§ 253.10 Commodity control, storage and distribution.

(a) Control and accountability. The State agency shall be responsible for the issuance of commodities to households and the control of and accountability for the commodities upon its acceptance of the commodities at time and place of delivery.

(b) Commodity inventories. The State agency shall, in cooperation with the FNS Regional office, develop an appropriate procedure for determining and monitoring the level of commodity inventories at central commodity storage facilities and at each local distribution point. The State agency shall maintain the inventories at proper levels taking into consideration, among other factors, household preferences and the historical and projected volume of distribution at each site. The procedures shall provide that commodity inventories at each central storage facility and each local distribution point are not in excess, but are adequate for an uninterrupted distribution of commodities.

(c) Storage facilities and practices. The State agency shall as a minimum ensure that:

1. Adequate and appropriate storage facilities are maintained. The facilities shall be clean and neat and safeguarded against theft, damage, insects, rodents and other pests.

2. Department recommended dunnage, stacking and ventilation methods are followed.

3. Commodities are stacked in a manner which facilitates an accurate inventory.

4. Commodities are issued on a first-in, first-out basis.

5. Commodities held in storage for a protracted period of time are reinspected prior to issuance.

6. Out-of-condition commodities are disposed of in accordance with Department approved methods.

7. Notification is provided to certified households of the location of distribution sites and days and hours of distribution.

8. An adequate supply of commodities which are available from the Department is on hand at all distribution sites.

9. Sufficient distribution sites, either stationary or mobile, are geographically located or routed in relation to population density of eligible households.

10. Days and hours of distribution are sufficient for caseload size and convenience.

11. Households are advised they may refuse any commodity not desired, even if the commodities are prepackaged by household size.

12. Emergency issuance of commodities will be made to households certified for expedited service in accordance with the provisions of § 253.7(a)(9).

13. Eligible households or authorized representatives are identified prior to the issuance of commodities.

14. Authorized signatures are obtained for commodities issued and the issue date recorded.

15. Posters are conspicuously displayed advising program participants to accept only those commodities, and in such quantities, as will be consumed by them.

16. Complete and current records are kept of all commodities received, issued, transferred, and on hand and of any inventory overages, shortages, and losses.

17. A list of commodities offered by the Department is displayed at distribution sites so that households may indicate preferences for future orders.

(d) Distribution. The State agency shall distribute commodities only to households eligible to receive them under this part. If the State agency uses any other agency, administration, bureau, service or similar organization to effect or assist in the certification of households or distribution of commodities, the State agency shall impose upon such organization responsibility for determining that households to whom commodities are distributed are eligible under this part. The State agency shall not delegate to any such organization its responsibilities to the Department for overall management and control of the Food Distribution Program.
(e) Improper distribution or loss of or damage of commodities. State agencies shall take action to obtain restitution in connection with claims arising in their favor for improper distribution, use or loss, or damage of commodities in accordance with §§250.13 and 250.15 of this chapter.

(f) Damaged or out-of-condition commodities. The State agency shall immediately notify the appropriate Food and Nutrition Service Regional Office (FNSRO) if any commodities are found to be damaged or out-of-condition at the time of arrival, or at any subsequent time, whether due to latent defects or any other reason. FNSRO shall advise the State agency of the appropriate action to be taken with regard to such commodities. If the commodities are declared unfit for human consumption in accordance with §250.13(f) of this chapter, they shall be disposed of as provided for under that section. When out-of-condition commodities do not create a hazard to other food at the same location, they shall not be disposed of until FNSRO or the responsible commodity contractor approves. When circumstances require prior disposal of a commodity, the quantity and manner of disposition shall be reported to the appropriate FNSRO. If any damaged or out-of-condition commodities are inadvertently issued to a household and are rejected or returned by the household because the commodities were unsound at the time of issuance and not because the household failed to provide proper storage, care or handling, the State agency shall replace the damaged or out-of-condition commodities with the same or similar kind of commodities which are sound and in good condition. The State agency shall account for such replacements on its monthly inventory report.

§ 253.11 Administrative funds.

(a) Allocation of administrative funds to FNS Regional Offices. Each fiscal year, after enactment of a program appropriation for the full fiscal year and apportionment of funds by the Office of Management and Budget, administrative funds will be allocated to each FNS Regional Office for further allocation to State agencies. To the extent practicable, administrative funds will be allocated to FNS Regional Offices in the following manner:

(1) 65 percent of all administrative funds available nationally will be allocated to each FNS Regional Office in proportion to its share of the total number of participants nationally, averaged over the three previous fiscal years; and

(2) 35 percent of all administrative funds available nationally will be allocated to each FNS Regional Office in proportion to its share of the total current number of State agencies administering the program nationally.

(b) Allocation of administrative funds to State agencies. Prior to receiving administrative funds, State agencies must submit a proposed budget reflecting planned administrative costs to the appropriate FNSRO. To the extent that funding levels permit, the FNS Regional Office allocates to each State agency administrative funds necessary to cover 75 percent of approved administrative costs.

(c) State agency matching requirement. State agencies must match administrative funds allocated to them as follows:

(1) Unless Federal administrative funding is approved at a rate higher than 75 percent of approved administrative costs, in accordance with paragraph (c)(2) of this section, each State agency must contribute 25 percent of its total approved administrative costs. Cash or non-cash contributions, including third party in-kind contributions, and the value of services rendered by volunteers, may be used to meet the State agency matching requirement. In accordance with part 277 of this chapter, such contributions must:

(i) Be verifiable;

(ii) Not be contributed for another federally-assisted program, unless authorized by Federal legislation;
