxiliary aids or services where necessary to ensure effective communication with individuals with disabilities.

(c) If a provision of a particular auxiliary aid or service would result in a fundamental alteration in the nature of the goods, services, facilities, privileges, advantages, or accommodations being offered or in an undue burden, you shall provide an alternative auxiliary aid or service, if one exists, that would not result in a fundamental alteration or undue burden but would nevertheless ensure that, to the maximum extent possible, individuals with disabilities receive the goods, services, facilities, privileges, advantages, or accommodations you offer.

(d) As a PVO, it is your responsibility, not that of a passenger with a disability, to provide needed auxiliary aids and services.

§ 39.53 What information must PVOs provide to passengers with a disability?

As a PVO, you must provide the following information to individuals who self-identify as having a disability (including those who are deaf or hard of hearing or who are blind or visually impaired) or who request disability-related information, or persons making inquiries on the behalf of such persons. The information you provide must, to the maximum extent feasible, be specific to the vessel a person is seeking to travel on or use.

(a) The availability of accessible facilities on the vessel including, but not limited to, means of boarding the vessel, toilet rooms, staterooms, decks, dining, and recreational facilities.

(b) Any limitations of the usability of the vessel or portions of the vessel by people with mobility impairments;

(c) Any limitations on the accessibility of boarding and disembarking at ports at which the vessel will call (e.g., because of quarantine regulations) and provisions for the care of an animal acceptable to the PVO that the passenger must meet when the passenger disembarks at a port at which the animal must remain aboard the vessel.

(d) Any limitations on the accessibility of services or tours ancillary to the transportation provided by the vessel concerning which the PVO makes arrangements available to passengers;

(e) Any limitations on the ability of a passenger to take a service animal off the vessel at foreign ports at which the vessel will call and services or tours ancillary to the transportation provided by the vessel concerning which the PVO makes arrangements available to passengers.

§ 39.55 Must information and reservation services of PVOs be accessible to individuals with hearing or vision impairments?

This section applies to information and reservation services made available to persons in the United States.

(a) If, as a PVO, you provide telephone reservation or information service to the public, you must make this service available to individuals who are deaf or hard-of-hearing and who use a text telephone (TTY) or a TTY relay service (TRS).
