§ 457.132 Cranberry crop insurance provisions.

The cranberry crop insurance provisions for the 1999 and succeeding crop years are as follows:

**Federal Crop Insurance Corporation**

- **PCIC Policies**
- **Reinsured Policies**

(Proprietary title for insurance provider)

Both FCIC and Reinsured Policies

**Cranberry Crop Provisions**

If a conflict exists among the policy provisions, the order of priority is as follows: (1) The Catastrophic Risk Protection Endorsement, if applicable; (2) the Special Provisions; (3) these Crop Provisions; and (4) the Basic Provisions with (1) controlling (2), etc.

11. Settlement of Claim

(a) We will determine your loss on a unit basis. In the event you are unable to provide separate, acceptable production records:

(1) For any optional units, we will combine all optional units for which such production records were not provided; or

(2) For any basic units, we will allocate any commingled production to such units in proportion to our liability on the harvested acreage for the units.

(b) In the event of loss or damage covered by this policy, we will settle your claim by:

(1) All appraised production as follows:

(a) Not less than the production guarantee per acre for acreage:

(A) That is abandoned;

(B) That is sold by direct marketing if you fail to meet the requirements contained in section 10;

(C) That is damaged solely by uninsured causes; or

(D) For which you fail to provide acceptable production records;

(ii) Production lost due to uninsured causes;

(iii) Unharvested production; and

(iv) Potential production on insured acreage that you intend to abandon or no longer care for if you and we agree on the appraised amount of production. Upon such agreement, the insurance period for that acreage will end. If you do not agree with our appraisal, we may defer the claim only if you agree to continue to care for the crop. We will then make another appraisal when you notify us of further damage or that harvest is general in the area unless you harvested the crop, in which case we will use the harvested production. If you do not continue to care for the crop, our appraisal made prior to deferring the claim will be used to determine the production to count; and

(2) All harvested production from the insurable acreage.

12. Late and Prevented Planting

The late and prevented planting provisions of the Basic Provisions are not applicable.

Federal Crop Insurance Corporation, USDA

1. Definitions

**Barrel.** 100 pounds of cranberries.

**Harvest.** Removal of the cranberries from the bog.

**Market price.** The cash price per barrel of cranberries offered by buyers in the area in which you normally market the cranberries.

2. Unit Division

Provisions in the Basic Provisions that allow optional units by section, section equivalent, or FSA farm serial number and by irrigated and non-irrigated practices are not applicable. Optional units may be established only if each optional unit is located on non-contiguous land, unless otherwise allowed by written agreement.

3. Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities

In addition to the requirements of section 3 (Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities) of the Basic Provisions (§457.8):

(a) You may select only one price election for all the cranberries in the county insured under this policy.

(b) You must report, by the production reporting date designated in section 3 (Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities) of the Basic Provisions (§457.8):

1. Any damage, removal of vines, change in practices, or any other circumstance that may reduce the expected yield below the yield upon which the insurance guarantee is based, and the number of affected acres;

2. The age of the vines; and

3. Any other information that we request in order to establish your approved yield.

We will adjust the yield used to establish your production guarantee as necessary, based on our estimate of the effect of the removal of vines, damage, change in practices, and any other circumstance that may affect the yield potential of the insured crop. If you fail to notify us of any circumstance that may affect your yields from previous levels, we will adjust your production guarantee as necessary at any time we become aware of the circumstance.

4. Contract Changes

In accordance with section 4 (Contract Changes) of the Basic Provisions (§457.8), the contract change date is August 31 preceding the cancellation date.

5. Cancellation and Termination Dates

In accordance with section 2 (Life of Policy, Cancellation, and Termination) of the Basic Provisions (§457.8), the cancellation and termination dates are November 20.

6. Insured Crop

In accordance with section 8 (Insured Crop) of the Basic Provisions (§457.8), the crop insured will be all the cranberries in the county for which a premium rate is provided by the actuarial documents:

(a) In which you have a share;

(b) That are grown for harvest as cranberries;

(c) That are grown in a bog that, if inspected, is considered acceptable by us; and

(d) That are grown on vines that have completed four growing seasons after the vines were set out, unless otherwise provided by the actuarial table or by written agreement.

