(RSO) must be notified prior to ionizing radiation sources being brought onto the installation.

(e) Applicants will apply for an Army radiation permit by letter with supporting documentation (paragraph (f) of this section) to the garrison commander through the appropriate tenant commander or garrison director. Submit the letter so that the garrison commander receives the application at least 30 calendar days before the requested effective date of the permit.

(f) The Army radiation permit application will include a proposed effective date and duration (not to exceed 12 months) for the Army radiation permit and describe the purposes for which the ionizing radiation source will be used. The application will include: Identification of the trained operating personnel who will be responsible for implementation of the activities authorized by the permit and a summary of their professional qualifications; the applicant's point-of-contact name and phone number; the applicant's radiation safety Standing Operating Procedures (SOPs); storage provisions when the ionizing radiation source is not in use; and procedures for notifying the garrison of reportable incidents/accidents.

(g) The garrison commander may approve the application only if the applicant provides evidence to show that one of the following is true:

(1) The applicant possesses a valid NRC license or Department of Energy (DOE) radiological work permit that allows the applicant to use the ionizing radiation source in the manner requested in the Army radiation permit application;

(2) The applicant possesses a valid Agreement State license that allows the applicant to use the ionizing radiation source in the manner requested in the Army radiation permit application. An applicant operating in areas subject to exclusive Federal jurisdiction (Agreement States Letter SP–96–022) has to file a NRC Form-241, Report of Proposed Activities in Non-Agreement States, with the NRC in accordance with 10 CFR 150.20(b);

(3) For machine-produced ionizing radiation sources, the applicant has an appropriate State authorization that allows the applicant to use the ionizing radiation source as requested in the Army radiation permit application and has in place a radiation safety program that complies with applicable Army regulations; or

(4) For installations outside of the United States, the applicant has an appropriate host-nation authorization as necessary that allows the applicant to use the ionizing radiation source in the manner requested in the Army radiation permit application and has in place a radiation safety program that complies with applicable Army regulations and host nation laws and regulations.

(h) Applicants and permit holders shall comply with all applicable Federal, state, interstate, and local laws and regulations, status-of-forces agreements (SOFAs), and other international agreements.

(i) Each Army radiation permit will require the permit holder to remove its permitted ionizing radiation sources from Army property prior to the expiration of the permit and restore all real or personal property of the Army that was modified, altered, or otherwise changed as a result of the permit holder's activities to the condition such property was in prior to the effective date of the permit.

(j) An Army radiation permit issued pursuant to this section shall be valid for no more than 12 months.

(k) Disposal of radioactive material by non-Army entities on Army property is prohibited. However, the garrison commander may give written authorization for releases of radioactive material to the atmosphere or to the sanitary sewerage system if such releases are in compliance with all applicable Federal, State, interstate, and local laws and regulations, including but not limited to, the NRC regulations at 10 CFR part 20, Subpart K, or the equivalent requirements of an Agreement State, and regulations issued by the Army or the Department of Defense, to include compliance with any applicable requirement to obtain a permit, license, or other authorization, or to submit any information, notification, or report for such release.
