§ 390.103 Eligibility requirements for medical examiner certification.

(a) To receive medical examiner certification from FMCSA a person must:

(1) Be licensed, certified, or registered in accordance with applicable State laws and regulations to perform physical examinations. The applicant must be an advanced practice nurse, doctor of chiropractic, doctor of medicine, doctor of osteopathy, physician assistant, or other medical professional authorized by applicable State laws and regulations to perform physical examinations.

(2) Complete a training program that meets the requirements of § 390.105.

(3) Pass the medical examiner certification test provided by FMCSA and administered by a testing organization that meets the requirements of § 390.107 and that has electronically forwarded to FMCSA the applicant's completed test and application information no more than three years after completion of the training program required by paragraph (a)(2) of this section. An applicant must not take the test more than once every 30 days.

(b) If a person has medical examiner certification from FMCSA, then to renew such certification the medical examiner must remain qualified under paragraph (a)(1) of this section and complete additional testing and training as required by § 390.111(a)(5).

§ 390.105 Medical examiner training programs.

An applicant for medical examiner certification must complete a training program that:

(a) Is conducted by a training provider that:

(1) Is accredited by a nationally recognized medical profession accrediting organization to provide continuing education units; and

(2) Meets the following administrative requirements:

(i) Provides training participants with proof of participation.

(ii) Provides FMCSA point of contact information to training participants.

(b) Provides training to medical examiners on the following topics:

(i) Background, rationale, mission, and goals of the FMCSA medical examiner's role in reducing crashes, injuries, and fatalities involving commercial motor vehicles.

(ii) Familiarization with the responsibilities and work environment of commercial motor vehicle operation.

(iii) Identification of the operator and obtaining, reviewing, and documenting operator medical history, including prescription and over-the-counter medications.

(iv) Performing, reviewing, and documenting the operator's medical examination.

(v) Performing, obtaining, and documenting additional diagnostic tests or medical opinion from a medical specialist or treating physician.

(vi) Informing and educating the operator about medications and non-disqualifying medical conditions that require remedial care.

(vii) Determining operator certification outcome and period for which certification should be valid.

(viii) FMCSA reporting and documentation requirements.

Guidance on the core curriculum specifications for use by training providers is available from FMCSA.

§ 390.107 Medical examiner certification testing.

An applicant for medical examiner certification or recertification must apply, in accordance with the minimum specifications for application elements established by FMCSA, to a testing organization that meets the following criteria:

(a) The testing organization has documented policies and procedures that:

(1) Use secure protocols to access, process, store, and transmit all test items, test forms, test data, and candidate information and ensure access by authorized personnel only.

(2) Ensure testing environments are reasonably comfortable and have minimal distractions.

(3) Prevent to the greatest extent practicable the opportunity for a test taker to attain a passing score by fraudulent means.

(4) Ensure that test center staff who interact with and proctor examinees or provide technical support have completed formal training, demonstrate
