Fishery Conservation and Management

§ 622.43

projected to reach the stock ACL, the AA will file a notification with the Office of the Federal Register to close the commercial and recreational sectors for the remainder of that fishing year. The stock ACL for cubera snapper is 5,065 lb (2,297 kg), round weight.

(n) Yellowtail snapper. If the sum of the commercial and recreational landings, as estimated by the SRD, exceeds the stock ACL, then during the following fishing year, if the sum of commercial and recreational landings reaches or is projected to reach the stock ACL, the AA will file a notification with the Office of the Federal Register to close the commercial and recreational sectors for the remainder of that fishing year. The stock ACL for yellowtail snapper is 901,125 lb (408,743 kg), round weight.

(o) Mutton snapper. If the sum of the commercial and recreational landings, as estimated by the SRD, exceeds the stock ACL, then during the following fishing year, if the sum of commercial and recreational landings reaches or is projected to reach the stock ACL, the AA will file a notification with the Office of the Federal Register to close the commercial and recreational sectors for the remainder of that fishing year. The stock ACL for mutton snapper is 203,000 lb (92,079 kg), round weight.

(p) Hogfish. If the sum of the commercial and recreational landings, as estimated by the SRD, exceeds the stock ACL, then during the following fishing year, if the sum of commercial and recreational landings reaches or is projected to reach the stock ACL, the AA will file a notification with the Office of the Federal Register to close the commercial and recreational sectors for the remainder of that fishing year. The stock ACL for hogfish is 208,000 lb (94,347 kg), round weight.

(q) Red snapper—(1) Commercial sector. [Reserved]

(2) Recreational sector. (i) The AA will determine the length of the red snapper recreational fishing season based on when recreational landings are projected to reach the recreational ACT specified in paragraph (q)(2)(ii) of this section, and announce the closure date in the FEDERAL REGISTER. This will serve as an in-season accountability measure. On and after the effective date of the recreational closure notification, the bag and possession limit for red snapper are zero.

(ii) The recreational ACT for red snapper is 4,312 million lb (1.956 million kg), round weight.

EFFECTIVE DATE NOTE: At 79 FR 27771, May 15, 2014, § 622.41 was amended by adding paragraph (q), effective May 15, 2014 through Nov. 11, 2014.

§ 622.42 Adjustment of management measures.

In accordance with the framework procedures of the FMP for the Reef Fish Resources of the Gulf of Mexico, the RA may establish or modify the items specified in paragraph (a) of this section for Gulf reef fish.

(a) For a species or species group: Reporting and monitoring requirements, permitting requirements, bag and possession limits (including a bag limit of zero), size limits, vessel trip limits, closed seasons or areas and reopenings, annual catch limits (ACLs), annual catch targets (ACTs), quotas (including a quota of zero), accountability measures (AMs), MSY (or proxy), OY, management parameters such as overfished and overfishing definitions, gear restrictions (ranging from regulation to complete prohibition), gear markings and identification, vessel markings and identification, allowable biological catch (ABC) and ABC control rules, rebuilding plans, and restrictions relative to conditions of harvested fish (maintaining fish in whole condition, use as bait).

(b) [Reserved]

§ 622.43 Commercial trip limits.

Commercial trip limits are limits on the amount of the applicable species that may be possessed on board or landed, purchased, or sold from a vessel per day. A person who fishes in the EEZ may not combine a trip limit specified in this section with any trip or possession limit applicable to state waters. A species subject to a trip limit specified in this section taken in the EEZ may not be transferred at sea, regardless of where such transfer takes place, and such species may not be
transferred in the EEZ. Commercial trip limits apply as follows:

(a) Greater amberjack. Until the quota specified in §622.39(a)(1)(v) is reached, 2,000 lb (907 kg), round weight. See §622.39(b) for the limitations regarding greater amberjack after the quota is reached.

(b) Gray triggerfish. Until the commercial ACT (commercial quota) specified in §622.39(a)(1)(vi) is reached—12 fish. See §622.39(b) for the limitations regarding gray triggerfish after the commercial ACT (commercial quota) is reached.

[78 FR 22952, Apr. 17, 2013, as amended at 78 FR 27087, May 9, 2013]

Subpart C—Shrimp Fishery of the Gulf of Mexico

§622.50 Permits, permit moratorium, and endorsements.

(a) Gulf shrimp permit. For a person aboard a vessel to fish for shrimp in the Gulf EEZ or possess shrimp in or from the Gulf EEZ, a commercial vessel permit for Gulf shrimp must have been issued to the vessel and must be on board. See paragraph (b) of this section regarding a moratorium on commercial vessel permits for Gulf shrimp and the associated provisions. See paragraph (c) of this section, regarding an additional endorsement requirement related to royal red shrimp.

(b) Moratorium on commercial vessel permits for Gulf shrimp. The provisions of this paragraph (b) are applicable through October 26, 2016.

(1) Moratorium permits are required. The only valid commercial vessel permits for Gulf shrimp are commercial vessel moratorium permits for Gulf shrimp. In accordance with the procedures specified in the Fishery Management Plan for the Shrimp Fishery of the Gulf of Mexico (Gulf Shrimp FMP), all commercial vessel moratorium permits for Gulf shrimp have been issued. No additional permits will be issued.

(2) Permit transferability. Commercial vessel moratorium permits for Gulf shrimp are fully transferable, with or without the sale of the vessel. To request that the RA transfer a commercial vessel moratorium permit for Gulf shrimp, the owner of a vessel that is to receive the transferred permit must complete the transfer information on the reverse of the permit and return the permit and a completed application for transfer to the RA. Transfer documents must be notarized as specified in §622.4(f)(1).

(3) Renewal. (i) Renewal of a commercial vessel moratorium permit for Gulf shrimp is contingent upon compliance with the recordkeeping and reporting requirements for Gulf shrimp specified in §622.51(a).

(ii) A commercial vessel moratorium permit for Gulf shrimp that is not renewed will be terminated and will not be reissued during the moratorium. A permit is considered to be not renewed when an application for renewal, as required, is not received by the RA within 1 year of the expiration date of the permit.

(c) Gulf royal red shrimp endorsement. For a person aboard a vessel to fish for royal red shrimp in the Gulf EEZ or possess royal red shrimp in or from the Gulf EEZ, a commercial vessel permit for Gulf shrimp with a Gulf royal red shrimp endorsement must be issued to the vessel and must be on board.

(d) Permit procedures. See §622.4 for information regarding general permit procedures including, but not limited to, application, fees, duration, transfer, renewal, display, sanctions and denials, and replacement.

§622.51 Recordkeeping and reporting.

(a) Commercial vessel owners and operators—(1) General reporting requirement. The owner or operator of a vessel that fishes for shrimp in the Gulf EEZ or in adjoining state waters, or that lands shrimp in an adjoining state, must provide information for any fishing trip, as requested by the SRD, including, but not limited to, vessel identification, gear, effort, amount of shrimp caught by species, shrimp condition (heads on/heads off), fishing areas and depths, and person to whom sold.

(2) Electronic logbook reporting. The owner or operator of a vessel for which a Federal commercial vessel permit for Gulf shrimp has been issued and who is selected by the SRD must participate in the NMFS-sponsored electronic logbook reporting program as directed by
