or seeds of species listed in Appendix II or III with an annotation that includes seeds, must be accompanied by a valid CITES document. International shipments of CITES seeds that are artificially propagated also must be accompanied by a valid CITES document.

- (c) A plant propagated from exempt plant material. A plant grown from exempt plant material is regulated by CITES
- (1) The proposed shipment of the specimen is treated as an export even if the exempt plant material from which it was derived was previously imported. The country of origin is the country in which the specimen ceased to qualify for the exemption.
- (2) Plants grown from exempt plant material qualify as artificially propagated provided they are grown under controlled conditions.
- (3) To export plants grown from exempt plant material under controlled conditions, complete Form 3-200-33 for a certificate for artificially propagated plants.
 - $\hbox{(d) Salvaged plants.}\\$
- (1) For purposes of this section, salvaged plant means a plant taken from the wild as a result of some environmental modification in a country where a Party has done all of the following:
- (i) Ensured that the environmental modification program does not threaten the survival of CITES plant species, and that protection of Appendix-I species *in situ* is considered a national and international obligation.
- (ii) Established salvaged specimens in cultivation after concerted attempts have failed to ensure that the environmental modification program would not put at risk wild populations of CITES species.
- (2) International trade in salvaged Appendix-I plants, and Appendix-II plants whose entry into trade might otherwise have been considered detrimental to the survival of the species in the wild, may be permitted only when all the following conditions are met:
- (i) Such trade would clearly benefit the survival of the species in the wild or in cultivation.
- (ii) Import is for the purposes of care and propagation.

- (iii) Import is by a *bona fide* botanic garden or scientific institution.
- (iv) Any salvaged Appendix-I plant will not be sold or used to establish a commercial operation for artificial propagation after import.

§ 23.73 How can I trade internationally in timber?

- (a) U.S. and foreign general provisions: In addition to the requirements of this section, the import, export, or re-export of timber species listed under CITES must meet the other requirements of this part (see subparts B and C for prohibitions and application procedures).
- (b) Definitions. The following definitions apply to parts, products, and derivatives that appear in the annotations to certain timber species in the CITES Appendices. These definitions are based on the tariff classifications of the Harmonized System of the World Customs Organization.
- (1) Logs means all wood in the rough, whether or not stripped of bark or sapwood, or roughly squared for processing, notably into sawn wood, pulpwood, or veneer sheets.
- (2) Sawn wood means wood simply sawn lengthwise or produced by a profile-chipping process. Sawn wood normally exceeds 6 mm in thickness.
- (3) Veneer sheets means thin layers or sheets of wood of uniform thickness, usually 6 mm or less, usually peeled or sliced, for use in making plywood, veneer furniture, veneer containers, or similar products.
- (4) Plywood means wood material consisting of three or more sheets of wood glued and pressed one on the other and generally disposed so that the grains of successive layers are at an angle.
- (c) The following exceptions apply to Appendix-II or -III timber species that have a substantive annotation that designates either logs, sawn wood, and veneer sheets, or logs, sawn wood, veneer sheets, and plywood:
- (1) Change in destination. When a shipment of timber destined for one country is redirected to another, the Management Authority in the country of import may change the name and address of the importer indicated on the CITES document under the following conditions:

§ 23.74

- (i) The quantity imported is the same as the quantity certified by a stamp or seal and authorized signature of the Management Authority on the CITES document at the time of export or reexport.
- (ii) The number of the bill of lading for the shipment is on the CITES document, and the bill of lading is presented at the time of import.
- (iii) The import takes place before the CITES document expires, and the period of validity has not been extended.
- (iv) The Management Authority of the importing country includes the following statement in block 5, or an equivalent place, of the CITES document: "Import into [name of country] permitted in accordance with [cite the appropriate section number from the current permit and certificate resolution] on [date]." The modification is certified with an official stamp and signature.
- (v) The Management Authority sends a copy of the amended CITES document to the country of export or re-export and the Secretariat.
- (2) Extension of CITES document validity. A Management Authority in the country of import may extend the validity of an export permit or re-export certificate beyond the normal maximum of 6 months after the date of issue under the following conditions:
- (i) The shipment has arrived in the port of final destination before the CITES document expires, is being held in customs bond, and is not considered imported.
- (ii) The time extension does not exceed 6 months from the date of expiration of the CITES document and no previous extension has been issued.
- (iii) The Management Authority has included in block 5, or an equivalent place, of the CITES document the date of arrival and the new date of expiration on the document, and certified the modification with an official stamp and signature.
- (iv) The shipment is imported into the country from the port where the Management Authority issued the extension and before the amended CITES document expires.
- (v) The Management Authority sends a copy of the amended CITES docu-

ment to the country of export or re-export and to the Secretariat.

§ 23.74 How can I trade internationally in personal sport-hunted trophies?

- (a) U.S. and foreign general provisions. Except as provided for personal and household effects in §23.15, the import, export, or re-export of sport-hunted trophies of species listed under CITES must meet the requirements of this section and the other requirements of this part (see subparts B and C for prohibitions and application procedures).
- (b) Sport-hunted trophy means a whole dead animal or a readily recognizable part or derivative of an animal specifically identified on accompanying CITES documents that meets the following criteria:
- (1) Is raw, processed, or manufactured:
- (2) Was legally obtained by the hunter through hunting for his or her personal use:
- (3) Is being imported, exported, or reexported by or on behalf of the hunter as part of the transfer from its country of origin ultimately to the hunter's country of usual residence; and
- (4) Includes worked, manufactured, or handicraft items made from the sport-hunted animal only when:
- (i) Such items are contained in the same shipment as raw or tanned parts of the sport-hunted animal and are for the personal use of the hunter;
- (ii) The quantity of such items is no more than could reasonably be expected given the number of animals taken by the hunter as shown on the license or other documentation of the authorized hunt accompanying the shipment; and
- (iii) The accompanying CITES documents (export document and, if appropriate, import permit) contain a complete itemization and description of all items included in the shipment.
- (c) Use after import. You may use your sport-hunted trophy after import into the United States as provided in §23.55.
- (d) Quantity. The following provisions apply to the issuance and acceptance of U.S. and foreign documents for sporthunted trophies originating from a population for which the Conference of the Parties has established an export quota. The number of trophies that one
