§ 71.17 Interstate movement of dead poultry or other animals prohibited in same car with live poultry or other animals.

No dead poultry or other animals shall be offered or accepted for transportation or transported in the same car with live poultry or other animals from the original point of shipment in any State or Territory or the District of Columbia to or through any other State, Territory, or the District of Columbia.

§ 71.18 [Reserved]

§ 71.19 Identification of swine in interstate commerce.

(a)(1) Except as provided in paragraphs (c) and (g) of this section, no swine may be sold, transported, received for transportation, or offered for sale or transportation, in interstate commerce, unless each swine is identified at whichever of the following comes first:

(i) The point of first commingling of the swine in interstate commerce with swine from any other source;

(ii) Upon unloading of the swine in interstate commerce at any livestock market;

(iii) Upon transfer of ownership of the swine in interstate commerce; or

(iv) Upon arrival of the swine in interstate commerce at their final destination.

(2) The identification shall be by means of identification approved by the Administrator and listed in paragraph (b) of this section. All swine shall remain so identified while they are in interstate commerce.

(3) Each person who buys or sells, for his or her own account or as the agent of the buyer or seller, transports, receives for transportation, offers for sale or transportation, or otherwise handles swine in interstate commerce, is responsible for the identification of the swine as provided by this section.

(b) Means of swine identification approved by the Administrator are:

(1) Official eartags, when used on any swine;

(2) United States Department of Agriculture (USDA) approved backtag, when used on swine moving to slaughter;

(3) Official swine tattoos, when used on swine moving to slaughter, when the use of the official swine tattoo has been requested by a user or the State animal health official, and the Administrator authorizes its use in writing based on a determination that the tattoo will be retained and visible on the carcass of the swine after slaughter, so as to provide identification of the swine;

(4) Tattoos of at least 4-characters when used on swine moving to slaughter, except sows and boars as provided in §78.33 of this chapter;

(5) Ear notching when used on any swine, if the ear notching has been recorded in the book of record of a purebred registry association;

(6) Tattoos on the ear or inner flank of any swine, if the tattoos have been recorded in the book of record of a swine registry association;

(7) For slaughter swine and feeder swine, an eartag or tattoo bearing the premises identification number assigned by the State animal health official to the premises on which the swine originated; and

(8) Any other official identification device or method that is approved by the Administrator.

(c) Swine that are kept as a group are not required to be individually identified when in interstate commerce if:

(1) They were born on the same premises;

(2) They were raised on the same premises where they were born;

(3) They are moved in a group directly to a slaughtering establishment from the place where they were raised;

(4) They are not mixed with swine from any other premises, between the time they are born and the time they arrive at the slaughtering establishment; and

(5) They are slaughtered one after another, as a group, and not mixed with other swine at slaughter; or approved identification is applied to the swine after entry into the slaughtering establishment.

(d) Serial numbers of United States Department of Agriculture (USDA) approved backtag and official swine tattoos will be assigned to each person.
who applies to the State animal health official or the area veterinarian in charge for the State in which that person maintains his/her or its place of business. Serial numbers of official eartags will be assigned to each accredited veterinarian or State or Federal representative who requests official eartags from the State animal health official or the area veterinarian in charge, whoever is responsible for issuing official eartags in that State. Persons assigned serial numbers of United States Department of Agriculture (USDA) approved backtag, official swine tattoos, and official eartags must:

(1) Record the following information on a document:
   (i) All serial numbers applied to the swine;
   (ii) Any other serial numbers and approved identification appearing on the swine that are needed to identify the swine to its previous owner and location;
   (iii) The street address, including the city and state, or the township, county, and state, of the premises where the approved means of identification were applied; and
   (iv) The telephone number, if available, of the person who owns or possesses the swine.

(2) Maintain these records at the person’s place of business for 2 years; and

(3) Make these records available for inspection and copying during ordinary business hours (8 a.m. to 5:30 p.m.) upon request by any authorized employee of the United States Department of Agriculture, upon that employee’s request and presentation of his or her official credentials.

(f) No person may remove or tamper with any approved means of identification required to be on swine pursuant to this section while it is in interstate commerce, except at the time of slaughter as provided in 9 CFR 309.16(e).

(g) Swine moving interstate within a swine production system. Swine moving within a swine production system to other than slaughter or a livestock market are not required to be individually identified when moved in interstate commerce under the following conditions:

(1) The swine may be moved interstate only to another premises identified in a valid swine production health plan for that swine production system.

