Transportation Security Administration, DHS

§ 1554.101 Security Measures

(a) Applicability of this section. This section applies to part 145 certificated repair stations located—

(1) On airport. On an air operations area or security identification display area of an airport covered by an airport security program under 49 CFR part 1542 in the United States, or on the security restricted area of any commensurate airport outside the United States regulated by a government entity; or

(2) Adjacent to an airport. Adjacent to an area of the airport described in paragraph (a)(1) of this section if there is an access point between the repair station and the airport of sufficient size to allow the movement of large aircraft between the repair station and the area described in paragraph (a)(1) of this section.

(b) Security Measures. Each repair station described in paragraph (a) of this section must carry out the following measures:

(1) Provide TSA with the name and means of contact on a 24-hour basis of a person or persons designated by the repair station with responsibility for—

(i) Compliance with the regulations in this part;

(ii) Serving as the primary point(s) of contact for security-related activities and communications with TSA;

(iii) Maintaining a record of all employees responsible for controlling keys or other means used to control access to aircraft described in paragraph (b)(2) of this section; and

(iv) Maintaining all records necessary to comply with paragraph (b)(3) of this section.

(2) When not attended, prevent the unauthorized operation of all large aircraft capable of flight, by using one or more of the means listed in paragraphs (b)(2)(i) through (iv) of this section. In these examples, a key, if used, must only be available to an individual authorized by the repair station who has successfully undergone a check as described in paragraph (b)(3) of this section.

(i) Block the path of the aircraft such that it cannot be moved, and control
§ 1554.103 

Security Directives.

(a) General. When TSA determines that additional security measures are necessary to respond to a threat assessment or to a specific threat against civil aviation, TSA issues a Security Directive setting forth mandatory measures.

(b) Compliance. Each repair station must comply with each Security Directive TSA issues to the repair station within the time prescribed. Each repair station that receives a Security Directive must—

(1) Acknowledge receipt of the Security Directive as directed by TSA;

(2) Specify the method by which security measures have been or will be implemented to meet the effective date; and

(3) Notify TSA to obtain approval of alternative measures if the repair station is unable to implement the measures in the Security Directive.

(c) Availability. Each repair station that receives a Security Directive and each person who receives information from a Security Directive must—

(1) Restrict the availability of the Security Directive and the information contained in the document to persons who have an operational need to know; and

(2) Refuse to release the Security Directive or the information contained in the document to persons other than those who have an operational need to know without the prior written consent of TSA.