7. Insurance Period

(a) In accordance with the provisions of section 11 (Insurance Period) of the Basic Provisions (§457.8):

1. Coverage begins on November 21 of each crop year, except that for the year of application, if your application is received after November 11, but prior to November 21, insurance will attach on the 10th day after your properly completed application is received in our local office, unless we inspect the acreage during the 10 day period and determine that it does not meet insurability requirements. You must provide any information that we require for the crop or to determine the condition of the bog.

2. The calendar date for the end of the insurance period for each crop year is November 20.

(b) In addition to the provisions of section 11 (Insurance Period) of the Basic Provisions (§457.8):

1. If you acquire an insurable share in any insurable acreage after coverage begins but on or before the acreage reporting date for the crop year, and after an inspection we consider the acreage acceptable, insurance will be considered to have attached to such acreage on the calendar date for the beginning of the insurance period.

2. If you relinquish your insurable share on any insurable acreage of cranberries on or before the acreage reporting date for the crop year, insurance will not be considered to have attached to, and no premium or indemnity will be due for, such acreage for that crop year unless:

(i) A transfer of coverage and right to an indemnity, or a similar form approved by us, is completed by all affected parties;

(ii) We are notified by you or the transferee in writing of such transfer on or before the acreage reporting date; and

(iii) The transferee is eligible for crop insurance.

8. Causes of Loss

(a) In accordance with the provisions of section 12 (Causes of Loss) of the Basic Provisions (§457.8), insurance is provided only
§457.132

against the following causes of loss that occur during the insurance period:

(1) Adverse weather conditions;
(2) Fire, unless weeds and other forms of undergrowth have not been controlled or pruning debris has not been removed from the bog;
(3) Wildlife;
(4) Earthquake;
(5) Volcanic eruption;
(6) Failure of irrigation water supply, if caused by an insured peril that occurs during the insurance period; or
(7) Failure or breakdown of irrigation equipment or facilities due to direct damage to the irrigation equipment or facilities from an insurable cause of loss if the cranberry crop is damaged by freezing temperatures within 72 hours of such failure or breakdown and repair or replacement was not possible before damage occurred.

(b) In addition to the causes of loss excluded in section 12 (Cause of Loss) of the Basic Provisions (§457.8), we will not insure against damage or loss of production due to:

(i) Disease or insect infestation, unless adverse weather;
   (A) Prevents the proper application of control measures or causes properly applied control measures to be ineffective; or
   (B) Causes disease or insect infestation for which no effective control mechanism is available; or
(ii) Inability to market the cranberries for any reason other than actual physical damage from an insurable cause of loss specified in this section. For example, we will not pay you an indemnity if you are unable to market due to quarantine, boycott, or refusal of any person to accept production.

9. Duties in the Event of Damage or Loss

In addition to the requirements of section 14 (Duties in the Event of Damage or Loss) of the Basic Provisions (§457.8), we will not insure against damage or loss of production due to:

(a) If you discover damage, or if you intend to claim an indemnity on any insured unit, you must give us notice of probable loss:
   (1) At least 15 days before the beginning of any harvesting; or
   (2) Immediately if probable loss is discovered after harvesting has begun.

(b) You must not sell or dispose of any damaged production until the earlier of 15 days from the date of notice of loss or when we give you written consent to do so.

(c) If you fail to meet the requirements of this section, and such failure results in our inability to inspect the damaged production, all such production will be considered undamaged and included as production to count.

10. Settlement of Claim

(a) We will determine your loss on a unit basis. In the event you are unable to provide separate acceptable production records:

(1) For any optional unit, we will combine all optional units for which such production records were not provided; or
(2) For any basic unit, we will allocate any commingled production to such units in proportion to our liability on the harvested acreage for each unit.

(b) In the event of loss or damage covered by this policy, we will settle your claim by:

(1) Multiplying the insured acreage by its respective production guarantee;
(2) Multiplying the result of section 10(b)(1) by the price election;
(3) Multiplying the total production to be counted, (see section 10(c)) by the price election;
(4) Subtracting the total in section 10(b)(3) from the total in section 10(b)(2); and
(5) Multiplying the result in section 10(b)(4) by your share.

