§ 1437.105 Determining payments for low yield.

(a) Except to the extent that the loss calculation provisions of other subparts apply, and subject to limitations set out elsewhere in this part and in this title and to the availability of funds, payments under this part shall be made on eligible crops with eligible losses by:

(1) Multiplying the total eligible acreage planted to the eligible crop by the producers share, and subject to provisions for specific crops provided elsewhere in this part;

(2) Multiplying the product of paragraph (a)(1) of this section by 50 percent of the approved yield per acre for the commodity for the producer;

(3) Multiplying the net production of the total eligible acreage by the producer’s share;

(4) Subtracting the product of paragraph (a)(3) of this section from the product of paragraph (a)(2) of this section;

(5) Multiplying the difference calculated under paragraph (a)(4) of this section by the final payment price calculated under § 1437.11; and

(6) Adding the producer’s share of any salvage value and secondary use and subtracting the result from the result of paragraph (a)(5) of this section.

(b) Further adjustments may be made as needed to accomplish the purposes and goals of the program.

§ 1437.106 Honey.

(a) Honey production eligible for benefits under this part includes table and non-table honey produced commercially.

(b) All of a producer’s honey will be considered a single crop, regardless of type or variety of floral source or intended use.

(c) The crop year for honey production is the calendar year, January 1 through December 31.

(d) In addition to filing a report of acreage in accordance with § 1437.7, honey producers must provide a record of colonies to CCC. The report of colonies must be filed before the crop year for which producers seek to maintain coverage. The report of colonies shall include:

(1) The address of the producer’s headquarters and FSA farm serial number, if available;

(2) Names and shares of each person sharing in the honey produced from the unit;

(3) The number of all colonies of bees belonging to the unit;

(4) The names of counties in which colonies of bees are located as of the date of the report; and

(5) A certification of the number of colonies reported including all colonies from which production is expected.

(e) The honey unit shall consist of all the producer’s bee colonies, regardless of location.

(f) Producers must designate a FSA office as the control office for the honey operation. Producers must complete the following actions only in the control office:

(1) File an application for coverage;

(2) File a report of colonies;

(3) Report total unit production; and

(4) Request to change a unit’s control office.

(g) Actions that may be taken in any Administrative FSA office includes:

(1) Designating or selecting another control office; or

(2) Filing a notice of loss in accordance with § 1437.10.

(h) Producers must notify the control office designated in accordance with paragraph (f) of this section within 30 calendar days of the date of:

(1) Any changes in the total number of colonies; and

(2) The movement of any colonies into any additional counties.

(i) Payments will be based on the amount of losses for this community in excess of a 50 percent loss level at a rate determined in accord with this part and the authorizing legislation.

§ 1437.107 Maple sap.

(a) NAP assistance for maple sap is limited to maple sap produced on private property for sale as sap or syrup. Eligible maple sap must be produced from trees that:

(1) Are located on land the producer controls by ownership or lease;
§§ 1437.108–1437.200

(2) Are managed for production of maple sap;
(3) Are at least 30 years old and 12 inches in diameter; and
(4) Have a maximum of 4 taps per tree according to the tree’s diameter.

Subpart C—Determining Coverage for Prevented Planted Acreage

§ 1437.201 Prevented planting acreage.

(a) In addition to the provisions of this section, the provisions of §718.103 of this title shall apply.

(b) When determining losses under this section:

(1) Producers must be prevented from planting more than 35 percent of the total eligible acreage intended for planting to the eligible crop and in the case of multiple planting, more than 35 percent of the total eligible acres intended to be planted within the applicable planting period.

(2) Prevented planted acreage will be considered separately from low-yield losses of planted acreage of the same crop.

(c) Acreage and units ineligible for prevented planting coverage includes, but is not limited to:

(1) Value-loss crops, including, but not limited to, Christmas trees, aquaculture, and ornamental nursery;
(2) Tree crops and other perennials, unless:
   (i) The producer can prove resources unique to the planting of tree crops and other perennials were available to plant, grow, and harvest the crop, as determined by CCC; and
   (ii) CCC has approved the planting period for the crop;
(3) Uninsured crop acreage that is unclassified for insurance purposes;
(4) Any acreage on which a crop was harvested, hayed, or grazed during the crop year;
(5) Acreage of which the producer or any other person received a prevented planted payment for any crop for the same acreage, excluding share arrangements; and
(6) Acreage planted during the late-planting period.

§ 1437.202 Determining payments for prevented planting.

(a) Subject to limitations, availability of funds, and specific provisions dealing with specific crops, a payment
