§ 1901.259 Actions to be taken when archeological properties are discovered during construction.

(a) When properties of significant HA value are discovered during construction, the State Director will immediately consult with the applicant, the SHPO and the Regional Director of the National Park Service to determine whether there is sufficient factual evidence to warrant a decision to stop construction and undertake detailed survey and recovery.

(b) When the consultations in paragraph (a) of this section result in a determination by the National Park Service to request the applicant to stop construction, such stop action should be taken so that the Park Service can initiate measures for immediate recovery within 60 days after notification of a discovery.

(c) When the consultations in paragraph (a) of this section do not result in a determination by the National Park Service to stop construction and to undertake a survey and recovery, construction should be permitted to proceed with caution. In the event that the National Park Service determines that recovery is necessary, the FmHA or its successor agency under Public Law 103–354, shall determine that consent of all persons, associations, or public entities having legal interests in the property involved has been secured. Also, the applicant should be informed that the Secretary of the Interior is authorized to compensate any person, association, or public entity damaged as a result of delay in construction or as a result of the temporary loss of the use of public or any nonfederally owned land.

(d) No survey or recovery work will be required which in the determination of the State Director would seriously impede FmHA or its successor agency under Public Law 103–354 actions in providing assistance where the State Director determines that immediate action is required to avoid loss or damage of life or property. Nevertheless, appropriate measures will be taken to the extent practical to preserve, protect, or mitigate any damage to properties having HA significance.

§ 1901.260 Coordination with other agencies.

(a) When other Agencies are directly involved in any undertaking that requires a historical and archeological assessment, the State Director will contact the Agencies concerned to determine if a joint assessment will be prepared and whether a single lead Agency will assume primary responsibility for preparing the assessment.

(b) When a lead Agency is agreed upon other than FmHA or its successor agency under Public Law 103-354, FmHA or its successor agency under Public Law 103-354 will provide that Agency with information about its respective areas of responsibility. Assessments will indicate Agency participation and concurrence.

(c) When FmHA or its successor agency under Public Law 103-354 program activities are planned that primarily supplement those of the SCS, USDA, such as watershed projects, resource conservation and development measures, and irrigation and drainage projects, the SCS will be designated as the lead Agency.

§ 1901.261 [Reserved]

§ 1901.262 State supplement.

(a) The State Director shall be responsible for preparing a list of all properties included in the National Register in his area of jurisdiction and issuing such list as a part of a State supplement. Such a list will be updated as needed to reflect changes in the National Register.

(b) State Directors may also supplement this subpart and its exhibit as appropriate to meet State and local laws and regulations.
