not made all the necessary transportation arrangements for the alien to be returned to his or her point of embarkation by the end of the additional 7-day period, the Service will make the arrangements and bill the carrier for its costs.

§ 241.10 Special care and attention of removable aliens.

When, in accordance with section 241(c)(3) of the Act, a transportation line is responsible for the expenses of an inadmissible or deportable alien’s removal, and the alien requires special care and attention, the alien shall be delivered to the owner, agent, master, commanding officer, person in charge, purser, or consignee of the vessel or aircraft on which the alien will be removed, who shall be given Forms I–287, I–287A, and I–287B. The reverse of Form I–287A shall be signed by the officer of the vessel or aircraft to whom the alien has been delivered and immediately returned to the immigration officer effecting delivery. Form I–287B shall be retained by the receiving officer and subsequently filled out by the agents or persons therein designated and returned by mail to the district director named on the form. The transportation line shall at its own expense forward the alien from the foreign port of disembarkation to the final destination specified on Form I–287. The special care and attention shall be continued to such final destination, except when the foreign public officers decline to allow such attendant to proceed and they take charge of the alien, in which case this fact shall be recorded by the transportation line on the reverse of Form I–287B. If the transportation line fails, refuses, or neglects to provide the necessary special care and attention or comply with the directions of Form I–287, the district director shall thereafter and without notice employ suitable persons, at the expense of the transportation line, and effect such removal.

§ 241.11 Detention and removal of stowaways.

(a) Presentation of stowaways. The owner, agent, master, commanding officer, charterer, or consignee of a vessel or aircraft (referred to in this section as the carrier) bringing any alien stowaway to the United States is required to detain the stowaway on board the vessel or aircraft, at the expense of the owner of the vessel or aircraft, until completion of the inspection of the alien by an immigration officer. If detention on board the vessel or aircraft pending inspection is not possible, the carrier shall advise the Service of this fact without delay, and the Service may authorize that the carrier detain the stowaway at another designated location, at the expense of the owner, until the immigration officer arrives. No notice to detain the alien shall be required. Failure to detain an alien stowaway pending inspection shall result in a civil penalty under section 243(c)(1)(A) of the Act. The owner, agent, master, commanding officer, charterer, or consignee of a vessel or aircraft must present the stowaway for inspection, along with any documents or evidence of identity or nationality in the possession of the alien or obtained by the carrier relating to the alien stowaway, and must provide any available information concerning the alien’s boarding or apprehension.

(b) Removal of stowaways from vessel or aircraft for medical treatment. The district director may parole an alien stowaway into the United States for medical treatment, but the costs of detention and treatment of the alien stowaway shall be at the expense of the owner of the vessel or aircraft, and such removal of the stowaway from the vessel or aircraft does not relieve the carrier of the requirement to remove the stowaway from the United States once such medical treatment has been completed.

(c) Repatriation of stowaways—(1) Requirements of carrier. Following inspection, an immigration officer may order the owner, agent, master, commanding officer, charterer, or consignee of a vessel or aircraft bringing any alien stowaway to the United States to remove the stowaway on the vessel or aircraft of arrival, unless it is impracticable to do so or other factors exist which would preclude removal on the same vessel or aircraft. Such factors may include, but are not limited to, sanitation, health, and safety concerns
