§ 679.54 Release of observer data to the public.

(a) Summary of weekly data. The following information collected by observers for each catcher/processor and of monetary value from anyone who either conducts activities that are regulated by NMFS or has interests that may be substantially affected by the performance or nonperformance of the observer’s official duties.

(C) May not serve as an observer on any vessel or at any shoreside or stationary floating processing facility owned or operated by a person who previously employed the observer.

(D) May not solicit or accept employment as a crew member or an employee of a vessel, shoreside processor, or stationary floating processor in a North Pacific fishery while employed by an observer provider.

(ii) Provisions for remuneration of observers under this section do not constitute a conflict of interest.

(2) Standards of behavior. An observer fulfilling duties for operations in the full observer coverage category per § 679.51(a)(2) or (b)(2) must:

(i) Perform assigned duties as described in the Observer Manual or other written instructions from the Observer Program Office;

(ii) Accurately record their sampling data, write complete reports, and report accurately any observations of suspected violations of regulations relevant to conservation of marine resources or their environment; and

(iii) Not disclose collected data and observations made aboard the vessel or in the processing facility to any person except the owner or operator of the observed vessel or processing facility, an authorized officer, or NMFS.

(c) Suspension and decertification—(1) Suspension and decertification review official. The Regional Administrator will establish an observer suspension and decertification review official(s), who will have the authority to review observer certifications issued under paragraph (a) of this section and issue initial administrative determinations of observer certification suspension and/or decertification.

(2) Causes for suspension or decertification. The suspension/decertification official may initiate suspension or decertification proceedings against an observer:

(i) When it is alleged that the observer has committed any acts or omissions of any of the following:

(A) Failed to satisfactorily perform the duties of an observer as specified in writing by the Observer Program; or

(B) Failed to abide by the standards of conduct for an observer as prescribed under paragraph (b) of this section;

(ii) Upon conviction of a crime or upon entry of a civil judgment for:

(A) Commission of fraud or other violation in connection with obtaining or attempting to obtain certification, or in performing the duties as specified in writing by the Observer Program;

(B) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(C) Commission of any other offense indicating a lack of integrity or honesty that seriously and directly affects the fitness of observers.

(3) Issuance of initial administrative determination. Upon determination that suspension or decertification is warranted under paragraph (c)(2) of this section, the suspension/decertification official will issue a written initial administrative determination (IAD) to the observer via certified mail at the observer’s most current address provided to NMFS under § 679.43(e). The IAD will identify whether a certification is suspended or revoked and will identify the specific reasons for the action taken. If the IAD issues a suspension for an observer certification, the terms of the suspension will be specified. Suspension or decertification can be made effective upon issuance of the IAD in cases of willfulness or in cases in which public health, interest, or safety require such action. In such cases, the suspension/decertification official will state in the IAD that suspension or decertification is effective at time of issuance and the reason for the action.

(4) Appeals. A certified observer who receives an IAD that suspends or revokes his or her observer certification may appeal pursuant to § 679.43.

[77 FR 70099, Nov. 21, 2012]
catcher vessel during any weekly reporting period may be made available to the public:

(1) Vessel name and Federal permit number.

(2) Number of Chinook salmon and "other salmon" observed.

(3) The ratio of total round weight of incidentally caught halibut or Pacific herring to the total round weight of groundfish in sampled catch.

(4) The ratio of number of king crab or *C. bairdi* Tanner crab to the total round weight of groundfish in sampled hauls.

(5) The number of observed trawl hauls or fixed gear sets.

(6) The number of trawl hauls that were basket sampled.

(7) The total weight of basket samples taken from sampled trawl hauls.

(b) Haul-specific data. (1) The information listed in paragraphs (b)(1)(i) through (xiii) of this section and collected by observers from observed hauls on board vessels using trawl gear to participate in a directed fishery for groundfish other than rockfish, Greenland turbot, or Atka mackerel may be made available to the public:

(i) Date.

(ii) Time of day gear is deployed.

(iii) Latitude and longitude at beginning of haul.

(iv) Bottom depth.

(v) Fishing depth of trawl.

(vi) The ratio of the number of Chinook salmon to the total round weight of groundfish.

(vii) The ratio of the number of other salmon to the total round weight of groundfish.

(viii) The ratio of total round weight of incidentally caught halibut to the total round weight of groundfish.

(ix) The ratio of total round weight of herring to the total round weight of groundfish.

(x) The ratio of the number of king crab to the total round weight of groundfish.

(xi) The ratio of the number of *C. bairdi* Tanner crab to the total round weight of groundfish.

(xii) Sea surface temperature (where available).

(xiii) Sea temperature at fishing depth of trawl (where available).

(2) The identity of the vessels from which the data in paragraph (b)(1) of this section are collected will not be released.

(c) Competitive harm. In exceptional circumstances, the owners and operators of vessels may provide to the Regional Administrator written justification at the time observer data are submitted, or within a reasonable time thereafter, that disclosure of the information listed in paragraphs (a) and (b) of this section could reasonably be expected to cause substantial competitive harm. The determination whether to disclose the information will be made pursuant to 15 CFR 4.7.

[77 FR 70101, Nov. 21, 2012]

§ 679.55 Observer fees.

(a) Responsibility. The owner of a shoreside processor or a stationary floating processor named on a Federal Processing Permit (FFP) or a person named on a Registered Buyer permit at the time of the landing subject to the observer fee as specified at paragraph (c) of this section must comply with the requirements of this section. Subsequent non-renewal of an FFP or a Registered Buyer permit does not affect the permit holder’s liability for noncompliance with this section.

(b) Observer fee liability determination. After each fishing year, the Regional Administrator will mail an observer fee liability invoice to each permit holder specified in paragraph (a) of this section for landings of groundfish and halibut subject to the observer fee. The observer fee liability invoice will provide a summary of the round pounds of groundfish and headed-and-gutted weight for halibut landed during the previous fishing year for each permit by species, landing port or port-group, and gear category. The total fee liability for each permit holder will be determined by applying the observer fee percentage in paragraph (f) of this section to the ex-vessel value of the groundfish and halibut landings subject to the observer fee. The method for determining the ex-vessel value of the groundfish and halibut landings subject to the observer fee is provided in paragraph (e) of this section. The fee liability will be assessed on the groundfish
