§ 4280.165 Combined funding for renewable energy systems and energy efficiency improvements.

The requirements for a RES or EEI project for which an applicant is seeking a combined grant and guaranteed loan are defined as follows:

(a) Eligibility. Applicants must meet the applicant eligibility requirements specified in §§ 4280.109 and 4280.112 and the borrower eligibility requirements specified in § 4280.122. Projects must meet the project eligibility requirements specified in §§ 4280.113 and 4280.123. Applicants may submit simplified applications if the project meets the requirements specified in § 4280.114.

(b) Funding. Funding provided under this section is subject to the limits described in paragraphs (b)(1) through (b)(3) of this section.

(1) The amount of any combined grant and guaranteed loan must not exceed 75 percent of total eligible project costs. For purposes of combined funding requests, total eligible project costs are based on the total costs associated with those items specified in §§ 4280.115(c) and 4280.124(e). The applicant must provide the remaining total funds needed to complete the project.

(2) The minimum combined funding request allowed is $5,000, with the grant portion of the funding request being at least $1,500.

(3) Applicants whose combination applications are approved for funding must utilize both the loan guarantee and the grant. The Agency reserves the right to reduce the total loan guarantee and grant award as appropriate.

(c) Application and documentation. When applying for combined funding, the applicant must submit separate applications for both types of assistance (grant and guaranteed loan). Each application must meet the requirements, including the requisite forms and certifications, specified in §§ 4280.116 and 4280.128. The separate applications must be submitted simultaneously. The applicant must submit at least one set of documentation, but does not
need to submit duplicate forms or certifications.

(d) Evaluation. The Agency will evaluate each application according to applicable procedures specified in §§ 4280.117 and 4280.129.

(e) Interest rate and terms of loan. The interest rate and terms of the loan for the loan portion of the combined funding request will be determined based on the procedures specified in §§ 4280.125 and 4280.126 for guaranteed loans.

(f) Other provisions. In addition to the requirements specified in paragraphs (a) through (e) of this section, the combined funding request shall be subject to the other requirements specified in this subpart, including, but not limited to, processing and servicing requirements, as applicable, as described in paragraphs (f)(1) through (f)(3) of this section.

(1) All other provisions of §§ 4280.101 through 4280.111 apply to the combined funding request.

(2) All other provisions of §§ 4280.112 through 4280.121 apply to the grant portion of the combined funding request.

(3) All other provisions of §§ 4280.122 through 4280.160 apply to the guaranteed loan portion of the combined funding request.

§§ 4280.166–4280.169 [Reserved]

RENEWABLE ENERGY SYSTEM FEASIBILITY STUDY GRANTS

§ 4280.170 Applicant eligibility.

To be eligible for a renewable energy system feasibility study grant under this subpart, the applicant must be an agricultural producer or a rural small business, as defined in § 4280.103, and must be the prospective owner of the renewable energy system for which the feasibility study grant is sought.

§ 4280.171 Project eligibility.

Only renewable energy system projects that meet the requirements specified in this section are eligible for feasibility study grants under this subpart. The project for which the feasibility study grant is sought shall:

(a) Be for the purchase, installation, expansion, or other energy-related improvement of a renewable energy system located in a State, as defined in § 4280.103;

(b) Be for a facility located in a rural area if the applicant is a rural small business, or in a rural or non-rural area if the applicant is an agricultural producer. If the agricultural producer's facility is in a non-rural area, then the feasibility study can only be for a renewable energy system on integral components of or directly related to the facility, such as vertically integrated operations, and are part of and co-located with the agriculture production operation;

(c) Be for technology that is pre-commercial or commercially available, and that is replicable;

(d) Not have had a feasibility study already completed for it with Federal and/or State assistance; and

(e) The applicant has a place of business in a State.

§ 4280.172 Application eligibility provisions.

(a) Applications for industry-level feasibility studies, also known as feasibility study templates or guides, are not eligible because the assistance is not provided to a specific project.

(b) Applications must be from the prospective owner(s) of the renewable energy system for which the feasibility study grant is sought. Applications from other entities (e.g., entities that would be conducting the feasibility study and are not the prospective owners) will not be accepted.

(c) Applications can be submitted for a modification to an existing renewable energy system (e.g., for the expansion portion of an existing wind farm).

(d) Applications cannot be submitted in a Fiscal Year for an RES project if an RES application for the same renewable energy system is submitted in that same Fiscal Year and vice versa.

§ 4280.173 Grant funding for feasibility studies.

(a) Maximum grant amount. The maximum amount of grant funds that will be made available for an eligible feasibility study project under this subpart to any one recipient will not exceed $50,000 or 25 percent of the total eligible project cost of the study, whichever
