the progress of such local planning and will furnish guidelines and consultation to the local interests during development of the plan.

(5) *Implementation of the Plan of Resettlement.* When the final plan has been developed and approved by the appropriate Federal, State and local governmental agencies (which will include information showing that the site is necessary to alleviate hardships to displaced persons and suitable for development in relation to present or potential sources of employment), a showing has been made that the State is unable to acquire the necessary lands or interests therein or is unable to acquire the lands with sufficient promptness, the Governor has executed a request that the Secretary of the Army acquire the lands under the terms and conditions of the Act, and the State or agency of the State has executed a proper bond in an amount deemed necessary to cover total expenditures to be made by the Army for the land acquisition, the District Engineer should submit to HQDA (DAEN-REA-P) WASH DC 20314 a brief Real Estate Design Memorandum covering the land to be acquired under the plan. The REDM should be accompanied by the final approved plan and the information listed above in order that the Secretary may make the determinations as required by section 209(b) of Pub. L. 90–483. No action will be taken by the District Engineer to acquire the land, proposed for acquisition in the plan and the REDM, until receipt of authority from DAEN-REA-P to proceed with the acquisition. A complete record will be maintained of all land and administrative costs incident to the acquisition as a basis for a request for reimbursement to the State and/or the State agency or agencies. Upon authorization to the District Engineer to proceed with land acquisitions of the site, normal Corps land acquisitions procedures will be followed.

(6) *Conveyance of the site to the State or State agency or agencies.* In accordance with section 209(c) of Pub. L. 90–483, upon completion of the acquisition of the site, a proper deed will be submitted to HQDA (DAEN-REA-P) WASH DC 20314 for execution by the Secretary of the Army, for conveyance of the land to the State or State agency, as appropriate. Evidence must be submitted that the terms and conditions of the deed have the approval of the Governor and the agency to which conveyance is to be made. The deed will not be delivered until reimbursement has been made to the United States for the land and administrative costs expended by the District Engineer incident to the acquisition of the site.

## MILITARY (ARMY AND AIR FORCE) AND OTHER FEDERAL AGENCIES

### § 644.21 General.

(a) *Purpose.* Sections 644.21 through 644.30 describe the procedures of the Corps of Engineers relating to real estate planning and project authorization for the acquisition of land and interests therein for military projects, for the Department of Energy (DOE), and for other Federal agencies as required.

(b) *Applicability.* Provisions of these sections are applicable to the Office of the Chief of Engineers and all Division and District Engineers having real estate responsibilities.

(c) *General procedures.* (1) AR 405–10 and AFR 87–1 outline the policies of the Department of the Army and the Department of the Air Force, respectively, with respect to real estate acquisitions.

(2) The policies of the Department of Energy (DOE) with respect to acquisition of real estate are generally set forth in requests of that agency for preparation of real estate design memorandums.

(3) The purpose of the planning function is to establish a sound basis for the acquisition of land and interests therein in accordance with existing law and broad procedures of higher authority; to collect all necessary real estate data; to correlate and evaluate these data from the standpoint of establishing the necessity for the proposed acquisition; to establish that no Government-owned or Government-controlled lands are available for the intended use; to determine the required estate, in accordance with existing policies, sufficient to protect the interests of the Government; and in general, to prepare each project for submission

to the head of the interested department or agency, or his designee, and, where necessary, to the Department of Defense and the Committees on Armed Services of the Senate and House of Representatives, for approval.

(4) In the preparation of Real Estate Planning Reports, or Real Estate Summaries, consideration will be given to the procedures and criteria expressed in the regulations cited herein.

### § 644.22 Site selection.

When a requirement develops for a new installation or the extension of an existing installation, site selection will be the primary responsibility of the using service. A representative of the appropriate Division or District Engineer will participate in selection of sites for the Department of the Army and, upon request, in Department of the Air Force site selection and preliminary investigations. Commanders and site boards should be informed of any available lands, including marginal lands in civil works projects and available lands under the control of other departments and agencies, suitable for the desired purpose. The using service will request the Chief of Engineers or the appropriate Division or District Engineer to prepare a Real Estate Planning Report or Real Estate Summary, making reference to the prior Site Selection Report if one was prepared.

### § 644.23 Real Estate Planning Documents.

(a) *Real Estate Planning Reports.* (1) A Real Estate Planning Report (REPR), as shown in Figure 2–1 in ER 405–1–12, will be prepared by the Division or District Engineer for all major fee and easement projects other than Reserve Component projects and extinguishment of grazing privileges on Federal lands. The request for such REPR may be initiated by any command or echelon of the Army or Air Force (or by the Washington Headquarters or field operations offices of DOE for a Real Estate Design Memorandum). Certain items contained in Figure 2–1 (ER 405–1–12) relate only to Department of the Air Force land acquisition programs for runways and approach zones and are not applicable to other projects. Such items will be omitted from REPRs where not applicable. When forwarding the REPR, a copy of the Reviewing Appraiser Comment, concerning the estimated land values assigned therein, should be included as an inclosure to the transmittal letter.

(2) On Department of the Air Force projects where estimated cost is not in excess of $25,000, brief REPRs are to be prepared for issuance of directives by the approprate Air Force Regional Civil Engineer (AFRCE). Such reports need not be submitted to the Chief of Engineers except in those cases in which the major command submits a copy to Headquarters, USAF. This report should contain adequate information on the items listed in the following outline but need not be limited thereto:

(i) Requirement for the property.

(ii) Cost estimate of the property with indication of the method used in arriving at the estimate.

(iii) Summary sheet showing the acreages, interests to be acquired, improvements and estimated costs, including the administrative costs of acquiring the real property and all costs in connection with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91–646).

(iv) Map showing property to be acquired, ownerships, and relation to existing installation, where appropriate.

(v) In reports covering the acquisition of runway clearance easements, a profile, topographic, and obstruction drawing should be furnished.

(vi) Discussions of any peculiar or unusual problems anticipated in connection with the proposed acquisition including relocation assistance required by Pub. L. 91–646.

(vii) Recommendations of the office preparing the report.

(b) *Planning Documents for Reserve Component Acquisitions.* Figure 2–2 in ER 405–1–12 is a sample of an REPR for use in acquisition of land for the U.S. Army Reserve Program. This report omits some items which appear in the usual planning report but includes other items particularly applicable to U.S. Army Reserve sites.
