(f) Temporary buildings or improvements which have served the purpose for which they were constructed.

§ 644.477 Civil works property—reimbursement of appropriation.

Under title 33, United States Code, section 558, the proceeds from a sale or transfer of buildings or improvements may be credited to the appropriation for the work for which the property was acquired. Buildings or other improvements, including timber, on non-excess land come within the purview of this law. For further instructions on disposition of proceeds, see § 644.322.

§ 644.478 Demolition of buildings and other improvements for utilization of salvage material.

With respect to DA property, demolition may be undertaken by the DE of buildings on non-excess land made available for disposal, when the salvage is to be used in construction or maintenance work by the Corps of Engineers or upon specific request from another service where funds for the purpose are made available. Real Estate funds will not be used for such demolition. Determination of practicability for use of buildings or improvements in authorized new construction at other sites or for salvage of materials will be made by the DE in accordance with existing instructions relating to use of materials in new construction. Where restoration of leased premises is being performed, it is the responsibility of the Corps of Engineers to perform the necessary demolition work as part of the restoration obligation, as set forth in §§ 644.444 through 644.471. Demolition may be accomplished under contract when special or expert services are required for removal of certain types of structures and funds are available therefor. Unused salvage materials will be turned over to redistribution and salvage officers for redistribution or disposal in accordance with existing regulations pertaining to personal property. The relocation of buildings or improvements on the same installation or for re-erection at another installation is not to be accomplished as a real estate function (AR 420–70). Further, it is provided in AR 420–70 that demolition of buildings or improvements where retention of the salvage for use at the installation is approved, or where no requirement or market is found for buildings or improvements approved for disposal by the Corps of Engineers, is a facilities engineering responsibility. Pursuant to AFR 87–4, disposal of AF buildings and improvements by sale will be accomplished by the Corps of Engineers, but all disposal of such property by salvage will be accomplished by the base commander.

§ 644.479 Authority for transfer of buildings and improvements to other Federal agencies.

Buildings and other imporvements which have been screened for defense requirements, as outlined in §§ 644.333 through 644.339, may be transfered to another Federal agency as hereinafter outlined. The authority for the transfer of such property to other Federal agencies is outlined in §§ 644.400 through 644.443. The responsible DE is authorized to transfer buildings or structures for removal from the site, which have been made available for disposal by proper authority, upon receipt of a request signed by an official of another Federal agency.

§ 644.480 Procedure for transfer.

Transfer of buildings to other Federal agencies will be accomplished by DD Form 1354. An estimate of value will be shown on DD Form 1354, Transfer and Acceptance of Military Real Property, or other forms used and, in the case of transfer without reimbursement, the following footnote will be made: ''Transfer to (Department or Agency), adjustment of funds not required.'' When the transfer is made at the direction of GSA, an explanation therefor will also be made on the form. Buildings and other improvements which are reported to GSA for screening against requirements of other Federal agencies (§§ 644.348 through 644.367) will be transferred to another Federal agency only at the direction of GSA and for the amount of reimbursement, if any, determined by GSA. Buildings and improvements which are not required to be reported to GSA will be screened against requirements of other Federal agencies by the responsible DE as provided in §§ 644.333 through 644.339.

Upon request by a Federal agency for transfer of such property, the responsible DE will determine the amount of reimbursement, if any, in accordance with the criteria outlined in §§ 644.400 through 644.443.

§ 644.481 Responsibility of transferee.

Where buildings or other improvements are on lands leased to the United States, the agency requesting the buildings will be expected to remove the building and restore the premises, as required by the terms of the lease, or to accept an assignment of the lease together with all obligations thereunder. Where the buildings or other improvements are to be removed from non-excess land, the transferee agency will be expected to perform reasonable site clearance as may be required by the commanding officer.

§ 644.482 Assignment to Department of HEW or successor agencies.

Pursuant to delegation of authority contained in FPMR 101–47.308–4, as set forth in §§ 644.400 through 644.443, the responsible DE may assign buildings or other improvements made available for disposal and not required for Federal purposes to HEW upon receipt of request therefore from the appropriate regional representative of that department for disposal for public health or educational purposes. Assignments will be effected by letter addressed as indicated in § 644.483. Further, pursuant to delegation of authority the Department may disapprove within 30 days after notice from HEW, any transfer of property proposed to be made by that agency for such purpose. The DE will be guided by the policy set forth in §§ 644.400 through 644.443 in regard to the delegation to disapprove transfers by HEW.

§ 644.483 Notification of Department of HEW or successor agencies.

When buildings or other structures are reported to GSA for screening pursuant to §§ 644.348 through 644.367, the Reports of Excess are available to HEW by the Regional Office of GSA, and no notice of the proposed disposal need be given by the DEs. Where buildings and other structures are not reported to GSA simultaneously with circularization of other Federal agencies, HEW will be notified in writing of the availability of such structures. Such notification will be addressed to the appropriate field representative of HEW, and will include the following information:

(a) A brief description of the buildings and improvements, including dimensions of buildings, types of construction, and demountable characteristics, if any.

(b) The extent of building site clearance expected.

(c) That the improvements must be removed and site clearance completed within a specified definite period from the date of assignment to HEW (usually 60 to 90 days, depending upon the size of the removal operation).

(d) When improvements may be inspected.

(e) That the improvements will be withheld from advertisement for bids for a period of 20 days from the date of the notification, unless the office submitting the notification is sooner informed in writing that such property is not needed for school, classroom, or other educational use or for use in the protection of public health, including research. If within the 20-day period, notice is received of a potential need, the property may be held an additional 45 days until a certification of need or request for assignment is received.

§ 644.484 Procedure for disposal through the Department of HEW or successor agencies.

During the period held, action preparatory to the publication of Invitations for Bids and Specifications of Sale of Buildings and Improvements will be taken in order to minimize the time lapse between the expiration of the 20-day period and the beginning of the sale procedure. Inquiries received prior to the expiration of the holding period from state or local agencies or qualified organizations seeking the purchase of available improvements for health or educational purposes, will be referred to the appropriate field representatives of HEW.

(a) Final disposal is not effected until the improvements have been transferred by HEW to an eligible recipient. Therefore, in the letter of assignment, HEW will be requested to furnish to the