(2) The swine production system must operate under a valid swine production health plan, in which both the sending and receiving States have agreed to allow the movement.

(3) The swine must have been found free from signs of any communicable
§ 71.19  

Animal and Plant Health Inspection Service, USDA  

(h) Cancellation of and withdrawal from a swine production health plan. The following procedures apply to cancellation of, or withdrawal from, a swine production health plan:

1. A State animal health official may cancel his or her State’s participation in a swine production health plan by giving written notice to all swine producers, APHIS representatives, accredited veterinarians, and other State animal health officials listed in the plan. Withdrawal shall be effective upon the date specified by the State animal health official in the notice, but for shipments in transit, withdrawal shall become effective 7 days after the date of such notice. Upon withdrawal of a State, the swine production health plan may continue to operate among the other States and parties signatory to the plan.

2. A swine production system may withdraw one or more of its premises from participation in the plan upon giving written notice to the Administrator, the accredited veterinarian(s), all swine producers listed in the plan, and State animal health officials listed in the plan. Withdrawal shall be effective upon the date specified by the swine production system in the written notice, but for shipments in transit, withdrawal shall become effective 7 days after the date of such notice.

3. The Administrator may cancel a swine production health plan by giving written notice to all swine producers, accredited veterinarians, and State animal health officials listed in the plan. The Administrator shall cancel a swine production health plan after determining that swine movements within the swine production system have occurred that were not in compliance with the swine production health plan or with other requirements of this chapter. Before a swine health production plan is canceled, an APHIS representative will inform a representative of the swine production system of the reasons for the proposed cancellation. The appeal must include all of the facts and
§ 71.20 Approval of livestock facilities.

(a) To qualify for approval by the Administrator as an approved livestock facility\(^7\) and to retain such designation, the individual legally responsible for the day-to-day operations of the livestock facility shall execute the following agreement:

AGREEMENT—APPROVED LIVESTOCK FACILITY FOR HANDLING LIVESTOCK PURSUANT TO TITLE 9 OF THE CODE OF FEDERAL REGULATIONS

[Name of facility]

[Address and telephone number of facility]

\(^7\)A list of approved livestock facilities may be obtained by writing to National Animal Health Programs, VS, APHIS, 4700 River Road Unit 98, Riverdale, MD 20737-1231.

I. [name of the individual legally responsible for the day-to-day operations of the livestock facility], operator of [name of facility], hereby agree to maintain and operate the livestock facility located at [address of premises] in accordance with the applicable provisions of this agreement and Chapter I, Title 9, of the Code of Federal Regulations (9 CFR).

Cooperation

(1) The State animal health official and the area veterinarian in charge shall be provided with a schedule of the facility’s sale days, which shall indicate the types of animals that will be handled at the facility on each sale day, and shall be apprised of any changes to that schedule prior to the implementation of the changes.

(2) An accredited veterinarian, State representative, or APHIS representative shall be on the facility premises on all sale days to perform duties in accordance with State and Federal regulations.

(3) State representatives and APHIS representatives shall be granted access to the facility during normal business hours to evaluate whether the facility and its operations are in compliance with the applicable provisions of this agreement and 9 CFR parts 71, 75, 78, 79, and 85.

(4) An APHIS representative, State representative, or accredited veterinarian shall be immediately notified of the presence at the facility of any livestock that are known to be infected, exposed, high-risk and scrapie-positive or suspect, or that show signs of possibly being infected, with any infectious, contagious, or communicable disease.

(5) Any reactor, suspect, exposed, high-risk, or scrapie positive livestock shall be held in quarantined pens apart from all other livestock at the facility. This requirement shall not apply to scrapie-exposed sheep that are not also designated high-risk animals or to sheep or goats designated under 9 CFR part 79 as scrapie-exposed or high-risk animals that either are not pregnant based on the animal being male, an owner certification that any female animals have not been exposed to a male in the preceding 6 months, or a certificate issued by an accredited veterinarian stating the animals are open; or that the animals are under 12 months of age and are not visibly pregnant and are maintained in the same pen only with other animals that will be moved directly to slaughter or to a terminal feedlot in accordance with 9 CFR parts 71 and 79.

(6) No reactor, suspect, exposed, high-risk, or scrapie-positive livestock, nor any livestock that show signs of being infected with any infectious, contagious, or communicable disease, may be sold at or moved from the facility, except in accordance with 9 CFR parts 71, 75, 78, 79, and 85.