(c) The total production to count (in barrels) from all insurable acreage on the unit will include:

(1) All appraised production as follows:
   (i) Not less than the production guarantee per acre for acreage:
      (A) That is abandoned;
      (B) Damaged solely by uninsured causes;
      (C) For which you fail to provide acceptable production records; or
      (D) Destroyed or put to another use without our consent;
   (ii) Production lost due to uninsured causes;
   (iii) Unharvested production; and
   (iv) Potential production on insured acreage that you intend to abandon or no longer care for, if you and we agree on the appraised amount of production. Upon such agreement, the insurance period for that acreage will end. If you do not agree with our appraisal, we will use the appraised amount of production or defer the claim if you agree to continue to care for the crop. We will then make another appraisal when you notify us of further damage or that harvest is general to the area unless you harvested the crop, in which case we will use the harvested production. If you do not continue to care for the crop, our appraisal made prior to deferring the claim will be used to determine the production to count; and
(2) All harvested production from the insurable acreage.

(d) Harvested production which, due to insurable causes, is determined not to meet the United States Standards for Fresh Cranberries if available, or would not meet those standards if properly handled, or does not meet the quality requirements of the receiving handler if the United States Standards for Fresh Cranberries, if not available, and
such harvested production has a value less than 75 percent of the market price for cranberries meeting the minimum requirements will be adjusted by:

(i) Dividing the value per barrel of such cranberries by the market price per barrel for cranberries meeting the minimum requirements; and

(ii) Multiplying the result by the number of barrels of such cranberries.

11. Late and Prevented Planting
The late and prevented planting provisions of the Basic Provisions are not applicable.

§ 457.133 Prune crop insurance provisions.
The Prune Crop Insurance Provisions for the 2013 and succeeding crop years are as follows:

FCIC Policies
UNITED STATES DEPARTMENT OF AGRICULTURE
Federal Crop Insurance Corporation
Reinsured Policies
(Appropriate title for insurance provider)
Both FCIC and reinsured policies:

Prune Crop Provisions
1. Definitions

Direct marketing. Sale of the insured crop directly to consumers without the intervention of an intermediary such as a wholesaler, retailer, packer, processor, shipper or buyer. Examples of direct marketing include: selling through an on-farm or roadside stand, farmer’s market, and permitting the general public to enter the field for the purpose of picking all or a portion of the crop.

Harvest. Picking of mature prunes from the trees or ground either by hand or machine.

Interplanted. Acreage on which two or more crops are planted in any form of alternating or mixed pattern.

Natural condition prunes. The condition of prunes in which they are normally delivered from a dehydrator or dry yard.

Prunes. Any type or variety of plums that is grown in the area for the production of prunes and that meets the requirements defined in the applicable Federal Marketing Agreement Dried Prune Order.

Standard prunes. Any natural condition prunes:

(a) That grade “C” or better in accordance with the United States Standards for Grades of Fresh Plums and Prunes; or

(b) That meet or exceed the grade standards in effect for the crop year if a Federal Marketing Agreement Dried Prune Order has been established for the area in which the insured crop is grown. 

Ten. Two thousand (2,000) pounds avoirdupois.

2. Unit Division
Provisions in the Basic Provisions that allow optional units by irrigated and non-irrigated practices are not applicable. Instead of establishing optional units by section, section equivalent, or FSA farm serial number optional units may be established if each optional unit is located on non-contiguous land.

3. Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities
In addition to the requirements of section 3 of the Basic Provisions:
(a) You may select only one price election for all the prunes in the county insured under this policy unless the Special Provisions provide different price elections by type, in which case you may select one price election for each type designated in the Special Provisions. The price elections you choose for each type must have the same percentage relationship to the maximum price offered by us for each type. For example, if you choose 100 percent of the maximum price election for one type, you must also choose 100 percent of the maximum price election for all other types.

(b) You must report, by the production reporting date designated in section 3 of the Basic Provisions, by type if applicable:

(1) Any damage, removal of trees, change in practices, or any other circumstance that may reduce the expected yields below the yield upon which the insurance guarantee is based, and the number of affected acres;

(2) The number of bearing trees on insurable and uninsurable acreage;

(3) The age of the trees and the planting pattern; and

(4) For the first year of insurance for acreage interplanted with another perennial crop, and any time the planting pattern of such acreage is changed:

(i) The age of the interplanted crop, and

(ii) The planting pattern; and

(iii) Any other information that we request in order to establish your approved yield.

(c) We will reduce the yield used to establish your production guarantee, as necessary, based on our estimate of the effect of any such situation listed in section 3(b) that may occur. If you fail to notify us of any situation in section 3(b), we will reduce the yield used to establish your production guarantee at any time we become aware of the circumstance. If the situation in section 3(b) occurred:
