CODE OF FEDERAL REGULATIONS

Title 40
Protection of Environment

Part 52 (§§ 52.01 to 52.1018)

Revised as of July 1, 2020

Containing a codification of documents
of general applicability and future effect

As of July 1, 2020

Published by the Office of the Federal Register
National Archives and Records Administration
as a Special Edition of the Federal Register

U.S. GOVERNMENT OFFICIAL EDITION NOTICE

Legal Status and Use of Seals and Logos

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA's official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist's designee. Any person using NARA's official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

Use of ISBN Prefix

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0–16 ISBN prefix is for U.S. Government Publishing Office Official Editions only. The Superintendent of Documents of the U.S. Government Publishing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

Title 40:	
Chapter I—Environmental Protection Agency (Continued)	3
Finding Aids:	
Table of CFR Titles and Chapters	1281
Alphabetical List of Agencies Appearing in the CFR	1301
List of CFR Sections Affected	1311

Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 40 CFR 52.01 *refers to title 40, part 52, section 01.*

Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

Title 1 through Title 16.....as of January 1
Title 17 through Title 27.....as of April 1
Title 28 through Title 41.....as of July 1
Title 42 through Title 50.....as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, July 1, 2020), consult the ''List of CFR Sections Affected (LSA),'' which is issued monthly, and the ''Cumulative List of Parts Affected,'' which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96–511) requires Federal agencies to display an OMB control number with their information collection request.

Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

PAST PROVISIONS OF THE CODE

Provisions of the Code that are no longer in force and effect as of the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on any given date in the past by using the appropriate List of CFR Sections Affected (LSA). For the convenience of the reader, a ''List of CFR Sections Affected'' is published at the end of each CFR volume. For changes to the Code prior to the LSA listings at the end of the volume, consult previous annual editions of the LSA. For changes to the Code prior to 2001, consult the List of CFR Sections Affected compilations, published for 1949-1963, 1964-1972, 1973-1985, and 1986-2000.

''[RESERVED]'' TERMINOLOGY

The term ''[Reserved]'' is used as a place holder within the Code of Federal Regulations. An agency may add regulatory information at a ''[Reserved]'' location at any time. Occasionally ''[Reserved]'' is used editorially to indicate that a portion of the CFR was left vacant and not dropped in error.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of ''Title 3—The President'' is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the ''Contents'' entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency's name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202–741–6000 or write to the Director, Office of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001 or e-mail *fedreg.info@nara.gov*.

SALES

The Government Publishing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call toll-free, 866-512-1800, or DC area, 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2104, 24 hours a day. For payment by check, write to: US Government Publishing Office – New Orders, P.O. Box 979050, St. Louis, MO 63197-9000.

ELECTRONIC SERVICES

The full text of the Code of Federal Regulations, the LSA (List of CFR Sections Affected), The United States Government Manual, the Federal Register, Public Laws, Public Papers of the Presidents of the United States, Compilation of Presidential Documents and the Privacy Act Compilation are available in electronic format via *www.govinfo.gov*. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800, or 866-512-1800 (toll-free). E-mail, *ContactCenter@gpo.gov*.

The Office of the Federal Register also offers a free service on the National Archives and Records Administration's (NARA) website for public law numbers, Federal Register finding aids, and related information. Connect to NARA's website at *www.archives.gov/federal-register*.

The e-CFR is a regularly updated, unofficial editorial compilation of CFR material and Federal Register amendments, produced by the Office of the Federal Register and the Government Publishing Office. It is available at *www.ecfr.gov*.

OLIVER A. POTTS,
Director,
Office of the Federal Register
July 1, 2020

THIS TITLE

Title 40—PROTECTION OF ENVIRONMENT is composed of thirty-seven volumes. The parts in these volumes are arranged in the following order: Parts 1–49, parts 50–51, part 52 (52.01–52.1018), part 52 (52.1019–52.2019), part 52 (52.2020–end of part 52), parts 53–59, part 60 (60.1–60.499), part 60 (60.500–end of part 60, sections), part 60 (Appendices), parts 61–62, part 63 (63.1–63.599), part 63 (63.600–63.1199), part 63 (63.1200–63.1439), part 63 (63.1440–63.6175), part 63 (63.6580–63.8830), part 63 (63.8980–end of part 63), parts 64–71, parts 72–79, part 80, part 81, parts 82–86, parts 87–95, parts 96–99, parts 100–135, parts 136–149, parts 150–189, parts 190–259, parts 260–265, parts 266–299, parts 300–399, parts 400–424, parts 425–699, parts 700–722, parts 723–789, parts 790–999, parts 1000–1059, and part 1060 to end. The contents of these volumes represent all current regulations codified under this title of the CFR as of July 1, 2020.

Chapter I—Environmental Protection Agency appears in all thirty-seven volumes. OMB control numbers for title 40 appear in §9.1 of this chapter.

Chapters IV–VIII—Regulations issued by the Environmental Protection Agency and Department of Justice, Council on Environmental Quality, Chemical Safety and Hazard Investigation Board, Environmental Protection Agency and Department of Defense; Uniform National Discharge Standards for Vessels of the Armed Forces, and the Gulf Coast Ecosystem Restoration Council appear in volume thirty seven.

For this volume, Gabrielle E. Burns was Chief Editor. The Code of Federal Regulations publication program is under the direction of John Hyrum Martinez, assisted by Stephen J. Frattini.

SUBCHAPTER C—AIR PROGRAMS (CONTINUED)

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Subpart A—General Provisions

Sec.
52.01 Definitions.
52.02 Introduction.
52.04 Classification of regions.
52.05 Public availability of emission data.
52.06 Legal authority.
52.07 Control strategies.
52.08 Rules and regulations.
52.09 Compliance schedules.
52.10 Review of new sources and modifications.
52.11 Prevention of air pollution emergency episodes.
52.12 Source surveillance.
52.13 Air quality surveillance; resources; intergovernmental cooperation.
52.14 State ambient air quality standards.
52.15 Public availability of plans.
52.16 Submission to Administrator.
52.17 Severability of provisions.
52.18 Abbreviations.
52.20 Attainment dates for national standards.
52.21 Prevention of significant deterioration of air quality.
52.23 Violation and enforcement.
52.24 Statutory restriction on new sources.
52.26 [Reserved]
52.27 Protection of visibility from sources in attainment areas.
52.28 Protection of visibility from sources in nonattainment areas.
52.29 [Reserved]
52.30 Criteria for limiting application of sanctions under section 110(m) of the Clean Air Act on a statewide basis.
52.31 Selection of sequence of mandatory sanctions for findings made pursuant to section 179 of the Clean Air Act.
52.32 Sanctions following findings of SIP inadequacy.
52.33 Compliance certifications.
52.34 Action on petitions submitted under section 126 relating to emissions of nitrogen oxides.
52.35 What are the requirements of the Federal Implementation Plans (FIPs) for the Clean Air Interstate Rule (CAIR) relating to emissions of nitrogen oxides?
52.36 What are the requirements of the Federal Implementation Plans (FIPs) for the Clean Air Interstate Rule (CAIR) relating to emissions of sulfur dioxide?
52.37 [Reserved]
52.38 What are the requirements of the Federal Implementation Plans (FIPs) for the Cross-State Air Pollution Rule (CSAPR) relating to emissions of nitrogen oxides?
52.39 What are the requirements of the Federal Implementation Plans (FIPs) for the Cross-State Air Pollution Rule (CSAPR) relating to emissions of sulfur dioxide?

Subpart B—Alabama

52.50 Identification of plan.
52.51 Classification of regions.
52.53 Approval status.
52.54 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.55 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?
52.56 [Reserved]
52.57 Control strategy: Sulfur oxides.
52.58 Control strategy: Lead.
52.60 Significant deterioration of air quality.
52.61 [Reserved]
52.62 Control strategy: Sulfur oxides and particulate matter.
52.63 PM_{10} State Implementation Plan development in group II areas.
52.64 Determination of attainment.
52.65 Control strategy: Nitrogen oxides.
52.66 [Reserved]
52.69 Original identification of plan section.

Subpart C—Alaska

52.70 Identification of plan.
52.71 Classification of regions.
52.72 Approval status.
52.73 Approval of plans.
52.74 Original identification of plan section.
52.75 [Reserved]
52.76 1990 Base Year Emission Inventory.
52.77–52.81 [Reserved]
52.82 Extensions.
52.83–52.95 [Reserved]
52.96 Significant deterioration of air quality.
52.97–52.98 [Reserved]

Subpart D—Arizona

52.119 Identification of plan—conditional approvals.
52.120 Identification of plan.
52.121 Classification of regions.
52.122 Negative declarations.
52.123 Approval status.
52.124 Part D disapproval.
52.125 Control strategy and regulations: Sulfur oxides.
52.126 Control strategy and regulations: Particulate matter.

52.127 Commitment to promulgate and implement reasonably available control measures for the agricultural fields and aprons.
52.128 Rule for unpaved parking lots, unpaved roads and vacant lots.
52.129 Review of new sources and modifications.
52.130 Source surveillance.
52.131 Control Strategy and regulations: Fine Particle Matter.
52.132 [Reserved]
52.133 Rules and regulations.
52.134 Compliance schedules.
52.135 Resources.
52.136 Control strategy for ozone: Oxides of nitrogen.
52.137 [Reserved]
52.138 Conformity procedures.
52.139 [Reserved]
52.140 Monitoring transportation trends.
52.141 [Reserved]
52.142 Federal Implementation Plan for Tri-Cities landfill, Salt River Pima-Maricopa Indian Community.
52.143 [Reserved]
52.144 Significant deterioration of air quality.
52.145 Visibility protection.
52.146 Particulate matter (PM–10) Group II SIP commitments.
52.147 Interstate transport.
52.150 Yavapai-Apache Reservation.
52.151 Operating permits.
52.152 Original identification of plan.
52.153 Control strategy and regulations: Ozone.

Subpart E—Arkansas

52.170 Identification of plan.
52.171 Classification of regions.
52.172 Approval status.
52.173 Visibility protection.
52.174 Control strategy and regulations: Ozone.
52.175–52.180 [Reserved]
52.181 Significant deterioration of air quality.
52.183 Small business assistance program.
52.184 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.200 Original identification of plan section.

Subpart F—California

52.220 Identification of plan—in part.
52.220a Identification of plan—in part.
52.221 Classifications of regions.
52.222 Negative declarations.
52.223 Approval status.
52.224 General requirements.
52.225 Legal authority.
52.226 Control strategy and regulations: Particulate matter, San Joaquin Valley and Mountain Counties Intrastate Regions.
52.227 Control strategy and regulations: Particulate matter, Metropolitan Los Angeles Intrastate Region.
52.228 Regulations: Particulate matter, Southeast Desert Intrastate Region.
52.229 Control strategy and regulations: Photochemical oxidants (hydrocarbons), Metropolitan Los Angeles Intrastate Region.
52.230 Control strategy and regulations: Nitrogen dioxide.
52.231 Regulations: Sulfur oxides.
52.232 Part D conditional approval.
52.233 Review of new sources and modifications.
52.234 Source surveillance.
52.235 Control strategy for ozone: Oxides of nitrogen.
52.236 Rules and regulations.
52.237 Part D disapproval.
52.238 Commitment to undertake rulemaking.
52.239 Alternate compliance plans.
52.240 Compliance schedules.
52.241 Inspection and maintenance program.
52.242 Disapproved rules and regulations.
52.243 Interim approval of the Carbon Monoxide plan for the South Coast.
52.244 Motor vehicle emissions budgets.
52.245 New Source Review rules.
52.246 Control of dry cleaning solvent vapor losses.
52.247 Control Strategy and regulations: Fine Particle Matter.
52.248 Identification of plan—conditional approval.
52.249–52.251 [Reserved]
52.252 Control of degreasing operations.
52.253 Metal surface coating thinner and reducer.
52.254 Organic solvent usage.
52.255 Gasoline transfer vapor control.
52.256 Control of evaporative losses from the filling of vehicular tanks.
52.257–52.262 [Reserved]
52.263 Priority treatment for buses and carpools—Los Angeles Region.
52.264–52.268 [Reserved]
52.269 Control strategy and regulations: Photochemical oxidants (hydrocarbons) and carbon monoxide.
52.270 Significant deterioration of air quality.
52.271 Malfunction, startup, and shutdown regulations.
52.272 Research operations exemptions.
52.273 Open burning.
52.274 California air pollution emergency plan.
52.275 Particulate matter control.
52.276 Sulfur content of fuels.
52.277 Oxides of nitrogen, combustion gas concentration limitations.
52.278 Oxides of nitrogen control.
52.279 Food processing facilities.

52.280 Fuel burning equipment.
52.281 Visibility protection.
52.282 Control strategy and regulations: Ozone.
52.283 Interstate Transport.

Subpart G—Colorado

52.320 Identification of plan.
52.321 Classification of regions.
52.322 Extensions.
52.323 Approval status.
52.324 Legal authority.
52.325 [Reserved]
52.326 Area-wide nitrogen oxides (NO_X) exemptions.
52.327–52.328 [Reserved]
52.329 Rules and regulations.
52.330 Control strategy: Total suspended particulates.
52.331 Committal SIP for the Colorado Group II PM_{10} areas.
52.332 Control strategy: Particulate matter.
52.333–52.342 [Reserved]
52.343 Significant deterioration of air quality.
52.344 Visibility protection.
52.345 Stack height regulations.
52.346 Air quality monitoring requirements.
52.347 [Reserved]
52.348 Emission inventories.
52.349 Control strategy: Carbon monoxide.
52.350 Control strategy: Ozone.
52.351 United States Postal Service substitute Clean Fuel Fleet Program.
52.352 Interstate transport.
52.353 Section 110(a)(2) infrastructure requirements.
52.354 Original identification of plan.

Subpart H—Connecticut

52.369 [Reserved]
52.370 Identification of plan.
52.371 Classification of regions.
52.372 Extensions.
52.373 Approval status.
52.374 Attainment dates for national standards.
52.375 Certification of no sources.
52.376 Control strategy: Carbon monoxide.
52.377 Control strategy: Ozone.
52.378 Control strategy: PM_{10}
52.379 Control strategy: $PM_{2.5}$.
52.380 Rules and regulations.
52.381 Requirements for State implementation plan revisions relating to new motor vehicles.
52.382 Significant deterioration of air quality.
52.383 Stack height review.
52.384 Emission inventories.
52.385 EPA-approved Connecticut regulations.
52.386 Section 110(a)(2) infrastructure requirements.
52.387 Interstate Transport for the 1997 8-hour ozone and $PM_{2.5}$ NAAQS.

Subpart I—Delaware

52.420 Identification of plan.
52.421 Classification of regions.
52.422 Approval status.
52.423 Base year emissions inventory.
52.424 Conditional approval.
52.425 Determinations of attainment.
52.426 Control Strategy plans for attainment and rate-of-progress: ozone.
52.427 Control strategy: Particulate matter.
52.428–52.429 [Reserved]
52.430 Photochemical assessment monitoring stations (PAMS) program.
52.431 [Reserved]
52.432 Significant deterioration of air quality.
52.433 Nonattainment new source review.
52.440 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.441 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?
52.460 Small business stationary source technical and environmental compliance assistance program.
52.465 Original identification of plan section.

Subpart J—District of Columbia

52.470 Identification of plan.
52.471 Classification of regions.
52.472 Approval status.
52.473 [Reserved]
52.474 Base Year Emissions Inventory.
52.475 Determinations of attainment.
52.476 Control strategy: ozone.
52.477 Control strategy: Particular matter.
52.478 Rules and Regulations.
52.479 Source-specific requirements.
52.480 Photochemical assessment monitoring stations (PAMS) program.
52.481–52.483 [Reserved]
52.484 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.485 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?
52.486–52.498 [Reserved]
52.499 Significant deterioration of air quality.
52.510 Small business assistance program.
52.515 Original identification of plan section.

Subpart K—Florida

52.519 [Reserved]
52.520 Identification of plan.
52.521 Classification of regions.
52.522 Approval status.
52.523 Control strategy: Ozone.

52.524 Compliance schedule.
52.525 General requirements.
52.526 Legal authority.
52.527 [Reserved]
52.528 Control strategy: Sulfur oxides and particulate matter.
52.529 [Reserved]
52.530 Significant deterioration of air quality.
52.532 [Reserved]
52.533 Source surveillance.
52.534 Visibility protection.
52.536 Original identification of plan section.
52.540 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?

Subpart L—Georgia

52.569 Conditional approval.
52.570 Identification of plan.
52.571 Classification of regions.
52.572 Approval status.
52.573 Control strategy: General.
52.574–52.575 [Reserved]
52.576 Compliance schedules.
52.577 Determination of attainment.
52.578 Control strategy: Sulfur oxides and particulate matter.
52.579 Economic feasibility considerations.
52.580 [Reserved] protection.
52.581 Significant deterioration of air quality.
52.582 Control strategy: Ozone.
52.583 Additional rules and regulations.
52.584 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.585 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?
52.590 Original identification of plan section.

Subpart M—Hawaii

52.620 Identification of plan.
52.621 Classification of regions.
52.622 Original identification of plan.
52.623 Approval status.
52.624 General requirements.
52.625 Legal authority.
52.626 Compliance schedules.
52.627–52.631 [Reserved]
52.632 Significant deterioration of air quality.
52.633 Visibility protection.
52.634 Particulate matter (PM–10) Group III SIP.

Subpart N—Idaho

52.670 Identification of plan.
52.671 Classification of regions.
52.672 Approval of plans.
52.673 Approval status.
52.674 [Reserved]
52.675 Control strategy: Sulfur oxides—Eastern Idaho Intrastate Air Quality Control Region.
52.676 [Reserved]
52.677 Original identification of plan section.
52.678–52.680 [Reserved]
52.681 Permits to construct and tier II operating permits.
52.682 [Reserved]
52.683 Significant deterioration of air quality.
52.684–52.689 [Reserved]
52.690 Visibility protection.
52.691 Extensions.

Subpart O—Illinois

52.719 [Reserved]
52.720 Identification of plan.
52.721 Classification of regions.
52.722 Approval status.
52.723 [Reserved]
52.724 Control strategy: Sulfur dioxide.
52.725 Control strategy: Particulates.
52.726 Control strategy: Ozone.
52.727 [Reserved]
52.728 Control strategy: Nitrogen dioxide. [Reserved]
52.729 [Reserved]
52.730 Compliance schedules.
52.731 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.732 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?
52.733–52.735 [Reserved]
52.736 Review of new sources and modifications.
52.737 Operating permits.
52.738 Significant deterioration of air quality.
52.739 Permit fees.
52.740 Interstate pollution.
52.741 Control strategy: Ozone control measures for Cook, DuPage, Kane, Lake, McHenry and Will Counties.
52.742 Incorporation by reference.
52.743 Continuous monitoring.
52.744 Small business stationary source technical and environmental compliance assistance program.
52.745–52.746 [Reserved]
52.750 Original identification of plan section.

Subpart P—Indiana

52.769 Identification of plan—conditional approval.
52.770 Identification of plan.
52.771 Classification of regions.
52.772 [Reserved]

52.773 Approval status.
52.774 Determination of attainment.
52.775 Legal authority.
52.776 Control strategy: Particulate matter.
52.777 Control strategy: Photochemical oxidants (hydrocarbons).
52.778 Compliance schedules.
52.779 [Reserved]
52.780 Review of new sources and modifications.
52.781 Rules and regulations.
52.782 Request for 18-month extension.
52.783 [Reserved]
52.784 Transportation and land use controls.
52.785 Control strategy: Carbon monoxide.
52.786 Inspection and maintenance program.
52.787 Gasoline transfer vapor control.
52.788 Operating permits.
52.789 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.790 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?
52.791 Visibility protection.
52.792 [Reserved]
52.793 Significant deterioration of air quality.
52.794 Source surveillance.
52.795 Control strategy: Sulfur dioxide.
52.796 Industrial continuous emission monitoring.
52.797 Control strategy: Lead.
52.798 Small business stationary source technical and environmental compliance assistance program.
52.799 Transportation conformity.
52.800 Original identification of plan section.

Subpart Q—Iowa

52.820 Identification of plan.
52.821 Classification of regions.
52.822 Approval status.
52.823 PM_{10} State Implementation Plan Development in Group II Areas.
52.824 Original identification of plan section.
52.825 Compliance schedules.
52.826–52.827 [Reserved]
52.828 Enforcement.
52.829–52.832 [Reserved]
52.833 Significant deterioration of air quality.
52.834 Control strategy: Sulfur dioxide.
52.840 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.841 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?
52.842 Visibility protection.

Subpart R—Kansas

52.869 [Reserved]
52.870 Identification of plan.
52.871 Classification of regions.
52.872 Operating permits.
52.873 Approval status.
52.874 Legal authority.
52.875 Original identification of plan section.
52.876 Compliance schedules.
52.877–52.880 [Reserved]
52.881 PM_{10} State implementation plan development in group II areas.
52.882 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.883 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?
52.884 Significant deterioration of air quality.

Subpart S—Kentucky

52.919 [Reserved]
52.920 Identification of plan.
52.921 Classification of regions.
52.922 [Reserved]
52.923 Approval status.
52.924 Legal authority.
52.925 General requirements.
52.926 Attainment dates for national standards.
52.927 Compliance schedule.
52.928 Control strategy: Sulphur oxides.
52.929 Determination of attainment.
52.930 Control strategy: Ozone.
52.931 Significant deterioration of air quality.
52.932 Rules and regulations.
52.933 Control strategy: Sulfur oxides and particulate matter.
52.934 [Reserved]
52.935 PM_{10} State implementation plan development in group II areas.
52.936 [Reserved]
52.937 Review of new sources and modifications.
52.938 General conformity.
52.939 Original identification of plan section.
52.940 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.941 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?

Subpart T—Louisiana

52.970 Identification of plan.
52.971 Classification of regions.
52.972–52.974 [Reserved]
52.975 Redesignations and maintenance plans; ozone.

52.976 Review of new sources and modification.
52.977 Control strategy and regulations: Ozone.
52.978–52.983 [Reserved]
52.984 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?
52.985 Visibility protection.
52.986 Significant deterioration of air quality.
52.987 Control of hydrocarbon emissions.
52.988 [Reserved]
52.990 Stack height regulations
52.991 Small business assistance program.
52.992 Area-wide nitrogen oxides exemptions.
52.993 Emissions inventories.
52.994 [Reserved]
52.995 Enhanced ambient air quality monitoring.
52.996 Disapprovals.
52.999 Original Identification of plan section.
52.1000–52.1018 [Reserved]

AUTHORITY: 42 U.S.C. 7401 *et seq.*

EDITORIAL NOTE: Nomenclature changes to part 52 appear at 81 FR 74586, Oct. 26, 2016.

Subpart A—General Provisions

SOURCE: 37 FR 10846, May 31, 1972, unless otherwise noted.

§ 52.01 Definitions.

All terms used in this part but not defined herein shall have the meaning given them in the Clean Air Act and in parts 51 and 60 of this chapter.

(a) The term *stationary source* means any building, structure, facility, or installation which emits or may emit an air pollutant for which a national standard is in effect.

(b) The term *commenced* means that an owner or operator has undertaken a continuous program of construction or modification.

(c) The term *construction* means fabrication, erection, or installation.

(d) The phrases *modification* or *modified source* mean any physical change in, or change in the method of operation of, a stationary source which increases the emission rate of any pollutant for which a national standard has been promulgated under part 50 of this chapter or which results in the emission of any such pollutant not previously emitted, except that:

(1) Routine maintenance, repair, and replacement shall not be considered a physical change, and

(2) The following shall not be considered a change in the method of operation:

(i) An increase in the production rate, if such increase does not exceed the operating design capacity of the source;

(ii) An increase in the hours of operation;

(iii) Use of an alternative fuel or raw material, if prior to the effective date of a paragraph in this part which imposes conditions on or limits modifications, the source is designed to accommodate such alternative use.

(e) The term *startup* means the setting in operation of a source for any purpose.

(f) [Reserved]

(g) The term *heat input* means the total gross calorific value (where gross calorific value is measured by ASTM Method D2015–66, D240–64, or D1826–64) of all fuels burned.

(h) The term *total rated capacity* means the sum of the rated capacities of all fuel-burning equipment connected to a common stack. The rated capacity shall be the maximum guaranteed by the equipment manufacturer or the maximum normally achieved during use, whichever is greater.

[37 FR 19807, Sept. 22, 1972, as amended at 38 FR 12698, May 14, 1973; 39 FR 42514, Dec. 5, 1974; 43 FR 26410, June 19, 1978]

§ 52.02 Introduction.

(a) This part sets forth the Administrator's approval and disapproval of State plans and the Administrator's promulgation of such plans or portions thereof. Approval of a plan or any portion thereof is based upon a determination by the Administrator that such plan or portion meets the requirements of section 110 of the Act and the provisions of part 51 of this chapter.

(b) Any plan or portion thereof promulgated by the Administrator substitutes for a State plan or portion thereof disapproved by the Administrator or not submitted by a State, or supplements a State plan or portion thereof. The promulgated provisions, together with any portions of a State plan approved by the Administrator,

constitute the applicable plan for purposes of the Act.

(c) Where nonregulatory provisions of a plan are disapproved, the disapproval is noted in this part and a detailed evaluation is provided to the State, but no substitute provisions are promulgated by the Administrator.

(d) All approved plans and plan revisions listed in subparts B through DDD and FFF of this part and on file at the Office of the Federal Register are approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Notice of amendments to the plans will be published in the FEDERAL REGISTER. The plans and plan revisions are available for inspection at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202–741–6030, or go to: *http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html*. In addition the plans and plan revisions are available at the following locations:

(1) Office of Air and Radiation, Docket and Information Center (Air Docket), EPA, 401 M St., SW., Room M1500, Washington, DC 20460.

(2) The appropriate EPA Regional Office as listed below:

(i) Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. Environmental Protection Agency, Region 1, 5 Post Office Square—Suite 100, Boston, MA 02109–3912.

(ii) New York, New Jersey, Puerto Rico, and Virgin Islands. Environmental Protection Agency, Region 2, 290 Broadway, New York, NY 10007–1866.

(iii) Delaware, District of Columbia, Pennsylvania, Maryland, Virginia, and West Virginia. Environmental Protection Agency, Region 3, 1650 Arch Street, Philadelphia, PA 19103–2029.

(iv) Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee. Environmental Protection Agency, Region 4, 61 Forsyth Street, Atlanta, Georgia 30303.

(v) Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, IL 60604–3507.

(vi) Arkansas, Louisiana, New Mexico, Oklahoma, and Texas. Environmental Protection Agency, Region 6, 1201 Elm Street, Suite 500, Dallas, Texas 75270–2102.

(vii) Iowa, Kansas, Missouri, and Nebraska. Environmental Protection Agency, Region 7, 11201 Renner Boulevard, Lenexa, Kansas 66219.

(viii) Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming. Environmental Protection Agency, Region 8, 1595 Wynkoop Street, Denver, CO 80202–1129.

(ix) Arizona, California, Hawaii, Nevada, American Samoa, Commonwealth of the Northern Mariana Islands, and Guam. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, CA 94105.

(x) Alaska, Idaho, Oregon, and Washington. Environmental Protection Agency, Region 10, 1200 6th Avenue Seattle, WA 98101.

(e) Each State's plan is dealt with in a separate subpart, which includes an introductory section identifying the plan by name and the date of its submittal, a section classifying regions, and a section setting forth dates for attainment of the national standards. Additional sections are included as necessary to specifically identify disapproved provisions, to set forth reasons for disapproval, and to set forth provisions of the plan promulgated by the Administrator. Except as otherwise specified, all supplemental information submitted to the Administrator with respect to any plan has been submitted by the Governor of the State.

(f) Revisions to applicable plans will be included in this part when approved or promulgated by the Administrator.

[37 FR 10846, May 31, 1972, as amended at 37 FR 15080, July 27, 1972; 47 FR 38886, Sept. 3, 1982; 61 FR 16060, Apr. 11, 1996; 72 FR 38793, July 16, 2007; 76 FR 49671, Aug. 11, 2011; 78 FR 37975, June 25, 2013; 79 FR 22035, Apr. 21, 2014; 84 FR 44228, Aug. 23, 2019]

§ 52.04 Classification of regions.

Each subpart sets forth the priority classification, by pollutant, for each region in the State. Each plan for each region was evaluated according to the

requirements of part 51 of this chapter applicable to regions of that priority.

§ 52.05 Public availability of emission data.

Each subpart sets forth the Administrator's disapproval of plan procedures for making emission data available to the public after correlation with applicable emission limitations, and includes the promulgation of requirements that sources report emission data to the Administrator for correlation and public disclosure.

§ 52.06 Legal authority.

(a) The Administrator's determination of the absence or inadequacy of legal authority required to be included in the plan is set forth in each subpart. This includes the legal authority of local agencies and State governmental agencies other than an air pollution control agency if such other agencies are assigned responsibility for carrying out a plan or portion thereof.

(b) No legal authority as such is promulgated by the Administrator. Where required regulatory provisions are not included in the plan by the State because of inadequate legal authority, substitute provisions are promulgated by the Administrator.

[37 FR 10846, May 31, 1972, as amended at 60 FR 33922, June 29, 1995]

§ 52.07 Control strategies.

(a) Each subpart specifies in what respects the control strategies are approved or disapproved. Where emission limitations with a future effective date are employed to carry out a control strategy, approval of the control strategy and the implementing regulations does not supersede the requirements of subpart N of this chapter relating to compliance schedules for individual sources or categories of sources. Compliance schedules for individual sources or categories of sources must require such sources to comply with applicable requirements of the plan as expeditiously as practicable, where the requirement is part of a control strategy designed to attain a primary standard, or within a reasonable time, where the requirement is part of a control strategy designed to attain a secondary standard. All sources must be required to comply with applicable requirements of the plan no later than the date specified in this part for attainment of the national standard which the requirement is intended to implement.

(b) A control strategy may be disapproved as inadequate because it is not sufficiently comprehensive, although all regulations provided to carry out the strategy may themselves be approved. In this case, regulations for carrying out necessary additional measures are promulgated in the subpart.

(c) Where a control strategy is adequate to attain and maintain a national standard but one or more of the regulations to carry it out is not adopted or not enforceable by the State, the control strategy is approved and the necessary regulations are promulgated by the Administrator.

(d) Where a control strategy is adequate to attain and maintain air quality better than that provided for by a national standard but one or more of the regulations to carry it out is not adopted or not enforceable by the State, the control strategy is approved and substitute regulations necessary to attain and maintain the national standard are promulgated.

[37 FR 10846, May 31, 1972, as amended at 37 FR 19807, Sept. 22, 1972; 51 FR 40676, Nov. 7, 1986]

§ 52.08 Rules and regulations.

Each subpart identifies the regulations, including emission limitations, which are disapproved by the Administrator, and includes the regulations which the Administrator promulgates.

§ 52.09 Compliance schedules.

(a) In each subpart, compliance schedules disapproved by the Administrator are identified, and compliance schedules promulgated by the Administrator are set forth.

(b) Individual source compliance schedules submitted with certain plans have not yet been evaluated, and are not approved or disapproved.

(c) The Administrator's approval or promulgation of any compliance schedule shall not affect the responsibility of the owner or operator to comply

with any applicable emission limitation on and after the date for final compliance specified in the applicable schedule.

[37 FR 10846, May 31, 1972, as amended at 38 FR 30877, Nov. 8, 1973]

§ 52.10 Review of new sources and modifications.

In any plan where the review procedure for new sources and source modifications does not meet the requirements of subpart I of this chapter, provisions are promulgated which enable the Administrator to obtain the necessary information and to prevent construction or modification.

[37 FR 10846, May 31, 1972, as amended at 51 FR 40677, Nov. 7, 1986]

§ 52.11 Prevention of air pollution emergency episodes.

(a) Each subpart identifies portions of the air pollution emergency episode contingency plan which are disapproved, and sets forth the Administrator's promulgation of substitute provisions.

(b) No provisions are promulgated to replace any disapproved air quality monitoring or communications portions of a contingency plan, but detailed critiques of such portions are provided to the State.

(c) Where a State plan does not provide for public announcement regarding air pollution emergency episodes or where the State fails to give any such public announcement, the Administrator will issue a public announcement that an episode stage has been reached. When making such an announcement, the Administrator will be guided by the suggested episode criteria and emission control actions suggested in Appendix L of part 51 of this chapter or those in the approved plan.

[37 FR 10846, May 31, 1972, as amended at 37 FR 19807, Sept. 22, 1972]

§ 52.12 Source surveillance.

(a) Each subpart identifies the plan provisions for source surveillance which are disapproved, and sets forth the Administrator's promulgation of necessary provisions for requiring sources to maintain records, make reports, and submit information.

(b) No provisions are promulgated for any disapproved State or local agency procedures for testing, inspection, investigation, or detection, but detailed critiques of such portions are provided to the State.

(c) For purposes of Federal enforcement, the following test procedures and methods shall be used, provided that for the purpose of establishing whether or not a person has violated or is in violation of any provision of the plan, nothing in this part shall preclude the use, including the exclusive use, of any credible evidence or information, relevant to whether a source would have been in compliance with applicable requirements if the appropriate performance or compliance test procedures or methods had been performed:

(1) Sources subject to plan provisions which do not specify a test procedure and sources subject to provisions promulgated by the Administrator will be tested by means of the appropriate procedures and methods prescribed in part 60 of this chapter unless otherwise specified in this part.

(2) Sources subject to approved provisions of a plan wherein a test procedure is specified will be tested by the specified procedure.

[37 FR 10846, May 31, 1972, as amended at 40 FR 26032, June 20, 1975; 62 FR 8328, Feb. 24, 1997]

§ 52.13 Air quality surveillance; resources; intergovernmental cooperation.

Disapproved portions of the plan related to the air quality surveillance system, resources, and intergovernmental cooperation are identified in each subpart, and detailed critiques of such portions are provided to the State. No provisions are promulgated by the Administrator.

§ 52.14 State ambient air quality standards.

Any ambient air quality standard submitted with a plan which is less stringent than a national standard is not considered part of the plan.

§ 52.15 Public availability of plans.

Each State shall make available for public inspection at least one copy of

the plan in at least one city in each region to which such plan is applicable. All such copies shall be kept current.

§ 52.16 Submission to Administrator.

(a) All requests, reports, applications, submissions, and other communications to the Administrator pursuant to this part shall be submitted in duplicate and addressed to the appropriate Regional Office of the Environmental Protection Agency. For any submission pursuant to this part that is also a submission of a plan or plan revision pursuant to 40 CFR part 51, the submission shall conform to the requirements of appendix V to 40 CFR part 51, rather than the requirements of this paragraph.

(b) The Regional Offices are as follows:

(1) Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. EPA Region 1, 5 Post Office Square—Suite 100, Boston, MA 02109–3912.

(2) New York, New Jersey, Puerto Rico, and Virgin Islands. EPA Region 2, 290 Broadway, New York, NY 10007–1866.

(3) Delaware, District of Columbia, Pennsylvania, Maryland, Virginia, and West Virginia. EPA Region 3, 1650 Arch Street, Philadelphia, PA 19103–2029.

(4) Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee. EPA Region 4, 61 Forsyth Street, Atlanta, Georgia 30303.

(5) Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin. EPA Region 5, 77 West Jackson Boulevard, Chicago, IL 60604–3507.

(6) Arkansas, Louisiana, New Mexico, Oklahoma, and Texas. Environmental Protection Agency, Region 6, 1201 Elm Street, Suite 500, Dallas, Texas 75270–2102.

(7) Iowa, Kansas, Missouri, and Nebraska. Environmental Protection Agency, Region 7, 11201 Renner Boulevard, Lenexa, Kansas 66219.

(8) Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming. EPA, Region 8, 1595 Wynkoop Street, Denver, CO 80202–1129.

(9) Arizona, California, Hawaii, Nevada, American Samoa, Commonwealth of the Northern Mariana Islands, and Guam. EPA, Region 9, 75 Hawthorne Street, San Francisco, CA 94105.

(10) Alaska, Idaho, Oregon, and Washington. EPA, Region 10, 1200 6th Avenue, Seattle, WA 98101.

[61 FR 16061, Apr. 11, 1996, as amended at 72 FR 38793, July 16, 2007; 76 FR 49671, Aug. 11, 2011; 78 FR 37975, June 25, 2013; 79 FR 22035, Apr. 21, 2014; 80 FR 7341, Feb. 10, 2015; 84 FR 44228, Aug. 23, 2019]

§ 52.17 Severability of provisions.

The provisions promulgated in this part and the various applications thereof are distinct and severable. If any provision of this part or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or application of such provision to other persons or circumstances which can be given effect without the invalid provision or application.

[37 FR 19808, Sept. 22, 1972]

§ 52.18 Abbreviations.

Abbreviations used in this part shall be those set forth in part 60 of this chapter.

[38 FR 12698, May 14, 1973]

§ 52.20 Attainment dates for national standards.

Each subpart contains a section which specifies the latest dates by which national standards are to be attained in each region in the State. An attainment date which only refers to a month and a year (such as July 1975) shall be construed to mean the last day of the month in question. However, the specification of attainment dates for national standards does not relieve any State from the provisions of subpart N of this chapter which require all sources and categories of sources to comply with applicable requirements of the plan—

(a) As expeditiously as practicable where the requirement is part of a control strategy designed to attain a primary standard, and

(b) Within a reasonable time where the requirement is part of a control

strategy designed to attain a secondary standard.

[37 FR 19808, Sept. 22, 1972, as amended at 39 FR 34535, Sept. 26, 1974; 51 FR 40676, Nov. 7, 1986]

§ 52.21 Prevention of significant deterioration of air quality.

(a)(1) *Plan disapproval.* The provisions of this section are applicable to any State implementation plan which has been disapproved with respect to prevention of significant deterioration of air quality in any portion of any State where the existing air quality is better than the national ambient air quality standards. Specific disapprovals are listed where applicable, in subparts B through DDD and FFF of this part. The provisions of this section have been incorporated by reference into the applicable implementation plans for various States, as provided in subparts B through DDD and FFF of this part. Where this section is so incorporated, the provisions shall also be applicable to all lands owned by the Federal Government and Indian Reservations located in such State. No disapproval with respect to a State's failure to prevent significant deterioration of air quality shall invalidate or otherwise affect the obligations of States, emission sources, or other persons with respect to all portions of plans approved or promulgated under this part.

(2) *Applicability procedures.* (i) The requirements of this section apply to the construction of any new major stationary source (as defined in paragraph (b)(1) of this section) or any project at an existing major stationary source in an area designated as attainment or unclassifiable under sections 107(d)(1)(A)(ii) or (iii) of the Act.

(ii) The requirements of paragraphs (j) through (r) of this section apply to the construction of any new major stationary source or the major modification of any existing major stationary source, except as this section otherwise provides.

(iii) No new major stationary source or major modification to which the requirements of paragraphs (j) through (r)(5) of this section apply shall begin actual construction without a permit that states that the major stationary source or major modification will meet those requirements. The Administrator has authority to issue any such permit.

(iv) The requirements of the program will be applied in accordance with the principles set out in paragraphs (a)(2)(iv)(*a*) through (*f*) of this section.

(*a*) Except as otherwise provided in paragraphs (a)(2)(v) and (vi) of this section, and consistent with the definition of major modification contained in paragraph (b)(2) of this section, a project is a major modification for a regulated NSR pollutant if it causes two types of emissions increases—a significant emissions increase (as defined in paragraph (b)(40) of this section), and a significant net emissions increase (as defined in paragraphs (b)(3) and (b)(23) of this section). The project is not a major modification if it does not cause a significant emissions increase. If the project causes a significant emissions increase, then the project is a major modification only if it also results in a significant net emissions increase.

(*b*) The procedure for calculating (before beginning actual construction) whether a significant emissions increase (i.e., the first step of the process) will occur depends upon the type of emissions units being modified, according to paragraphs (a)(2)(iv)(*c*) through (*f*) of this section. The procedure for calculating (before beginning actual construction) whether a significant net emissions increase will occur at the major stationary source (i.e., the second step of the process) is contained in the definition in paragraph (b)(3) of this section. Regardless of any such preconstruction projections, a major modification results if the project causes a significant emissions increase and a significant net emissions increase.

(*c*) *Actual-to-projected-actual applicability test for projects that only involve existing emissions units.* A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the difference between the projected actual emissions (as defined in paragraph (b)(41) of this section) and the baseline actual emissions (as defined in paragraphs (b)(48)(i) and (ii) of this section), for each existing emissions unit, equals or exceeds the significant amount for that pollutant (as

defined in paragraph (b)(23) of this section).

(*d*) *Actual-to-potential test for projects that only involve construction of a new emissions unit(s).* A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the difference between the potential to emit (as defined in paragraph (b)(4) of this section) from each new emissions unit following completion of the project and the baseline actual emissions (as defined in paragraph (b)(48)(iii) of this section) of these units before the project equals or exceeds the significant amount for that pollutant (as defined in paragraph (b)(23) of this section).

(*e*) [Reserved]

(*f*) *Hybrid test for projects that involve multiple types of emissions units.* A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the emissions increases for each emissions unit, using the method specified in paragraphs (a)(2)(iv)(*c*) through (*d*) of this section as applicable with respect to each emissions unit, for each type of emissions unit equals or exceeds the significant amount for that pollutant (as defined in paragraph (b)(23) of this section).

(v) For any major stationary source for a PAL for a regulated NSR pollutant, the major stationary source shall comply with the requirements under paragraph (aa) of this section.

(b) *Definitions.* For the purposes of this section:

(1)(i) *Major stationary source* means:

(*a*) Any of the following stationary sources of air pollutants which emits, or has the potential to emit, 100 tons per year or more of any regulated NSR pollutant: Fossil fuel-fired steam electric plants of more than 250 million British thermal units per hour heat input, coal cleaning plants (with thermal dryers), kraft pulp mills, portland cement plants, primary zinc smelters, iron and steel mill plants, primary aluminum ore reduction plants (with thermal dryers), primary copper smelters, municipal incinerators capable of charging more than 250 tons of refuse per day, hydrofluoric, sulfuric, and nitric acid plants, petroleum refineries, lime plants, phosphate rock processing plants, coke oven batteries, sulfur recovery plants, carbon black plants (furnace process), primary lead smelters, fuel conversion plants, sintering plants, secondary metal production plants, chemical process plants (which does not include ethanol production facilities that produce ethanol by natural fermentation included in NAICS codes 325193 or 312140), fossil-fuel boilers (or combinations thereof) totaling more than 250 million British thermal units per hour heat input, petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels, taconite ore processing plants, glass fiber processing plants, and charcoal production plants;

(*b*) Notwithstanding the stationary source size specified in paragraph (b)(1)(i) of this section, any stationary source which emits, or has the potential to emit, 250 tons per year or more of a regulated NSR pollutant; or

(*c*) Any physical change that would occur at a stationary source not otherwise qualifying under paragraph (b)(1) of this section, as a major stationary source, if the changes would constitute a major stationary source by itself.

(ii) A major source that is major for volatile organic compounds or NO_X shall be considered major for ozone.

(iii) The fugitive emissions of a stationary source shall not be included in determining for any of the purposes of this section whether it is a major stationary source, unless the source belongs to one of the following categories of stationary sources:

(*a*) Coal cleaning plants (with thermal dryers);

(*b*) Kraft pulp mills;

(*c*) Portland cement plants;

(*d*) Primary zinc smelters;

(*e*) Iron and steel mills;

(*f*) Primary aluminum ore reduction plants;

(*g*) Primary copper smelters;

(*h*) Municipal incinerators capable of charging more than 250 tons of refuse per day;

(*i*) Hydrofluoric, sulfuric, or nitric acid plants;

(*j*) Petroleum refineries;

(*k*) Lime plants;

(*l*) Phosphate rock processing plants;

(*m*) Coke oven batteries;

(*n*) Sulfur recovery plants;

(*o*) Carbon black plants (furnace process);

(*p*) Primary lead smelters;

(*q*) Fuel conversion plants;

(*r*) Sintering plants;

(*s*) Secondary metal production plants;

(*t*) Chemical process plants—The term chemical processing plant shall not include ethanol production facilities that produce ethanol by natural fermentation included in NAICS codes 325193 or 312140;

(*u*) Fossil-fuel boilers (or combination thereof) totaling more than 250 million British thermal units per hour heat input;

(*v*) Petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels;

(*w*) Taconite ore processing plants;

(*x*) Glass fiber processing plants;

(*y*) Charcoal production plants;

(*z*) Fossil fuel-fired steam electric plants of more that 250 million British thermal units per hour heat input, and

(*aa*) Any other stationary source category which, as of August 7, 1980, is being regulated under section 111 or 112 of the Act.

(2)(i) *Major modification* means any physical change in or change in the method of operation of a major stationary source that would result in: a significant emissions increase (as defined in paragraph (b)(40) of this section) of a regulated NSR pollutant (as defined in paragraph (b)(50) of this section); and a significant net emissions increase of that pollutant from the major stationary source.

(ii) Any significant emissions increase (as defined at paragraph (b)(40) of this section) from any emissions units or net emissions increase (as defined in paragraph (b)(3) of this section) at a major stationary source that is significant for volatile organic compounds or NO_X shall be considered significant for ozone.

(iii) A physical change or change in the method of operation shall not include:

(*a*) Routine maintenance, repair and replacement. Routine maintenance, repair and replacement shall include, but not be limited to, any activity(s) that meets the requirements of the equipment replacement provisions contained in paragraph (cc) of this section;

NOTE TO PARAGRAPH (b)(2)(iii)(*a*): By court order on December 24, 2003, the second sentence of this paragraph (b)(2)(iii)(a) is stayed indefinitely. The stayed provisions will become effective immediately if the court terminates the stay. At that time, EPA will publish a document in the FEDERAL REGISTER advising the public of the termination of the stay.

(*b*) Use of an alternative fuel or raw material by reason of an order under sections 2 (a) and (b) of the Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plant pursuant to the Federal Power Act;

(*c*) Use of an alternative fuel by reason of an order or rule under section 125 of the Act;

(*d*) Use of an alternative fuel at a steam generating unit to the extent that the fuel is generated from municipal solid waste;

(*e*) Use of an alternative fuel or raw material by a stationary source which:

(*1*) The source was capable of accommodating before January 6, 1975, unless such change would be prohibited under any federally enforceable permit condition which was established after January 6, 1975 pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR subpart I or 40 CFR 51.166; or

(*2*) The source is approved to use under any permit issued under 40 CFR 52.21 or under regulations approved pursuant to 40 CFR 51.166;

(*f*) An increase in the hours of operation or in the production rate, unless such change would be prohibited under any federally enforceable permit condition which was established after January 6, 1975, pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR subpart I or 40 CFR 51.166.

(*g*) Any change in ownership at a stationary source.

(*h*) [Reserved]

(*i*) The installation, operation, cessation, or removal of a temporary clean coal technology demonstration project, provided that the project complies with:

(*1*) The State implementation plan for the State in which the project is located, and

(*2*) Other requirements necessary to attain and maintain the national ambient air quality standards during the project and after it is terminated.

(*j*) The installation or operation of a permanent clean coal technology demonstration project that constitutes repowering, provided that the project does not result in an increase in the potential to emit of any regulated pollutant emitted by the unit. This exemption shall apply on a pollutant-by-pollutant basis.

(*k*) The reactivation of a very clean coal-fired electric utility steam generating unit.

(iv) This definition shall not apply with respect to a particular regulated NSR pollutant when the major stationary source is complying with the requirements under paragraph (aa) of this section for a PAL for that pollutant. Instead, the definition at paragraph (aa)(2)(viii) of this section shall apply.

(v) Fugitive emissions shall not be included in determining for any of the purposes of this section whether a physical change in or change in the method of operation of a major stationary source is a major modification, unless the source belongs to one of the source categories listed in paragraph (b)(1)(iii) of this section.

(3)(i) *Net emissions increase* means, with respect to any regulated NSR pollutant emitted by a major stationary source, the amount by which the sum of the following exceeds zero:

(*a*) The increase in emissions from a particular physical change or change in the method of operation at a stationary source as calculated pursuant to paragraph (a)(2)(iv) of this section; and

(*b*) Any other increases and decreases in actual emissions at the major stationary source that are contemporaneous with the particular change and are otherwise creditable. Baseline actual emissions for calculating increases and decreases under this paragraph (b)(3)(i)(*b*) shall be determined as provided in paragraph (b)(48) of this section, except that paragraphs (b)(48)(i)(*c*) and (b)(48)(ii)(*d*) of this section shall not apply.

(ii) An increase or decrease in actual emissions is contemporaneous with the increase from the particular change only if it occurs between:

(*a*) The date five years before construction on the particular change commences; and

(*b*) The date that the increase from the particular change occurs.

(iii) An increase or decrease in actual emissions is creditable only if:

(*a*) The Administrator or other reviewing authority has not relied on it in issuing a permit for the source under this section, which permit is in effect when the increase in actual emissions from the particular change occurs; and

(*b*) The increase or decrease in emissions did not occur at a Clean Unit except as provided in paragraphs (x)(8) and (y)(10) of this section.

(*c*) As it pertains to an increase or decrease in fugitive emissions (to the extent quantifiable), it occurs at an emissions unit that is part of one of the source categories listed in paragraph (b)(1)(iii) of this section or it occurs at an emission unit that is located at a major stationary source that belongs to one of the listed source categories.(iv) An increase or decrease in actual emissions of sulfur dioxide, particulate matter, or nitrogen oxides that occurs before the applicable minor source baseline date is creditable only if it is required to be considered in calculating the amount of maximum allowable increases remaining available.

(v) An increase in actual emissions is creditable only to the extent that the new level of actual emissions exceeds the old level.

(vi) A decrease in actual emissions is creditable only to the extent that:

(*a*) The old level of actual emissions or the old level of allowable emissions, whichever is lower, exceeds the new level of actual emissions;

(*b*) It is enforceable as a practical matter at and after the time that actual construction on the particular change begins.

(*c*) It has approximately the same qualitative significance for public health and welfare as that attributed to the increase from the particular change; and

(vii) [Reserved]

(viii) An increase that results from a physical change at a source occurs

when the emissions unit on which construction occurred becomes operational and begins to emit a particular pollutant. Any replacement unit that requires shakedown becomes operational only after a reasonable shakedown period, not to exceed 180 days.

(ix) Paragraph (b)(21)(ii) of this section shall not apply for determining creditable increases and decreases.

(4) *Potential to emit* means the maximum capacity of a stationary source to emit a pollutant under its physical and operational design. Any physical or operational limitation on the capacity of the source to emit a pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design if the limitation or the effect it would have on emissions is federally enforceable. Secondary emissions do not count in determining the potential to emit of a stationary source.

(5) *Stationary source* means any building, structure, facility, or installation which emits or may emit a regulated NSR pollutant.

(6)(i) *Building, structure, facility, or installation* means all of the pollutant-emitting activities which belong to the same industrial grouping, are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control) except the activities of any vessel. Pollutant-emitting activities shall be considered as part of the same industrial grouping if they belong to the same ''Major Group'' (*i.e.,* which have the same first two digit code) as described in the *Standard Industrial Classification Manual, 1972,* as amended by the 1977 Supplement (U.S. Government Printing Office stock numbers 4101–0066 and 003–005–00716–0, respectively).

(ii) Notwithstanding the provisions of paragraph (b)(6)(i) of this section, *building, structure, facility, or installation* means, for onshore activities under Standard Industrial Classification (SIC) Major Group 13: Oil and Gas Extraction, all of the pollutant-emitting activities included in Major Group 13 that are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control). Pollutant emitting activities shall be considered adjacent if they are located on the same surface site; or if they are located on surface sites that are located within ¼ mile of one another (measured from the center of the equipment on the surface site) and they share equipment. Shared equipment includes, but is not limited to, produced fluids storage tanks, phase separators, natural gas dehydrators or emissions control devices. Surface site, as used in this paragraph (b)(6)(ii), has the same meaning as in 40 CFR 63.761.

(7) *Emissions unit* means any part of a stationary source that emits or would have the potential to emit any regulated NSR pollutant and includes an electric utility steam generating unit as defined in paragraph (b)(31) of this section. For purposes of this section, there are two types of emissions units as described in paragraphs (b)(7)(i) and (ii) of this section.

(i) A new emissions unit is any emissions unit that is (or will be) newly constructed and that has existed for less than 2 years from the date such emissions unit first operated.

(ii) An existing emissions unit is any emissions unit that does not meet the requirements in paragraph (b)(7)(i) of this section. A replacement unit, as defined in paragraph (b)(33) of this section, is an existing emissions unit.

(8) *Construction* means any physical change or change in the method of operation (including fabrication, erection, installation, demolition, or modification of an emissions unit) that would result in a change in emissions.

(9) *Commence* as applied to construction of a major stationary source or major modification means that the owner or operator has all necessary preconstruction approvals or permits and either has:

(i) Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time; or

(ii) Entered into binding agreements or contractual obligations, which cannot be cancelled or modified without substantial loss to the owner or operator, to undertake a program of actual

construction of the source to be completed within a reasonable time.

(10) *Necessary preconstruction approvals or permits* means those permits or approvals required under Federal air quality control laws and regulations and those air quality control laws and regulations which are part of the applicable State Implementation Plan.

(11) *Begin actual construction* means, in general, initiation of physical on-site construction activities on an emissions unit which are of a permanent nature. Such activities include, but are not limited to, installation of building supports and foundations, laying underground pipework and construction of permanent storage structures. With respect to a change in method of operations, this term refers to those on-site activities other than preparatory activities which mark the initiation of the change.

(12) *Best available control technology* means an emissions limitation (including a visible emission standard) based on the maximum degree of reduction for each pollutant subject to regulation under Act which would be emitted from any proposed major stationary source or major modification which the Administrator, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such source or modification through application of production processes or available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of such pollutant. In no event shall application of best available control technology result in emissions of any pollutant which would exceed the emissions allowed by any applicable standard under 40 CFR parts 60 and 61. If the Administrator determines that technological or economic limitations on the application of measurement methodology to a particular emissions unit would make the imposition of an emissions standard infeasible, a design, equipment, work practice, operational standard, or combination thereof, may be prescribed instead to satisfy the requirement for the application of best available control technology. Such standard shall, to the degree possible, set forth the emissions reduction achievable by implementation of such design, equipment, work practice or operation, and shall provide for compliance by means which achieve equivalent results.

(13)(i) *Baseline concentration* means that ambient concentration level that exists in the baseline area at the time of the applicable minor source baseline date. A baseline concentration is determined for each pollutant for which a minor source baseline date is established and shall include:

(*a*) The actual emissions, as defined in paragraph (b)(21) of this section, representative of sources in existence on the applicable minor source baseline date, except as provided in paragraph (b)(13)(ii) of this section; and

(*b*) The allowable emissions of major stationary sources that commenced construction before the major source baseline date, but were not in operation by the applicable minor source baseline date.

(ii) The following will not be included in the baseline concentration and will affect the applicable maximum allowable increase(s):

(*a*) Actual emissions, as defined in paragraph (b)(21) of this section, from any major stationary source on which construction commenced after the major source baseline date; and

(*b*) Actual emissions increases and decreases, as defined in paragraph (b)(21) of this section, at any stationary source occurring after the minor source baseline date.

(14)(i) *Major source baseline date* means:

(*a*) In the case of PM_{10} and sulfur dioxide, January 6, 1975;

(*b*) In the case of nitrogen dioxide, February 8, 1988; and

(*c*) In the case of $PM_{2.5}$, October 20, 2010.

(ii) ''Minor source baseline date'' means the earliest date after the trigger date on which a major stationary source or a major modification subject to 40 CFR 52.21 or to regulations approved pursuant to 40 CFR 51.166 submits a complete application under the relevant regulations. The trigger date is:

(*a*) In the case of PM_{10} and sulfur dioxide, August 7, 1977;

(*b*) In the case of nitrogen dioxide, February 8, 1988; and

(*c*) In the case of $PM_{2.5}$, October 20, 2011.

(iii) The baseline date is established for each pollutant for which increments or other equivalent measures have been established if:

(*a*) The area in which the proposed source or modification would construct is designated as attainment or unclassifiable under section 107(d)(1)(A)(ii) or (iii) of the Act for the pollutant on the date of its complete application under 40 CFR 52.21 or under regulations approved pursuant to 40 CFR 51.166; and

(*b*) In the case of a major stationary source, the pollutant would be emitted in significant amounts, or, in the case of a major modification, there would be a significant net emissions increase of the pollutant.

(iv) Any minor source baseline date established originally for the TSP increments shall remain in effect and shall apply for purposes of determining the amount of available PM–10 increments, except that the Administrator shall rescind a minor source baseline date where it can be shown, to the satisfaction of the Administrator, that the emissions increase from the major stationary source, or net emissions increase from the major modification, responsible for triggering that date did not result in a significant amount of PM–10 emissions.

(15)(i) *Baseline area* means any intrastate area (and every part thereof) designated as attainment or unclassifiable under section 107(d)(1)(A)(ii) or (iii) of the Act in which the major source or major modification establishing the minor source baseline date would construct or would have an air quality impact for the pollutant for which the baseline date is established, as follows: equal to or greater than 1 $\mu g/m^3$ (annual average) for SO_2, NO_2, or PM_{10}; or equal or greater than 0.3 $\mu g/m^3$ (annual average) for $PM_{2.5}$.

(ii) Area redesignations under section 107(d)(1)(A)(ii) or (iii) of the Act cannot intersect or be smaller than the area of impact of any major stationary source or major modification which:

(*a*) Establishes a minor source baseline date; or

(*b*) Is subject to 40 CFR 52.21 and would be constructed in the same state as the state proposing the redesignation.

(iii) Any baseline area established originally for the TSP increments shall remain in effect and shall apply for purposes of determining the amount of available PM–10 increments, except that such baseline area shall not remain in effect if the Administrator rescinds the corresponding minor source baseline date in accordance with paragraph (b)(14)(iv) of this section.

(16) *Allowable emissions* means the emissions rate of a stationary source calculated using the maximum rated capacity of the source (unless the source is subject to federally enforceable limits which restrict the operating rate, or hours of operation, or both) and the most stringent of the following:

(i) The applicable standards as set forth in 40 CFR parts 60 and 61;

(ii) The applicable State Implementation Plan emissions limitation, including those with a future compliance date; or

(iii) The emissions rate specified as a federally enforceable permit condition, including those with a future compliance date.

(17) *Federally enforceable* means all limitations and conditions which are enforceable by the Administrator, including those requirements developed pursuant to 40 CFR parts 60 and 61, requirements within any applicable State implementation plan, any permit requirements established pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR part 51, subpart I, including operating permits issued under an EPA-approved program that is incorporated into the State implementation plan and expressly requires adherence to any permit issued under such program.

(18) *Secondary emissions* means emissions which would occur as a result of the construction or operation of a major stationary source or major modification, but do not come from the major stationary source or major modification itself. Secondary emissions include emissions from any offsite support facility which would not

be constructed or increase its emissions except as a result of the construction or operation of the major stationary source or major modification. Secondary emissions do not include any emissions which come directly from a mobile source, such as emissions from the tailpipe of a motor vehicle, from a train, or from a vessel.

(i) Emissions from ships or trains coming to or from the new or modified stationary source; and

(ii) Emissions from any offsite support facility which would not otherwise be constructed or increase its emissions as a result of the construction or operation of the major stationary source or major modification.

(19) *Innovative control technology* means any system of air pollution control that has not been adequately demonstrated in practice, but would have a substantial likelihood of achieving greater continuous emissions reduction than any control system in current practice or of achieving at least comparable reductions at lower cost in terms of energy, economics, or nonair quality environmental impacts.

(20) *Fugitive emissions* means those emissions which could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening.

(21)(i) *Actual emissions* means the actual rate of emissions of a regulated NSR pollutant from an emissions unit, as determined in accordance with paragraphs (b)(21)(ii) through (iv) of this section, except that this definition shall not apply for calculating whether a significant emissions increase has occurred, or for establishing a PAL under paragraph (aa) of this section. Instead, paragraphs (b)(41) and (b)(48) of this section shall apply for those purposes.

(ii) In general, actual emissions as of a particular date shall equal the average rate, in tons per year, at which the unit actually emitted the pollutant during a consecutive 24-month period which precedes the particular date and which is representative of normal source operation. The Administrator shall allow the use of a different time period upon a determination that it is more representative of normal source operation. Actual emissions shall be calculated using the unit's actual operating hours, production rates, and types of materials processed, stored, or combusted during the selected time period.

(iii) The Administrator may presume that source-specific allowable emissions for the unit are equivalent to the actual emissions of the unit.

(iv) For any emissions unit that has not begun normal operations on the particular date, actual emissions shall equal the potential to emit of the unit on that date.

(22) *Complete* means, in reference to an application for a permit, that the application contains all of the information necessary for processing the application.

(23)(i) Significant means, in reference to a net emissions increase or the potential of a source to emit any of the following pollutants, a rate of emissions that would equal or exceed any of the following rates:

POLLUTANT AND EMISSIONS RATE

Carbon monoxide: 100 tons per year (tpy)
Nitrogen oxides: 40 tpy
Sulfur dioxide: 40 tpy
Particulate matter: 25 tpy of particulate matter emissions
PM_{10}: 15 tpy
$PM_{2.5}$: 10 tpy of direct $PM_{2.5}$ emissions; 40 tpy of sulfur dioxide emissions; 40 tpy of nitrogen oxide emissions unless demonstrated not to be a $PM_{2.5}$ precursor under paragraph (b)(50) of this section
Ozone: 40 tpy of volatile organic compounds or nitrogen oxides
Lead: 0.6 tpy
Fluorides: 3 tpy
Sulfuric acid mist: 7 tpy
Hydrogen sulfide (H_2S): 10 tpy
Total reduced sulfur (including H_2S): 10 tpy
Reduced sulfur compounds (including H_2S): 10 tpy
Municipal waste combustor organics (measured as total tetra-through octachlorinated dibenzo-p-dioxins and dibenzofurans): 3.2×10^{-6} megagrams per year (3.5×10^{-6} tons per year)
Municipal waste combustor metals (measured as particulate matter): 14 megagrams per year (15 tons per year)
Municipal waste combustor acid gases (measured as sulfur dioxide and hydrogen chloride): 36 megagrams per year (40 tons per year)
Municipal solid waste landfills emissions (measured as nonmethane organic compounds): 45 megagrams per year (50 tons per year)

(ii) *Significant* means, in reference to a net emissions increase or the potential of a source to emit a regulated NSR pollutant that paragraph (b)(23)(i) of this section, does not list, any emissions rate.

(iii) Notwithstanding paragraph (b)(23)(i) of this section, *significant* means any emissions rate or any net emissions increase associated with a major stationary source or major modification, which would construct within 10 kilometers of a Class I area, and have an impact on such area equal to or greater than 1 μg/m^3, (24-hour average).

(24) *Federal Land Manager* means, with respect to any lands in the United States, the Secretary of the department with authority over such lands.

(25) *High terrain* means any area having an elevation 900 feet or more above the base of the stack of a source.

(26) *Low terrain* means any area other than high terrain.

(27) *Indian Reservation* means any federally recognized reservation established by Treaty, Agreement, executive order, or act of Congress.

(28) *Indian Governing Body* means the governing body of any tribe, band, or group of Indians subject to the jurisdiction of the United States and recognized by the United States as possessing power of self government.

(29) *Adverse impact on visibility* means visibility impairment which interferes with the management, protection, preservation or enjoyment of the visitor's visual experience of the Federal Class I area. This determination must be made on a case-by-case basis taking into account the geographic extent, intensity, duration, frequency and time of visibility impairment, and how these factors correlate with (1) times of visitor use of the Federal Class I area, and (2) the frequency and timing of natural conditions that reduce visibility.

(30) *Volatile organic compounds (VOC)* is as defined in § 51.100(s) of this chapter.

(31) *Electric utility steam generating unit* means any steam electric generating unit that is constructed for the purpose of supplying more than one-third of its potential electric output capacity and more than 25 MW electrical output to any utility power distribution system for sale. Any steam supplied to a steam distribution system for the purpose of providing steam to a steam-electric generator that would produce electrical energy for sale is also considered in determining the electrical energy output capacity of the affected facility.

(32) [Reserved]

(33) *Replacement unit* means an emissions unit for which all the criteria listed in paragraphs (b)(33)(i) through (iv) of this section are met. No creditable emission reductions shall be generated from shutting down the existing emissions unit that is replaced.

(i) The emissions unit is a reconstructed unit within the meaning of § 60.15(b)(1) of this chapter, or the emissions unit completely takes the place of an existing emissions unit.

(ii) The emissions unit is identical to or functionally equivalent to the replaced emissions unit.

(iii) The replacement does not alter the basic design parameters (as discussed in paragraph (cc)(2) of this section) of the process unit.

(iv) The replaced emissions unit is permanently removed from the major stationary source, otherwise permanently disabled, or permanently barred from operation by a permit that is enforceable as a practical matter. If the replaced emissions unit is brought back into operation, it shall constitute a new emissions unit.

(34) *Clean coal technology* means any technology, including technologies applied at the precombustion, combustion, or post combustion stage, at a new or existing facility which will achieve significant reductions in air emissions of sulfur dioxide or oxides of nitrogen associated with the utilization of coal in the generation of electricity, or process steam which was not in widespread use as of November 15, 1990.

(35) *Clean coal technology demonstration project* means a project using funds appropriated under the heading ''Department of Energy-Clean Coal Technology'', up to a total amount of $2,500,000,000 for commercial demonstration of clean coal technology, or

similar projects funded through appropriations for the Environmental Protection Agency. The Federal contribution for a qualifying project shall be at least 20 percent of the total cost of the demonstration project.

(36) *Temporary clean coal technology demonstration project* means a clean coal technology demonstration project that is operated for a period of 5 years or less, and which complies with the State implementation plans for the State in which the project is located and other requirements necessary to attain and maintain the national ambient air quality standards during the project and after it is terminated.

(37) (i) *Repowering* means replacement of an existing coal-fired boiler with one of the following clean coal technologies: atmospheric or pressurized fluidized bed combustion, integrated gasification combined cycle, magnetohydrodynamics, direct and indirect coal-fired turbines, integrated gasification fuel cells, or as determined by the Administrator, in consultation with the Secretary of Energy, a derivative of one or more of these technologies, and any other technology capable of controlling multiple combustion emissions simultaneously with improved boiler or generation efficiency and with significantly greater waste reduction relative to the performance of technology in widespread commercial use as of November 15, 1990.

(ii) Repowering shall also include any oil and/or gas-fired unit which has been awarded clean coal technology demonstration funding as of January 1, 1991, by the Department of Energy.

(iii) The Administrator shall give expedited consideration to permit applications for any source that satisfies the requirements of this subsection and is granted an extension under section 409 of the Clean Air Act.

(38) *Reactivation of a very clean coal-fired electric utility steam generating unit* means any physical change or change in the method of operation associated with the commencement of commercial operations by a coal-fired utility unit after a period of discontinued operation where the unit:

(i) Has not been in operation for the two-year period prior to the enactment of the Clean Air Act Amendments of 1990, and the emissions from such unit continue to be carried in the permitting authority's emissions inventory at the time of enactment;

(ii) Was equipped prior to shut-down with a continuous system of emissions control that achieves a removal efficiency for sulfur dioxide of no less than 85 percent and a removal efficiency for particulates of no less than 98 percent;

(iii) Is equipped with low-NO_x burners prior to the time of commencement of operations following reactivation; and

(iv) Is otherwise in compliance with the requirements of the Clean Air Act.

(39) *Pollution prevention* means any activity that through process changes, product reformulation or redesign, or substitution of less polluting raw materials, eliminates or reduces the release of air pollutants (including fugitive emissions) and other pollutants to the environment prior to recycling, treatment, or disposal; it does not mean recycling (other than certain ''in-process recycling'' practices), energy recovery, treatment, or disposal.

(40) *Significant emissions increase* means, for a regulated NSR pollutant, an increase in emissions that is significant (as defined in paragraph (b)(23) of this section) for that pollutant.

(41)(i) *Projected actual emissions* means the maximum annual rate, in tons per year, at which an existing emissions unit is projected to emit a regulated NSR pollutant in any one of the 5 years (12-month period) following the date the unit resumes regular operation after the project, or in any one of the 10 years following that date, if the project involves increasing the emissions unit's design capacity or its potential to emit that regulated NSR pollutant and full utilization of the unit would result in a significant emissions increase or a significant net emissions increase at the major stationary source.

(ii) In determining the projected actual emissions under paragraph (b)(41)(i) of this section (before beginning actual construction), the owner or operator of the major stationary source:

(*a*) Shall consider all relevant information, including but not limited to,

historical operational data, the company's own representations, the company's expected business activity and the company's highest projections of business activity, the company's filings with the State or Federal regulatory authorities, and compliance plans under the approved State Implementation Plan; and

(*b*) Shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions; and

(*c*) Shall exclude, in calculating any increase in emissions that results from he particular project, that portion of the unit's emissions following the project that an existing unit could have accommodated during the consecutive 24-month period used to establish the baseline actual emissions under paragraph (b)(48) of this section and that are also unrelated to the particular project, including any increased utilization due to product demand growth; or

(*d*) In lieu of using the method set out in paragraphs (a)(41)(ii)(*a*) through (*c*) of this section, may elect to use the emissions unit's potential to emit, in tons per year, as defined under paragraph (b)(4) of this section.

(42) [Reserved]

(43) *Prevention of Significant Deterioration (PSD) program* means the EPA-implemented major source preconstruction permit programs under this section or a major source preconstruction permit program that has been approved by the Administrator and incorporated into the State Implementation Plan pursuant to § 51.166 of this chapter to implement the requirements of that section. Any permit issued under such a program is a major NSR permit.

(44) *Continuous emissions monitoring system (CEMS)* means all of the equipment that may be required to meet the data acquisition and availability requirements of this section, to sample, condition (if applicable), analyze, and provide a record of emissions on a continuous basis.

(45) *Predictive emissions monitoring system (PEMS)* means all of the equipment necessary to monitor process and control device operational parameters (for example, control device secondary voltages and electric currents) and other information (for example, gas flow rate, O_2 or CO_2 concentrations), and calculate and record the mass emissions rate (for example, lb/hr) on a continuous basis.

(46) *Continuous parameter monitoring system (CPMS)* means all of the equipment necessary to meet the data acquisition and availability requirements of this section, to monitor process and control device operational parameters (for example, control device secondary voltages and electric currents) and other information (for example, gas flow rate, O_2 or CO_2 concentrations), and to record average operational parameter value(s) on a continuous basis.

(47) *Continuous emissions rate monitoring system (CERMS)* means the total equipment required for the determination and recording of the pollutant mass emissions rate (in terms of mass per unit of time).

(48) *Baseline actual emissions* means the rate of emissions, in tons per year, of a regulated NSR pollutant, as determined in accordance with paragraphs (b)(48)(i) through (iv) of this section.

(i) For any existing electric utility steam generating unit, baseline actual emissions means the average rate, in tons per year, at which the unit actually emitted the pollutant during any consecutive 24-month period selected by the owner or operator within the 5-year period immediately preceding when the owner or operator begins actual construction of the project. The Administrator shall allow the use of a different time period upon a determination that it is more representative of normal source operation.

(*a*) The average rate shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions.

(*b*) The average rate shall be adjusted downward to exclude any non-compliant emissions that occurred while the source was operating above any emission limitation that was legally enforceable during the consecutive 24-month period.

(*c*) For a regulated NSR pollutant, when a project involves multiple emissions units, only one consecutive 24-month period must be used to determine the baseline actual emissions for

the emissions units being changed. A different consecutive 24-month period can be used For each regulated NSR pollutant.

(*d*) The average rate shall not be based on any consecutive 24-month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if required by paragraph (b)(48)(i)(*b*) of this section.

(ii) For an existing emissions unit (other than an electric utility steam generating unit), baseline actual emissions means the average rate, in tons per year, at which the emissions unit actually emitted the pollutant during any consecutive 24-month period selected by the owner or operator within the 10-year period immediately preceding either the date the owner or operator begins actual construction of the project, or the date a complete permit application is received by the Administrator for a permit required under this section or by the reviewing authority for a permit required by a plan, whichever is earlier, except that the 10-year period shall not include any period earlier than November 15, 1990.

(*a*) The average rate shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions.

(*b*) The average rate shall be adjusted downward to exclude any non-compliant emissions that occurred while the source was operating above an emission limitation that was legally enforceable during the consecutive 24-month period.

(*c*) The average rate shall be adjusted downward to exclude any emissions that would have exceeded an emission limitation with which the major stationary source must currently comply, had such major stationary source been required to comply with such limitations during the consecutive 24-month period. However, if an emission limitation is part of a maximum achievable control technology standard that the Administrator proposed or promulgated under part 63 of this chapter, the baseline actual emissions need only be adjusted if the State has taken credit for such emissions reductions in an attainment demonstration or maintenance plan consistent with the requirements of §51.165(a)(3)(ii)(G) of this chapter.

(*d*) For a regulated NSR pollutant, when a project involves multiple emissions units, only one consecutive 24-month period must be used to determine the baseline actual emissions for all the emissions units being changed. A different consecutive 24-month period can be used For each regulated NSR pollutant.

(*e*) The average rate shall not be based on any consecutive 24-month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if required by paragraphs (b)(48)(ii)(*b*) and (*c*) of this section.

(iii) For a new emissions unit, the baseline actual emissions for purposes of determining the emissions increase that will result from the initial construction and operation of such unit shall equal zero; and thereafter, for all other purposes, shall equal the unit's potential to emit.

(iv) For a PAL for a stationary source, the baseline actual emissions shall be calculated for existing electric utility steam generating units in accordance with the procedures contained in paragraph (b)(48)(i) of this section, for other existing emissions units in accordance with the procedures contained in paragraph (b)(48)(ii) of this section, and for a new emissions unit in accordance with the procedures contained in paragraph (b)(48)(iii) of this section.

(49) *Subject to regulation* means, for any air pollutant, that the pollutant is subject to either a provision in the Clean Air Act, or a nationally-applicable regulation codified by the Administrator in subchapter C of this chapter, that requires actual control of the quantity of emissions of that pollutant, and that such a control requirement has taken effect and is operative to control, limit or restrict the quantity of emissions of that pollutant released from the regulated activity. Except that:

(i) *Greenhouse gases (GHGs)*, the air pollutant defined in §86.1818–12(a) of this chapter as the aggregate group of six greenhouse gases: Carbon dioxide, nitrous oxide, methane,

hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride, shall not be subject to regulation except as provided in paragraphs (b)(49)(iv) through (v) of this section and shall not be subject to regulation if the stationary source maintains its total source-wide emissions below the GHG PAL level, meets the requirements in paragraphs (aa)(1) through (15) of this section, and complies with the PAL permit containing the GHG PAL.

(ii) For purposes of paragraphs (b)(49)(iii) through (v) of this section, the term tpy *CO_2 equivalent emissions (CO_2e)* shall represent an amount of GHGs emitted, and shall be computed as follows:

(*a*) Multiplying the mass amount of emissions (tpy), for each of the six greenhouse gases in the pollutant GHGs, by the gas's associated global warming potential published at Table A–1 to subpart A of part 98 of this chapter—Global Warming Potentials. For purposes of this paragraph, prior to July 21, 2014, the mass of the greenhouse gas carbon dioxide shall not include carbon dioxide emissions resulting from the combustion or decomposition of non-fossilized and biodegradable organic material originating from plants, animals, or micro-organisms (including products, by-products, residues and waste from agriculture, forestry and related industries as well as the non-fossilized and biodegradable organic fractions of industrial and municipal wastes, including gases and liquids recovered from the decomposition of non-fossilized and biodegradable organic material).

(*b*) Sum the resultant value from paragraph (b)(49)(ii)(*a*) of this section for each gas to compute a tpy CO_2e.

(iii) The term *emissions increase* as used in paragraphs (b)(49)(iv) through (v) of this section shall mean that both a significant emissions increase (as calculated using the procedures in paragraph (a)(2)(iv) of this section) and a significant net emissions increase (as defined in paragraphs (b)(3) and (b)(23) of this section) occur. For the pollutant GHGs, an emissions increase shall be based on tpy CO_2e, and shall be calculated assuming the pollutant GHGs is a regulated NSR pollutant, and ''significant'' is defined as 75,000 tpy CO_2e instead of applying the value in paragraph (b)(23)(ii) of this section.

(iv) Beginning January 2, 2011, the pollutant GHGs is subject to regulation if:

(*a*) The stationary source is a new major stationary source for a regulated NSR pollutant that is not GHGs, and also will emit or will have the potential to emit 75,000 tpy CO_2e or more; or

(*b*) The stationary source is an existing major stationary source for a regulated NSR pollutant that is not GHGs, and also will have an emissions increase of a regulated NSR pollutant, and an emissions increase of 75,000 tpy CO_2e or more; and,

(50) *Regulated NSR pollutant*, for purposes of this section, means the following:

(i) Any pollutant for which a national ambient air quality standard has been promulgated. This includes, but is not limited to, the following:

(*a*) $PM_{2.5}$ emissions and PM_{10} emissions shall include gaseous emissions from a source or activity, which condense to form particulate matter at ambient temperatures. On or after January 1, 2011, such condensable particulate matter shall be accounted for in applicability determinations and in establishing emissions limitations for $PM_{2.5}$ and PM_{10} in PSD permits. Compliance with emissions limitations for $PM_{2.5}$ and PM_{10} issued prior to this date shall not be based on condensable particulate matter unless required by the terms and conditions of the permit or the applicable implementation plan. Applicability determinations made prior to this date without accounting for condensable particulate matter shall not be considered in violation of this section unless the applicable implementation plan required condensable particulate matter to be included.

(*b*) Any pollutant identified under this paragraph (b)(50)(i)(*b*) as a constituent or precursor for a pollutant for which a national ambient air quality standard has been promulgated. Precursors identified by the Administrator for purposes of NSR are the following:

(*1*) Volatile organic compounds and nitrogen oxides are precursors to ozone

in all attainment and unclassifiable areas.

(*2*) Sulfur dioxide is a precursor to $PM_{2.5}$ in all attainment and unclassifiable areas.

(*3*) Nitrogen oxides are presumed to be precursors to $PM_{2.5}$ in all attainment and unclassifiable areas, unless the State demonstrates to the Administrator's satisfaction or EPA demonstrates that emissions of nitrogen oxides from sources in a specific area are not a significant contributor to that area's ambient $PM_{2.5}$ concentrations.

(*4*) Volatile organic compounds are presumed not to be precursors to $PM_{2.5}$ in any attainment or unclassifiable area, unless the State demonstrates to the Administrator's satisfaction or EPA demonstrates that emissions of volatile organic compounds from sources in a specific area are a significant contributor to that area's ambient $PM_{2.5}$ concentrations.

(ii) Any pollutant that is subject to any standard promulgated under section 111 of the Act;

(iii) Any Class I or II substance subject to a standard promulgated under or established by title VI of the Act;

(iv) Any pollutant that otherwise is subject to regulation under the Act as defined in paragraph (b)(49) of this section.

(v) Notwithstanding paragraphs (b)(50)(i) through (iv) of this section, the term *regulated NSR pollutant* shall not include any or all hazardous air pollutants either listed in section 112 of the Act, or added to the list pursuant to section 112(b)(2) of the Act, and which have not been delisted pursuant to section 112(b)(3) of the Act, unless the listed hazardous air pollutant is also regulated as a constituent or precursor of a general pollutant listed under section 108 of the Act.

(51) *Reviewing authority* means the State air pollution control agency, local agency, other State agency, Indian tribe, or other agency authorized by the Administrator to carry out a permit program under §51.165 and §51.166 of this chapter, or the Administrator in the case of EPA-implemented permit programs under this section.

(52) *Project* means a physical change in, or change in the method of operation of, an existing major stationary source.

(53) *Lowest achievable emission rate (LAER)* is as defined in §51.165(a)(1)(xiii) of this chapter.

(54) *Reasonably available control technology (RACT)* is as defined in §51.100(o) of this chapter.

(55)(i) In general, *process unit* means any collection of structures and/or equipment that processes, assembles, applies, blends, or otherwise uses material inputs to produce or store an intermediate or a completed product. A single stationary source may contain more than one process unit, and a process unit may contain more than one emissions unit.

(ii) Pollution control equipment is not part of the process unit, unless it serves a dual function as both process and control equipment. Administrative and warehousing facilities are not part of the process unit.

(iii) For replacement cost purposes, components shared between two or more process units are proportionately allocated based on capacity.

(iv) The following list identifies the process units at specific categories of stationary sources.

(*a*) For a steam electric generating facility, the process unit consists of those portions of the plant that contribute directly to the production of electricity. For example, at a pulverized coal-fired facility, the process unit would generally be the combination of those systems from the coal receiving equipment through the emission stack (excluding post-combustion pollution controls), including the coal handling equipment, pulverizers or coal crushers, feedwater heaters, ash handling, boiler, burners, turbine-generator set, condenser, cooling tower, water treatment system, air preheaters, and operating control systems. Each separate generating unit is a separate process unit.

(*b*) For a petroleum refinery, there are several categories of process units: those that separate and/or distill petroleum feedstocks; those that change molecular structures; petroleum treating processes; auxiliary facilities, such as steam generators and hydrogen production units; and those that load, unload,

blend or store intermediate or completed products.

(*c*) For an incinerator, the process unit would consist of components from the feed pit or refuse pit to the stack, including conveyors, combustion devices, heat exchangers and steam generators, quench tanks, and fans.

NOTE TO PARAGRAPH (b)(55): By a court order on December 24, 2003, this paragraph (b)(55) is stayed indefinitely. The stayed provisions will become effective immediately if the court terminates the stay. At that time, EPA will publish a document in the FEDERAL REGISTER advising the public of the termination of the stay.

(56) *Functionally equivalent component* means a component that serves the same purpose as the replaced component.

NOTE TO PARAGRAPH (b)(56): By a court order on December 24, 2003, this paragraph (b)(56) is stayed indefinitely. The stayed provisions will become effective immediately if the court terminates the stay. At that time, EPA will publish a document in the FEDERAL REGISTER advising the public of the termination of the stay.

(57) *Fixed capital cost* means the capital needed to provide all the depreciable components. ''Depreciable components'' refers to all components of fixed capital cost and is calculated by subtracting land and working capital from the total capital investment, as defined in paragraph (b)(58) of this section.

NOTE TO PARAGRAPH (b)(57): By a court order on December 24, 2003, this paragraph (b)(57) is stayed indefinitely. The stayed provisions will become effective immediately if the court terminates the stay. At that time, EPA will publish a document in the FEDERAL REGISTER advising the public of the termination of the stay.

(58) *Total capital investment* means the sum of the following: all costs required to purchase needed process equipment (purchased equipment costs); the costs of labor and materials for installing that equipment (direct installation costs); the costs of site preparation and buildings; other costs such as engineering, construction and field expenses, fees to contractors, startup and performance tests, and contingencies (indirect installation costs); land for the process equipment; and working capital for the process equipment.

NOTE TO PARAGRAPH (b)(58): By a court order on December 24, 2003, this paragraph (b)(58) is stayed indefinitely. The stayed provisions will become effective immediately if the court terminates the stay. At that time, EPA will publish a document in the FEDERAL REGISTER advising the public of the termination of the stay.

(c) *Ambient air increments.* In areas designated as Class I, II or III, increases in pollutant concentration over the baseline concentration shall be limited to the following:

Pollutant	Maximum allowable increase (micrograms per cubic meter)
Class I Area	
$PM_{2.5}$:	
Annual arithmetic mean	1
24-hr maximum	2
PM_{10}:	
Annual arithmetic mean	4
24-hr maximum	8
Sulfur dioxide:	
Annual arithmetic mean	2
24-hr maximum	5
3-hr maximum	25
Nitrogen dioxide:	
Annual arithmetic mean	2.5
Class II Area	
$PM_{2.5}$:	
Annual arithmetic mean	4
24-hr maximum	9
PM_{10}:	
Annual arithmetic mean	17
24-hr maximum	30
Sulfur dioxide:	
Annual arithmetic mean	20
24-hr maximum	91
3-hr maximum	512
Nitrogen dioxide:	
Annual arithmetic mean	25
Class III Area	
$PM_{2.5}$:	
Annual arithmetic mean	8
24-hr maximum	18
PM_{10}:	
Annual arithmetic mean	34
24-hr maximum	60
Sulfur dioxide:	
Annual arithmetic mean	40
24-hr maximum	182
3-hr maximum	700
Nitrogen dioxide:	
Annual arithmetic mean	50

For any period other than an annual period, the applicable maximum allowable increase may be exceeded during one such period per year at any one location.

(d) *Ambient air ceilings.* No concentration of a pollutant shall exceed:

(1) The concentration permitted under the national secondary ambient air quality standard, or

(2) The concentration permitted under the national primary ambient air quality standard, whichever concentration is lowest for the pollutant for a period of exposure.

(e) *Restrictions on area classifications.* (1) All of the following areas which were in existence on August 7, 1977, shall be Class I areas and may not be redesignated:

(i) International parks,

(ii) National wilderness areas which exceed 5,000 acres in size,

(iii) National memorial parks which exceed 5,000 acres in size, and

(iv) National parks which exceed 6,000 acres in size.

(2) Areas which were redesignated as Class I under regulations promulgated before August 7, 1977, shall remain Class I, but may be redesignated as provided in this section.

(3) Any other area, unless otherwise specified in the legislation creating such an area, is initially designated Class II, but may be redesignated as provided in this section.

(4) The following areas may be redesignated only as Class I or II:

(i) An area which as of August 7, 1977, exceeded 10,000 acres in size and was a national monument, a national primitive area, a national preserve, a national recreational area, a national wild and scenic river, a national wildlife refuge, a national lakeshore or seashore; and

(ii) A national park or national wilderness area established after August 7, 1977, which exceeds 10,000 acres in size.

(f) [Reserved]

(g) *Redesignation.* (1) All areas (except as otherwise provided under paragraph (e) of this section) are designated Class II as of December 5, 1974. Redesignation (except as otherwise precluded by paragraph (e) of this section) may be proposed by the respective States or Indian Governing Bodies, as provided below, subject to approval by the Administrator as a revision to the applicable State implementation plan.

(2) The State may submit to the Administrator a proposal to redesignate areas of the State Class I or Class II provided that:

(i) At least one public hearing has been held in accordance with procedures established in § 51.102 of this chapter;

(ii) Other States, Indian Governing Bodies, and Federal Land Managers whose lands may be affected by the proposed redesignation were notified at least 30 days prior to the public hearing;

(iii) A discussion of the reasons for the proposed redesignation, including a satisfactory description and analysis of the health, environmental, economic, social and energy effects of the proposed redesignation, was prepared and made available for public inspection at least 30 days prior to the hearing and the notice announcing the hearing contained appropriate notification of the availability of such discussion;

(iv) Prior to the issuance of notice respecting the redesignation of an area that includes any Federal lands, the State has provided written notice to the appropriate Federal Land Manager and afforded adequate opportunity (not in excess of 60 days) to confer with the State respecting the redesignation and to submit written comments and recommendations. In redesignating any area with respect to which any Federal Land Manager had submitted written comments and recommendations, the State shall have published a list of any inconsistency between such redesignation and such comments and recommendations (together with the reasons for making such redesignation against the recommendation of the Federal Land Manager); and

(v) The State has proposed the redesignation after consultation with the elected leadership of local and other substate general purpose governments in the area covered by the proposed redesignation.

(3) Any area other than an area to which paragraph (e) of this section refers may be redesignated as Class III if—

(i) The redesignation would meet the requirements of paragraph (g)(2) of this section;

(ii) The redesignation, except any established by an Indian Governing Body, has been specifically approved by the Governor of the State, after consultation with the appropriate committees

of the legislature, if it is in session, or with the leadership of the legislature, if it is not in session (unless State law provides that the redesignation must be specifically approved by State legislation) and if general purpose units of local government representing a majority of the residents of the area to be redesignated enact legislation or pass resolutions concurring in the redesignation:

(iii) The redesignation would not cause, or contribute to, a concentration of any air pollutant which would exceed any maximum allowable increase permitted under the classification of any other area or any national ambient air quality standard; and

(iv) Any permit application for any major stationary source or major modification, subject to review under paragraph (l) of this section, which could receive a permit under this section only if the area in question were redesignated as Class III, and any material submitted as part of that application, were available insofar as was practicable for public inspection prior to any public hearing on redesignation of the area as Class III.

(4) Lands within the exterior boundaries of Indian Reservations may be redesignated only by the appropriate Indian Governing Body. The appropriate Indian Governing Body may submit to the Administrator a proposal to redesignate areas Class I, Class II, or Class III: *Provided,* That:

(i) The Indian Governing Body has followed procedures equivalent to those required of a State under paragraphs (g)(2), (g)(3)(iii), and (g)(3)(iv) of this section; and

(ii) Such redesignation is proposed after consultation with the State(s) in which the Indian Reservation is located and which border the Indian Reservation.

(5) The Administrator shall disapprove, within 90 days of submission, a proposed redesignation of any area only if he finds, after notice and opportunity for public hearing, that such redesignation does not meet the procedural requirements of this paragraph or is inconsistent with paragraph (e) of this section. If any such disapproval occurs, the classification of the area shall be that which was in effect prior to the redesignation which was disapproved.

(6) If the Administrator disapproves any proposed redesignation, the State or Indian Governing Body, as appropriate, may resubmit the proposal after correcting the deficiencies noted by the Administrator.

(h) *Stack heights.* (1) The degree of emission limitation required for control of any air pollutant under this section shall not be affected in any manner by—

(i) So much of the stack height of any source as exceeds good engineering practice, or

(ii) Any other dispersion technique.

(2) Paragraph (h)(1) of this section shall not apply with respect to stack heights in existence before December 31, 1970, or to dispersion techniques implemented before then.

(i) *Exemptions.* (1) The requirements of paragraphs (j) through (r) of this section shall not apply to a particular major stationary source or major modification, if;

(i) Construction commenced on the source or modification before August 7, 1977. The regulations at 40 CFR 52.21 as in effect before August 7, 1977, shall govern the review and permitting of any such source or modification; or

(ii) The source or modification was subject to the review requirements of 40 CFR 52.21(d)(1) as in effect before March 1, 1978, and the owner or operator:

(*a*) Obtained under 40 CFR 52.21 a final approval effective before March 1, 1978;

(*b*) Commenced construction before March 19, 1979; and

(*c*) Did not discontinue construction for a period of 18 months or more and completed construction within a reasonable time; or

(iii) The source or modification was subject to 40 CFR 52.21 as in effect before March 1, 1978, and the review of an application for approval for the stationary source or modification under 40 CFR 52.21 would have been completed by March 1, 1978, but for an extension of the public comment period pursuant to a request for such an extension. In such a case, the application shall continue to be processed, and granted or

denied, under 40 CFR 52.21 as in effect prior to March 1, 1978; or

(iv) The source or modification was not subject to 40 CFR 52.21 as in effect before March 1, 1978, and the owner or operator:

(*a*) Obtained all final Federal, state and local preconstruction approvals or permits necessary under the applicable State Implementation Plan before March 1, 1978;

(*b*) Commenced construction before March 19, 1979; and

(*c*) Did not discontinue construction for a period of 18 months or more and completed construction within a reasonable time; or

(v) The source or modification was not subject to 40 CFR 52.21 as in effect on June 19, 1978 or under the partial stay of regulations published on February 5, 1980 (45 FR 7800), and the owner or operator:

(*a*) Obtained all final Federal, state and local preconstruction approvals or permits necessary under the applicable State Implementation Plan before August 7, 1980;

(*b*) Commenced construction within 18 months from August 7, 1980, or any earlier time required under the applicable State Implementation Plan; and

(*c*) Did not discontinue construction for a period of 18 months or more and completed construction within a reasonable time; or

(vi) The source or modification would be a nonprofit health or nonprofit educational institution, or a major modification would occur at such an institution, and the governor of the state in which the source or modification would be located requests that it be exempt from those requirements; or

(vii) The source or modification would be a major stationary source or major modification only if fugitive emissions, to the extent quantifiable, are considered in calculating the potential to emit of the stationary source or modification and the source does not belong to any of the following categories:

(*a*) Coal cleaning plants (with thermal dryers);

(*b*) Kraft pulp mills;

(*c*) Portland cement plants;

(*d*) Primary zinc smelters;

(*e*) Iron and steel mills;

(*f*) Primary aluminum ore reduction plants;

(*g*) Primary copper smelters;

(*h*) Municipal incinerators capable of charging more than 250 tons of refuse per day;

(*i*) Hydrofluoric, sulfuric, or nitric acid plants;

(*j*) Petroleum refineries;

(*k*) Lime plants;

(*l*) Phosphate rock processing plants;

(*m*) Coke oven batteries;

(*n*) Sulfur recovery plants;

(*o*) Carbon black plants (furnace process);

(*p*) Primary lead smelters;

(*q*) Fuel conversion plants;

(*r*) Sintering plants;

(*s*) Secondary metal production plants;

(*t*) Chemical process plants—The term chemical processing plant shall not include ethanol production facilities that produce ethanol by natural fermentation included in NAICS codes 325193 or 312140;

(*u*) Fossil-fuel boilers (or combination thereof) totaling more than 250 million British thermal units per hour heat input;

(*v*) Petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels;

(*w*) Taconite ore processing plants;

(*x*) Glass fiber processing plants;

(*y*) Charcoal production plants;

(*z*) Fossil fuel-fired steam electric plants of more than 250 million British thermal units per hour heat input;

(*aa*) Any other stationary source category which, as of August 7, 1980, is being regulated under section 111 or 112 of the Act; or

(viii) The source is a portable stationary source which has previously received a permit under this section, and

(*a*) The owner or operator proposes to relocate the source and emissions of the source at the new location would be temporary; and

(*b*) The emissions from the source would not exceed its allowable emissions; and

(*c*) The emissions from the source would impact no Class I area and no area where an applicable increment is known to be violated; and

(*d*) Reasonable notice is given to the Administrator prior to the relocation

identifying the proposed new location and the probable duration of operation at the new location. Such notice shall be given to the Administrator not less than 10 days in advance of the proposed relocation unless a different time duration is previously approved by the Administrator.

(ix) The source or modification was not subject to § 52.21, with respect to particulate matter, as in effect before July 31, 1987, and the owner or operator:

(*a*) Obtained all final Federal, State, and local preconstruction approvals or permits necessary under the applicable State implementation plan before July 31, 1987;

(*b*) Commenced construction within 18 months after July 31, 1987, or any earlier time required under the State implementation plan; and

(*c*) Did not discontinue construction for a period of 18 months or more and completed construction within a reasonable period of time.

(x) The source or modification was subject to 40 CFR 52.21, with respect to particulate matter, as in effect before July 31, 1987 and the owner or operator submitted an application for a permit under this section before that date, and the Administrator subsequently determines that the application as submitted was complete with respect to the particular matter requirements then in effect in the section. Instead, the requirements of paragraphs (j) through (r) of this section that were in effect before July 31, 1987 shall apply to such source or modification.

(2) The requirements of paragraphs (j) through (r) of this section shall not apply to a major stationary source or major modification with respect to a particular pollutant if the owner or operator demonstrates that, as to that pollutant, the source or modification is located in an area designated as nonattainment under section 107 of the Act. Nonattainment designations for revoked NAAQS, as contained in 40 CFR part 81, shall not be viewed as current designations under section 107 of the Act for purposes of determining the applicability of paragraphs (j) through (r) of this section to a major stationary source or major modification after the revocation of that NAAQS is effective.

(3) The requirements of paragraphs (k), (m) and (o) of this section shall not apply to a major stationary source or major modification with respect to a particular pollutant, if the allowable emissions of that pollutant from the source, or the net emissions increase of that pollutant from the modification:

(i) Would impact no Class I area and no area where an applicable increment is known to be violated, and

(ii) Would be temporary.

(4) The requirements of paragraphs (k), (m) and (o) of this section as they relate to any maximum allowable increase for a Class II area shall not apply to a major modification at a stationary source that was in existence on March 1, 1978, if the net increase in allowable emissions of each regulated NSR pollutant from the modification after the application of best available control technology would be less than 50 tons per year.

(5) The Administrator may exempt a stationary source or modification from the requirements of paragraph (m) of this section, with respect to monitoring for a particular pollutant if:

(i) The emissions increase of the pollutant from the new source or the net emissions increase of the pollutant from the modification would cause, in any area, air quality impacts less than the following amounts:

(*a*) Carbon monoxide—575 μg/m^3, 8-hour average;

(*b*) Nitrogen dioxide—14 μg/m^3, annual average;

(*c*) $PM_{2.5}$—0 μg/m^3;

(*c*) Note to paragraph (i)(5)(i)(*c*): In accordance with *Sierra Club* v. *EPA*, 706 F.3d 428 (DC Cir. 2013), no exemption is available with regard to $PM_{2.5}$.

(*d*) PM_{10}—10 μg/m^3, 24-hour average;

(*e*) Sulfur dioxide—13 μg/m^3, 24-hour average;

(*f*) Ozone;

(*g*) Lead—0.1 μg/m^3, 3-month average;

(*h*) Fluorides—0.25 μg/m^3, 24-hour average;

(*i*) Total reduced sulfur—10 μg/m^3, 1-hour average;

(*j*) Hydrogen sulfide—0.2 μg/m^3, 1-hour average;

(*k*) Reduced sulfur compounds—10 μg/m^3, 1-hour average; or

NOTE TO PARAGRAPH (c)(50)(i)(f): No *de minimis* air quality level is provided for ozone. However, any net emissions increase of 100

tons per year or more of volatile organic compounds or nitrogen oxides subject to PSD would be required to perform an ambient impact analysis, including the gathering of ambient air quality data.

(ii) The concentrations of the pollutant in the area that the source or modification would affect are less than the concentrations listed in paragraph (i)(5)(i) of this section; or

(iii) The pollutant is not listed in paragraph (i)(5)(i) of this section.

(6) The requirements for best available control technology in paragraph (j) of this section and the requirements for air quality analyses in paragraph (m)(1) of this section, shall not apply to a particular stationary source or modification that was subject to 40 CFR 52.21 as in effect on June 19, 1978, if the owner or operator of the source or modification submitted an application for a permit under those regulations before August 7, 1980, and the Administrator subsequently determines that the application as submitted before that date was complete. Instead, the requirements at 40 CFR 52.21(j) and (n) as in effect on June 19, 1978 apply to any such source or modification.

(7)(i) The requirements for air quality monitoring in paragraphs (m)(1) (ii) through (iv) of this section shall not apply to a particular source or modification that was subject to 40 CFR 52.21 as in effect on June 19, 1978, if the owner or operator of the source or modification submits an application for a permit under this section on or before June 8, 1981, and the Administrator subsequently determines that the application as submitted before that date was complete with respect to the requirements of this section other than those in paragraphs (m)(1) (ii) through (iv) of this section, and with respect to the requirements for such analyses at 40 CFR 52.21(m)(2) as in effect on June 19, 1978. Instead, the latter requirements shall apply to any such source or modification.

(ii) The requirements for air quality monitoring in paragraphs (m)(1) (ii) through (iv) of this section shall not apply to a particular source or modification that was not subject to 40 CFR 52.21 as in effect on June 19, 1978, if the owner or operator of the source or modification submits an application for a permit under this section on or before June 8, 1981, and the Administrator subsequently determines that the application as submitted before that date was complete, except with respect to the requirements in paragraphs (m)(1) (ii) through (iv).

(8)(i) At the discretion of the Administrator, the requirements for air quality monitoring of PM_{10} in paragraphs (m)(1) (i)–(iv) of this section may not apply to a particular source or modification when the owner or operator of the source or modification submits an application for a permit under this section on or before June 1, 1988 and the Administrator subsequently determines that the application as submitted before that date was complete, except with respect to the requirements for monitoring particulate matter in paragraphs (m)(1) (i)–(iv).

(ii) The requirements for air quality monitoring pf PM_{10} in paragraphs (m)(1), (ii) and (iv) and (m)(3) of this section shall apply to a particular source or modification if the owner or operator of the source or modification submits an application for a permit under this section after June 1, 1988 and no later than December 1, 1988. The data shall have been gathered over at least the period from February 1, 1988 to the date the application becomes otherwise complete in accordance with the provisions set forth under paragraph (m)(1)(viii) of this section, except that if the Administrator determines that a complete and adequate analysis can be accomplished with monitoring data over a shorter period (not to be less than 4 months), the data that paragraph (m)(1)(iii) requires shall have been gathered over a shorter period.

(9) The requirements of paragraph (k)(1)(ii) of this section shall not apply to a stationary source or modification with respect to any maximum allowable increase for nitrogen oxides if the owner or operator of the source or modification submitted an application for a permit under this section before the provisions embodying the maximum allowable increase took effect as part of the applicable implementation plan and the Administrator subsequently determined that the application as submitted before that date was complete.

(10) The requirements in paragraph (k)(1)(ii) of this section shall not apply to a stationary source or modification with respect to any maximum allowable increase for PM–10 if (i) the owner or operator of the source or modification submitted an application for a permit under this section before the provisions embodying the maximum allowable increases for PM–10 took effect in an implementation plan to which this section applies, and (ii) the Administrator subsequently determined that the application as submitted before that date was otherwise complete. Instead, the requirements in paragraph (k)(1)(ii) shall apply with respect to the maximum allowable increases for TSP as in effect on the date the application was submitted.

(11) The requirements of paragraph (k)(1) of this section shall not apply to a stationary source or modification with respect to the national ambient air quality standards for $PM_{2.5}$ in effect on March 18, 2013 if:

(i) The Administrator has determined a permit application subject to this section to be complete on or before December 14, 2012. Instead, the requirements in paragraph (k)(1) of this section shall apply with respect to the national ambient air quality standards for $PM_{2.5}$ in effect at the time the Administrator determined the permit application to be complete; or

(ii) The Administrator has first published before March 18, 2013 a public notice that a draft permit subject to this section has been prepared. Instead, the requirements in paragraph (k)(1) of this section shall apply with respect to the national ambient air quality standards for $PM_{2.5}$ in effect on the date the Administrator first published a public notice that a draft permit has been prepared.

(12) The requirements of paragraph (k)(1) of this section shall not apply to a permit application for a stationary source or modification with respect to the revised national ambient air quality standards for ozone published on October 26, 2015 if:

(i) The Administrator has determined the permit application subject to this section to be complete on or before October 1, 2015. Instead, the requirements in paragraph (k)(1) of this section shall apply with respect to the national ambient air quality standards for ozone in effect at the time the Administrator determined the permit application to be complete; or

(ii) The Administrator has first published before December 28, 2015 a public notice of a preliminary determination or draft permit for the permit application subject to this section. Instead, the requirements in paragraph (k)(1) of this section shall apply with respect to the national ambient air quality standards for ozone in effect on the date the Administrator first published a public notice of a preliminary determination or draft permit.

(j) *Control technology review.* (1) A major stationary source or major modification shall meet each applicable emissions limitation under the State Implementation Plan and each applicable emissions standard and standard of performance under 40 CFR parts 60 and 61.

(2) A new major stationary source shall apply best available control technology for each regulated NSR pollutant that it would have the potential to emit in significant amounts.

(3) A major modification shall apply best available control technology for each regulated NSR pollutant for which it would result in a significant net emissions increase at the source. This requirement applies to each proposed emissions unit at which a net emissions increase in the pollutant would occur as a result of a physical change or change in the method of operation in the unit.

(4) For phased construction projects, the determination of best available control technology shall be reviewed and modified as appropriate at the latest reasonable time which occurs no later than 18 months prior to commencement of construction of each independent phase of the project. At such time, the owner or operator of the applicable stationary source may be required to demonstrate the adequacy of any previous determination of best available control technology for the source.

(k) *Source impact analysis*—(1) *Required demonstration.* The owner or operator of the proposed source or modification shall demonstrate that allowable emission increases from the proposed source or modification, in conjunction with all other applicable emissions increases or reductions (including secondary emissions), would not cause or contribute to air pollution in violation of:

(i) Any national ambient air quality standard in any air quality control region; or

(ii) Any applicable maximum allowable increase over the baseline concentration in any area.

(2) [Reserved]

(l) *Air quality models.* (1) All estimates of ambient concentrations required under this paragraph shall be based on applicable air quality models, data bases, and other requirements specified in appendix W of part 51 of this chapter (Guideline on Air Quality Models).

(2) Where an air quality model specified in appendix W of part 51 of this chapter (Guideline on Air Quality Models) is inappropriate, the model may be modified or another model substituted. Such a modification or substitution of a model may be made on a case-by-case basis or, where appropriate, on a generic basis for a specific state program. Written approval of the Administrator must be obtained for any modification or substitution. In addition, use of a modified or substituted model must be subject to notice and opportunity for public comment under procedures developed in accordance with paragraph (q) of this section.

(m) *Air quality analysis*—(1) *Preapplication analysis.* (i) Any application for a permit under this section shall contain an analysis of ambient air quality in the area that the major stationary source or major modification would affect for each of the following pollutants:

(*a*) For the source, each pollutant that it would have the potential to omit in a significant amount;

(*b*) For the modification, each pollutant for which it would result in a significant net emissions increase.

(ii) With respect to any such pollutant for which no National Ambient Air Quality Standard exists, the analysis shall contain such air quality monitoring data as the Administrator determines is necessary to assess ambient air quality for that pollutant in any area that the emissions of that pollutant would affect.

(iii) With respect to any such pollutant (other than nonmethane hydrocarbons) for which such a standard does exist, the analysis shall contain continuous air quality monitoring data gathered for purposes of determining whether emissions of that pollutant would cause or contribute to a violation of the standard or any maximum allowable increase.

(iv) In general, the continuous air quality monitoring data that is required shall have been gathered over a period of at least one year and shall represent at least the year preceding receipt of the application, except that, if the Administrator determines that a complete and adequate analysis can be accomplished with monitoring data gathered over a period shorter than one year (but not to be less than four months), the data that is required shall have been gathered over at least that shorter period.

(v) For any application which becomes complete, except as to the requirements of paragraphs (m)(1) (iii) and (iv) of this section, between June 8, 1981, and February 9, 1982, the data that paragraph (m)(1)(iii) of this section, requires shall have been gathered over at least the period from February 9, 1981, to the date the application becomes otherwise complete, except that:

(*a*) If the source or modification would have been major for that pollutant under 40 CFR 52.21 as in effect on June 19, 1978, any monitoring data shall have been gathered over at least the period required by those regulations.

(*b*) If the Administrator determines that a complete and adequate analysis can be accomplished with monitoring data over a shorter period (not to be less than four months), the data that paragraph (m)(1)(iii) of this section, requires shall have been gathered over at least that shorter period.

(*c*) If the monitoring data would relate exclusively to ozone and would not have been required under 40 CFR 52.21

as in effect on June 19, 1978, the Administrator may waive the otherwise applicable requirements of this paragraph (v) to the extent that the applicant shows that the monitoring data would be unrepresentative of air quality over a full year.

(vi) The owner or operator of a proposed stationary source or modification of volatile organic compounds who satisfies all conditions of 40 CFR part 51 Appendix S, section IV may provide post-approval monitoring data for ozone in lieu of providing preconstruction data as required under paragraph (m)(1) of this section.

(vii) For any application that becomes complete, except as to the requirements of paragraphs (m)(1) (iii) and (iv) pertaining to PM_{10}, after December 1, 1988 and no later than August 1, 1989 the data that paragraph (m)(1)(iii) requires shall have been gathered over at least the period from August 1, 1988 to the date the application becomes otherwise complete, except that if the Administrator determines that a complete and adequate analysis can be accomplished with monitoring data over a shorter period (not to be less than 4 months), the data that paragraph (m)(1)(iii) requires shall have been gathered over that shorter period.

(viii) With respect to any requirements for air quality monitoring of PM_{10} under paragraphs (i)(11) (i) and (ii) of this section the owner or operator of the source or modification shall use a monitoring method approved by the Administrator and shall estimate the ambient concentrations of PM_{10} using the data collected by such approved monitoring method in accordance with estimating procedures approved by the Administrator.

(2) Post-construction monitoring. The owner or operator of a major stationary source or major modification shall, after construction of the stationary source or modification, conduct such ambient monitoring as the Administrator determines is necessary to determine the effect emissions from the stationary source or modification may have, or are having, on air quality in any area.

(3) Operations of monitoring stations. The owner or operator of a major stationary source or major modification shall meet the requirements of Appendix B to part 58 of this chapter during the operation of monitoring stations for purposes of satisfying paragraph (m) of this section.

(n) *Source information.* The owner or operator of a proposed source or modification shall submit all information necessary to perform any analysis or make any determination required under this section.

(1) With respect to a source or modification to which paragraphs (j), (l), (n) and (p) of this section apply, such information shall include:

(i) A description of the nature, location, design capacity, and typical operating schedule of the source or modification, including specifications and drawings showing its design and plant layout;

(ii) A detailed schedule for construction of the source or modification;

(iii) A detailed description as to what system of continuous emission reduction is planned for the source or modification, emission estimates, and any other information necessary to determine that best available control technology would be applied.

(2) Upon request of the Administrator, the owner or operator shall also provide information on:

(i) The air quality impact of the source or modification, including meteorological and topographical data necessary to estimate such impact; and

(ii) The air quality impacts, and the nature and extent of any or all general commercial, residential, industrial, and other growth which has occurred since August 7, 1977, in the area the source or modification would affect.

(o) *Additional impact analyses.* (1) The owner or operator shall provide an analysis of the impairment to visibility, soils and vegetation that would occur as a result of the source or modification and general commercial, residential, industrial and other growth associated with the source or modification. The owner or operator need not provide an analysis of the impact on vegetation having no significant commercial or recreational value.

(2) The owner or operator shall provide an analysis of the air quality impact projected for the area as a result

of general commercial, residential, industrial and other growth associated with the source or modification.

(3) *Visibility monitoring.* The Administrator may require monitoring of visibility in any Federal class I area near the proposed new stationary source for major modification for such purposes and by such means as the Administrator deems necessary and appropriate.

(p) *Sources impacting Federal Class I areas—additional requirements*—(1) *Notice to Federal land managers.* The Administrator shall provide written notice of any permit application for a proposed major stationary source or major modification, the emissions from which may affect a Class I area, to the Federal land manager and the Federal official charged with direct responsibility for management of any lands within any such area. Such notification shall include a copy of all information relevant to the permit application and shall be given within 30 days of receipt and at least 60 days prior to any public hearing on the application for a permit to construct. Such notification shall include an analysis of the proposed source's anticipated impacts on visibility in the Federal Class I area. The Administrator shall also provide the Federal land manager and such Federal officials with a copy of the preliminary determination required under paragraph (q) of this section, and shall make available to them any materials used in making that determination, promptly after the Administrator makes such determination. Finally, the Administrator shall also notify all affected Federal land managers within 30 days of receipt of any advance notification of any such permit application.

(2) *Federal Land Manager.* The Federal Land Manager and the Federal official charged with direct responsibility for management of such lands have an affirmative responsibility to protect the air quality related values (including visibility) of such lands and to consider, in consultation with the Administrator, whether a proposed source or modification will have an adverse impact on such values.

(3) *Visibility analysis.* The Administrator shall consider any analysis performed by the Federal land manager, provided within 30 days of the notification required by paragraph (p)(1) of this section, that shows that a proposed new major stationary source or major modification may have an adverse impact on visibility in any Federal Class I area. Where the Administrator finds that such an analysis does not demonstrate to the satisfaction of the Administrator that an adverse impact on visibility will result in the Federal Class I area, the Administrator must, in the notice of public hearing on the permit application, either explain his decision or give notice as to where the explanation can be obtained.

(4) *Denial—impact on air quality related values.* The Federal Land Manager of any such lands may demonstrate to the Administrator that the emissions from a proposed source or modification would have an adverse impact on the air quality-related values (including visibility) of those lands, notwithstanding that the change in air quality resulting from emissions from such source or modification would not cause or contribute to concentrations which would exceed the maximum allowable increases for a Class I area. If the Administrator concurs with such demonstration, then he shall not issue the permit.

(5) *Class I variances.* The owner or operator of a proposed source or modification may demonstrate to the Federal Land Manager that the emissions from such source or modification would have no adverse impact on the air quality related values of any such lands (including visibility), notwithstanding that the change in air quality resulting from emissions from such source or modification would cause or contribute to concentrations which would exceed the maximum allowable increases for a Class I area. If the Federal land manager concurs with such demonstration and he so certifies, the State may authorize the Administrator: *Provided,* That the applicable requirements of this section are otherwise met, to issue the permit with such emission limitations as may be necessary to assure that emissions of sulfur dioxide, $PM_{2.5}$, PM_{10}, and nitrogen oxides would not

exceed the following maximum allowable increases over minor source baseline concentration for such pollutants:

Pollutant	Maximum allowable increase (micrograms per cubic meter)
$PM_{2.5}$:	
Annual arithmetic mean	4
24-hr maximum	9
PM_{10}:	
Annual arithmetic mean	17
24-hr maximum	30
Sulfur dioxide:	
Annual arithmetic mean	20
24-hr maximum	91
3-hr maximum	325
Nitrogen dioxide:	
Annual arithmetic mean	25

(6) *Sulfur dioxide variance by Governor with Federal Land Manager's concurrence.* The owner or operator of a proposed source or modification which cannot be approved under paragraph (q)(4) of this section may demonstrate to the Governor that the source cannot be constructed by reason of any maximum allowable increase for sulfur dioxide for a period of twenty-four hours or less applicable to any Class I area and, in the case of Federal mandatory Class I areas, that a variance under this clause would not adversely affect the air quality related values of the area (including visibility). The Governor, after consideration of the Federal Land Manager's recommendation (if any) and subject to his concurrence, may, after notice and public hearing, grant a variance from such maximum allowable increase. If such variance is granted, the Administrator shall issue a permit to such source or modification pursuant to the requirements of paragraph (q)(7) of this section: *Provided,* That the applicable requirements of this section are otherwise met.

(7) *Variance by the Governor with the President's concurrence.* In any case where the Governor recommends a variance in which the Federal Land Manager does not concur, the recommendations of the Governor and the Federal Land Manager shall be transmitted to the President. The President may approve the Governor's recommendation if he finds that the variance is in the national interest. If the variance is approved, the Administrator shall issue a permit pursuant to the requirements of paragraph (q)(7) of this section: *Provided,* That the applicable requirements of this section are otherwise met.

(8) *Emission limitations for Presidential or gubernatorial variance.* In the case of a permit issued pursuant to paragraph (q) (5) or (6) of this section the source or modification shall comply with such emission limitations as may be necessary to assure that emissions of sulfur dioxide from the source or modification would not (during any day on which the otherwise applicable maximum allowable increases are exceeded) cause or contribute to concentrations which would exceed the following maximum allowable increases over the baseline concentration and to assure that such emissions would not cause or contribute to concentrations which exceed the otherwise applicable maximum allowable increases for periods of exposure of 24 hours or less for more than 18 days, not necessarily consecutive, during any annual period:

MAXIMUM ALLOWABLE INCREASE

[Micrograms per cubic meter]

Period of exposure	Terrain areas	
	Low	High
24-hr maximum	36	62
3-hr maximum	130	221

(q) *Public participation.* The administrator shall follow the applicable procedures of 40 CFR part 124 in processing applications under this section.

(r) *Source obligation.* (1) Any owner or operator who constructs or operates a source or modification not in accordance with the application submitted pursuant to this section or with the terms of any approval to construct, or any owner or operator of a source or modification subject to this section who commences construction after the effective date of these regulations without applying for and receiving approval hereunder, shall be subject to appropriate enforcement action.

(2) Approval to construct shall become invalid if construction is not commenced within 18 months after receipt of such approval, if construction is discontinued for a period of 18 months or more, or if construction is not completed within a reasonable

time. The Administrator may extend the 18-month period upon a satisfactory showing that an extension is justified. This provision does not apply to the time period between construction of the approved phases of a phased construction project; each phase must commence construction within 18 months of the projected and approved commencement date.

(3) Approval to construct shall not relieve any owner or operator of the responsibility to comply fully with applicable provisions of the State implementation plan and any other requirements under local, State, or Federal law.

(4) At such time that a particular source or modification becomes a major stationary source or major modification solely by virtue of a relaxation in any enforceable limitation which was established after August 7, 1980, on the capacity of the source or modification otherwise to emit a pollutant, such as a restriction on hours of operation, then the requirements or paragraphs (j) through (s) of this section shall apply to the source or modification as though construction had not yet commenced on the source or modification.

(5) [Reserved]

(6) Except as otherwise provided in paragraph (r)(6)(vi)(*b*) of this section, the provisions of this paragraph (r)(6) apply with respect to any regulated NSR pollutant emitted from projects at existing emissions units at a major stationary source (other than projects at a source with a PAL) in circumstances where there is a reasonable possibility, within the meaning of paragraph (r)(6)(vi) of this section, that a project that is not a part of a major modification may result in a significant emissions increase of such pollutant, and the owner or operator elects to use the method specified in paragraphs (b)(41)(ii)(*a*) through (*c*) of this section for calculating projected actual emissions.

(i) Before beginning actual construction of the project, the owner or operator shall document and maintain a record of the following information:

(*a*) A description of the project;

(*b*) Identification of the emissions unit(s) whose emissions of a regulated NSR pollutant could be affected by the project; and

(*c*) A description of the applicability test used to determine that the project is not a major modification for any regulated NSR pollutant, including the baseline actual emissions, the projected actual emissions, the amount of emissions excluded under paragraph (b)(41)(ii)(*c*) of this section and an explanation for why such amount was excluded, and any netting calculations, if applicable.

(ii) If the emissions unit is an existing electric utility steam generating unit, before beginning actual construction, the owner or operator shall provide a copy of the information set out in paragraph (r)(6)(i) of this section to the Administrator. Nothing in this paragraph (r)(6)(ii) shall be construed to require the owner or operator of such a unit to obtain any determination from the Administrator before beginning actual construction.

(iii) The owner or operator shall monitor the emissions of any regulated NSR pollutant that could increase as a result of the project and that is emitted by any emissions unit identified in paragraph (r)(6)(i)(*b*) of this section; and calculate and maintain a record of the annual emissions, in tons per year on a calendar year basis, for a period of 5 years following resumption of regular operations after the change, or for a period of 10 years following resumption of regular operations after the change if the project increases the design capacity or potential to emit that regulated NSR pollutant at such emissions unit.

(iv) If the unit is an existing electric utility steam generating unit, the owner or operator shall submit a report to the Administrator within 60 days after the end of each year during which records must be generated under paragraph (r)(6)(iii) of this section setting out the unit's annual emissions during the calendar year that preceded submission of the report.

(v) If the unit is an existing unit other than an electric utility steam generating unit, the owner or operator shall submit a report to the Administrator if the annual emissions, in tons per year, from the project identified in

paragraph (r)(6)(i) of this section, exceed the baseline actual emissions (as documented and maintained pursuant to paragraph (r)(6)(i)(*c*) of this section), by a significant amount (as defined in paragraph (b)(23) of this section) for that regulated NSR pollutant, and if such emissions differ from the preconstruction projection as documented and maintained pursuant to paragraph (r)(6)(i)(*c*) of this section. Such report shall be submitted to the Administrator within 60 days after the end of such year. The report shall contain the following:

(*a*) The name, address and telephone number of the major stationary source;

(*b*) The annual emissions as calculated pursuant to paragraph (r)(6)(iii) of this section; and

(*c*) Any other information that the owner or operator wishes to include in the report (e.g., an explanation as to why the emissions differ from the preconstruction projection).

(vi) A ''reasonable possibility'' under paragraph (r)(6) of this section occurs when the owner or operator calculates the project to result in either:

(*a*) A projected actual emissions increase of at least 50 percent of the amount that is a ''significant emissions increase,'' as defined under paragraph (b)(40) of this section (without reference to the amount that is a significant net emissions increase), for the regulated NSR pollutant; or

(*b*) A projected actual emissions increase that, added to the amount of emissions excluded under paragraph (b)(41)(ii)(*c*) of this section, sums to at least 50 percent of the amount that is a ''significant emissions increase,'' as defined under paragraph (b)(40) of this section (without reference to the amount that is a significant net emissions increase), for the regulated NSR pollutant. For a project for which a reasonable possibility occurs only within the meaning of paragraph (r)(6)(vi)(*b*) of this section, and not also within the meaning of paragraph (r)(6)(vi)(*a*) of this section, then provisions (r)(6)(ii) through (v) do not apply to the project.

(7) The owner or operator of the source shall make the information required to be documented and maintained pursuant to paragraph (r)(6) of this section available for review upon a request for inspection by the Administrator or the general public pursuant to the requirements contained in §70.4(b)(3)(viii) of this chapter.

(s) *Environmental impact statements.* Whenever any proposed source or modification is subject to action by a Federal Agency which might necessitate preparation of an environmental impact statement pursuant to the National Environmental Policy Act (42 U.S.C. 4321), review by the Administrator conducted pursuant to this section shall be coordinated with the broad environmental reviews under that Act and under section 309 of the Clean Air Act to the maximum extent feasible and reasonable.

(t) *Disputed permits or redesignations.* If any State affected by the redesignation of an area by an Indian Governing Body, or any Indian Governing Body of a tribe affected by the redesignation of an area by a State, disagrees with such redesignation, or if a permit is proposed to be issued for any major stationary source or major modification proposed for construction in any State which the Governor of an affected State or Indian Governing Body of an affected tribe determines will cause or contribute to a cumulative change in air quality in excess of that allowed in this part within the affected State or Indian Reservation, the Governor or Indian Governing Body may request the Administrator to enter into negotiations with the parties involved to resolve such dispute. If requested by any State or Indian Governing Body involved, the Administrator shall make a recommendation to resolve the dispute and protect the air quality related values of the lands involved. If the parties involved do not reach agreement, the Administrator shall resolve the dispute and his determination, or the results of agreements reached through other means, shall become part of the applicable State implementation plan and shall be enforceable as part of such plan. In resolving such disputes relating to area redesignation, the Administrator shall consider the extent to which the lands involved are of sufficient size to allow effective air quality management or have air quality related values of such an area.

(u) *Delegation of authority.* (1) The Administrator shall have the authority to delegate his responsibility for conducting source review pursuant to this section, in accordance with paragraph (u)(2) of this section.

(2) Where the Administrator delegates the responsibility for conducting source review under this section to any agency other than a Regional Office of the Environmental Protection Agency, the following provisions shall apply:

(i) Where the delegate agency is not an air pollution control agency, it shall consult with the appropriate state, tribe, and local air pollution control agency prior to making any determination under this section. Similarly, where the delegate agency does not have continuing responsibility for managing land use, it shall consult with the appropriate state, tribe, and local agency primarily responsible for managing land use prior to making any determination under this section.

(ii) The delegate agency shall send a copy of any public comment notice required under paragraph (r) of this section to the Administrator through the appropriate Regional Office.

(3) In the case of a source or modification which proposes to construct in a class III area, emissions from which would cause or contribute to air quality exceeding the maximum allowable increase applicable if the area were designated a class II area, and where no standard under section 111 of the act has been promulgated for such source category, the Administrator must approve the determination of best available control technology as set forth in the permit.

(v) *Innovative control technology.* (1) An owner or operator of a proposed major stationary source or major modification may request the Administrator in writing no later than the close of the comment period under 40 CFR 124.10 to approve a system of innovative control technology.

(2) The Administrator shall, with the consent of the governor(s) of the affected state(s), determine that the source or modification may employ a system of innovative control technology, if:

(i) The proposed control system would not cause or contribute to an unreasonable risk to public health, welfare, or safety in its operation or function;

(ii) The owner or operator agrees to achieve a level of continuous emissions reduction equivalent to that which would have been required under paragraph (j)(2) of this section, by a date specified by the Administrator. Such date shall not be later than 4 years from the time of startup or 7 years from permit issuance;

(iii) The source or modification would meet the requirements of paragraphs (j) and (k) of this section, based on the emissions rate that the stationary source employing the system of innovative control technology would be required to meet on the date specified by the Administrator;

(iv) The source or modification would not before the date specified by the Administrator:

(*a*) Cause or contribute to a violation of an applicable national ambient air quality standard; or

(*b*) Impact any area where an applicable increment is known to be violated; and

(v) All other applicable requirements including those for public participation have been met.

(vi) The provisions of paragraph (p) of this section (relating to Class I areas) have been satisfied with respect to all periods during the life of the source or modification.

(3) The Administrator shall withdraw any approval to employ a system of innovative control technology made under this section, if:

(i) The proposed system fails by the specified date to achieve the required continuous emissions reduction rate; or

(ii) The proposed system fails before the specified date so as to contribute to an unreasonable risk to public health, welfare, or safety; or

(iii) The Administrator decides at any time that the proposed system is unlikely to achieve the required level of control or to protect the public health, welfare, or safety.

(4) If a source or modification fails to meet the required level of continuous emission reduction within the specified time period or the approval is withdrawn in accordance with paragraph

(v)(3) of this section, the Administrator may allow the source or modification up to an additional 3 years to meet the requirement for the application of best available control technology through use of a demonstrated system of control.

(w) *Permit rescission.* (1) Any permit issued under this section or a prior version of this section shall remain in effect, unless and until it expires under paragraph (r) of this section or is rescinded under this paragraph (w).

(2) An owner or operator of a stationary source or modification who holds a permit issued under this section for the construction of a new source or modification that meets the requirement in paragraph (w)(3) of this section may request that the Administrator rescind the permit or a particular portion of the permit.

(3) The Administrator may grant an application for rescission if the application shows that this section would not apply to the source or modification.

(4) If the Administrator rescinds a permit under this paragraph, the Administrator shall post a notice of the rescission determination on a public Web site identified by the Administrator within 60 days of the rescission.

(x)–(z) [Reserved]

(aa) *Actuals PALs.* The provisions in paragraphs (aa)(1) through (15) of this section govern actuals PALs.

(1) *Applicability.* (i) The Administrator may approve the use of an actuals PAL, including for GHGs on either a mass basis or a CO_2e basis, for any existing major stationary source or any existing GHG-only source if the PAL meets the requirements in paragraphs (aa)(1) through (15) of this section. The term ''PAL'' shall mean ''actuals PAL'' throughout paragraph (aa) of this section.

(ii) Any physical change in or change in the method of operation of a major stationary source or a GHG-only source that maintains its total source-wide emissions below the PAL level, meets the requirements in paragraphs (aa)(1) through (15) of this section, and complies with the PAL permit:

(*a*) Is not a major modification for the PAL pollutant;

(*b*) Does not have to be approved through the PSD program;

(*c*) Is not subject to the provisions in paragraph (r)(4) of this section (restrictions on relaxing enforceable emission limitations that the major stationary source used to avoid applicability of the major NSR program); and

(*d*) Does not make GHGs subject to regulation as defined by paragraph (b)(49) of this section.

(iii) Except as provided under paragraph (aa)(1)(ii)(*c*) of this section, a major stationary source or a GHG-only source shall continue to comply with all applicable Federal or State requirements, emission limitations, and work practice requirements that were established prior to the effective date of the PAL.

(2) *Definitions.* For the purposes of this section, the definitions in paragraphs (aa)(2)(i) through (xi) of this section apply. When a term is not defined in these paragraphs, it shall have the meaning given in paragraph (b) of this section or in the Act.

(i) *Actuals PAL* for a major stationary source means a PAL based on the baseline actual emissions (as defined in paragraph (b)(48) of this section) of all emissions units (as defined in paragraph (b)(7) of this section) at the source, that emit or have the potential to emit the PAL pollutant. For a GHG-only source, *actuals PAL* means a PAL based on the baseline actual emissions (as defined in paragraph (aa)(2)(xiii) of this section) of all emissions units (as defined in paragraph (aa)(2)(xiv) of this section) at the source, that emit or have the potential to emit GHGs.

(ii) *Allowable emissions* means ''allowable emissions'' as defined in paragraph (b)(16) of this section, except as this definition is modified according to paragraphs (aa)(2)(ii)(*a*) and (*b*) of this section.

(*a*) The allowable emissions for any emissions unit shall be calculated considering any emission limitations that are enforceable as a practical matter on the emissions unit's potential to emit.

(*b*) An emissions unit's potential to emit shall be determined using the definition in paragraph (b)(4) of this section, except that the words ''or enforceable as a practical matter'' should be added after ''federally enforceable.''

(iii) *Small emissions unit* means an emissions unit that emits or has the potential to emit the PAL pollutant in an amount less than the significant level for that PAL pollutant, as defined in paragraph (b)(23) of this section or in the Act, whichever is lower. For a GHG PAL issued on a CO_2e basis, *small emissions unit* means an emissions unit that emits or has the potential to emit less than the amount of GHGs on a CO_2e basis defined as ''significant'' for the purposes of paragraph (b)(49)(iii) of this section at the time the PAL permit is being issued.

(iv) *Major emissions unit* means:

(*a*) Any emissions unit that emits or has the potential to emit 100 tons per year or more of the PAL pollutant in an attainment area; or

(*b*) Any emissions unit that emits or has the potential to emit the PAL pollutant in an amount that is equal to or greater than the major source threshold for the PAL pollutant as defined by the Act for nonattainment areas. For example, in accordance with the definition of major stationary source in section 182(c) of the Act, an emissions unit would be a major emissions unit for VOC if the emissions unit is located in a serious ozone nonattainment area and it emits or has the potential to emit 50 or more tons of VOC per year.

(*c*) For a GHG PAL issued on a CO_2e basis, any emissions unit that emits or has the potential to emit equal to or greater than the amount of GHGs on a CO_2e basis that would be sufficient for a new source to trigger permitting requirements under paragraph (b)(49) of this section at the time the PAL permit is being issued.

(v) *Plantwide applicability limitation (PAL)* means an emission limitation expressed on a mass basis in tons per year, or expressed in tons per year CO_2e for a CO_2e-based GHG emission limitation, for a pollutant at a major stationary source or GHG-only source, that is enforceable as a practical matter and established source-wide in accordance with paragraphs (aa)(1) through (15) of this section.

(vi) *PAL effective date* generally means the date of issuance of the PAL permit. However, the PAL effective date for an increased PAL is the date any emissions unit that is part of the PAL major modification becomes operational and begins to emit the PAL pollutant.

(vii) *PAL effective period* means the period beginning with the PAL effective date and ending 10 years later.

(viii) *PAL major modification* means, notwithstanding paragraphs (b)(2), (b)(3), and (b)(49) of this section (the definitions for major modification, net emissions increase, and subject to regulation), any physical change in or change in the method of operation of the PAL source that causes it to emit the PAL pollutant at a level equal to or greater than the PAL.

(ix) *PAL permit* means the major NSR permit, the minor NSR permit, or the State operating permit under a program that is approved into the State Implementation Plan, or the title V permit issued by the Administrator that establishes a PAL for a major stationary source or a GHG-only source.

(x) *PAL pollutant* means the pollutant for which a PAL is established at a major stationary source or a GHG-only source. For a GHG-only source, the only available PAL pollutant is greenhouse gases.

(xi) *Significant emissions unit* means an emissions unit that emits or has the potential to emit a PAL pollutant in an amount that is equal to or greater than the significant level (as defined in paragraph (b)(23) of this section or in the Act, whichever is lower) for that PAL pollutant, but less than the amount that would qualify the unit as a major emissions unit as defined in paragraph (aa)(2)(iv) of this section. For a GHG PAL issued on a CO_2e basis, *significant emissions unit* means any emissions unit that emits or has the potential to emit GHGs on a CO_2e basis in amounts equal to or greater than the amount that would qualify the unit as small emissions unit as defined in paragraph (aa)(2)(iii) of this section, but less than the amount that would qualify the unit as a major emissions

unit as defined in paragraph (aa)(2)(iv)(*c*) of this section.

(xii) *GHG-only source* means any existing stationary source that emits or has the potential to emit GHGs in the amount equal to or greater than the amount of GHGs on a mass basis that would be sufficient for a new source to trigger permitting requirements for GHGs under paragraph (b)(1) of this section and the amount of GHGs on a CO_2e basis that would be sufficient for a new source to trigger permitting requirements for GHGs under paragraph (b)(49) of this section at the time the PAL permit is being issued, but does not emit or have the potential to emit any other non-GHG regulated NSR pollutant at or above the applicable major source threshold. A GHG-only source may only obtain a PAL for GHG emissions under paragraph (aa) of this section.

(xiii) *Baseline actual emissions* for a GHG PAL means the average rate, in tons per year CO_2e or tons per year GHG, as applicable, at which the emissions unit actually emitted GHGs during any consecutive 24-month period selected by the owner or operator within the 10-year period immediately preceding either the date the owner or operator begins actual construction of the project, or the date a complete permit application is received by the Administrator for a permit required under this section or by the permitting authority for a permit required by a plan, whichever is earlier. For any existing electric utility steam generating unit, *baseline actual emissions* for a GHG PAL means the average rate, in tons per year CO_2e or tons per year GHG, as applicable, at which the emissions unit actually emitted the GHGs during any consecutive 24-month period selected by the owner or operator within the 5-year period immediately preceding either the date the owner or operator begins actual construction of the project, except that the Administrator shall allow the use of a different time period upon a determination that it is more representative of normal source operation.

(*a*) The average rate shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions.

(*b*) The average rate shall be adjusted downward to exclude any non-compliant emissions that occurred while the source was operating above an emission limitation that was legally enforceable during the consecutive 24-month period.

(*c*) The average rate shall be adjusted downward to exclude any emissions that would have exceeded an emission limitation with which the stationary source must currently comply, had such stationary source been required to comply with such limitations during the consecutive 24-month period.

(*d*) The average rate shall not be based on any consecutive 24-month period for which there is inadequate information for determining annual GHG emissions and for adjusting this amount if required by paragraphs (aa)(2)(xiii)(*b*) and (*c*) of this section.

(xiv) *Emissions unit* with respect to GHGs means any part of a stationary source that emits or has the potential to emit GHGs. For purposes of this section, there are two types of emissions units as described in the following:

(*a*) A new emissions unit is any emissions unit that is (or will be) newly constructed and that has existed for less than 2 years from the date such emissions unit first operated.

(*b*) An existing emissions unit is any emissions unit that does not meet the requirements in paragraph (aa)(2)(xiv)(*a*) of this section.

(xv) *Minor source* means any stationary source that does not meet the definition of major stationary source in paragraph (b)(1) of this section for any pollutant at the time the PAL is issued.

(3) *Permit application requirements.* As part of a permit application requesting a PAL, the owner or operator of a major stationary source or a GHG-only source shall submit the following information to the Administrator for approval:

(i) A list of all emissions units at the source designated as small, significant or major based on their potential to emit. In addition, the owner or operator of the source shall indicate which, if any, Federal or State applicable requirements, emission limitations, or work practices apply to each unit.

(ii) Calculations of the baseline actual emissions (with supporting documentation). Baseline actual emissions are to include emissions associated not only with operation of the unit, but also emissions associated with startup, shutdown, and malfunction.

(iii) The calculation procedures that the major stationary source owner or operator proposes to use to convert the monitoring system data to monthly emissions and annual emissions based on a 12-month rolling total for each month as required by paragraph (aa)(13)(i) of this section.

(iv) As part of a permit application requesting a GHG PAL, the owner or operator of a major stationary source or a GHG-only source shall submit a statement by the source owner or operator that clarifies whether the source is an existing major source as defined in paragraph (b)(1)(i)(*a*) and (*b*) of this section or a GHG-only source as defined in paragraph (aa)(2)(xii) of this section.

(4) *General requirements for establishing PALs.* (i) The Administrator is allowed to establish a PAL at a major stationary source or a GHG-only source, provided that at a minimum, the requirements in paragraphs (aa)(4)(i)(*a*) through (*g*) of this section are met.

(*a*) The PAL shall impose an annual emission limitation expressed on a mass basis in tons per year, or expressed in tons per year CO_2e, that is enforceable as a practical matter, for the entire major stationary source or GHG-only source. For each month during the PAL effective period after the first 12 months of establishing a PAL, the major stationary source or GHG-only source owner or operator shall show that the sum of the monthly emissions from each emissions unit under the PAL for the previous 12 consecutive months is less than the PAL (a 12-month average, rolled monthly). For each month during the first 11 months from the PAL effective date, the major stationary source or GHG-only source owner or operator shall show that the sum of the preceding monthly emissions from the PAL effective date for each emissions unit under the PAL is less than the PAL.

(*b*) The PAL shall be established in a PAL permit that meets the public participation requirements in paragraph (aa)(5) of this section.

(*c*) The PAL permit shall contain all the requirements of paragraph (aa)(7) of this section.

(*d*) The PAL shall include fugitive emissions, to the extent quantifiable, from all emissions units that emit or have the potential to emit the PAL pollutant at the major stationary source or GHG-only source.

(*e*) Each PAL shall regulate emissions of only one pollutant.

(*f*) Each PAL shall have a PAL effective period of 10 years.

(*g*) The owner or operator of the major stationary source or GHG-only source with a PAL shall comply with the monitoring, recordkeeping, and reporting requirements provided in paragraphs (aa)(12) through (14) of this section for each emissions unit under the PAL through the PAL effective period.

(ii) At no time (during or after the PAL effective period) are emissions reductions of a PAL pollutant that occur during the PAL effective period creditable as decreases for purposes of offsets under § 51.165(a)(3)(ii) of this chapter unless the level of the PAL is reduced by the amount of such emissions reductions and such reductions would be creditable in the absence of the PAL.

(5) *Public participation requirements for PALs.* PALs for existing major stationary sources or GHG-only sources shall be established, renewed, or increased through a procedure that is consistent with §§ 51.160 and 51.161 of this chapter. This includes the requirement that the Administrator provide the public with notice of the proposed approval of a PAL permit and at least a 30-day period for submittal of public comment. The Administrator must address all material comments before taking final action on the permit.

(6) *Setting the 10-year actuals PAL level.* (i) Except as provided in paragraph (aa)(6)(ii) and (iii) of this section, the plan shall provide that the actuals PAL level for a major stationary source or a GHG-only source shall be established as the sum of the baseline actual emissions (as defined in paragraph (b)(48) of this section or, for

GHGs, paragraph (aa)(2)(xiii) of this section) of the PAL pollutant for each emissions unit at the source; plus an amount equal to the applicable significant level for the PAL pollutant under paragraph (b)(23) of this section or under the Act, whichever is lower. When establishing the actuals PAL level, for a PAL pollutant, only one consecutive 24-month period must be used to determine the baseline actual emissions for all existing emissions units. However, a different consecutive 24-month period may be used for each different PAL pollutant. Emissions associated with units that were permanently shut down after this 24-month period must be subtracted from the PAL level. The reviewing authority shall specify a reduced PAL level(s) (in tons/yr) in the PAL permit to become effective on the future compliance date(s) of any applicable Federal or State regulatory requirement(s) that the reviewing authority is aware of prior to issuance of the PAL permit. For instance, if the source owner or operator will be required to reduce emissions from industrial boilers in half from baseline emissions of 60 ppm NO_X to a new rule limit of 30 ppm, then the permit shall contain a future effective PAL level that is equal to the current PAL level reduced by half of the original baseline emissions of such unit(s).

(ii) For newly constructed units (which do not include modifications to existing units) on which actual construction began after the 24-month period, in lieu of adding the baseline actual emissions as specified in paragraph (aa)(6)(i) of this section, the emissions must be added to the PAL level in an amount equal to the potential to emit of the units.

(iii) For CO_2e based GHG PAL, the actuals PAL level shall be established as the sum of the GHGs baseline actual emissions (as defined in paragraph (aa)(2)(xiii) of this section) of GHGs for each emissions unit at the source, plus an amount equal to the amount defined as ''significant'' on a CO_2e basis for the purposes of paragraph (b)(49)(iii) at the time the PAL permit is being issued. When establishing the actuals PAL level for a CO_2e-based PAL, only one consecutive 24-month period must be used to determine the baseline actual emissions for all existing emissions units. Emissions associated with units that were permanently shut down after this 24-month period must be subtracted from the PAL level. The reviewing authority shall specify a reduced PAL level (in tons per year CO_2e) in the PAL permit to become effective on the future compliance date(s) of any applicable Federal or state regulatory requirement(s) that the reviewing authority is aware of prior to issuance of the PAL permit.

(7) *Contents of the PAL permit.* The PAL permit must contain, at a minimum, the information in paragraphs (aa)(7)(i) through (xi) of this section.

(i) The PAL pollutant and the applicable source-wide emission limitation in tons per year or tons per year CO_2e.

(ii) The PAL permit effective date and the expiration date of the PAL (PAL effective period).

(iii) Specification in the PAL permit that if a major stationary source or a GHG-only source owner or operator applies to renew a PAL in accordance with paragraph (aa)(10) of this section before the end of the PAL effective period, then the PAL shall not expire at the end of the PAL effective period. It shall remain in effect until a revised PAL permit is issued by a reviewing authority.

(iv) A requirement that emission calculations for compliance purposes must include emissions from startups, shutdowns, and malfunctions.

(v) A requirement that, once the PAL expires, the major stationary source or GHG-only source is subject to the requirements of paragraph (aa)(9) of this section.

(vi) The calculation procedures that the major stationary source or GHG-only source owner or operator shall use to convert the monitoring system data to monthly emissions and annual emissions based on a 12-month rolling total as required by paragraph (aa)(13)(i) of this section.

(vii) A requirement that the major stationary source or GHG-only source owner or operator monitor all emissions units in accordance with the provisions under paragraph (aa)(12) of this section.

(viii) A requirement to retain the records required under paragraph

(aa)(13) of this section on site. Such records may be retained in an electronic format.

(ix) A requirement to submit the reports required under paragraph (aa)(14) of this section by the required deadlines.

(x) Any other requirements that the Administrator deems necessary to implement and enforce the PAL.

(xi) A permit for a GHG PAL issued to a GHG-only source shall also include a statement denoting that GHG emissions at the source will not be subject to regulation under paragraph (b)(49) of this section as long as the source complies with the PAL.

(8) *PAL effective period and reopening of the PAL permit.* The requirements in paragraphs (aa)(8)(i) and (ii) of this section apply to actuals PALs.

(i) *PAL effective period.* The Administrator shall specify a PAL effective period of 10 years.

(ii) *Reopening of the PAL permit.* (*a*) During the PAL effective period, the Administrator must reopen the PAL permit to:

(*1*) Correct typographical/calculation errors made in setting the PAL or reflect a more accurate determination of emissions used to establish the PAL;

(*2*) Reduce the PAL if the owner or operator of the major stationary source creates creditable emissions reductions for use as offsets under § 51.165(a)(3)(ii) of this chapter; and

(*3*) Revise the PAL to reflect an increase in the PAL as provided under paragraph (aa)(11) of this section.

(*b*) The Administrator shall have discretion to reopen the PAL permit for the following:

(*1*) Reduce the PAL to reflect newly applicable Federal requirements (for example, NSPS) with compliance dates after the PAL effective date;

(*2*) Reduce the PAL consistent with any other requirement, that is enforceable as a practical matter, and that the State may impose on the major stationary source or GHG-only source under the State Implementation Plan; and

(*3*) Reduce the PAL if the reviewing authority determines that a reduction is necessary to avoid causing or contributing to a NAAQS or PSD increment violation, or to an adverse impact on an air quality related value that has been identified for a Federal Class I area by a Federal Land Manager and for which information is available to the general public.

(*c*) Except for the permit reopening in paragraph (aa)(8)(ii)(*a*)(*1*) of this section for the correction of typographical/calculation errors that do not increase the PAL level, all other reopenings shall be carried out in accordance with the public participation requirements of paragraph (aa)(5) of this section.

(9) *Expiration of a PAL.* Any PAL that is not renewed in accordance with the procedures in paragraph (aa)(10) of this section shall expire at the end of the PAL effective period, and the requirements in paragraphs (aa)(9)(i) through (v) of this section shall apply.

(i) Each emissions unit (or each group of emissions units) that existed under the PAL shall comply with an allowable emission limitation under a revised permit established according to the procedures in paragraphs (aa)(9)(i)(*a*) and (*b*) of this section.

(*a*) Within the time frame specified for PAL renewals in paragraph (aa)(10)(ii) of this section, the major stationary source or GHG-only source shall submit a proposed allowable emission limitation for each emissions unit (or each group of emissions units, if such a distribution is more appropriate as decided by the Administrator) by distributing the PAL allowable emissions for the major stationary source or GHG-only source among each of the emissions units that existed under the PAL. If the PAL had not yet been adjusted for an applicable requirement that became effective during the PAL effective period, as required under paragraph (aa)(10)(v) of this section, such distribution shall be made as if the PAL had been adjusted.

(*b*) The Administrator shall decide whether and how the PAL allowable emissions will be distributed and issue a revised permit incorporating allowable limits for each emissions unit, or each group of emissions units, as the Administrator determines is appropriate.

(ii) Each emissions unit(s) shall comply with the allowable emission limitation on a 12-month rolling basis. The

Administrator may approve the use of monitoring systems (source testing, emission factors, etc.) other than CEMS, CERMS, PEMS, or CPMS to demonstrate compliance with the allowable emission limitation.

(iii) Until the Administrator issues the revised permit incorporating allowable limits for each emissions unit, or each group of emissions units, as required under paragraph (aa)(9)(i)(*b*) of this section, the source shall continue to comply with a source-wide, multi-unit emissions cap equivalent to the level of the PAL emission limitation.

(iv) Any physical change or change in the method of operation at the major stationary source or GHG-only source will be subject to major NSR requirements if such change meets the definition of major modification in paragraph (b)(2) of this section.

(v) The major stationary source or GHG-only source owner or operator shall continue to comply with any State or Federal applicable requirements (BACT, RACT, NSPS, etc.) that may have applied either during the PAL effective period or prior to the PAL effective period except for those emission limitations that had been established pursuant to paragraph (r)(4) of this section, but were eliminated by the PAL in accordance with the provisions in paragraph (aa)(1)(ii)(*c*) of this section.

(10) *Renewal of a PAL.* (i) The Administrator shall follow the procedures specified in paragraph (aa)(5) of this section in approving any request to renew a PAL for a major stationary source or a GHG-only source, and shall provide both the proposed PAL level and a written rationale for the proposed PAL level to the public for review and comment. During such public review, any person may propose a PAL level for the source for consideration by the Administrator.

(ii) *Application deadline.* A major stationary source or GHG-only source owner or operator shall submit a timely application to the Administrator to request renewal of a PAL. A timely application is one that is submitted at least 6 months prior to, but not earlier than 18 months from, the date of permit expiration. This deadline for application submittal is to ensure that the permit will not expire before the permit is renewed. If the owner or operator of a major stationary source or GHG-only source submits a complete application to renew the PAL within this time period, then the PAL shall continue to be effective until the revised permit with the renewed PAL is issued.

(iii) *Application requirements.* The application to renew a PAL permit shall contain the information required in paragraphs (aa)(10)(iii)(*a*) through (*d*) of this section.

(*a*) The information required in paragraphs (aa)(3)(i) through (iii) of this section.

(*b*) A proposed PAL level.

(*c*) The sum of the potential to emit of all emissions units under the PAL (with supporting documentation).

(*d*) Any other information the owner or operator wishes the Administrator to consider in determining the appropriate level for renewing the PAL.

(iv) *PAL adjustment.* In determining whether and how to adjust the PAL, the Administrator shall consider the options outlined in paragraphs (aa)(10)(iv)(*a*) and (*b*) of this section. However, in no case may any such adjustment fail to comply with paragraph (aa)(10)(iv)(*c*) of this section.

(*a*) If the emissions level calculated in accordance with paragraph (aa)(6) of this section is equal to or greater than 80 percent of the PAL level, the Administrator may renew the PAL at the same level without considering the factors set forth in paragraph (aa)(10)(iv)(*b*) of this section; or

(*b*) The Administrator may set the PAL at a level that he or she determines to be more representative of the source's baseline actual emissions, or that he or she determines to be more appropriate considering air quality needs, advances in control technology, anticipated economic growth in the area, desire to reward or encourage the source's voluntary emissions reductions, or other factors as specifically identified by the Administrator in his or her written rationale.

(*c*) Notwithstanding paragraphs (aa)(10)(iv)(a) and (b) of this section:

(*1*) If the potential to emit of the major stationary source or GHG-only

source is less than the PAL, the Administrator shall adjust the PAL to a level no greater than the potential to emit of the source; and

(*2*) The Administrator shall not approve a renewed PAL level higher than the current PAL, unless the major stationary source or GHG-only source has complied with the provisions of paragraph (aa)(11) of this section (increasing a PAL).

(v) If the compliance date for a State or Federal requirement that applies to the PAL source occurs during the PAL effective period, and if the Administrator has not already adjusted for such requirement, the PAL shall be adjusted at the time of PAL permit renewal or title V permit renewal, whichever occurs first.

(11) *Increasing a PAL during the PAL effective period.* (i) The Administrator may increase a PAL emission limitation only if the major stationary source or GHG-only source complies with the provisions in paragraphs (aa)(11)(i)(*a*) through (*d*) of this section.

(*a*) The owner or operator of the major stationary source or GHG-only source shall submit a complete application to request an increase in the PAL limit for a PAL major modification. Such application shall identify the emissions unit(s) contributing to the increase in emissions so as to cause the major stationary or GHG-only source's emissions to equal or exceed its PAL.

(*b*) As part of this application, the major stationary source or GHG-only source owner or operator shall demonstrate that the sum of the baseline actual emissions of the small emissions units, plus the sum of the baseline actual emissions of the significant and major emissions units assuming application of BACT equivalent controls, plus the sum of the allowable emissions of the new or modified emissions unit(s) exceeds the PAL. The level of control that would result from BACT equivalent controls on each significant or major emissions unit shall be determined by conducting a new BACT analysis at the time the application is submitted, unless the emissions unit is currently required to comply with a BACT or LAER requirement that was established within the preceding 10 years. In such a case, the assumed control level for that emissions unit shall be equal to the level of BACT or LAER with which that emissions unit must currently comply.

(*c*) The owner or operator obtains a major NSR permit for all emissions unit(s) identified in paragraph (aa)(11)(i)(*a*) of this section, regardless of the magnitude of the emissions increase resulting from them (that is, no significant levels apply). These emissions unit(s) shall comply with any emissions requirements resulting from the major NSR process (for example, BACT), even though they have also become subject to the PAL or continue to be subject to the PAL.

(*d*) The PAL permit shall require that the increased PAL level shall be effective on the day any emissions unit that is part of the PAL major modification becomes operational and begins to emit the PAL pollutant.

(ii) The Administrator shall calculate the new PAL as the sum of the allowable emissions for each modified or new emissions unit, plus the sum of the baseline actual emissions of the significant and major emissions units (assuming application of BACT equivalent controls as determined in accordance with paragraph (aa)(11)(i)(*b*)), plus the sum of the baseline actual emissions of the small emissions units.

(iii) The PAL permit shall be revised to reflect the increased PAL level pursuant to the public notice requirements of paragraph (aa)(5) of this section.

(12) *Monitoring requirements for PALs.* (i) *General requirements.* (*a*) Each PAL permit must contain enforceable requirements for the monitoring system that accurately determines plantwide emissions of the PAL pollutant in terms of mass per unit of time or CO_2e per unit of time. Any monitoring system authorized for use in the PAL permit must be based on sound science and meet generally acceptable scientific procedures for data quality and manipulation. Additionally, the information generated by such system must meet minimum legal requirements for admissibility in a judicial proceeding to enforce the PAL permit.

(*b*) The PAL monitoring system must employ one or more of the four general monitoring approaches meeting the

minimum requirements set forth in paragraphs (aa)(12)(ii)(*a*) through (*d*) of this section and must be approved by the Administrator.

(*c*) Notwithstanding paragraph (aa)(12)(i)(*b*) of this section, you may also employ an alternative monitoring approach that meets paragraph (aa)(12)(i)(*a*) of this section if approved by the Administrator.

(*d*) Failure to use a monitoring system that meets the requirements of this section renders the PAL invalid.

(ii) Minimum performance requirements for approved monitoring approaches. The following are acceptable general monitoring approaches when conducted in accordance with the minimum requirements in paragraphs (aa)(12)(iii) through (ix) of this section:

(*a*) Mass balance calculations for activities using coatings or solvents;

(*b*) CEMS;

(*c*) CPMS or PEMS; and

(*d*) Emission factors.

(iii) *Mass balance calculations.* An owner or operator using mass balance calculations to monitor PAL pollutant emissions from activities using coating or solvents shall meet the following requirements:

(*a*) Provide a demonstrated means of validating the published content of the PAL pollutant that is contained in or created by all materials used in or at the emissions unit;

(*b*) Assume that the emissions unit emits all of the PAL pollutant that is contained in or created by any raw material or fuel used in or at the emissions unit, if it cannot otherwise be accounted for in the process; and

(*c*) Where the vendor of a material or fuel, which is used in or at the emissions unit, publishes a range of pollutant content from such material, the owner or operator must use the highest value of the range to calculate the PAL pollutant emissions unless the Administrator determines there is site-specific data or a site-specific monitoring program to support another content within the range.

(iv) *CEMS.* An owner or operator using CEMS to monitor PAL pollutant emissions shall meet the following requirements:

(*a*) CEMS must comply with applicable Performance Specifications found in 40 CFR part 60, appendix B; and

(*b*) CEMS must sample, analyze and record data at least every 15 minutes while the emissions unit is operating.

(v) *CPMS or PEMS.* An owner or operator using CPMS or PEMS to monitor PAL pollutant emissions shall meet the following requirements:

(*a*) The CPMS or the PEMS must be based on current site-specific data demonstrating a correlation between the monitored parameter(s) and the PAL pollutant emissions across the range of operation of the emissions unit; and

(*b*) Each CPMS or PEMS must sample, analyze, and record data at least every 15 minutes, or at another less frequent interval approved by the Administrator, while the emissions unit is operating.

(vi) *Emission factors.* An owner or operator using emission factors to monitor PAL pollutant emissions shall meet the following requirements:

(*a*) All emission factors shall be adjusted, if appropriate, to account for the degree of uncertainty or limitations in the factors' development;

(*b*) The emissions unit shall operate within the designated range of use for the emission factor, if applicable; and

(*c*) If technically practicable, the owner or operator of a significant emissions unit that relies on an emission factor to calculate PAL pollutant emissions shall conduct validation testing to determine a site-specific emission factor within 6 months of PAL permit issuance, unless the Administrator determines that testing is not required.

(vii) A source owner or operator must record and report maximum potential emissions without considering enforceable emission limitations or operational restrictions for an emissions unit during any period of time that there is no monitoring data, unless another method for determining emissions during such periods is specified in the PAL permit.

(viii) Notwithstanding the requirements in paragraphs (aa)(12)(iii) through (vii) of this section, where an owner or operator of an emissions unit

cannot demonstrate a correlation between the monitored parameter(s) and the PAL pollutant emissions rate at all operating points of the emissions unit, the Administrator shall, at the time of permit issuance:

(*a*) Establish default value(s) for determining compliance with the PAL based on the highest potential emissions reasonably estimated at such operating point(s); or

(*b*) Determine that operation of the emissions unit during operating conditions when there is no correlation between monitored parameter(s) and the PAL pollutant emissions is a violation of the PAL.

(ix) *Re-validation*. All data used to establish the PAL pollutant must be revalidated through performance testing or other scientifically valid means approved by the Administrator. Such testing must occur at least once every 5 years after issuance of the PAL.

(13) *Recordkeeping requirements*. (i) The PAL permit shall require an owner or operator to retain a copy of all records necessary to determine compliance with any requirement of paragraph (aa) of this section and of the PAL, including a determination of each emissions unit's 12-month rolling total emissions, for 5 years from the date of such record.

(ii) The PAL permit shall require an owner or operator to retain a copy of the following records for the duration of the PAL effective period plus 5 years:

(*a*) A copy of the PAL permit application and any applications for revisions to the PAL; and

(*b*) Each annual certification of compliance pursuant to title V and the data relied on in certifying the compliance.

(14) *Reporting and notification requirements*. The owner or operator shall submit semi-annual monitoring reports and prompt deviation reports to the Administrator in accordance with the applicable title V operating permit program. The reports shall meet the requirements in paragraphs (aa)(14)(i) through (iii) of this section.

(i) *Semi-annual report*. The semi-annual report shall be submitted to the Administrator within 30 days of the end of each reporting period. This report shall contain the information required in paragraphs (aa)(14)(i)(*a*) through (*g*) of this section.

(*a*) The identification of owner and operator and the permit number.

(*b*) Total annual emissions (expressed on a mass-basis in tons per year, or expressed in tons per year CO_2e) based on a 12-month rolling total for each month in the reporting period recorded pursuant to paragraph (aa)(13)(i) of this section.

(*c*) All data relied upon, including, but not limited to, any Quality Assurance or Quality Control data, in calculating the monthly and annual PAL pollutant emissions.

(*d*) A list of any emissions units modified or added to the major stationary source or GHG-only source during the preceding 6-month period.

(*e*) The number, duration, and cause of any deviations or monitoring malfunctions (other than the time associated with zero and span calibration checks), and any corrective action taken.

(*f*) A notification of a shutdown of any monitoring system, whether the shutdown was permanent or temporary, the reason for the shutdown, the anticipated date that the monitoring system will be fully operational or replaced with another monitoring system, and whether the emissions unit monitored by the monitoring system continued to operate, and the calculation of the emissions of the pollutant or the number determined by method included in the permit, as provided by (aa)(12)(vii).

(*g*) A signed statement by the responsible official (as defined by the applicable title V operating permit program) certifying the truth, accuracy, and completeness of the information provided in the report.

(ii) *Deviation report*. The major stationary source or GHG-only source owner or operator shall promptly submit reports of any deviations or exceedance of the PAL requirements, including periods where no monitoring is available. A report submitted pursuant to §70.6(a)(3)(iii)(B) of this chapter shall satisfy this reporting requirement. The deviation reports shall be

submitted within the time limits prescribed by the applicable program implementing § 70.6(a)(3)(iii)(B) of this chapter. The reports shall contain the following information:

(*a*) The identification of owner and operator and the permit number;

(*b*) The PAL requirement that experienced the deviation or that was exceeded;

(*c*) Emissions resulting from the deviation or the exceedance; and

(*d*) A signed statement by the responsible official (as defined by the applicable title V operating permit program) certifying the truth, accuracy, and completeness of the information provided in the report.

(iii) *Re-validation results.* The owner or operator shall submit to the Administrator the results of any re-validation test or method within 3 months after completion of such test or method.

(15) *Transition requirements.* (i) The Administrator may not issue a PAL that does not comply with the requirements in paragraphs (aa)(1) through (15) of this section after March 3, 2003.

(ii) The Administrator may supersede any PAL that was established prior to March 3, 2003 with a PAL that complies with the requirements of paragraphs (aa)(1) through (15) of this section.

(bb) If any provision of this section, or the application of such provision to any person or circumstance, is held invalid, the remainder of this section, or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby.

(cc) Without regard to other considerations, routine maintenance, repair and replacement includes, but is not limited to, the replacement of any component of a process unit with an identical or functionally equivalent component(s), and maintenance and repair activities that are part of the replacement activity, provided that all of the requirements in paragraphs (cc)(1) through (3) of this section are met.

(1) *Capital cost threshold for equipment replacement.* (i) For an *electric utility steam generating unit,* as defined in § 52.21(b)(31), the fixed capital cost of the replacement component(s) plus the cost of any associated maintenance and repair activities that are part of the replacement shall not exceed 20 percent of the replacement value of the process unit, at the time the equipment is replaced. For a process unit that is not an electric utility steam generating unit the fixed capital cost of the replacement component(s) plus the cost of any associated maintenance and repair activities that are part of the replacement shall not exceed 20 percent of the replacement value of the process unit, at the time the equipment is replaced.

(ii) In determining the replacement value of the process unit; and, except as otherwise allowed under paragraph (cc)(1)(iii) of this section, the owner or operator shall determine the replacement value of the process unit on an estimate of the fixed capital cost of constructing a new process unit, or on the current appraised value of the process unit.

(iii) As an alternative to paragraph (cc)(1)(ii) of this section for determining the replacement value of a process unit, an owner or operator may choose to use insurance value (where the insurance value covers only complete replacement), investment value adjusted for inflation, or another accounting procedure if such procedure is based on Generally Accepted Accounting Principles, provided that the owner or operator sends a notice to the reviewing authority. The first time that an owner or operator submits such a notice for a particular process unit, the notice may be submitted at any time, but any subsequent notice for that process unit may be submitted only at the beginning of the process unit's fiscal year. Unless the owner or operator submits a notice to the reviewing authority, then paragraph (cc)(1)(ii) of this section will be used to establish the replacement value of the process unit. Once the owner or operator submits a notice to use an alternative accounting procedure, the owner or operator must continue to use that procedure for the entire fiscal year for that process unit. In subsequent fiscal years, the owner or operator must continue to use this selected procedure unless and until the owner or operator sends another notice to the reviewing authority selecting another procedure

consistent with this paragraph or paragraph (cc)(1)(ii) of this section at the beginning of such fiscal year.

(2) *Basic design parameters.* The replacement does not change the basic design parameter(s) of the process unit to which the activity pertains.

(i) Except as provided in paragraph (cc)(2)(iii) of this section, for a process unit at a steam electric generating facility, the owner or operator may select as its basic design parameters either maximum hourly heat input and maximum hourly fuel consumption rate or maximum hourly electric output rate and maximum steam flow rate. When establishing fuel consumption specifications in terms of weight or volume, the minimum fuel quality based on British Thermal Units content shall be used for determining the basic design parameter(s) for a coal-fired electric utility steam generating unit.

(ii) Except as provided in paragraph (cc)(2)(iii) of this section, the basic design parameter(s) for any process unit that is not at a steam electric generating facility are maximum rate of fuel or heat input, maximum rate of material input, or maximum rate of product output. Combustion process units will typically use maximum rate of fuel input. For sources having multiple end products and raw materials, the owner or operator should consider the primary product or primary raw material when selecting a basic design parameter.

(iii) If the owner or operator believes the basic design parameter(s) in paragraphs (cc)(2)(i) and (ii) of this section is not appropriate for a specific industry or type of process unit, the owner or operator may propose to the reviewing authority an alternative basic design parameter(s) for the source's process unit(s). If the reviewing authority approves of the use of an alternative basic design parameter(s), the reviewing authority shall issue a permit that is legally enforceable that records such basic design parameter(s) and requires the owner or operator to comply with such parameter(s).

(iv) The owner or operator shall use credible information, such as results of historic maximum capability tests, design information from the manufacturer, or engineering calculations, in establishing the magnitude of the basic design parameter(s) specified in paragraphs (cc)(2)(i) and (ii) of this section.

(v) If design information is not available for a process unit, then the owner or operator shall determine the process unit's basic design parameter(s) using the maximum value achieved by the process unit in the five-year period immediately preceding the planned activity.

(vi) Efficiency of a process unit is not a basic design parameter.

(3) The replacement activity shall not cause the process unit to exceed any emission limitation, or operational limitation that has the effect of constraining emissions, that applies to the process unit and that is legally enforceable.

NOTE TO PARAGRAPH (cc): By a court order on December 24, 2003, this paragraph (cc) is stayed indefinitely. The stayed provisions will become effective immediately if the court terminates the stay. At that time, EPA will publish a document in the FEDERAL REGISTER advising the public of the termination of the stay.

[43 FR 26403, June 19, 1978]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.21, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

EFFECTIVE DATE NOTE: At 76 FR 17556, Mar. 30, 2011, § 52.21(b)(2)(v) and (b)(3)(iii)(*c*) were stayed indefinitely.

§ 52.23 Violation and enforcement.

Failure to comply with any provisions of this part, or with any approved regulatory provision of a State implementation plan, or with any permit condition or permit denial issued pursuant to approved or promulgated regulations for the review of new or modified stationary or indirect sources, or with any permit limitation or condition contained within an operating permit issued under an EPA-approved program that is incorporated into the State implementation plan, shall render the person or governmental entity so failing to comply in violation of a requirement of an applicable implementation plan and subject to enforcement action under section 113 of the

Clean Air Act. With regard to compliance schedules, a person or Governmental entity will be considered to have failed to comply with the requirements of this part if it fails to timely submit any required compliance schedule, if the compliance schedule when submitted does not contain each of the elements it is required to contain, or if the person or Governmental entity fails to comply with such schedule.

[39 FR 33512, Sept. 18, 1974, as amended at 54 FR 27285, June 28, 1989]

§ 52.24 Statutory restriction on new sources.

(a) Any area designated nonattainment pursuant to section 107(d) of the Act to which, immediately prior to the enactment of the Amendments to the Act of 1990 (November 15, 1990), a prohibition of construction or modification of major stationary sources was applied, shall retain that prohibition if such prohibition was applied by virtue of a finding of the Administrator that the State containing such an area:

(1) Failed to submit an implementation plan meeting the requirements of an approvable new source review permitting program; or

(2) Failed to submit an implementation plan that provided for timely attainment of the national ambient air quality standard for sulfur dioxide by December 31, 1982. This prohibition shall apply until the Administrator approves a plan for such area as meeting the applicable requirements of part D of title I of the Act as amended (NSR permitting requirements) or subpart 5 of part D of title I of the Act as amended (relating to attainment of the national ambient air quality standards for sulfur dioxide), as applicable.

(b) Permits to construct and operate as required by permit programs under section 172(c)(5) of the Act may not be issued for new or modified major stationary sources proposing to locate in nonattainment areas or areas in a transport region where the Administrator has determined that the applicable implementation plan is not being adequately implemented for the nonattainment area or transport region in which the proposed source is to be constructed or modified in accordance with the requirements of part D of title I of the Act.

(c) Whenever, on the basis of any information, the Administrator finds that a State is not in compliance with any requirement or prohibition of the Act relating to the construction of new sources or the modification of existing sources, the Administrator may issue an order under section 113(a)(5) of the Act prohibiting the construction or modification of any major stationary source in any area to which such requirement applies.

(d) The restrictions in paragraphs (a) and (b) of this section apply only to major stationary sources of emissions that cause or contribute to concentrations of the pollutant (or precursors, as applicable) for which the transport region or nonattainment area was designated such, and for which the applicable implementation plan is not being carried out in accordance with, or does not meet, the requirements of part D of title I of the Act.

(e) For any transport region or any area designated as nonattainment for any national ambient air quality standard, the restrictions in paragraphs (a) and (b) of this section shall apply to any major stationary source or major modification that would be major for the pollutant (or precursors, where applicable) for which the area is designated nonattainment or a transport region, if the stationary source or major modification would be constructed anywhere in the designated nonattainment area or transport region.

(f) The provisions in § 51.165 of this chapter shall apply in interpreting the terms under this section.

(g) At such time that a particular source or modification becomes a major stationary source or major modification solely by virtue of a relaxation in any enforceable limitation which was established after August 7, 1980, on the capacity of the source or modification otherwise to emit a pollutant, such as a restriction on hours of operation, then:

(1) If the construction moratorium imposed pursuant to this section is still in effect for the nonattainment area or transport region in which the

source or modification is located, then the permit may not be so revised; or

(2) If the construction moratorium is no longer in effect in that area, then the requirements of §51.165 of this chapter shall apply to the source or modification as though construction had not yet commenced on the source or modification.

(h) This section does not apply to major stationary sources or major modifications locating in a clearly defined part of a nonattainment area or transport region (such as a political subdivision of a State), where EPA finds that a plan which meets the requirements of part D of title I of the Act is in effect and is being implemented in that part.

(i)–(j) [Reserved]

(k) For an area designated as nonattainment after July 1, 1979, the Emission Offset Interpretative Ruling, 40 CFR part 51, appendix S shall govern permits to construct and operate applied for during the period between the date of designation as nonattainment and the date the NSR permit program meeting the requirements of part D is approved. The Emission Offset Interpretative Ruling, 40 CFR part 51, appendix S, shall also govern permits to construct and operate applied for in any area designated under section 107(d) of the CAA as attainment or unclassifiable for ozone that is located in an ozone transport region prior to the date the NSR permitting program meeting the requirements of part D is approved.

[70 FR 71704, Nov. 29, 2005]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting §52.24, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§52.26 [Reserved]

§52.27 Protection of visibility from sources in attainment areas.

(a) *Plan disapproval.* The provisions of this section are applicable to any State implementation plan which has been disapproved with respect to protection of visibility, in mandatory Class I Federal areas, from sources emitting pollutants in any portion of any State where the existing air quality is better than the national ambient air quality standards for such pollutants, and where a State PSD program has been approved as part of the applicable SIP pursuant to 40 CFR 51.24. Specific disapprovals are listed where applicable in Subparts B through DDD of this part. The provisions of this section have been incorporated by reference into the applicable implementation plans for various States, as provided in Subparts B through DDD of this part.

(b) *Definitions.* For purposes of this section, all terms shall have the meaning ascribed to them in the Clean Air Act, in the prevention of significant deterioration (PSD) program approved as part of the applicable SIP pursuant to 40 CFR 51.24 for the State, or in the protection of visibility program (40 CFR 51.301), all as in effect on July 12, 1985.

(c) *Federal visibility analysis.* Any person shall have the right, in connection with any application for a permit to construct a major stationary source or major modification, to request that the administrator take responsibility from the State for conducting the required review of a proposed source's impact on visibility in any Federal Class I area. If requested, the Administrator shall take such responsibility and conduct such review pursuant to paragraphs (e), (f) and (g) of this section in any case where the State fails to provide all of the procedural steps listed in paragraph (d) of this section. A request pursuant to this paragraph must be made within 60 days of the notice soliciting public comment on a permit, unless such notice is not properly given. The Administrator will not entertain requests challenging the substance of any State action concerning visibility where the State has provided all of the procedural steps listed in paragraph (d) of this section.

(d) *Procedural steps in visibility review.* (1) The reviewing authority must provide written notification to all affected Federal land managers of any permit application for any proposed new major stationary source or major modification that may affect visibility in any Federal Class I area. Such notification shall include a copy of all information relevant to the permit application and shall be given within 30 days of receipt

and at least 60 days prior to any public hearing on the application for a permit to construct. Such notification shall include the proposed source's anticipated impacts on visibility in any Federal Class I area as provided by the applicant. Notification must also be given to all affected Federal land managers within 30 days of receipt of any advance notification of any such permit application.

(2) The reviewing authority must consider any analysis performed by the Federal land managers, provided within 30 days of the notification required by paragraph (d)(1) of this section, that shows that such proposed new major stationary source or major modification may have:

(i) An adverse impact on visibility in any Federal Class I area, or

(ii) An adverse impact on visibility in an integral vista codified in part 81 of this title.

(3) Where the reviewing authority finds that such an analysis does not demonstrate that the effect in paragraphs (d)(2) (i) or (ii) of this section will occur, either an explanation of its decision or notification as to where the explanation can be obtained must be included in the notice of public hearing.

(4) Where the reviewing authority finds that such an analysis does demonstrate that the effect in paragraph (d)(2)(i) of this section will occur, the permit shall not be issued.

(5) Where the reviewing authority finds that such an analysis does demonstrate that the effect in paragraph (d)(2)(ii) of this section will occur, the reviewing authority may issue a permit if the emissions from the source or modification will be consistent with reasonable progress toward the national goal. In making this decision, the reviewing authority may take into account the costs of compliance, the time necessary for compliance, the energy and nonair quality environmental impacts of compliance, and the useful life of the source.

(e) *Federal land manager notification.* The Administrator shall provide all of the procedural steps listed in paragraph (d) of this section in conducting reviews pursuant to this section.

(f) *Monitoring.* The Administrator may require monitoring of visibility in any Federal Class I area near the proposed new stationary source or major modification for such purposes and by such means as the Administrator deems necessary and appropriate.

(g) *Public participation.* The Administrator shall follow the applicable procedures at 40 CFR part 124 in conducting reviews under this section. The Administrator shall follow the procedures at 40 CFR 52.21(q) as in effect on August 7, 1980, to the extent that the procedures of 40 CFR part 124 do not apply.

(h) *Federal permit.* In any case where the Administrator has made a finding that a State consistently fails or is unable to provide the procedural steps listed in paragraph (d) of this section, the Administrator shall require all prospective permit applicants in such State to apply directly to the Administrator, and the Administrator shall conduct a visibility review pursuant to this section for all permit applications.

[50 FR 28551, July 12, 1985, as amended at 52 FR 45137, Nov. 24, 1987]

§ 52.28 Protection of visibility from sources in nonattainment areas.

(a) *Plan disapproval.* The provisions of this section are applicable to any State implementation plan which has been disapproved with respect to protection of visibility, in mandatory Class I Federal areas where visibility is considered an important value, from sources emitting pollutants in any portion of any State where the existing air quality is not in compliance with the national ambient air quality standards for such pollutants. Specific disapprovals are listed where applicable in Subparts B through DDD of this part. The provisions of this section have been incorporated into the applicable implementation plans for various States, as provided in Subparts B through DDD of this part.

(b) *Definitions.* For the purposes of this section:

(1) *Visibility protection area* means any area listed in 40 CFR 81.401–81.436 (1984).

(2) All other terms shall have the meaning ascribed to them in the protection of visibility program (40 CFR 51.301) or the prevention of significant

deterioration (PSD) program either approved as part of the applicable SIP pursuant to 40 CFR 51.24 or in effect for the applicable SIP pursuant to 40 CFR 52.21, all as in effect on July 12, 1985.

(c) *Review of major stationary sources and major modifications—source applicability and exemptions.* (1) No stationary source or modification to which the requirements of this section apply shall begin actual construction without a permit which states that the stationary source or modification would meet those requirements. The Administrator has sole authority to issue any such permit unless the authority has been delegated pursuant to paragraph (i) of this section.

(2) The requirements of this section shall apply to construction of any new major stationary source or major modification that would both be constructed in an area classified as nonattainment under section 107(d)(1)(A), (B) or (C) of the Clean Air Act and potentially have an impact on visibility in any visibility protection area.

(3) The requirements of this section shall apply to any such major stationary source and any such major modification with respect to each pollutant subject to regulation under the Clean Air Act that it would emit, except as this section otherwise provides.

(4) The requirements of this section shall not apply to a particular major stationary source or major modification, if:

(i) The source or modification would be a nonprofit health or nonprofit educational institution, or a major modification would occur at such an institution, and the governor of the State in which the source or modification would be located requests that it be exempt from those requirements; or

(ii) The source or modification would be a major stationary source or major modification only if fugitive emissions, to the extent quantifiable, are considered in calculating the potential to emit of the stationary source or modification and the source does not belong to any of the following categories:

(A) Coal cleaning plants (with thermal dryers);

(B) Kraft pulp mills;

(C) Portland cement plants;

(D) Primary zinc smelters;

(E) Iron and steel mills;

(F) Primary aluminum ore reduction plants;

(G) Primary copper smelters;

(H) Municipal incinerators capable of charging more than 250 tons of refuse per day;

(I) Hydrofluoric, sulfuric, or nitric acid plants;

(J) Petroleum refineries;

(K) Lime plants;

(L) Phosphate rock processing plants;

(M) Coke oven batteries;

(N) Sulfur recovery plants;

(O) Carbon black plants (furnace process);

(P) Primary lead smelters;

(Q) Fuel conversion plants;

(R) Sintering plants;

(S) Secondary metal production plants;

(T) Chemical process plants;

(U) Fossil-fuel boiler (or combination thereof) totaling more than 250 million British thermal units per hour heat input;

(V) Petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels;

(W) Taconite ore processing plants;

(X) Glass fiber processing plants;

(Y) Charcoal production plants;

(Z) Fossil fuel-fired steam electric plants of more than 250 million British thermal units per hour heat input;

(AA) Any other stationary source category which, as of August 7, 1980, is being regulated under section 111 or 112 of the Act; or

(iii) The source is a portable stationary source which has previously received a permit under this section, and

(A) The owner or operator proposes to relocate the source and emissions of the source at the new location would be temporary; and

(B) The emissions from the source would not exceed its allowable emissions; and

(C) The emissions from the source would impact no Class I area and no area where an applicable increment is known to be violated; and

(D) Reasonable notice is given to the Administrator, prior to the relocation, identifying the proposed new location and the probable duration of operation at the new location. Such notice shall be given to the Administrator not less

than 10 days in advance of the proposed relocation, unless a different time duration is previously approved by the Administrator.

(5) The requirements of this section shall not apply to a major stationary source or major modification with respect to a particular pollutant if the owner or operator demonstrates that, as to that pollutant, the source or modification is located in an area designated as attainment under section 107 of the Clean Air Act.

(6) The requirements of this section shall not apply to a major stationary source or major modification with respect to a particular pollutant, if the allowable emissions of that pollutant from the source, or the net emissions increase of that pollutant from the modification:

(i) Would impact no Class I area and no area where an applicable increment is known to be violated, and

(ii) Would be temporary.

(d) *Visibility Impact Analyses.* The owner or operator of a source shall provide an analysis of the impairment to visibility that would occur as a result of the source or modification and general commercial, residential, industrial and other growth associated with the source or modification.

(e) *Federal land manager notification.* (1) The Federal land manager and the Federal official charged with direct responsibility for management of Federal Class I areas have an affirmative responsibility to protect the air quality related values (including visibility) of such lands and to consider, in consultation with the Administrator, whether a proposed source or modification will have an adverse impact on such values.

(2) The Administrator shall provide written notification to all affected Federal land managers of any permit application for any proposed new major stationary source or major modification that may affect visibility in any visibility protection area. The Administrator shall also provide for such notification to the Federal official charged with direct responsibility for management of any lands within any such area. Such notification shall include a copy of all information relevant to the permit application and shall be given within 30 days of receipt and at least 60 days prior to any public hearing on the application for a permit to construct. Such notification shall include an analysis of the proposed source's anticipated impacts on visibility in any visibility protection area. The Administrator shall also notify all affected FLM's within 30 days of receipt of any advance notification of any such permit application.

(3) The Administrator shall consider any analysis performed by the Federal land manager, provided within 30 days of the notification required by paragraph (e)(2) of this section, that such proposed new major stationary source or major modification may have an adverse impact on visibility in any visibility protection area. Where the Administrator finds that such an analysis does not demonstrate to the satisfaction of the Administrator that an adverse impact on visibility will result in the visibility protection area, the Administrator must, in the notice of public hearing, either explain his decision or give notice as to where the explanation can be obtained.

(f) *Public participation.* The Administrator shall follow the applicable procedures of 40 CFR part 124 in processing applications under this section. The Administrator shall follow the procedures at 40 CFR 52.21(q) as in effect on August 7, 1980, to the extent that the procedures of 40 CFR part 124 do not apply.

(g) *National visibility goal.* The Administrator shall only issue permits to those sources whose emissions will be consistent with making reasonable progress toward the national goal of preventing any future, and remedying any existing, impairment of visibility in visibility protection areas which impairment results from man-made air pollution. In making the decision to issue a permit, the Administrator may take into account the costs of compliance, the time necessary for compliance, the energy and nonair quality environmental impacts of compliance, and the useful life of the source.

(h) *Monitoring.* The Administrator may require monitoring of visibility in any visibility protection area near the proposed new stationary source or major modification for such purposes

and by such means as the Administrator deems necessary and appropriate.

(i) *Delegation of authority.* (1) The Administrator shall have the authority to delegate the responsibility for conducting source review pursuant to this section to any agency in accordance with paragraphs (i)(2) and (3) of this section.

(2) Where the Administrator delegates the responsibility for conducting source review under this section to any agency other than a Regional Office of the Environmental Protection Agency, the following provisions shall apply:

(i) Where the delegate agency is not an air pollution control agency it shall consult with the appropriate State and local air pollution control agency prior to making any determination under this section. Similarly, where the delegate agency does not have continuing responsibility for managing land use, it shall consult with the appropriate State and local agency primarily responsible for managing land use prior to making any determination under this section.

(ii) The delegate agency shall submit a copy of any public comment notice required under paragraph (f) of this section to the Administrator through the appropriate Regional Office.

(3) The Administrator's authority for reviewing a source or modification located on an Indian Reservation shall not be redelegated other than to a Regional Office of the Environmental Protection Agency, except where the State has assumed jurisdiction over such land under other laws. Where the State has assumed such jurisdiction, the Administrator may delegate his authority to the States in accordance with paragraph (i)(2) of this section.

[50 FR 28551, July 12, 1985]

§ 52.29 [Reserved]

§ 52.30 Criteria for limiting application of sanctions under section 110(m) of the Clean Air Act on a statewide basis.

(a) *Definitions.* For the purpose of this section:

(1) The term ''political subdivision'' refers to the representative body that is responsible for adopting and/or implementing air pollution controls for one, or any combination of one or more of the following: city, town, borough, county, parish, district, or any other geographical subdivision created by, or pursuant to, Federal or State law. This will include any agency designated under section 174, 42 U.S.C. 7504, by the State to carry out the air planning responsibilities under part D.

(2) The term ''required activity'' means the submission of a plan or plan item, or the implementation of a plan or plan item.

(3) The term ''deficiency'' means the failure to perform a required activity as defined in paragraph (a)(2) of this section.

(4) For purposes of § 52.30, the terms ''plan'' or ''plan item'' mean an implementation plan or portion of an implementation plan or action needed to prepare such plan required by the Clean Air Act, as amended in 1990, or in response to a SIP call issued pursuant to section 110(k)(5) of the Act.

(b) *Sanctions.* During the 24 months after a finding, determination, or disapproval under section 179(a) of the Clean Air Act is made, EPA will not impose sanctions under section 110(m) of the Act on a statewide basis if the Administrator finds that one or more political subdivisions of the State are principally responsible for the deficiency on which the finding, disapproval, or determination as provided under section 179(a)(1) through (4) is based.

(c) *Criteria.* For the purposes of this provision, EPA will consider a political subdivision to be principally responsible for the deficiency on which a section 179(a) finding is based, if all five of the following criteria are met.

(1) The State has provided adequate legal authority to a political subdivision to perform the required activity.

(2) The required activity is one which has traditionally been performed by the local political subdivision, or the responsibility for performing the required activity has been delegated to the political subdivision.

(3) The State has provided adequate funding or authority to obtain funding (when funding is necessary to carry out the required activity) to the political

subdivision to perform the required activity.

(4) The political subdivision has agreed to perform (and has not revoked that agreement), or is required by State law to accept responsibility for performing, the required activity.

(5) The political subdivision has failed to perform the required activity.

(d) *Imposition of sanctions.* (1) If all of the criteria in paragraph (c) of this section have been met through the action or inaction of one political subdivision, EPA will not impose sanctions on a statewide basis.

(2) If not all of the criteria in paragraph (c) of this section have been met through the action or inaction of one political subdivision, EPA will determine the area for which it is reasonable and appropriate to apply sanctions.

[59 FR 1484, Jan. 11, 1994]

§ 52.31 Selection of sequence of mandatory sanctions for findings made pursuant to section 179 of the Clean Air Act.

(a) *Purpose.* The purpose of this section is to implement 42 U.S.C. 7509(a) of the Act, with respect to the sequence in which sanctions will automatically apply under 42 U.S.C. 7509(b), following a finding made by the Administrator pursuant to 42 U.S.C. 7509(a).

(b) *Definitions.* All terms used in this section, but not specifically defined herein, shall have the meaning given them in § 52.01.

(1) *1990 Amendments* means the 1990 Amendments to the Clean Air Act (Pub. L. No. 101–549, 104 Stat. 2399).

(2) *Act* means Clean Air Act, as amended in 1990 (42 U.S.C. 7401 *et seq.* (1991)).

(3) *Affected area* means the geographic area subject to or covered by the Act requirement that is the subject of the finding and either, for purposes of the offset sanction under paragraph (e)(1) of this section and the highway sanction under paragraph (e)(2) of this section, is or is within an area designated nonattainment under 42 U.S.C. 7407(d) or, for purposes of the offset sanction under paragraph (e)(1) of this section, is or is within an area otherwise subject to the emission offset requirements of 42 U.S.C. 7503.

(4) *Criteria pollutant* means a pollutant for which the Administrator has promulgated a national ambient air quality standard pursuant to 42 U.S.C. 7409 (i.e., ozone, lead, sulfur dioxide, particulate matter, carbon monoxide, nitrogen dioxide).

(5) *Findings* or *Finding* refer(s) to one or more of the findings, disapprovals, and determinations described in subsection 52.31 (c).

(6) *NAAQS* means national ambient air quality standard the Administrator has promulgated pursuant to 42 U.S.C. 7409.

(7) *Ozone precursors* mean nitrogen oxides (NO_X) and volatile organic compounds (VOC).

(8) *Part D* means part D of title I of the Act.

(9) *Part D SIP or SIP revision* or *plan* means a State implementation plan or plan revision that States are required to submit or revise pursuant to part D.

(10) *Precursor* means pollutant which is transformed in the atmosphere (later in time and space from point of emission) to form (or contribute to the formation of) a criteria pollutant.

(c) *Applicability.* This section shall apply to any State in which an affected area is located and for which the Administrator has made one of the following findings, with respect to any part D SIP or SIP revision required under the Act:

(1) A finding that a State has failed, for an area designated nonattainment under 42 U.S.C. 7407(d), to submit a plan, or to submit one or more of the elements (as determined by the Administrator) required by the provisions of the Act applicable to such an area, or has failed to make a submission for such an area that satisfies the minimum criteria established in relation to any such element under 42 U.S.C. 7410(k);

(2) A disapproval of a submission under 42 U.S.C. 7410(k), for an area designated nonattainment under 42 U.S.C. 7407(d), based on the submission's failure to meet one or more of the elements required by the provisions of the Act applicable to such an area;

(3)(i) A determination that a State has failed to make any submission required under the Act, other than one described under paragraph (c)(1) or

(c)(2) of this section, including an adequate maintenance plan, or has failed to make any submission, required under the Act, other than one described under paragraph (c)(1) or (c)(2) of this section, that satisfies the minimum criteria established in relation to such submission under 42 U.S.C. 7410(k)(1)(A); or

(ii) A disapproval in whole or in part of a submission described under paragraph (c)(3)(i) of this section; or

(4) A finding that any requirement of an approved plan (or approved part of a plan) is not being implemented.

(d) *Sanction application sequencing.* (1) To implement 42 U.S.C. 7509(a), the offset sanction under paragraph (e)(1) of this section shall apply in an affected area 18 months from the date when the Administrator makes a finding under paragraph (c) of this section unless the Administrator affirmatively determines that the deficiency forming the basis of the finding has been corrected. To further implement 42 U.S.C. 7509(a), the highway sanction under paragraph (e)(2) of this section shall apply in an affected area 6 months from the date the offset sanction under paragraph (e)(1) of this section applies, unless the Administrator affirmatively determines that the deficiency forming the basis of the finding has been corrected. For the findings under paragraphs (c)(2), (c)(3)(ii), and (c)(4) of this section, the date of the finding shall be the effective date as defined in the final action triggering the sanctions clock.

(2)(i) Notwithstanding paragraph (d)(1) of this section, to further implement 42 U.S.C. 7509(a), following the findings under paragraphs (c)(2) and (c)(3)(ii) of this section, if the State has submitted a revised plan to correct the deficiency prompting the finding and the Administrator, prior to 18 months from the finding, has proposed to fully or conditionally approve the revised plan and has issued an interim final determination that the revised plan corrects the deficiency prompting the finding, application of the offset sanction under paragraph (e)(1) of this section shall be deferred unless and until the Administrator proposes to or takes final action to disapprove the plan in whole or in part. If the Administrator issues such a proposed or final disapproval of the plan, the offset sanction under paragraph (e)(1) of this section shall apply in the affected area on the later of the date the Administrator issues such a proposed or final disapproval, or 18 months following the finding that started the sanctions clock. The highway sanction under paragraph (e)(2) of this section shall apply in the affected area 6 months after the date the offset sanction under paragraph (e)(1) of this section applies, unless the Administrator determines that the deficiency forming the basis of the finding has been corrected.

(ii) Notwithstanding paragraph (d)(1) of this section, to further implement 42 U.S.C. 7509(a), following the findings under paragraphs (c)(2) and (c)(3)(ii) of this section, if the State has submitted a revised plan to correct the deficiency prompting the finding and after 18 but before 24 months from the finding the Administrator has proposed to fully or conditionally approve the revised plan and has issued an interim final determination that the revised plan corrects the deficiency prompting the finding, application of the offset sanction under paragraph (e)(1) of this section shall be stayed and application of the highway sanction under paragraph (e)(2) of this section shall be deferred unless and until the Administrator proposes to or takes final action to disapprove the plan in whole or in part. If the Administrator issues such a proposed or final disapproval of the plan, the offset sanction under paragraph (e)(1) of this section shall reapply in the affected area on the date the Administrator issues such a proposed or final disapproval. The highway sanction under paragraph (e)(2) of this section shall apply in the affected area on the later of 6 months from the date the offset sanction under paragraph (e)(1) of this section first applied in the affected area, unless the Administrator determines that the deficiency forming the basis of the finding has been corrected, or immediately if the proposed or final disapproval occurs more than 6 months after initial application of the offset sanction under paragraph (e)(1) of this section.

(iii) Notwithstanding paragraph (d)(1) of this section, to further implement 42 U.S.C. 7509(a), following the findings

under paragraphs (c)(2) and (c)(3)(ii) of this section, if the State has submitted a revised plan to correct the deficiency prompting the finding and more than 24 months after the finding the Administrator has proposed to fully or conditionally approve the revised plan and has issued an interim final determination that the revised plan corrects the deficiency prompting the finding, application of the offset sanction under paragraph (e)(1) of this section and application of the highway sanction under paragraph (e)(2) of this section shall be stayed unless and until the Administrator proposes to or takes final action to disapprove the plan in whole or in part. If the Administrator issues such a proposed or final disapproval, the offset sanction under paragraph (e)(1) of this section and the highway sanction under paragraph (e)(2) of this section shall reapply in the affected area on the date the Administrator issues such proposed or final disapproval.

(3)(i) Notwithstanding paragraph (d)(1) of this section, to further implement 42 U.S.C. 7509(a), following the findings under paragraphs (c)(2) and (c)(3)(ii) of this section, if the State has submitted a revised plan to correct the deficiency prompting the finding and the Administrator, prior to 18 months from the finding, has conditionally-approved the revised plan and has issued an interim final determination that the revised plan corrects the deficiency prompting the finding, application of the offset sanction under paragraph (e)(1) of this section shall be deferred unless and until the conditional approval converts to a disapproval or the Administrator proposes to or takes final action to disapprove in whole or in part the revised SIP the State submits to fulfill the commitment in the conditionally-approved plan. If the conditional approval so becomes a disapproval or the Administrator issues such a proposed or final disapproval, the offset sanction under paragraph (e)(1) of this section shall apply in the affected area on the later of the date the approval becomes a disapproval or the Administrator issues such a proposed or final disapproval, whichever is applicable, or 18 months following the finding that started the sanctions clock. The highway sanction under paragraph (e)(2) of this section shall apply in the affected area 6 months after the date the offset sanction under paragraph (e)(1) of this section applies, unless the Administrator determines that the deficiency forming the basis of the finding has been corrected.

(ii) Notwithstanding paragraph (d)(1) of this section, to further implement 42 U.S.C. 7509(a), following the findings under paragraphs (c)(2) and (c)(3)(ii) of this section, if the State has submitted a revised plan to correct the deficiency prompting the finding and after 18 but before 24 months from the finding the Administrator has conditionally approved the revised plan and has issued an interim final determination that the revised plan corrects the deficiency prompting the finding, application of the offset sanction under paragraph (e)(1) of this section shall be stayed and application of the highway sanction under paragraph (e)(2) of this section shall be deferred unless and until the conditional approval converts to a disapproval or the Administrator proposes to or takes final action to disapprove in whole or in part the revised SIP the State submits to fulfill the commitment in the conditionally-approved plan. If the conditional approval so becomes a disapproval or the Administrator issues such a proposed or final disapproval, the offset sanction under paragraph (e)(1) of this section shall reapply in the affected area on the date the approval becomes a disapproval or the Administrator issues such a proposed or final disapproval, whichever is applicable. The highway sanction under paragraph (e)(2) of this section shall apply in the affected area on the later of 6 months from the date the offset sanction under paragraph (e)(1) of this section first applied in the affected area, unless the Administrator determines that the deficiency forming the basis of the finding has been corrected, or immediately if the conditional approval becomes a disapproval or the Administrator issues such a proposed or final disapproval, whichever is applicable, more than 6 months after initial application of the offset sanction under paragraph (e)(1) of this section.

(iii) Notwithstanding paragraph (d)(1) of this section, to further implement 42

U.S.C. 7509(a), following the findings under paragraphs (c)(2) and (c)(3)(ii) of this section, if the State has submitted a revised plan to correct the deficiency prompting the finding and after 24 months from the finding the Administrator has conditionally approved the revised plan and has issued an interim final determination that the revised plan corrects the deficiency prompting the finding, application of the offset sanction under paragraph (e)(1) of this section and application of the highway sanction under paragraph (e)(2) of this section shall be stayed unless and until the conditional approval converts to a disapproval or the Administrator proposes to or takes final action to disapprove in whole or in part the revised SIP the State submits to fulfill its commitment in the conditionally-approved plan. If the conditional approval so becomes a disapproval or the Administrator issues such a proposed or final disapproval, the offset sanction under paragraph (e)(1) of this section and the highway sanction under paragraph (e)(2) of this section shall reapply in the affected area on the date the conditional approval becomes a disapproval or the Administrator issues such a proposed or final disapproval, whichever is applicable.

(4)(i) Notwithstanding paragraph (d)(1) of this section, to further implement 42 U.S.C. 7509(a), following findings under paragraph (c)(4) of this section, if the Administrator, prior to 18 months from the finding, has proposed to find that the State is implementing the approved plan and has issued an interim final determination that the deficiency prompting the finding has been corrected, application of the offset sanction under paragraph (e)(1) of this section shall be deferred unless and until the Administrator preliminarily or finally determines, through a proposed or final finding, that the State is not implementing the approved plan and that, therefore, the State has not corrected the deficiency. If the Administrator so preliminarily or finally determines that the State has not corrected the deficiency, the offset sanction under paragraph (e)(1) of this section shall apply in the affected area on the later of the date the Administrator proposes to take action or takes final action to find that the finding of nonimplementation has not been corrected, or 18 months following the finding that started the sanctions clock. The highway sanction under paragraph (e)(2) of this section shall apply in the affected area 6 months after the date the offset sanction under paragraph (e)(1) of this section first applies, unless the Administrator preliminarily or finally determines that the deficiency forming the basis of the finding has been corrected.

(ii) Notwithstanding paragraph (d)(1) of this section, to further implement 42 U.S.C. 7509(a), following findings under paragraph (c)(4) of this section, if after 18 months but before 24 months from the finding the Administrator has proposed to find that the State is implementing the approved plan and has issued an interim final determination that the deficiency prompting the finding has been corrected, application of the offset sanction under paragraph (e)(1) of this section shall be stayed and application of the highway sanction under paragraph (e)(2) of this section shall be deferred unless and until the Administrator preliminarily or finally determines, through a proposed or final finding, that the State is not implementing the approved plan and that, therefore, the State has not corrected the deficiency. If the Administrator so preliminarily or finally determines that the State has not corrected the deficiency, the offset sanction under paragraph (e)(1) of this section shall reapply in the affected area on the date the Administrator proposes to take action or takes final action to find that the finding of nonimplementation has not been corrected. The highway sanction under paragraph (e)(2) of this section shall apply in the affected area on the later of 6 months from the date the offset sanction under paragraph (e)(1) of this section first applied in the affected area, unless the Administrator preliminarily or finally determines that the deficiency forming the basis of the finding has been corrected, or immediately if EPA's proposed or final action finding the deficiency has not been corrected occurs more than 6 months after initial application of the offset sanction under paragraph (e)(1) of this section.

(iii) Notwithstanding paragraph (d)(1) of this section, to further implement 42 U.S.C. 7509(a), following findings under paragraph (c)(4) of this section, if after 24 months from the finding the Administrator has proposed to find that the State is implementing the approved plan and has issued an interim final determination that the deficiency prompting the finding has been corrected, application of the offset sanction under paragraph (e)(1) of this section and the highway sanction under paragraph (e)(2) of this section shall be stayed unless and until the Administrator preliminarily or finally determines, through a proposed or final finding, that the State is not implementing the approved plan, and that, therefore, the State has not corrected the deficiency. If the Administrator so preliminarily or finally determines that the State has not corrected the deficiency, the offset sanction under paragraph (e)(1) of this section and the highway sanction under paragraph (e)(2) of this section shall reapply in the affected area on the date the Administrator proposes to take action or takes final action to find that the finding of nonimplementation has not been corrected.

(5) Any sanction clock started by a finding under paragraph (c) of this section will be permanently stopped and sanctions applied, stayed or deferred will be permanently lifted upon a final EPA finding that the deficiency forming the basis of the finding has been corrected. For a sanctions clock and applied sanctions based on a finding under paragraphs (c)(1) and (c)(3)(i) of this section, a finding that the deficiency has been corrected will occur by letter from the Administrator to the State governor. For a sanctions clock or applied, stayed or deferred sanctions based on a finding under paragraphs (c)(2) and (c)(3)(ii) of this section, a finding that the deficiency has been corrected will occur through a final notice in the FEDERAL REGISTER fully approving the revised SIP. For a sanctions clock or applied, stayed or deferred sanctions based on a finding under paragraph (c)(4) of this section, a finding that the deficiency has been corrected will occur through a final notice in the FEDERAL REGISTER finding that the State is implementing the approved SIP.

(6) Notwithstanding paragraph (d)(1) of this section, nothing in this section will prohibit the Administrator from determining through notice-and-comment rulemaking that in specific circumstances the highway sanction, rather than the offset sanction, shall apply 18 months after the Administrator makes one of the findings under paragraph (c) of this section, and that the offset sanction, rather than the highway sanction, shall apply 6 months from the date the highway sanction applies.

(e) *Available sanctions and method for implementation*—(1) *Offset sanction.* (i) As further set forth in paragraphs (e)(1)(ii)–(e)(1)(vi) of this section, the State shall apply the emissions offset requirement in the timeframe prescribed under paragraph (d) of this section on those affected areas subject under paragraph (d) of this section to the offset sanction. The State shall apply the emission offset requirements in accordance with 42 U.S.C. 7503 and 7509(b)(2), at a ratio of at least two units of emission reductions for each unit of increased emissions of the pollutant(s) and its (their) precursors for which the finding(s) under paragraph (c) of this section is (are) made. If the deficiency prompting the finding under paragraph (c) of this section is not specific to one or more particular pollutants and their precursors, the 2-to-1 ratio shall apply to all pollutants (and their precursors) for which an affected area within the State listed in paragraph (e)(1)(i) of this section is required to meet the offset requirements of 42 U.S.C. 7503.

(ii) Notwithstanding paragraph (e)(1)(i) of this section, when a finding is made with respect to a requirement for the criteria pollutant ozone or when the finding is not pollutant-specific, the State shall not apply the emissions offset requirements at a ratio of at least 2-to-1 for emission reductions to increased emissions for nitrogen oxides where, under 42 U.S.C. 7511a(f), the Administrator has approved an NO_X exemption for the affected area from the Act's new source review requirements under 42 U.S.C. 7501–7515 for NO_X or where the affected

area is not otherwise subject to the Act's new source review requirements for emission offsets under 42 U.S.C. 7501–7515 for NO_X.

(iii) Notwithstanding paragraph (e)(1)(i) of this section, when a finding under paragraph (c) of this section is made with respect to PM–10, or the finding is not pollutant-specific, the State shall not apply the emissions offset requirements, at a ratio of at least 2-to-1 for emission reductions to increased emissions to PM–10 precursors if the Administrator has determined under 42 U.S.C. 7513a(e) that major stationary sources of PM–10 precursors do not contribute significantly to PM–10 levels which exceed the NAAQS in the affected area.

(iv) For purposes of applying the emissions offset requirement set forth in 42 U.S.C. 7503, at the 2-to-1 ratio required under this section, the State shall comply with the provisions of a State-adopted new source review (NSR) program that EPA has approved under 42 U.S.C. 7410(k)(3) as meeting the nonattainment area NSR requirements of 42 U.S.C. 7501–7515, as amended by the 1990 Amendments, or, if no plan has been so approved, the State shall comply directly with the nonattainment area NSR requirements specified in 42 U.S.C. 7501–7515, as amended by the 1990 Amendments, or cease issuing permits to construct and operate major new or modified sources as defined in those requirements. For purposes of applying the offset requirement under 42 U.S.C. 7503 where EPA has not fully approved a State's NSR program as meeting the requirements of part D, the specifications of those provisions shall supersede any State requirement that is less stringent or inconsistent.

(v) For purposes of applying the emissions offset requirement set forth in 42 U.S.C. 7503, any permit required pursuant to 42 U.S.C. 7503 and issued on or after the date the offset sanction applies under paragraph (d) of this section shall be subject to the enhanced 2-to-1 ratio under paragraph (e)(1)(i) of this section.

(2) *Highway funding sanction.* The highway sanction shall apply, as provided in 42 U.S.C. 7509(b)(1), in the timeframe prescribed under paragraph (d) of this section on those affected areas subject under paragraph (d) of this section to the highway sanction, but shall apply only to those portions of affected areas that are designated nonattainment under 40 CFR part 81.

[59 FR 39859, Aug. 4, 1994]

§ 52.32 Sanctions following findings of SIP inadequacy.

For purposes of the SIP revisions required by § 51.120, EPA may make a finding under section 179(a) (1)–(4) of the Clean Air Act, 42 U.S.C. 7509(a) (1)–(4), starting the sanctions process set forth in section 179(a) of the Clean Air Act. Any such finding will be deemed a finding under § 52.31(c) and sanctions will be imposed in accordance with the order of sanctions and the terms for such sanctions established in § 52.31.

[60 FR 4737, Jan. 24, 1995]

§ 52.33 Compliance certifications.

(a) For the purpose of submitting compliance certifications, nothing in this part or in a plan promulgated by the Administrator shall preclude the use, including the exclusive use, of any credible evidence or information, relevant to whether a source would have been in compliance with applicable requirements if the appropriate performance or compliance test had been performed.

(b) For all federal implementation plans, paragraph (a) of this section is incorporated into the plan.

[62 FR 8328, Feb. 24, 1997]

§ 52.34 Action on petitions submitted under section 126 relating to emissions of nitrogen oxides.

(a) *Definitions.* For purposes of this section, the following definitions apply:

(1) *Administrator* means the Administrator of the United States Environmental Protection Agency or the Administrator's duly authorized representative.

(2) *Large Electric Generating Units (large EGUs)* means:

(i) For units that commenced operation before January 1, 1997, a unit serving during 1995 or 1996 a generator that had a nameplate capacity greater than 25 MWe and produced electricity

for sale under a firm contract to the electric grid.

(ii) For units that commenced operation on or after January 1, 1997 and before January 1, 1999, a unit serving at any time during 1997 or 1998 a generator that had a nameplate capacity greater than 25 MWe and produced electricity for sale under a firm contract to the electric grid.

(iii) For units that commence operation on or after January 1, 1999, a unit serving at any time a generator that has a nameplate capacity greater than 25 MWe and produces electricity for sale.

(3) *Large Non-Electric Generating Units (large non-EGUs)* means:

(i) For units that commenced operation before January 1, 1997, a unit that has a maximum design heat input greater than 250 mmBtu/hr and that did not serve during 1995 or 1996 a generator producing electricity for sale under a firm contract to the electric grid.

(ii) For units that commenced operation on or after January 1, 1997 and before January 1, 1999, a unit that has a maximum design heat input greater than 250 mmBtu/hr and that did not serve at any time during 1997 or 1998 a generator producing electricity for sale under a firm contract to the electric grid.

(iii) For units that commence operation on or after January 1, 1999, a unit with a maximum design heat input greater than 250 mmBtu/hr that:

(A) At no time serves a generator producing electricity for sale; or

(B) At any time serves a generator producing electricity for sale, if any such generator has a nameplate capacity of 25 MWe or less and has the potential to use 50 percent or less of the potential electrical output capacity of the unit.

(4) *New sources* means new and modified sources.

(5) *NO_X* means oxides of nitrogen.

(6) *OTAG* means the Ozone Transport Assessment Group (active 1995–1997), a national work group that addressed the problem of ground-level ozone and the long-range transport of air pollution across the Eastern United States. The OTAG was a partnership between EPA, the Environmental Council of the States, and various industry and environmental groups.

(7) *Ozone season* means the period of time beginning May 1 of a year and ending on September 30 of the same year, inclusive.

(8) *Potential electrical output capacity* means, with regard to a unit, 33 percent of the maximum design heat input of the unit.

(9) *Unit* means a fossil-fuel fired stationary boiler, combustion turbine, or combined cycle system.

(b) *Purpose and applicability*. Paragraphs (c), (e)(1) and (e)(2), (g), and (h)(1) and (h)(2) of this section set forth the Administrator's findings with respect to the 1-hour national ambient air quality standard (NAAQS) for ozone that certain new and existing sources of emissions of nitrogen oxides (''NO_X'') in certain States emit or would emit NO_X in violation of the prohibition in section 110(a)(2)(D)(i) of the Clean Air Act (CAA) on emissions in amounts that contribute significantly to nonattainment in certain States that submitted petitions in 1997–1998 addressing such NO_X emissions under section 126 of the CAA. Paragraphs (d), (e)(3) and (e)(4), (f), and (h)(3) and (h)(4) of this section set forth the Administrator's affirmative technical determinations with respect to the 8-hour NAAQS for ozone that certain new and existing sources of emissions of NO_X in certain States emit or would emit NO_X in violation of the prohibition in section 110(a)(2)(D)(i) of the CAA on emissions in amounts that contribute significantly to nonattainment in, or interfere with maintenance by, certain States that submitted petitions in 1997–1998 addressing such NO_X emissions under section 126 of the CAA. (As used in this section, the term new source includes modified sources, as well.) Paragraph (i) of this section explains the circumstances under which the findings for sources in a specific State would be withdrawn. Paragraph (j) of this section sets forth the control requirements that apply to the sources of NO_X emissions affected by the findings. Paragraph (k) of this section indefinitely stays the effectiveness of the affirmative technical determinations with respect to the 8-hour ozone standard.

(1) The States that submitted such petitions are Connecticut, Maine, Massachusetts, New Hampshire, New York, Pennsylvania, Rhode Island, and Vermont (each of which, hereinafter in this section, may be referred to also as a ''petitioning State'').

(2) The new and existing sources of NO_X emissions covered by the petitions that emit or would emit NO_X emissions in amounts that make such significant contributions are large electric generating units (EGUs) and large non-EGUs.

(c) *Section 126(b) findings relating to impacts on ozone levels in Connecticut*—(1) *Section 126(b) findings with respect to the 1-hour ozone standard in Connecticut.* The Administrator finds that any existing or new major source or group of stationary sources emits or would emit NO_X in violation of the Clean Air Act section 110(a)(2)(d)(i) prohibition with respect to the 1-hour ozone standard in the State of Connecticut if it is or will be:

(i) In a category of large EGUs or large non-EGUs;

(ii) Located in one of the States (or portions thereof) listed in paragraph (c)(2) of this section; and

(iii) Within one of the ''Named Source Categories'' listed in the portion of Table F–1 in appendix F of this part describing the sources of NO_X emissions covered by the petition of the State of Connecticut.

(2) *States or portions of States that contain sources for which the Administrator is making section 126(b) findings with respect to the 1-hour ozone standard in Connecticut.* The States, or portions of States, that contain sources of NO_X emissions for which the Administrator is making section 126(b) findings under paragraph (c)(1) of this section are:

(i) Delaware.

(ii) District of Columbia.

(iii) Portion of Indiana located in OTAG Subregions 2 and 6, as shown in appendix F, Figure F–2, of this part.

(iv) Portion of Kentucky located in OTAG Subregion 6, as shown in appendix F, Figure F–2, of this part.

(v) Maryland.

(vi) Portion of Michigan located south of 44 degrees latitude in OTAG Subregion 2, as shown in appendix F, Figure F–2, of this part.

(vii) Portion of North Carolina located in OTAG Subregion 7, as shown in appendix F, Figure F–2, of this part.

(viii) New Jersey.

(ix) Portion of New York extending west and south of Connecticut, as shown in appendix F, Figure F–2, of this part.

(x) Ohio.

(xi) Pennsylvania.

(xii) Virginia.

(xiii) West Virginia.

(d) *Affirmative technical determinations relating to impacts on ozone levels in Maine*—(1) *Affirmative technical determinations with respect to the 8-hour ozone standard in Maine.* The Administrator of EPA finds that any existing or new major source or group of stationary sources emits or would emit NO_X in amounts that contribute significantly to nonattainment in the State of Maine, with respect to the 8-hour NAAQS for ozone if it is or will be:

(i) In a category of large EGUs or large non-EGUs;

(ii) Located in one of the States (or portions thereof) listed in paragraph (d)(2) of this section; and

(iii) Within one of the ''Named Source Categories'' listed in the portion of Table F–1 of appendix F of this part describing the sources of NO_X emissions covered by the petition of the State of Maine.

(2) *States or portions of States that contain sources for which EPA is making an affirmative technical determination with respect to the 8-hour ozone standard in Maine.* The States that contain sources for which EPA is making an affirmative technical determination are:

(i) Connecticut.

(ii) Delaware.

(iii) District of Columbia.

(iv) Maryland.

(v) Massachusetts.

(vi) New Jersey.

(vii) New York.

(viii) Pennsylvania.

(ix) Rhode Island.

(x) Virginia.

(e) *Section 126(b) findings and affirmative technical determinations relating to impacts on ozone levels in Massachusetts*—(1) *Section 126(b) findings with respect to the 1-hour ozone standard in Massachusetts.* The Administrator finds

that any existing major source or group of stationary sources emits NO_X in violation of the Clean Air Act section 110(a)(2)(d)(i) prohibition with respect to the 1-hour ozone standard in the State of Massachusetts if it is:

(i) In a category of large EGUs or large non-EGUs;

(ii) Located in one of the States (or portions thereof) listed in paragraph (e)(2) of this section; and

(iii) Within one of the ''Named Source Categories'' listed in the portion of Table F–1 in appendix F of this part describing the sources of NO_X emissions covered by the petition of the State of Massachusetts.

(2) *States that contain sources for which the Administrator is making section 126(b) findings with respect to the 1-hour ozone standard in Massachusetts.* The portions of States that contain sources of NO_X emissions for which the Administrator is making section 126(b) findings under paragraph (e)(1) of this section are:

(i) All counties in West Virginia located within a 3-county-wide band of the Ohio River, as shown in appendix F, Figure F–4, of this part.

(ii) [Reserved]

(3) *Affirmative technical determinations with respect to the 8-hour ozone standard in Massachusetts.* The Administrator of EPA finds that any existing major source or group of stationary sources emits NO_X in amounts that contribute significantly to nonattainment in, or interfere with maintenance by, the State of Massachusetts, with respect to the 8-hour NAAQS for ozone if it is:

(i) In a category of large EGUs or large non-EGUs;

(ii) Located in one of the States (or portions thereof) listed in paragraph (e)(4) of this section; and

(iii) Within one of the ''Named Source Categories'' listed in the portion of Table F–1 in appendix F of this part describing the sources of NO_X emissions covered by the petition of the State of Massachusetts.

(4) *States or portions of States that contain sources for which EPA is making an affirmative technical determination with respect to the 8-hour ozone standard in Massachusetts.* The portions of States that contain sources for which EPA is making an affirmative technical determination are:

(i) All counties in Ohio located within a 3-county-wide band of the Ohio River, as shown in appendix F, Figure F–4, of this part.

(ii) All counties in West Virginia located within a 3-county-wide band of the Ohio River, as shown in appendix F, Figure F–4, of this part.

(f) *Affirmative technical determinations relating to impacts on ozone levels in New Hampshire*—(1) *Affirmative technical determinations with respect to the 8-hour ozone standard in New Hampshire.* The Administrator of EPA finds that any existing or new major source or group of stationary sources emits or would emit NO_X in amounts that contribute significantly to nonattainment in, or interfere with maintenance by, the State of New Hampshire, with respect to the 8-hour NAAQS for ozone if it is or will be:

(i) In a category of large EGUs or large non-EGUs;

(ii) Located in one of the States (or portions thereof) listed in paragraph (f)(2) of this section; and

(iii) Within one of the ''Named Source Categories'' listed in the portion of Table F–1 of appendix F of this part describing the sources of NO_X emissions covered by the petition of the State of New Hampshire.

(2) *States or portions of States that contain sources for which EPA is making an affirmative technical determination with respect to the 8-hour ozone standard in New Hampshire.* The States that contain sources for which EPA is making an affirmative technical determination are:

(i) Connecticut.
(ii) Delaware.
(iii) District of Columbia.
(iv) Maryland.
(v) Massachusetts.
(vi) New Jersey.
(vii) New York.
(viii) Pennsylvania.
(ix) Rhode Island.

(g) *Section 126(b) findings relating to impacts on ozone levels in the State of New York*—(1) *Section 126(b) findings with respect to the 1-hour ozone standard in the State of New York.* The Administrator finds that any existing or new major source or group of stationary

sources emits or would emit NO_X in violation of the Clean Air Act section 110(a)(2)(d)(i) prohibition with respect to the 1-hour ozone standard in the State of New York if it is or will be:

(i) In a category of large EGUs or large non-EGUs;

(ii) Located in one of the States (or portions thereof) listed in paragraph (g)(2) of this section; and

(iii) Within one of the ''Named Source Categories'' listed in the portion of Table F–1 in appendix F of this part describing the sources of NO_X emissions covered by the petition of the State of New York.

(2) *States or portions of States that contain sources for which the Administrator is making section 126(b) findings with respect to the 1-hour ozone standard in New York.* The States, or portions of States, that contain sources of NO_X emissions for which the Administrator is making section 126(b) findings under paragraph (g)(1) of this section are:

(i) Delaware.

(ii) District of Columbia.

(iii) Portion of Indiana located in OTAG Subregions 2 and 6, as shown in appendix F, Figure F–6, of this part.

(iv) Portion of Kentucky located in OTAG Subregion 6, as shown in appendix F, Figure F–6, of this part.

(v) Maryland.

(vi) Portion of Michigan located south of 44 degrees latitude in OTAG Subregion 2, as shown in appendix F, Figure F–6, of this part.

(vii) Portion of North Carolina located in OTAG Subregions 6 and 7, as shown in appendix F, Figure F–6, of this part.

(viii) New Jersey.

(ix) Ohio.

(x) Pennsylvania.

(xi) Virginia.

(xii) West Virginia.

(h) *Section 126(b) findings and affirmative technical determinations relating to impacts on ozone levels in the State of Pennsylvania*—(1) *Section 126(b) findings with respect to the 1-hour ozone standard in the State of Pennsylvania.* The Administrator finds that any existing or new major source or group of stationary sources emits or would emit NO_X in violation of the Clean Air Act section 110(a)(2)(d)(i) prohibition with respect to the 1-hour ozone standard in the State of Pennsylvania if it is or will be:

(i) In a category of large EGUs or large non-EGUs;

(ii) Located in one of the States (or portions thereof) listed in paragraph (h)(2) of this section; and (iii) Within one of the ''Named Source Categories'' listed in the portion of Table F–1 in appendix F of this part describing the sources of NO_X emissions covered by the petition of the State of Pennsylvania.

(2) *States that contain sources for which the Administrator is making section 126(b) findings with respect to the 1-hour ozone standard in Pennsylvania.* The States that contain sources of NO_X emissions for which the Administrator is making section 126(b) findings under paragraph (h)(1) of this section are:

(i) North Carolina.

(ii) Ohio.

(iii) Virginia.

(iv) West Virginia.

(3) *Affirmative technical determinations with respect to the 8-hour ozone standard in Pennsylvania.* The Administrator of EPA finds that any existing or new major source or group of stationary sources emits or would emit NO_X in amounts that contribute significantly to nonattainment in, or interfere with maintenance by, the State of Pennsylvania, with respect to the 8-hour NAAQS for ozone:

(i) In a category of large EGUs or large non-EGUs;

(ii) Located in one of the States (or portions thereof) listed in paragraph (h)(4) of this section; and

(iii) Within one of the ''Named Source Categories'' listed in the portion of Table F–1 in appendix F of this part describing the sources of NO_X emissions covered by the petition of the State of Pennsylvania.

(4) *States or portions of States that contain sources for which EPA is making an affirmative technical determination with respect to the 8-hour ozone standard in Pennsylvania.* The States that contain sources for which EPA is making an affirmative technical determination are:

(i) Alabama.

(ii) Illinois.

(iii) Indiana.

(iv) Kentucky.

(v) Michigan.

(vi) Missouri.
(vii) North Carolina.
(viii) Ohio.
(ix) Tennessee.
(x) Virginia.
(xi) West Virginia.

(i) *Withdrawal of section 126 findings.* Notwithstanding any other provision of this subpart, a finding under paragraphs (c), (e)(1) and (e)(2), (g), and (h)(1) and (h)(2) of this section as to a particular major source or group of stationary sources in a particular State will be deemed to be withdrawn, and the corresponding part of the relevant petition(s) denied, if the Administrator issues a final action putting in place implementation plan provisions that comply with the requirements of §§ 51.121 and 51.122 of this chapter for such State.

(j) *Section 126 control remedy.* The Federal NO_X Budget Trading Program in part 97 of this chapter applies to the owner or operator of any new or existing large EGU or large non-EGU as to which the Administrator makes a finding under section 126(b) of the Clean Air Act pursuant to the provisions of paragraphs (c), (e)(1) and (e)(2), (g), and (h)(1) and (h)(2) of this section.

(k) *Stay of findings with respect to the 8-hour ozone standard.* Notwithstanding any other provisions of this subpart, the effectiveness of paragraphs (d), (e)(3) and (e)(4), (f), (h)(3) and (h)(4) of this section is stayed.

(l) *Temporary stay of rules.* Notwithstanding any other provisions of this subpart, the effectiveness of this section is stayed from July 26, 1999 until February 17, 2000.

[64 FR 28318, May 25, 1999, as amended at 64 FR 33961, June 24, 1999; 65 FR 2042, Jan. 13, 2000; 65 FR 2726, Jan. 18, 2000; 69 FR 31505, June 3, 2004]

§ 52.35 What are the requirements of the Federal Implementation Plans (FIPs) for the Clean Air Interstate Rule (CAIR) relating to emissions of nitrogen oxides?

(a)(1) The Federal CAIR NO_X Annual Trading Program provisions of part 97 of this chapter constitute the Clean Air Interstate Rule Federal Implementation Plan provisions that relate to annual emissions of nitrogen oxides (NO_X). Each State that is described in § 51.123(c)(1) and (2) of this chapter received a finding by the Administrator that the State failed to submit a State Implementation Plan (SIP) to satisfy the requirements of section 110(a)(2)(D)(i)(I) of the Clean Air Act for the $PM_{2.5}$ NAAQS. The provisions of subparts AA through II of part 97 of this chapter, regarding the CAIR NO_X Annual Trading Program, apply to the sources in each of these States that has not promulgated a SIP approved by the Administrator as correcting that deficiency. Following promulgation of an approval by the Administrator of a State's SIP as meeting the requirements of CAIR for $PM_{2.5}$ relating to NO_X under § 51.123 of this chapter, these provisions of part 97 of this chapter will no longer apply to the sources in that State, except to the extent the Administrator's approval of the SIP is partial or conditional or unless such approval is under § 51.123(p) of this chapter.

(2) Notwithstanding any provisions of paragraph (a)(1) of this section, if, at the time of such approval of the State's SIP, the Administrator has already allocated any CAIR NO_X allowances to sources in the State for any years, the provisions of part 97 of this chapter authorizing the Administrator to complete the allocation of CAIR NO_X allowances for those years shall continue to apply, unless the Administrator approves a SIP that provides for the allocation of the remaining CAIR NO_X allowances for those years.

(b)(1) The Federal CAIR NO_X Ozone Season Trading Program provisions of part 97 of this chapter constitute the Clean Air Interstate Rule Federal Implementation Plan provisions that relate to emissions of nitrogen oxides (NO_X) during the ozone season, as defined in § 97.302 of this chapter. Each State that is described in § 51.123(c)(1) and (3) of this chapter received a finding by the Administrator that the State failed to submit a State Implementation Plan (SIP) to satisfy the requirements of section 110(a)(2)(D)(i)(I) of the Clean Air Act for the 8-hour ozone NAAQS. The provisions of subparts AAAA through IIII of part 97 of this chapter, regarding the CAIR NO_X Ozone Season Trading Program, apply to sources in each of these States that

has not promulgated a SIP revision approved by the Administrator as correcting that deficiency. Following promulgation of an approval by the Administrator of a State's SIP as meeting the requirements of CAIR for ozone relating to NO_X under §51.123 of this chapter, these provisions of part 97 of this chapter will no longer apply to sources in that State, except to the extent the Administrator's approval of the SIP is partial or conditional or unless such approval is under §51.123(ee) of this chapter.

(2) Notwithstanding any provisions of paragraph (b)(1) of this section, if, at the time of such approval of the State's SIP, the Administrator has already allocated any CAIR NO_X Ozone Season allowances to sources in the State for any years, the provisions of part 97 of this chapter authorizing the Administrator to complete the allocation of CAIR NO_X Ozone Season allowances for those years shall continue to apply, unless the Administrator approves a SIP that provides for the allocation of the remaining CAIR NO_X Ozone Season allowances for those years.

(c) The provisions of this section do not invalidate or otherwise affect the obligations of States, emissions sources, or other responsible entities with respect to all portions of plans approved or promulgated under this part or the obligations of States under the requirements of §§51.123 and 51.125 of this chapter.

(d)(1) The States with SIPs approved by the Administrator as meeting the requirements of CAIR for $PM_{2.5}$ relating to NO_X under §51.123(o) of this chapter are: Indiana, and Ohio.

(2) The States with SIPs approved by the Administrator as meeting the requirements of CAIR for ozone relating to NO_X under §51.123(aa) of this chapter, are: Indiana, and Ohio.

(e) Notwithstanding paragraphs (a) and (b) of this section, such paragraphs are not applicable as they relate to sources in the State of Minnesota as of December 3, 2009, except as provided in §52.1240(b).

(f) Notwithstanding any provisions of paragraphs (a) through (d) of this section, subparts AA through II and AAAA through IIII of part 97 of this chapter, and any State's SIP to the contrary:

(1) With regard to any control period that begins after December 31, 2014,

(i) The provisions in paragraphs (a) through (d) of this section relating to NO_X annual or ozone season emissions shall not be applicable; and

(ii) The Administrator will not carry out any of the functions set forth for the Administrator in subparts AA through II and AAAA through IIII of part 97 of this chapter;

(2) The Administrator will not deduct for excess emissions any CAIR NO_X allowances or CAIR NO_X Ozone Season allowances allocated for 2015 or any year thereafter;

(3) By March 3, 2015, the Administrator will remove from the CAIR NO_X Allowance Tracking System accounts all CAIR NO_X allowances allocated for a control period in 2015 and any subsequent year, and, thereafter, no holding or surrender of CAIR NO_X allowances will be required with regard to emissions or excess emissions for such control periods; and

(4) By March 3, 2015, the Administrator will remove from the CAIR NO_X Ozone Season Allowance Tracking System accounts all CAIR NO_X Ozone Season allowances allocated for a control period in 2015 and any subsequent year, and, thereafter, no holding or surrender of CAIR NO_X allowances will be required with regard to emissions or excess emissions for such control periods.

[72 FR 62343, Nov. 2, 2007, as amended at 74 FR 48862, Sept. 25, 2009; 74 FR 56726, Nov. 3, 2009; 75 FR 72962, Nov. 29, 2010; 76 FR 48353, Aug. 8, 2011; 79 FR 71671, Dec. 3, 2014]

§52.36 What are the requirements of the Federal Implementation Plans (FIPs) for the Clean Air Interstate Rule (CAIR) relating to emissions of sulfur dioxide?

(a) The Federal CAIR SO2 Trading Program provisions of part 97 of this chapter constitute the Clean Air Interstate Rule Federal Implementation Plan provisions for emissions of sulfur dioxide (SO_2). Each State that is described in §51.124(c) of this chapter is subject to a finding by the Administrator that the State failed to submit a State Implementation Plan (SIP) to

satisfy the requirements of section 110(a)(2)(D)(i)(I) of the Clean Air Act for the $PM_{2.5}$ NAAQS. The provisions of subparts AAA through III of part 97 of this chapter, regarding the CAIR SO_2 Trading Program, apply to sources in each of these States that has not promulgated a SIP revision approved by the Administrator as correcting that deficiency. Following promulgation of an approval by the Administrator of a State's SIP as meeting the requirements of CAIR for $PM_{2.5}$ relating to SO_2 under § 51.124 of this chapter, these provisions of part 97 of this chapter will no longer apply to sources in that State, except to the extent the Administrator's approval of the SIP is partial or conditional or unless such approval is under § 51.124(r) of this chapter.

(b) The provisions of this section do not invalidate or otherwise affect the obligations of States, emissions sources, or other responsible entities with respect to all portions of plans approved or promulgated under this part or the obligations of States under the requirements of §§ 51.124 and 51.125 of this chapter.

(c) The States with SIPs approved by the Administrator as meeting the requirements of CAIR for $PM_{2.5}$ relating to SO_2 under § 51.124(o) of this chapter are: Indiana, and Ohio

(d) Notwithstanding paragraph (a) of this section, such paragraph is not applicable as it relates to sources in the State of Minnesota as of December 3, 2009.

(e) Notwithstanding any provisions of paragraphs (a) through (c) of this section, subparts AAA through III of part 97 of this chapter and any State's SIP to the contrary:

(1) With regard to any control period that begins after December 31, 2014,

(i) The provisions of paragraphs (a) through (c) of this section relating to SO_2 emissions shall not be applicable; and

(ii) The Administrator will not carry out any of the functions set forth for the Administrator in subparts AAA through III of part 97 of this chapter; and

(2) The Administrator will not deduct for excess emissions any CAIR SO_2 allowances allocated for 2015 or any year thereafter.

[72 FR 62343, Nov. 2, 2007, as amended at 74 FR 48863, Sept. 25, 2009; 74 FR 56726, Nov. 3, 2009; 75 FR 72962, Nov. 29, 2010; 76 FR 48354, Aug. 8, 2011; 79 FR 71671, Dec. 3, 2014; 81 FR 74586, Oct. 26, 2016]

§ 52.37 [Reserved]

§ 52.38 What are the requirements of the Federal Implementation Plans (FIPs) for the Cross-State Air Pollution Rule (CSAPR) relating to emissions of nitrogen oxides?

(a) *Annual emissions.* (1) The CSAPR NO_X Annual Trading Program provisions set forth in subpart AAAAA of part 97 of this chapter constitute the CSAPR Federal Implementation Plan provisions that relate to annual emissions of nitrogen oxides (NO_X).

(2)(i) The provisions of subpart AAAAA of part 97 of this chapter apply to sources in each of the following States and Indian country located within the borders of such States with regard to emissions occurring in 2015 and each subsequent year: Alabama, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and Wisconsin.

(ii) The provisions of subpart AAAAA of part 97 of this chapter apply to sources in each of the following States and Indian country located within the borders of such States with regard to emissions occurring in 2015 and 2016 only: Texas.

(3) Notwithstanding the provisions of paragraph (a)(1) of this section, a State listed in paragraph (a)(2)(i) or (ii) of this section may adopt and include in a SIP revision, and the Administrator will approve, as CSAPR NO_X Annual allowance allocation provisions replacing the provisions in § 97.411(a) of this chapter with regard to the State and the control period in 2016, a list of CSAPR NO_X Annual units and the amount of CSAPR NO_X Annual allowances allocated to each unit on such list, provided that the list of units and allocations meets the following requirements:

(i) All of the units on the list must be units that are in the State and commenced commercial operation before January 1, 2010;

(ii) The total amount of CSAPR NO_X Annual allowance allocations on the list must not exceed the amount, under § 97.410(a) of this chapter for the State and the control period in 2016, of the CSAPR NO_X Annual trading budget minus the sum of the new unit set-aside and Indian country new unit set-aside;

(iii) The list must be submitted electronically in a format specified by the Administrator; and

(iv) The SIP revision must not provide for any change in the units and allocations on the list after approval of the SIP revision by the Administrator and must not provide for any change in any allocation determined and recorded by the Administrator under subpart AAAAA of part 97 of this chapter;

(v) Provided that:

(A) By October 17, 2011, the State must notify the Administrator electronically in a format specified by the Administrator of the State's intent to submit to the Administrator a complete SIP revision meeting the requirements of paragraphs (a)(3)(i) through (iv) of this section by April 1, 2015; and

(B) The State must submit to the Administrator a complete SIP revision described in paragraph (a)(3)(v)(A) of this section by April 1, 2015.

(4) Notwithstanding the provisions of paragraph (a)(1) of this section, a State listed in paragraph (a)(2)(i) of this section may adopt and include in a SIP revision, and the Administrator will approve, regulations revising subpart AAAAA of part 97 of this chapter as follows and not making any other substantive revisions of that subpart:

(i) The State may adopt, as CSAPR NO_X Annual allowance allocation or auction provisions replacing the provisions in §§ 97.411(a) and (b)(1) and 97.412(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR NO_X Annual allowances, and may adopt, in addition to the definitions in § 97.402 of this chapter, one or more definitions that shall apply only to terms as used in the adopted CSAPR NO_X Annual allowance allocation or auction provisions, if such methodology—

(A) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR NO_X Annual allowances for any such control period not exceeding the amount, under §§ 97.410(a) and 97.421 of this chapter for the State and such control period, of the CSAPR NO_X Annual trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR NO_X Annual allowances already allocated and recorded by the Administrator.

(B) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Annual allowances for any such control period to any CSAPR NO_X Annual units covered by § 97.411(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR NO_X Annual allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR NO_X Annual allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2017	June 1, 2016.
2018	June 1, 2016.
2019	June 1, 2017.
2020	June 1, 2017.
2021	June 1, 2018.
2022	June 1, 2018.
2023 and any year thereafter	June 1 of the fourth year before the year of the control period.

(C) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Annual allowances for any such control period to any CSAPR NO_X Annual units covered by §§ 97.411(b)(1) and 97.412(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR NO_X Annual allowances remaining in a set-aside after

completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(D) Does not provide for any change, after the submission deadlines in paragraphs (a)(4)(i)(B) and (C) of this section, in the allocations submitted to the Administrator by such deadlines and does not provide for any change in any allocation determined and recorded by the Administrator under subpart AAAAA of part 97 of this chapter;

(ii) Provided that the State must submit a complete SIP revision meeting the requirements of paragraph (a)(4)(i) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (a)(4)(i)(B) and (C) of this section applicable to the first control period for which the State wants to make allocations or hold an auction under paragraph (a)(4)(i) of this section.

(5) Notwithstanding the provisions of paragraph (a)(1) of this section, a State listed in paragraph (a)(2)(i) of this section may adopt and include in a SIP revision, and the Administrator will approve, as correcting the deficiency in the SIP that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (a)(1), (a)(2)(i), and (a)(3) and (4) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State), regulations that are substantively identical to the provisions of the CSAPR NO_X Annual Trading Program set forth in §§ 97.402 through 97.435 of this chapter, except that the SIP revision:

(i) May adopt, as CSAPR NO_X Annual allowance allocation or auction provisions replacing the provisions in §§ 97.411(a) and (b)(1) and 97.412(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR NO_X Annual allowances and that—

(A) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR NO_X Annual allowances for any such control period not exceeding the amount, under §§ 97.410(a) and 97.421 of this chapter for the State and such control period, of the CSAPR NO_X Annual trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR NO_X Annual allowances already allocated and recorded by the Administrator.

(B) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Annual allowances for any such control period to any CSAPR NO_X Annual units covered by § 97.411(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR NO_X Annual allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR NO_X Annual allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2017	June 1, 2016.
2018	June 1, 2016.
2019	June 1, 2017.
2020	June 1, 2017.
2021	June 1, 2018.
2022	June 1, 2018.
2023 and any year thereafter	June 1 of the fourth year before the year of the control period.

(C) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Annual allowances for any such control period to any CSAPR NO_X Annual units covered by §§ 97.411(b)(1) and 97.412(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR NO_X Annual allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(D) Does not provide for any change, after the submission deadlines in paragraphs (a)(5)(i)(B) and (C) of this section, in the allocations submitted to the Administrator by such deadlines and does not provide for any change in

any allocation determined and recorded by the Administrator under subpart AAAAA of part 97 of this chapter;

(ii) May adopt, in addition to the definitions in §97.402 of this chapter, one or more definitions that shall apply only to terms as used in the CSAPR NO_X Annual allowance allocation or auction provisions adopted under paragraph (a)(5)(i) of this section;

(iii) May substitute the name of the State for the term ''State'' as used in subpart AAAAA of part 97 of this chapter, to the extent the Administrator determines that such substitutions do not make substantive changes in the provisions in §§97.402 through 97.435 of this chapter; and

(iv) Must not include any of the requirements imposed on any unit in Indian country within the borders of the State in the provisions in §§97.402 through 97.435 of this chapter and must not include the provisions in §§97.411(b)(2) and (c)(5)(iii), 97.412(b), and 97.421(h) and (j) of this chapter, all of which provisions will continue to apply under any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision;

(v) Provided that, if and when any covered unit is located in Indian country within the borders of the State, the Administrator may modify his or her approval of the SIP revision to exclude the provisions in §§97.402 (definitions of ''common designated representative'', ''common designated representative's assurance level'', and ''common designated representative's share''), 97.406(c)(2), and 97.425 of this chapter and the portions of other provisions of subpart AAAAA of part 97 of this chapter referencing these sections and may modify any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision to include these provisions;

(vi) Provided that the State must submit a complete SIP revision meeting the requirements of paragraphs (a)(5)(i) through (iv) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (a)(5)(i)(B) and (C) of this section applicable to the first control period for which the State wants to make allocations or hold an auction under paragraph (a)(5)(i) of this section.

(6) Following promulgation of an approval by the Administrator of a State's SIP revision as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (a)(1), (a)(2)(i), and (a)(3) and (4) of this section for sources in the State, the provisions of paragraph (a)(2)(i) of this section will no longer apply to sources in the State, unless the Administrator's approval of the SIP revision is partial or conditional, and will continue to apply to sources in any Indian country within the borders of the State, provided that if the CSAPR Federal Implementation Plan was promulgated as a partial rather than full remedy for an obligation of the State to address interstate air pollution, the SIP revision likewise will constitute a partial rather than full remedy for the State's obligation unless provided otherwise in the Administrator's approval of the SIP revision.

(7) Notwithstanding the provisions of paragraph (a)(6) of this section, if, at the time of such approval of the State's SIP revision, the Administrator has already started recording any allocations of CSAPR NO_X Annual allowances under subpart AAAAA of part 97 of this chapter to units in the State for a control period in any year, the provisions of subpart AAAAA of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of CSAPR NO_X Annual allowances to units in the State for each such control period shall continue to apply, unless provided otherwise by such approval of the State's SIP revision.

(8) The following States have SIP revisions approved by the Administrator under paragraph (a)(3), (4), or (5) of this section:

(i) For each of the following States, the Administrator has approved a SIP revision under paragraph (a)(3) of this section as replacing the CSAPR NO_X Annual allowance allocation provisions in §97.411(a) of this chapter with regard to the State and the control period in 2016: Alabama, Kansas, Missouri, and Nebraska.

(ii) For each of the following States, the Administrator has approved a SIP

revision under paragraph (a)(4) of this section as replacing the CSAPR NO_X Annual allowance allocation provisions in §§ 97.411(a) and (b)(1) and 97.412(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year: Kansas, Missouri, and New York.

(iii) For each of the following States, the Administrator has approved a SIP revision under paragraph (a)(5) of this section as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (a)(1), (a)(2)(i), and (a)(3) and (4) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State): Alabama, Georgia, Indiana, Kentucky, Missouri, and South Carolina.

(b) *Ozone season emissions.* (1) The CSAPR NO_X Ozone Season Group 1 Trading Program provisions and the CSAPR NO_X Ozone Season Group 2 Trading Program provisions set forth respectively in subparts BBBBB and EEEEE of part 97 of this chapter constitute the CSAPR Federal Implementation Plan provisions that relate to emissions of NO_X during the ozone season, defined as May 1 through September 30 of a calendar year.

(2)(i) The provisions of subpart BBBBB of part 97 of this chapter apply to sources in each of the following States and Indian country located within the borders of such States with regard to emissions occurring in 2015 and each subsequent year: Georgia.

(ii) The provisions of subpart BBBBB of part 97 of this chapter apply to sources in each of the following States and Indian country located within the borders of such States with regard to emissions occurring in 2015 and 2016 only: Alabama, Arkansas, Florida, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, and Wisconsin.

(iii) The provisions of subpart EEEEE of part 97 of this chapter apply to sources in each of the following States and Indian country located within the borders of such States with regard to emissions occurring in 2017 and each subsequent year: Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, West Virginia, and Wisconsin.

(3) Notwithstanding the provisions of paragraph (b)(1) of this section, a State listed in paragraph (b)(2)(i) or (ii) of this section may adopt and include in a SIP revision, and the Administrator will approve, as CSAPR NO_X Ozone Season Group 1 allowance allocation provisions replacing the provisions in § 97.511(a) of this chapter with regard to the State and the control period in 2016, a list of CSAPR NO_X Ozone Season Group 1 units and the amount of CSAPR NO_X Ozone Season Group 1 allowances allocated to each unit on such list, provided that the list of units and allocations meets the following requirements:

(i) All of the units on the list must be units that are in the State and commenced commercial operation before January 1, 2010;

(ii) The total amount of CSAPR NO_X Ozone Season Group 1 allowance allocations on the list must not exceed the amount, under § 97.510(a) of this chapter for the State and the control period in 2016, of the CSAPR NO_X Ozone Season Group 1 trading budget minus the sum of the new unit set-aside and Indian country new unit set-aside;

(iii) The list must be submitted electronically in a format specified by the Administrator; and

(iv) The SIP revision must not provide for any change in the units and allocations on the list after approval of the SIP revision by the Administrator and must not provide for any change in any allocation determined and recorded by the Administrator under subpart BBBBB of part 97 of this chapter;

(v) Provided that:

(A) By October 17, 2011 or, for Iowa, Michigan, Missouri, Oklahoma, and Wisconsin, March 6, 2015, the State must notify the Administrator electronically in a format specified by the Administrator of the State's intent to submit to the Administrator a complete SIP revision meeting the requirements of paragraphs (b)(3)(i) through

(iv) of this section by April 1, 2015 or, for Iowa, Michigan, Missouri, Oklahoma, and Wisconsin, October 1, 2015; and

(B) The State must submit to the Administrator a complete SIP revision described in paragraph (b)(3)(v)(A) of this section by April 1, 2015 or, for Iowa, Michigan, Missouri, Oklahoma, and Wisconsin, October 1, 2015.

(4) Notwithstanding the provisions of paragraph (b)(1) of this section, a State listed in paragraph (b)(2)(i) of this section may adopt and include in a SIP revision, and the Administrator will approve, regulations revising subpart BBBBB of part 97 of this chapter as follows and not making any other substantive revisions of that subpart:

(i) The State may adopt, as applicability provisions replacing the provisions in § 97.504(a)(1) and (2) of this chapter with regard to the State, provisions substantively identical to those provisions, except that the words ''more than 25 MWe'' are replaced, wherever such words appear, by words specifying a uniform lower limit on the amount of megawatts that is not greater than the amount specified by the words ''more than 25 MWe'' and is not less than the amount specified by the words ''15 MWe or more''; and

(ii) The State may adopt, as CSAPR NO_X Ozone Season Group 1 allowance allocation or auction provisions replacing the provisions in §§ 97.511(a) and (b)(1) and 97.512(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR NO_X Ozone Season Group 1 allowances, and may adopt, in addition to the definitions in § 97.502 of this chapter, one or more definitions that shall apply only to terms as used in the adopted CSAPR NO_X Ozone Season Group 1 allowance allocation or auction provisions, if such methodology—

(A) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR NO_X Ozone Season Group 1 allowances for any such control period not exceeding the amount, under §§ 97.510(a) and 97.521 of this chapter for the State and such control period, of the CSAPR NO_X Ozone Season Group 1 trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR NO_X Ozone Season Group 1 allowances already allocated and recorded by the Administrator.

(B) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Ozone Season Group 1 allowances for any such control period to any CSAPR NO_X Ozone Season Group 1 units covered by § 97.511(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR NO_X Ozone Season Group 1 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR NO_X Ozone Season Group 1 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2017	June 1, 2016.
2018	June 1, 2016.
2019	June 1, 2017.
2020	June 1, 2017.
2021	June 1, 2018.
2022	June 1, 2018.
2023 and any year thereafter	June 1 of the fourth year before the year of the control period.

(C) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Ozone Season Group 1 allowances for any such control period to any CSAPR NO_X Ozone Season Group 1 units covered by §§ 97.511(b)(1) and 97.512(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR NO_X Ozone Season Group 1 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(D) Does not provide for any change, after the submission deadlines in paragraphs (b)(4)(ii)(B) and (C) of this section, in the allocations submitted to

the Administrator by such deadlines and does not provide for any change in any allocation determined and recorded by the Administrator under subpart BBBBB of part 97 of this chapter;

(iii) Provided that the State must submit a complete SIP revision meeting the requirements of paragraph (b)(4)(i) or (ii) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (b)(4)(ii)(B) and (C) of this section applicable to the first control period for which the State wants to replace the applicability provisions, make allocations, or hold an auction under paragraph (b)(4)(i) or (ii) of this section.

(5) Notwithstanding the provisions of paragraph (b)(1) of this section, a State listed in paragraph (b)(2)(i) of this section may adopt and include in a SIP revision, and the Administrator will approve, as correcting the deficiency in the SIP that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (b)(1), (b)(2)(i), and (b)(3) and (4) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State), regulations that are substantively identical to the provisions of the CSAPR NO_X Ozone Season Group 1 Trading Program set forth in §§ 97.502 through 97.535 of this chapter, except that the SIP revision:

(i) May adopt, as applicability provisions replacing the provisions in § 97.504(a)(1) and (2) of this chapter with regard to the State, provisions substantively identical to those provisions, except that the words ''more than 25 MWe'' are replaced, wherever such words appear, by words specifying a uniform lower limit on the amount of megawatts that is not greater than the amount specified by the words ''more than 25 MWe'' and is not less than the amount specified by the words ''15 MWe or more''; and

(ii) May adopt, as CSAPR NO_X Ozone Season Group 1 allowance allocation provisions replacing the provisions in §§ 97.511(a) and (b)(1) and 97.512(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR NO_X Ozone Season Group 1 allowances and that—

(A) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR NO_X Ozone Season Group 1 allowances for any such control period not exceeding the amount, under §§ 97.510(a) and 97.521 of this chapter for the State and such control period, of the CSAPR NO_X Ozone Season Group 1 trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR NO_X Ozone Season Group 1 allowances already allocated and recorded by the Administrator.

(B) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Ozone Season Group 1 allowances for any such control period to any CSAPR NO_X Ozone Season Group 1 units covered by § 97.511(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR NO_X Ozone Season Group 1 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR NO_X Ozone Season Group 1 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2017	June 1, 2016.
2018	June 1, 2016.
2019	June 1, 2017.
2020	June 1, 2017.
2021	June 1, 2018.
2022	June 1, 2018.
2023 and any year thereafter	June 1 of the fourth year before the year of the control period.

(C) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Ozone Season Group 1 allowances for any such control period to any CSAPR NO_X Ozone Season Group 1 units covered by §§ 97.511(b)(1) and 97.512(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR NO_X Ozone Season

Group 1 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(D) Does not provide for any change, after the submission deadlines in paragraphs (b)(5)(ii)(B) and (C) of this section, in the allocations submitted to the Administrator by such deadlines and does not provide for any change in any allocation determined and recorded by the Administrator under subpart BBBBB of part 97 of this chapter;

(iii) May adopt, in addition to the definitions in §97.502 of this chapter, one or more definitions that shall apply only to terms as used in the CSAPR NO_X Ozone Season Group 1 allowance allocation or auction provisions adopted under paragraph (b)(5)(ii) of this section;

(iv) May substitute the name of the State for the term ''State'' as used in subpart BBBBB of part 97 of this chapter, to the extent the Administrator determines that such substitutions do not make substantive changes in the provisions in §§97.502 through 97.535 of this chapter; and

(v) Must not include any of the requirements imposed on any unit in Indian country within the borders of the State in the provisions in §§97.502 through 97.535 of this chapter and must not include the provisions in §§97.511(b)(2) and (c)(5)(iii), 97.512(b), and 97.521(h) and (j) of this chapter, all of which provisions will continue to apply under any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision;

(vi) Provided that, if and when any covered unit is located in Indian country within the borders of the State, the Administrator may modify his or her approval of the SIP revision to exclude the provisions in §§97.502 (definitions of ''common designated representative'', ''common designated representative's assurance level'', and ''common designated representative's share''), 97.506(c)(2), and 97.525 of this chapter and the portions of other provisions of subpart BBBBB of part 97 of this chapter referencing these sections and may modify any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision to include these provisions;

(vii) Provided that the State must submit a complete SIP revision meeting the requirements of paragraphs (b)(5)(i) through (v) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (b)(5)(ii)(B) and (C) of this section applicable to the first control period for which the State wants to replace the applicability provisions, make allocations, or hold an auction under paragraph (b)(5)(i) or (ii) of this section.

(6) Notwithstanding the provisions of paragraph (b)(1) of this section, a State listed in paragraph (b)(2)(i) of this section may adopt and include in a SIP revision, and the Administrator will approve, as correcting the deficiency in the SIP that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (b)(1), (b)(2)(i), and (b)(3) and (4) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State), regulations that are substantively identical to the provisions of the CSAPR NO_X Ozone Season Group 2 Trading Program set forth in §§97.802 through 97.835 of this chapter, subject to the following requirements and exceptions:

(i) The provisions of paragraphs (b)(9)(i) through (viii) of this section apply to any such SIP revision.

(ii) Following promulgation of an approval by the Administrator of such a SIP revision:

(A) The provisions of the SIP revision will apply to sources in the State with regard to emissions occurring in the control period that begins May 1 immediately after promulgation of such approval, or such later control period as may be adopted by the State in its regulations and approved by the Administrator in the SIP revision, and in each subsequent control period.

(B) Notwithstanding the provisions of paragraph (b)(6)(ii)(A) of this section, if, at the time of the approval of the SIP revision, the Administrator has already started recording any allocations of CSAPR NO_X Ozone Season Group 1 allowances to units in the State for a

control period in any year, the Administrator will not record allocations of CSAPR NO_X Ozone Season Group 2 allowances to units in the State for any such control period under the provisions of the SIP revision but instead will allocate and record CSAPR NO_X Ozone Season Group 2 allowances in place of CSAPR NO_X Ozone Season Group 1 allowances under § 97.526(c)(2) of this chapter, unless provided otherwise by such approval of the SIP revision.

(7) Notwithstanding the provisions of paragraph (b)(1) of this section, a State listed in paragraph (b)(2)(iii) of this section may adopt and include in a SIP revision, and the Administrator will approve, as CSAPR NO_X Ozone Season Group 2 allowance allocation provisions replacing the provisions in § 97.811(a) of this chapter with regard to the State and the control period in 2018, a list of CSAPR NO_X Ozone Season Group 2 units and the amount of CSAPR NO_X Ozone Season Group 2 allowances allocated to each unit on such list, provided that the list of units and allocations meets the following requirements:

(i) All of the units on the list must be units that are in the State and commenced commercial operation before January 1, 2015;

(ii) The total amount of CSAPR NO_X Ozone Season Group 2 allowance allocations on the list must not exceed the amount, under § 97.810(a) of this chapter for the State and the control period in 2018, of the CSAPR NO_X Ozone Season Group 2 trading budget minus the sum of the new unit set-aside and Indian country new unit set-aside;

(iii) The list must be submitted electronically in a format specified by the Administrator; and

(iv) The SIP revision must not provide for any change in the units and allocations on the list after approval of the SIP revision by the Administrator and must not provide for any change in any allocation determined and recorded by the Administrator under subpart EEEEE of part 97 of this chapter;

(v) Provided that:

(A) By December 27, 2016, the State must notify the Administrator electronically in a format specified by the Administrator of the State's intent to submit to the Administrator a complete SIP revision meeting the requirements of paragraphs (b)(7)(i) through (iv) of this section by April 1, 2017; and

(B) The State must submit to the Administrator a complete SIP revision described in paragraph (b)(7)(v)(A) of this section by April 1, 2017.

(8) Notwithstanding the provisions of paragraph (b)(1) of this section, a State listed in paragraph (b)(2)(iii) of this section may adopt and include in a SIP revision, and the Administrator will approve, regulations revising subpart EEEEE of part 97 of this chapter as follows and not making any other substantive revisions of that subpart:

(i) The State may adopt, as applicability provisions replacing the provisions in § 97.804(a)(1) and (2) of this chapter with regard to the State, provisions substantively identical to those provisions, except that the words ''more than 25 MWe'' are replaced, wherever such words appear, by words specifying a uniform lower limit on the amount of megawatts that is not greater than the amount specified by the words ''more than 25 MWe'' and is not less than the amount specified by the words ''15 MWe or more'';

(ii) Such a State listed in § 51.121(c) of this chapter may adopt, as applicability provisions replacing the provisions in § 97.804(a) and (b) of this chapter with regard to the State, provisions substantively identical to those provisions, except that applicability is expanded to include, in addition to all units in the State that would be CSAPR NO_X Ozone Season Group 2 units under § 97.804(a) and (b) of this chapter and any units to which the State elects to expand applicability pursuant to paragraph (b)(8)(i) of this section, all other units that would have been subject to the State's emissions trading program regulations approved as a SIP revision under § 51.121 of this chapter except units to which the State is authorized to expand applicability under paragraph (b)(8)(i) of this section; and

(iii) The State may adopt, as CSAPR NO_X Ozone Season Group 2 allowance allocation or auction provisions replacing the provisions in §§ 97.811(a) and (b)(1) and 97.812(a) of this chapter with

regard to the State and the control period in 2019 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR NO_X Ozone Season Group 2 allowances and may adopt, in addition to the definitions in § 97.802 of this chapter, one or more definitions that shall apply only to terms as used in the adopted CSAPR NO_X Ozone Season Group 2 allowance allocation or auction provisions, if such methodology—

(A) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR NO_X Ozone Season Group 2 allowances for any such control period not exceeding the amount, under §§ 97.810(a) and 97.821 of this chapter for the State and such control period, of the CSAPR NO_X Ozone Season Group 2 trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR NO_X Ozone Season Group 2 allowances already allocated and recorded by the Administrator, plus, if the State adopts regulations expanding applicability to additional units pursuant to paragraph (b)(8)(ii) of this section, an additional amount of CSAPR NO_X Ozone Season Group 2 allowances not exceeding the lesser of:

(*1*) The highest of the sum, for all additional units in the State to which applicability is expanded pursuant to paragraph (b)(8)(ii) of this section, of the NO_X emissions reported in accordance with part 75 of this chapter for the ozone season in the year before the year of the submission deadline for the SIP revision under paragraph (b)(8)(iv) of this section and the corresponding sums of the NO_X emissions reported in accordance with part 75 of this chapter for each of the two immediately preceding ozone seasons, provided that each such seasonal sum shall exclude the amount of any NO_X emissions reported by any unit for all hours in any calendar day during which the unit did not have at least one quality-assured monitor operating hour, as defined in § 72.2 of this chapter; or

(*2*) The portion of the emissions budget under the State's emissions trading program regulations approved as a SIP revision under § 51.121 of this chapter that is attributable to the units to which applicability is expanded pursuant to paragraph (b)(8)(ii) of this section.

(B) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Ozone Season Group 2 allowances for any such control period to any CSAPR NO_X Ozone Season Group 2 units covered by § 97.811(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR NO_X Ozone Season Group 2 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR NO_X Ozone Season Group 2 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2019	June 1, 2018.
2020	June 1, 2018.
2021	June 1, 2019.
2022	June 1, 2019.
2023	June 1, 2020.
2024	June 1, 2020.
2025 and any year thereafter	June 1 of the fourth year before the year of the control period.

(C) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Ozone Season Group 2 allowances for any such control period to any CSAPR NO_X Ozone Season Group 2 units covered by §§ 97.811(b)(1) and 97.812(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR NO_X Ozone Season Group 2 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(D) Does not provide for any change, after the submission deadlines in paragraphs (b)(8)(iii)(B) and (C) of this section, in the allocations submitted to the Administrator by such deadlines and does not provide for any change in

any allocation determined and recorded by the Administrator under subpart EEEEE of part 97 of this chapter or § 97.526(c) of this chapter;

(iv) Provided that the State must submit a complete SIP revision meeting the requirements of paragraph (b)(8)(i), (ii), or (iii) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (b)(8)(iii)(B) and (C) of this section applicable to the first control period for which the State wants to replace the applicability provisions, make allocations, or hold an auction under paragraph (b)(8)(i), (ii), or (iii) of this section.

(9) Notwithstanding the provisions of paragraph (b)(1) of this section, a State listed in paragraph (b)(2)(iii) of this section may adopt and include in a SIP revision, and the Administrator will approve, as correcting the deficiency in the SIP that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (b)(1), (b)(2)(iii), and (b)(7) and (8) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State), regulations that are substantively identical to the provisions of the CSAPR NO_X Ozone Season Group 2 Trading Program set forth in §§ 97.802 through 97.835 of this chapter, except that the SIP revision:

(i) May adopt, as applicability provisions replacing the provisions in § 97.804(a)(1) and (2) of this chapter with regard to the State, provisions substantively identical to those provisions, except that the words ''more than 25 MWe'' are replaced, wherever such words appear, by words specifying a uniform lower limit on the amount of megawatts that is not greater than the amount specified by the words ''more than 25 MWe'' and is not less than the amount specified by the words ''15 MWe or more'';

(ii) In the case of such a State listed in § 51.121(c) of this chapter, may adopt, as applicability provisions replacing the provisions in § 97.804(a) and (b) of this chapter with regard to the State, provisions substantively identical to those provisions, except that applicability is expanded to include, in addition to all units in the State that would be CSAPR NO_X Ozone Season Group 2 units under § 97.804(a) and (b) of this chapter and any units to which the State elects to expand applicability pursuant to paragraph (b)(9)(i) of this section, all other units that would have been subject to the State's emissions trading program regulations approved as a SIP revision under § 51.121 of this chapter except units to which the State is authorized to expand applicability under paragraph (b)(9)(i) of this section; and

(iii) May adopt, as CSAPR NO_X Ozone Season Group 2 allowance allocation provisions replacing the provisions in §§ 97.811(a) and (b)(1) and 97.812(a) of this chapter with regard to the State and the control period in 2019 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR NO_X Ozone Season Group 2 allowances and that—

(A) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR NO_X Ozone Season Group 2 allowances for any such control period not exceeding the amount, under §§ 97.810(a) and 97.821 of this chapter for the State and such control period, of the CSAPR NO_X Ozone Season Group 2 trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR NO_X Ozone Season Group 2 allowances already allocated and recorded by the Administrator, plus, if the State adopts regulations expanding applicability to additional units pursuant to paragraph (b)(9)(ii) of this section, an additional amount of CSAPR NO_X Ozone Season Group 2 allowances not exceeding the lesser of:

(*1*) The highest of the sum, for all additional units in the State to which applicability is expanded pursuant to paragraph (b)(9)(ii) of this section, of the NO_X emissions reported in accordance with part 75 of this chapter for the ozone season in the year before the year of the submission deadline for the SIP revision under paragraph (b)(9)(viii) of this section and the corresponding sums of the NO_X emissions reported in accordance with part 75 of

this chapter for each of the two immediately preceding ozone seasons, provided that each such seasonal sum shall exclude the amount of any NO_X emissions reported by any unit for all hours in any calendar day during which the unit did not have at least one quality-assured monitor operating hour, as defined in § 72.2 of this chapter; or

(*2*) The portion of the emissions budget under the State's emissions trading program regulations approved as a SIP revision under § 51.121 of this chapter that is attributable to the units to which applicability is expanded pursuant to paragraph (b)(9)(ii) of this section.

(B) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Ozone Season Group 2 allowances for any such control period to any CSAPR NO_X Ozone Season Group 2 units covered by § 97.811(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR NO_X Ozone Season Group 2 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR NO_X Ozone Season Group 2 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2019	June 1, 2018.
2020	June 1, 2018.
2021	June 1, 2019.
2022	June 1, 2019.
2023	June 1, 2020.
2024	June 1, 2020.
2025 and any year thereafter	June 1 of the fourth year before the year of the control period.

(C) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR NO_X Ozone Season Group 2 allowances for any such control period to any CSAPR NO_X Ozone Season Group 2 units covered by §§ 97.811(b)(1) and 97.812(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR NO_X Ozone Season Group 2 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(D) Does not provide for any change, after the submission deadlines in paragraphs (b)(9)(iii)(B) and (C) of this section, in the allocations submitted to the Administrator by such deadlines and does not provide for any change in any allocation determined and recorded by the Administrator under subpart EEEEE of part 97 of this chapter or § 97.526(c) of this chapter;

(iv) May adopt, in addition to the definitions in § 97.802 of this chapter, one or more definitions that shall apply only to terms as used in the CSAPR NO_X Ozone Season Group 2 allowance allocation or auction provisions adopted under paragraph (b)(9)(iii) of this section;

(v) May substitute the name of the State for the term ''State'' as used in subpart EEEEE of part 97 of this chapter, to the extent the Administrator determines that such substitutions do not make substantive changes in the provisions in §§ 97.802 through 97.835 of this chapter; and

(vi) Must not include any of the requirements imposed on any unit in Indian country within the borders of the State in the provisions in §§ 97.802 through 97.835 of this chapter and must not include the provisions in §§ 97.811(b)(2) and (c)(5)(iii), 97.812(b), and 97.821(h) and (j) of this chapter, all of which provisions will continue to apply under any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision;

(vii) Provided that, if and when any covered unit is located in Indian country within the borders of the State, the Administrator may modify his or her approval of the SIP revision to exclude the provisions in §§ 97.802 (definitions of ''base CSAPR NO_X Ozone Season Group 2 source'', ''base CSAPR NO_X Ozone Season Group 2 unit'', ''common designated representative'', ''common designated representative's assurance level'', and ''common designated representative's share''), 97.806(c)(2), and 97.825 of this chapter and the portions of other provisions of subpart EEEEE

of part 97 of this chapter referencing these sections and may modify any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision to include these provisions;

(viii) Provided that the State must submit a complete SIP revision meeting the requirements of paragraphs (b)(9)(i) through (vi) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (b)(9)(iii)(B) and (C) of this section applicable to the first control period for which the State wants to replace the applicability provisions, make allocations, or hold an auction under paragraph (b)(9)(i), (ii), or (iii) of this section.

(10) Following promulgation of an approval by the Administrator of a State's SIP revision as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (b)(1), (b)(2)(i), and (b)(3) and (4) of this section or paragraphs (b)(1), (b)(2)(iii), and (b)(7) and (8) of this section for sources in the State—

(i) The provisions of paragraph (b)(2)(i) or (iii) of this section, as applicable, will no longer apply to sources in the State, unless the Administrator's approval of the SIP revision is partial or conditional, and will continue to apply to sources in any Indian country within the borders of the State, provided that if the CSAPR Federal Implementation Plan was promulgated as a partial rather than full remedy for an obligation of the State to address interstate air pollution, the SIP revision likewise will constitute a partial rather than full remedy for the State's obligation unless provided otherwise in the Administrator's approval of the SIP revision; and

(ii) For a State listed in § 51.121(c) of this chapter, the State's adoption of the regulations included in such approved SIP revision will satisfy with regard to the sources subject to such regulations, including any sources made subject to such regulations pursuant to paragraph (b)(9)(ii) of this section, the requirement under § 51.121(r)(2) of this chapter for the State to revise its SIP to adopt control measures with regard to such sources.

(11) Notwithstanding the provisions of paragraph (b)(10)(i) of this section—

(i) If, at the time of such approval of the State's SIP revision, the Administrator has already started recording any allocations of CSAPR NO_X Ozone Season Group 1 allowances under subpart BBBBB of part 97 of this chapter, or allocations of CSAPR NO_X Ozone Season Group 2 allowances under subpart EEEEE of part 97 of this chapter, to units in the State for a control period in any year, the provisions of subpart BBBBB of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of CSAPR NO_X Ozone Season Group 1 allowances, or of subpart EEEEE of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of CSAPR NO_X Ozone Season Group 2 allowances, as applicable, to units in the State for each such control period shall continue to apply, unless provided otherwise by such approval of the State's SIP revision; and

(ii) The provisions of § 97.526(c)(1) through (6) of this chapter authorizing the Administrator to remove CSAPR NO_X Ozone Season Group 1 allowances from any account where such allowances are held and to allocate and record amounts of CSAPR NO_X Ozone Season Group 2 allowances in place of any CSAPR NO_X Ozone Season Group 1 allowances that have been so removed or that have not been initially recorded, and the provisions of § 97.526(c)(7) of this chapter authorizing the use of CSAPR NO_X Ozone Season Group 2 allowances to satisfy requirements to hold CSAPR NO_X Ozone Season Group 1 allowances, will continue to apply.

(12) The following States have SIP revisions approved by the Administrator under paragraph (b)(3), (4), or (5) of this section:

(i) For each of the following States, the Administrator has approved a SIP revision under paragraph (b)(3) of this section as replacing the CSAPR NO_X Ozone Season Group 1 allowance allocation provisions in § 97.511(a) of this chapter with regard to the State and the control period in 2016: Alabama and Missouri.

(ii) For each of the following States, the Administrator has approved a SIP revision under paragraph (b)(4) of this section as replacing the CSAPR NO_X Ozone Season Group 1 applicability provisions in § 97.504(a)(1) and (2) of this chapter or the CSAPR NO_X Ozone Season Group 1 allowance allocation provisions in §§ 97.511(a) and (b)(1) and 97.512(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year: [none].

(iii) For each of the following States, the Administrator has approved a SIP revision under paragraph (b)(5) of this section as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (b)(1), (b)(2)(i), and (b)(3) and (4) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State): Georgia.

(13) The following States have SIP revisions approved by the Administrator under paragraph (b)(6), (7), (8), or (9) of this section:

(i) For each of the following States, the Administrator has approved a SIP revision under paragraph (b)(6) of this section as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (b)(1), (b)(2)(i), and (b)(3) and (4) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State): [none].

(ii) For each of the following States, the Administrator has approved a SIP revision under paragraph (b)(7) of this section as replacing the CSAPR NO_X Ozone Season Group 2 allowance allocation provisions in § 97.811(a) of this chapter with regard to the State and the control period in 2018: [none].

(iii) For each of the following States, the Administrator has approved a SIP revision under paragraph (b)(8) of this section as replacing the CSAPR NO_X Ozone Season Group 2 applicability provisions in § 97.804(a) and (b) or § 97.804(a)(1) and (2) of this chapter or the CSAPR NO_X Ozone Season Group 2 allowance allocation provisions in §§ 97.811(a) and (b)(1) and 97.812(a) of this chapter with regard to the State and the control period in 2019 or any subsequent year: New York.

(iv) For each of the following States, the Administrator has approved a SIP revision under paragraph (b)(9) of this section as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (b)(1), (b)(2)(iii), and (b)(7) and (8) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State): Alabama, Indiana, and Missouri.

[76 FR 48354, Aug. 8, 2011, as amended at 76 FR 80774, Dec. 27, 2011; 79 FR 71671, Dec. 3, 2014; 81 FR 74586, Oct. 26, 2016; 82 FR 45496, Sept. 29, 2017; 82 FR 46677, Oct. 6, 2017; 82 FR 47934, 47939, Oct. 13, 2017; 82 FR 57366, Dec. 5, 2017; 83 FR 64476, Dec. 17, 2018; 84 FR 8443, Mar. 8, 2019; 84 FR 38881, Aug. 8, 2019; 84 FR 66318, Dec. 4, 2019; 85 FR 7452, Feb. 10, 2020]

§ 52.39 What are the requirements of the Federal Implementation Plans (FIPs) for the Cross-State Air Pollution Rule (CSAPR) relating to emissions of sulfur dioxide?

(a) The CSAPR SO_2 Group 1 Trading Program provisions and the CSAPR SO_2 Group 2 Trading Program provisions set forth respectively in subparts CCCCC and DDDDD of part 97 of this chapter constitute the CSAPR Federal Implementation Plan provisions that relate to emissions of sulfur dioxide (SO_2).

(b) The provisions of subpart CCCCC of part 97 of this chapter apply to sources in each of the following States and Indian country located within the borders of such States with regard to emissions occurring in 2015 and each subsequent year: Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, and Wisconsin.

(c)(1) The provisions of subpart DDDDD of part 97 of this chapter apply to sources in each of the following States and Indian country located within the borders of such States with regard to emissions occurring in 2015 and each subsequent year: Alabama, Georgia, Kansas, Minnesota, Nebraska, and South Carolina.

(2) The provisions of subpart DDDDD of part 97 of this chapter apply to sources in each of the following States and Indian country located within the

borders of such States with regard to emissions occurring in 2015 and 2016 only: Texas.

(d) Notwithstanding the provisions of paragraph (a) of this section, a State listed in paragraph (b) of this section may adopt and include in a SIP revision, and the Administrator will approve, as CSAPR SO_2 Group 1 allowance allocation provisions replacing the provisions in § 97.611(a) of this chapter with regard to the State and the control period in 2016, a list of CSAPR SO_2 Group 1 units and the amount of CSAPR SO_2 Group 1 allowances allocated to each unit on such list, provided that the list of units and allocations meets the following requirements:

(1) All of the units on the list must be units that are in the State and commenced commercial operation before January 1, 2010;

(2) The total amount of CSAPR SO_2 Group 1 allowance allocations on the list must not exceed the amount, under § 97.610(a) of this chapter for the State and the control period in 2016, of the CSAPR SO_2 Group 1 trading budget minus the sum of the new unit set-aside and Indian country new unit set-aside;

(3) The list must be submitted electronically in a format specified by the Administrator; and

(4) The SIP revision must not provide for any change in the units and allocations on the list after approval of the SIP revision by the Administrator and must not provide for any change in any allocation determined and recorded by the Administrator under subpart CCCCC of part 97 of this chapter;

(5) Provided that:

(i) By October 17, 2011, the State must notify the Administrator electronically in a format specified by the Administrator of the State's intent to submit to the Administrator a complete SIP revision meeting the requirements of paragraphs (d)(1) through (4) of this section by April 1, 2015; and

(ii) The State must submit to the Administrator a complete SIP revision described in paragraph (d)(5)(i) of this section by April 1, 2015.

(e) Notwithstanding the provisions of paragraph (a) of this section, a State listed in paragraph (b) of this section may adopt and include in a SIP revision, and the Administrator will approve, regulations revising subpart CCCCC of part 97 of this chapter as follows and not making any other substantive revisions of that subpart:

(1) The State may adopt, as CSAPR SO_2 Group 1 allowance allocation or auction provisions replacing the provisions in §§ 97.611(a) and (b)(1) and 97.612(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR SO_2 Group 1 allowances and may adopt, in addition to the definitions in § 97.602 of this chapter, one or more definitions that shall apply only to terms as used in the adopted CSAPR SO_2 Group 1 allowance allocation or auction provisions, if such methodology—

(i) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR SO_2 Group 1 allowances for any such control period not exceeding the amount, under §§ 97.610(a) and 97.621 of this chapter for the State and such control period, of the CSAPR SO_2 Group 1 trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR SO_2 Group 1 allowances already allocated and recorded by the Administrator.

(ii) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR SO_2 Group 1 allowances for any such control period to any CSAPR SO_2 Group 1 units covered by § 97.611(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR SO_2 Group 1 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR SO_2 Group 1 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2017	June 1, 2016.

Year of the control period for which CSAPR SO_2 Group 1 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2018	June 1, 2016.
2019	June 1, 2017.
2020	June 1, 2017.
2021	June 1, 2018.
2022	June 1, 2018.
2023 and any year thereafter	June 1 of the fourth year before the year of the control period.

(iii) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR SO_2 Group 1 allowances for any such control period to any CSAPR SO_2 Group 1 units covered by §§ 97.611(b)(1) and 97.612(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR SO_2 Group 1 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(iv) Does not provide for any change, after the submission deadlines in paragraphs (e)(1)(ii) and (iii) of this section, in the allocations submitted to the Administrator by such deadlines and does not provide for any change in any allocation determined and recorded by the Administrator under subpart CCCCC of part 97 of this chapter;

(2) Provided that the State must submit a complete SIP revision meeting the requirements of paragraph (e)(1) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (e)(1)(ii) and (iii) of this section applicable to the first control period for which the State wants to make allocations or hold an auction under paragraph (e)(1) of this section.

(f) Notwithstanding the provisions of paragraph (a) of this section, a State listed in paragraph (b) of this section may adopt and include in a SIP revision, and the Administrator will approve, as correcting the deficiency in the SIP that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (a), (b), (d), and (e) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State), regulations that are substantively identical to the provisions of the CSAPR SO_2 Group 1 Trading Program set forth in §§ 97.602 through 97.635 of this chapter, except that the SIP revision:

(1) May adopt, as CSAPR SO_2 Group 1 allowance allocation or auction provisions replacing the provisions in §§ 97.611(a) and (b)(1) and 97.612(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR SO_2 Group 1 allowances and that—

(i) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR SO_2 Group 1 allowances for any such control period not exceeding the amount, under §§ 97.610(a) and 97.621 of this chapter for the State and such control period, of the CSAPR SO_2 Group 1 trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR SO_2 Group 1 allowances already allocated and recorded by the Administrator.

(ii) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR SO_2 Group 1 allowances for any such control period to any CSAPR SO_2 Group 1 units covered by § 97.611(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR SO_2 Group 1 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR SO_2 Group 1 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2017	June 1, 2016.
2018	June 1, 2016.
2019	June 1, 2017.
2020	June 1, 2017.
2021	June 1, 2018.
2022	June 1, 2018.

Year of the control period for which CSAPR SO_2 Group 1 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2023 and any year thereafter	June 1 of the fourth year before the year of the control period.

(iii) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR SO_2 Group 1 allowances for any such control period to any CSAPR SO_2 Group 1 units covered by §§ 97.611(b)(1) and 97.612(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR SO_2 Group 1 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(iv) Does not provide for any change, after the submission deadlines in paragraphs (f)(1)(ii) and (iii) of this section, in the allocations submitted to the Administrator by such deadlines and does not provide for any change in any allocation determined and recorded by the Administrator under subpart CCCCC of part 97 of this chapter;

(2) May adopt, in addition to the definitions in § 97.602 of this chapter, one or more definitions that shall apply only to terms as used in the CSAPR SO_2 Group 1 allowance allocation or auction provisions adopted under paragraph (f)(1) of this section;

(3) May substitute the name of the State for the term ''State'' as used in subpart CCCCC of part 97 of this chapter, to the extent the Administrator determines that such substitutions do not make substantive changes in the provisions in §§ 97.602 through 97.635 of this chapter; and

(4) Must not include any of the requirements imposed on any unit in Indian country within the borders of the State in the provisions in §§ 97.602 through 97.635 of this chapter and must not include the provisions in §§ 97.611(b)(2) and (c)(5)(iii), 97.612(b), and 97.621(h) and (j) of this chapter, all of which provisions will continue to apply under any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision;

(5) Provided that, if and when any covered unit is located in Indian country within the borders of the State, the Administrator may modify his or her approval of the SIP revision to exclude the provisions in §§ 97.602 (definitions of ''common designated representative'', ''common designated representative's assurance level'', and ''common designated representative's share''), 97.606(c)(2), and 97.625 of this chapter and the portions of other provisions of subpart CCCCC of part 97 of this chapter referencing these sections and may modify any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision to include these provisions;

(6) Provided that the State must submit a complete SIP revision meeting the requirements of paragraphs (f)(1) through (4) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (f)(1)(ii) and (iii) of this section applicable to the first control period for which the State wants to make allocations or hold an auction under paragraph (f)(1) of this section.

(g) Notwithstanding the provisions of paragraph (a) of this section, a State listed in paragraph (c)(1) or (2) of this section may adopt and include in a SIP revision, and the Administrator will approve, as CSAPR SO_2 Group 2 allowance allocation provisions replacing the provisions in § 97.711(a) of this chapter with regard to the State and the control period in 2016, a list of CSAPR SO_2 Group 2 units and the amount of CSAPR SO_2 Group 2 allowances allocated to each unit on such list, provided that the list of units and allocations meets the following requirements:

(1) All of the units on the list must be units that are in the State and commenced commercial operation before January 1, 2010;

(2) The total amount of CSAPR SO_2 Group 2 allowance allocations on the list must not exceed the amount, under § 97.710(a) of this chapter for the State and the control period in 2016, of the CSAPR SO_2 Group 2 trading budget minus the sum of the new unit set-aside and Indian country new unit set-aside;

(3) The list must be submitted electronically in a format specified by the Administrator; and

(4) The SIP revision must not provide for any change in the units and allocations on the list after approval of the SIP revision by the Administrator and must not provide for any change in any allocation determined and recorded by the Administrator under subpart DDDDD of part 97 of this chapter;

(5) Provided that:

(i) By October 17, 2011, the State must notify the Administrator electronically in a format specified by the Administrator of the State's intent to submit to the Administrator a complete SIP revision meeting the requirements of paragraphs (g)(1) through (4) of this section by April 1, 2015; and

(ii) The State must submit to the Administrator a complete SIP revision described in paragraph (g)(5)(i) of this section by April 1, 2015.

(h) Notwithstanding the provisions of paragraph (a) of this section, a State listed in paragraph (c)(1) of this section may adopt and include in a SIP revision, and the Administrator will approve, regulations revising subpart DDDDD of part 97 of this chapter as follows and not making any other substantive revisions of that subpart:

(1) The State may adopt, as CSAPR SO_2 Group 2 allowance allocation or auction provisions replacing the provisions in §§ 97.711(a) and (b)(1) and 97.712(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR SO_2 Group 2 allowances and may adopt, in addition to the definitions in § 97.702 of this chapter, one or more definitions that shall apply only to terms as used in the adopted CSAPR SO_2 Group 2 allowance allocation or auction provisions, if such methodology—

(i) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR SO_2 Group 2 allowances for any such control period not exceeding the amount, under §§ 97.710(a) and 97.721 of this chapter for the State and such control period, of the CSAPR SO_2 Group 2 trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR SO_2 Group 2 allowances already allocated and recorded by the Administrator.

(ii) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR SO_2 Group 2 allowances for any such control period to any CSAPR SO_2 Group 2 units covered by § 97.711(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR SO_2 Group 2 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR SO_2 Group 2 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2017	June 1, 2016.
2018	June 1, 2016.
2019	June 1, 2017.
2020	June 1, 2017.
2021	June 1, 2018.
2022	June 1, 2018.
2023 and any year thereafter	June 1 of the fourth year before the year of the control period.

(iii) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR SO_2 Group 2 allowances for any such control period to any CSAPR SO_2 Group 2 units covered by §§ 97.711(b)(1) and 97.712(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR SO_2 Group 2 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(iv) Does not provide for any change, after the submission deadlines in paragraphs (h)(1)(ii) and (iii) of this section, in the allocations submitted to the Administrator by such deadlines and does not provide for any change in any allocation determined and recorded by the Administrator under subpart DDDDD of part 97 of this chapter;

(2) Provided that the State must submit a complete SIP revision meeting the requirements of paragraph (h)(1) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (h)(1)(ii) and (iii) of this section applicable to the first control period for which the State wants to make allocations or hold an auction under paragraph (h)(1) of this section.

(i) Notwithstanding the provisions of paragraph (a) of this section, a State listed in paragraph (c)(1) of this section may adopt and include in a SIP revision, and the Administrator will approve, as correcting the deficiency in the SIP that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (a), (c)(1), (g), and (h) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State), regulations that are substantively identical to the provisions of the CSAPR SO_2 Group 2 Trading Program set forth in §§ 97.702 through 97.735 of this chapter, except that the SIP revision:

(1) May adopt, as CSAPR SO_2 Group 2 allowance allocation or auction provisions replacing the provisions in §§ 97.711(a) and (b)(1) and 97.712(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year, any methodology under which the State or the permitting authority allocates or auctions CSAPR SO_2 Group 2 allowances and that—

(i) Requires the State or the permitting authority to allocate and, if applicable, auction a total amount of CSAPR SO_2 Group 2 allowances for any such control period not exceeding the amount, under §§ 97.710(a) and 97.721 of this chapter for the State and such control period, of the CSAPR SO_2 Group 2 trading budget minus the sum of the Indian country new unit set-aside and the amount of any CSAPR SO_2 Group 2 allowances already allocated and recorded by the Administrator.

(ii) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR SO_2 Group 2 allowances for any such control period to any CSAPR SO_2 Group 2 units covered by § 97.711(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions for such control period (except allocations or results of auctions to such units of CSAPR SO_2 Group 2 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator no later than the following dates:

Year of the control period for which CSAPR SO_2 Group 2 allowances are allocated or auctioned	Deadline for submission of allocations or auction results to the Administrator
2017	June 1, 2016.
2018	June 1, 2016.
2019	June 1, 2017.
2020	June 1, 2017.
2021	June 1, 2018.
2022	June 1, 2018.
2023 and any year thereafter	June 1 of the fourth year before the year of the control period.

(iii) Requires, to the extent the State adopts provisions for allocations or auctions of CSAPR SO_2 Group 2 allowances for any such control period to any CSAPR SO_2 Group 2 units covered by §§ 97.711(b)(1) and 97.712(a) of this chapter, that the State or the permitting authority submit such allocations or the results of such auctions (except allocations or results of auctions to such units of CSAPR SO_2 Group 2 allowances remaining in a set-aside after completion of the allocations or auctions for which the set-aside was created) to the Administrator by July 1 of the year of such control period.

(iv) Does not provide for any change, after the submission deadlines in paragraphs (i)(1)(ii) and (iii) of this section, in the allocations submitted to the Administrator by such deadlines and does not provide for any change in any allocation determined and recorded by the Administrator under subpart DDDDD of part 97 of this chapter;

(2) May adopt, in addition to the definitions in § 97.702 of this chapter, one or more definitions that shall apply only to terms as used in the CSAPR SO_2 Group 2 allowance allocation or auction provisions adopted under paragraph (i)(1) of this section;

(3) May substitute the name of the State for the term ''State'' as used in

subpart DDDDD of part 97 of this chapter, to the extent the Administrator determines that such substitutions do not make substantive changes in the provisions in §§ 97.702 through 97.735 of this chapter; and

(4) Must not include any of the requirements imposed on any unit in Indian country within the borders of the State in the provisions in §§ 97.702 through 97.735 of this chapter and must not include the provisions in §§ 97.711(b)(2) and (c)(5)(iii), 97.712(b), and 97.721(h) and (j) of this chapter, all of which provisions will continue to apply under any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision;

(5) Provided that, if and when any covered unit is located in Indian country within the borders of the State, the Administrator may modify his or her approval of the SIP revision to exclude the provisions in §§ 97.702 (definitions of ''common designated representative'', ''common designated representative's assurance level'', and ''common designated representative's share''), 97.706(c)(2), and 97.725 of this chapter and the portions of other provisions of subpart DDDDD of part 97 of this chapter referencing these sections and may modify any portion of the CSAPR Federal Implementation Plan that is not replaced by the SIP revision to include these provisions;

(6) Provided that the State must submit a complete SIP revision meeting the requirements of paragraphs (i)(1) through (4) of this section by December 1 of the year before the year of the deadlines for submission of allocations or auction results under paragraphs (i)(1)(ii) and (iii) of this section applicable to the first control period for which the State wants to make allocations or hold an auction under paragraph (i)(1) of this section.

(j) Following promulgation of an approval by the Administrator of a State's SIP revision as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (a), (b), (d), and (e) of this section or paragraphs (a), (c)(1), (g), and (h) of this section for sources in the State, the provisions of paragraph (b) or (c)(1) of this section, as applicable, will no longer apply to sources in the State, unless the Administrator's approval of the SIP revision is partial or conditional, and will continue to apply to sources in any Indian country within the borders of the State, provided that if the CSAPR Federal Implementation Plan was promulgated as a partial rather than full remedy for an obligation of the State to address interstate air pollution, the SIP revision likewise will constitute a partial rather than full remedy for the State's obligation unless provided otherwise in the Administrator's approval of the SIP revision.

(k) Notwithstanding the provisions of paragraph (j) of this section, if, at the time of such approval of the State's SIP revision, the Administrator has already started recording any allocations of CSAPR SO_2 Group 1 allowances under subpart CCCCC of part 97 of this chapter, or allocations of CSAPR SO_2 Group 2 allowances under subpart DDDDD of part 97 of this chapter, to units in the State for a control period in any year, the provisions of subpart CCCCC of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of CSAPR SO_2 Group 1 allowances, or of subpart DDDDD of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of CSAPR SO_2 Group 2 allowances, as applicable, to units in the State for each such control period shall continue to apply, unless provided otherwise by such approval of the State's SIP revision.

(l) The following States have SIP revisions approved by the Administrator under paragraph (d), (e), or (f) of this section:

(1) For each of the following States, the Administrator has approved a SIP revision under paragraph (d) of this section as replacing the CSAPR SO_2 Group 1 allowance allocation provisions in § 97.611(a) of this chapter with regard to the State and the control period in 2016: [none].

(2) For each of the following States, the Administrator has approved a SIP revision under paragraph (e) of this section as replacing the CSAPR SO_2 Group 1 allowance allocation provisions in §§ 97.611(a) and (b)(1) and

97.612(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year: Missouri and New York.

(3) For each of the following States, the Administrator has approved a SIP revision under paragraph (f) of this section as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (a), (b), (d), and (e) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State): Indiana, Kentucky, and Missouri.

(m) The following States have SIP revisions approved by the Administrator under paragraph (g), (h), or (i) of this section:

(1) For each of the following States, the Administrator has approved a SIP revision under paragraph (g) of this section as replacing the CSAPR SO_2 Group 2 allowance allocation provisions in §97.711(a) of this chapter with regard to the State and the control period in 2016: Alabama and Nebraska.

(2) For each of the following States, the Administrator has approved a SIP revision under paragraph (h) of this section as replacing the CSAPR SO_2 Group 2 allowance allocation provisions in §§97.711(a) and (b)(1) and 97.712(a) of this chapter with regard to the State and the control period in 2017 or any subsequent year: [none].

(3) For each of the following States, the Administrator has approved a SIP revision under paragraph (i) of this section as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan set forth in paragraphs (a), (c)(1), (g), and (h) of this section with regard to sources in the State (but not sources in any Indian country within the borders of the State): Alabama, Georgia, and South Carolina.

Subpart B—Alabama

§ 52.50 Identification of plan.

(a) *Purpose and scope.* This section sets forth the applicable State implementation plan for Alabama under section 110 of the Clean Air Act, 42 U.S.C. 7401, and 40 CFR part 51 to meet national ambient air quality standards.

(b) *Incorporation by reference.* (1) Material listed in paragraphs (c) and (d) of this section with an EPA approval date prior to October 1, 2017, was approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Material is incorporated as it exists on the date of the approval, and notice of any change in the material will be published in the FEDERAL REGISTER. Entries in paragraphs (c) and (d) of this section with EPA approval dates after October 1, 2017, will be incorporated by reference in the next update to the SIP compilation.

(2) EPA Region 4 certifies that the rules/regulations provided by EPA in the SIP compilation at the addresses in paragraph (b)(3) of this section are an exact duplicate of the officially promulgated State rules/regulations which have been approved as part of the State Implementation Plan as of the dates referenced in paragraph (b)(1).

(3) Copies of the materials incorporated by reference may be inspected at the Region 4 EPA Office at 61 Forsyth Street SW, Atlanta, GA 30303. To obtain the material, please call (404) 562–9022. You may inspect the material with an EPA approval date prior to October 1, 2017, for Alabama at the National Archives and Records Administration. For information on the availability of this material at NARA go to: *http://www.archives.gov/federal-register/cfr/ibr-locations.html.*

(c) *EPA Approved Alabama Regulations.*

(d) *EPA approved Alabama source specific requirements.*

EPA APPROVED ALABAMA SOURCE-SPECIFIC REQUIREMENTS

Name of source	Permit No.	State effective date	EPA approval date	Explanation
Lafarge Cement Kiln	AB70004__1__01	2/6/2008	7/30/2009, 74 FR 37945	Certain provisions of the permit.
Lehigh Cement Kiln	4–07–0290–03	2/6/2008	7/30/2009, 74 FR 37945	Certain provisions of the permit.

(e) *EPA Approved Alabama Non-Regulatory Provisions.*

EPA APPROVED ALABAMA NON-REGULATORY PROVISIONS

Name of nonregulatory SIP provision	Applicable geographic or nonattainment area	State submittal date/effective date	EPA approval date	Explanation
Attainment Plan for the Alabama Portion of the Chattanooga 1997 Annual $PM_{2.5}$ Nonattainment Area.	A portion of Jackson County, Alabama.	10/07/2009	10/5/2012, 77 FR 60904.	
Birmingham 1990 Baseline Emissions Inventory.	Birmingham Ozone Nonattainment Area.	11/13/1992	6/4/1999, 64 FR 29961.	
Alabama Interagency Transportation Conformity Memorandum of Agreement.		1/20/2000	5/11/2000, 65 FR 30362.	
Alabama Fuel Waiver Request—Appendix II of Attainment Demonstration of the 1-hour NAAQS for Ozone for the Birmingham Nonattainment Area.	Birmingham Ozone Nonattainment Area.	12/1/2000	11/7/2001, 66 FR 56220.	
Attainment Demonstration of the 1-hour NAAQS for Ozone for the Birmingham Nonattainment Area.	Birmingham Ozone Nonattainment Area.	12/1/2000	11/7/2001, 66 FR 56224.	
Maintenance Plan for the Birmingham area.	Jefferson County and Shelby County.	1/30/2004	3/12/2004, 69 FR 11800.	
8-Hour Ozone Maintenance plan for the Birmingham area.	Jefferson County and Shelby County.	1/26/2006	5/12/2006, 71 FR 27631.	
Conformity SIP for Birmingham and Jackson County.	Jefferson County, Shelby County, Jackson County.	12/12/2008	3/26/2009, 74 FR 13118.	
110(a)(1) and (2) Infrastructure Requirements for the 1997 8-Hour Ozone National Ambient Air Quality Standards.	Alabama	12/10/2007	7/13/2011, 76 FR 41088	For the 1997 8-hour ozone NAAQS.
Chattanooga; Fine Particulate Matter 2002 Base Year Emissions Inventory.	Jackson County	7/31/2009	2/8/2012, 77 FR 6467.	
Regional haze plan	Statewide	7/15/2008	6/28/2012, 77 FR 38515..	
110(a)(1) and (2) Infrastructure Requirements for 1997 Fine Particulate Matter National Ambient Air Quality Standards.	Alabama	7/25/2008	10/1/2012, 77 FR 59755	With the exception of sections 110(a)(2)(D)(i) and 110(a)(2)(E)(ii).
110(a)(1) and (2) Infrastructure Requirements for 2006 Fine Particulate Matter National Ambient Air Quality Standards.	Alabama	9/23/2009	10/1/2012, 77 FR 59755	With the exception of sections 110(a)(2)(D)(i) and 110(a)(2)(E)(ii).
1997 Annual $PM_{2.5}$ Maintenance Plan for the Birmingham Area.	Birmingham $PM_{2.5}$ Nonattainment Area.	5/2/2011	1/22/2013, 78 FR 4341.	
2006 24-hour $PM_{2.5}$ Maintenance Plan for the Birmingham Area.	Birmingham $PM_{2.5}$ Nonattainment Area.	6/17/2010	1/25/2013, 78 FR 5306 ..	
110(a)(1) and (2) Infrastructure Requirements for 1997 Fine Particulate Matter National Ambient Air Quality Standards.	Alabama	7/25/2008	4/12/2013, 78 FR 21841	Addressing element 110(a)(2)(D)(i)(II) prong 3 only
110(a)(1) and (2) Infrastructure Requirements for 2006 Fine Particulate Matter National Ambient Air Quality Standards.	Alabama	9/23/2009	4/12/2013, 78 FR 21841	Addressing element 110(a)(2)(D)(i)(II) prong 3 only
2008 Lead Attainment Demonstration for Troy Area.	Troy Area	11/9/2012	1/28/2014, 79 FR 4407.	
110(a)(1) and (2) Infrastructure Requirements for 1997 Fine Particulate Matter National Ambient Air Quality Standards.	Alabama	7/25/2008	5/7/2014, 79 FR 26143 ..	Addressing prong 4 of section 110(a)(2)(D)(i) only.

EPA APPROVED ALABAMA NON-REGULATORY PROVISIONS—Continued

Name of nonregulatory SIP provision	Applicable geographic or nonattainment area	State submittal date/effective date	EPA approval date	Explanation
110(a)(1) and (2) Infrastructure Requirements for 2006 Fine Particulate Matter National Ambient Air Quality Standards.	Alabama	9/23/2009	5/7/2014, 79 FR 26143 ..	Addressing prong 4 of section 110(a)(2)(D)(i) only.
1997 Annual $PM_{2.5}$ Maintenance Plan for the Alabama portion of the Chattanooga TN-GA-AL Area.	Portion of Jackson County in the Chattanooga TN-GA-AL Area.	4/23/2013	12/22/2014, 79 FR 76235.	
110(a)(1) and (2) Infrastructure Requirements for the 2008 Lead NAAQS.	Alabama	11/4/2011	3/18/2015, 80 FR 14019	Addressing the PSD permitting requirements of sections 110(a)(2)(C), 110(a)(2)(D)(i)(II) (prong 3) and 110(a)(2)(J) only.
110(a)(1) and (2) Infrastructure Requirements for the 2008 Ozone NAAQS.	Alabama	8/20/2012	3/18/2015, 80 FR 14019	Addressing the PSD permitting requirements of sections 110(a)(2)(C), 110(a)(2)(D)(i)(II) (prong 3) and 110(a)(2)(J) only.
110(a)(1) and (2) Infrastructure Requirements for the 2010 NO_2 NAAQS.	Alabama	4/23/2013	3/18/2015, 80 FR 14019	Addressing the PSD permitting requirements of sections 110(a)(2)(C), 110(a)(2)(D)(i)(II) (prong 3) and 110(a)(2)(J) only.
Non-interference Demonstration for Federal Low-Reid Vapor Pressure Requirement for the Birmingham Area.	Jefferson and Shelby Counties.	11/14/2014	4/17/2015, 80 FR 21170	
110(a)(1) and (2) Infrastructure Requirements for the 2008 8-Hour Ozone National Ambient Air Quality Standards.	7/17/2012	4/2/2015	4/2/2015, 80 FR 17689 ..	With the exception of PSD permitting requirements for major sources of sections 110(a)(2)(C) and (J); interstate transport requirements of section 110(a)(2)(D)(i)(I) and (II), 110(a)(2)(E)(ii), and the visibility requirements of section 110(a)(2)(J).
Cross State Air Pollution Rule—State-Determined Allowance Allocations for the 2016 control periods.	Alabama	3/27/2014	9/22/2015	
110(a)(1) and (2) Infrastructure Requirements for the 2008 Ozone NAAQS.	Alabama	8/20/2012	8/12/2015, 80 FR 48258	Addressing the visibility requirements of 110(a)(2)(J) only.

EPA APPROVED ALABAMA NON-REGULATORY PROVISIONS—Continued

Name of nonregulatory SIP provision	Applicable geographic or nonattainment area	State submittal date/effective date	EPA approval date	Explanation
110(a)(1) and (2) Infrastructure Requirements for the 2008 Lead National Ambient Air Quality Standards.	Alabama	11/4/2011	10/9/2015, 80 FR 61111	With the exception of provisions pertaining to PSD permitting requirements in sections 110(a)(2)(C), 110(a)(2)(D)(i)(II) (prong 3), 110(a)(2)(J); and section 110(a)(2)(E)(ii).
110(a)(1) and 110(a)(2) Infrastructure Requirements for the 2010 NO_2 NAAQS—Update.	Alabama	12/9/2015	9/22/2016, 81 FR 65286	Addressing Prongs 1 and 2 of Section 110(a)(2)(D)(i)(I) only.
110(a)(1) and (2) Infrastructure Requirements for the 2010 1-hour NO_2 NAAQS.	Alabama	4/23/2013	11/21/2016, 81 FR 83142	With the exception of sections: 110(a)(2)(C) and (J) concerning PSD permitting requirements; 110(a)(2)(D)(i)(I) and (II) (prongs 1 through 4) concerning interstate transport requirements and the state boards of section 110(a)(2)(E)(ii).
110(a)(1) and (2) Infrastructure Requirements for the 2010 1-hour SO_2 NAAQS.	Alabama	4/23/2013	1/12/2017, 82 FR 3637 ..	With the exception of interstate transport requirements of section 110(a)(2)(D)(i)(II) (prong 4), and the state board requirements of section 110(a)(2)(E)(ii).
110(a)(1) and (2) Infrastructure Requirements for the 2012 Annual $PM_{2.5}$ NAAQS.	Alabama	12/9/2015	9/18/2017, 82 FR 43487	With the exception of section 110(a)(2)(D)(i)(I) and (II) (prongs 1, 2 and 4) and the state board requirements of section 110(a)(2)(E)(ii).
110(a)(1) and (2) Infrastructure Requirements for the 2010 1-hour NO_2 NAAQS.	Alabama	12/9/2015	10/12/2017, 82 FR 47393	Addressing Prong 4 of Section 110(a)(2)(D)(i)(I) only.
110(a)(1) and (2) Infrastructure Requirements for the 2010 1-hour SO_2 NAAQS.	Alabama	4/23/2013	10/12/2017, 82 FR 47393	Addressing Prong 4 of Section 110(a)(2)(D)(i)(I) only.
110(a)(1) and (2) Infrastructure Requirements for the 2012 Annual $PM_{2.5}$ NAAQS.	Alabama	12/9/2015	10/12/2017, 82 FR 47393	Addressing Prong 4 of Section 110(a)(2)(D)(i)(I) only.
Regional Haze Plan Revision	Alabama	10/26/2015	10/12/2017, 82 FR 47393.	
2008 Lead Maintenance Plan for the Troy Area.	Troy Area	1/3/2018	6/20/2018, 83 FR 28543.

June 2018 Regional Haze Progress Report.	Alabama	6/26/2018	3/5/2019, 84 FR 7823.	
110(a)(1) and (2) Infrastructure Requirements for the 2015 8-Hour Ozone NAAQS.	Alabama	8/27/2018	2/6/2020, 85 FR 6808	With the exception of 110(a)(2)(D)(i)(I) (prongs 1 and 2).
110(a)(1) and (2) Infrastructure Requirements for the 2010 1-hour SO_2 NAAQS.	Alabama	8/20/2018	3/10/2020, 85 FR 13755	Addressing Prongs 1 and 2 of section 110(a)(2)(D)(i) only.

[63 FR 70672, Dec. 22, 1998]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.50, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§ 52.51 Classification of regions.

The Alabama plan was evaluated on the basis of the following classifications:

Air quality control region	Pollutant				
	Particulate matter	Sulfur oxides	Nitrogen dioxide	Carbon monoxide	Photochemical oxidants (hydrocarbons)
Alabama & Tombigbee Rivers Intrastate	II	III	III	III	III
Columbus (Georgia)-Phenix City (Alabama) Interstate	I	III	III	III	III
East Alabama Intrastate	I	III	III	III	III
Metropolitan Birmingham Intrastate	I	II	III	I	I
Mobile (Alabama)-Pensacola-Panama City (Florida)-Southern Mississippi Interstate	I	I	III	III	I
Southeast Alabama Intrastate	II	III	III	III	III
Tennessee River Valley (Alabama)-Cumberland Mountains (Tennessee) Interstate	I	I	III	III	III

[37 FR 10847, May 31, 1972]

§ 52.53 Approval status.

With the exceptions set forth in this subpart, the Administrator approves Alabama's plan for the attainment and maintenance of the national standards under section 110 of the Clean Air Act. Furthermore, the Administrator finds that the plan satisfies all requirements of part D, title 1, of the Clean Air Act as amended in 1977.

[79 FR 30050, May 27, 2014, as amended at 80 FR 17691, Apr. 2, 2015; 80 FR 61112, Oct. 9, 2015; 81 FR 83144, Nov. 21, 2016; 82 FR 3639, Jan. 12, 2017; 82 FR 9515, Feb. 7, 2017; 82 FR 47396, Oct. 12, 2017; 83 FR 31458, July 6, 2018]

§ 52.54 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?

(a)(1) The owner and operator of each source and each unit located in the State of Alabama and Indian country within the borders of the State and for which requirements are set forth under the CSAPR NO_X Annual Trading Program in subpart AAAAA of part 97 of this chapter must comply with such requirements. The obligation to comply with such requirements with regard to sources and units in the State will be eliminated by the promulgation of an approval by the Administrator of a revision to Alabama's State Implementation Plan (SIP) as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan under § 52.38(a) for those sources and units, except to the extent the Administrator's approval is partial or conditional. The obligation to comply with such requirements with regard to sources and units located in Indian country within the borders of the State will not be eliminated by the promulgation of an approval by the Administrator of a revision to Alabama's SIP.

(2) Notwithstanding the provisions of paragraph (a)(1) of this section, if, at the time of the approval of Alabama's SIP revision described in paragraph (a)(1) of this section, the Administrator has already started recording any allocations of CSAPR NO_X Annual allowances under subpart AAAAA of part 97 of this chapter to units in the State for a control period in any year, the provisions of subpart AAAAA of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of CSAPR NO_X Annual allowances to units in the State for each such control period shall continue to apply, unless provided otherwise by such approval of the State's SIP revision.

(b)(1) The owner and operator of each source and each unit located in the State of Alabama and Indian country within the borders of the State and for which requirements are set forth under the CSAPR NO_X Ozone Season Group 1 Trading Program in subpart BBBBB of part 97 of this chapter must comply with such requirements with regard to emissions occurring in 2015 and 2016.

(2) The owner and operator of each source and each unit located in the State of Alabama and Indian country within the borders of the State and for which requirements are set forth under the CSAPR NO_X Ozone Season Group 2 Trading Program in subpart EEEEE of part 97 of this chapter must comply

with such requirements with regard to emissions occurring in 2017 and each subsequent year. The obligation to comply with such requirements with regard to sources and units in the State will be eliminated by the promulgation of an approval by the Administrator of a revision to Alabama's State Implementation Plan (SIP) as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan (FIP) under §52.38(b) for those sources and units, except to the extent the Administrator's approval is partial or conditional. The obligation to comply with such requirements with regard to sources and units located in Indian country within the borders of the State will not be eliminated by the promulgation of an approval by the Administrator of a revision to Alabama's SIP.

(3) Notwithstanding the provisions of paragraph (b)(2) of this section, if, at the time of the approval of Alabama's SIP revision described in paragraph (b)(2) of this section, the Administrator has already started recording any allocations of CSAPR NO_X Ozone Season Group 2 allowances under subpart EEEEE of part 97 of this chapter to units in the State for a control period in any year, the provisions of subpart EEEEE of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of CSAPR NO_X Ozone Season Group 2 allowances to units in the State for each such control period shall continue to apply, unless provided otherwise by such approval of the State's SIP revision.

[76 FR 48361, Aug. 8, 2011, as amended at 80 FR 57275, Sept. 22, 2015; 81 FR 74586 and 74593, Oct. 26, 2016; 83 FR 65924, Dec. 21, 2018]

§52.55 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of sulfur dioxide?

(a) The owner and operator of each source and each unit located in the State of Alabama and Indian country within the borders of the State and for which requirements are set forth under the CSAPR SO_2 Group 2 Trading Program in subpart DDDDD of part 97 of this chapter must comply with such requirements. The obligation to comply with such requirements with regard to sources and units in the State will be eliminated by the promulgation of an approval by the Administrator of a revision to Alabama's State Implementation Plan (SIP) as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan under §52.39 for those sources and units, except to the extent the Administrator's approval is partial or conditional. The obligation to comply with such requirements with regard to sources and units located in Indian country within the borders of the State will not be eliminated by the promulgation of an approval by the Administrator of a revision to Alabama's SIP.

(b) Notwithstanding the provisions of paragraph (a) of this section, if, at the time of the approval of Alabama's SIP revision described in paragraph (a) of this section, the Administrator has already started recording any allocations of CSAPR SO_2 Group 2 allowances under subpart DDDDD of part 97 of this chapter to units in the State for a control period in any year, the provisions of subpart DDDDD of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of CSAPR SO_2 Group 2 allowances to units in the State for each such control period shall continue to apply, unless provided otherwise by such approval of the State's SIP revision.

[76 FR 48361, Aug. 8, 2011, as amended at 80 FR 57275, Sept. 22, 2015; 81 FR 74586 and 74593, Oct. 26, 2016]

§52.56 [Reserved]

§52.57 Control strategy: Sulfur oxides.

(a) The requirements of Subpart G of this chapter are not met since the Alabama plan does not provide for attainment and maintenance of the national standards for sulfur oxides in the vicinity of the Widows Creek Power Plant in Jackson County, Alabama. Therefore, Part 5.1, Fuel Combustion, of Chapter 5, Control of Sulfur Compound Emissions, of the rules and regulations of the State of Alabama, as adopted by the Alabama Air Pollution Control Commission on May 29, 1973, and amended on March 25, 1975, which is part of the revised sulfur oxide control strategy, is disapproved as it applies to

the Widows Creek Plant. Part 5.1 of the Alabama rules and regulations as adopted on January 18, 1972, remains the implementation plan regulation applicable to that source.

(b) [Reserved]

[41 FR 42674, Sept. 28, 1976, as amended at 51 FR 40676, Nov. 7, 1986]

§ 52.58 Control strategy: Lead.

The lead plan submitted by the State on March 24, 1982, is disapproved because it fails to provide for the attainment of the lead standard throughout Alabama. The lead plan submitted by the State on October 7, 1985, and November 13, 1986, for Jefferson County is conditionally approved on the condition that the State by October 1, 1987, determine what additional control measures may be necessary, if any, to assure attainment and maintenance as expeditiously as practicable but no later than the applicable attainment deadline and submit those measures to EPA for approval, together with an appropriate demonstration of attainment. The provisions in the regulation submitted on October 7, 1985, that give the Jefferson County Health Officer discretion to vary the requirements of the regulation are approved as limits on that discretion, but any variances that may result from those provisions are not approved in advance and hence change the applicable implementation plan only when approved by EPA on a case-by-case basis.

[49 FR 18738, May 2, 1984, as amended at 52 FR 4291, Feb. 11, 1987]

§ 52.60 Significant deterioration of air quality.

(a) All applications and other information required pursuant to § 52.21 from sources located in the State of Alabama shall be submitted to the State agency, Alabama Department of Environmental Management, P.O. Box 301463, Montgomery, Alabama 36130–1463, rather than to EPA's Region 4 office.(b) On March 24, 1987, the Alabama Department of Environmental Management submitted a letter committing the State of Alabama to require that modeling for PSD permits be done only in accordance with the ''Guideline on Air Quality Models (Revised)'' or other models approved by EPA.

[42 FR 22869, May 5, 1977, as amended at 46 FR 55518, Nov. 10, 1981; 52 FR 48812, Dec. 28, 1987; 74 FR 55143, Oct. 27, 2009]

§ 52.61 [Reserved]

§ 52.62 Control strategy: Sulfur oxides and particulate matter.

In a letter dated May 29, 1987, the Alabama Department of Health and Environmental Control certified that no emission limits in the State's plan are based on dispersion techniques not permitted by EPA's stack height rules. The certification does not apply to: Alabama Electric Cooperative—Lowman Steam Plant; Alabama Power Company-Gorgas Steam Plant, Gaston Steam Plant, Greene County Steam Plant, Gadsden Steam Plant, Miller Steam Plant, and Barry Steam Plant; Alabama River Pulp; Champion International Corporation; Container Corporation of America; Exxon Company's Big Escambia Creek Treating Facility; General Electric's Burkville Plant; International Paper; Scott Paper Company; Tennessee Valley Authority's Colbert, and Widows Creek Steam Plant; Union Camp Corporation; and U.S. Steel.

(a) *Determination of Attaining Data.* EPA has determined, as of September 20, 2010, the Birmingham, Alabama, nonattainment area has attaining data for the 2006 24-hour $PM_{2.5}$ NAAQS. This clean data determination, in accordance with 40 CFR 51.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 2006 24-hour $PM_{2.5}$ NAAQS.

(b) *Determination of Attaining Data.* EPA has determined, as of May 31, 2011, the Chattanooga, Tennessee, nonattainment area has attaining data for the 1997 annual $PM_{2.5}$ NAAQS. This determination, in accordance with 40 CFR 52.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures,

a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 1997 annual $PM_{2.5}$ NAAQS.

(c) *Determination of attaining data.* EPA has determined, as of June 29, 2011, the Birmingham, Alabama, nonattainment area has attaining data for the 1997 annual $PM_{2.5}$ NAAQS. This determination, in accordance with 40 CFR 52.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 1997 annual $PM_{2.5}$ NAAQS.

(d) *Disapproval.* EPA is disapproving portions of Alabama's Infrastructure SIP for the 2006 24-hour $PM_{2.5}$ NAAQS addressing interstate transport, specifically with respect to section 110(a)(2)(D)(i)(I).

(e) *Disapproval.* EPA is disapproving portions of Alabama's Infrastructure SIP for the 1997 annual and 2006 24-hour $PM_{2.5}$ NAAQS addressing section 110(a)(2)(E)(ii) that requires the State to comply with section 128 of the CAA.

[55 FR 5846, Feb. 20, 1990, as amended at 75 FR 57187, Sept. 20, 2010; 76 FR 31241, May 31, 2011; 76 FR 38024, June 29, 2011; 76 FR 43136, July 20, 2011; 77 FR 62452, Oct. 15, 2012]

§ 52.63 PM_{10} State Implementation Plan development in group II areas.

On March 15, 1989, the State submitted a committal SIP for the cities of Leeds and North Birmingham in Jefferson County. The committal SIP contains all the requirements identified in the July 1, 1987, promulgation of the SIP requirements for PM_{10} at 52 FR 24681. The SIP commits the State to submit an emissions inventory, continue to monitor for PM_{10}, report data and to submit a full SIP if a violation of the PM_{10} and National Ambient Air Quality Standards is detected.

[56 FR 32514, July 17, 1991]

§ 52.64 Determination of attainment.

Based upon EPA's review of the air quality data for the 3-year period 2007–2009, EPA determined that the Chattanooga, Alabama-Georgia-Tennessee $PM_{2.5}$ nonattainment area attained the 1997 annual $PM_{2.5}$ NAAQS by the applicable attainment date of April 5, 2010. Therefore, EPA has met the requirement pursuant to CAA section 179(c) to determine, based on the Area's air quality as of the attainment date, whether the Area attained the standard. EPA also determined that the Chattanooga, Alabama-Georgia-Tennessee $PM_{2.5}$ nonattainment area is not subject to the consequences of failing to attain pursuant to section 179(d).

[76 FR 55575, Sept. 8, 2011]

§ 52.65 Control Strategy: Nitrogen oxides.

On October 22, 1990, the Alabama Department of Environmental Management submitted a revision to Chapter 2, Control Strategy, by adding subsection 4.2.3. This revision addressed the strategy Alabama is using to implement provisions of the Prevention of Significant Deterioration regulations for nitrogen oxides.

[57 FR 24370, June 9, 1992]

§ 52.66 [Reserved]

§ 52.69 Original identification of plan section.

(a) This section identified the original ''Air Implementation Plan for the State of Alabama'' and all revisions submitted by Alabama that were federally approved prior to December 1, 1998. The information in this section is available in the 40 CFR, part 52 edition revised as of July 1, 1999, the 40 CFR, part 52, Volume 1 of 2 (§§ 52.01 to 52.1018) editions revised as of July 1, 2000 through July 1, 2011, and the 40 CFR, part 52, Volume 1 of 3 (§§ 52.01 to 52.1018) editions revised as of July 1, 2012.

(b)–(c) [Reserved]

[79 FR 30050, May 27, 2014]

Subpart C—Alaska

§ 52.70 Identification of plan.

(a) *Purpose and scope.* This section sets forth the applicable State implementation plan for the State of Alaska under section 110 of the Clean Air Act, 42 U.S.C. 7401–7671q and 40 CFR part 51

to meet national ambient air quality standards.

(b) *Incorporation by reference.* (1) Material listed in paragraphs (c) and (d) of this section with an EPA approval date prior to September 8, 2017, was approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Material is incorporated as it exists on the date of the approval, and notice of any change in the material will be published in the FEDERAL REGISTER. Entries in paragraphs (c) and (d) of this section with EPA approval dates after September 8, 2017, will be incorporated by reference in the next update to the SIP compilation.

(2) The EPA Region 10 certifies that the rules and regulations provided by the EPA in the SIP compilation at the addresses in paragraph (b)(3) of this section are an exact duplicate of the officially promulgated State rules/regulations which have been approved as part of the State Implementation Plan as of September 8, 2017.

(3) Copies of the materials incorporated by reference may be inspected at the EPA Region 10 Office at 1200 Sixth Avenue, Seattle WA, 98101; or the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call (202) 741–6030, or go to: *https://www.archives.gov/federal-register/cfr/ibr-locations.html.*

(c) *EPA approved regulations.*

III.VI. Small Business Assistance Program.	Statewide	4/18/1994	9/5/1995, 60 FR 46024.	
Infrastructure and Interstate Transport				
Interstate Transport Requirements—1997 Ozone and 1997 $PM_{2.5}$ NAAQS.	Statewide	2/7/2008	10/15/2008, 73 FR 60957	Approves SIP for purposes of CAA section 110(a)(2)(D)(i) for the 1997 Ozone and 1997 $PM_{2.5}$ NAAQS.
Infrastructure Requirements—1997 Ozone NAAQS.	Statewide	7/9/2012	10/22/2012, 77 FR 64425	Approves SIP for purposes of CAA sections 110(a)(2)(A), (B), (C), (D)(ii), (E), (F), (G), (H), (J), (K), (L), and (M) for the 1997 Ozone NAAQS.
Interstate Transport Requirements—2008 Ozone and 2006 $PM_{2.5}$ NAAQS.	Statewide	3/29/2011	8/4/2014, 79 FR 45103 ...	Approves SIP for purposes of CAA section 110(a)(2)(D)(i)(I) for the 2008 Ozone and 2006 $PM_{2.5}$ NAAQS.
Interstate Transport Requirements—2008 Lead NAAQS.	Statewide	7/9/2012	8/4/2014, 79 FR 45103 ...	Approves SIP for purposes of CAA section 110(a)(2)(D)(i)(I) for the 2008 Lead NAAQS.
Infrastructure Requirements—1997 $PM_{2.5}$ NAAQS.	Statewide	7/9/2012	11/10/2014, 79 FR 66651	Approves SIP for purposes of CAA section 110(a)(2)(A), (B), (C), (D)(ii), (E), (F), (H), (J), (K), (L), and (M) for the 1997 $PM_{2.5}$ NAAQS.
Infrastructure Requirements—2006 $PM_{2.5}$ NAAQS.	Statewide	7/9/2012, 3/29/2011	11/10/2014, 79 FR 66651	Approves SIP for purposes of CAA section 110(a)(2)(A), (B), (C), (D)(i)(II), (D)(ii), (E), (F), (H), (J), (K), (L), and (M) for the 2006 $PM_{2.5}$ NAAQS.
Infrastructure Requirements—2008 Ozone NAAQS.	Statewide	7/9/2012, 3/29/2011	11/10/2014, 79 FR 66651	Approves SIP for purposes of CAA section 110(a)(2)(A), (B), (C), (D)(i)(II), (D)(ii), (E), (F), (G), (H), (J), (K), (L), and (M) for the 2008 Ozone NAAQS.
Infrastructure Requirements—2010 NO_2 NAAQS.	Statewide	5/12/2015	5/12/2017, 82 FR 22081	Approves SIP for purposes of CAA section 110(a)(2)(A), (B), (C), (D)(i)(II), (D)(ii), (E), (F), (G), (H), (J), (K), (L), and (M) for the 2010 NO_2 NAAQS.
Infrastructure Requirements—2010 SO_2 NAAQS.	Statewide	5/12/2015	5/12/2017, 82 FR 22081	Approves SIP for purposes of CAA section 110(a)(2)(A), (B), (C), (D)(i)(II), (D)(ii), (E), (F), (G), (H), (J), (K), (L), and (M) for the 2010 SO_2 NAAQS.

EPA-APPROVED ALASKA NONREGULATORY PROVISIONS AND QUASI-REGULATORY MEASURES—Continued

Name of SIP provision	Applicable geographic or nonattainment area	State submittal date	EPA approval date	Explanations
Infrastructure Requirements—2012 $PM_{2.5}$ NAAQS.	Statewide	3/10/2016	11/27/2018, 83 FR 60769	Approves SIP for purposes of CAA sections 110(a)(2)(A), (B), (C), (D)(i)(II), (D)(ii), (E), (F), (H), (J), (K), (L), and (M) for the 2012 $PM_{2.5}$ NAAQS.
Infrastructure Requirements—1997, 2006, and 2012 $PM_{2.5}$ NAAQS.	Statewide	3/10/2016	11/27/2018, 83 FR 60769	Approves SIP for purposes of CAA sections 110(a)(2)(G) for the 1997, 2006, and 2012 $PM_{2.5}$ NAAQS.
Interstate Transport Requirements—2012 $PM_{2.5}$ NAAQS.	Statewide	3/10/2016	6/27/2018, 83 FR 30048	Approves SIP for purposes of CAA section 110(a)(2)(D)(i)(I) for the 2012 $PM_{2.5}$ NAAQS.
Interstate Transport Requirements—2010 NO_2 and 2010 SO_2 NAAQS.	Statewide	3/10/2016	6/25/2018, 83 FR 29449	Approves SIP for purposes of CAA section 110(a)(2)(D)(i)(I) for the 2010 NO_2 and 2010 SO_2 NAAQS.

Infrastructure Requirements—2015 Ozone NAAQS.	Statewide	10/25/2018	12/23/2019, 84 FR 70428	Approves SIP for purposes of CAA section 110(a)(2)(A), (B), (C), (D)(i)(II), (D)(ii), (E), (F), (G), (H), (J), (K), (L), and (M) for the 2015 Ozone NAAQS.

[79 FR 19822, Apr. 10, 2014, as amended at 79 FR 56272, Sept. 19, 2014; 79 FR 45104, Aug. 4, 2014; 79 FR 66653, Nov. 10, 2014; 80 FR 833, Jan. 7, 2015; 80 FR 30162, May 27, 2015; 80 FR 53738, Sept. 8, 2015; 81 FR 31512, May 19, 2016; 81 FR 85162, Nov. 25, 2016; 82 FR 22083, May 12, 2017; 82 FR 37308, Aug. 10, 2017; 82 FR 40713, Aug. 28, 2017; 82 FR 42471, Sept. 8, 2017; 82 FR 57838, Dec. 8, 2017; 83 FR 15747, Apr. 12, 2018; 83 FR 29450, June 25, 2018; 83 FR 30049, June 27, 2018; 83 FR 60773, Nov. 27, 2018; 84 FR 26021, June 5, 2019; 84 FR 45421, Aug. 29, 2019; 84 FR 69334, Dec. 18, 2019; 84 FR 70429, Dec. 23, 2019]

§ 52.71 Classification of regions.

The Alaska plan was evaluated on the basis of the following classifications:

Air quality control Region	Pollutant				
	Particulate matter	Sulfur oxides	Nitrogen dioxide	Carbon monoxide	Ozone
Cook Inlet Intrastate	I	III	III	I	III.
Northern Alaska Intrastate	I	III	III	I	III.
South Central Alaska Intrastate	III	III	III	III	III.
Southeastern Alaska Intrastate	III	III	III	III	III.

[37 FR 10848, May 31, 1972, as amended at 48 FR 30625, July 5, 1983]

§ 52.72 Approval status.

With the exceptions set forth in this subpart, the Administrator approves Alaska's plan for the attainment and maintenance of the national standards. The State included in the plan a regulation prohibiting idling of unattended motor vehicles. However, the plan stated that this regulation was included for informational purposes only, and was not to be considered part of the control strategy to implement the national standards for carbon monoxide. Accordingly, this regulation is not considered a part of the applicable plan.

[37 FR 15080, July 27, 1972]

§ 52.73 Approval of plans.

(a) Carbon monoxide.

(1) Anchorage.

(i) EPA approves as a revision to the Alaska State Implementation Plan, the Anchorage Carbon Monoxide Maintenance Plan (Volume II Section III.B of the State Air Quality Control Plan, adopted January 2, 2004, effective February 20, 2004 and Volume III of the Appendices adopted January 2, 2004, effective February 20, 2004) submitted by the Alaska Department of Environmental Conservation on February 18, 2004.

(ii) EPA approves as a revision to the Alaska State Implementation Plan, the Anchorage Carbon Monoxide Maintenance Plan (Volume II Sections II, III.A and III.B of the State Air Quality Control Plan adopted August 20, 2010, effective October 29, 2010, and Volume III of the Appendices adopted August 20, 2010, effective October 29, 2010) submitted by the Alaska Department of Environmental Conservation on September 29, 2010.

(iii) The EPA approves the following revised sections of the Anchorage Transportation Control Program, Anchorage CO Maintenance Plan (Volume II, Section III.B) of the Alaska SIP Submittal adopted July 13, 2011, and submitted on September 20, 2011: Planning Process (Section III.B.1), Maintenance Area Boundary (Section III.B.2), Nature of the CO Problem—Causes and Trends (Section III.B.3), Transportation Control Strategies (Section III.B.5), Modeling and Projections (Section III.B.6), Contingency Plan (Section III.B.7), Anchorage Emergency Episode Plan (Section III.B.8), Assurance of Adequacy (Section III.B.9) and Redesignation Request (Section III.B.11). The EPA also approves the following revised sections of the Appendices (Volume III): Anchorage Assembly Resolution No. 2011–133 (Appendix III.B.1), Anchorage 2007 Carbon Monoxide Emission Inventory and 2007–2023 Emission Projections (Appendix III.B.3), Analysis of Probability of Complying with the National Ambient Air Quality Standard for Carbon Monoxide in Anchorage between 2007 and 2023 (Appendix III.B.6) and Affidavit of Oral Hearing (Appendix III.B.10).

(iv) The EPA approves the following revised sections of the Anchorage Transportation Control Program, Anchorage CO Limited Maintenance Plan (Volume II, Section III.B), of the Alaska SIP Submittal adopted February 22, 2013, and submitted on April 22, 2013: Carbon Monoxide Monitoring Program (Section III.B.4) Air Quality Conformity Procedures (Section III.B.10), Limited Maintenance Plan for 2014–2024

(Section III.B.12). In this action, the EPA also approves the following revised sections of the Appendices (Volume III): Anchorage Assembly Resolution No. 2013–20 (Appendix III.B.1) and Affidavit of Oral Hearing (Appendix III.B.10).

(2) Fairbanks.

(i) EPA approves as a revision to the Alaska State Implementation Plan, the Fairbanks Carbon Monoxide Maintenance Plan (Volume II.C of the State Air Quality Control Plan, adopted April 27, 2004 and Volume III.C of the Appendices adopted April 27, 2004, effective June 24, 2004) submitted by the Alaska Department of Environmental Conservation on June 21, 2004.

(ii) The EPA approves as a revision to the Alaska State Implementation Plan, the Fairbanks Carbon Monoxide Limited Maintenance Plan (Volume II, Section III.C.12 of the State Air Quality Control Plan, adopted February 22, 2013) submitted by the Alaska Department of Environmental Conservation on April 22, 2013. In this action, the EPA is also approving the following revised sections of the Fairbanks Transportation Control Program (Volume II, Section III.C): Air Quality Emissions Data (Section III.C.3), Carbon Monoxide Network Monitoring Program (Section III.C.4), Modeling and Projections (Section III.C.6), and Air Quality Conformity Procedures (Section III.C.10); and the following revised sections of the Appendices to Volume II of the Fairbanks Transportation Control Program (Volume III): Section III.C.1 and Section III.C.10, all of which were included in the April 22, 2013 SIP submittal.

(b) *Lead*. [Reserved]

(c) *Nitrogen dioxide*. [Reserved]

(d) *Ozone*. [Reserved]

(e) *Particulate matter*. (1) *Mendenhall Valley*. (i) The EPA approves as a revision to the Alaska State Implementation Plan, the Mendenhall Valley PM_{10} Limited Maintenance Plan (Volume II, Section III.D.3 of the State Air Quality Control Plan, and Volume III.D.3.5, Volume III.D.3.8, and Volume III.D.3.9 of the Appendices (to Volume II, section III.D.3)) adopted February 20, 2009, and submitted by the Alaska Department of Environmental Conservation to the EPA on May 14, 2009.

(ii) [Reserved]

(f) *Sulfur dioxide*. [Reserved]

(g) *Visibility protection*. (1) EPA approves the Regional Haze SIP revision submitted by the Alaska Department of Environmental Conservation on April 4, 2011, as meeting the requirements of Clean Air Act sections 169A and 169B, and Federal Regulations 40 CFR 51.308 to implement a regional haze program in the State of Alaska for the first planning period through July 31, 2018.

(2) [Reserved]

[67 FR 58712, Sept. 18, 2002, as amended at 69 FR 24936, June 23, 2004; 69 FR 44605, July 27, 2004; 77 FR 1417, Jan. 10, 2012; 78 FR 907, Jan. 7, 2013; 78 FR 10554, Feb. 14, 2013; 78 FR 27077, May 9, 2013; 78 FR 48615, Aug. 9, 2013; 79 FR 1171, Mar. 3, 2014]

§ 52.74 Original identification of plan section.

(a) This section identified the original ''Air Quality Implementation Plan for the State of Alaska'' and all revisions submitted by Alaska that were Federally-approved prior to March 4, 2014.

(b) The plan was officially submitted on April 25, 1972.

(c) The plan revisions listed below were submitted on the dates specified.

(1) Modifications to the implementation plan including a revision to Title 18, Chapter 50, section 160 and other nonregulatory provisions submitted on June 22, 1972, by the Governor.

(2) Compliance schedules submitted on August 2, 1973, by the State of Alaska Department of Environmental Conservation.

(3) Compliance schedules submitted on August 23, 1973, by the State of Alaska Department of Environmental Conservation.

(4) Compliance schedules submitted on September 30, 1975, by the State of Alaska Department of Environmental Conservation.

(5) Compliance schedules submitted on January 6, 1976, by the State of Alaska Department of Environmental Conservation.

(6) Compliance schedules submitted on September 30, 1975, by the State of Alaska Department of Environmental Conservation.

(7) Part D attainment plans for the Anchorage and Fairbanks carbon monoxide nonattainment areas submitted by the Governor of Alaska on January 18, 1980 as follows:

VOLUME II. ANALYSIS OF PROBLEMS, CONTROL ACTIONS

Section III. *Areawide Pollutant Control Efforts*, Subsection A.
Carbon Monoxide, except subparts 1.c (Other areas) and 5.h (Fairbanks Emergency Avoidance Plan)

VOLUME III. APPENDICES

III–1 A Review of Carbon Monoxide Emissions from Motor Vehicles during Cold Temperature Operation
III–2 Cold Weather Related Strategy Support Development
III–3 Preliminary Assessment of Meteorological Conditions during Days of Ambient Air Quality Violations in Anchorage
III–4 Summary of the 1978 Fairbanks Voluntary Vehicle Emissions Inspection Program
III–5 Approach of Evaluating an Alaska I/M Program
III–6 Appendices to the Anchorage Air Quality Plan
III–7 Appendices to the Fairbanks Air Quality Plan

(8) On January 18, 1980, the State of Alaska Department of Environmental Conservation submitted a plan revision to meet the requirements of Air Quality Monitoring, 40 CFR part 58, subpart C, § 58.20, as follows:

VOLUME II. ANALYSIS OF PROBLEMS, CONTROL ACTIONS

Section V. *Ambient Air Monitoring*
A. Purpose
C. Air Monitoring Network
E. Annual Review

(9) Provisions of a State Air Quality Control Plan submitted by the Governor of Alaska on January 18, 1980, as follows:

VOLUME II. ANALYSIS OF PROBLEMS, CONTROL ACTIONS

Section I. *Introduction*
A. Summary
B. Air Quality Control Regions
C. Attainment/Nonattainment Designations
Section II. *Alaskan Air Quality Control Programs*
A. State Program
B. Local Programs
C. Resource Needs
Section III. *Areawide Pollutant Control Efforts*
A. Carbon Monoxide, Subpart 1.c (Other areas)
B. Total Suspended Particulate Matter
C. Ice Fog
D. Open Burning—Forest Practices
Section IV. *Point Source Control Efforts*
A. Summary
B. Description of Source Categories and Pollutants
C. Summary of Major Emitting Sources
D. History of Alaskan Point Source Program
F. Local Program Enforcement
G. New Source Review and Approval
H. Compliance Assurance
I. State Air Quality Control Regulations
Section V. *Ambient Air Monitoring*
B. Description of Previous Air Monitoring Network

VOLUME III. APPENDICES

I–1 Summary of Public Hearings, Written Testimony, etc.
I–2 Recommendations for attainment/Nonattainment designations
II–1 Alaska Statutes, except section 46.03.170
II–2 Regulations of the Fairbanks North Star Borough, except section 8.04.070
II–3 Fairbanks North Star Borough/Alaska Department of Environmental Conservation Agreement
II–4 Municipality of Anchorage/Alaska Department of Environmental Conservation Agreement
II–5 Alaska State Department of Law Legal Opinion
IV–1 Summaries of Emission Inventories
IV–2 D. Permit to Operate for the Fairbanks Municipal Utilities System
IV–3 Testing Procedures
V–1 Air Quality Data
An amended Appendix II–5, ''Alaska State Department of Law Legal Opinion'' submitted by the State of Alaska Department of Environmental Conservation on February 29, 1980. Amendments to the January 18, 1980 submittal, submitted by the State of Alaska Department of Environmental Conservation on September 29, 1982 as follows:

VOLUME II. ANALYSIS OF PROBLEMS, CONTROL ACTIONS

Section I. *Introduction*
C. Attainment/Nonattainment Designations
Section III. *Areawide Pollutant Control Efforts*
D. Open Burning—Forest Practices
Section IV. *Point Source Control Efforts*
C. Summary of Major Emitting Sources
D. History of Alaskan Point Source Program
F. Local Program Enforcement
G. New Source Review and Approval
H. Compliance Assurance
I. State Air Quality Control Regulations
Section V. *Ambient Air Monitoring*

C. Air Monitoring Network
E. Annual Review

VOLUME III. APPENDICES

IV–4 ADEC Ambient Analysis Procedures

(10) On November 15, 1983 the State of Alaska Department of Environmental Conservation submitted a revision to add a lead strategy to the Alaska Implementation Plan.

(11) Provisions of a State Air Quality Control Plan submitted by the Alaska Department of Environmental Conservation on November 15, 1983, as follows:

VOLUME II. ANALYSIS OF PROBLEMS, CONTROL ACTIONS

Section I. *Background*

A. Introduction
B. Air Quality Control Regions
C. Attainment/Nonattainment Designations
D. Prevention of Significant Deterioration Designations

Section II. *State Air Quality Control Program*

Section III. *Areawide Pollutant Control Program*

D. Total Suspended Particulate Matter
E. Ice Fog
F. Open Burning
G. Wood Smoke Pollution Control

Section IV. *Point Source Control Program*

A. Summary
1. Annual Review Report
B. State Air Quality Regulations
C. Local Programs
D. Description of Source Categories and Pollutants
1. Typical Point Sources
2. Summary of Major Emitting Facilities
E. Point Source Control
1. Introduction
F. Facility Review Procedures
1. Who needs a permit?
2. Standard Application Procedures
3. PSD Application Procedures, Preliminary report and meeting, Pre-construction monitoring, PSD application format
4. Nonattainment Application Procedures
G. Application Review and Permit Development
1. Application Review
2. Permit Development Requirement, Monitoring and Testing Requirements, Ambient Monitoring, Continuous Emissions Monitoring, Source Testing
3. Prevention of Significant Deterioration Review, Basis of Program, PSD Regulations, PSD Analysis Procedure
4. Nonattainment Area Review
5. New Source Performance Standards Source Review
6. Visibility Review
7. Sources under EPA Review
H. Permit Issuance Requirements

Section V. *Ambient Air Monitoring*

A. Purpose
B. Completed Air Monitoring Projects
1. Carbon Monoxide
2. Nitrogen Oxides
3. Sulfur Dioxide
4. Ozone
5. Total Suspended Particulates (TSP)
6. Lead
C. Air Monitoring Network
1. Network Description
2. Station Designations
3. Air Quality Monitoring Procedures
4. Ambient Sampling for Specific Pollutants
E. Annual Review

VOLUME III. APPENDICES

Section II. *State Air Quality Control Program*

II.A. State Air Statutes, except section 46.03.170, State Attorney General Opinions on Legal Authority
II.B. Municipality of Anchorage/Cook Inlet/ADEC Agreements
II.C. Fairbanks North Star Borough Ordinances/FNSB & ADEC Agreements

Section III. *Areawide Pollutant Control Program*

III.G. Ordinance of the City and Borough of Juneau

Section IV. *Point Source Control Program*

IV.1. PSD Area Classification and Reclassifications
A. Class I Area Boundaries
B. Areas Protected from Visibility Degradation
C. Reclassification
1. Limitations on PSD Reclassification
2. PSD Reclassification Procedures
IV.2. Compliance Assurance
IV.3. Testing Procedures

Section V. *Ambient Air Monitoring*

ADEC Ambient Analysis Procedures

Title 18. Environmental Conservation, *Chapter 50. Air Quality Control*, Sections 021(d), 030(g), 040(a)(2), 040(c), 050(a)(2), 050(b)(4), 085, 300(a)(1), 300(a)(7), 400(d)(6), 500(d), 500(e), 510 (Editor's Note), 520(a), 520(b), 610(a), 620, 900(15), 900(39), 900(47), and 900(48).

(12) On September 29, 1982, the Commissioner of the Alaska Department of Environmental Conservation submitted a carbon monoxide attainment plan for the cities of Anchorage (section III.B)

and Fairbanks (section III.C) as a revision to the Alaska State Implementation Plan. On November 15, 1983, a revision to this plan was submitted for the city of Anchorage. Supplement to the Anchorage and Fairbanks plans revisions to section III.A (Areawide Pollutant Control Program, Statewide Transportation Control Program) and a new State Regulation 18 AAC Chapter 52 (Emissions Inspection and Maintenance Requirements for Motor Vehicles) were submitted on May 31, 1985.

(i) *Incorporation by reference.* (A) May 31, 1985 letter from the State of Alaska to EPA, and State Regulation 18 AAC 52 (Emissions Inspection and Maintenance Requirements for Motor Vehicles) as filed by the Commissioner for the State of Alaska on May 19, 1985.

(B) Page section III.B.8–3 of the Anchorage Transportation Control Program, Alaska Air Quality Control Plan, revised June 1, 1985 (emissions and air quality projections for Anchorage with vehicle inspection and maintenance program).

(C) Table C.6.a of the Fairbanks Transportation Control Program, Alaska Air Quality Control Plan [reasonable further progress required reductions for Fairbanks] (page section III.C.6–2) revised November 20, 1982.

(ii) *Other material.* (A) Section III.A Statewide Transportation Control Program.

(B) Section III.B Anchorage Transportation Control Program.

(C) Section III.C Fairbanks Transportation Control Program.

(D) The I/M Program Design for the Fairbanks North Star Borough dated October 25, 1984.

(E) The I/M Program Design for the Municipality of Anchorage dated 1984.

(13) On June 26, 1987, the State of Alaska Department of Environmental Conservation submitted Section III.B.10–1 through III.B.10–6 (Anchorage Air Pollution Episode Curtailment Actions); Section III.C.10–1 through III.C.10–9 (Fairbanks Emergency Episode Prevention Plan); and minor modifications to Section III.C.5–7 (Fairbanks Inspection and Maintenance Program Design).

(i) *Incorporation by reference.* (A) June 26, 1987 letter from the State of Alaska Department of Environmental Conservation to EPA Region 10.

(B) Section III.B.10–1 through III.B.10–6 of Volume II (Anchorage Air Pollution Episode Curtailment Actions) as adopted as an ordinance by the Anchorage Assembly on September 9, 1986.

(C) Section III.C.10–1 through III.C.10–9 of Volume II (Fairbanks Emergency Episode Prevention Plan) as adopted as an ordinance by the Assembly of the Fairbanks North Star Borough on December 19, 1985.

(D) Page number Section III.C.5–7 of Volume II (Fairbanks Inspection and Maintenance Design). This new page supercedes the current page number Section III.C.5–7 of the Alaska Air Quality Control Plan as adopted by the Alaska Department of Environmental Conservation on June 26, 1987.

(14) On June 26, 1987, the Commissioner of the Alaska Department of Environmental Conservation submitted revised rules regulating the height of stacks and the use of dispersion techniques, specifically revisions to 18 AAC 50.400(a), 18 AAC 50.530(c), 18 AAC 50.900(16), 18 AAC 50.900(20), 18 AAC 50.900(23), and 18 AAC 50.900.(29), and the deletion of 18 AAC 50.900(17).

(i) *Incorporation by reference.* (A) June 26, 1987 letter from the State of Alaska Department of Environmental Conservation to EPA, Region 10.

(B) August 11, 1987 letter from the State of Alaska Department of Environmental Conservation to EPA, Region 10.

(C) 18 AAC 50.400(a) and 18 AAC 50.900 (16), (20), (23), and (29) as adopted by the State of Alaska Department of Environmental Conservation on December 31, 1986.

(15) On September 12, 1988, the State of Alaska Department of Environmental Conservation submitted revisions to AAC 18 Chapter 52 (Emission Inspection and Maintenance Requirements for Motor Vehicles). Those sections amended through June 2, 1988, are: 18 AAC 51.010 [Purpose and General Requirements] (a)(3), (b), (d), (e), and (g); 18 AAC 52.020 [Vehicles Subject to this Chapter] (1); 18 AAC 52.070 [Waivers] (5)(A) through (C); and 18 AAC 52.900 [Definitions] (14).

(i) *Incorporation by reference.* (A) September 12, 1988 letter from the State of Alaska Department of Environmental Conservation to EPA Region 10.

(B) Chapter 52 [Emissions Inspection and Maintenance Requirements for Motor Vehicles] section 52.010 [Purpose and General Requirements (a)(3), (b), (d), (e), and (g); section 52.020 [Vehicles Subject to This Chapter] (1); section 52.070 [Waivers] (5)(A) through (C); and section 52.900 [Definitions] (14) as adopted by the State of Alaska Department of Environmental Conservation on March 10, 1988.

(16) On September 12, 1988, the State of Alaska Department of Environmental Conservation submitted revisions to the State of Alaska state implementation plan. Specifically pages IV.F.1–1 through IV.F.1–8 of section IV.F ''Project Review Procedures'' and amendments to title 18, chapter 50, sections 050(a)(4), 050(b), 050(d)(1), 300(a)(5)(C), 300(a)(6)(C), 300(a)(7), 300(c), 300(g), 500(d), 510(a), 520(a), 520(b), and 620 of the Alaska Administrative Code.

(i) *Incorporation by reference.* (A) September 12, 1988, letter from the State of Alaska Department of Environmental Conservation to EPA Region 10 submitting a revision to the Alaska state implementation plan.

(B) Vol. II, Analysis of Problems, Control Actions, Pages IV.F.1–1 through IV.F.1–8 of section IV.F, ''Project Review Procedures,'' revised June 2, 1988.

(C) Title 18, chapter 50, (Air Quality Control) section 050 (Industrial Processes and Fuel Burning Equipment) (a)(4), 050(b), 050(d)(1), 300 (Permit to Operate) (a)(5)(C), 300(a)(6)(C), 300(a)(7), 300(c), 300(g), 500 (Source Testing) (d), 510 (Ambient Analysis Methods) (a), 520 (Emission and Ambient Monitoring) 520(a), 520(b), and 620 (Air Quality Control Plan) of the Alaska Administrative Code as adopted by the State of Alaska Department of Environmental Conservation on March 10, 1988 and effective on June 2, 1988.

(17) On October 17, 1991, the State of Alaska Department of Environmental Conservation submitted a PM_{10} nonattainment area state implementation plan for Eagle River, Alaska.

(i) *Incorporation by reference.* (A) October 15, 1991 letter from Alaska Department of Environmental Conservation to EPA Region 10 submitting the PM_{10} nonattainment area state implementation plan for Eagle River, Alaska.

(B) The PM_{10} nonattainment area state implementation plan for Eagle River, Alaska, as adopted by the Anchorage Assembly on February 6, 1990 and effective on September 24, 1991.

(18) On June 22, 1993, the Governor of the State of Alaska submitted revised rules to satisfy certain Federal Clean Air Act requirements for an approvable moderate PM_{10} nonattainment area SIP for Mendenhall Valley, Alaska. Also included in this SIP were PM_{10} contingency measures for the Mendenhall Valley. On January 21, 1992, a supplement to the existing Eagle River PM_{10} control plan was submitted by ADEC to EPA and certified on March 8, 1993, by the Lieutenant Governor of Alaska.

(i) *Incorporation by reference.* (A) June 22, 1993, letter from the Governor of the State of Alaska to EPA, Region 10, submitting the moderate PM_{10} nonattainment area SIP for Mendenhall Valley, Alaska.

(B) The Control Plan for Mendenhall Valley of Juneau, effective July 8, 1993.

(C) August 25, 1993, letter from ADEC showing, through enclosures, the permanent filing record for the supplement to the existing Eagle River PM_{10} control plan. The Lieutenant Governor certified the supplement on March 8, 1993.

(D) The January 21, 1992, supplement to the existing Eagle River PM_{10} control plan, effective April 7, 1993. Also included is an August 27, 1991 Municipality of Anchorage memorandum listing the 1991 capital improvement project priorities and an October 11, 1991, Municipality of Anchorage memorandum summarizing the supplement to the existing PM_{10} control plan.

(19) The Environmental Protection Agency (EPA) takes action on and/or approves regulations from three submittals received from the ADEC on July 17, 1990, October 15, 1991 and on March 24, 1994, which pertain to correcting SIP deficiencies in the CFR; amendments to regulations dealing with Air Quality Control, 18 AAC 50,

for inclusion into Alaska's SIP; and additional amendments to 18 AAC 50, Air Quality Control, for inclusion into Alaska's SIP to assure compliance with new source review permitting requirements for sources located in nonattainment areas for either carbon monoxide or particulate matter.

(i) *Incorporation by reference.* (A) July 17, 1990 letter from ADEC to EPA requesting correction for findings of SIP deficiency in 40 CFR Part 52, and including the version of Alaska Statutes, ''Title 46. Water, Air, Energy, and Environmental Conservation,'' in effect at the time of the July 17, 1990 letter, of which Sections 46.03.020, 46.03.030, 46.03.032, and 46.03.715, amended in 1987, were the most recently amended of the enclosed statutes.

(B) October 15, 1991 letter from ADEC to EPA, and including amendments to regulations and the State Air Quality Control Plan to assure compliance with national ambient air quality standards for particulate matter; the Order Amending Regulations of the Department of Environmental Conservation, effective July 21, 1991; and the following *Alaska Administrative Code, 18 AAC 50, Air Quality Control Regulations:* (50.020; 50.085; 50.100; 50.300; 50.400; 50.510, 50.520, 50.610, and 50.900), effective July 21, 1991, Register 119.

(C) March 24, 1994 letter from Walter J. Hickel, Governor of Alaska, to Chuck Clarke, Regional Administrator of EPA, and including amendments to 18 AAC 50, State Air Quality Control Plan; the Order Adopting and Amending Regulations of the Department of Environmental Conservation, effective April 23, 1994, Register 130; and the amendments to 18 AAC 50 (50.021, 50.300(a)(7) and (a)(8), 50.300 (d), (e), and (g), 50.400(a)(1)(A), 50.400(c)(3)(B)(ii), 50.400(c)(4), 50.400(d)(4), and 50.620), State Air Quality Control Plan, found in Volume III: Appendices, Modifications to Section III.A, effective April 23, 1994, Register 130.

(20) On April 18, 1994, the Commissioner of the Alaska Department of Environmental Conservation (ADEC) submitted ''The Alaska Air Quality Small Business Assistance Program State Air Quality Control Plan Amendment,'' adopted April 8, 1994, as a revision to the Alaska SIP.

(i) *Incorporation by reference.* (A) Letter dated April 8, 1994, from the Commissioner of ADEC to the Regional Administrator of EPA, submitting ''The Alaska Air Quality Small Business Assistance Program State Air Quality Control Plan Amendment'' to EPA; the Alaska Air Quality Small Business Assistance Program State Air Quality Control Plan Amendment (which includes Appendix A the Alaska Statutes Title 46, Chapter 14, Article 3), dated April 1994, and adopted April 8, 1994.

(ii) *Additional information.* (A) Letter dated July 24, 1995, from Alaska Department of Environmental Conservation, submitting information necessary for approval of the SBAP revision to EPA; the July 1995 SBAP Update, Responses to EPA Comments, and the Air Quality/Small Business Assistance Compliance Advisory Panel Board Information.

(21) On July 11, 1994 ADEC submitted a SIP revision for a basic motor vehicle inspection and maintenance (I/M) program in the Municipality of Anchorage (MOA) and the Fairbanks North Star Borough (FNSB).

(i) *Incorporation by reference.* (A) July 11, 1994 letter from the Governor of Alaska to the Regional Administrator of EPA submitting Alaska's amendments to the Air Quality Control Plan and to 18 AAC 52, Emissions Inspection and Maintenance Requirements for Motor Vehicles; the amendments to 18 AAC 52 (52.005, .015, .020, .030, .035, .040, .045, .050, .055, .060, .065, .070, .075, .080, .085, .090, .095, .100, .105, .400, .405, .410, .415, .420, .425, .430, .440, .445, .500, .505, .510, .515, .520, .525, .527, .530, .535, .540, .545, .550, and .990), effective February 1, 1994; and the State Air Quality Control Plan, Vol. II: Analysis of Problems, Control Actions, Modifications to Section I, June 9, 1994; Vol. II: Analysis of Problems, Control Actions, Modifications to Section I, II, III and V, adopted January 10, 1994; Vol. III: Appendices, Modifications to Section III.A, June 9, 1994; Vol. III: Appendices, Modifications to Section III.B, June 9, 1994; and Vol. III: Appendices, Modifications to Section III.C, June 9, 1994.

(22) On March 24, 1994, ADEC submitted a revision to its SIP for the State of Alaska addressing the attainment and maintenance of the National

Ambient Air Quality Standards for carbon monoxide in the Anchorage carbon monoxide nonattainment area.

(i) *Incorporation by reference.* (A) March 24, 1994 letter from Alaska Governor Walter Hickel to EPA Regional Administrator Chuck Clarke including as a revision to the SIP the State of Alaska, Department of Environmental Conservation, 18 AAC 53, ''Fuel Requirements for Motor Vehicles,'' (Article 1, 18 AAC 53.005–18 AAC 53.190 and Article 9, 18 AAC 53.990) with amendments adopted through March 19, 1994.

(23) On March 24, 1994, ADEC submitted a SIP revision to EPA to satisfy the requirements of sections 187(a)(2)(A) and 187(a)(3) of the CAA, forecasting and tracking VMT in the Anchorage area.

(i) *Incorporation by reference.* (A) March 24, 1994 letter from the Alaska Governor to the EPA Regional Administrator including as a revision to the SIP the VMT requirement in the Anchorage area, contained in ADEC's State Air Quality Control Plan, Volume III: Appendices, Modifications to Section III.B.6, III.B.8, III.B.10 and III.B.11, adopted January 10, 1994; and further description on pages 10–14, 57–60 and 69–75 contained in ADEC's State Air Quality Control Plan, Volume III: Appendices, Modifications to Section III.B, III.B.1, and III.B.3, adopted January 10, 1994.

(24) On December 5, 1994 the Alaska Department of Environmental Conservation sent EPA revisions for inclusion into Alaska's SIP that address transportation and general conformity regulations as required by EPA under the CAA.

(i) *Incorporation by reference.* (A) December 5, 1994 letter from the Governor of Alaska to EPA, Region 10, submitting amendments addressing transportation and general conformity revisions to the SIP:

(*1*) Regulations to 18 AAC 50, Air Quality Control, including Article 5, Procedure and Administration, 18 AAC 620; Article 6, Reserved; Article 7, Conformity, 18 AAC 50.700–18 AAC 50.735; Article 8, Reserved; and Article 9, General Provisions, 18 AAC 50.900, all of which contain final edits (23 pages total) by the Alaska Department of Law, were filed by the Lieutenant Governor on December 5, 1994 and effective on January 4, 1995.

(*2*) Amendments to the Alaska State Air Quality Control Plan, ''Volume II: Analysis of Problems, Control Actions,'' as revised on December 1, 1994, adopted by reference in 18 AAC 50.620, containing final edits by the Alaska Department of Law, all of which were certified by the Commissioner of Alaska to be the correct plan amendments, filed by the Alaska Lieutenant Governor on December 5, 1994 and effective on January 4, 1995.

(25) On March 24, 1994, ADEC submitted a revision to its SIP for the State of Alaska addressing the attainment and maintenance of the NAAQS for CO in the Anchorage CO nonattainment area.

(i) *Incorporation by reference.* (A) March 24, 1994 letter from the Alaska Governor to the EPA Regional Administrator including as a revision to the SIP the State of Alaska, Department of Environmental Conservation, 18 AAC 53, ''Fuel Requirements for Motor Vehicles,'' (Article 1, 18 AAC 53.005–18 AAC 53.190 and Article 9, 18 AAC 53.990, with the exception of 18 AAC 53.010(c)(2)), filed March 24, 1994 and effective on April 23, 1994.

(26) Submittal to EPA from the ADEC of CO contingency measure for Fairbanks, AK.

(i) *Incorporation by reference.* (A) Letter dated July 12, 1995 from the Commissioner of the ADEC to the EPA Regional Administrator submitting its repair technician and certification program element found in State regulation 18 AAC 52.400–410, effective June 24, 1994.

(27) On October 31, 1997, ADEC submitted revisions to Fuel Requirements for Motor Vehicles, title 18, chapter 53 of the Alaska Administrative Code (18 AAC 53) regarding the use of oxygenated fuels.

(i) *Incorporation by reference.* (A) Title 18, Chapter 53, Alaska Administrative Code (AAC), Fuel Requirements for Motor Vehicles, adopted October 31, 1997 (Article 1, 18 AAC 53 .005, .007, .010, .015, .020, .030, .035, .040, .045, .060, .070, .080, .090, .100, .105, .120, .130, .140, .150, .160, .170, .190; Article 9, 18 AAC 53.990).

(28) On January 8, 1997, the Director of the Alaska Department of Environmental Conservation submitted the Alaska air quality regulations, 18 Alaska Administrative Code (AAC) 50 (with the exception of 18 AAC 50.055(a)(9), 50.085, 50.090, 50.110, 50.300(g), and 50.310(l) which were not submitted), as effective on January 18, 1997. On March 17, 1998, the Director of the Alaska Department of Environmental Conservation resubmitted 18 AAC 50.055(a)(3) and (b)(6). EPA has approved the following provisions of 18 AAC 50, as effective on January 18, 1997: Section 005; Section 010, except for subsections (7) and (8); Section 025; Section 030; Section 035; Section 045; Section 050; Section 055, except for paragraph (d)(2)(B) and (a)(9); Section 060; Section 065; Section 070; Section 075; Section 200; Section 201; Section 205; Section 220; Section 240; Section 245; Section 400, paragraphs (a), (b)(1), and (c); Section 420; Section 430; Section 900; and Section 990, subsections (2), (3), (4), (5), (6), (8), (9), (10), (11), (14), (15), (16), (17), (19), (20), (23), (24), (25), (26), (29), (31), (32), (33), (34), (35), (37), (39), (40), (42), (43), (45), (47), (48), (50), (51), (53), (58), (59), (60), (61), (62), (63), (65), (66), (67), (69), (70), (71), (72), (74), (75), (78), (79), (80), (81), (83), (84), (85), (86), (89), (90), (91), (92), (93), (94), (95), (96), (97), (99), and (100). On January 8, 1997, the Director of the Alaska Department of Environmental Conservation submitted the current Alaska Statutes for air pollution control, specifically the 1993 Alaska Act (Chapter 74 State Legislative Act 1993). EPA has approved as federally enforceable provisions of the SIP, the following provisions of the Alaska Statutes, as effective June 25, 1993: AS 46.14.510(b); AS 46.14.550; AS 46.14.560; AS 46.14.990(1), (2), (3), (6), (7), (8), (10), (13), (15), (16), (17), (18), (22), (24), and (25); and AS 45.45.400(a). On January 8, 1997, the Director of the Alaska Department of Conservation submitted the ''In Situ Burning Guidelines for Alaska (revised 5/94).''

(i) *Incorporation by reference.* (A) 18 AAC 50.005; 18 AAC 50.010, except for subsections (7) and (8); 18 AAC 50.025; 18 AAC 50.030; 18 AAC 50.035; 18 AAC 50.045; 18 AAC 50.050; 18 AAC 50.055, except for paragraphs (d)(2)(B) and (a)(9); 18 AAC 50.060; 18 AAC 50.065; 18 AAC 50.070; 18 AAC 50.075; 18 AAC 50.200; 18 AAC 50.201; 18 AAC 50.205; 18 AAC 50.220; 18 AAC 50.240; 18 AAC 50.245; 18 AAC 50.400, paragraphs (a), (b)(1), and (c); 18 AAC 50.420; 18 AAC 50.430; 18 AAC 50.900; and 18 AAC 50.990, subsections (2), (3), (4), (5), (6), (8), (9), (10), (11), (14), (15), (16), (17), (19), (20), (23), (24), (25), (26), (29), (31), (32), (33), (34), (35), (37), (39), (40), (42), (43), (45), (47), (48), (50), (51), (53), (58), (59), (60), (61), (62), (63), (65), (66), (67), (69), (70), (71), (72), (74), (75), (78), (79), (80), (81), (83), (84), (85), (86), (89), (90), (91), (92), (93), (94), (95), (96), (97), (99), and (100); as effective on January 18, 1997.

(B) AS 46.14.510(b); AS 46.14.550; AS 46.14.560; AS 46.14.990(1), (2), (3), (6), (7), (8), (10), (13), (15), (16), (17), (18), (22), (24), and (25); and AS 45.45.400(a); as effective on June 25, 1993.

(C) Remove the following provisions of 18 AAC 50, as effective on June 2, 1988, from the current incorporation by reference: 18 AAC 50.010; 18 AAC 50.070; 18 AAC 50.900, subsections (19), (27), (30), (45), (46), and (48).

(29) The Environmental Protection Agency (EPA) approves various amendments to the Alaska State Air Quality Control Plan which are contained in three separate submittals to EPA, dated February 6, 1997, June 1, 1998, and September 10, 1998, and which include the inspection and maintenance program.

(i) *Incorporation by reference.* (A) Air Quality Control Regulations, 18 AAC 50.

Effective September 4, 1998: Section 700; Section 705; Section 710 (except for the incorporation by reference of sections 93.102(c), 93.102 (d), 93.104(d), 93.104(e)(2), 93.109(c)-(f), 93.118(e), 93.119(f)(3), 93.120(a)(2), 93.121(a)(1) and (b), and 93.124(b) of 40 CFR); Section 715; and Section 720.

(B) Emissions Inspection and Maintenance Requirements for Motor Vehicles 18 AAC 52.

(1) Effective January 1, 1998: Section 005; Section 010; 015; 020; 025; 035; 037; 050; 060, except for subsections (8)(c), (8)(d)(2) and (8)(e); 065; 070; 080; 085; 095; 100; 105; 400; 405; 415, except subsection (f)(1); 420, except subsection (a)(11); 425; 440; 500; 515; 520, except subsection (c)(9); 525; 527; 530, except subsections

(b)(3), (c)(4)(C) and (d)(9); 535; 540; 545; 546; 990.

(2) Effective January 1, 1997: Section 055; 090.

(3) Remove the following provisions of 18 AAC 52, effective January 1, 1997: Section 060, subsection 8 (c) and 8 (e); Section 520, subsection (c)(9).

(4) Remove the following provisions of 18 AAC 52, effective January 1, 1998: Section 060, subsection 8 (d)(2); Section 415, subsection (f)(1); Section 420, subsection (a) (11); Section 530, subsection (b)(3) and (d)(9).

(5) Remove the following provisions of 18 AAC 52, effective January 4, 1995: Section 530, subsection (c) (4)(c).

(C) Fuel Requirements for Motor Vehicles 18 AAC 53.

(1) Effective October 31, 1997: Section 05; 07; 10; 20; 30; 35; 40; 45; 60; 70; 80; 90; 200; 105; 120; 130; 140; 150; 160; 170; 190 and effective September 4, 1998, Section 990.

(2) Remove the following provision of 18 AAC 53.015, Expansion of Control Area, effective October 31, 1997.

(ii) *Additional material.* (A) Revisions to Alaska's State Air Quality Control Plan, Volume II: Section I, ''Background,'' I.A; I.B., I.C., I.D., and I.E., adopted 11/26/96; Part B—Anchorage Contingency Measures, adopted 5/18/98; Section II, ''State Air Quality Control Program,'' pages II–1 through II–4, adopted 5/18/98; Section III.A. ''Statewide Carbon Monoxide Control Program,'' pages III.A.1–1 through III.A.3–4, adopted 5/18/98; III.B. ''Anchorage Transportation Control Program,'' pages III.B.1–1 through III.B.6–7, adopted 5/18/98; III.B.8. ''Modeling and Projections,'' pages III.B.8–1 through III.B.9–2, adopted 5/18/98; III.B.10, ''Anchorage Air Pollution Episode Curtailment Plan,'' pages III.B.10–1 and III.B.10–2, revised 12/19/93; III.B.11. ''Assurance of Adequacy,'' pages III.B.11–1 through III.B.11–3, revised 5/18/98; III.B.12. ''Emissions Budget,'' page III.B.12–1, adopted 11/26/96; and various CO SIP streamlining edits throughout Volume II and Volume III of the State Air Quality Control Plan which make the document easier to read and better organized, adopted 5/18/98.

(30) On November 1, 1999, the Alaska Department of Environmental Conservation (ADEC) submitted a SIP revision to revise the visible emission limit for coal burning boilers, during start-up; shutdown; soot-blowing; grate cleaning; or other routine maintenance activities, that began operation before August 17, 1971, and submitted the required demonstration. This SIP revision is approved for the following facilities that submitted the required demonstration: Golden Valley Electric Association (GVEA), Healy (Unit #1); Eielson Air Force Base, Fairbanks (6 units); Aurora Energy, Fairbanks (4 units); and Clear Air Force Base, Clear (3 units). Additionally, we are approving a revision to the definitions section that will add definitions of grate cleaning and soot-blowing.

(i) *Incorporation by reference.* (A) 18 Alaska Administrative Code (AAC) 50.055(a)(9), Industrial Processes and Fuel-Burning Equipment; as State effective on November 4, 1999. 18 AAC 50.990, subsections (106) and (107), Definitions; as State effective on January 1, 2000.

(31) The Environmental Protection Agency (EPA) approves various amendments to the Alaska State Air Quality Control Plan which are contained in two separate submittals to EPA, dated February 24, 2000 and February 2, 2001, and which include the inspection and maintenance and fuels program.

(i) *Incorporation by reference.* (A) Air Quality Control Regulations, 18 AAC 50. Effective December 30, 2000: Section 030.

(B) Emissions Inspection and Maintenance Requirements for Motor Vehicles 18 AAC 52.

(*1*) Effective January 1, 2000: Sections 005; 015; 020; 025; 035; 037; 055; 060; 065; 070; 085; 100; 105; 410; 415; 420; 440; 500; 510; 515; 520; 525; 527; 530; 535; and 540.

(*2*) Effective December 30, 2000: Sections 050 and 990.

(C) Fuel Requirements for Motor Vehicles 18 AAC 53. Effective December 30, 2000: Section 080.

(32) On August 30, 2001 the Alaska Department of Environmental Conservation submitted revisions to the Carbon Monoxide State Implementation Plan for Fairbanks, Alaska.

(i) *Incorporation by reference.* (A) Air Quality Control Regulations, 18 AAC 50.030, as adopted 7/27/01, effective 9/21/01.

(B) Assembly Ordinance 2001–17 mandating a Fairbanks North Star Borough motor vehicle plug-in program, as adopted 4/12/2001, effective 4/13/01.

(ii) *Additional material.* Volume II, Section III.C of the State Air Quality Control Plan adopted 7/27/01, effective 9/21/01; Volume III.C3, III.C.5, C.11, and C.12 of the Appendices; adopted 7/27/01, effective 9/21/01.

(33) [Reserved]

(34) On February 18, 2004, the Alaska Department of Environmental Quality submitted a CO maintenance plan and requested the redesignation of Anchorage to attainment for CO. The State's maintenance plan, attainment year emissions inventory, and the redesignation request meet the requirements of the Clean Air Act.

(i) *Incorporation by reference.* (A) 18AAC50.010, Ambient air quality standards, as effective June 21, 1998, except for subsections (7) and (8).

(B) 18AAC50.015, Air quality designations, classifications, and control regions, as in effect February 20, 2004.

(C) 18AAC53.010, Control periods and control areas, as in effect February 20, 2004.

(D) 18AAC53.190, Suspension and reestablishment of control period, as in effect February 20, 2004.

(E) 18AAC50.021, of the State Air Quality Control Plan, as referenced in (c)(19)(i)(C) of this section, effective April 23, 1994, is removed.

(35) On June 21, 2004, the Alaska Department of Environmental Conservation submitted a carbon monoxide maintenance plan and requested the redesignation of Fairbanks to attainment for carbon monoxide. The State's maintenance plan and the redesignation request meet the requirements of the Clean Air Act.

(i) *Incorporation by reference.* (A) 18AAC50.015, Air quality designations, classifications, and control regions, as in effect June 24, 2004.

(B) Assembly Ordinance No. 2003–71—An Ordinance amending the Carbon Monoxide Emergency Episode Prevention Plan including implementing a Woodstove Control Ordinance, adopted October 30, 2003.

(36) On May 6, 2005 and June 30, 2006, the Alaska Department of Environmental Conservation (ADEC) submitted amendments to ADEC's air quality regulations, as revision to the State of Alaska Implementation Plan.

(i) Incorporation by reference.

(A) The following new and revised sections of ADEC's air quality regulations:

(*1*) 18 AAC 50.080 Ice Fog Standards; State effective January 18, 1997.

(*2*) 18 AAC 50.025 Visibility and Other Special Protection Areas; 18 AAC 50.070 Marine Vessel Visible Emission Standards. All provisions in this paragraph are State effective June 21, 1998.

(*3*) 18 AAC 50.050 Incinerator Emission Standards; State effective May 3, 2002.

(*4*) 18 AAC 50.005 Purpose of Chapter; 18 AAC 50.010 Ambient Air Quality Standards [except (7) and (8)]; 18 AAC 50.015 Air Quality Designations, Classifications, and Control Regions; 18 AAC 50.020 Baseline Dates and Maximum Allowable Increases, 18 AAC 50.045 Prohibitions; 18 AAC 50.055 Industrial Processes and Fuel-Burning Equipment [except (d)(2)(B)]; 18 AAC 50.100 Nonroad Engines; 18 AAC 50.200 Information Requests; 18 AAC 50.201 Ambient Air Quality Investigation; 18 AAC 50.205 Certification; 18 AAC 50.215 Ambient Air Quality Analysis Methods [except (a)(3)]; 18 AAC 50.220 Enforceable Test Methods [except (c)(2)]; 18 AAC 50.245 Air Episodes and Advisories; 18 AAC 50.250 Procedures and Criteria for Revising Air Quality Classifications; 18 AAC 50.301 Permit Continuity; 18 AAC 50.302 Construction Permits; 18 AAC 50.306 Prevention of Significant Deterioration (PSD) Permits [except (b)(2) and (b)(3)]; 18 AAC 50.311 Nonattainment Area Major Stationary Source Permits; 18 AAC 50.345 Construction and Operating Permits: Standard Permit Conditions [except (b), (c)(3), and (l)]; 18 AAC 50.508 Minor Permits Requested by the Owner or Operator [except (1) and (2)]; 18 AAC 50.546 Minor Permits: Revisions [except (b)]; 18 AAC 50.560 General Minor Permits; 18 AAC 50.900 Small Business. All provisions in this paragraph are State effective October 1, 2004.

(*5*) 18 AAC 50.542 Minor Permit: Review and Issuance [except (b)(2), (f)(4), (f)(5), and (g)(1) but only with respect to clean units and pollution control

projects]; State effective December 1, 2004.

(*6*) 18 AAC 50.225 Owner-Requested Limits; 18 AAC 50.230 Preapproved Emission Limits [except (d)]; 18 AAC 50.544 Minor Permits: Content [except (e)]. All provisions in this paragraph are State effective January 29, 2005.

(*7*) 18 AAC 50.035 Documents, Procedures, and Methods Adopted By Reference [except (b)(4)]; 18 AAC 50.040 Federal Standards Adopted by Reference [except (a), (b), (c), (d), (e), (g), (h)(17), (h)(18), (h)(19), (i)(7), (i)(8), (i)(9), and (j)]; 18 AAC 50.502 Minor Permits for Air Quality Protection [except (g)(1) and (g)(2)]; 18 AAC 50.540 Minor Permit: Application [except (f) and (g)];18 AAC 50.990 Definitions [except (21), and (77)]. All provisions in this paragraph are State effective December 3, 2005.

(B) Remove the following provisions from the current incorporation by reference:

(*1*) 18 AAC 50.030 State Air Quality Control Plan; State effective September 21, 2001.

(*2*) 18 AAC 50.035 (b)(4) Documents, Procedures and Methods Adopted by Reference; State Effective January 18, 1997.

(*3*) 18 AAC 50.090 Ice Fog Limitations; State effective May 26, 1972.

(*4*) 18 AAC 50.220(c)(2) Enforceable Test Methods; State effective January 18, 1997.

(*5*) 18 AAC 50.300 Permit to Operate and 18 AAC 50.400 Application Review & Issuance of Permit to Operate. The provisions in this paragraph were State effective July 21, 1991 and April 23, 1994.

(*6*) 18 AAC 50.520 Emissions and Ambient Monitoring; State effective July 21, 1991.

(*7*) 18 AAC 50.530 Circumvention; State effective June 7, 1987.

(*8*) 18 AAC 50.310 Revocation or Suspension of Permit; State effective May 4, 1980.

(*9*) 18 AAC 50.400 Permit Administration Fees; 18 AAC 50.420 Billing Procedures; and 18 AAC 50.430 Appeal Procedures. The provisions of this paragraph were State effective January 18, 1997.

(*10*) 18 AAC 50.600 Reclassification Procedures & Criteria; State effective November 1, 1982.

(*11*) 18 AAC 50.620 State Air Quality Control Plan; State effective January 4, 1995.

(*12*) 18 AAC 50.900 Definitions; State effective July 21, 1991 and January 4, 1995.

(ii) Additional Material.

(A) The following section of ADEC's air quality regulations: 18 AAC 50.030 State Air Quality Control Plan, State effective October 1, 2004.

(37) On March 29, 2002, December 11, 2006 and June 5, 2008 the Alaska Department of Environmental Conservation submitted revisions to the SIP approved inspection and maintenance program for Carbon Monoxide. The SIP revisions meet the requirements of the Clean Air Act.

(i) *Incorporation by reference.*

(A) The following new and revised sections of ADEC's air quality regulations:

(1) 18 AAC 50.030 Air Quality Control as in effect May 17, 2008.

(2) 18 AAC 52 Emissions Inspection and Maintenance Requirements for Motor Vehicles as in effect May 17, 2008.

(3) AO 2006–13 an ordinance amending Anchorage Municipal Code chapters 15.80 and 15.85 to comply with State I/M regulations and to comply with DMV Electronic Procedures January 24, 2006 and Chapters 15.80 and 15.85 of the Anchorage Municipal Code as approved February 14, 2006.

(ii) Additional material

(A) The following revised sections of Alaska's air quality regulations:

(1) State Air Quality Control Plan—Vol. II Analysis of Problems, Control Actions, Section II: Air Quality Program, April 4, 2008

(2) State Air Quality Control Plan—Vol. II Analysis of Problems, Control Actions, Section III.A. Statewide Carbon Monoxide Control Program, April 4, 2008

(3) State Air Quality Control Plan—Vol. II Analysis of Problems, Control Actions, Section III.C. Fairbanks Transportation Control Program, April 4, 2008

(4) Amendments to State Air Quality Control Plan, Vol. III Appendices (Appendix III.A.2 and Appendix to III.C.3), April 4, 2008

(5) State Air Quality Control Plan—Vol. II Analysis of Problems, Control Actions, Section III.B. Anchorage Transportation Control Program, September 19, 2006

(6) Vol. III. Appendix to Vol. II, Sec II, September 19, 2006

(7) Vol. III. Appendix to Vol. II, Sec III.A, September 19, 2006

(8) Vol. III. Appendix to Vol. II, Sec III.B, September 19, 2006

(9) Vol. III. Appendix to Vol. II, Sec III.C, September 19, 2006

(38) On November 19, 2010, the Alaska Department of Environmental Conservation (ADEC) submitted a revision to the State of Alaska Implementation Plan that adds a definition of ''Subject to regulation'' as it applies to greenhouse gases in Alaska's Prevention of Significant Deterioration (PSD) permit rule.

(i) *Incorporation by reference.* (A) The following section of ADEC's air quality regulations: The incorporation by reference date for 40 CFR 52.21 in 18 AAC 50.040(h), introductory paragraph, but only with respect to its incorporation by reference of the definition of ''Subject to regulation'' in 40 CFR 52.21(b)(49) for the purpose of greenhouse gases only; State effective December 9, 2010.

(39) On April 9, 2010, the Alaska Department of Environmental Conservation (ADEC) submitted a revision to the Alaska State Implementation Plan (SIP) to update the SIP to include the 2008 ozone standard at an 8-hour averaging period, the associated federal method for measuring and monitoring ozone in ambient air, and a general definition of ozone.

(i) *Incorporation by reference.* (A) The following revised sections of Alaska Administrative Code Title 18: Chapter 50, effective April 1, 2010:

(*1*) Article 1, Ambient Air Quality Management: Rule 010 Ambient Air Quality Standards, the undesignated introductory text, and (4); Rule 035 Documents, procedures, and methods adopted by reference, (b) the undesignated introductory text, and (b)(1), but only with respect to the incorporation by reference of 40 CFR part 50, Appendix P;

(*2*) Article 2, Program Administration: Rule 215 Ambient Air Quality Analysis Methods, (a) introductory text, and (a)(2);

(*3*) Article 9, General Provisions, Rule 990 Definitions, (129).

(40) On November 19, 2010, and July 9, 2012, the Alaska Department of Environmental Conservation (ADEC) submitted revisions to the Alaska State Implementation Plan (SIP) to update the SIP to include federal Prevention of Significant Deterioration (PSD) program changes to regulate NO_X as a precursor to ozone, and provisions to satisfy CAA section 128 conflict of interest disclosure requirements.

(i) *Incorporation by reference.* (A) The following revised sections of Alaska Administrative Code Title 18, Chapter 50, effective December 9, 2010:

(*1*) Article 1, Ambient Air Quality Management: Rule 040 Federal standards adopted by reference, (h) the undesignated introductory text, only with respect to 40 CFR Part 52 and (h)(4), only with respect to the incorporation by reference date for ''significant'' at 40 CFR 52.21(b)(23)(i);

(*2*) Article 9, General Provisions, Rule 990 Definitions, (52)(A), ''major stationary source,'' (53)(A), ''major modification,'' and (92), ''regulated NSR pollutant.''

(ii) *Additional material.* (A) The following sections of Alaska Administrative Code Title 2 and Title 9, effective February 20, 2005:

(*1*) Title 2, Administration: Chapter 50, Alaska Public Offices Commission: Conflict of Interest, Campaign Disclosure, Legislative Financial Disclosure, and Regulations of Lobbying; Article 1, Public Official Financial Disclosure (2 AAC 50.010–2 AAC 50.200);

(*2*) Title 9, Law: Chapter 52, Executive Branch Code of Ethics (9 AAC 52.010–9 AAC 52.990).

(41) On April 4, 2011, the Alaska Department of Environmental Conservation submitted a SIP revision to meet the regional haze requirements of Clean Air Act sections 169A and 169B, and Federal Regulations 40 CFR 51.308, to implement a regional haze program in the State of Alaska for the first planning period through July 31, 2018.

(i) Incorporation by reference.

(A) The following revised section of the Alaska Administrative Rules: Alaska Department of Environmental Conservation, 18 AAC 50.260, ''Guidelines for Best Available Retrofit Technology under the Regional Haze Rule'', state effective date December 30, 2007.

(ii) Additional material.

(A) The following section of ADEC's air quality control regulations: 18 AAC 50.030 State Air Quality Control Plan; state effective date February 11, 2011; Volume II, Section III. F. Open Burning; and Volume II, Section III. K. Area Wide Pollution Control Program for Regional Haze.

(42) On May 14, 2009, the Alaska Department of Environmental Conservation submitted a PM_{10} limited maintenance plan and requested the redesignation of the Mendenhall Valley to attainment for PM_{10}. The state's limited maintenance plan and redesignation request meet the requirements of the Clean Air Act.

(i) Incorporation by reference.

(A) Alaska Administrative Code, Title 18, Chapter 50 Air Quality Control, Section 075 ''Wood-fired heating devise visible emission standards,'' effective May 6, 2009.

(B) Alaska Department of Environmental Conservation State Air Quality Control Plan, Volume III, Appendix III.D.3.5, Ordinance of the City and Borough of Juneau, Alaska, Serial No. 2008–28, adopted February 20, 2009

[37 FR 10848, May 31, 1972. Redesignated at 79 FR 19822, Apr. 10, 2014]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.74, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§ 52.75 [Reserved]

§ 52.76 1990 Base Year Emission Inventory.

(a) EPA approves as a revision to the Alaska State Implementation Plan the 1990 Base Year Carbon Monoxide Emission Inventory for the Anchorage and Fairbanks areas designated as nonattainment for CO, submitted by the Alaska Department of Environmental Conservation on December 29, 1993. This submittal consists of the 1990 base year stationary, area, non-road mobile, and on-road mobile sources for the pollutant carbon monoxide.

(b) EPA approves a revision to the Alaska State Implementation Plan, submitted on December 5, 1994, of the on-road mobile source portion of the 1990 Base Year Emission Inventory for Carbon Monoxide in Anchorage and Fairbanks.

[62 FR 6132, Feb. 11, 1997, as amended at 63 FR 50764, Sept. 23, 1998]

§§ 52.77–52.81 [Reserved]

§ 52.82 Extensions.

The Administrator, by authority delegated under section 186(a)(4) of the Clean Air Act, as amended in 1990, hereby extends for one year (until December 31, 1996) the attainment date for the MOA, Alaska CO nonattainment area.

[61 FR 33678, June 28, 1996]

§§ 52.83–52.95 [Reserved]

§ 52.96 Significant deterioration of air quality.

(a) The State of Alaska Department of Environmental Conservation Air Quality Control Regulations are approved as meeting the requirements of 40 CFR 51.166 and part C for preventing significant deterioration of air quality. The specific provisions approved are: 18 AAC 50.010 except (7) and (8); 18 AAC 50.015; 18 AAC 50.020; 18 AAC 50.035(a)(4), (a)(5), and (b)(1); 18 AAC 50.040(h); and 18 AAC 50.215 except (a)(4) as in effect on April 17, 2015; 18 AAC 50.990 as in effect on November 9, 2014; 18 AAC 50.306 as in effect on January 4, 2013; 18 AAC 50.345 except (b), (c)(3), and (l) as in effect on September 14, 2012; and 18 AAC 50.250 as in effect on October 1, 2004.

(b) The requirements of sections 160 through 165 of the Clean Air Act are not met for Indian reservations since the plan does not include approvable provisions for preventing the significant deterioration of air quality on Indian reservations and, therefore, the provisions of § 52.21 except paragraph (a)(1) are hereby incorporated and

made part of the applicable plan for Indian reservations in the State of Alaska.

[72 FR 45380, Aug. 14, 2007, as amended at 76 FR 7117, Feb. 9, 2011; 77 FR 64427, Oct. 22, 2012; 79 FR 56274, Sept. 19, 2014; 81 FR 31513, May 19, 2016]

§§ 52.97–52.98 [Reserved]

Subpart D—Arizona

§ 52.119 Identification of plan—conditional approvals.

This section identifies plan revisions that are conditionally approved based upon commitments received from the State.

(a) A plan revision for the Arizona Department of Environmental Quality (ADEQ) submitted April 28, 2017, by the Governor's designee, updating ADEQ's Clean Air Act (CAA) new source review (NSR) program only with respect to the CAA requirements related to ammonia as a precursor to $PM_{2.5}$ under the nonattainment NSR program requirements in CAA section 189(e). This plan revision is conditionally approved as follows:

(1) The conditional approval is based upon the December 6, 2017 commitment from the State to submit a SIP revision to the EPA by March 31, 2019 consisting of rule revisions and/or demonstrations that will correct the deficiencies identified with this submittal, as specified in ADEQ's December 6, 2017 commitment letter. If the State fails to meet its commitment by March 31, 2019, the conditional approval will be treated as a disapproval only with respect to the CAA requirements related to ammonia as a precursor to $PM_{2.5}$ under the nonattainment NSR program requirements in CAA section 189(e).

(2) [Reserved]

(b) A plan revision for the Maricopa County Air Quality Department (MCAQD) submitted May 18, 2016, by the Arizona Department of Environmental Quality (ADEQ), the Governor's designee, updating the MCAQD's Clean Air Act (CAA) new source review (NSR) program with respect to deficiencies identified by the EPA in Regulation I, Rule 100 and Regulation II, Rule 200. This plan revision is conditionally approved as follows:

(1) The conditional approval is based on the April 6, 2018 and October 5, 2018 commitments from the ADEQ, and on the April 2, 2018 letter from the MCAQD to the ADEQ requesting submittal of a letter of commitment for conditional approval, to submit a SIP revision consisting of rule revisions and/or demonstrations to the ADEQ within eleven (11) months after the EPA's approval, to allow the ADEQ to make the final submission to the EPA not later than twelve (12) months after the EPA's approval that will correct the deficiencies identified in this final notice. If the State fails to meet its commitment by that date that is twelve (12) months after the EPA's approval, the conditional approval will be treated as a disapproval to deficiencies identified by the EPA in Regulation I, Rule 100; and Regulation II, Rule 200.

(2) [Reserved]

(c) A plan revision for the Maricopa County Air Quality Department (MCAQD) submitted June 22, 2017, by the Arizona Department of Environmental Quality (ADEQ), the Governor's designee, providing MCAQD's Reasonably Available Control Technology (RACT) demonstration for the 2008 8-hour ozone National Ambient Air Quality Standards, and rule submissions in satisfaction thereof.

(1) The conditional approval is based upon the February 25, 2019 commitment from the State to submit a SIP revision consisting of rule revisions that will cure the identified deficiencies. MCAQD commits to submit these rules to the ADEQ within eleven (11) months after the EPA's conditional approval, and ADEQ commits to make the final submission to the EPA not later than twelve (12) months after the EPA's approval. If the State fails to meet its commitment, the conditional approval will be treated as a disapproval with respect to the rules and CTG categories for which the corrections are not made. The following MCAQD rules and additional materials are conditionally approved:

(i) Rule 350, *Storage and Transfer of Organic Liquids (Non-Gasoline) at an Organic Liquid Distribution Facility;*

(ii) Rule 351, *Storage and Loading of Gasoline at Bulk Gasoline Plants and Bulk Gasoline Terminals;*

(iii) Rule 352, *Gasoline Cargo Tank Testing and Use;*

(iv) Rule 353, *Storage and Loading of Gasoline at Gasoline Dispensing Facilities;* and

(v) The RACT demonstration titled ''Analysis of Reasonably Available Control Technology for the 2008 8-Hour Ozone National Ambient Air Quality Standard (NAAQS) State Implementation Plan (RACT SIP),'' Only those portions of the document beginning with ''Gasoline Bulk Plants, Fixed Roof Petroleum Tanks, External Floating Roof Petroleum Tanks, And Gasoline Loading Terminals'' on page 33 through the first full paragraph on page 35, and Appendix C: CTG RACT Spreadsheet, the rows beginning with ''Gasoline Bulk Plants'' on page 60, through ''Service Stations—Stage I'' on pages 67–69. This demonstration represents the RACT requirement for the following source categories: Control of Volatile Organic Emissions from Storage of Petroleum Liquids in Fixed-Roof Tanks (EPA–450/2–77–036), Control of Volatile Organic Emissions from Petroleum Liquid Storage in External Floating Roof Tanks (EPA–450/2–78–047); Control of Hydrocarbons from Tank Truck Gasoline Loading Terminals (EPA–450/2–77–026); Control of Volatile Organic Emissions from Bulk Gasoline Plants (EPA–450/2–77–035); Control of Volatile Organic Compound Leaks from Gasoline Tank Trucks and Vapor Collection Systems (EPA–450/2–78–051); and Design Criteria for Stage I Vapor Control Systems—Gasoline Service Stations (EPA–450/R–75–102).

(2) [Reserved]

[83 FR 19635, May 4, 2018, as amended at 84 FR 13548, Apr. 5, 2019; 85 FR 10988, Feb. 26, 2020]

§ 52.120 Identification of plan.

(a) *Purpose and scope.* This section sets forth the applicable State implementation plan for the State of Arizona under section 110 of the Clean Air Act, 42 U.S.C. 7401–7671q and 40 CFR part 51 to meet national ambient air quality standards.

(b) *Incorporation by reference.*

(1) Material listed in in paragraphs (c) and (d) of this section with an EPA approval date prior to June 30, 2016, was approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Entries in paragraphs (c) and (d) of this section with the EPA approval dates after June 30, 2016 have been approved by EPA for inclusion in the State implementation plan and for incorporation by reference into the plan as it is contained in this section, and will be considered by the Director of the Federal Register for approval in the next update to the SIP compilation.

(2) EPA Region IX certifies that the materials provided by EPA at the addresses in paragraph (b)(3) of this section are an exact duplicate of the officially promulgated state rules/regulations which have been approved as part of the state implementation plan as of the dates referenced in paragraph (b)(1).

(3) Copies of the materials incorporated by reference into the state implementation plan may be inspected at the Region IX EPA Office at 75 Hawthorne Street, San Francisco, CA 94105; or the National Archives and Records Administration (NARA). To obtain the material, please call the Regional Office. You may also inspect the material with an EPA approval date prior to June 30, 2016 at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, go to: *http://www.archives.gov/federal-register/cfr/ibr-locations.html.*

(c) *EPA-approved regulations.*

TABLE 1—EPA-APPROVED ARIZONA STATUTES

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
ARIZONA REVISED STATUTES [1] Title 9 (Cities and Towns) Chapter 4 (General Powers) Article 8 (Miscellaneous)				
9–500.03	Air quality control ...	May 22, 1987	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Approval only included subsection A, paragraphs 1 and 2, subsection B. Submitted on March 23, 1988. Senate Bill 1360, section 2.†
9–500.04, excluding paragraphs A.1, A.2, A.4, and A.10; paragraphs B through G; and paragraph I..	Air quality control; definitions.	September 19, 2007.	December 3, 2013, 78 FR 72579.	Arizona Revised Statutes (Thomson/West, 2008). Submitted on May 25, 2012. ADEQ clarified and revised the May 25, 2012 submittal by letter dated September 26, 2013.

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
41–2123	Area A; sale of gasoline; oxygen content.	August 6, 1999	March 4, 2004, 69 FR 10161.	Last amended Laws 1999, Ch. 295, § 11. Submitted on January 22, 2004.
41–2124	Area A; fuel formulation; rules.	July 18, 2000	March 4, 2004, 69 FR 10161.	Last amended Laws 2000, Ch. 405, § 21. Submitted on January 22, 2004.
41–2125	Area B; sale of gasoline; oxygen content.	July 18, 1996	June 8, 2000, 65 FR 36353; corrected March 18, 2004, 69 FR 12802.	Senate Bill 1002, section 28. In connection with approval of 1996 Carbon Monoxide Limited Maintenance Plan for the Tucson Air Planning Area (as updated August 1997).
Article 7 (Gasoline Vapor Control)				
41–2131	Definitions	April 22, 2014	November 16, 2015, 80 FR 70689.	House Bill 2128, section 5, effective through September 29, 2018. Includes the text that appears in all capital letters and excludes the text that appears in strikethrough. Submitted on September 2, 2014.
41–2131	Definitions	April 22, 2014	November 16, 2015, 80 FR 70689.	House Bill 2128, section 6, effective from and after September 30, 2018. Includes the text that appears in all capital letters and excludes the text that appears in strikethrough. Submitted on September 2, 2014.

TABLE 1—EPA-APPROVED ARIZONA STATUTES—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
41–2132	Stage I vapor recovery systems.	April 22, 2014	November 16, 2015, 80 FR 70689.	House Bill 2128, section 7. Includes the text that appears in all capital letters and excludes the text that appears in strikethrough. Submitted on September 2, 2014.
41–2133	Compliance schedules.	April 22, 2014	November 16, 2015, 80 FR 70689.	House Bill 2128, section 8. Includes the text that appears in all capital letters and excludes the text that appears in strikethrough. Submitted on September 2, 2014.
41–2135	Stage II vapor recovery systems.	April 22, 2014	November 16, 2015, 80 FR 70689.	House Bill 2128, section 10. Includes the text that appears in all capital letters and excludes the text that appears in strikethrough. Submitted on September 2, 2014. *ARS 41–2135 is repealed from and after September 30, 2018 pursuant to section 11 of House Bill 2128.*
Title 49 (The Environment) Chapter 1 (General Provisions)				
49–107	Local delegation of state authority.	July 1, 1987	November 2, 2015, 80 FR 67319.	Submitted on October 29, and supplemented on September 6, 2013 and July 2, 2014.
Chapter 3 (Air Quality) Article 1 (General Provisions)				
49–401.01	Definitions	May 18, 1999	June 8, 2000, 65 FR 36353.	Submitted on September 1, 1999. House Bill 2189, section 40.

TABLE 1—EPA-APPROVED ARIZONA STATUTES—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Article 2 (State Air Pollution Control)				
49–454	Adjusted work hours.	May 18, 1999	June 8, 2000, 65 FR 36353.	Submitted on September 1, 1999. House Bill 2189, section 43.
49–457	Agricultural best management practices committee; members; powers; permits; enforcement; preemption; definitions.	May 29, 1998	June 29, 1999, 64 FR 34726.	Submitted on September 4, 1998.
49–457.01	Leaf blower use restrictions and training; leaf blowers equipment sellers; informational material; outreach; applicability.	September 19, 2007.	December 3, 2013, 78 FR 72579.	Arizona Revised Statutes (Thomson/West, 2005 mail volume, 2012 cumulative pocket part). Submitted on May 25, 2012. ADEQ clarified and revised the May 25, 2012 submittal by letter dated September 26, 2013.
49–457.03, excluding paragraphs C and D.	Off-road vehicles; pollution advisory days; applicability; penalties.	September 19, 2007.	March 31, 2014, 79 FR 17878.	Arizona Revised Statutes (West, 2012 Cumulative Pocket Part). Submitted on May 25, 2012. ADEQ clarified and revised the May 25, 2012 submittal by letter dated September 26, 2013.
49–457.04	Off-highway vehicle and all-terrain vehicle dealers; informational material; outreach; applicability.	September 19, 2007.	March 31, 2014, 79 FR 17878.	Arizona Revised Statutes (West, 2012 Cumulative Pocket Part). Submitted on May 25, 2012. ADEQ clarified and revised the May 25, 2012 submittal by letter dated September 26, 2013.

TABLE 1—EPA-APPROVED ARIZONA STATUTES—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
49–457.05, excluding paragraph C and paragraphs E, F, G, and H.	Dust action general permit; best management practices; applicability; definitions.	July 20, 2011	March 31, 2014, 79 FR 17879.	Arizona Revised Statutes (West, 2012 Cumulative Pocket Part). Submitted on May 25, 2012. ADEQ clarified and revised the May 25, 2012 submittal by letter dated September 26, 2013.
Article 3 (County Air Pollution Control)				
49–474.01	Additional board duties in nonattainment areas.	May 22, 1987	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 23, 1988. Senate Bill 1360, section 18.†
49–474.01, excluding paragraphs A.1 through A.3, A.9, A.10; paragraphs C through G, and paragraph I.	Additional board duties in vehicle emissions control areas; definitions.	September 19, 2007.	December 3, 2013, 78 FR 72579.	Arizona Revised Statutes (Thomson/West, 2005 mail volume, 2012 cumulative pocket part). Submitted on May 25, 2012. ADEQ clarified and revised the May 25, 2012 submittal by letter dated September 26, 2013.
49–474.05	Dust control; training; site coordinators.	September 19, 2007.	December 3, 2013, 78 FR 72579.	Arizona Revised Statutes (Thomson/West, 2005 mail volume, 2012 cumulative pocket part). Submitted on May 25, 2012. ADEQ clarified and revised the May 25, 2012 submittal by letter dated September 26, 2013.
49–474.06	Dust control; subcontractor registration; fee.	September 19, 2007.	December 3, 2013, 78 FR 72579.	Arizona Revised Statutes (Thomson/West, 2005 mail volume, 2012 cumulative pocket part). Submitted on May 25, 2012. ADEQ clarified and revised the May 25, 2012 submittal by letter dated September 26, 2013.

TABLE 1—EPA-APPROVED ARIZONA STATUTES—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
49–501, excluding paragraph A.1, paragraphs B.2 through B.6, and paragraphs D, E, G, and H.	Unlawful open burning; exceptions; civil penalty; definition.	September 19, 2007.	March 31, 2014, 79 FR 17878.	Arizona Revised Statutes (West, 2012 Cumulative Pocket Part). Submitted on May 25, 2012. ADEQ clarified and revised the May 25, 2012 submittal by letter dated September 26, 2013.
49–506	Voluntary No-drive Days.	June 28, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on July 18, 1988. House Bill 2206, section 17.†
Article 5 (Annual Emissions Inspection of Motor Vehicles)				
49–541	Definitions	May 18, 1999	June 8, 2000, 65 FR 36353 and also January 22, 2003, 68 FR 2912.	Submitted on September 1, 1999. House Bill 2189, 44th Legislature, 1st Regular Session (1999), section 44. Approved in rulemakings related to the Tucson carbon monoxide plan and Arizona VEI Program.
49–541, subsection (1).	Definitions [“Area A”].	August 9, 2001	May 22, 2013, 78 FR 30209.	Submitted on May 25, 2012. Arizona Revised Statutes (West Group, 2001 Cumulative Pocket Part). Supported by an affidavit signed by Barbara Howe, Law Reference Librarian, Arizona State Library, Archives and Public Records on May 3, 2012, certifying authenticity of reproduction of A.R.S. § 49–451 (*sic*)(corrected to § 49–541 (2001 pocket part).

TABLE 1—EPA-APPROVED ARIZONA STATUTES—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
49–541.01, paragraphs D and E.	Vehicle emissions inspection program; constant four wheel drive vehicles; requirements; location; violation; classification; penalties; new program termination.	May 18, 1999	March 9, 2005, 70 FR 11553.	Submitted on April 18, 2001 as part of the Revised MAG 1999 Serious Area Carbon Monoxide Plan for the Maricopa County Nonattainment Area, dated March 2001. Submitted as section 2 of H.B. 2254 (1999).
49–542	Emissions inspection program; powers and duties of director; administration; periodic inspection; minimum standards and rules; exceptions; definition.	June 21, 2013	May 22, 2013, 78 FR 30209.	Submitted on November 6, 2009. Arizona Revised Statutes (Thomson West, 2008 Cumulative Pocket Part). Supported by an affidavit signed by Efrem K. Sepulveda, Law Librarian, Arizona State Library, Archives and Public Records on January 11, 2013, certifying authenticity of reproduction of A.R.S. § 49–542 (2008 edition) plus title page to pocket part of Title 49 (2008 edition).
49–542.05	Alternative fuel vehicles.	December 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001. Senate Bill 1004, 44th Legislature, 7th Special Session (2000), section 23. Related to VEI Program.
49–543	Emissions inspection costs; disposition; fleet inspection; certificates.	May 7, 2001	January 22, 2003, 68 FR 2912.	Submitted on April 10, 2002. House Bill 2538, 45th Legislature, 1st Regular Session (2001), section 11. Related to VEI Program.
49–544	Emissions inspection fund; composition; authorized expenditures; exemptions; investment.	May 20, 1998	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001. Senate Bill 1007, 43rd Legislature, 4th Special Session (1998), section 15. Related to VEI Program.

TABLE 1—EPA-APPROVED ARIZONA STATUTES—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
49–545	Agreement with independent contractor; qualifications of contractor; agreement provisions.	April 28, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001. House Bill 2104, 44th Legislature, 2nd Regular session (2000), section 5. Related to VEI Program.
49–550	Violation; Classification; Civil Penalty.	June 28, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on July 18, 1988. House Bill 2206, section 19.†
49–551	Air quality fee; air quality fund; purpose.	May 29, 1998	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001. Senate Bill 1427, 43rd Legislature, 2nd Regular Session (1998), section 27. Related to VEI Program.
49–552	Enforcement on city, town, county, school district or special district property.	June 1, 1998	March 9, 2005, 70 FR 11553.	Submitted on April 18, 2001 as part of the Revised MAG 1999 Serious Area Carbon Monoxide Plan for the Maricopa County Nonattainment Area, dated March 2001. Submitted as amended in section 28 of S.B. 1427 (1998).
49–553	Reports to the Legislature by Department of Environmental Quality.	June 28, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on July 18, 1988. House Bill 2206, section 21.†
49–557	Government vehicles; emissions inspections; noncompliance; vehicle operation privilege suspension.	January 1, 2002	June 8, 2000, 65 FR 36353.	Submitted on September 1, 1999. House Bill 2254, section 5. Effective date set in section 8 of House Bill 2254.
Article 7 (Emissions Control)				
49–571	Clean burning alternative fuel requirements for new buses; definition.	May 18, 1999	June 8, 2000, 65 FR 36353.	Submitted on September 1, 1999. House Bill 2189, section 46.

TABLE 1—EPA-APPROVED ARIZONA STATUTES—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
49–573	Emissions controls; federal vehicles; definition.	January 1, 2002	June 8, 2000, 65 FR 36353.	Submitted on September 1, 1999. House Bill 2254, section 6. Effective date set in section 8 of House Bill 2254.
Article 8 (Travel Reduction Programs)				
49–581	Definitions	December 31, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on July 18, 1988. House Bill 2206, section 23. House Bill section 25 lowered the threshold defining "major employer" from 500 or more employers between December 31, 1988-September 30, 1989, to 200 or more from September 30, 1989-December 31, 1989, to 100 or more thereafter. Delayed effective date per section 29 of HB 2206.†
49–582	Travel Reduction Program Regional Task Force; Composition.	December 31, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on July 18, 1988. House Bill 2206, section 23. Delayed effective date per section 29 of HB 2206.†
49–583	Duties and Powers of the Task Force.	December 31, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on July 18, 1988. House Bill 2206, section 23. Delayed effective date per section 29 of HB 2206.†
49–584	Staff Duties	December 31, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on July 18, 1988. House Bill 2206, section 23. Delayed effective date per section 29 of HB 2206.†
49–585	Powers and Duties of the Board.	December 31, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on July 18, 1988. House Bill 2206, section 23. Delayed effective date per section 29 of HB 2206.†

TABLE 1—EPA-APPROVED ARIZONA STATUTES—Continued

R18–2–720	Standards of Performance for Existing Lime Manufacturing Plants.	March 7, 2009	September 23, 2014, 79 FR 56655.	Submitted on July 28, 2011, and supplemented on May 16, 2014. AAC, title 18, chapter 2, supp. 09–1, March 31, 2009.
R18–2–723	Standards of Performance for Existing Concrete Batch Plants.	November 15, 1993	September 23, 2014, 79 FR 56655.	Submitted on July 15, 1998, and supplemented on May 16, 2014. AAC, title 18, chapter 2, supp. 12–2, June 30, 2012.
R18–2–724	Standards of Performance for Existing Fossil-Fuel Fired Industrial and Commercial Equipment.	March 7, 2009	September 23, 2014, 79 FR 56655.	Submitted on July 28, 2011, and supplemented on May 16, 2014. AAC, title 18, chapter 2, supp. 09–1, March 31, 2009.
R18–2–725	Standards of Performance for Existing Dry Cleaning Plants.	November 15, 1993	March 24, 2003, 68 FR 14151.	Submitted on July 15, 1998.
R18–2–726	Sandblasting Operations.	November 15, 1993	September 23, 2014, 79 FR 56655.	Submitted on July 15, 1998, and supplemented on May 16, 2014. AAC, title 18, chapter 2, supp. 12–2, June 30, 2012.
R18–2–727	Standards of Performance for Spray Painting Operations.	November 15, 1993	March 24, 2003, 68 FR 14151.	Submitted on July 15, 1998.
R18–2–728	Standards of Performance for Existing Ammonium Sulfide Manufacturing Plants.	November 15, 1993	September 23, 2014, 79 FR 56655.	Submitted on July 15, 1998, and supplemented on May 16, 2014. AAC, title 18, chapter 2, supp. 12–2, June 30, 2012.
R18–2–729	Standards of Performance for Cotton Gins.	August 4, 2007	September 23, 2014, 79 FR 56655.	Submitted on July 28, 2011, and supplemented on May 16, 2014. AAC, title 18, chapter 2, supp. 09–1, March 31, 2009.

TABLE 2—EPA-APPROVED ARIZONA REGULATIONS—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
R18–2–730	Standards of Performance for Unclassified Sources.	March 7, 2009	September 23, 2014, 79 FR 56655.	Submitted on July 28, 2011, and supplemented on May 16, 2014. AAC, title 18, chapter 2, supp. 09–1, March 31, 2009.
R18–2–732	Standards of Performance for Existing Hospital/Medical/Infectious Waste Incinerators.	August 4, 2007	September 23, 2014, 79 FR 56655.	Submitted on July 28, 2011, and supplemented on May 16, 2014. AAC, title 18, chapter 2, supp. 09–2, June 30, 2009.
Article 8 (Emissions from Mobile Sources (New and Existing))				
R18–2–801	Classification of Mobile Sources.	November 15, 1993	March 24, 2003, 68 FR 14151.	Submitted on July 15, 1998.
R18–2–802	Off-Road Machinery	November 15, 1993	March 24, 2003, 68 FR 14151.	Submitted on July 15, 1998.
R18–2–803	Heater-Planer Units	November 15, 1993	March 24, 2003, 68 FR 14151.	Submitted on July 15, 1998.
R18–2–804	Roadway and Site Cleaning Machinery.	November 15, 1993	March 24, 2003, 68 FR 14151.	Submitted on July 15, 1998.
R18–2–805	Asphalt and Tar Kettles.	November 15, 1993	March 24, 2003, 68 FR 14151.	Submitted on July 15, 1998.
Article 10 (Motor Vehicles; Inspections and Maintenance)				
R18–2–1001	Definitions	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1003	Vehicles to be Inspected by the Mandatory Vehicle Emissions Inspection Program.	June 28, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1005	Time of Inspection	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1006	Emissions Test Procedures.	January 1, 2002	January 22, 2003, 68 FR 2912.	Submitted on April 10, 2002.
R18–2–1007	Evidence of Meeting State Inspection Requirements.	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1008	Procedure for Issuing Certificates of Waiver.	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1009	Tampering Repair Requirements.	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1010	Low Emissions Tune-up, Emissions and Evaporative System Repair.	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1011	Vehicle Inspection Report.	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1012	Inspection Procedures and Fee.	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.

TABLE 2—EPA-APPROVED ARIZONA REGULATIONS—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
R18–2–1013	Reinspections	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1016	Licensing of Inspectors.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1017	Inspection of Government Vehicles.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1018	Certificate of Inspection.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1019	Fleet Station Procedures and Permits.	January 1, 2002	January 22, 2003, 68 FR 2912.	Submitted on April 10, 2002.
R18–2–1022	Procedure for Waiving Inspections Due to Technical Difficulties.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1023	Certificate of Exemption for Out-of-State Vehicles.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1025	Inspection of Contractor's Equipment and Personnel.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1026	Inspection of Fleet Stations.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1027	Registration and Inspection of Emission Analyzers and Opacity Meters.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1028	Certification of Users of Registered Analyzers and Analyzer Repair Persons.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1029	Vehicle Emission Control Devices.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1030	Visible Emissions; Mobile Sources.	January 14, 2000	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
R18–2–1031	Standards for Evaluating the Oxidation Efficiency of a Catalytic Converter.	December 20, 1999	January 22, 2003, 68 FR 2912.	Submitted on July 6, 2001.
Table 1	Dynamometer Loading Table—Annual Tests.	November 14, 1994	January 22, 2003, 68 FR 2912.	Table 1 is cited in R18–2–1006. Submitted on July 6, 2001.
Table 2	Emissions Standards—Annual Tests, Maximum Allowable.	June 21, 1995	January 22, 2003, 68 FR 2912.	Table 2 is cited in R18–2–1006 and R18–2–1019. Submitted on July 6, 2001.
Table 3	Emissions Standards—Biennial Tests.	December 20, 1999	January 22, 2003, 68 FR 2912.	Table 3 is cited in R18–2–1006. Submitted on July 6, 2001.

TABLE 2—EPA-APPROVED ARIZONA REGULATIONS—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Table 4	Transient Driving Cycle.	December 20, 1999	January 22, 2003, 68 FR 2912.	Table 4 is cited in R18–2–1006 and R18–2–1016. Submitted on July 6, 2001.
Table 5	Tolerances	November 14, 1994	January 22, 2003, 68 FR 2912.	Table 5 is cited in R18–2–1006. Submitted on July 6, 2001.
Table 6	Emissions Standards—Remote Sensing Identification.	December 20, 1999	January 22, 2003, 68 FR 2912.	Table 6 is cited in the VEI regulations. Submitted on July 6, 2001.
Article 13 (State Implementation Plan Rules For Specific Locations)				
R18–2–B1301	Limits on Lead Emissions from the Hayden Smelter.	7/1/2018	11/14/2018, 83 FR 56736.	Submitted by the Governor's designee on April 6, 2017.
R18–2–B1301.01	Limits on Lead-Bearing Fugitive Dust from the Hayden Smelter.	December 1, 2018	February 22, 2018, 83 FR 7614.	Submitted on April 6, 2017.
R18–2–C1302, excluding subsection (E)(6).	Limits on SO_2 Emissions from the Miami Smelter.	12/14/2018	11/14/2018, 83 FR 56736.	Submitted by the Governor's designee on April 6, 2017. Subsection (E)(6) was withdrawn by the Arizona Department of Environmental Quality.
Appendix 14	Procedures for Sulfur Dioxide and Lead Fugitive Emissions Studies for the Hayden Smelter.	5/7/2017	11/14/2018, 83 FR 56736.	Submitted by the Governor's designee on April 6, 2017.
Appendix 15	Test Methods for Determining Opacity and Stabilization of Unpaved Roads.	May 7, 2017	February 22, 2018, 83 FR 7614.	Submitted on April 6, 2017.
Article 14 (Conformity Determinations)				
R18–2–1438	General Conformity for Federal Actions.	January 31, 1995	April 23, 1999, 64 FR 19916.	Submitted on March 3, 1995.
Article 15 (Forest and Range Management Burns)				
R18–2–1501	Definitions	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1502	Applicability	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1503	Annual Registration	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1504	Prescribed Burn Plan.	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.

TABLE 2—EPA-APPROVED ARIZONA REGULATIONS—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
R18–2–1505	Prescribed Burn Requests and Authorization.	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1506	Smoke Dispersion and Evaluation.	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1507	Prescribed Burn Accomplishment; Wildlife Reporting.	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1508	Wildland Fire Use: Plan, Authorization, Monitoring; Inter-Agency Consultation; Status Reporting.	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1509	Emission Reduction Techniques.	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1510	Smoke Management Techniques.	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1511	Monitoring	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1512	Burner Qualifications.	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
R18–2–1513	Public Notification Program; Regional Coordination.	March 16, 2004	May 16, 2006, 71 FR 28270.	Submitted on December 30, 2004.
Appendices to Title 18 (Environmental Quality), Chapter 2 (Department of Environmental Quality Air Pollution Control)				
Appendix 1	Filing Instructions for Installation Permit Application.	July 25, 1979	April 23, 1982, 47 FR 17483.	Submitted on April 1, 1980. Appendix 1 in its entirety was approved at 47 FR 17483 (April 23, 1982). Certain subsections of appendix 1 were superseded by approval of revisions at 48 FR 19878 (May 3, 1983) and at 49 FR 41026 (October 19, 1984. The latter rule was corrected 69 FR 2509 (January 16, 2004).

TABLE 2—EPA-APPROVED ARIZONA REGULATIONS—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Appendix 1, subsections A1.4, A1.4.1, A1.4.3 (added), A1.4.3 (renumbered only), A1.5, A1.6.1 (deleted), A1.6.2 and A1.6.3 (renumbered only), A1.6.4 and A1.6.5 (deleted), A1.6.6 (renumbered only), A1.6.6.1, A1.6.6.2 and A1.6.6.3 (renumbered only), A1.6.6.4 (deleted), A1.6.6.5 (renumbered only) A1.6.6.6, A1.6.6.7 (Renumbered), A1.6.7.1, A1.6.7.2, A1.6.7.3 and Form ADHS/EHS Air Quality 100A (rev 12–80).	Filing Instructions for Installation Permit Application.	May 28, 1982	May 3, 1983, 48 FR 19878.	Relates to State PSD regulations. Submitted on June 3, 1982.
Appendix 1, subsections A1.5.6, and A1.9 (added).	Filing Instructions for Installation Permit Application.	September 22, 1983.	October 19, 1984, 49 FR 41026; corrected on January 16, 2004, 69 FR 2509.	Submitted on February 3, 1984.
Appendix 2	Test Methods and Protocols.	July 2, 2015	May 1, 2017, 82 FR 20267.	Submitted on December 21, 2015.
Appendix 2	Filing Instructions for Operating Permit Application.	July 25, 1979	April 23, 1982, 47 FR 17483.	Submitted on April 1, 1980. Appendix 2 in its entirety was approved at 47 FR 17483 (April 23, 1982). Certain subsections of appendix 2 were superseded by approval of revisions at 48 FR 19878 (May 3, 1983).
Appendix 2, subsections A2.2.5, A2.3, A2.3.8.	Filing Instructions for Operating Permit Application.	May 28, 1982	May 3, 1983, 48 FR 19878.	Relates to State PSD regulations. Submitted on June 3, 1982.
Appendix 8	Procedures for Utilizing the Sulfur Balance Method for Determining Sulfur Emissions.	July 18, 2005	April 12, 2006, 71 FR 18624.	Cited in Arizona Administrative Code rule R18–2–715.01. Submitted on March 1, 2006.

TABLE 2—EPA-APPROVED ARIZONA REGULATIONS—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Materials Incorporated By Reference in Title 18 (Environmental Quality) Chapter 2 (Department of Environmental Quality Air Pollution Control)				
[Incorporated by reference through R18–2–102].	Arizona Testing Manual for Air Pollutant Emissions, Revision F, excluding sections 2 through 7.	March 1992	September 23, 2014, 79 FR 56655.	Approval includes section 1 only. Submitted on July 28, 2011, and supplemented on May 16, 2014. Relates to various provisions in Arizona Administrative Code, title 18, chapter 2, articles 4, 6, and 7.
[Incorporated by reference through R18–2–220].	Procedures for Prevention of Emergency Episodes.	1988 Edition	October 15, 2012, 77 FR 62452.	Submitted on August 15, 1994.
Title 20 (Commerce, Financial Institutions, and Insurance) Chapter 2 (Department of Weights and Measures)				
Article 1 (Administration and Procedures)				
R20–2–101	Definitions	June 5, 2004	June 13, 2012, 77 FR 35279.	Submitted on September 21, 2009.
Article 7 (Motor Fuels and Petroleum Products)				
R20–2–701	Definitions	February 9, 2001 ...	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–716	Sampling and Access to Records.	October 18, 1999 ...	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–750	Registration Relating to Arizona CBG or AZR–BOB.	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–751	Arizona CBG Requirements.	February 9, 2001 ...	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–752	General Requirements for Registered Suppliers.	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.

TABLE 2—EPA-APPROVED ARIZONA REGULATIONS—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
R20–2–753	General Requirements for Pipelines and 3rd-party Terminals.	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–754	Downstream Blending Exceptions for Transmix.	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–755	Additional Requirements for AZRBOB and Downstream Oxygenate Blending.	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–756	Downstream Blending of Arizona CBG with Non-oxygenate Blendstocks.	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–757	Product Transfer Documentation; Records; Retention.	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–758	Adoption of Fuel Certification Models.	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–759	Testing Methodologies.	February 9, 2001 ...	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–760	Compliance Surveys.	February 9, 2001 ...	March 4, 2004, 69 FR 10161..	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–761	Liability for Non-compliant Arizona CBG or AZRBOB.	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.
R20–2–762	Penalties	September 22, 1999.	March 4, 2004, 69 FR 10161.	Submitted on August 15, 2001. Relates to the Arizona Cleaner Burning Gasoline (CBG) program.

TABLE 3—EPA-APPROVED ARIZONA GENERAL PERMITS

Title	State effective date	EPA approval date	Additional explanation
Dust Action General Permit, including the general permit itself, and attachments A, B, and C.	December 30, 2011	March 31, 2014, 79 FR 17881	Issued by Arizona Department of Environmental Quality pursuant to ARS 49–457.05. Applies to certain types of dust sources in a county with a population of two million or more persons or any portion of a county within an area designated by EPA as a serious PM–10 nonattainment area or a maintenance area that was designated as a serious PM–10 nonattainment area. Submitted on May 25, 2012.

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
Pre-July 1988 Rule Codification				
Regulation I—General Provisions				
Rule 2, No. 11 ''Alteration or Modification''.	Definitions	June 23, 1980	June 18, 1982, 47 FR 26382	Submitted on March 8, 1982. Revised on April 5, 2019, to remove the definition for No. 33 ''Existing Source'' which was superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 27 ''Dust''	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 29 ''Emission''.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 34 ''Existing Source Performance Standards''.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.

TABLE 4—EPA-APPROVED MARICOPA COUNTY AIR POLLUTION CONTROL REGULATIONS—Continued

Rule 2, No. 37 ''Fly Ash''.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 39 ''Fuel''	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 42 ''Fume''.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 55 ''Motor Vehicle''.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 59 ''Non-Point Source''.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 60 ''Odors''.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 64 ''Organic Solvent''.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
Rule 2, No. 70 ''Plume'',.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 80 ''Smoke'',.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 2, No. 91 ''Vapor''.	Definitions	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Revised on April 5, 2019. Removed 71 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Regulation II—Permits				
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 52 ''Dust'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 56 ''Emission'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 63 ''Existing Source Performance Standards'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 70 ''Fuel'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 71 ''Fuel Burning Equipment'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 74 ''Fume'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 103 ''Motor Vehicle'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 114 ''Non-Point Source'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 122 ''Photochemically Reactive Solvent'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 123 ''Plume'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 128 ''Process'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.

Rule 21, Section D.1 (AZ R9–3–101, Paragraph 129 ''Process Source'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 150 ''Smoke'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 152 ''Soot'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 160 ''Supplementary Control System (SCS)'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 166 ''Vapor'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 167 ''Vapor Pressure'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 21, Section D.1 (AZ R9–3–101, Paragraph 168 ''Visible Emissions'').	Procedures for obtaining an installation permit.	October 25, 1982	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Submitted on March 4, 1983. † Revised on April 5, 2019. Removed 152 defined terms which were superseded by Rule 100 submitted on May 18, 2016.
Rule 22 (paragraphs A, C, D, F, G, and H).	Permit Denial-Action-Transfer-Expiration-Posting-Revocation-Compliance.	August 12, 1971	July 27, 1972, 37 FR 15080	Paragraphs B and E have been superseded.
Rule 27	Performance tests	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980.

TABLE 4—EPA-APPROVED MARICOPA COUNTY AIR POLLUTION CONTROL REGULATIONS—Continued

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
Rule 28	Permit Fees	March 8, 1982	June 18, 1982, 47 FR 26382	Submitted on March 8, 1982.
Regulation III—Control of Air Contaminants				
Rule 32, Paragraph G	Other Industries	October 1, 1975	April 12, 1982, 47 FR 15579	Paragraph G of Rule 32 (''Odors and Gaseous Emissions'') is titled ''Other Industries.'' Submitted on June 23, 1980.
Rule 32, Paragraph H	Fuel Burning Equipment for Producing Electric Power (Sulfur Dioxide).	October 1, 1975	April 12, 1982, 47 FR 15579	Paragraph H of Rule 32 (''Odors and Gaseous Emissions'') is titled ''Fuel Burning Equipment for Producing Electric Power (Sulfur Dioxide).'' Submitted on June 23, 1980.
Rule 32, Paragraph J	Operating Requirements for an Asphalt Kettle.	June 23, 1980	April 12, 1982, 47 FR 15579	Paragraph J of Rule 32 (''Odors and Gaseous Emissions'') is titled ''Operating Requirements for an Asphalt Kettle.'' Submitted on June 23, 1980.
Rule 32, Paragraph K	Emissions of Carbon Monoxide.	June 23, 1980	April 12, 1982, 47 FR 15579	Paragraph K of Rule 32 (''Odors and Gaseous Emissions'') is titled ''Emissions of Carbon Monoxide.'' Submitted on June 23, 1980.
Rule 32 (Paragraphs A through F only).	Odors and Gaseous Emissions.	August 12, 1971	July 27, 1972, 37 FR 15080	Paragraph G was superseded by approval of paragraph J of amended Rule 32. Submitted on May 26, 1972.
Rule 35	Incinerators	August 12, 1971	July 27, 1972, 37 FR 15080	Superseded by approval of Maricopa Rule 313 published on September 25, 2014, except for Hospital/Medical/Infectious Waste Incinerators. Submitted on May 26, 1972.
Regulation IV—Production of Records; Monitoring; Testing and Sampling Facilities				
Rule 41, paragraph A	Monitoring	August 12, 1971	July 27, 1972, 37 FR 15080	Submitted on May 26, 1972.
Rule 41, paragraph B	Monitoring	October 2, 1978	April 12, 1982, 47 FR 15579	Submitted on January 18, 1979.
Rule 42	Testing and Sampling.	August 12, 1971	July 27, 1972, 37 FR 15080	Submitted on May 26, 1972.

TABLE 4—EPA-APPROVED MARICOPA COUNTY AIR POLLUTION CONTROL REGULATIONS—Continued

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
Regulation VII—Emergency Procedures				
Rule 74, paragraph C	Public Notification	June 23, 1980	April 12, 1982, 47 FR 15579	Submitted on June 23, 1980. Paragraphs A, B, and D superseded by approval of Rule 510 published on November 9, 2009.
Regulation VIII—Validity and Operation				
Rule 81	Operation	August 12, 1971	July 27, 1972, 37 FR 15080	Submitted on May 26, 1972.
Post-July 1988 Rule Codification				
Regulation I—General Provisions				
Rule 100 (except Sections 200.24, 200.73, 200.104(c)).	General Provisions and Definitions.	February 3, 2016	April 5, 2019, (84 FR 13543)	Submitted on May 18, 2016.
Rule 140	Excess Emissions	Revised September 5, 2001.	August 27, 2002, 67 FR 54957	Submitted on February 22, 2002.
Regulation II—Permits and Fees				
Rule 200	Permit Requirements	February 3, 2016	April 5, 2019, (84 FR 13543)	Submitted on May 18, 2016.
Rule 210	Title V Permit Provisions.	February 3, 2016	April 5, 2019, (84 FR 13543)	Submitted on May 18, 2016.
Rule 220	Non-Title V Permit Provisions.	February 3, 2016	April 5, 2019, (84 FR 13543)	Submitted on May 18, 2016.
Rule 240 (except Section 305).	Federal Major New Source Review (NSR).	February 3, 2016	April 5, 2019, (84 FR 13543)	Submitted on May 18, 2016.
Rule 241	Minor New Source Review (NSR).	February 3, 2016	April 5, 2019, (84 FR 13543)	Submitted on November 25, 2016.
Rule 242	Emissions Offsets Generated by the Voluntary Paving of Unpaved Roads.	June 20, 2007	August 6, 2007, 72 FR 43538 ...	Submitted on July 5, 2007.
Regulation III—Control of Air Contaminants				
Rule 300	Visible Emissions	March 12, 2008	July 28, 2010, 75 FR 44141	Submitted on July 10, 2008.
Rule 310	Fugitive Dust From Dust-Generating Operations.	January 27, 2010	December 15, 2010, 75 FR 78167.	Submitted on April 12, 2010. Cites appendices C and F, which are listed separately in this table.
Rule 310.01	Fugitive Dust From Non-Traditional Sources of Fugitive Dust.	January 27, 2010	December 15, 2010, 75 FR 78167.	Submitted on April 12, 2010. Cites appendix C, which is listed separately in this table.
Rule 311	Particulate matter from process industries.	August 2, 1993	April 10, 1995, 60 FR 18010. Vacated by *Ober* decision. Restored August 4, 1997, 62 FR 41856.	Submitted on March 3, 1994.
Rule 312	Abrasive Blasting	July 13, 1988	January 4, 2001, 66 FR 730	Submitted on January 4, 1990.
Rule 313	Incinerators, Burn-Off Ovens and Crematories.	May 9, 2012	September 25, 2014, 79 FR 57445.	Submitted on August 27, 2012.

Maricopa County Ordinance P–26.	Residential Woodburning Restriction Ordinance.	March 26, 2008	November 9, 2009, 74 FR 57612.	Submitted on July 10, 2008.
Maricopa County, Ordinance P–7.	Trip Reduction Ordinance.	Adopted May 26, 1994	May 4, 1998, 63 FR 24434.	Submitted on August 31, 1995.

TABLE 6—EPA-APPROVED ORDINANCES ADOPTED BY MARICOPA COUNTY AND OTHER LOCAL JURISDICTIONS WITHIN MARICOPA COUNTY—Continued

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
Town of Carefree Ordinance No. 98–14.	An Ordinance of the Town of Carefree, Maricopa County, Arizona, Adding Section 10–4 to the Town Code Relating to Clean-Burning Fireplaces, Providing Penalties for Violations (3 pages).	Adopted September 1, 1998.	July 25, 2002, 67 FR 48718.	Submitted on February 16, 2000.
Town of Gilbert Ordinance 1066.	An Ordinance of the Common Council of the Town of Gilbert, Arizona Amending the Code of Gilbert by Amending Chapter 30 *Environment,* by adding New Article II *Fireplace Restrictions* Prescribing Standards for Fireplaces, Woodstoves, and Other Solid-Fuel Burning Devices in New Construction; Providing for an Effective Date of January 1, 1999; Providing for Repeal of Conflicting Ordinances; Providing for Severability (3 pages).	January 1, 1999	July 25, 2002, 67 FR 48718.	Adopted by the Town of Gilbert on November 25, 1997. Submitted on February 16, 2000.
City of Mesa Ordinance No. 3434.	An Ordinance of the City Council of the City of Mesa, Maricopa County, Arizona, Relating to Fireplace Restrictions Amending Title 4, Chapter 1, Section 2 Establishing a Delayed Effective Date; and Providing Penalties for Violations (3 pages).	December 31, 1998	July 25, 2002, 67 FR 48718.	Adopted by the City of Mesa on February 2, 1998. Submitted on February 16, 2000.
Town of Paradise Valley Ordinance Number 454.	An Ordinance of the Town of Paradise Valley, Arizona, Relating to Grading and Dust Control, Amending Article 5–13 of the Town Code and Sections 5–13–1 Through 5–13–5, Providing Penalties for Violations and Severability (5 pages).	January 22, 1998	July 25, 2002, 67 FR 48718.	Adopted by the Town of Paradise Valley on January 22, 1998. Submitted on February 16, 2000. [Incorporation Note: There is an error in the ordinance's title, ordinance amended only sections 5–13–1 to 5–13–4; see section 1 of the ordinance.]
Town of Paradise Valley Ordinance Number 450.	An Ordinance of the Town of Paradise Valley, Arizona, Adding Section 5–1–7 to the Town Code Relating to Clean-Burning Fireplaces, Providing Penalties for Violations (3 pages).	December 18, 1997	July 25, 2002, 67 FR 48718.	Adopted by the Town of Paradise Valley on December 18, 1997. Submitted on February 16, 2000.

TABLE 6—EPA-APPROVED ORDINANCES ADOPTED BY MARICOPA COUNTY AND OTHER LOCAL JURISDICTIONS WITHIN MARICOPA COUNTY—Continued

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
City of Phoenix Ordinance No. G4062.	An Ordinance Amending the Phoenix City Code By Adding A New Chapter 40 ''Environmental Protections,'' By Regulating Fireplaces, Wood Stoves and Other Solid-Fuel Burning Devices and Providing that the Provisions of this Ordinance Shall Take Effect on December 31, 1998 (5 pages).	December 31, 1998	July 25, 2002, 67 FR 48718.	Adopted by the City of Phoenix on December 10, 1997. Submitted on February 16, 2000.
City of Phoenix Ordinance No. G4037.	An Ordinance Amending Chapter 39, Article 2, Section 39–7 of the Phoenix City Code by Adding Subsection G Relating to Dust Free Parking Areas; and Amending Chapter 36, Article XI, Division I, Section 36–145 of the Phoenix City Code Relating to Parking on Non-Dust Free Lots (5 pages).	Adopted July 2, 1997 ...	July 25, 2002, 67 FR 48718.	Adopted by the City of Phoenix on July 2, 1997. Submitted on February 16, 2000.
City of Tolleson Ordinance No. 376, N.S..	An Ordinance of the City of Tolleson, Maricopa County, Arizona, Amending Chapter 7 of the Tolleson City Code by Adding a New Section 7–9, Prohibiting the Installation or Construction of a Fireplace or Wood Stove Unless It Meets the Standards Set Forth Herein (including Exhibit A, 4 pages).	Adopted December 8, 1998.	July 25, 2002, 67 FR 48718.	Adopted by the City of Tolleson on December 8, 1998. Submitted on February 16, 2000.

Rule 512	In-Stack Monitoring	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Chapter VI: Recordkeeping and Reporting				
Regulation 60 (''Classification of Pollutants''), Rule 601.	Classification of Common and Hazardous Air Pollutants.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 611, paragraph A only.	Recordkeeping for Compliance Determinations.	June 1, 1981	April 16, 1982, 47 FR 16326.	Approval included paragraph A only. Submitted on June 1, 1981.
Rule 611, paragraphs A.1 to A.3 only.	Recordkeeping for Compliance Determinations.	August 17, 1979	April 16, 1982, 47 FR 16326.	Approval included paragraphs A.1 to A.3 only. Submitted on October 9, 1979.
Rule 612	Recordkeeping for Emissions Inventories.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 621	Reporting for Compliance Evaluations.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 622	Reporting as a Permit Requirement.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 623	Reporting for Emissions Inventories.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 624	Reporting for TSP Emission Data Bank.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 631	Confidentiality of Trade Secrets, Sales Data, and Proprietary Information.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 641	Suppression; False Information.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Tables Cited by Rules in Chapter VI				
Table 603	Methodology for Entering Records of Emissions into TSP Data Bank.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Chapter VII: Violations and Judicial Procedures				
Rule 701	Criminal Complaint	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 703	Injunction	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 704	Precedence of Actions.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 705	Penalties	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 706, paragraphs D.1 and D.2 only.	Reviews for Start-up, Shutdown, or Malfunctions.	August 17, 1979	April 16, 1982, 47 FR 16326.	Approval included paragraphs D.1 and D.2 only. Submitted on June 1, 1981.

Rule 706, paragraphs A to C, D.3, D.4, and E only.	Reviews for Start-up, Shutdown, or Malfunctions.	August 17, 1979	April 16, 1982, 47 FR 16326.	Approval included paragraphs A to C, D.3, D.4, and E only. Submitted on October 9, 1979.
Rule 721	Evasion of Basic Requirements.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 722	Concealment of Emissions.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Chapter VIII: Emergency Episodes and Public Awareness				
Rule 801	State Jurisdiction ...	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 802	Determination of Emergency Conditions.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 803	Emergency Episode Reporting.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 804	Enforcement Actions.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 811	Continuous Monitoring of Ambient Air Pollution.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 821	Reports to the Public.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 822	General Information	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 823	Public Participation in Rulemaking.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Tables Cited by Rules in Chapter VIII				
Table 802	Air Pollution Episode Criteria.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Table 804	Possible Control Actions During Various Stages of an Air Pollution Episode.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Chapter IX: Appendix				
Rule 901	General Affidavit of Delegation.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 902	Political Sub-Divisions Delegation.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 903	Large Power Plants Delegation.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 904	Unpaved Roads Delegation.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (“Emissions Discharge Testing for Common Air Pollutants”), Method 1.	Sample and Velocity Traverses for Stationary Sources.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (“Emissions Discharge Testing for Common Air Pollutants”), Method 2.	Determination of Stack Gas Velocity and Volumetric Flow Rate (Type S Pitot Tube).	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 3.	Gas Analysis for Carbon Dioxide, Excess Air, and Dry Molecular Weight.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 4.	Determination of Moisture in Stack Gases.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 5.	Determination of Particulate Emissions from Stationary Sources.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 6.	Determination of Sulfur Dioxide Emissions from Stationary Sources.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 7.	Determination of Nitrogen Oxide Emissions from Stationary Sources.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 8.	Determination of Sulfuric Acid Mist and Sulfur Dioxide Emissions from Stationary Sources.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 9.	Visual Determination of the Opacity of Emissions from Stationary Sources.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 10.	Determination of Carbon Monoxide Emissions from Stationary Sources.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 11.	Determination of Hydrogen Sulfide Emissions from Stationary Sources.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 16.	Semi-Continuous Determination of Sulfur Emissions from Stationary Sources.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 17.	Determination of Particulate Emissions from Stationary Sources (In-Stack Filtration Method).	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.

TABLE 7—EPA-APPROVED PIMA COUNTY AIR POLLUTION CONTROL REGULATIONS—Continued

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 19.	Determination of Sulfur Dioxide Removal Efficiency and Particulate, Sulfur Dioxide and Nitrogen Oxides Emission Rates from Electric Utility Steam Generators.	June 1, 1981	April 16, 1982, 47 FR 16326.	Submitted on June 1, 1981.
Rule 911 (''Emissions Discharge Testing for Common Air Pollutants''), Method 20.	Determination of Nitrogen Oxides, Sulfur Dioxide and Oxygen Emissions from Stationary Gas Turbines.	June 1, 1981	April 16, 1982, 47 FR 16326.	Submitted on June 1, 1981.
Rule 913 (''Ambient Air Testing for Common Air Pollutants''), Method A.	Reference Method for the Determination of Sulfur Dioxide in the Atmosphere (Pararosaniline Method).	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 913 (''Ambient Air Testing for Common Air Pollutants''), Method B.	Reference Method for the Determination of Suspended Particulates in the Atmosphere (High Volume Method).	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 913 (''Ambient Air Testing for Common Air Pollutants''), Method C.	Measurement Principle and Calibration Procedure for the Continuous Measurement of Carbon Monoxide in the Atmosphere (Non-Dispersive Infrared Spectrometry).	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 913 (''Ambient Air Testing for Common Air Pollutants''), Method D.	Measurement Principle and Calibration Procedure for the Measurement of Ozone in the Atmosphere.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.
Rule 913 (''Ambient Air Testing for Common Air Pollutants''), Method E.	Reference Method for Determination of Hydrocarbons Corrected for Methane.	August 17, 1979	April 16, 1982, 47 FR 16326.	Submitted on October 9, 1979.

1–1–080	Preservation of rights.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
1–1–090	Copies and effective date.	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
1–1–100	Selecting interpretations.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
1–1–106	Jurisdictional Statement.	February 22, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
1–2–110	Adopted document(s).	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
1–2–120	Adoptions by reference.	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
1–3–140	Definitions, 74, Hearing Board.	July 23, 2014	August 10, 2015, 80 FR 47859.	Adopted by the Pinal County Board of Supervisors through Resolution No. 072314–AQ1. Includes new text that is underlined and excludes removed text which was struck by the board. Submitted by ADEQ on September 4, 2014.
1–3–140	Definitions	July 29, 1998	November 13, 2002, 67 FR 68764.	Submitted on October 7, 1998.
Chapter 2. Ambient Air Quality Standards				
2–1–010	Purpose	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–1–020	Particulate matter	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–1–030	Sulfur oxide (sulfur dioxide).	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–1–040	Ozone	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–1–050	Carbon monoxide	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–1–060	Nitrogen dioxide	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–1–070	Lead	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–2–080	Air quality monitoring methods.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–2–090	Air quality monitoring procedures.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–3–100	Interpretation of ambient air quality standards.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–3–110	Evaluation of air quality data.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–4–120	Purpose	June 29, 1993	April 9, 1996, 61 FR 15717.	Relates to attainment area classifications. Submitted on November 27, 1995.

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
2–4–130	Adopted document(s).	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–4–140	Area classifications within Pinal County.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–4–150	Attainment status in Pinal County.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–5–160	Ambient air increment ceilings.	October 12, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–5–170	Baseline concentration.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–5–180	Baseline date	October 12, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–5–190	Baseline area	February 22, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–5–200	Exemptions	February 22, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–5–210	Violations of maximum allowable increases.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–6–220	Violations of national ambient air quality standards.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–7–230	Purpose	June 29, 1993	April 9, 1996, 61 FR 15717.	Relates to air pollution emergency episodes. Submitted on November 27, 1995.
2–7–240	Episode procedures guidelines.	June 29, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
2–7–250	Definitions	June 29, 1993	April 9, 1996, 61 FR 15717.	Relates to air pollution emergency episodes. Submitted on November 27, 1995.
2–7–260	Standards	June 29, 1993	April 9, 1996, 61 FR 15717.	Relates to air pollution emergency episodes. Submitted on November 27, 1995.
2–7–270	Administrative requirements.	June 29, 1993	April 9, 1996, 61 FR 15717.	Relates to air pollution emergency episodes. Submitted on November 27, 1995.
2–8–280	General	June 29, 1993	April 28, 2004, 69 FR 23103.	Relates to limits on visible emissions. Submitted on November 27, 1995.
2–8–290	Definitions	June 29, 1993	April 28, 2004, 69 FR 23103.	Relates to limits on visible emissions. Submitted on November 27, 1995.
2–8–300	Performance Standards.	May 18, 2005	March 27, 2006, 71 FR 15043.	Relates to limits on visible emissions. Submitted on September 12, 2005.

County citation	Title/subject	State effective date	EPA approval date	Additional explanation
2–8–302	Performance Standards—Hayden PM_{10} Nonattainment Area.	January 7, 2009	April 6, 2010, 75 FR 17307.	Submitted on June 12, 2009.
2–8–310	Exemptions	June 29, 1993	April 28, 2004, 69 FR 23103.	Relates to limits on visible emissions. Submitted on November 27, 1995.
2–8–320	Monitoring and records.	June 29, 1993	April 28, 2004, 69 FR 23103.	Relates to limits on visible emissions. Submitted on November 27, 1995.
Chapter 3. Permits and Permit Revisions				
3–1–010	Purpose	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–030	Definitions	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–040	Applicability and classes of permits.	October 12, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–042	Operating authority and obligations for a source subject to permit reopening.	February 22, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–050	Permit application requirements.	October 12, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–055	Completeness determination.	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–060	Permit application review process.	February 22, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–065	Permit review by the EPA and affected states.	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–070	Permit application grant or denial.	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–081	Permit conditions	February 22, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–082	Emission standards and limitations.	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–083	Compliance provisions.	February 22, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–084	Voluntarily Accepted Federal Enforceable Emission Limitations: Applicability; Reopening; Effective Date.	February 22, 1995	December 20, 2000, 65 FR 79742.	Submitted on November 27, 1995.
3–1–085	Notice by building permit agencies.	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–087	Permit reopening, reissuance and termination.	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–089	Permit term, renewal and expiration.	February 22, 1995	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.
3–1–090	Permit transfer	November 3, 1993	April 9, 1996, 61 FR 15717.	Submitted on November 27, 1995.

5–24–1055	Pumps and Compressors—Organic Compound Emissions.	February 22, 1995	December 26, 2000, 65 FR 81371.	Submitted on November 27, 1995.

(d) *EPA-approved source-specific requirements.*

EPA-APPROVED SOURCE-SPECIFIC REQUIREMENTS

Name of source	Order/permit No.	Effective date	EPA approval date	Explanation
Arizona Department of Environmental Quality				
Arizona Electric Power Cooperative's Apache Generating Station.	Significant Revision No. 59195 to Air Quality Control Permit No. 55412, excluding section V.D.	May 13, 2014	April 10, 2015, 80 FR 19220.	Permit issued by the Arizona Department of Environmental Quality. Submitted on May 13, 2014.
Cholla Power Plant	Significant Permit Revision No. 61713 to Operating Permit No. 53399.	October 16, 2015 ...	March 27, 2017, 82 FR 15139.	Permit issued by Arizona Department of Environmental Quality. Submitted on October 22, 2015.
Coronado Generating Station.	Permit #64169 (as amended by Significant Revision #63088) Cover Page and Attachment "E": BART Alternatives.	November 9, 2017	October 10, 2017, 82 FR 46903.	Permit issued by Arizona Department of Environmental Quality. Submitted on December 15, 2016.
Maricopa County Air Quality Department				
W.R. Meadows of Arizona, Inc., Goodyear, Arizona.	V98–0004, condition 23.	February 17, 2005	June 14, 2005, 70 FR 34357.	Permit issued by the Maricopa County Air Quality Department. Submitted on April 20, 2005.

(e) *EPA-approved Arizona nonregulatory provisions and quasi-regulatory measures.*

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
The State of Arizona Air Pollution Control Implementation Plan Clean Air Act Section 110(a)(2) State Implementation Plan Elements (Excluding Part D Elements and Plans)				
Chapter 1—Introduction.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
Appendix G—Policy Statement on Air Pollution Control.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.
Chapter 2—Legal Authority, excluding section 2.9 (''Jurisdiction over Indian Lands'').	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972. See table 1 of subsection (c) and table 3 of subsection (e). Section 2.9 was deleted without replacement at 81 FR 7209 (February 11, 2016).
Assertion of State Jurisdiction over Apache, Navajo, Santa Cruz, and Yavapai Counties; Assertion of State Jurisdiction over Cochise County; and Assertion of State Jurisdiction over specific sources in Mohave County.	Apache, Navajo, Santa Cruz, Yavapai, Cochise, and Mohave Counties.	February 3, 1975 ...	July 31, 1978, 43 FR 33245.	
Chapter 3—Air Quality Data.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.
Chapter 4—Emission Data.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.
Chapter 5—Air Quality Surveillance Network (February 1980).	State-wide	February 15, 1980	August 10, 1981, 46 FR 40512.	
Chapter 6—Control Strategy.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	SIP elements developed to address CAA requirements in designated nonattainment areas as well as maintenance plans are listed at the end of this table.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
Chapter 7—Compliance Schedules.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.
Chapter 8—Emergency Episode Prevention.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.
Appendix E—Emergency Episode Communications Manual.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.
Chapter 9—Review of New Sources and Modifications.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.
Setting Applicability Thresholds, pages 1547–1549 in Appendix A to ''State Implementation Plan Revision: New Source Review'' adopted on October 29, 2012.	State-wide	Submitted on October 29, 2012, and supplemented on September 6, 2013 and July 2, 2014.	November 2, 2015, 80 FR 67319.	
Memorandum, ''Proposed Final Permits to be Treated as Appealable Agency Actions,'' dated February 10, 2015, from Eric Massey, Air Quality Division Director to Balaji Vaidyanathan, Permit Section Manager, submitted on February 23, 2015..	State-wide	Submitted on October 29, 2012, and supplemented on September 6, 2013 and July 2, 2014.	November 2, 2015, 80 FR 67319.	
''State Implementation Plan Revision: New Source Review—Supplement,'' relating to the division of jurisdiction for New Source Review in Arizona, adopted on July 2, 2014.	State-wide	Submitted on October 29, 2012, and supplemented on September 6, 2013 and July 2, 2014.	November 2, 2015, 80 FR 67319.	

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
Letter from the Arizona Department of Environmental Quality, dated June 1, 1988, committing to administer the provisions of the Federal New Source Review regulations consistent with EPA's requirements.	State-wide	June 1, 1988	August 10, 1988, 53 FR 30220; vacated; restored on January 29, 1991, 56 FR 3219.	The commitments apply to the issuance of, or revision to, permits for any source which is a major stationary source or major modification as defined in 40 CFR, part 51, subpart I.†
Letter from Maricopa County Department of Health Services, Division of Public Health, dated April 28, 1988, committing to administer the New Source Review provisions of their regulations consistent with EPA's requirements.	Maricopa County	July 25, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	The commitments apply to the issuance of, or revision to, permits for any source which is a major stationary source or major modification as defined in 40 CFR, part 51, subpart I.†
Letter from the Pima County Health Department, Office of Environmental Quality, dated April 24, 1988 committing to administer the New Source Review provisions of their regulations consistent with EPA's requirements.	Pima County	July 22, 1988	August 10, 1988, 53 FR 30220; vacated; restored on January 29, 1991, 56 FR 3219.	The commitments apply to the issuance of, or revision to, permits for any source which is a major stationary source or major modification as defined in 40 CFR, part 51, subpart I.†
State Implementation Plan Determination of ''Good Engineering Practice'' Stack Height.	Gila County (Hayden Copper Smelter).	September 20, 1979.	January 14, 1983, 48 FR 1717.	Issued by Arizona Department of Health Services.
Technical Basis of New Source Review Regulations, Pima County, Arizona, February 6, 1980 (AQ–125-a).	Pima County	February 28, 1980	July 7, 1982, 47 FR 29532.	
Chapter 10—Source Surveillance.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
Chapter 11—Rules and Regulations.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Also, see tables 1 through 6 in section 40 CFR 52.120(c).
Chapter 12—Intergovernmental Cooperation.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.
Chapter 13—Resources.	State-wide	May 26, 1972	July 27, 1972, 37 FR 15080.	Submittal letter is dated May 26, 1972; received by EPA on May 30, 1972.
Small Business Stationary Source Technical and Environmental Compliance Assistance Program.	State-wide	February 1, 1995 ...	June 15, 1995, 60 FR 31411.	Adopted by the Arizona Department of Environmental Quality on February 1, 1995.
Small Business Stationary Source Technical and Environmental Compliance Assistance Program.	State-wide	November 13, 1992	June 15, 1995, 60 FR 31411.	Adopted by the Arizona Department of Environmental Quality on November 13, 1992.
A Revised Analysis of Lead Emissions and Ambient-Air Concentrations in Pima County, Arizona.	Pima County	September 26, 1980.	June 30, 1982, 47 FR 28374.	
Arizona Lead SIP Revision.	State-wide	April 1, 1980	June 30, 1982, 47 FR 28374.	
Arizona State Implementation Plan Revision to the Arizona Regional Haze Plan for Arizona Public Service Cholla Generating Station.	Source-Specific	October 22, 2015 ...	March 27, 2017, 82 FR 15139.	Revised source-specific BART limits for NO_X for Cholla Power Plant adopted October 22, 2015.
Arizona State Implementation Plan Revision to the Arizona Regional Haze Plan for the Salt River Project Coronado Generating Station, excluding Appendix B.	Source-Specific	December 15, 2016	October 10, 2017, 82 FR 46903.	BART Alternative for Coronado Generating Station adopted December 14, 2016.

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
Arizona State Implementation Plan, Revision to the Arizona Regional Haze Plan for Arizona Electric Power Cooperative, Incorporated, Apache Generating Station, excluding the appendices.	Source-Specific	May 13, 2014	April 10, 2015, 80 FR 19220.	Submitted on May 13, 2014.
Arizona State Implementation Plan Revision, Regional Haze Under Section 308 of the Federal Regional Haze Rule (May 2013), excluding:. (i) Chapter 10, section 10.7 (regarding ASARCO Hayden Smelter (PM_{10} emissions) and Chemical Lime Company—Nelson Lime Plant); (ii) Chapter 11, except subsection 11.3.1(3) (“Focus on SO_2 and NO_X pollutants”);	Source-Specific	May 3, 2013	July 30, 2013, 78 FR 46142.	

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
(iii) Appendix D: chapter I, except for the footnotes in tables 1.1, 1.2 and 1.3 to the entries for AEPCO [Apache], and the entry in table 1.2 for Freeport-McMoRan Miami Smelter; chapter VI, section C (regarding PM_{10} emissions from ASARCO Hayden smelter); chapter XII, section C, and chapter XIII, subsection D; and				
(iv) Appendix E.				
Arizona State Implementation Plan, Regional Haze Under Section 308 of the Federal Regional Haze Rule (January 2011), excluding:.	Source-Specific	February 28, 2011	July 30, 2013, 78 FR 46142.	

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
(i) Chapter 6: table 6.1; chapter 10: sections 10.4, 10.6 (regarding Unit I4 at the Irvington (Sundt) Generating Station), 10.7, and 10.8; chapter 11; chapter 12: sections 12.7.3 (''Emission Limitation and Schedules of Compliance'') and 12.7.6 (''Enforceability of Arizona's Measures''); and chapter 13: section 13.2.3 (''Arizona and Other State Emission Reductions Obligations'');				

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
(ii) Appendix D: chapter I; chapter V (regarding Unit I4 at the Irvington (Sundt) Generating Station); chapter VI, sections C and D; chapter VII; chapter IX; chapter X, section E.1; chapter XI, section D; chapter XII, sections B and C; chapter XIII, sections B, C, and D; and chapter XIV, section D; and				
(iii) Appendix E. Arizona State Implementation Plan, Regional Haze Under Section 308 of the Federal Regional Haze Rule: Appendix D, Arizona BART—Supplemental Information:.	Source-Specific	February 28, 2011	December 5, 2012, 77 FR 72512.	Certain source-specific Best Available Retrofit Technology (BART) limits at three electric generating stations.
(i) Table 1.1—NO_X BART, entry for AEPCO [Apache], ST1 [Unit 1] only.				
(ii) Table 1.2—PM_{10} BART, entries for AEPCO [Apache], APS Cholla Power Plant and SRP Coronado Generating Station.				

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
(iii) Table 1.3—SO_2 BART, entries for AEPCO, APS Cholla Power Plant and SRP Coronado Generating Station.				
Arizona State Implementation Plan Revision: Regional Haze 5-Year Progress Report, excluding Appendix A-Public Process.	State-wide	November 12, 2015	July 11, 2019, 84 FR 33002.	
Arizona State Implementation Plan Revision under Clean Air Act Section 110(a)(1) and (2); Implementation of the 2008 Lead National Ambient Air Quality Standards, excluding the appendices.	State-wide	October 14, 2011 ...	August 10, 2015, 80 FR 47859.	Adopted by the Arizona Department of Environmental Quality on October 14, 2011.
SIP Revision: Clean Air Act Section 110(a)(2)(D), 2008 Ozone National Ambient Air Quality Standards (December 3, 2015).	State-wide	December 3, 2015	May 19, 2016, 81 FR 31513; correcting amendment on June 6, 2016, 81 FR 31679.	Adopted by the Arizona Department of Environmental Quality on December 3, 2015.
Arizona State Implementation Plan Revision under Clean Air Act Section 110(a)(1) and (2); 2008 8-hour Ozone NAAQS, excluding the appendices.	State-wide	December 27, 2012	August 10, 2015, 80 FR 47859.	Adopted by the Arizona Department of Environmental Quality on December 27, 2012.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
Arizona State Implementation Plan Revision under Clean Air Act Section 110(a)(1) and (2); Implementation of the 2010 NO_2 National Ambient Air Quality Standards, excluding the appendices.	State-wide	January 18, 2013 ...	August 21, 2018, 83 FR 42214.	Adopted by the Arizona Department of Environmental Quality on January 18, 2013.
Arizona State Implementation Plan Revision under Clean Air Act Section 110(a)(1) and (2); Implementation of the 2010 SO_2 National Ambient Air Quality Standards, excluding the appendices.	State-wide	July 23, 2013	August 21, 2018, 83 FR 42214.	Adopted by the Arizona Department of Environmental Quality on July 23, 2013.
Arizona State Implementation Plan Revision under Clean Air Act Section 110(a)(1) and (2); Implementation of the 2008 ozone and 2010 NO_2 National Ambient Air Quality Standards, excluding:	State-wide	December 3, 2015	August 21, 2018, 83 FR 42214.	Adopted by the Arizona Department of Environmental Quality on December 3, 2015.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
(i) The submission in Enclosure 1 titled ''SIP Revision: Clean Air Act Section 110(a)(2)(D) 2008 Ozone National Ambient Air Quality Standards Air Quality Division'' dated December 3, 2015; (ii) All appendices in Enclosure 1; and Enclosure 2.				
Ordinance No. 1993–128, Section 1, 17.040.190 ''Composition'' Section 6, 17.24.040 ''Reporting for compliance evaluations''.	Pima County	December 19, 2013	August 10, 2015, 80 FR 47859.	Adopted by the Board of Supervisors of Pima County, Arizona on September 28, 1993.
Ordinance 2005–43, Chapter 17.12, Permits and Permit Revisions, section 2, 17.12.040 ''Reporting Requirements''.	Pima County	December 19, 2013	August 10, 2015, 80 FR 47859.	Adopted by the Board of Supervisors of Pima County, Arizona on April 19, 2005.
Arizona State Implementation Plan Revision under Clean Air Act Section 110(a)(1) and (2): Implementation of 2006 $PM_{2.5}$ National Ambient Air Quality Standards, 1997 $PM_{2.5}$ National Ambient Air Quality Standards, and 1997 8-Hour Ozone National Ambient Air Quality Standards, September 2009, excluding the appendices.	State-wide	October 14, 2009 ...	November 5, 2012, 77 FR 66398.	Adopted by the Arizona Department of Environmental Quality on October 14, 2009.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Final Supplement to the Arizona State Implementation Plan under Clean Air Act Section 110(a)(1) and (2): Implementation of 2006 $PM_{2.5}$ National Ambient Air Quality Standards, 1997 $PM_{2.5}$ National Ambient Air Quality Standards, and 1997 8-Hour Ozone National Ambient Air Quality Standards, August 2012, excluding the appendices.	State-wide	August 24, 2012	November 5, 2012, 77 FR 66398.	Adopted by the Arizona Department of Environmental Quality on August 24, 2012.
Revision to the Arizona State Implementation Plan Under Clean Air Act Section 110(a)(2)(D)(i)—Regional Transport (May 2007).	Statewide	May 24, 2007	July 31, 2007, 72 FR 41629.	Interstate Transport SIP adopted by the Arizona Department of Environmental Quality on May 24, 2007.
Part D Elements and Plans (Other than for the Metropolitan Phoenix or Tucson Areas)				
SIP Revision: Hayden Lead Nonattainment Area, excluding Appendix C.	Hayden, AZ Lead Nonattainment Area.	March 3, 2017	November 14, 2018, 83 FR 56734.	Adopted by the Arizona Department of Environmental Quality on March 3, 2017.
Arizona State Implementation Plan Revision: Miami Sulfur Dioxide Nonattainment Area for the 2010 SO_2 NAAQS, excluding Appendix D.	Miami, AZ Sulfur Dioxide Nonattainment Area.	March 9, 2017	March 12, 2019, 84 FR 8813.	Adopted by the Arizona Department of Environmental Quality on March 8, 2017.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Arizona State Implementation Plan Revision, Maintenance Plan for the Ajo Sulfur Dioxide Area (1971 NAAQS), (February 2013), excluding Appendix C, ''Overview of Point Source Emissions Limits and Potential to Emit''.	Ajo Sulfur Dioxide Air Quality Planning Area.	February 22, 2013	January 9, 2017, 82 FR 2239.	Adopted by the Arizona Department of Environmental Quality on February 22, 2013. Fulfills requirements for second ten-year maintenance plans. The SIP includes a request to correct the maintenance area boundary.
Ajo Sulfur Dioxide State Implementation and Maintenance Plan.	Ajo Sulfur Dioxide Air Quality Planning Area.	June 18, 2002	November 3, 2003, 68 FR 62239.	Adopted by the Arizona Department of Environmental Quality on June 18, 2002.
Bullhead City Moderate Area PM_{10} Maintenance Plan and Request for Redesignation to Attainment.	Bullhead City PM_{10} Air Quality Planning Area.	February 7, 2002 ...	June 26, 2002, 67 FR 43020.	Adopted by the Arizona Department of Environmental Quality on February 7, 2002.
Douglas Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan, dated November 29, 2001.	Douglas Sulfur Dioxide Air Quality Planning Area.	December 14, 2001	February 28, 2006, 71 FR 9941.	Adopted by the Arizona Department of Environmental Quality on December 14, 2001.
Modeling Supplement-Douglas Sulfur Dioxide (SO_2) State Implementation and Maintenance Plan.	Douglas Sulfur Dioxide Air Quality Planning Area.	April 2, 2004	February 28, 2006, 71 FR 9941.	Adopted by the Arizona Department of Environmental Quality on April 2, 2004.
Modeling and Emissions Inventory Supplement for the Douglas Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan and Redesignation Request, dated September 2005.	Douglas Sulfur Dioxide Air Quality Planning Area.	September 16, 2005.	February 28, 2006, 71 FR 9941.	Adopted by the Arizona Department of Environmental Quality on September 16, 2005.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Maintenance Plan Renewal, 1971 Sulfur Dioxide National Ambient Air Quality Standards, Douglas Maintenance Area.	Douglas Sulfur Dioxide Air Quality Planning Area.	December 14, 2016	June 8, 2018, 83 FR 26596.	Adopted by the Arizona Department of Environmental Quality on December 14, 2016. Fulfills requirements for second 10-year maintenance plan.
Final Miami Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan (June 2002) (revised May 26, 2004), excluding appendix A (''SIP Support Information''), sections A.1 (''Pertinent Sections of the Arizona Administrative Code'') and A.2 (''Information Regarding Revisions to AAC R18–2–715 and R18–2–715.01, 'Standards of Performance for Primary Copper Smelters: Site Specific Requirements; Compliance and Monitoring' ''); and appendix D (''SIP Public Hearing Documentation'').	Miami Sulfur Dioxide Air Quality Planning Area.	June 26, 2002	January 24, 2007, 72 FR 3061.	Adopted by ADEQ on June 26, 2002. Incorporates replacement pages for the cover page and pages iii, 2, 3, 4 and 49 enclosed with letter from ADEQ dated June 30, 2004. Includes a letter from Stephen A. Owens, Director, Arizona Department of Environmental Quality, dated June 20, 2006, withdrawing a section 107(d)(3)(D) boundary redesignation request included in the Miami Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan and requesting a section 110(k)(6) error correction.
Arizona State Implementation Plan Revision, Maintenance Plan for the Morenci Sulfur Dioxide Area (1971 NAAQS), (December 2014).	Morenci Sulfur Dioxide Air Quality Planning Area.	December 18, 2014	January 9, 2017, 82 FR 2239.	Adopted by the Arizona Department of Environmental Quality on December 18, 2014. Fulfills requirements for second ten-year maintenance plans.
Morenci Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan.	Morenci Sulfur Dioxide Air Quality Planning Area.	June 21, 2002	April 26, 2004, 69 FR 22447.	Adopted by the Arizona Department of Environmental Quality on June 21, 2002.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Final Update of the Limited Maintenance Plan for the Payson PM_{10} Maintenance Area (December 2011).	Payson PM_{10} Air Quality Planning Area.	January 23, 2012 ...	March 19, 2014, 79 FR 15227.	Adopted by the Arizona Department of Environmental Quality on January 23, 2012.
Payson Moderate Area PM_{10} Maintenance Plan and Request for Redesignation to Attainment.	Payson PM_{10} Air Quality Planning Area.	March 29, 2002	June 26, 2002, 67 FR 43013.	Adopted by the Arizona Department of Environmental Quality on March 29, 2002.
Arizona State Implementation Plan Revision for the Nogales $PM_{2.5}$ Nonattainment Area (September 2013), including appendices A and B.	Nogales $PM_{2.5}$ Nonattainment Area.	September 6, 2013	February 9, 2015, 80 FR 6907.	Adopted by the Arizona Department of Environmental Quality on September 6. 2013.
Final 2012 State Implementation Plan Nogales PM_{10} Nonattainment Area.	Nogales PM_{10} Nonattainment Area.	August 24, 2012	September 25, 2012, 77 FR 58962.	
Final Arizona State Implementation Plan Revision, San Manuel Sulfur Dioxide Nonattainment Area, March 2007.	San Manuel Sulfur Dioxide Nonattainment Area.	June 7, 2007	January 18, 2008, 73 FR 3396.	
San Manuel Sulfur Dioxide Maintenance Plan Renewal, 1971 Sulfur Dioxide National Ambient Air Quality Standards (April 2017).	San Manuel Sulfur Dioxide Air Quality Planning Area.	April 21, 2017	December 15, 2017, 82 FR 59520.	Adopted by the Arizona Department of Environmental Quality on April 21, 2017. Fulfills requirements for second 10-year maintenance plan.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Part D Elements and Plans for the Metropolitan Phoenix and Tucson Areas				
MAG 2014 State Implementation Plan Revision for the Removal of Stage II Vapor Recovery Controls in the Maricopa Eight-Hour Ozone Nonattainment Area (August 2014), excluding appendix A, exhibit 2 (''Arizona Revised Statutes Listed in Table 1–1'').	Maricopa Eight-Hour Ozone Nonattainment Area.	September 2, 2014	November 16, 2015, 80 FR 70689.	Adopted by the Regional Council of the Maricopa Association of Governments on August 27, 2014.
Final Addendum to the Arizona State Implementation Plan Revision, Exemption of Motorcycles from Vehicle Emissions Inspections and Maintenance Program Requirements in Area A, October 2009 (December 2010).	Area A—i.e., Phoenix metropolitan area.	January 11, 2011 ...	May 22, 2013, 78 FR 30209.	Adopted by the Arizona Department of Environmental Quality on January 11, 2011.
Final Arizona State Implementation Plan Revision, Exemption of Motorcycles from Vehicle Emissions Inspections and Maintenance Program Requirements in Area A (October 2009), excluding appendices A and C.	Area A—i.e., Phoenix metropolitan area.	November 6, 2009	May 22, 2013, 78 FR 30209.	Adopted by the Arizona Department of Environmental Quality on November 6, 2009.
September 2006 Supplement to Final Arizona State Implementation Plan Revision, Basic and Enhanced Vehicle Emissions Inspection/Maintenance Programs, December 2005, excluding appendices.	Areas A and B—i.e., Phoenix and Tucson metropolitan areas.	October 3, 2006	March 30, 2007, 72 FR 15046.	Adopted by the Arizona Department of Environmental Quality on October 3, 2006.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Final Arizona State Implementation Plan Revision, Basic and Enhanced Vehicle Emissions Inspection/Maintenance Programs (December 2005), excluding appendices.	Areas A and B—i.e., Phoenix and Tucson metropolitan areas.	December 23, 2005	March 30, 2007, 72 FR 15046.	Adopted by the Arizona Department of Environmental Quality on December 23, 2005.
MAG 2013 Carbon Monoxide Maintenance Plan for the Maricopa County Area, March 2013.	Maricopa County Carbon Monoxide Air Quality Planning Area.	April 2, 2013	March 3, 2016, 81 FR 11120.	Adopted by the Arizona Department of Environmental Quality on April 2, 2013.
MAG Carbon Monoxide Redesignation Request and Maintenance Plan for the Maricopa County Nonattainment Area and Appendices, dated May 2003.	Maricopa County Carbon Monoxide Air Quality Planning Area.	June 16, 2003	March 9, 2005, 70 FR 11553.	Adopted by the Arizona Department of Environmental Quality on June 16, 2003.
Revised MAG 1999 Serious Area Carbon Monoxide Plan for the Maricopa County Nonattainment Area, dated March 2001.	Maricopa County Carbon Monoxide Air Quality Planning Area.	April 18, 2001	March 9, 2005, 70 FR 11553.	Adopted by the Maricopa Association of Governments on March 28, 2001 and by the Arizona Department of Environmental Quality on April 18, 2001. March 9, 2005 final rule was corrected at September 6, 2005, 70 FR 52928.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
Addendum to MAG 1987 Carbon Monoxide Plan for the Maricopa County Nonattainment Area, July 21, 1988.	Maricopa County	July 22, 1988	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Supplemental information related to the SIP revision of July 18, 1988. Vacated by the U.S. Court of Appeals for the Ninth Circuit in *Delaney* v. *EPA.* Control and committal measures were restored on January 29, 1991, 56 FR 3219. EPA disapproved the attainment demonstration, conformity and contingency portions of the 1988 Addendum at 40 CFR 52.124(a)(1). See 56 FR 5458 (February 11, 1991).
Maricopa Association of Governments (MAG) 1987 Carbon Monoxide (CO) Plan for the Maricopa County Area, MAG CO Plan Commitments for Implementation, and Appendix A through E, Exhibit 4, Exhibit D.	Maricopa County Carbon Monoxide Air Quality Planning Area.	October 5, 1987	August 10, 1988, 53 FR 30224; vacated; restored on January 29, 1991, 56 FR 3219.	Adopted on July 10, 1987. Vacated by the U.S. Court of Appeals for the Ninth Circuit in *Delaney* v. *EPA.* Control and committal measures were restored on January 29, 1991, 56 FR 3219. EPA disapproved the attainment demonstration, conformity and contingency portions of the 1987 MAG CO Plan at 40 CFR 52.124(a)(1). See 56 FR 5458 (February 11, 1991).

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Analysis of Reasonably Available Control Technology for the 2008 8-Hour Ozone National Ambient Air Quality Standard (NAAQS) State Implementation Plan (RACT SIP).	Maricopa County portion of Phoenix-Mesa nonattainment area for 2008 8-hour ozone NAAQS.	June 22, 2017	2/26/2020, 85 FR 10986.	Only those portions of the document beginning with ''Gasoline Bulk Plants, Fixed Roof Petroleum Tanks, External Floating Roof Petroleum Tanks, And Gasoline Loading Terminals'' on page 33 through the first full paragraph on page 35, and Appendix C: CTG RACT Spreadsheet, the rows beginning with ''Gasoline Bulk Plants'' on page 60, through ''Service Stations—Stage I'' on pages 67–69.
Reasonably Available Control Technology (RACT) Analysis, Negative Declaration and Rules Adoption.	Pinal County portion of Phoenix-Mesa nonattainment area for 2008 8-hour ozone NAAQS.	February 3, 2017 ...	August 9, 2019, 84 FR 39196.	RACT SIP submittal for Apache Junction (Pinal County portion of Phoenix-Mesa ozone nonattainment area). Adopted by the Pinal County Air Quality Control District on November 30, 2016.
MAG 2014 Eight-Hour Ozone Plan—Submittal of Marginal Area Requirements for the Maricopa Nonattainment Area (June 2014), excluding:	Phoenix-Mesa 2008 8-hour ozone nonattainment area.	July 2, 2014	October 16, 2015, 80 FR 62457.	

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
(i) Sections titled "A Nonattainment Area Preconstruction Permit Program—CAA section 182 (a)(2)(C)," "New Source Review—CAA, Title I, Part D," and "Offset Requirements: 1:1 to 1 (Ratio of Total Emission Reductions of Volatile Organic Compounds to Total Increased Emissions)—CAA Section 182(a)(4)" on pages 8 and 9 and section titled "Meet Transportation Conformity Requirements—CAA Section 176(c)" on pages 10 and 11. (ii) Appendices A and B.				
MAG Eight-Hour Ozone Redesignation Request and Maintenance Plan for the Maricopa Nonattainment Area (February 2009), excluding the appendices.	Phoenix-Mesa 1997 8-hour ozone maintenance area.	March 23, 2009	September 17, 2014, 79 FR 55645.	Adopted by the Arizona Department of Environmental Quality on March 23, 2009.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Letter dated June 13, 2007 from Stephen A. Owens, Director, ADEQ to Wayne Nastri, Regional Administrator, United States Environmental Protection Agency, Region IX.	Phoenix-Mesa 1997 8-hour ozone nonattainment area.	June 13, 2007	June 13, 2012, 77 FR 35285.	Transmittal letter for Eight-Hour Ozone Plan for the Maricopa Nonattainment Area (June 2007).
Eight-Hour Ozone Plan for the Maricopa Nonattainment Area (June 2007), including Appendices, Volumes One and Two.	Phoenix-Mesa 1997 8-hour ozone nonattainment area.	June 13, 2007	June 13, 2012, 77 FR 35285.	
One-Hour Ozone Redesignation Request and Maintenance Plan for the Maricopa County Nonattainment Area, dated March 2004.	Maricopa County 1-Hour Ozone Air Quality Planning Area.	April 21, 2004	June 14, 2005, 70 FR 34362.	Adopted by the Maricopa Association of Governments Regional Council on March 26, 2004 and adopted by the Arizona Department of Environmental Quality on April 21, 2004.
Final Serious Area Ozone State Implementation Plan for Maricopa County, dated December 2000.	Maricopa County 1-Hour Ozone Air Quality Planning Area.	December 14, 2000	June 14, 2005, 70 FR 34362.	Adopted by the Arizona Department of Environmental Quality on December 14, 2000.
Letter and enclosures regarding Arizona's Intent to "Opt-out" of the Clean Fuel Fleet Program.	Maricopa County 1-Hour Ozone Air Quality Planning Area.	December 7, 1998	June 14, 2005, 70 FR 34362.	Adopted by the Arizona Department of Environmental Quality on December 7, 1998.
2012 Five Percent Plan for PM–10 for the Maricopa County Nonattainment Area, and Appendices Volume One and Volume Two.	Maricopa County PM–10 Nonattainment Area.	May 25, 2012	June 10, 2014, 79 FR 33107.	Adopted May 23, 2012.
2012 Five Percent Plan for PM–10 for the Pinal County Township 1 North, Range 8 East Nonattainment Area.	Pinal County Township 1 North, Range 8 East Nonattainment Area.	May 25, 2012	June 10, 2014, 79 FR 33107.	Adopted May 25, 2012.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively] [1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Nonattainment Area Plan for Total Suspended Particulates, Maricopa County Urban Planning Area.	Maricopa County Urban Planning Area.	November 8, 1979	May 5, 1982, 47 FR 19326.	
Revision to the Nonattainment Area Plan for Carbon Monoxide and Photochemical Oxidants, Maricopa County Urban Planning Area.	Maricopa County Urban Planning Area.	July 3, 1979	May 5, 1982, 47 FR 19326.	
Nonattainment Area Plan for Carbon Monoxide and Photochemical Oxidants, Maricopa County Urban Planning Area.	Maricopa County Urban Planning Area.	February 23, 1979	May 5, 1982, 47 FR 19326.	
Letter supplementing the revised transportation control plan.	Phoenix-Tucson Intrastate Air quality Control Region.	October 2, 1973	December 3, 1973, 38 FR 33368.	
Letter supplementing the revised transportation control plan.	Phoenix-Tucson Intrastate Air quality Control Region.	September 21, 1973.	December 3, 1973, 38 FR 33368.	
Revised transportation control plan.	Phoenix-Tucson Intrastate Air quality Control Region.	September 11, 1973.	December 3, 1973, 38 FR 33368.	EPA approved various transportation control strategies, including certain elements of an inspection program, but disapproved other elements, and approved certain strategies with exception.
2008 Revision to the Carbon Monoxide Limited Maintenance Plan for the Tucson Air Planning Area (for 2010), excluding appendix D.	Tucson Air Planning Area.	July 10, 2008	December 21, 2009, 74 FR 67819.	Adopted by the Pima Association of Governments on June 26, 2008.

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or non-attainment area or title/subject	State submittal date	EPA approval date	Explanation
Appendix D (Revised)—Supplement to the Carbon Monoxide Limited Maintenance Plan for the Tucson Air Planning Area (for 2010).	Tucson Air Planning Area.	June 22, 2009	December 21, 2009, 74 FR 67819.	Letter from Arizona Department of Environmental Quality re: Vehicle Emissions Inspection Program (VEIP), Revised to include supporting documents authorizing the VEIP from 2009 to 2017. Adopted by the Pima Association of Governments on May 28, 2009.
1996 Carbon Monoxide Limited Maintenance Plan for the Tucson Air Planning Area (as updated August, 1997).	Tucson Air Planning Area.	October 6, 1997	June 8, 2000, 65 FR 36353; corrected March 18, 2004, 69 FR 12802.	Approval includes base year (1994) emissions inventory; contingency plan, including commitments to follow maintenance plan contingency procedures by the Pima Association of Governments and by the member jurisdictions: the town of Oro Valley, Arizona (Resolution No. (R) 96–38, adopted June 5, 1996), the City of South Tucson (Resolution No. 96–16, adopted on June 10, 1996), Pima County (Resolution and Order No. 1996–120, adopted June 18, 1996), the City of Tucson (Resolution No. 17319, adopted June 24, 1996), and the town of Marana, Arizona (Resolution No. 96–55, adopted June 18, 1996).

TABLE 1—EPA-APPROVED NON-REGULATORY AND QUASI-REGULATORY MEASURES—Continued

[Excluding certain resolutions and statutes, which are listed in tables 2 and 3, respectively][1]

Name of SIP provision	Applicable geographic or nonattainment area or title/subject	State submittal date	EPA approval date	Explanation
Commitment in the July 22, 1988 submittal letter to apply the oxygenated fuels program of the July 18, 1988 submittal to Pima County.	Pima County	July 22, 1988	January 29, 1991, 56 FR 3219.	
1987 Carbon Monoxide State Implementation Plan Revision for the Tucson Air Planning Area.	Tucson Air Planning Area.	January 6, 1988	August 10, 1988, 53 FR 30220; vacated; restored on January 29, 1991, 56 FR 3219.	Adopted on October 21, 1987. Vacated by the U.S. Court of Appeals for the Ninth Circuit in *Delaney* v. *EPA*. Control and committal measures were restored on January 29, 1991, 56 FR 3219.
Improvement Schedules for Transit System and Rideshare Program in Metropolitan Pima County.	Metropolitan Pima County.	March 8, 1982	July 7, 1982, 47 FR 29532.	Adopted on October 21, 1987.
Metropolitan Pima County Nonattainment Area Plan for TSP.	Metropolitan Pima County.	March 27, 1979	July 7, 1982, 47 FR 29532.	
Metropolitan Pima County Nonattainment Area Plan for CO.	Metropolitan Pima County.	March 20, 1979	July 7, 1982, 47 FR 29532.	
Intergovernmental Agreement (IGA) between Pima County, City of Tucson, City of South Tucson, Town of Oro Valley and Town of Marana, April 18, 1988.	Pima County	May 26, 1988	January 29, 1991 ...	Related to motor vehicle trip reduction.

[1] Table 1 is divided into three parts: Clean Air Act Section 110(a)(2) State Implementation Plan Elements (excluding Part D Elements and Plans), Part D Elements and Plans (other than for the Metropolitan Phoenix or Tucson Areas), and Part D Elements and Plans for the Metropolitan Phoenix and Tucson Areas.

† Vacated by the U.S. Court of Appeals for the Ninth Circuit in *Delaney* v. *EPA,* 898 F.2d 687 (9th Cir. 1990). Restored on January 29, 1991, 56 FR 3219.

TABLE 2—EPA-APPROVED RESOLUTIONS ADOPTED BY JURISDICTIONS IN MARICOPA AND PINAL COUNTIES TO IMPLEMENT MEASURES IN PM–10 AND CARBON MONOXIDE STATE IMPLEMENTATION PLANS

Name of SIP provision	Applicable geographic or nonattainment area	State submittal date	EPA approval date	Explanation
Resolution to Implement Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and Arizona Department of Transportation Plan to Reduce Reentrained Dust Emissions from Targeted Paved Roads).	Maricopa County	October 7, 2005	August 21, 2007, 72 FR 46564.	Adopted by the Arizona Department of Transportation on September 17, 2004.
Resolution to Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 8 pages).	Maricopa County	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by the Arizona Department of Transportation on July 17, 1998.
Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 24 pages plus index page).	Maricopa County	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by the Arizona Department of Transportation on June 20, 1997.
Resolution No. C–85–05–005–0–00: Resolution to Implement Additional Measures for the Maricopa County, Arizona Serious PM–10 Nonattainment Area (including Exhibit A).	Maricopa County	October 7, 2005	August 21, 2007, 72 FR 46564.	Adopted on January 19, 2005.

TABLE 2—EPA-APPROVED RESOLUTIONS ADOPTED BY JURISDICTIONS IN MARICOPA AND PINAL COUNTIES TO IMPLEMENT MEASURES IN PM–10 AND CARBON MONOXIDE STATE IMPLEMENTATION PLANS—Continued

Name of SIP provision	Applicable geographic or nonattainment area	State submittal date	EPA approval date	Explanation
Resolution to Adopt the Revised MAG 1999 Serious Area Particulate Plan for PM–10 for the Maricopa County Nonattainment Area (including Exhibit A, 2 pages).	Maricopa County	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by the Maricopa Association of Governments on February 14, 2000.
Resolution #9701: Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 23 pages).	Maricopa County	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by the Regional Public Transportation Authority on June 12, 1997.
Resolution to Update Control Measure 6 in the Revised MAG 1999 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 2 pages).	Maricopa County	January 8, 2002	July 25, 2002, 67 FR 48718.	Adopted by Maricopa County on December 19, 2001.
Resolution to Implement Measures in the MAG 1999 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 10 pages).	Maricopa County	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by Maricopa County on December 15, 1999.
Resolution to Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 10 pages).	Maricopa County	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by Maricopa County on February 17, 1999.

TABLE 2—EPA-APPROVED RESOLUTIONS ADOPTED BY JURISDICTIONS IN MARICOPA AND PINAL COUNTIES TO IMPLEMENT MEASURES IN PM–10 AND CARBON MONOXIDE STATE IMPLEMENTATION PLANS—Continued

Name of SIP provision	Applicable geographic or nonattainment area	State submittal date	EPA approval date	Explanation
Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 9 pages).	Maricopa County	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by Maricopa County on November 19, 1997.
Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 16 pages).	Maricopa County	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by Maricopa County on June 25, 1997. Transcription error ''1A998'' in the original.
Resolution To Improve the Administration of Maricopa County's Fugitive Dust Program and to Foster Interagency Cooperation.	Maricopa County	May 7, 1997	August 4, 1997, 62 FR 41856.	Adopted by Maricopa County on May 14, 1997.
Resolution No. 04–24: A Resolution of the Mayor and City Council of the City of Apache Junction, Arizona, Implementing Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A).	City of Apache Junction.	October 7, 2005	August 21, 2007, 72 FR 46564.	Adopted on September 21, 2004.

TABLE 2—EPA-APPROVED RESOLUTIONS ADOPTED BY JURISDICTIONS IN MARICOPA AND PINAL COUNTIES TO IMPLEMENT MEASURES IN PM–10 AND CARBON MONOXIDE STATE IMPLEMENTATION PLANS—Continued

Name of SIP provision	Applicable geographic or nonattainment area	State submittal date	EPA approval date	Explanation
Resolution No. 2448–04: A Resolution of the Council of the City of Avondale, Arizona, Implementing Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A).	City of Avondale	October 7, 2005	August 21, 2007, 72 FR 46564.	Adopted on September 20, 2004.
Resolution No. 1949–99; A Resolution of the Council of the City of Avondale, Maricopa County, Arizona, Implementing Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 7 pages).	City of Avondale	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by the City of Avondale on February 16, 1999.
Resolution No. 1711–97; A Resolution of the City Council of the City of Avondale, Maricopa County, Arizona, To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 14 pages).	City of Avondale	February 16, 2000	July 25, 2002, 67 FR 48718.	Adopted by the City of Avondale on September 15, 1997.

MAG 2017 Eight-Hour Ozone Moderate Area Plan for the Maricopa Nonattainment Area (December 2016).	Phoenix-Mesa 2008 8-hour ozone nonattainment area.	December 19, 2016.	85 FR 33571, June 2, 2020.	Adopted by the Arizona Department of Environmental Quality on December 13, 2016.
MAG 2014 Eight-Hour Ozone Plan—Submittal of Marginal Area Requirements for the Maricopa Nonattainment Area (June 2014), Sections titled ''A Nonattainment Area Preconstruction Permit Program—CAA section 182(a)(2)(C),'' ''New Source Review—CAA, Title I, Part D,'' and ''Offset Requirements: 1:1 to 1 (Ratio of Total Emission Reductions of Volatile Organic Compounds to Total Increased Emissions)—CAA Section 182(a)(4)'' on pages 8 and 9.	Phoenix-Mesa 2008 8-hour ozone nonattainment area.	July 2, 2014	85 FR 33571, June 2, 2020.	Other provisions of the MAG 2014 Eight-Hour Ozone Plan—Submittal of Marginal Area Requirements for the Maricopa Nonattainment Area (June 2014) were approved on October 16, 2015.
* * * * * *				

[1] Table 1 is divided into three parts: Clean Air Act Section 110(a)(2) State Implementation Plan Elements (excluding Part D Elements and Plans), Part D Elements and Plans (other than for the Metropolitan Phoenix or Tucson Areas), and Part D Elements and Plans for the Metropolitan Phoenix and Tucson Areas.

* * * * *

§ 52.121 Classification of regions.

The Arizona plan is evaluated on the basis of the following classifications:

AQCR (constituent counties)	Classifications				
	PM	SO_X	NO_2	CO	O_3
Maricopa Intrastate (Maricopa)	I	III	III	I	I
Pima Intrastate (Pima)	I	III	III	III	I

AQCR (constituent counties)	Classifications				
	PM	SO_X	NO_2	CO	O_3
Northern Arizona Intrastate (Apache, Coconino, Navajo, Yavapai)	I	III	III	III	III
Mohave-Yuma Intrastate (Mohave, Yuma)	I	III	III	III	III
Central Arizona Intrastate (Gila, Pinal)	I	IA	III	III	III
Southeast Arizona Intrastate (Cochise, Graham, Greenlee, Santa Cruz)	I	IA	III	III	III

[83 FR 42219, Aug. 21, 2018]

§ 52.122 Negative declarations.

(a) The following air pollution control districts submitted negative declarations for volatile organic compound source categories to satisfy the requirements of section 182 of the Clean Air Act, as amended. The following negative declarations are approved as additional information to the State Implementation Plan.

(1) Maricopa County Environmental Services Department.

(i) Refinery Sources (Refinery Process Turnarounds), Automobile and Light Duty Trucks, Magnet Wire, Flatwood Paneling, Pharmaceuticals and Cosmetic Manufacturing Operations, Rubber Tire Manufacturing, Polymer Manufacturing, Industrial Wastewater, Ship Building and Repair, Synthetic Organic Chemical Manufacturing Industry (SOCMI) Batch Processing, SOCMI Reactors, and SOCMI Distillation were adopted on April 26, 2000 and submitted on December 14, 2000.

(ii) Fiberglass Boat Manufacturing was adopted on March 24, 2004 and submitted on April 21, 2004.

(2) Pinal County Air Quality Control District.

(i) The following negative declarations for the 2008 ozone NAAQS were adopted on November 30, 2016 and submitted on February 3, 2017.

EPA document No.	Title
EPA–450/2–77–008	Surface Coating of Cans.
EPA–450/2–77–008	Surface Coating of Coils.
EPA–450/2–77–008	Surface Coating of Paper.
EPA–450/2–77–008	Surface Coating of Fabric.
EPA–450/2–77–008	Surface Coating of Automobiles and Light-Duty Trucks.
EPA–450/2–77–022	Solvent Metal Cleaning.
EPA–450/2–77–025	Refinery Vacuum Producing Systems, Wastewater Separators, and Process Unit Turnarounds.
EPA–450/2–77–026	Tank Truck Gasoline Loading Terminals.
EPA–450/2–77–032	Surface Coating of Metal Furniture.
EPA–450/2–77–033	Surface Coating of Insulation of Magnet Wire.
EPA–450/2–77–034	Surface Coating of Large Appliances.
EPA–450/2–77–035	Bulk Gasoline Plants.
EPA–450/2–77–036	Storage of Petroleum Liquids in Fixed-Roof Tanks.
EPA–450/2–78–029	Manufacture of Synthesized Pharmaceutical Products.
EPA–450/2–78–030	Manufacture of Pneumatic Rubber Tires.
EPA–450/2–78–032	Factory Surface Coating of Flat Wood Paneling.
EPA–450/2–78–033	Graphic Arts—Rotogravure and Flexography.
EPA–450/2–78–036	Leaks from Petroleum Refinery Equipment.
EPA–450/2–78–047	Petroleum Liquid Storage in External Floating Roof Tanks.
EPA–450/2–78–051	Leaks from Gasoline Tank Trucks and Vapor Collection Systems.
EPA–450/3–82–009	Large Petroleum Dry Cleaners.
EPA–450/3–83–006	Leaks from Synthetic Organic Chemical Polymer and Resin Manufacturing Equipment.
EPA–450/3–83–007	Leaks from Natural Gas/Gasoline Processing Plants.
EPA–450/3–83–008	Manufacture of High-Density Polyethylene, Polypropylene, and Polystyrene Resins.
EPA–450/3–84–015	Air Oxidation Processes in Synthetic Organic Chemical Manufacturing Industry.
EPA–450/4–91–031	Reactor Processes and Distillation Operations in Synthetic Organic Chemical Manufacturing Industry.
EPA–453/R–96–007	Wood Furniture Manufacturing Operations.

[67 FR 54743, Aug. 26, 2002, as amended at 70 FR 7041, Feb. 10, 2005; 84 FR 39200, Aug. 9, 2019]

§ 52.123 Approval status.

(a) With the exceptions set forth in this subpart, the Administrator approved Arizona's plan for the attainment of the national standards.

(b) With the exception set forth in §§ 52.130 and 52.135, the Administrator approves the inspection and maintenance (I/M) program for motor vehicles; the carpool matching program; certain transit improvements; and certain traffic flow improvement and site-specific traffic control measures.

(c) With the exceptions set forth in this subpart, the Administrator approves the plan with respect to Part D, Title I of the Clean Air Act, as amended in 1977, for the nonattainment areas listed in this paragraph.

(1) For TSP, the portion of the Tucson TSP Air Planning Area falling both within the area described by connecting the geographic points in the order listed below in this paragraph and within the townships and sections described below in this paragraph:

Latitude 32°38.5′ N, Longitude 111°24.0′ W
Latitude 32°26.5′ N, Longitude 110°47.5′ W
Latitude 32°12.5′ N, Longitude 110°32.5′ W
Latitude 31°49.5′ N, Longitude 110°25.5′ W
Latitude 31°42.0′ N, Longitude 110°50.5′ W
Latitude 31°52.5′ N, Longitude 111°12.5′ W
Latitude 31°24.5′ N, Longitude 111°29.0′ W

(and return to initial point)

T9S, R9–11E
T10S, R9–13E
T13S, R13E: sections 5, 8–10, 13–17, 20–28, 33–36, 6 (NE and SE quarters only) and 7 (NE and SE quarters only)
T13S, R14E: sections 19–21, 26–35
T14S, R13E: sections 1–3, 10–14, 23–25
T14S, R14E: sections 3–9, 17–19, 30
T17S, R19E
T18S, R19E
T20S, R14–15E

(d) With the exceptions set forth in this subpart, the Administrator approves the plan with respect to Part D, Title I of the Clean Air Act, as amended in 1977, for the nonattainment areas listed in this paragraph. In addition, continued satisfaction of the requirements of Part D for the ozone portion of the State Implementation Plan (SIP) depends on the adoption and submittal by January 1, 1981, of reasonably available control technology (RACT) requirements for sources covered by Control Technique Guidelines (CTG's) published between January 1978 and January 1979.

(1) Maricopa County Urban Planning Area for O_3.

(e) The Administrator finds that the plan does not satisfy all the requirements of Part D, Title I, of the Clean Air Act as amended in 1977 for the nonattainment and area pollutants listed in this paragraph.

(1) Maricopa County Urban Planning Area for CO and TSP.

(2) [Reserved]

(3) The following portion of the Tucson TSP Air Planning Area: The area described by connecting the following geographic points in the order listed below:

Latitude 32°38.5′ N, Longitude 111°24.0′ W
Latitude 32°26.5′ N, Longitude 110°47.5′ W
Latitude 32°12.5′ N, Longitude 110°32.5′ W
Latitude 31°49.5′ N, Longitude 110°25.5′ W
Latitude 31°42.0′ N, Longitude 110°50.5′ W
Latitude 31°52.5′ N, Longitude 111°12.5′ W
Latitude 31°24.5′ N, Longitude 111°29.0′ W

(and return to initial point)

Excluding the area within the following townships:

T9S, R9–11E
T10S, R9–13E

T13S, R13E: sections 5, 8–10, 13–17, 20–28, 33–36, 6 (NE and SE quarters only) and 7 (NE and SE quarters only)
T13S, R14E: sections 19–21, 26–35
T14S, R13E: sections 1–3, 10–14, 23–25
T14S, R14E: sections 3–9, 17–19, 30
T17S, R19E
T18S, R19E
T20S, R14–15E

(f) Maricopa County PM–10 Nonattainment Area (Phoenix Planning Area). (1) *Plan for Attainment of the 24-hour PM–10 Standard—Maricopa County PM–10 Nonattainment Area* (May, 1997) submitted by the Arizona Department of Environmental Quality on May 7, 1997.

(i) [Reserved]

(ii) The Administrator approves the attainment and reasonable further progress demonstrations for the Maryvale PM–10 monitoring site and Salt River PM–10 monitoring site.

(iii) The approvals in paragraphs (f)(1) (i) and (ii) of this section are applicable only to the plan identified in paragraph (f)(1) of this section and do not constitute the Administrator's final decision as to the State's full compliance with the requirements of Clean Air Act sections 189(a)(1)(C) and 189(b)(1)(B) for RACM and BACM and sections 189(a)(1)(B), 189(b)(1)(A) and 189(c)(1) for attainment and reasonable further progress.

(g) Pursuant to the Federal planning authority in section 110(c) of the Clean Air Act, the Administrator finds that the applicable implementation plan for the Maricopa County ozone nonattainment area demonstrates the 15 percent VOC rate of progress required under section 182(b)(1)(A)(i).

(h) Pursuant to the federal planning authority in section 110(c) of the Clean Air Act, the Administrator finds that the applicable implementation plan for the Maricopa County PM–10 nonattainment area provides for the implementation of reasonably available control measures as required by section 189(a)(1)(C) and demonstrates attainment by the applicable attainment date as required and allowed by sections 172(c)(2) and 189(a)(1)(B).

(i) The Administrator approves the Maintenance Plan for the Tucson Air Planning Area submitted by the Arizona Department of Environmental Quality on October 6, 1997 as meeting requirements if section 175(A) of the Clean Air Act and the requirements of EPA's Limited Maintenance Plan option. The Administrator approves the Emissions Inventory contained in the Maintenance Plan as meeting the requirements of section 172(c)(3) of the Clean Air Act.

(j) The Administrator is approving the following elements of the Metropolitan Phoenix PM–10 Nonattainment Area Serious Area PM–10 Plan as contained in *Revised Maricopa Association of Governments 1999 Serious Area Particulate Plan for PM–10 for the Maricopa County Nonattainment Area,* February 2000, submitted February 16, 2000 and *Maricopa County PM–10 Serious Area State Implementation Plan Revision, Agricultural Best Management Practices (BMP),* ADEQ, June 2000, submitted on June 13, 2001:

(1) 1994 Base year emission inventory pursuant to Clean Air Act section 172(c)(3).

(2) The Provisions for implementing on all significant source categories reasonably available control measures (except for agricultural sources) and best available control measures for the annual and 24-hour PM–10 NAAQS pursuant to section Clean Air Act sections 189(a)(1)(c) and 189(b)(1)(b)).

(3) The demonstration of the impracticability of attainment by December 31, 2001 for the annual and 24-hour PM–10 NAAQS pursuant to Clean Air Act section 189(b)(1)(A)(ii).

(4) The demonstration of attainment by the most expeditious alternative date practicable for the annual and 24-hour PM–10 NAAQS pursuant to Clean Air Act section 189(b)(1)(A)(ii).

(5) The demonstration of reasonable further progress for the annual and 24-hour PM–10 NAAQS pursuant to Clean Air Act section 172(c)(2).

(6) The quantitative milestones for the annual and 24-hour PM–10 NAAQS pursuant to Clean Air Act section 189(c).

(7) The inclusion of the most stringent measures for the annual and 24-hour PM–10 NAAQS pursuant to Clean Air Act section 188(e).

(8) The demonstration that major sources of PM–10 precursors do not contribute significantly to violations for the annual and 24-hour PM–10 NAAQS

pursuant to Clean Air Act section 189(e).

(9) The contingency measures for the annual and 24-hour PM–10 NAAQS pursuant to Clean Air Act section 172(c)(9).

(10) The transportation conformity budget for the annual and 24-hour PM–10 NAAQS pursuant to Clean Air Act section 176(c).

(11) The provisions for assuring adequate resources, personnel, and legal authority to carry out the plan for the annual and 24-hour PM–10 NAAQS pursuant to Clean Air Act section 110(a)(2)(E)(i).

(k) The Administrator approves the revised Enhanced Vehicle Inspection and Maintenance Program for the Maricopa County carbon monoxide and ozone nonattainment area submitted by the Arizona Department of Environmental Quality on July 6, 2001 and April 10, 2002 as meeting the requirements of Clean Air Act sections 182(c)(3) and 187(a)(6) and the requirements for high enhanced inspection and maintenance programs contained in 40 CFR part 51, subpart S.

(l) *1997 8-hour ozone NAAQS:* The SIPs submitted on October 14, 2009 and August 24, 2012 are fully or partially disapproved for Clean Air Act (CAA) elements 110(a)(2)(C), (D)(ii), and (J) for all portions of the Arizona SIP.

(m) *1997 $PM_{2.5}$ NAAQS:* The SIPs submitted on October 14, 2009 and August 24, 2012 are fully or partially disapproved for Clean Air Act (CAA) elements 110(a)(2)(C), (D)(ii), (J) and (K) for all portions of the Arizona SIP.

(n) *2006 $PM_{2.5}$ NAAQS:* The SIPs submitted on October 14, 2009 and August 24, 2012 are fully or partially disapproved for Clean Air Act (CAA) elements 110(a)(2)(C), (D)(i)(II), (D)(ii), and (J) for all portions of the Arizona SIP.

(o) *2008 8-hour ozone NAAQS:* The SIPs submitted on October 14, 2011, December 27, 2012, and December 3, 2015 are fully or partially disapproved for Clean Air Act (CAA) elements 110(a)(2)(C), (D)(i)(II), D(ii), and (J) for all portions of the Arizona SIP.

(p) *2008 Lead (Pb) NAAQS:* The SIPs submitted on October 14, 2011 and December 27, 2012 are fully or partially disapproved for Clean Air Act (CAA) elements 110(a)(2)(C), (D)(ii), and (J) for all portions of the Arizona SIP.

(q) *2010 Nitrogen Dioxide NAAQS:* The SIPs submitted on January 18, 2013 and December 3, 2015 are fully or partially disapproved for CAA elements 110(a)(2)(C), (D)(i)(II), (D)(ii), and (J) for all portions of the Arizona SIP.

(r) *2010 Sulfur Dioxide NAAQS:* The SIPs submitted on July 23, 2013 and December 3, 2015 are fully or partially disapproved for CAA elements 110(a)(2)(C), (D)(i)(II), (D)(ii), and (J) for all portions of the Arizona SIP.

[38 FR 33373, Dec. 3, 1973]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.123, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

§ 52.124 Part D disapproval.

(a) The following portions of the Arizona SIP are disapproved because they do not meet the requirements of Part D of the Clean Air Act.

(1) The attainment demonstration, conformity and contingency portions of the 1987 Maricopa Association of Governments Carbon Monoxide Plan and 1988 Addendum.

(2) [Reserved]

(b) The following Reasonably Available Control Technology (RACT) determinations are disapproved because they do not meet the requirements of Part D of the Clean Air Act.

(1) Pinal County Air Quality Control District.

(i) RACT determinations for the Control of Volatile Organic Emissions from Use of Cutback Asphalt (EPA–450/2–77–037), major NO_X, and major VOC source categories, in the submittal titled ''Reasonability Available Control Technology (RACT) Analysis, Negative Declaration and Rules Adoption,'' dated November 30, 2016, as adopted on November 30, 2016 and submitted on February 3, 2017.

(ii) [Reserved]

(2) [Reserved]

(c) [Reserved]

[56 FR 5478, Feb. 11, 1991, as amended at 62 FR 41864, Aug. 4, 1997; 63 FR 41350, Aug. 3, 1998; 65 FR 36358, June 8, 2000; 67 FR 48739, July 25, 2002; 84 FR 39201, Aug. 9, 2019]

§ 52.125 Control strategy and regulations: Sulfur oxides.

(a)(1) The requirements of subpart G of this chapter are not met since the control strategy does not analyze the impact of smelter fugitive emissions on ambient air quality (except at Hayden, Arizona) in the Central Arizona Intrastate, the Pima Intrastate, and the Southeast Arizona Intrastate (Cochise and Greenlee counties) Regions. Arizona must submit these smelter fugitive emissions control strategies to EPA by August 1, 1984. In addition, the requirements of § 51.281 of this chapter are not met since the plan does not require permanent control of fugitive smelter emissions necessary to attain and maintain the national standards for sulfur oxides. The control strategy for Hayden shows that these controls are required to attain and maintain the national standards, and the fugitive control strategy analyses required above may show that they are required for some or all of the other smelter towns in Arizona. Arizona must submit all fugitive emissions control regulations necessary to attain and maintain the national standards for sulfur oxides to EPA by August 1, 1984. Therefore, the control strategies and regulations for the six smelter areas in the Central Arizona Intrastate, the Pima Intrastate and the Southeast Arizona Intrastate (Cochise and Greenlee counties) Regions are incomplete due to Arizona's failure to address the fugitive emissions problems at copper smelters.

(2) Regulation 7–1–4.1 (copper smelters) of the Arizona Rules and Regulations for Air Pollution Control, as it pertains to existing copper smelters, is disapproved for the Central Arizona Intrastate, Pima Intrastate and Southeast Arizona Intrastate (Cochise and Greenlee counties) Regions.

(b) The requirements of subpart G and § 51.281 of this chapter are not met since the plan does not provide the degree of control necessary to attain and maintain the national standards for sulfur oxides in the Northern Arizona Intrastate Region. Therefore, Regulation 7–1–4.2(C) (fuel burning installations) of the Arizona Rules and Regulations for Air Pollution Control, as it pertains to existing sources, is disapproved in the Northern Arizona Intrastate Region for steam power generating installations having a total rated capacity equal to or greater than 6,500 million B.t.u. per hour.

(c) *Replacement regulation for Regulation 7–1–4.2(C) (Fossil fuel-fired steam generators in the Northern Arizona Intrastate Region).* (1) This paragraph is applicable to the fossil fuel-fired steam generating equipment designated as Units 1, 2, and 3 at the Navajo Power Plant in the Northern Arizona Intrastate Region (§ 81.270 of this chapter).

(2) No owner or operator of the fossil fuel-fired steam generating equipment to which this paragraph is applicable shall discharge or cause the discharge of sulfur oxides into the atmosphere in excess of the amount prescribed by the following equations:

$$E = 12{,}245\ S \text{ or } e = 1{,}540\ S$$

Where:

E = Allowable sulfur oxides emissions (lb./hr.) from all affected units.

e = Allowable sulfur oxides emissions (gm./sec.) from all affected units.

S = Sulfur content, in percent by weight, prior to any pretreatment of the fuel being burned.

(3) For the purposes of this paragraph:

(i) E shall not exceed 21,270 lb./hr. (2,680 gm./sec.).

(ii) If the sum of sulfur oxides emissions from Units 1, 2, and 3 would be less than 3,780 lb./hr. (475 gm./sec.) without the use of emission control equipment, the requirements of paragraphs (2), (4)(i) and (5) of this paragraph (c), shall not apply for the period of time that the emissions remain below this level.

(iii) The applicability of paragraph (c)(2)(ii) of this section may be determined through a sulfur balance utilizing the analyzed sulfur content of the fuel being burned and the total rate of fuel consumption in all affected units.

(4)(i) No owner or operator of the fossil fuel-fired steam generating equipment subject to this paragraph shall discharge or cause the discharge of sulfur oxides into the atmosphere from any affected unit in excess of the amount prescribed by the following equations, except as provided in paragraph (3)(ii) of this paragraph (c).

$E_l = 0.333\ E$ or $e_l = 0.333\ e$

Where:

E = Allowable sulfur oxides emissions (lb./hr.) from all affected units as determined pursuant to paragraph (2) of this paragraph.

e = Allowable sulfur oxides emissions (gm./sec.) from all affected units as determined pursuant to paragraph (2) of this paragraph (c).

E_l = Allowable sulfur oxides emissions (lb./hr.) from each affected unit.

e_l = Allowable sulfur oxides emissions (gm./sec.) from each affected unit.

(ii) The owner or operator of the fossil fuel-fired steam generating equipment to which this paragraph is applicable may submit a request to redesignate the allowable emissions specified in paragraph (c)(4)(i) of this section. Such a request shall be submitted no later than December 2, 1974, and shall demonstrate that sulfur oxides emissions on a total plant basis will not exceed those specified in paragraphs (2) and (3)(i) of this paragraph (c). Upon receipt and evaluation of such request, the Administrator shall consider such and if appropriate, redesignate the allowable emissions specified in paragraph (c)(4)(i) of this section.

(5) All sulfur oxides control equipment at the fossil fuel-fired steam generating equipment to which this paragraph is applicable shall be operated at the maximum practicable efficiency at all times, without regard to the allowable sulfur oxides emissions, determined according to paragraph (2) or (3) of this paragraph (c), except as provided in paragraph (3)(ii) of this paragraph (c).

(6) Compliance with this paragraph shall be in accordance with the provisions of § 52.134(a).

(7) The test methods and procedures used to determine compliance with this paragraph shall be those prescribed in § 60.46(c)(2) and (c)(4) of this chapter. The test methods for determining the sulfur content of fuel shall be those specified in § 60.45(c) and (d) of this chapter.

(d)–(e) [Reserved]

(f)(1) Paragraphs B through E of regulation 7–1–4.2 (R9–3–402) (Sulfur Emissions: Fuel Burning Installations) of the Arizona Air Pollution Control Regulations are disapproved because they could allow existing oil fired facilities to use dispersion dependent techniques alone as a means of attaining and maintaining the national ambient air quality standards. The regulation does not assure the attainment and maintenance of the national standards in a manner which is consistent with the intent of sections 110(a)(2)(B) and 123(a)(2) of the Clean Air Act.

(2) The approval of paragraphs A and F of regulation 7–1–4.2 as to coal fired facilities does not apply to the Salt River Project Agricultural Improvement and Power District-Navajo Generating Station.

(3) Paragraphs B through E of regulation 8–1–4.2 (Sulfur Emissions—Fuel Burning Installations) of the Yuma County Air Pollution Control Regulations are disapproved because they could allow existing facilities to use dispersion dependent techniques alone as a means of attaining and maintaining the National Ambient Air Quality Standards. This regulation does not assure the attainment and maintenance of the national standards in a manner which is consistent with the intent of sections 110(a)(2)(B)and 123(a)(2) of the Clean Air Act.

(g) Section 3, Regulation 3 (Sulfur from Primary Copper Smelters) of the Mohave County Health Department Air Pollution Control Regulations and Regulation 7–3–2.1 (Copper Smelters) of the Pinal-Gila Counties Air Quality Control District are disapproved since Section 36–1706 of the Arizona Revised Statutes grants exclusive jurisdiction to the Arizona Department of Health Services and the State Hearing Board over all existing copper smelters.

(1) The requirements of § 51.13 of this chapter are not met since the plan does not demonstrate that the emission limitations applicable to existing fuel burning equipment producing electrical energy will provide for the attainment and maintenance of the national standards in the Pima Intrastate Region (§ 81.269 of this chapter).

(2) Regulation II: Rule 7A—paragraphs 2 through 5, Emission Limitations Fuel Burning Equipment—Sulfur Dioxide, of the Rules and Regulations of the Pima County Air Pollution Control District are disapproved because they could allow existing facilities to use dispersion dependent techniques

along as a means of attaining and maintaining the National Ambient Air Quality Standards. The regulation does not assure the attainment and maintenance of the national standards in a manner which is consistent with the intent of section 110(a)(2)(B) of the Clean Air Act.

[37 FR 15081, July 27, 1972]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.125, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§ 52.126 Control strategy and regulations: Particulate matter.

(a) The requirements of subpart G and § 51.281 of this chapter are not met since the plan does not provide the degree of control necessary to attain and maintain the national standards for particulate matter in Gila, Maricopa, Pima, Pinal, and Santa Cruz Counties. Therefore, Regulation 7–1–3.6 (process industries) of the Arizona Rules and Regulations for Air Pollution Control is disapproved for Gila, Maricopa, Pima, Pinal, and Santa Cruz Counties.

(b) *Replacement regulation for Regulation 7–1–3.6 of the Arizona Rules and Regulations for Air Pollution Control (Gila, Maricopa, Pima, Pinal, and Santa Cruz Counties).* (1) No owner or operator of any stationary process source in Gila, Maricopa, Pima, Pinal, or Santa Cruz County shall discharge or cause the discharge of particulate matter into the atmosphere in excess of the hourly rate shown in the following table for the process weight rate identified for such source:

[In pounds per hour]

Process weight rate	Emission rate	Process weight rate	Emission rate
50	0.36	60,000	29.60
100	0.55	80,000	31.19
500	1.53	120,000	33.28
1,000	2.25	160,000	34.85
5,000	6.34	200,000	36.11
10,000	9.73	400,000	40.35
20,000	14.99	1,000,000	46.72

(2) Paragraph (b)(1) of this section shall not apply to incinerators, fuel burning installations, or Portland cement plants having a process weight rate in excess of 250,000 lb/h.

(3) No owner or operator of a Portland cement plant in Gila, Maricopa, Pima, Pinal, or Santa Cruz County with a process weight rate in excess of 250,000 lb/hr shall discharge or cause the discharge of particulate matter into the atmosphere in excess of the amount specified in § 60.62 of this chapter.

(4) Compliance with this paragraph shall be in accordance with the provisions of § 52.134(a).

(5) The test methods and procedures used to determine compliance with this paragraph are set forth below. The methods referenced are contained in the appendix to part 60 of this chapter. Equivalent methods and procedures may be used if approved by the Administrator.

(i) For each sampling repetition, the average concentration of particulate matter shall be determined by using method 5. Traversing during sampling by method 5 shall be according to method 1. The minimum sampling time shall be 2 hours and the minimum sampling volume shall be 60 ft^3 (1.70 m^3), corrected to standard conditions on a dry basis.

(ii) The volumetric flow rate of the total effluent shall be determined by using method 2 and traversing according to method 1. Gas analysis shall be performed using the integrated sample technique of method 3, and moisture content shall be determined by the condenser technique of method 4.

(iii) All tests shall be conducted while the source is operating at the maximum production or combustion rate at which such source will be operated. During the tests, the source shall burn fuels or combinations of fuels, use raw materials, and maintain process conditions representative of normal operation, and shall operate under such other relevant conditions as the Administrator shall specify.

(c) The requirements of § 51.281 of this chapter are not met since the plan does not contain regulations for Mohave and Yuma Counties in the Mohave-Yuma Intrastate Region or Pinal-Gila Counties in the Central Arizona Intrastate Region which provide enforceable and reproducible test procedures for the determination of compliance with the

emission standards. Therefore paragraph C of section 3, regulation 2 (Particulates: Other Sources) of the Mohave County Air Pollution Control Regulations, paragraph B of regulation 8–1–3.6 (Particulates—Process Industries) of the Yuma County Air Pollution Control Regulations, and paragraph C of regulation 7–3–1.4 (Particulate Emissions—Incineration) and paragraph F of regulation 7–3–1.7 (Particulate Emissions—Fuel Burning Equipment) of the Rules and Regulations for Pinal-Gila Counties Air Quality Control District are disapproved.

[37 FR 15081, July 27, 1972, as amended at 38 FR 12704, May 14, 1973; 43 FR 53034, Nov. 15, 1978; 45 FR 67346, Oct. 10, 1980; 51 FR 40676, 40677, Nov. 7, 1986]

§ 52.128 Rule for unpaved parking lots, unpaved roads and vacant lots.

(a) *General*—(1) *Purpose*. The purpose of this section is to limit the emissions of particulate matter into the ambient air from human activity on unpaved parking lots, unpaved roads and vacant lots.

(2) *Applicability*. The provisions of this section shall apply to owners/operators of unpaved roads, unpaved parking lots and vacant lots and responsible parties for weed abatement on vacant lots in the Phoenix PM–10 nonattainment area. This section does not apply to unpaved roads, unpaved parking lots or vacant lots located on an industrial facility, construction, or earth-moving site that has an approved permit issued by Maricopa County Environmental Services Division under Rule 200, Section 305, Rule 210 or Rule 220 containing a Dust Control Plan approved under Rule 310 covering all unpaved parking lots, unpaved roads and vacant lots. This section does not apply to the two Indian Reservations (the Salt River Pima-Maricopa Indian Community and the Fort McDowell Mojave-Apache Indian Community) and a portion of a third reservation (the Gila River Indian Community) in the Phoenix PM–10 nonattainment area. Nothing in this definition shall preclude applicability of this section to vacant lots with disturbed surface areas due to construction, earth-moving, weed abatement or other dust generating operations which have been terminated for over eight months.

(3) The test methods described in Appendix A of this section shall be used when testing is necessary to determine whether a surface has been stabilized as defined in paragraph (b)(16) of this section.

(b) *Definitions*—(1) *Average daily trips (ADT)*. The average number of vehicles that cross a given surface during a specified 24-hour time period as determined by the Institute of Transportation Engineers Trip Generation Report (6th edition, 1997) or tube counts.

(2) *Chemical/organic stabilizer*—Any non-toxic chemical or organic dust suppressant other than water which meets any specifications, criteria, or tests required by any federal, state, or local water agency and is not prohibited for use by any applicable law, rule or regulation.

(3) *Disturbed surface area*—Any portion of the earth's surface, or materials placed thereon, which has been physically moved, uncovered, destabilized, or otherwise modified from its undisturbed natural condition, thereby increasing the potential for emission of fugitive dust.

(4) *Dust suppressants*—Water, hygroscopic materials, solution of water and chemical surfactant, foam, or non-toxic chemical/organic stabilizers not prohibited for use by any applicable law, rule or regulation, as a treatment material to reduce fugitive dust emissions.

(5) *EPA*—United States Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, California 94105.

(6) *Fugitive dust*—The particulate matter entrained in the ambient air which is caused from man-made and natural activities such as, but not limited to, movement of soil, vehicles, equipment, blasting, and wind. This excludes particulate matter emitted directly from the exhaust of motor vehicles and other internal combustion engines, from portable brazing, soldering, or welding equipment, and from pile-drivers.

(7) *Lot*—A parcel of land identified on a final or parcel map recorded in the office of the Maricopa County recorder

with a separate and distinct number or letter.

(8) *Low use unpaved parking lot*—A lot on which vehicles are parked no more than thirty-five (35) days a year, excluding days where the exemption in paragraph (c)(2) of this section applies.

(9) *Motor vehicle*—A self-propelled vehicle for use on the public roads and highways of the State of Arizona and required to be registered under the Arizona State Uniform Motor Vehicle Act, including any non-motorized attachments, such as, but not limited to, trailers or other conveyances which are connected to or propelled by the actual motorized portion of the vehicle.

(10) *Off-road motor vehicle*—any wheeled vehicle which is used off paved roadways and includes but is not limited to the following:

(i) Any motor cycle or motor-driven cycle;

(ii) Any motor vehicle commonly referred to as a sand buggy, dune buggy, or all terrain vehicle.

(11) *Owner/operator*—any person who owns, leases, operates, controls, maintains or supervises a fugitive dust source subject to the requirements of this section.

(12) *Paving*—Applying asphalt, recycled asphalt, concrete, or asphaltic concrete to a roadway surface.

(13) *Phoenix PM–10 nonattainment area*—such area as defined in 40 CFR 81.303, excluding Apache Junction.

(14) *PM–10*—Particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers as measured by reference or equivalent methods that meet the requirements specified for PM–10 in 40 CFR part 50, Appendix J.

(15) *Reasonably available control measures (RACM)*—Techniques used to prevent the emission and/or airborne transport of fugitive dust and dirt.

(16) *Stabilized surface*—(i) Any unpaved road or unpaved parking lot surface where:

(A) Any fugitive dust plume emanating from vehicular movement does not exceed 20 percent opacity as determined in section I.A of Appendix A of this section; and

(B) Silt loading (weight of silt per unit area) is less than 0.33 ounces per square foot as determined by the test method in section I.B of Appendix A of this section OR where silt loading is greater than or equal to 0.33 ounces per square foot and silt content does not exceed six (6) percent for unpaved road surfaces or eight (8) percent for unpaved parking lot surfaces as determined by the test method in section I.B of Appendix A of this section.

(ii) Any vacant lot surface with:

(A) A visible crust which is sufficient as determined in section II.1 of Appendix A of this section;

(B) A threshold friction velocity (TFV), corrected for non-erodible elements, of 100 cm/second or higher as determined in section II.2 of Appendix A of this section;

(C) Flat vegetation cover equal to at least 50 percent as determined in section II.3 of Appendix A of this section;

(D) Standing vegetation cover equal to or greater than 30 percent as determined in section II.4 of Appendix A of this section; or

(E) Standing vegetation cover equal to or greater than 10 percent as determined in section II.4 of Appendix A of this section where threshold friction velocity, corrected for non-erodible elements, as determined in section II.2 of Appendix A of this section is equal to or greater than 43 cm/second.

(17) *Unpaved parking lot*—A privately or publicly owned or operated area utilized for parking vehicles that is not paved and is not a Low use unpaved parking lot.

(18) *Unpaved road*—Any road, equipment path or driveway used by motor vehicles or off-road motor vehicles that is not paved which is open to public access and owned/operated by any federal, state, county, municipal or other governmental or quasi-governmental agencies.

(19) *Urban or suburban open area*—An unsubdivided or undeveloped tract of land adjoining a residential, industrial or commercial area, located on public or private property.

(20) *Vacant lot*—A subdivided residential, industrial, institutional, governmental or commercial lot which contains no approved or permitted buildings or structures of a temporary or permanent nature.

(c) *Exemptions.* The following requirements in paragraph (d) of this section do not apply:

(1) In paragraphs (d)(1), (d)(2) and (d)(4)(iii) of this section: Any unpaved parking lot or vacant lot 5,000 square feet or less.

(2) In paragraphs (d)(1) and (d)(2) of this section: Any unpaved parking lot on any day in which ten (10) or fewer vehicles enter.

(3) In paragraphs (d)(4)(i) and (d)(4)(ii) of this section: Any vacant lot with less than 0.50 acre (21,780 square feet) of disturbed surface area(s).

(4) In paragraph (d) of this section: Non-routine or emergency maintenance of flood control channels and water retention basins.

(5) In paragraph (d) of this section: Vehicle test and development facilities and operations when dust is required to test and validate design integrity, product quality and/or commercial acceptance. Such facilities and operations shall be exempted from the provisions of this section only if such testing is not feasible within enclosed facilities.

(6) In paragraph (d)(4)(i) of this section: Weed abatement operations performed on any vacant lot or property under the order of a governing agency for the control of a potential fire hazard or otherwise unhealthy condition provided that mowing, cutting, or another similar process is used to maintain weed stubble at least three (3) inches above the soil surface. This includes the application of herbicides provided that the clean-up of any debris does not disturb the soil surface.

(7) In paragraph (d)(4)(i) of this section: Weed abatement operations that receive an approved Earth Moving permit under Maricopa County Rule 200, Section 305 (adopted 11/15/93).

(d) *Requirements*—(1) *Unpaved parking lots.* Any owners/operators of an unpaved parking lot shall implement one of the following RACM on any surface area(s) of the lot on which vehicles enter and park.

(i) Pave; or

(ii) Apply chemical/organic stabilizers in sufficient concentration and frequency to maintain a stabilized surface; or

(iii) Apply and maintain surface gravel uniformly such that the surface is stabilized; or

(iv) Apply and maintain an alternative control measure such that the surface is stabilized, provided that the alternative measure is not prohibited under paragraph (b)(2) or (b)(4) of this section.

(2) Any owners/operators of a low use unpaved parking lot as defined in paragraph (b)(8) of this section shall implement one of the RACM under paragraph (d)(1) of this section on any day(s) in which over 100 vehicles enter the lot, such that the surface area(s) on which vehicles enter and park is/are stabilized throughout the duration of time that vehicles are parked.

(3) *Unpaved roads.* Any owners/operators of existing unpaved roads with ADT volumes of 250 vehicles or greater shall implement one of the following RACM along the entire surface of the road or road segment that is located within the Phoenix non-attainment area by June 10, 2000:

(i) Pave; or

(ii) Apply chemical/organic stabilizers in sufficient concentration and frequency to maintain a stabilized surface; or

(iii) Apply and maintain surface gravel uniformly such that the surface is stabilized; or

(iv) Apply and maintain an alternative control measure such that the surface is stabilized, provided that the alternative measure is not prohibited under paragraph (b)(2) or (b)(4) of this section.

(4) *Vacant lots.* The following provisions shall be implemented as applicable.

(i) *Weed abatement.* No person shall remove vegetation from any vacant lot by blading, disking, plowing under or any other means without implementing all of the following RACM to prevent or minimize fugitive dust.

(A) Apply a dust suppressant(s) to the total surface area subject to disturbance immediately prior to or during the weed abatement.

(B) Prevent or eliminate material track-out onto paved surfaces and access points adjoining paved surfaces.

(C) Apply a dust suppressant(s), gravel, compaction or alternative control

measure immediately following weed abatement to the entire disturbed surface area such that the surface is stabilized.

(ii) *Disturbed surfaces.* Any owners/operators of an urban or suburban open area or vacant lot of which any portion has a disturbed surface area(s) that remain(s) unoccupied, unused, vacant or undeveloped for more than fifteen (15) calendar days shall implement one of the following RACM within sixty (60) calendar days following the disturbance.

(A) Establish ground cover vegetation on all disturbed surface areas in sufficient quantity to maintain a stabilized surface; or

(B) Apply a dust suppressant(s) to all disturbed surface areas in sufficient quantity and frequency to maintain a stabilized surface; or

(C) Restore to a natural state, i.e. as existing in or produced by nature without cultivation or artificial influence, such that all disturbed surface areas are stabilized; or

(D) Apply and maintain surface gravel uniformly such that all disturbed surface areas are stabilized; or

(E) Apply and maintain an alternative control measure such that the surface is stabilized, provided that the alternative measure is not prohibited under paragraph (b)(2) or (b)(4) of this section.

(iii) *Motor vehicle disturbances.* Any owners/operators of an urban or suburban open area or vacant lot of which any portion has a disturbed surface area due to motor vehicle or off-road motor vehicle use or parking, notwithstanding weed abatement operations or use or parking by the owner(s), shall implement one of the following RACM within 60 calendar days following the initial determination of disturbance.

(A) Prevent motor vehicle and off-road motor vehicle trespass/ parking by applying fencing, shrubs, trees, barriers or other effective measures; or

(B) Apply and maintain surface gravel or chemical/organic stabilizer uniformly such that all disturbed surface areas are stabilized.

(5) *Implementation date of RACM.* All of the requirements in paragraph (d) of this section shall be effective eight (8) months from September 2, 1998. For requirements in paragraph (d)(4)(ii) and (d)(4)(iii) of this section, RACM shall be implemented within eight (8) months from September 2, 1998, or within 60 calendar days following the disturbance, whichever is later.

(e) *Monitoring and records.* (1) Any owners/operators that are subject to the provisions of this section shall compile and retain records that provide evidence of control measure application, indicating the type of treatment or measure, extent of coverage and date applied. For control measures involving chemical/organic stabilization, records shall also indicate the type of product applied, vendor name, label instructions for approved usage, and the method, frequency, concentration and quantity of application.

(2) Copies of control measure records and dust control plans along with supporting documentation shall be retained for at least three years.

(3) *Agency surveys.* (i) EPA or other appropriate entity shall conduct a survey of the number and size (or length) of unpaved roads, unpaved parking lots, and vacant lots subject to the provisions of this section located within the Phoenix PM–10 nonattainment area beginning no later than 365 days from September 2, 1998.

(ii) EPA or other appropriate entity shall conduct a survey at least every three years within the Phoenix PM–10 nonattainment area beginning no later than 365 days from September 2, 1998, which includes:

(A) An estimate of the percentage of unpaved roads, unpaved parking lots, and vacant lots subject to this section to which RACM as required in this section have been applied; and

(B) A description of the most frequently applied RACM and estimates of their control effectiveness.

Appendix A to § 52.128—Test Methods To Determine Whether A Surface Is Stabilized

I. Unpaved Roads and Unpaved Parking Lots

A. Opacity Observations

Conduct opacity observations in accordance with Reference Method 9 (40 CFR Part 60, appendix A) and Methods 203A and 203C of this appendix, with opacity readings taken at five second observation intervals and two consecutive readings per plume beginning

with the first reading at zero seconds, in accordance with Method 203C, sections 2.3.2. and 2.4.2 of this appendix. Conduct visible opacity tests only on dry unpaved surfaces (i.e. when the surface is not damp to the touch) and on days when average wind speeds do not exceed 15 miles per hour (mph).

(i) Method 203A—Visual Determination of Opacity of Emissions From Stationary Sources for Time-Arranged Regulations

Method 203A is virtually identical to EPA's Method 9 (40 CFR Part 60 Appendix A) except for the data-reduction procedures, which provide for averaging times other than 6 minutes. That is, using Method 203A with a 6-minute averaging time would be the same as following EPA Method 9 (40 CFR Part 60, Appendix A). Additionally, Method 203A provides procedures for fugitive dust applications. The certification procedures provided in section 3 are virtually identical to Method 9 (40 CFR Part 60, Appendix A) and are provided here, in full, for clarity and convenience.

1. Applicability and Principle

1.1 Applicability. This method is applicable for the determination of the opacity of emissions from sources of visible emissions for time-averaged regulations. A time-averaged regulation is any regulation that requires averaging visible emission data to determine the opacity of visible emissions over a specific time period.

1.2 Principle. The opacity of emissions from sources of visible emissions is determined visually by an observer qualified according to the procedures of section 3.

2. Procedures

An observer qualified in accordance with section 3 of this method shall use the following procedures for visually determining the opacity of emissions.

2.1 Procedures for Emissions from Stationary Sources. These procedures are not applicable to this section.

2.2 Procedures for Fugitive Process Dust Emissions. These procedures are applicable for the determination of the opacity of fugitive emissions by a qualified observer. The qualified field observer should do the following:

2.2.1 Position. Stand at a position at least 5 meters from the fugitive dust source in order to provide a clear view of the emissions with the sun oriented in the 140-degree sector to the back. Consistent as much as possible with maintaining the above requirements, make opacity observations from a position such that the line of vision is approximately perpendicular to the plume and wind direction. As much as possible, if multiple plumes are involved, do not include more than one plume in the line of sight at one time.

2.2.2 Field Records. Record the name of the plant or site, fugitive source location, source type [pile, stack industrial process unit, incinerator, open burning operation activity, material handling (transfer, loading, sorting, etc.)], method of control used, if any, observer's name, certification data and affiliation, and a sketch of the observer's position relative to the fugitive source. Also, record the time, estimated distance to the fugitive source location, approximate wind direction, estimated wind speed, description of the sky condition (presence and color of clouds), observer's position relative to the fugitive source, and color of the plume and type of background on the visible emission observation form when opacity readings are initiated and completed.

2.2.3 Observations. Make opacity observations, to the extent possible, using a contrasting background that is perpendicular to the line of vision. For roads, storage piles, and parking lots, make opacity observations approximately 1 meter above the surface from which the plume is generated. For other fugitive sources, make opacity observations at the point of greatest opacity in that portion of the plume where condensed water vapor is not present. For intermittent sources, the initial observation should begin immediately after a plume has been created above the surface involved. Do not look continuously at the plume but, instead, observe the plume momentarily at 15-second intervals.

2.3 Recording Observations. Record the opacity observations to the nearest 5 percent every 15 seconds on an observational record sheet. Each momentary observation recorded represents the average opacity of emissions for a 15-second period.

2.4 Data Reduction for Time-Averaged Regulations. A set of observations is composed of an appropriate number of consecutive observations determined by the averaging time specified. Divide the recorded observations into sets of appropriate time lengths for the specified averaging time. Sets must consist of consecutive observations; however, observations immediately preceding and following interrupted observations shall be deemed consecutive. Sets need not be consecutive in time and in no case shall two sets overlap, resulting in multiple violations. For each set of observations, calculate the appropriate average opacity.

3. Qualification and Testing

3.1 Certification Requirements. To receive certification as a qualified observer, a candidate must be tested and demonstrate the ability to assign opacity readings in 5 percent increments to 25 different black plumes and 25 different white plumes, with an error not to exceed 15 percent opacity on any one

reading and an average error not to exceed 7.5 percent opacity in each category. Candidates shall be tested according to the procedures described in paragraph 3.2. Any smoke generator used pursuant to paragraph 3.2 shall be equipped with a smoke meter which meets the requirements of paragraph 3.3. Certification tests that do not meet the requirements of paragraphs 3.2 and 3.3 are not valid.

The certification shall be valid for a period of 6 months, and after each 6-month period, the qualification procedures must be repeated by an observer in order to retain certification.

3.2 Certification Procedure. The certification test consists of showing the candidate a complete run of 50 plumes, 25 black plumes and 25 white plumes, generated by a smoke generator. Plumes shall be presented in random order within each set of 25 black and 25 white plumes. The candidate assigns an opacity value to each plume and records the observation on a suitable form. At the completion of each run of 50 readings, the score of the candidate is determined. If a candidate fails to qualify, the complete run of 50 readings must be repeated in any retest. The smoke test may be administered as part of a smoke school or training program, and may be preceded by training or familiarization runs of the smoke generator during which candidates are shown black and white plumes of known opacity.

3.3 Smoke Generator Specifications. Any smoke generator used for the purpose of paragraph 3.2 shall be equipped with a smoke meter installed to measure opacity across the diameter of the smoke generator stack. The smoke meter output shall display in-stack opacity, based upon a path length equal to the stack exit diameter on a full 0 to 100 percent chart recorder scale. The smoke meter optical design and performance shall meet the specifications shown in Table A. The smoke meter shall be calibrated as prescribed in paragraph 3.3.1 prior to conducting each smoke reading test. At the completion of each test, the zero and span drift, shall be checked, and if the drift exceeds ±1 percent opacity, the condition shall be corrected prior to conducting any subsequent test runs. The smoke meter shall be demonstrated at the time of installation to meet the specifications listed in Table A. This demonstration shall be repeated following any subsequent repair or replacement of the photocell or associated electronic circuitry including the chart recorder or output meter, or every 6 months, whichever occurs first.

3.3.1 Calibration. The smoke meter is calibrated after allowing a minimum of 30 minutes warm-up by alternately producing simulated opacity of 0 percent and 100 percent. When stable response at 0 percent or 100 percent is noted, the smoke meter is adjusted to produce an output of 0 percent or 100 percent, as appropriate. This calibration shall be repeated until stable 0 percent and 100 percent readings are produced without adjustment. Simulated 0 percent and 100 percent opacity values may be produced by alternately switching the power to the light source on and off while the smoke generator is not producing smoke.

3.3.2 Smoke Meter Evaluation. The smoke meter design and performance are to be evaluated as follows:

3.3.2.1 Light Source. Verify from manufacturer's data and from voltage measurements made at the lamp, as installed, that the lamp is operated within ±5 percent of the nominal rated voltage.

3.3.2.2 Spectral Response of Photocell. Verify from manufacturer's data that the photocell has a photopic response; i.e., the spectral sensitivity of the cell shall closely approximate the standard spectral-luminosity curve for photopic vision which is referenced in (b) of Table A.

3.3.2.3 Angle of View. Check construction geometry to ensure that the total angle of view of the smoke plume, as seen by the photocell, does not exceed 15 degrees. Calculate the total angle of view as follows:

$$\varphi_v = 2 \tan^{-1} d/2L$$

Where:

φ_v = total angle of view;
d = the photocell diameter + the diameter of the limiting aperture; and
L = distance from the photocell to the limiting aperture.

The limiting aperture is the point in the path between the photocell and the smoke plume where the angle of view is most restricted. In smoke generator smoke meters, this is normally an orifice plate.

3.3.2.4 Angle of Projection. Check construction geometry to ensure that the total angle of projection of the lamp on the smoke plume does not exceed 15 degrees. Calculate the total angle of projection as follows:

$$\varphi_p = 2 \tan^{-1} d/2L$$

Where:

φ_p = total angle of projection;
d = the sum of the length of the lamp filament + the diameter of the limiting aperture; and
L = the distance from the lamp to the limiting aperture.

3.3.2.5 Calibration Error. Using neutral-density filters of known opacity, check the error between the actual response and the theoretical linear response of the smoke meter. This check is accomplished by first calibrating the smoke meter according to 3.3.1 and then inserting a series of three neutral-density filters of nominal opacity of 20, 50, and 75 percent in the smoke meter path

length. Use filters calibrated within ±2 percent. Care should be taken when inserting the filters to prevent stray light from affecting the meter. Make a total of five nonconsecutive readings for each filter. The maximum opacity error on any one reading shall be ±3 percent.

3.3.2.6 Zero and Span Drift. Determine the zero and span drift by calibrating and operating the smoke generator in a normal manner over a 1-hour period. The drift is measured by checking the zero and span at the end of this period.

3.3.2.7 Response Time. Determine the response time by producing the series of five simulated 0 percent and 100 percent opacity values and observing the time required to reach stable response. Opacity values of 0 percent and 100 percent may be simulated by alternately switching the power to the light source off and on while the smoke generator is not operating.

(ii) Method 203C—Visual Determination of Opacity of Emissions From Stationary Sources for Instantaneous Limitation Regulations

Method 203C is virtually identical to EPA's Method 9 (40 CFR Part 60, Appendix A), except for the data-reduction procedures which have been modified for application to instantaneous limitation regulations. Additionally, Method 203C provides procedures for fugitive dust applications which were unavailable when Method 9 was promulgated. The certification procedures in section 3 are identical to Method 9. These certification procedures are provided in Method 203A as well, and, therefore, have not been repeated in this method.

1. Applicability and Principle

1.1 Applicability. This method is applicable for the determination of the opacity of emissions from sources of visible emissions for instantaneous limitations. An instantaneous limitation regulation is an opacity limit which is never to be exceeded.

1.2 Principle. The opacity of emissions from sources of visible emissions is determined visually by a qualified observer.

2. Procedures

The observer qualified in accordance with section 3 of this method shall use the following procedures for visually determining the opacity of emissions.

2.1 Procedures for Emissions From Stationary Sources. Same as 2.1, Method 203A.

2.1.1 Position. Same as 2.1.1, Method 203A.

2.1.2 Field Records. Same as 2.1.2, Method 203A.

2.1.3 Observations. Make opacity observations at the point of greatest opacity in that portion of the plume where condensed water vapor is not present.

Do not look continuously at the plume. Instead, observe the plume momentarily at the interval specified in the subject regulation. Unless otherwise specified, a 15-second observation interval is assumed.

2.1.3.1 Attached Steam Plumes. Same as 2.1.3.1, Method 203A.

2.1.3.2 Detached Steam Plumes. Same as 2.1.3.2, Method 203A.

2.2 Procedures for Fugitive Process Dust Emissions.

2.2.1 Position. Same as section 2.2.1, Method 203A.

2.2.2 Field Records. Same as section 2.2.2, Method 203A.

2.2.3 Observations.

2.2.3.1 Observations for a 15-second Observation Interval Regulations. Same as section 2.2.3, Method 203A.

2.2.3.2 Observations for a 5-second Observation Interval Regulations. Same as section 2.2.3, Method 203A, except, observe the plume momentarily at 5-second intervals.

2.3 Recording Observations. Record opacity observations to the nearest 5 percent at the prescribed interval on an observational record sheet. Each momentary observation recorded represents the average of emissions

for the prescribed period. If a 5-second observation period is not specified in the applicable regulation, a 15-second interval is assumed. The overall time for which recordings are made shall be of a length appropriate to the regulation for which opacity is being measured.

2.3.1 Recording Observations for 15-second Observation Interval Regulations. Record opacity observations to the nearest 5 percent at 15-second intervals on an observational record sheet. Each momentary observation recorded represents the average of emissions for a 15-second period.

2.3.2 Recording Observations for 5-second Observation Interval Regulations. Record opacity observations to the nearest 5 percent at 5-second intervals on an observational record sheet. Each momentary observation recorded represents the average of emissions for 5-second period.

2.4 Data Reduction for Instantaneous Limitation Regulations. For an instantaneous limitation regulation, a 1-minute averaging time will be used. Divide the observations recorded on the record sheet into sets of consecutive observations. A set is composed of the consecutive observations made in 1 minute. Sets need not be consecutive in time, and in no case shall two sets overlap. Reduce opacity observations by dividing the sum of all observations recorded in a set by the number of observations recorded in each set.

2.4.1 Data Reduction for 15-second Observation Intervals. Reduce opacity observations by averaging four consecutive observations recorded at 15-second intervals. Divide the observations recorded on the record sheet into sets of four consecutive observations. For each set of four observations, calculate the average by summing the opacity of the four observations and dividing this sum by four.

2.4.2 Data Reduction for 5-second Observation Intervals. Reduce opacity observations by averaging 12 consecutive observations recorded at 5-second intervals. Divide the observations recorded on the record sheet into sets of 12 consecutive observations. For each set of 12 observations, calculate the average by summing the opacity of the 12 observations and dividing this sum by 12.

3. Qualification and Test

Same as section 3, Method 203A.

TABLE A—SMOKE METER DESIGN AND PERFORMANCE SPECIFICATIONS

Parameter	Specification
a. Light Source	Incandescent lamp operated at nominal rated voltage.
b. Spectral response of photocell.	Photopic (daylight spectral response of the human eye—Reference 4.1 of section 4.)
c. Angle of view	15 degrees maximum total angle
d. Angle of projection.	15 degrees maximum total angle.
e. Calibration error	±3 percent opacity, maximum.
f. Zero and span drift.	±1 percent opacity, 30 minutes.
g. Response time ...	≤5 seconds.

B. Silt Content

Conduct the following test method to determine the silt loading and silt content of unpaved road and unpaved parking lot surfaces.

(i) Collect a sample of loose surface material from an area 30 cm by 30 cm (1 foot by 1 foot) in size to a depth of approximately 1 cm or until a hard subsurface is reached, whichever occurs first. Use a brush and dustpan or other similar device. Collect the sample from a routinely-traveled portion of the surface which receives a preponderance of vehicle traffic, i.e. as commonly evidenced by tire tracks. Conduct sweeping slowly so that fine surface material is not released into the air. Only collect samples from surfaces that are not wet or damp due to precipitation or dew.

(ii) Obtain a shallow, lightweight container and a scale with readings in half ounce increments or less. Place the scale on a level surface and zero it with the weight of the empty container. Transfer the entire sample collected to the container, minimizing escape of particles into the air. Weigh the sample and record its weight.

(iii) Obtain and stack a set of sieves with the following openings: 4 mm, 2 mm, 1 mm, 0.5 mm, and 0.25 mm. Place the sieves in order according to size openings beginning with the largest size opening at the top. Place a collector pan underneath the bottom (0.25 mm) sieve. Pour the entire sample into the top sieve, minimizing escape of particles into the air by positioning the sieve/collector pan unit in an enclosed or wind barricaded area. Cover the sieve/collector pan unit with a lid. Shake the covered sieve/collector pan unit vigorously for a period of at least one (1) minute in both the horizontal and vertical planes. Remove the lid from the sieve/collector pan unit and disassemble each sieve separately beginning with the largest sieve. As each sieve is removed, examine it for a complete separation of material in order to ensure that all material has been sifted to the finest sieve through which it can pass. If not, reassemble and cover the sieve/collector pan unit and shake it for period of at least one (1) minute. After disassembling the sieve/collector pan unit, transfer the material which is captured in the collector pan into the lightweight container originally used to collect and weigh

the sample. Minimize escape of particles into the air when transferring the material into the container. Weigh the container with the material from the collector pan and record its weight. Multiply the resulting weight by 0.38 if the source is an unpaved road or by 0.55 if the source is an unpaved parking lot to estimate silt loading. Divide by the total sample weight and multiply by 100 to arrive at the percent silt content.

(iv) As an alternative to conducting the procedure described above in section I.B.(ii) and section I.B.(iii) of this appendix, the sample (collected according to section I.B.(i) of this appendix) may be taken to an independent testing laboratory or engineering facility for silt loading (*e.g.* net weight <200 mesh) and silt content analysis according to the following test method from ''Procedures For Laboratory Analysis Of Surface/Bulk Dust Loading Samples'', (Fifth Edition, Volume I, Appendix C.2.3 ''Silt Analysis'', 1995), AP–42, Office of Air Quality Planning & Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina.

1. Objective—Several open dust emission factors have been found to be correlated with the silt content(<200 mesh) of the material being disturbed. The basic procedure for silt content determination is mechanical, dry sieving. For sources other than paved roads, the same sample which was oven-dried to determine moisture content is then mechanically sieved.

2.1 Procedure—Select the appropriate 20-cm (8-in.) diameter, 5-cm (2-in.) deep sieve sizes.

Recommended U. S. Standard Series sizes are ⅜ in., No. 4, No. 40, No. 100, No. 140, No. 200, and a pan. Comparable Tyler Series sizes can also be used. The No. 20 and the No. 200 are mandatory. The others can be varied if the recommended sieves are not available, or if buildup on 1 particulate sieve during sieving indicates that an intermediate sieve should be inserted.

2.2 Obtain a mechanical sieving device, such as a vibratory shaker or a Roto-Tap δ[1] without the tapping function.

2.3 Clean the sieves with compressed air and/or a soft brush. Any material lodged in the sieve openings or adhering to the sides of the sieve should be removed, without handling the screen roughly, if possible.

2.4 Obtain a scale (capacity of at least 1600 grams [g] or 3.5 lb) and record make, capacity, smallest division, date of last calibration, and accuracy. (See Figure A)

[1] CFR part 60, App. A, Meth. 5, 2.1.2, footnote 2.

2.5 Weigh the sieves and pan to determine tare weights. Check the zero before every weighing. Record the weights.

2.6 After nesting the sieves in decreasing order of size, and with pan at the bottom, dump dried laboratory sample (preferably immediately after moisture analysis) into the top sieve. The sample should weigh between ¢ 400 and 1600 g (¢ 0.9 and 3.5 lb). This amount will vary for finely textured materials, and 100 to 300 g may be sufficient when 90% of the sample passes a No. 8 (2.36 mm) sieve. Brush any fine material adhering to the sides of the container into the top sieve and cover the top sieve with a special lid normally purchased with the pan.

2.7 Place nested sieves into the mechanical sieving device and sieve for 10 minutes (min). Remove pan containing minus No. 200 and weigh. Repeat the sieving at 10-min intervals until the difference between 2 successive pan sample weighings (with the pan tare weight subtracted) is less than 3.0%. Do not sieve longer than 40 min.

2.8 Weigh each sieve and its contents and record the weight. Check the zero before every weighing.

2.9 Collect the laboratory sample. Place the sample in a separate container if further analysis is expected.

2.10 Calculate the percent of mass less than the 200 mesh screen (75 micrometers [μm]). This is the silt content.

(v) The silt loading and percent silt content for any given unpaved road surface or unpaved parking lot surface shall be based on the average of at least three (3) samples that are representative of routinely-traveled portions of the road or parking lot surface. In order to simplify the sieve test procedures in section I.B.(ii) and section I.B.(iii) of this appendix, the three samples may be combined as long as all material is sifted to the finest sieve through which it can pass, each sample weighs within 1 ounce of the other two samples, and the combined weight of the samples and unit area from which they were collected is calculated and recorded accurately.

II. Vacant Lots

The following test methods shall be used for determining whether a vacant lot, or portion thereof, has a stabilized surface.

Should a disturbed vacant lot contain more than one type of disturbance, soil, vegetation or other characteristics which are visibly distinguishable, test each representative surface for stability separately in random areas according to the test methods in section II. of this appendix and include or eliminate it from the total size assessment of disturbed surface area(s) depending upon test method results. A vacant lot surface shall be considered stabilized if any of the test methods in section II. of this appendix indicate that the surface is stabilized such that the conditions defined in paragraph (b)(16)(ii) of this section are met:

1. Visible Crust Determination

(i) Where a visible crust exists, drop a steel ball with a diameter of 15.9 millimeters (0.625 inches) and a mass ranging from 16 to 17 grams from a distance of 30 centimeters (one foot) directly above (at a 90 degree angle perpendicular to) the soil surface. If blowsand is present, clear the blowsand from the surfaces on which the visible crust test method is conducted. Blowsand is defined as thin deposits of loose uncombined grains covering less than 50 percent of a vacant lot which have not originated from the representative vacant lot surface being tested. If material covers a visible crust which is not blowsand, apply the test method in section II.2 of this appendix to the loose material to determine whether the surface is stabilized.

(ii) A sufficient crust is defined under the following conditions: once a ball has been dropped according to section II.1.(i) of this appendix, the ball does not sink into the surface so that it is partially or fully surrounded by loose grains and, upon removing the ball, the surface upon which it fell has not been pulverized so that loose grains are visible.

(iii) Conduct three tests, dropping the ball once per test, within a survey area the size of one foot by one foot. The survey area shall be considered sufficiently crusted if at least two out of three tests meet the definition in section II.1.(ii) of this appendix. Select at least two other survey areas that represent the disturbed surface area and repeat this procedure. Whether a sufficient crust covers the disturbed surface area shall be based on a determination that all of the survey areas tested are sufficiently crusted.

(iv) At any given site, the existence of a sufficient crust covering one portion of a disturbed surface may not represent the existence or protectiveness of a crust on another disturbed surface(s). Repeat the visible crust test as often as necessary on each representative disturbed surface area for an accurate assessment of all disturbed surfaces at a given site.

2. Determination of Threshold Friction Velocity (TFV)

For disturbed surface areas that are not crusted or vegetated, determine threshold friction velocity (TFV) according to the following sieving field procedure (based on a 1952 laboratory procedure published by W. S. Chepil).

(i) Obtain and stack a set of sieves with the following openings: 4 millimeters (mm), 2 mm, 1 mm, 0.5 mm, and 0.25 mm. Place the sieves in order according to size openings beginning with the largest size opening at the top. Place a collector pan underneath the bottom (0.25 mm) sieve. Collect a sample of loose surface material from an area at least 30 cm by 30 cm in size to a depth of approximately 1 cm using a brush and dustpan or other similar device. Only collect soil samples from dry surfaces (i.e. when the surface

is not damp to the touch). Remove any rocks larger than 1 cm in diameter from the sample. Pour the sample into the top sieve (4 mm opening) and cover the sieve/collector pan unit with a lid. Minimize escape of particles into the air when transferring surface soil into the sieve/collector pan unit. Move the covered sieve/collector pan unit by hand using a broad, circular arm motion in the horizontal plane. Complete twenty circular arm movements, ten clockwise and ten counterclockwise, at a speed just necessary to achieve some relative horizontal motion between the sieves and the particles. Remove the lid from the sieve/collector pan unit and disassemble each sieve separately beginning with the largest sieve. As each sieve is removed, examine it for loose particles. If loose particles have not been sifted to the finest sieve through which they can pass, reassemble and cover the sieve/collector pan unit and gently rotate it an additional ten times. After disassembling the sieve/collector pan unit, slightly tilt and gently tap each sieve and the collector pan so that material aligns along one side. In doing so, minimize escape of particles into the air. Line up the sieves and collector pan in a row and visibly inspect the relative quantities of catch in order to determine which sieve (or whether the collector pan) contains the greatest volume of material. If a visual determination of relative volumes of catch among sieves is difficult, use a graduated cylinder to measure the volume. Estimate TFV for the sieve catch with the greatest volume using Table 1, which provides a correlation between sieve opening size and TFV.

TABLE 1 (METRIC UNITS)—DETERMINATION OF THRESHOLD FRICTION VELOCITY (TFV)

Tyler Sieve No.	Opening (mm)	TFV (cm/s)
5	4	>100
10	2	100
18	1	76
35	0.5	58
60	0.25	43
Collector Pan	.....	30

Collect at least three (3) soil samples which are representative of the disturbed surface area, repeat the above TFV test method for each sample and average the resulting TFVs together to determine the TFV uncorrected for non-erodible elements.

(ii) Non-erodible elements are distinct elements on the disturbed surface area that are larger than one (1) cm in diameter, remain firmly in place during a wind episode and inhibit soil loss by consuming part of the shear stress of the wind. Non-erodible elements include stones and bulk surface material but do not include flat or standing vegetation. For surfaces with non-erodible elements, determine corrections to the TFV by identifying the fraction of the survey area, as viewed from directly overhead, that is occupied by non-erodible elements using the following procedure. Select a survey area of one (1) meter by 1 meter. Where many non-erodible elements lie on the disturbed surface area, separate them into groups according to size. For each group, calculate the overhead area for the non-erodible elements according to the following equations:

(Average length) × (Average width) = Average Dimensions *Eq. 1*

(Average Dimensions) × (Number of Elements) = Overhead Area *Eq. 2*

Overhead Area of Group 1 + Overhead Area of Group 2 (etc.) = Total Overhead Area *Eq. 3*

Total Overhead Area/2 = Total Frontal Area *Eq. 4*

(Total Frontal Area/Survey Area) × 100 = Percent Cover of Non-erodible Elements *Eq. 5*

(Ensure consistent units of measurement, e.g. square meters or square inches when calculating percent cover.)

Repeat this procedure on an additional two (2) distinct survey areas representing a disturbed surface and average the results. Use Table 2 to identify the correction factor for the percent cover of non-erodible elements. Multiply the TFV by the corresponding correction factor to calculate the TFV corrected for non-erodible elements.

TABLE 2—CORRECTION FACTORS FOR THRESHOLD FRICTION VELOCITY

Percent cover of non-erodible elements	Correction factor
≥10%	5
≥5% and <10%	3
<5% and ≥1%	2
<1%	None.

3. Determination of Flat Vegetation Cover

Flat vegetation includes attached (rooted) vegetation or unattached vegetative debris lying on the surface with a predominant horizontal orientation that is not subject to movement by wind. Flat vegetation which is dead but firmly attached shall be considered equally protective as live vegetation. Stones or other aggregate larger than one centimeter in diameter shall be considered protective cover in the course of conducting the line transect method. Where flat vegetation exists, conduct the following line transect method.

(i) Stretch a one-hundred (100) foot measuring tape across a disturbed surface area. Firmly anchor both ends of the measuring tape into the surface using a tool such as a screwdriver with the tape stretched taut and close to the soil surface. If vegetation exists in regular rows, place the tape diagonally (at approximately a 45 degree angle) away from

a parallel or perpendicular position to the vegetated rows. Pinpoint an area the size of a 3/32 inch diameter brazing rod or wooden dowel centered above each one-foot interval mark along one edge of the tape. Count the number of times that flat vegetation lies directly underneath the pinpointed area at one-foot intervals. Consistently observe the underlying surface from a 90 degree angle directly above each pinpoint on one side of the tape. Do not count the underlying surface as vegetated if any portion of the pinpoint extends beyond the edge of the vegetation underneath in any direction. If clumps of vegetation or vegetative debris lie underneath the pinpointed area, count the surface as vegetated unless bare soil is visible directly below the pinpointed area. When 100 observations have been made, add together the number of times a surface was counted as vegetated. This total represents the percent of flat vegetation cover (e.g. if 35 positive counts were made, then vegetation cover is 35 percent). If the disturbed surface area is too small for 100 observations, make as many observations as possible. Then multiply the count of vegetated surface areas by the appropriate conversion factor to obtain percent cover. For example, if vegetation was counted 20 times within a total of 50 observations, divide 20 by 50 and multiply by 100 to obtain a flat vegetation cover of 40 percent.

(ii) Conduct the above line transect test method an additional two (2) times on areas representative of the disturbed surface and average results.

4. Determination of Standing Vegetation Cover

Standing vegetation includes vegetation that is attached (rooted) with a predominant vertical orientation. Standing vegetation which is dead but firmly rooted shall be considered equally protective as live vegetation. Conduct the following standing vegetation test method to determine if 30 percent cover or more exists. If the resulting percent cover is less than 30 percent but equal to or greater than 10 percent, then conduct the Threshold Friction Velocity test in section II.2 of this appendix in order to determine whether the disturbed surface area is stabilized according to paragraph (b)(16)(ii)(E) of this section.

(i) For standing vegetation that consists of large, separate vegetative structures (for example, shrubs and sagebrush), select a survey area representing the disturbed surface that is the shape of a square with sides equal to at least ten (10) times the average height of the vegetative structures. For smaller standing vegetation, select a survey area of three (3) feet by 3 feet.

(ii) Count the number of standing vegetative structures within the survey area. Count vegetation which grows in clumps as a single unit. Where different types of vegetation exists and/or vegetation of different height and width exists, separate the vegetative structures with similar dimensions into groups. Count the number of vegetative structures in each group within the survey area. Select an individual structure within each group that represents the average height and width of the vegetation in the group. If the structure is dense (i.e. when looking at it vertically from base to top there is little or zero open air space within its perimeter), calculate and record its frontal silhouette area according to Equation 6 of this appendix. Also use Equation 6 if the survey area is larger than nine square feet, estimating the average height and width of the vegetation. Otherwise, use the procedure in section II.4.(iii) of this appendix to calculate the Frontal Silhouette Area. Then calculate the percent cover of standing vegetation according to Equations 7, 8 and 9 of this appendix. (Ensure consistent units of measurement, e.g. square feet or square inches when calculating percent cover.)

(iii) Vegetative Density Factor. Cut a single, representative piece of vegetation (or consolidated vegetative structure) to within 1 cm of surface soil. Using a white paper grid or transparent grid over white paper, lay the vegetation flat on top of the grid (but do not apply pressure to flatten the structure). Grid boxes of one inch or one half inch squares are sufficient for most vegetation when conducting this procedure. Using a marker or pencil, outline the shape of the vegetation along its outer perimeter according to Figure B, C or D of this appendix, as appropriate. (NOTE: Figure C differs from Figure D primarily in that the width of vegetation in Figure C is narrow at its base and gradually broadens to its tallest height. In Figure D, the width of the vegetation generally becomes narrower from its midpoint to its tallest height.) Remove the vegetation and count and record the total number of gridline intersections within the outlined area, but do not count gridline intersections that connect with the outlined shape. There must be at least 10 gridline intersections within the outlined area and preferably more than 20, otherwise, use smaller grid boxes. Draw small circles (no greater than a 3/32 inch diameter) at each gridline intersection counted within the outlined area. Replace the vegetation on the grid within its outlined shape. From a distance of approximately two feet directly above the grid, observe each circled gridline intersection. Count and record the number of circled gridline intersections that are not covered by any piece of the vegetation. To calculate percent vegetative density, use Equations 10 and 11 of this appendix. If percent vegetative density is equal to or greater than 30, use the equation (Eq. 14, 15 or 16) that matches the outline used to trace the vegetation (Figure B, C or D) to calculate its Frontal Silhouette Area. If percent vegetative density is less

than 30, use Equations 12 and 13 of this appendix to calculate the Frontal Silhouette Area.

(iv) Within a disturbed surface area that contains multiple types of vegetation with each vegetation type uniformly distributed, results of the percent cover associated with the individual vegetation types may be added together.

(v) Repeat this procedure on an additional two (2) distinct survey areas representing the disturbed surface and average the results.

Height × Width = Frontal Silhouette Area *Eq. 6*

(Frontal Silhouette Area of Individual Vegetative Structure) × Number of Vegetation Structures Per Group = Group Frontal Silhouette Area of Group *Eq. 7*

Frontal Silhouette Area of Group 1 + Frontal Silhouette Area of Group 2 (etc.) = Total Frontal Silhouette Area *Eq. 8*

(Total Frontal Silhouette Area/Survey Area) × 100 = Percent Cover of Standing Vegetation *Eq. 9*

[(Number of circled gridlines within the outlined area counted that are not covered by vegetation / Total number of gridline intersections within the outlined area) × 100] = Percent Open Space *Eq. 10*

100 = Percent Open Space = Percent Vegetative Density *Eq. 11*

Percent Vegetative Density/100 = Vegetative Density *Eq. 12*

$$\left[\text{Max. Height} * \text{Width}\right] * \left[\frac{\text{Vegetative Density}}{0.4}\right]^{0.5} = \text{Frontal Silhouette Area} \qquad \text{Eq. 13}$$

Alternative Test Methods

Alternative test methods may be used upon obtaining the written approval of the EPA.

[64 FR 71308, Dec. 21, 1999]

§ 52.129 Review of new sources and modifications.

(a) [Reserved]

(b) *National standards not met.* The requirements of § 51.160(a) of this chapter are not met in the Pima Intrastate Region since the Rules and Regulations of the Pima County Air Pollution Control

District are not adequate to prevent construction or modification of a source which would interfere with the attainment or maintenance of the national standards.

(c) *Regulation for review of new sources and modifications.* (1) The requirements of this paragraph are applicable to any stationary source in the Pima Intrastate Region (§ 81.269 of this chapter), the construction or modification of which is commenced after the effective date of this regulation.

(2) No owner or operator shall commence construction or modification of any new source after the effective date of this regulation without first obtaining approval from the Administrator of the location of such source.

(i) Application for approval to construct or modify shall be made on forms furnished by the Administrator, or by other means prescribed by the Administrator.

(ii) A separate application is required for each source.

(iii) Each application shall be signed by the applicant.

(iv) Each application shall be accompanied by site information, stack data, and the nature and amount of emissions. Such information shall be sufficient to enable the Administrator to make any determination pursuant to paragraph (c)(3) of this section.

(v) Any additional information, plans, specifications, evidence or documentation that the Administrator may require shall be furnished upon request.

(3) No approval to construct or modify will be granted unless the applicant shows to the satisfaction of the Administrator that the source will not prevent or interfere with attainment or maintenance of any national standard.

(4)(i) Within twenty (20) days after receipt of an application to construct, or any addition to such application, the Administrator shall advise the owner or operator of any deficiency in the information submitted in support of the application. In the event of such a deficiency, the date of receipt of the application for the purpose of paragraph (c)(4)(ii) of this section, shall be the date on which all required information is received by the Administrator.

(ii) Within thirty (30) days after receipt of a complete application, the Administrator shall:

(*a*) Make a preliminary determination whether the source should be approved, approved with conditions, or disapproved.

(*b*) Make available in at least one location in each region in which the proposed source would be constructed, a copy of all materials submitted by the owner or operator, a copy of the Administrator's preliminary determination and a copy or summary of other materials, if any, considered by the Administrator in making his preliminary determination; and

(*c*) Notify the public, by prominent advertisement in a newspaper of general circulation in each region in which the proposed source would be constructed, of the opportunity for written public comment on the information submitted by the owner or operator and the Administrator's preliminary determination on the approvability of the source.

(iii) A copy of the notice required pursuant to this paragraph shall be sent to the applicant and to state and local air pollution control agencies, having cognizance over the location where the source will be situated.

(iv) Public comments submitted in writing within thirty (30) days after the date such information is made available shall be considered by the Administrator in making his final decision on the application. No later than ten (10) days after the close of the public comment period, the applicant may submit a written response to any comment submitted by the public. The Administrator shall consider the applicant's response in making his final decision. All comments shall be made available for public inspection in at least one location in the region in which the source would be located.

(v) The Administrator shall take final action on an application within thirty (30) days after the close of the public comment period. The Administrator shall notify the applicant in writing of his approval, conditional approval, or denial of the application, and

shall set forth his reasons for conditional approval or denial. Such notification shall be made available for public inspection in at least one location in the region in which the source would be located.

(vi) The Administrator may extend each of the time periods specified in paragraph (c)(4) (ii), (iv) or (v) of this section by no more than 30 days, or such other period as agreed to by the applicant and the Administrator.

(5) The Administrator may cancel an approval if the construction is not begun within 2 years from the date of issuance, or if during the construction, work is suspended for 1 year.

(6) Approval to construct or modify shall not relieve any owner or operator of the responsibility to comply with any local, State or Federal regulation which is part of the applicable plan.

(7) Approval to construct or modify shall not be required for:

(i) The installation or alteration of an air pollutant detector, air pollutants recorder, combustion controller, or combustion shutoff.

(ii) Airconditioning or ventilating systems not designed to remove air pollutants generated by or released from equipment.

(iii) Fuel burning equipment, other than smokehouse generators, which has a heat input of not more than 250 MBtu/h (62.5 billion g-cal/h) and burns only gaseous fuel containing not more than 20.0 grain H_2 S per 100 stdft^3 (45.8 g/100 stdm^3); has a heat input of not more than 1 MBtu/h (250 Mg-cal/h) and burns only distillate oil; or has a heat input of not more than 350,000 Btu/h (88.2 Mg-cal/h) and burns any other fuel.

(iv) Mobile internal combustion engines.

(v) Laboratory equipment used exclusively for chemical or physical analysis.

(vi) Other sources of minor significance specified by the Administrator.

(8) Any owner or operator who constructs, modifies, or operates a stationary source not in accordance with the application, as approved and conditioned by the Administrator, or any owner or operator of a stationary source subject to this paragraph who commences construction or modification without applying for and receiving approval hereunder, shall be subject to enforcement action under section 113 of the Act.

(d) *Regulation for review of new sources and modifications: Federal Regulations.* (1) This requirement is applicable to any stationary source subject to the requirements of § 52.126(b), the construction or modification of which is commenced after the effective date of this regulation.

(2) No owner or operator shall commence construction or modification of any stationary source after the effective date of this regulation, without first obtaining approval from the Administrator of the location and design of such source.

(i) Application for approval to construct or modify shall be made on forms furnished by the Administrator, or by other means prescribed by the Administrator.

(ii) A separate application is required for each source.

(iii) Each application shall be signed by the applicant.

(iv) Each application shall be accompanied by site information, plans, descriptions, specifications, and drawings showing the design of the source, the nature and amount of emissions, and the manner in which it will be operated and controlled.

(v) Any additional information, plans, specifications, evidence, or documentation that the Administrator may require shall be furnished upon request.

(3) No approval to construct or modify will be granted unless the applicant shows to the satisfaction of the Administrator that the source will operate without causing a violation of § 52.126(b).

(4)(i) Within twenty (20) days after receipt of an application to construct, or any addition to such application, the Administrator shall advise the owner or operator of any deficiency in the information submitted in support of the application. In the event of such a deficiency, the date of receipt of the application for the purpose of paragraph (d)(4)(ii) of this section, shall be the date on which all required information is received by the Administrator.

(ii) Within thirty (30) days after receipt of a complete application, the Administrator shall:

(*a*) Make a preliminary determination whether the source should be approved, approved with conditions, or disapproved.

(*b*) Make available in at least one location in each region in which the proposed source would be constructed, a copy of all materials submitted by the owner or operator, a copy of the Administrator's preliminary determination and a copy or summary of other materials, if any, considered by the Administrator in making his preliminary determination; and

(*c*) Notify the public, by prominent advertisement in a newspaper of general circulation in each region in which the proposed source would be constructed, of the opportunity for written public comment on the information submitted by the owner or operator and the Administrator's preliminary determination on the approvability of the source.

(iii) A copy of the notice required pursuant to this paragraph shall be sent to the applicant and to state and local air pollution control agencies, having cognizance over the location where the source will be situated.

(iv) Public comments submitted in writing within thirty (30) days after the date such information is made available shall be considered by the Administrator in making his final decision on the application. No later than ten (10) days after the close of the public comment period, the applicant may submit a written response to any comment submitted by the public. The Administrator shall consider the applicant's response in making his final decision. All comments shall be made available for public inspection in at least one location in the region in which the source would be located.

(v) The Administrator shall take final action on an application within thirty (30) days after the close of the public comment period. The Administrator shall notify the applicant in writing of his approval, conditional approval, or denial of the application, and shall set forth his reasons for conditional approval or denial. Such notification shall be made available for public inspection in at least one location in the region in which the source would be located.

(vi) The Administrator may extend each of the time periods specified in paragraph (d)(4)(ii), (iv) or (v) of this section by no more than 30 days, or such other period as agreed to by the applicant and the Administrator.

(5) The Administrator may impose any reasonable conditions upon an approval including conditions requiring the source to be provided with:

(i) Sampling ports of a size, number, and location as the Administrator may require,

(ii) Safe access to each port,

(iii) Instrumentation to monitor and record emission data, and

(iv) Any other sampling and testing facilities.

(6) The Administrator may cancel an approval if the construction is not begun within 2 years from the date of issuance, or if during the construction, work is suspended for 1 year.

(7) Any owner or operator subject to the provisions of this regulation shall furnish the Administrator written notification as follows:

(i) A notification of the anticipated date of initial startup of source not more than 60 days or less than 30 days prior to such date.

(ii) A notification of the actual date of initial startup of a source within 15 days after such date.

(8) Within 60 days after achieving the maximum production rate at which the source will be operated but not later than 180 days after initial startup of such source, the owner or operator of such source shall conduct a performance test(s) in accordance with the methods and under operating conditions approved by the Administrator and furnish the Administrator a written report of the results of such performance test.

(i) Such test shall be at the expense of the owner or operator.

(ii) The Administrator may monitor such test and also may conduct performance tests.

(iii) The owner or operator of a source shall provide the Administrator 15 days prior notice of the performance test to afford the Administrator the

opportunity to have an observer present.

(iv) The Administrator may waive the requirement for performance tests if the owner or operator of a source has demonstrated by other means to the Administrator's satisfaction that the source is being operated in compliance with the requirements of § 52.126(b).

(9) Approval to construct or modify shall not relieve the owner or operator of the responsibility to comply with all local, State, or Federal regulations which are part of the applicable plan.

(10) Approval to construct or modify shall not be required for:

(i) The installation or alteration of an air pollutant detector, air pollutants recorder, combustion controller, or combustion shutoff.

(ii) Air-conditioning or ventilating systems not designed to remove air pollutants generated by or released from equipment.

(iii) Fuel burning equipment, other than smokehouse generators, which has a heat input of not more than 250 MBtu/h (62.5 billion g-cal/h) and burns only gaseous fuel containing not more than 20.0 grain H_2 S per 100 $stdft^3$ (45.8 g/100 $stdm^3$); has a heat input of not more than 1 MBtu/h (250 Mg-cal/h) and burns only distillate oil; or has a heat input of not more than 350,000 Btu/h (88.2 Mg-cal/h) and burns any other fuel.

(iv) Mobile internal combustion engines.

(v) Laboratory equipment used exclusively for chemical or physical analyses.

(vi) Other sources of minor significance specified by the Administrator.

(11) Any owner or operator who constructs, modifies, or operates a stationary source not in accordance with the application, as approved and conditioned by the Administrator, or any owner or operator of a stationary source subject to this paragraph who commences construction or modification without applying for and receiving approval hereunder, shall be subject to enforcement action under section 113 of the Act.

(e) *Delegation of authority.* (1) The Administrator shall have the authority to delegate responsibility for implementing the procedures for conducting source review pursuant to this section in accordance with paragraphs (g) (2), (3), and (4) of this section.

(2) Where the Administrator delegates the responsibility for implementing the procedures for conducting source review pursuant to this section to any Agency, other than a Regional Office of the Environmental Protection Agency, a copy of the notice pursuant to paragraphs (c)(4)(iii) and (d)(4)(iii) of this section shall be sent to the Administrator through the appropriate Regional Office.

(3) In accordance with Executive Order 11752, the Administrator's authority for implementing the procedures for conducting source review pursuant to this section shall not be delegated, other than to a Regional Office of the Environmental Protection Agency, for new or modified sources which are owned or operated by the Federal government or for new or modified sources located on Federal lands; except that, with respect to the latter category, where new or modified sources are constructed or operated on Federal lands pursuant to leasing or other Federal agreements, the Federal Land Manager may at his discretion, to the extent permissible under applicable statutes and regulations, require the lessee or permittee to be subject to new source review requirements which have been delegated to a state or local agency pursuant to this paragraph.

(4) The Administrator's authority for implementing the procedures for conducting source review pursuant to this section shall not be redelegated, other than to a Regional Office of the Environmental Protection Agency, for new or modified sources which are located in Indian reservations except where the State has assumed jurisdiction over such land under other laws, in which case the Administrator may delegate his authority to the States in accordance with paragraphs (g)(2), (3), and (4) of this section.

[37 FR 15081, July 27, 1972, as amended at 38 FR 12705, May 14, 1973; 39 FR 7279, Feb. 25, 1974; 39 FR 28285, Aug. 8, 1974; 40 FR 50268, Oct. 29, 1975; 45 FR 67346, Oct. 10, 1980; 51 FR 40677, Nov. 7, 1986; 60 FR 33922, June 29, 1995]

§ 52.130 Source surveillance.

(a) The requirements of § 51.211 of this chapter are not met since the plan does not contain legally enforceable procedures for requiring sources in the Northern Arizona, Mohave-Yuma, Central Arizona, and Southeast Arizona Intrastate Regions to maintain records of and periodically report on the nature and amounts of emissions.

(b) The requirements of § 51.213 of this chapter are not met because the plan does not provide procedures for obtaining and maintaining data on actual emission reductions achieved as a result of implementing transportation control measures.

(c) *Regulation for source recordkeeping and reporting.* (1) The owner or operator of any stationary source in the Northern Arizona, Mohave-Yuma, Central Arizona, or Southeast Arizona Intrastate Region (§§ 81.270, 81.268, 81.271, and 81.272 of this chapter) shall, upon notification from the Administrator, maintain records of the nature and amounts of emissions from such source or any other information as may be deemed necessary by the Administrator to determine whether such source is in compliance with applicable emission limitations or other control measures.

(2) The information recorded shall be summarized and reported to the Administrator, and shall be submitted within 45 days after the end of the reporting period. Reporting periods are January 1 to June 30 and July 1 to December 31, except that the initial reporting period shall commence on the date the Administrator issues notification of the recordkeeping requirements.

(3) Information recorded by the owner or operator and copies of the summarizing reports submitted to the Administrator shall be retained by the owner or operator for 2 years after the date on which the pertinent report is submitted.

(4) Emission data obtained from owners or operators of stationary sources will be correlated with applicable emission limitations and other control measures. All such emission data will be available during normal business hours at the regional office (region IX). The Administrator will designate one or more places in Arizona where such emission data and correlations will be available for public inspection.

(d) The requirements of § 51.214 of this chapter are not met since the plan does not contain legally enforceable procedures for requiring certain stationary sources subject to emission standards to install, calibrate, operate, and maintain equipment for continuously monitoring and recording emissions, and to provide other information as specified in Appendix P of part 51 of this chapter.

(e) The requirements of § 51.214 of this chapter are not met since the plan does not provide sufficient regulations to meet the minimum specifications of Appendix P in the Maricopa Intrastate Region. Additionally, Maricopa County Air Pollution Control Regulation IV, rule 41, paragraph B, sections 6.0–6.4 (Special Consideration) is disapproved since it does not contain the specific criteria for determining those physical limitations or extreme economic situations where alternative monitoring requirements would be applicable.

[37 FR 15081, July 27, 1972]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.130, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§ 52.131 Control Strategy and regulations: Fine Particle Matter.

(a) *Determination of Attainment:* Effective February 6, 2013, EPA has determined that, based on 2009 to 2011 ambient air quality data, the Nogales $PM_{2.5}$ nonattainment area has attained the 2006 24-hour $PM_{2.5}$ NAAQS. This determination suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment for as long as this area continues to attain the 2006 24-hour $PM_{2.5}$ NAAQS. If EPA determines, after notice-and-comment rulemaking, that this area no longer meets the 2006 $PM_{2.5}$ NAAQS, the corresponding determination of attainment for that area shall be withdrawn.

(b) *Determination of Attainment:* Effective October 4, 2013, EPA has determined that, based on 2010 to 2012 ambient air quality data, the West Central Pinal $PM_{2.5}$ nonattainment area has attained the 2006 24-hour $PM_{2.5}$ NAAQS. This determination suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment for as long as this area continues to attain the 2006 24-hour $PM_{2.5}$ NAAQS. If EPA determines, after notice-and-comment rulemaking, that this area no longer meets the 2006 $PM_{2.5}$ NAAQS, the corresponding determination of attainment for that area shall be withdrawn.

(c) *Determination of attainment.* Effective June 9, 2017, the EPA has determined that, based on 2013 to 2015 ambient air quality data, the Nogales, AZ $PM_{2.5}$ nonattainment area has attained the 2006 24-hour $PM_{2.5}$ NAAQS by the applicable attainment date of December 31, 2015. Therefore, the EPA has met the requirement pursuant to CAA section 188(b)(2) to determine whether the area attained the standard. The EPA also has determined that the Nogales, AZ nonattainment area will not be reclassified for failure to attain by its applicable attainment date under section 188(b)(2).

(d) *Determination of attainment.* Effective November 4, 2019, the EPA has determined that, based on 2015 to 2017 ambient air quality data, the West Central Pinal County, AZ $PM_{2.5}$ nonattainment area has attained the 2006 24-hour $PM_{2.5}$ NAAQS by the applicable attainment date of December 31, 2017. Therefore, the EPA has met the requirement pursuant to CAA section 188(b)(2) to determine whether the area attained the standard. The EPA also has determined that the West Central Pinal County, AZ nonattainment area will not be reclassified for failure to attain by its applicable attainment date under section 188(b)(2).

[78 FR 889, Jan. 7, 2013, as amended at 78 FR 54396, Sept. 4, 2013; 82 FR 21715, May 10, 2017; 84 FR 52771, Oct. 3, 2019]

§ 52.132 [Reserved]

§ 52.133 Rules and regulations.

(a) Regulation 7–1–1.4(A) (Exceptions) of the Arizona Rules and Regulations for Air Pollution Control, regulations 12–3–2 (Emission Standards) of the Coconino County Rules and Regulations for Air Pollution Control, section 3, regulation 5 (Exceptions) of the Mohave County Air Pollution Control Regulations, regulation 8–1–1.6 (Exceptions) of the Yuma County Air Pollution Control Regulations, and regulation 7–1–2.8 (Exceptions) of the Rules and Regulations for Pinal-Gila Counties Air Quality Control District all provide for an exemption from enforcement action if the violation is attributable to certain events. These events are too broad in scope and the source can obtain the exemption merely by reporting the occurrence. Therefore, the above regulations are disapproved since these regulations make all approved emission limiting regulations potentially unenforceable.

(b) Paragraph E of regulation 7–1–1.3 (R9–3–103) (Air Pollution Prohibited) prohibits any person from causing ground level concentrations to exceed ambient standards outside the boundaries of this operation. This regulation could allow violations of ambient air quality standards to occur in areas to which the public has access, contrary to the requirements of section 110(a)(1) of the Clean Air Act. Therefore, paragraph E of regulation 7–1–1.3 (R9–3–103) of the Arizona Rules and Regulations for Air Pollution Control is disapproved.

(c) The requirements of subpart G and § 51.281 of this chapter are not met since the plan does not provide any enforceable regulations and a demonstration that such regulations will cause the attainment and maintenance of national ambient air quality standards in Graham and Greenlee Counties.

(d) Section 3, regulation 4 (Ground Level Concentrations) of the Mohave County Air Pollution Control Regulations, paragraph E of regulation 8–1–1.3 (Air Pollution Prohibited) of the Yuma County Air Pollution Control Regulations, and paragraph C of regulation 7–1–1.3 (Air Pollution Prohibited) of the Rules and Regulations for Pinal-Gila

Counties Air Quality Control District prohibits any person from causing ground level concentrations to exceed ambient standards outside the boundaries of his operation. These regulations could allow violations of ambient air quality standards to occur in areas to which the general public has access, contrary to the requirements of section 110(a)(1) of the Clean Air Act. Therefore, these regulations are disapproved.

(e) Rule R18–2–702 of the Arizona Department of Environmental Quality Rules and Regulations sets an opacity standard for emissions from stationary sources of PM–10. The standard does not fulfill the RACM/RACT requirements of section 189(a) of the CAA. The rule also does not comply with enforceability requirements of section 110(a) and SIP relaxation requirements of sections 110(l) and 193. Therefore, Rule R18–2–702 submitted on July 15, 1998 is disapproved.

(f) Rules 1–3–130 and 3–1–020 submitted on November 27, 1995 of the Pinal County Air Quality Control District regulations have limited enforceability because they reference rules not contained in the Arizona State Implementation Plan. Therefore, these rules are removed from the Arizona State Implementation Plan.

(g) Rules 1–2–110, 1–3–130, 3–1–020, and 4–1–010 submitted on October 7, 1998 of the Pinal County Air Quality Control District regulations have limited enforceability because they reference rules not contained in the Arizona State Implementation Plan. Therefore, these rules are disapproved.

[37 FR 15082, July 27, 1972, as amended at 43 FR 33247, July 31, 1978; 43 FR 53035, Nov. 15, 1978; 51 FR 40676, 40677, Nov. 7, 1986; 67 FR 59460, Sept. 23, 2002; 67 FR 68767, Nov. 13, 2002]

§ 52.134 Compliance schedules.

(a) *Federal compliance schedule.* (1) Except as provided in paragraph (a)(2) of this section, the owner or operator of any stationary source subject to § 52.126(b) shall comply with such regulation on or before January 31, 1974. The owner or operator of the source subject to § 52.125(c) shall comply with such regulation at initial start-up of such source unless a compliance schedule has been submitted pursuant to paragraph (a)(2) of this section.

(i) Any owner or operator in compliance with § 52.126(b) on the effective date of this regulation shall certify such compliance to the Administrator no later than 120 days following the effective date of this paragraph.

(ii) Any owner or operator who achieves compliance with § 52.125(c) or § 52.126(b) after the effective date of this regulation shall certify such compliance to the Administrator within 5 days of the date compliance is achieved.

(2) Any owner or operator of the stationary source subject to § 52.125(c) and paragraph (a)(1) of this section may, no later than July 23, 1973, submit to the Administrator for approval a proposed compliance schedule that demonstrates compliance with § 52.125(c) as expeditiously as practicable but not later than July 31, 1977. Any owner or operator of a stationary source subject to § 52.126(b) and paragraph (a)(1) of this section may, no later than 120 days following the effective date of this paragraph, submit to the Administrator for approval a proposed compliance schedule that demonstrates compliance with § 52.126(b) as expeditiously as practicable but not later than July 31, 1975.

(i) The compliance schedule shall provide for periodic increments of progress toward compliance. The dates for achievement of such increments shall be specified. Increments of progress shall include, but not be limited to: Submittal of the final control plan to the Administrator; letting of necessary contracts for construction or process change, or issuance of orders for the purchase of component parts to accomplish emission control equipment or process modification; completion of onsite construction or installation of emission control equipment or process modification; and final compliance.

(ii) Any compliance schedule for the stationary source subject to § 52.125(c) which extends beyond July 31, 1975, shall apply any reasonable interim measures of control designed to reduce the impact of such source on public health.

(3) Any owner or operator who submits a compliance schedule pursuant to this paragraph shall, within 5 days after the deadline for each increment

of progress, certify to the Administrator whether or not the required increment of the approved compliance schedule has been met.

[38 FR 12705, May 14, 1973, as amended at 39 FR 10584, Mar. 21, 1974; 39 FR 43277, Dec. 12, 1974; 40 FR 3994, Jan. 27, 1975; 54 FR 25258, June 14, 1989]

§ 52.135 Resources.

(a) The requirements of § 51.280 of this chapter are not met because the transportation control plan does not contain a sufficient description of resources available to the State and local agencies and of additional resources needed to carry out the plan during the 5-year period following submittal.

[38 FR 16564, June 22, 1973, as amended at 51 FR 40677, Nov. 7, 1986]

§ 52.136 Control strategy for ozone: Oxides of nitrogen.

EPA is approving an exemption request submitted by the State of Arizona on April 13, 1994 for the Maricopa County ozone nonattainment area from the NO_X RACT requirements contained in section 182(f) of the Clean Air Act. This approval exempts the Phoenix area from implementing the NO_X requirements for RACT, new source review (NSR), and the applicable general and transportation conformity and inspection and maintenance (I/M) requirements of the CAA. The exemption is based on Urban Airshed Modeling as lasts for only as long as the area's modeling continues to demonstrate attainment without NO_X reductions from major stationary sources.

[60 FR 19515, Apr. 19, 1995]

§ 52.137 [Reserved]

§ 52.138 Conformity procedures.

(a) *Purpose.* The purpose of this regulation is to provide procedures as part of the Arizona carbon monoxide implementation plans for metropolitan transportation planning organizations (MPOs) to use when determining conformity of transportation plans, programs, and projects. Section 176(c) of the Clean Air Act (42 U.S.C. 7506(c)) prohibits MPOs from approving any project, program, or plan which does not conform to an implementation plan approved or promulgated under section 110.

(b) *Definitions.*

(1) *Applicable implementation plan* or *applicable plan* means the portion (or portions) of the implementation plan, or most recent revision thereof, which has been approved under section 110 of the Clean Air Act, 42 U.S.C. 7410, or promulgated under section 110(c) of the CAA, 42 U.S.C. 7410(c).

(2) *Carbon monoxide national ambient air quality standard (CO NAAQS)* means the standards for carbon monoxide promulgated by the Administrator under section 109, 42 U.S.C. 7409, of the Clean Air Act and found in 40 CFR 50.8

(3) *Cause* means resulting in a violation of the CO NAAQS in an area which previously did not have ambient CO concentrations above the CO NAAQS.

(4) *Contribute* means resulting in measurably higher average 8-hour ambient CO concentrations over the NAAQS or an increased number of violations of the NAAQS in an area which currently experiences CO levels above the standard.

(5) *Metropolitan planning organization (MPO)* means the organization designated under 23 U.S.C. 134 and 23 CFR part 450.106. For the specific purposes of this regulation, MPO means either the Maricopa Association of Governments or the Pima Association of Governments.

(6) *Nonattainment area* means for the specific purpose of this regulation either the Pima County carbon monoxide nonattainment area as described in 40 CFR 81.303 or the Maricopa County carbon monoxide nonattainment area as described in 40 CFR 81.303 (i.e., the MAG urban planning area).

(7) *Transportation control measure (TCM)* means any measure in an applicable implementation plan which is intended to reduce emissions from transportation sources.

(8) *Transportation improvement program (TIP)* means the staged multiyear program of transportation improvements including an annual (or biennial) element which is required in 23 CFR part 450.

(9) *Unified planning work program* or *UPWP* means the program required by 23 CFR 450.108(c) and endorsed by the metropolitan planning organization

which describes urban transportation and transportation-related planning activities anticipated in the area during the next 1- to 2-year period including the planning work to be performed with federal planning assistance and with funds available under the Urban Mass Transportation Act (49 U.S.C.) section 9 or 9A. UPWPs are also known as overallwork programs or OWPs.

(c) *Applicability.* These procedures shall apply only to the Maricopa Association of Governments in its role as the designated metropolitan planning organization for Maricopa County, Arizona, and the Pima Association of Governments in its role as the designated metropolitan planning organization for Pima County, Arizona.

(d) *Procedures*—(1) *Transportation Plans and Transportation Improvement Programs*—(i) *Documentation.* The MPO shall prepare for each transportation plan and program (except for the unified planning work program), as part of the plan or program, a report documenting for each plan and program the following information:

(A) the disaggregated population projections and employment which were assumed in:

(*1*) the applicable plan, and

(*2*) the transportation plan/program;

(B) the levels of vehicle trips, vehicle miles traveled, and congestion that were:

(*1*) assumed in the applicable plan, and

(*2*) expected to result from the implementation of the plan/program over the period covered by the applicable plan considering any growth likely to result from the implementation of the plan/program;

(C) for each major transportation control measure in the applicable implementation plan;

(*1*) the TCM's implementation schedule and, if determined in the applicable plan, expected effectiveness in reducing CO emissions,

(*2*) the TCM's current implementation status and, if feasible, its current effectiveness in reducing CO emissions, and

(*3*) actions in the plan/program which may beneficially or adversely affect the implementation and/or effectiveness of the TCM;

(D) the CO emission levels resulting from the implementation of the plan/program over the period covered by the applicable plan considering any growth likely to result from the implementation of the plan/program; and

(E) the ambient CO concentration levels, micro-scale and regional, resulting from the implementation of the plan/program over the period covered by the applicable plan considering any growth likely to result from the implementation of the plan or program.

(ii) *Findings.* Prior to approving a transportation plan/program, the MPO shall determine if the plan/program conforms to the applicable implementation plan. In making this determination, the MPO shall make and support each of the following findings for each transportation plan and program using the information documented in paragraph (d)(1)(i) of this section:

(A) that implementation of the transportation plan/program will provide for the implementation of TCMs in the applicable plan on the schedule set forth in the applicable plan;

(B) that CO emission levels, microscale and regional, resulting from the implementation of the plan/program will not delay attainment or achievement of any interim emission reductions needed for attainment and/or interfere with maintenance of the CONAAQS throughout the nonattainment area during the period covered by the applicable plan; and

(C) that implementation of the plan/program would not cause or contribute to a violation of the CO NAAQS anywhere within the nonattainment area during the period covered by the applicable plan.

(2) *Amendments to a Transportation Plan or Transportation Implementation Program.* Prior to approving any amendment to a transportation plan or program, the MPO shall first determine that the amendment does not substantially change the information provided under paragraph (d)(1)(i) of this section and does not change the findings in paragraph (d)(1)(ii) of this section with respect to the original plan or program.

(3) *Transportation Projects.* As part of any individual transportation project approval made by the MPO, the MPO

shall determine whether the project conforms to the applicable implementation plan using the following procedure:

(i) For projects from a plan and TIP that has been found to conform under procedures in paragraph (d)(1) of this section within the last three years or from a Plan or TIP amendment that has been found to conform under procedures in paragraph (d)(2) of this section in the past three years, the MPO shall document as part of the approval document:

(A) the TIP project number;

(B) whether the project is an exempt project as defined in paragraph (e) of this section; and

(C) whether the design and scope of the project has changed significantly from the design and scope of the project as described in the conforming TIP:

(*1*) If the design and scope of the project has not changed significantly, the MPO may find the project conforming; or

(*2*) If the design and scope of the project has changed significantly or the design and scope of the project could not be determined from the TIP, the MPO shall use the procedures in paragraph (d)(3)(ii) of this section to determine if the project conforms to the applicable implementation plan.

(ii) For projects not exempted under paragraph (e) of this section and not in a plan or a TIP that has been found to conform under procedures in paragraph (d)(1) of this section within the last three years:

(A) *Documentation.* The MPO shall document as part of the approval document for each such project:

(*1*) the disaggregated population and employment projections, to the extent they are used in

(*i*) the applicable plan, and

(*ii*) designing and scoping the project;

(*2*) the levels of vehicle trips, vehicle miles traveled, and congestion that are

(*i*) assumed in the applicable plan, and

(*ii*) expected to result over the period covered by the applicable plan from the construction of the project considering any growth likely to result from the project;

(*3*) for each transportation control measure in the applicable plan likely to be affected by the project:

(*i*) its implementation schedule and expected emission reduction effectiveness from the applicable plan,

(*ii*) its current implementation status and, if feasible, its current effectiveness, and

(*iii*) any actions as part of the project which may beneficially or adversely affect the implementation and/or effectiveness of the TCM;

(*4*) CO emission levels which will result from the project over the period covered by the applicable plan considering any growth likely to result from the project; and

(*5*) ambient CO concentration levels which will result from the project over the period covered by the applicable plan considering any growth likely to result from the project.

(B) *Findings.* Prior to approving any transportation project, the MPO shall determine if the project conforms to the applicable implementation plan. In making this determination, the MPO shall make and support the following findings for each project using the information documented in paragraph (d)(2)(ii)(A) of this section:

(*1*) that the project will provide for the implementation of TCMs affected by the project on the schedule set forth in the applicable plan;

(*2*) that CO emission levels, microscale and regional, resulting from the implementation of the project during the period covered by the applicable plan will not delay attainment or any required interim emission reductions and/or interfere with maintenance of the CO NAAQS in an area substantially affected by the project;

(*3*) that the project will not cause or contribute to a violation of the CO NAAQS during the period covered by the applicable plan near the project; and

(*4*) that the projected emissions from the project, when considered together with emissions projected for the conforming plan and program within the nonattainment area, do not cause the

plan and program to exceed the emission reduction projections and schedules assigned to such plans and programs in the applicable implementation plan.

(e) *Exempt Projects.* An individual project is exempt from the requirements of paragraph (d) of this section if it is:

(1) located completely outside the nonattainment area;

(2) a safety project which is included in the statewide safety improvement program, will not alter the functional traffic capacity or capability of the facility being improved, and does not adversely affect the TCMs in the applicable plan;

(3) a transportation control measure from the approved applicable plan; or

(4) a mass transit project funded under the Urban Mass Transportation Act, 49 U.S.C.

[56 FR 5485, Feb. 11, 1991]

§ 52.139 [Reserved]

§ 52.140 Monitoring transportation trends.

(a) This section is applicable to the State of Arizona.

(b) In order to assure the effectiveness of the inspection and maintenance program and the retrofit devices required under the Arizona implementation plan, the State shall monitor the actual per-vehicle emissions reductions occurring as a result of such measures. All data obtained from such monitoring shall be included in the quarterly report submitted to the Administrator by the State in accordance with § 58.35 of this chapter. The first quarterly report shall cover the period January 1 to March 31, 1976.

(c) In order to assure the effective implementation of §§ 52.137, 52.138, and 52.139, the State shall monitor vehicle miles traveled and average vehicle speeds for each area in which such sections are in effect and during such time periods as may be appropriate to evaluate the effectiveness of such a program. All data obtained from such monitoring shall be included in the quarterly report submitted to the Administrator by the State of Arizona in accordance with § 58.35 of this chapter. The first quarterly report shall cover the period from July 1 to September 30, 1974. The vehicle miles traveled and vehicle speed data shall be collected on a monthly basis and submitted in a format similar to Table 1.

TABLE 1

Time period _____
Affected area _____

Roadway type	VMT or average vehicle speed	
	Vehicle type (1)	Vehicle type (2)[1]
Freeway.		
Arterial.		
Collector.		
Local.		

[1] Continue with other vehicle types as appropriate.

(d) No later than March 1, 1974, the State shall submit to the Administrator a compliance schedule to implement this section. The program description shall include the following:

(1) The agency or agencies responsible for conducting, overseeing, and maintaining the monitoring program.

(2) The administrative procedures to be used.

(3) A description of the methods to be used to collect the emission data, VMT data, and vehicle speed data; a description of the geographical area to which the data apply; identification of the location at which the data will be collected; and the time periods during which the data will be collected.

(e) The quarterly reports specified in paragraphs (b) and (c) of this section shall be submitted to the Administrator through the Regional Office, and shall be due within 45 days after the end of each reporting period.

[38 FR 33376, Dec. 3, 1973, as amended at 39 FR 32113, Sept. 5, 1974; 44 FR 27571, May 10, 1979]

§ 52.141 [Reserved]

§ 52.142 Federal Implementation Plan for Tri-Cities landfill, Salt River Pima-Maricopa Indian Community.

The Federal Implementation Plan regulating emissions from an Energy Project at the Tri-Cities landfill located on the Salt River Pima-Maricopa Indian Community near Phoenix, Arizona is codified at 40 CFR 49.22.

[64 FR 65664, Nov. 23, 1999]

§ 52.143 [Reserved]

§ 52.144 Significant deterioration of air quality.

(a) The requirements of sections 160 through 165 of the Clean Act are not met, since the plan as it applies to stationary sources under the jurisdiction of the Pima County Health Department and the Maricopa County Department of Health Services and stationary sources locating on Indian lands does not include approvable procedures for preventing the significant deterioration of air quality.

(b) Regulation for preventing significant deterioration of air quality. The provisions of § 52.21 except paragraph (a)(1) are hereby incorporated and made a part of the applicable State plan for the State of Arizona for that portion applicable to the Pima County Health Department and the Maricopa County Department of Health Services and sources locating on Indian lands.

(c) The requirements of sections 160 through 165 of the Clean Air Act are met as they apply to stationary sources under the jurisdiction of the Arizona Department of Environmental Quality (ADEQ), except with respect to emissions of greenhouse gases (GHGs) (as defined in § 52.21(b)(49)(i)). Therefore, the provisions of § 52.21, except paragraph (a)(1) of this section, for GHGs are hereby made a part of the plan for stationary sources under the jurisdiction of ADEQ as it applies to the stationary sources described in § 52.21(b)(49)(iv).

[48 FR 19879, May 3, 1983, as amended at 68 FR 11321, Mar. 10, 2003; 68 FR 74488, Dec. 24, 2003; 83 FR 19637, May 4, 2018]

§ 52.145 Visibility protection.

(a) The requirements of section 169A of the Clean Air Act are not met, because the plan does not include approvable procedures for protection of visibility in mandatory Class I Federal areas.

(b) Regulations for visibility monitoring and new source review. The provisions of §§ 52.27 and 52.28 are hereby incorporated and made part of the applicable plan for the State of Arizona.

(c) [Reserved]

(d) This paragraph is applicable to the fossil fuel-fired, steam-generating equipment designated as Units 1, 2, and 3 at the Navajo Generating Station in the Northern Arizona Intrastate Air Quality Control Region (§ 81.270 of this chapter).

(1) *Definitions.*

Administrator means the Administrator of EPA or his/her designee.

Affected Unit(s) means the steam-generating unit(s) at the Navajo Generating Station, all of which are subject to the emission limitation in paragraph (d)(2) of this section, that has accumulated at least 365 boiler operating days since the passage of the date defined in paragraph (d)(6) of this section applicable to it.

Boiler Operating Day for each of the boiler units at the Navajo Generating Station is defined as a 24-hour calendar day (the period of time between 12:01 a.m. and 12:00 midnight in Page, Arizona) during which coal is combusted in that unit for the entire 24 hours.

Owner or Operator means the owner, participant in, or operator of the Navajo Generating Station to which this paragraph is applicable.

Unit-Week of Maintenance means a period of 7 days during which a fossil fuel-fired steam-generating unit is under repair, and no coal is combusted in the unit.

(2) *Emission limitation.* No owner or operator shall discharge or cause the discharge of sulfur oxides into the atmosphere in excess of 42 ng/J [0.10 pound per million British thermal units (lb/MMBtu)] heat input.

(3) *Compliance determination.* Until at least one unit qualifies as an affected unit, no compliance determination is appropriate. As each unit qualifies for treatment as an affected unit, it shall be included in the compliance determination. Compliance with this emission limit shall be determined daily on a plant-wide rolling annual basis as follows:

(i) For each boiler operating day at each steam generating unit subject to the emission limitation in paragraph (d)(2) of this section, the owner or operator shall record the unit's hourly SO_2 emissions using the data from the continuous emission monitoring systems, [required in paragraph (d)(4) of this section] and the daily electric energy generated by the unit (in megawatt-

hours) as measured by the megawatt-hour meter for the unit.

(ii) Compute the average daily SO_2 emission rate in ng/J (lb/MMBtu) following the procedures set out in method 19, appendix A, 40 CFR part 60 in effect on October 3, 1991.

(iii) For each boiler operating day for each affected unit, calculate the product of the daily SO_2 emission rate (computed according to paragraph (d)(3)(ii) of this section) and the daily electric energy generated (recorded according to paragraph (d)(3)(i) of this section) for each unit.

(iv) For each affected unit, identify the previous 365 boiler operating days to be used in the compliance determination. Except as provided in paragraphs (d)(9) and (d)(10) of this section, all of the immediately preceding 365 boiler operating days will be used for compliance determinations.

(v) Sum, for all affected units, the products of the daily SO_2 emission rate-electric energy generated (as calculated according to paragraph (d)(3)(iii) of this section) for the boiler operating days identified in paragraph (d)(3)(iv) of this section.

(vi) Sum, for all affected units, the daily electric energy generated (recorded according to paragraph (d)(3)(i) of this section) for the boiler operating days identified in paragraph (d)(3)(iv) of this section.

(vii) Calculate the weighted plant-wide annual average SO_2 emission rate by dividing the sum of the products determined according to paragraph (d)(3)(v) of this section by the sum of the electric energy generated determined according to paragraph (d)(3)(vi) of this section.

(viii) The weighted plant-wide annual average SO_2 emission rate shall be used to determine compliance with the emission limitation in paragraph (d)(2) of this section.

(4) *Continuous emission monitoring.* The owner or operator shall install, maintain, and operate continuous emission monitoring systems to determine compliance with the emission limitation in paragraph (d)(2) of this section as calculated in paragraph (d)(3) of this section. This equipment shall meet the specifications in appendix B of 40 CFR part 60 in effect on October 3, 1991. The owner or operator shall comply with the quality assurance procedures for continuous emission monitoring systems found in appendix F of 40 CFR part 60 in effect on October 3, 1991.

(5) *Reporting requirements.* For each steam generating unit subject to the emission limitation in paragraph (d)(2) of this section, the owner or operator:

(i) Shall furnish the Administrator written notification of the SO_2, oxygen, and carbon dioxide emissions according to the procedures found in 40 CFR § 60.7 in effect on October 3, 1991.

(ii) Shall furnish the Administrator written notification of the daily electric energy generated in megawatt-hours.

(iii) Shall maintain records according to the procedures in 40 CFR 60.7 in effect on October 3, 1991.

(iv) Shall notify the Administrator by telephone or in writing within one business day of any outage of the control system needed for compliance with the emission limitation in paragraph (d)(2) of this section and shall submit a follow-up written report within 30 days of the repairs stating how the repairs were accomplished and justifying the amount of time taken for the repairs.

(6) *Compliance dates.* The requirements of this paragraph shall be applicable to one unit at the Navajo Generating Station beginning November 19, 1997, to two units beginning November 19, 1998, and to all units beginning on August 19, 1999.

(7) *Schedule of compliance.* The owner or operator shall take the following actions by the dates specified:

(i) By June 1, 1992, award binding contracts to an architectural and engineering firm to design and procure the control system needed for compliance with the emission limitation in paragraph (d)(2) of this section.

(ii) By January 1, 1995, initiate on-site construction or installation of a control system for the first unit.

(iii) By May 1, 1997, initiate start-up testing of the control system for the first unit.

(iv) By May 1, 1998, initiate start-up testing of the control system for the second unit.

(v) By February 1, 1999, initiate start-up testing of the control system for the third unit.

The interim deadlines will be extended if the owner or operators can demonstrate to the Administrator that compliance with the deadlines in paragraph (d)(6) of this section will not be affected.

(8) *Reporting on compliance schedule.* Within 30 days after the specified date for each deadline in the schedule of compliance (paragraph (d)(7) of this section, the owner or operator shall notify the Administrator in writing whether the deadline was met. If it was not met the notice shall include an explanation why it was not met and the steps which shall be taken to ensure future deadlines will be met.

(9) *Exclusion for equipment failure during initial operation.* For each unit, in determining compliance for the first year that such unit is required to meet the emission limitation in paragraph (d)(2) of this section, periods during which one of the following conditions are met shall be excluded:

(i) Equipment or systems do not meet designer's or manufacturer's performance expectations.

(ii) Field installation including engineering or construction precludes equipment or systems from performing as designed.

The periods to be excluded shall be determined by the Administrator based on the periodic reports of compliance with the emission limitation in paragraph (d)(2) of this section which shall identify the times proposed for exclusion and provide the reasons for the exclusion, including the reasons for the control system outage. The report also shall describe the actions taken to avoid the outage, to minimize its duration, and to reduce SO_2 emissions at the plant to the extent practicable while the control system was not fully operational. Whenever the time to be excluded exceeds a cumulative total of 30 days for any control system for any affected unit, the owner or operators shall submit a report within 15 days addressing the history of and prognosis for the performance of the control system.

(10) *Exclusion for catastrophic failure.* In addition to the exclusion of periods allowed in paragraph (d)(9) of this section, any periods of emissions from an affected unit for which the Administrator finds that the control equipment or system for such unit is out of service because of catastrophic failure of the control system which occurred for reasons beyond the control of the owner or operators and could not have been prevented by good engineering practices will be excluded from the compliance determination. Events which are the consequence of lack of appropriate maintenance or of intentional or negligent conduct or omissions of the owner or operators or the control system design, construction, or operating contractors do not constitute catastrophic failure.

(11) *Equipment operation.* The owner or operator shall optimally operate all equipment or systems needed to comply with the requirements of this paragraph consistent with good engineering practices to keep emissions at or below the emission limitation in paragraph (d)(2) of this section, and following outages of any control equipment or systems the control equipment or system will be returned to full operation as expeditiously as practicable.

(12) *Maintenance scheduling.* On March 16 of each year starting in 1993, the owner or operator shall prepare and submit to the Administrator a long-term maintenance plan for the Navajo Generating Station which accommodates the maintenance requirements for the other generating facilities on the Navajo Generating Station grid covering the period from March 16 to March 15 of the next year and showing at least 6 unit-weeks of maintenance for the Navajo Generating Station during the November 1 to March 15 period, except as provided in paragraph (d)(13) of this section. This plan shall be developed consistent with the criteria established by the Western States Coordinating Council of the North American Electric Reliability Council to ensure an adequate reserve margin of electric generating capacity. At the time that a plan is transmitted to the Administrator, the owner or operator shall notify the Administrator in writing if less than the full scheduled unit-weeks of maintenance were conducted for the period covered by the previous

plan and shall furnish a written report stating how that year qualified for one of the exceptions identified in paragraph (d)(13) of this section.

(13) *Exceptions for maintenance scheduling.* The owner or operator shall conduct a full 6 unit-weeks of maintenance in accordance with the plan required in paragraph (d)(12) of this section unless the owner or operator can demonstrate to the satisfaction of the Administrator that a full 6 unit-weeks of maintenance during the November 1 to March 15 period should not be required because of the following:

(i) There is no need for 6 unit-weeks of scheduled periodic maintenance in the year covered by the plan;

(ii) The reserve margin on any electrical system served by the Navajo Generating Station would fall to an inadequate level, as defined by the criteria referred to in paragraph (d)(12) of this section.

(iii) The cost of compliance with this requirement would be excessive. The cost of compliance would be excessive when the economic savings to the owner or operator of moving maintenance out of the November 1 to March 15 period exceeds $50,000 per unit-day of maintenance moved.

(iv) A major forced outage at a unit occurs outside of the November 1 to March 15 period, and necessary periodic maintenance occurs during the period of forced outage.

If the Administrator determines that a full 6 unit-weeks of maintenance during the November 1 to March 15 period should not be required, the owner or operator shall nevertheless conduct that amount of scheduled maintenance that is not precluded by the Administrator. Generally, the owner or operator shall make best efforts to conduct as much scheduled maintenance as practicable during the November 1 to March 15 period.

(e) *Approval.* On February 28, 2011, the Arizona Department of Environmental Quality submitted the ''Arizona State Implementation Plan, Regional Haze Under Section 308 of the Federal Regional Haze Rule'' (''Arizona Regional Haze SIP'').

(1) [Reserved]

(2) The following portions of the Arizona Regional Haze SIP are disapproved because they do not meet the applicable requirements of Clean Air Act sections 169A and 169B and the Regional Haze Rule in 40 CFR 51.301 through 51.308:

(i) The determination that Unit I4 at TEP's Irvington [Sundt] Generating Station is not BART-eligible;

(ii) The portions of the long-term strategy for regional haze related to emission reductions for out-of-state Class I areas, emissions limitations and schedules for compliance to achieve the reasonable progress goal and enforceability of emissions limitations and control measures.

(f) [Reserved]

(g) On May 3, 2013, the Arizona Department of Environmental Quality (ADEQ) submitted the ''Arizona State Implementation Plan Revision, Regional Haze Under Section 308 of the Federal Regional Haze Rule'' (''Arizona Regional Haze SIP Supplement'').

(1) The following portions of the Arizona Regional Haze SIP Supplement are disapproved because they do not meet the applicable requirements of Clean Air Act sections 169A and 169B and the Regional Haze Rule in 40 CFR 51.301 through 51.308:

(i) The determination that the Chemical Lime Company's Nelson Lime Plant is not subject-to-BART;

(ii) The determination that the Freeport McMoRan Miami Inc (FMMI) Smelter is not subject to BART for NO_X;

(iii) The determination that existing controls constitute BART for SO_2 at the Freeport McMoRan Miami Inc (FMMI) Smelter;

(iv) The determination that the ASARCO Hayden smelter is not subject to BART for NO_X and PM_{10};

(v) The determination that existing controls constitute BART for SO_2 at ASARCO Hayden Smelter;

(vi) The reasonable progress goals for the first planning period;

(vii) The determination that no additional controls for point sources of NO_X are reasonable for the first planning period; and

(viii) The determination that no additional controls for area sources of NO_X and SO_2 are reasonable for the first planning period.

(2) [Reserved]

(h) *Disapproval.* The following portions of the Arizona SIP are disapproved because they do not meet the applicable requirements of Clean Air Act sections 169A and 169B and the Regional Haze Rule at 40 CFR 51.309:

(1) Regional Haze State Implementation Plan for the State of Arizona (''Arizona 309 Regional Haze SIP'') submitted by the Arizona Department of Environmental Quality on December 23, 2003, with the exception of Chapter 5 (Strategy to Address Reasonably Attributable Visibility Impairment (RAVI)) and Appendix A–5 (Attributable Impairment).

(2) The Arizona Regional Haze State Implementation Plan Revision submitted by the Arizona Department of Environmental Quality on December 31, 2004, with the exception of the provisions already approved at 40 CFR 52.120(c)(131).

(3) Letter from Stephen A. Owens, Director, Arizona Department of Environmental Quality, dated December 24, 2008 re: Submittal of Arizona Regional Haze State Implementation Plan.

(i) *Source-specific federal implementation plan for regional haze at Nelson Lime Plant*— (1) *Applicability.* This paragraph (i) applies to the owner/operator of the lime kilns designated as Kiln 1 and Kiln 2 at the Nelson Lime Plant located in Yavapai County, Arizona.

(2) *Definitions.* Terms not defined in this paragraph (i)(2) shall have the meaning given them in the Clean Air Act or EPA's regulations implementing the Clean Air Act. For purposes of this paragraph (i):

Ammonia injection shall include any of the following: Anhydrous ammonia, aqueous ammonia, or urea injection.

Continuous emission monitoring system or CEMS means the equipment required by this section to sample, analyze, measure, and provide, by means of readings recorded at least once every 15 minutes (using an automated data acquisition and handling system (DAHS)), a permanent record of NO_X emissions, SO_2 emissions, diluent, and stack gas volumetric flow rate.

Kiln means either of the kilns identified in paragraph (i)(1) of this section.

Kiln 1 means lime kiln 1, as identified in paragraph (i)(1) of this section.

Kiln 2 means lime kiln 2, as identified in paragraph (i)(1) of this section.

Kiln operating day means a 24-hour period between 12 midnight and the following midnight during which there is operation of Kiln 1, Kiln 2, or both kilns at any time.

Kiln operation means any period when any raw materials are fed into the Kiln or any period when any combustion is occurring or fuel is being fired in the Kiln.

Lime product means the product of the lime-kiln calcination process, including calcitic lime, dolomitic lime, and dead-burned dolomite.

NO_X means oxides of nitrogen.

Owner/operator means any person who owns or who operates, controls, or supervises a kiln identified in paragraph (i)(1) of this section.

SO_2 means sulfur dioxide.

(3) *Emission limitations.* (i) The owner/operator of the kilns identified in paragraph (i)(1) of this section shall not emit or cause to be emitted pollutants in excess of the following limitations in pounds of pollutant per ton of lime product (lb/ton), from any kiln. Each emission limit shall be based on a 12-month rolling basis.

POLLUTANT EMISSION LIMIT

Kiln ID	NO_X	SO_2
Kiln 1	3.80	9.32
Kiln 2	2.61	9.73

(ii) The owner/operator of the kilns identified in paragraph (i)(1) of this section shall not emit or cause to be emitted pollutants in excess of 3.27 tons of NO_X per day and 10.10 tons of SO_2 per day, combined from both kilns, based on a rolling 30-kiln-operating-day basis.

(4) *Compliance dates.* (i) The owner/operator of each kiln shall comply with the NO_X emission limitations and other NO_X -related requirements of this paragraph (i) no later than September 4, 2017.

(ii) The owner/operator of each kiln shall comply with the SO_2 emission limitations and other SO_2 -related requirements of this paragraph (i) no later than March 3, 2016.

(5) [Reserved]

(6) *Compliance determination*—(i) *Continuous emission monitoring system.* At

all times after the compliance dates specified in paragraph (i)(4) of this section, the owner/operator of kilns 1 and 2 shall maintain, calibrate, and operate a CEMS, in full compliance with the requirements found at 40 CFR 60.13 and 40 CFR part 60, appendices B and F, to accurately measure diluent, stack gas volumetric flow rate, and concentration by volume of NO_X and SO_2 emissions into the atmosphere from kilns 1 and 2. The CEMS shall be used by the owner/operator to determine compliance with the emission limitations in paragraph (i)(3) of this section, in combination with data on actual lime production. The owner/operator must operate the monitoring system and collect data at all required intervals at all times that an affected kiln is operating, except for periods of monitoring system malfunctions, repairs associated with monitoring system malfunctions, and required monitoring system quality assurance or quality control activities (including, as applicable, calibration checks and required zero and span adjustments).

(ii) *Ammonia consumption monitoring.* Upon and after the completion of installation of ammonia injection on a kiln, the owner or operator shall install, and thereafter maintain and operate, instrumentation to continuously monitor and record levels of ammonia consumption for that kiln.

(iii) *Compliance determination for lb per ton NO_X limit.* Compliance with the NO_X emission limits described in paragraph (i)(3)(i) of this section shall be determined based on a rolling 12-month basis. The 12-month rolling NO_X emission rate for each kiln shall be calculated within 30 days following the end of each calendar month in accordance with the following procedure: Step one, sum the hourly pounds of NO_X emitted for the month just completed and the eleven (11) months preceding the month just completed to calculate the total pounds of NO_X emitted over the most recent twelve (12) month period for that kiln; Step two, sum the total lime product, in tons, produced during the month just completed and the eleven (11) months preceding the month just completed to calculate the total lime product produced over the most recent twelve (12) month period for that kiln; Step three, divide the total amount of NO_X calculated from Step one by the total lime product calculated from Step two to calculate the 12-month rolling NO_X emission rate for that kiln. Each 12-month rolling NO_X emission rate shall include all emissions and all lime product that occur during all periods within the 12-month period, including emissions from startup, shutdown, and malfunction.

(iv) *Compliance determination for lb per ton SO_2 limit.* Compliance with the SO_2 emission limits described in paragraph (i)(3)(i) of this section shall be determined based on a rolling 12-month basis. The 12-month rolling SO_2 emission rate for each kiln shall be calculated within 30 days following the end of each calendar month in accordance with the following procedure: Step one, sum the hourly pounds of SO_2 emitted for the month just completed and the eleven (11) months preceding the month just completed to calculate the total pounds of SO_2 emitted over the most recent twelve (12) month period for that kiln; Step two, sum the total lime product, in tons, produced during the month just completed and the eleven (11) months preceding the month just completed to calculate the total lime product produced over the most recent twelve (12) month period for that kiln; Step three, divide the total amount of SO_2 calculated from Step one by the total lime product calculated from Step two to calculate the 12-month rolling SO_2 emission rate for that kiln. Each 12-month rolling SO_2 emission rate shall include all emissions and all lime product that occur during all periods within the 12-month period, including emissions from startup, shutdown, and malfunction.

(v) *Compliance determination for ton per day NO_X limit.* Compliance with the NO_X emission limit described in paragraph (i)(3)(ii) of this section shall be determined based on a rolling 30-kiln-operating-day basis. The rolling 30-kiln operating day NO_X emission rate for the kilns shall be calculated for each kiln operating day in accordance with the following procedure: Step one, sum the hourly pounds of NO_X emitted from both kilns for the current kiln operating day and the preceding twenty-

nine (29) kiln-operating-day period for both kilns; Step two, divide the total pounds of NO_X calculated from Step one by two thousand (2,000) to calculate the total tons of NO_X; Step three, divide the total tons of NO_X calculated from Step two by thirty (30) to calculate the rolling 30-kiln operating day NO_X emission rate for both kilns. Each rolling 30-kiln operating day NO_X emission rate shall include all emissions that occur from both kilns during all periods within any kiln operating day, including emissions from startup, shutdown, and malfunction.

(vi) *Compliance determination for ton per day SO_2 limit.* Compliance with the SO_2 emission limit described in paragraph (i)(3)(ii) of this section shall be determined based on a rolling 30-kiln-operating-day basis. The rolling 30-kiln operating day SO_2 emission rate for the kilns shall be calculated for each kiln operating day in accordance with the following procedure: Step one, sum the hourly pounds of SO_2 emitted from both kilns for the current kiln operating day and the preceding twenty-nine (29) kiln operating days, to calculate the total pounds of SO_2 emitted over the most recent thirty (30) kiln operating day period for both kilns; Step two, divide the total pounds of SO_2 calculated from Step one by two thousand (2,000) to calculate the total tons of SO_2; Step three, divide the total tons of SO_2 calculated from Step two by thirty (30) to calculate the rolling 30-kiln operating day SO_2 emission rate for both kilns. Each rolling 30-kiln operating day SO_2 emission rate shall include all emissions that occur from both kilns during all periods within any kiln operating day, including emissions from startup, shutdown, and malfunction.

(7) *Recordkeeping.* The owner/operator shall maintain the following records for at least five years:

(i) All CEMS data, including the date, place, and time of sampling or measurement; parameters sampled or measured; and results.

(ii) All records of lime production.

(iii) Monthly rolling 12-month emission rates of NO_X and SO_2, calculated in accordance with paragraphs (i)(6)(iii) and (iv) of this section.

(iv) Daily rolling 30-kiln operating day emission rates of NO_X and SO_2 calculated in accordance with paragraphs (i)(6)(v) and (vi) of this section.

(v) Records of quality assurance and quality control activities for emissions measuring systems including, but not limited to, any records specified by 40 CFR part 60, appendix F, Procedure 1, as well as the following:

(A) The occurrence and duration of any startup, shutdown, or malfunction, performance testing, evaluations, calibrations, checks, adjustments maintenance, duration of any periods during which a CEMS or COMS is inoperative, and corresponding emission measurements.

(B) Date, place, and time of measurement or monitoring equipment maintenance activity;

(C) Operating conditions at the time of measurement or monitoring equipment maintenance activity;

(D) Date, place, name of company or entity that performed the measurement or monitoring equipment maintenance activity and the methods used; and

(E) Results of the measurement or monitoring equipment maintenance.

(vi) Records of ammonia consumption, as recorded by the instrumentation required in paragraph (i)(6)(ii) of this section.

(vii) Records of all major maintenance activities conducted on emission units, air pollution control equipment, CEMS, and lime production measurement devices.

(viii) All other records specified by 40 CFR part 60, appendix F, Procedure 1.

(8) *Reporting.* All reports required under this section shall be submitted by the owner/operator to the Director, Enforcement Division, U.S. Environmental Protection Agency, Region 9, electronically via email to *aeo__r9@epa.gov*. Any data that are required under this section shall be submitted in Excel format. Reports required under paragraphs (i)(8)(iii) through (v) of this section shall be submitted within 30 days after the applicable compliance date(s) in paragraph (i)(4) of this section and at least semiannually thereafter, within 30 days after the end of a semiannual period.

The owner/operator may submit reports more frequently than semiannually for the purposes of synchronizing reports required under this section with other reporting requirements, such as the title V monitoring report required by 40 CFR 70.6(a)(3)(iii)(A), but at no point shall the duration of a semiannual period exceed six months.

(i) Prior to commencing construction of the ammonia injection system, the owner/operator shall submit to EPA a summary report of the design of the SNCR system. Elements of this summary report shall include: Reagent type, description of the locations selected for reagent injection, reagent injection rate (expressed as a molar ratio of reagent to NO_X), equipment list, equipment arrangement, and a summary of kiln characteristics that were relied upon as the design basis for the SNCR system.

(ii) By October 3, 2017, the owner/operator shall submit to EPA a summary of any process improvement or debugging activities that were performed on the SNCR system. Elements of this summary report shall include: a description of each process adjustment performed on the SNCR system, a discussion of whether the adjustment affected NO_X emission rate (including CEMS data that may have been recorded while the adjustment was in progress), a description of the range (if applicable) over which the adjustment was examined, and a discussion of how the adjustment will be reflected or accounted for in kiln operating practices. In addition, to the extent that the owner/operator evaluates the impact of varying reagent injection rate on NO_X emissions, the owner/operator shall include the following information: the range of reagent injection rates evaluated (expressed as a molar ratio of reagent to average NO_X concentration), reagent injection rate, average NO_X concentration, lime production rate, kiln flue gas temperature, and the presence of any detached plumes from the kiln exhaust.

(iii) The owner/operator shall submit a report that lists the daily rolling 30-kiln operating day emission rates for NO_X and SO_2, calculated in accordance with paragraphs (i)(6)(iii) and (iv) of this section.

(iv) The owner/operator shall submit a report that lists the monthly rolling 12-month emission rates for NO_X and SO_2, calculated in accordance with paragraphs (i)(6)(v) and (vi) of this section.

(v) The owner/operator shall submit excess emissions reports for NO_X and SO_2 limits. Excess emissions means emissions that exceed any of the emissions limits specified in paragraph (i)(3) of this section. The reports shall include the magnitude, date(s), and duration of each period of excess emissions; specific identification of each period of excess emissions that occurs during startups, shutdowns, and malfunctions of the kiln; the nature and cause of any malfunction (if known); and the corrective action taken or preventative measures adopted.

(vi) The owner/operator shall submit a summary of CEMS operation, to include dates and duration of each period during which the CEMS was inoperative (except for zero and span adjustments and calibration checks), reason(s) why the CEMS was inoperative and steps taken to prevent recurrence, and any CEMS repairs or adjustments.

(vii) The owner/operator shall submit results of all CEMS performance tests required by 40 CFR part 60, Appendix F, Procedure 1 (Relative Accuracy Test Audits, Relative Accuracy Audits, and Cylinder Gas Audits).

(viiii) When no excess emissions have occurred or the CEMS has not been inoperative, repaired, or adjusted during the reporting period, the owner/operator shall state such information in the semiannual report.

(9) *Notifications.* All notifications required under this section shall be submitted by the owner/operator to the Director, Enforcement Division (Mail Code ENF–2–1), U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, California 94105–3901.

(i) The owner/operator shall submit notification of commencement of construction of any equipment which is being constructed to comply with the NO_X emission limits in paragraph (i)(3) of this section.

(ii) The owner/operator shall submit semiannual progress reports on construction of any such equipment.

(iii) The owner/operator shall submit notification of initial startup of any such equipment.

(10) *Equipment operations.* (i) At all times, including periods of startup, shutdown, and malfunction, the owner/operator shall, to the extent practicable, maintain and operate the kilns, including associated air pollution control equipment, in a manner consistent with good air pollution control practices for minimizing emissions. Pollution control equipment shall be designed and capable of operating properly to minimize emissions during all expected operating conditions. Determination of whether acceptable operating and maintenance procedures are being used will be based on information available to the Regional Administrator, which may include, but is not limited to, monitoring results, review of operating and maintenance procedures, and inspection of the kilns.

(ii) After completion of installation of ammonia injection on a kiln, the owner/operator shall inject sufficient ammonia to achieve compliance with the NO_X emission limits from paragraph (i)(3) of this section for that kiln while preventing excessive ammonia emissions.

(11) *Enforcement.* Notwithstanding any other provision in this implementation plan, any credible evidence or information relevant as to whether the kiln would have been in compliance with applicable requirements if the appropriate performance or compliance test had been performed can be used to establish whether or not the owner/operator has violated or is in violation of any standard or applicable emission limit in the plan.

(j) *Source-specific federal implementation plan for regional haze at H. Wilson Sundt Generating Station*—(1) *Applicability.* This paragraph (j) applies to the owner/operator of the electricity generating unit (EGU) designated as Unit I4 at the H. Wilson Sundt Generating Station located in Tucson, Pima County, Arizona.

(2) *Definitions.* Terms not defined in this paragraph (j)(2) shall have the meaning given them in the Clean Air Act or EPA's regulations implementing the Clean Air Act. For purposes of this paragraph (j):

Ammonia injection shall include any of the following: Anhydrous ammonia, aqueous ammonia, or urea injection.

Boiler operating day means a 24-hour period between 12 midnight and the following midnight during which any fuel is combusted at any time in the unit.

Continuous emission monitoring system or CEMS means the equipment required by 40 CFR part 75 and this paragraph (j).

MMBtu means one million British thermal units.

Natural gas means a naturally occurring fluid mixture of hydrocarbons as defined in 40 CFR 72.2.

NO_X means oxides of nitrogen.

Owner/operator means any person who owns or who operates, controls, or supervises the EGU identified in paragraph (j)(1) of this section.*PM* means total filterable particulate matter.

PM_{10} means total particulate matter less than 10 microns in diameter.

SO_2 means sulfur dioxide.

Unit means the EGU identified paragraph (j)(1) of this section.

(3) *Emission limitations.* The owner/operator of the unit shall not emit or cause to be emitted pollutants in excess of the following limitations, in pounds of pollutant per million British thermal units (lb/MMBtu), from the subject unit.

Pollutant	Pollutant emission limit
NO_X	0.36
PM	0.030
SO_2	0.23

(4) *Alternative emission limitations.* The owner/operator of the unit may choose to comply with the following limitations in lieu of the emission limitations listed in paragraph (j)(3) of this section.

(i) The owner/operator of the unit shall combust only natural gas or natural gas combined with landfill gas in the subject unit.

(ii) The owner/operator of the unit shall not emit or cause to be emitted pollutants in excess of the following limitations, in pounds of pollutant per million British thermal units (lb/MMBtu), from the subject unit.

Pollutant	Pollutant emission limit
NO_X	0.25
PM_{10}	0.010
SO_2	0.057

(iii) If the results of the initial performance test conducted in accordance with paragraph (j)(8)(iv) of this section show PM_{10} emissions greater than the limit in paragraph (j)(4)(ii) of this section, the owner/operator may elect to comply with an emission limit equal to the result of the initial performance test, in lieu of the PM_{10} emission limit in paragraph (j)(4)(ii).

(5) *Compliance dates.* (i) The owner/operator of the unit subject to this paragraph (j)(5) shall comply with the NO_X and SO_2 emission limitations of paragraph (j)(3) of this section no later than September 4, 2017.

(ii) The owner/operator of the unit subject to this paragraph (j)(5) shall comply with the PM emission limitation of paragraph (j)(3) of this section no later than April 16, 2015.

(6) *Alternative compliance dates.* If the owner/operator chooses to comply with paragraph (j)(4) of this section in lieu of paragraph (j)(3) of this section, the owner/operator of the unit shall comply with the NO_X, SO_2, and PM_{10} emission limitations of paragraph (j)(4) of this section no later than December 31, 2017.

(7) *Compliance determination*—(i) *Continuous emission monitoring system.* (A) At all times after the compliance date specified in paragraph (j)(5)(i) of this section, the owner/operator of the unit shall maintain, calibrate, and operate CEMS, in full compliance with the requirements found at 40 CFR part 75, to accurately measure SO_2, NO_X, diluent, and stack gas volumetric flow rate from the unit. All valid CEMS hourly data shall be used to determine compliance with the emission limitations for NO_X and SO_2 in paragraph (j)(3) of this section. When the CEMS is out-of-control as defined by 40 CFR part 75, the CEMS data shall be treated as missing data and not used to calculate the emission average. Each required CEMS must obtain valid data for at least 90 percent of the unit operating hours, on an annual basis.

(B) The owner/operator of the unit shall comply with the quality assurance procedures for CEMS found in 40 CFR part 75. In addition to the requirements in part 75 of this chapter, relative accuracy test audits shall be calculated for both the NO_X and SO_2 pounds per hour measurement and the heat input measurement. The CEMS monitoring data shall not be bias adjusted. Calculations of relative accuracy for lb/hour of NO_X, SO_2, and heat input shall be performed each time the CEMS undergo relative accuracy testing.

(ii) *Ammonia consumption monitoring.* Upon and after the completion of installation of ammonia injection on the unit, the owner/operator shall install, and thereafter maintain and operate, instrumentation to continuously monitor and record levels of ammonia consumption for that unit.

(iii) *Compliance determination for NO_X.* Compliance with the NO_X emission limit described in paragraph (j)(3) of this section shall be determined based on a rolling 30 boiler-operating-day basis. The 30-boiler-operating-day rolling NO_X emission rate for the unit shall be calculated for each boiler operating day in accordance with the following procedure: Step one, sum the hourly pounds of NO_X emitted for the current boiler operating day and the preceding twenty-nine (29) boiler operating days to calculate the total pounds of NO_X emitted over the most recent thirty (30) boiler-operating-day period for that unit; Step two, sum the total heat input, in MMBtu, during the current boiler operating day and the preceding twenty-nine (29) boiler operating days to calculate the total heat input over the most recent thirty (30) boiler-operating-day period for that unit; Step three, divide the total amount of NO_X calculated from Step one by the total heat input calculated from Step two to calculate the rolling 30-boiler-operating-day NO_X emission rate, in pounds per MMBtu for that unit. Each rolling 30-boiler-operating-day NO_X emission rate shall include all emissions and all heat input that occur during all periods within any boiler operating day, including emissions from startup, shutdown, and malfunction. If a valid NO_X pounds per hour or heat

input is not available for any hour for the unit, that heat input and NO_X pounds per hour shall not be used in the calculation of the rolling 30-boiler-operating-day emission rate.

(iv) *Compliance determination for SO_2.* Compliance with the SO_2 emission limit described in paragraph (j)(3) of this section shall be determined based on a rolling 30 boiler-operating-day basis. The rolling 30-boiler-operating-day SO_2 emission rate for the unit shall be calculated for each boiler operating day in accordance with the following procedure: Step one, sum the hourly pounds of SO_2 emitted for the current boiler operating day and the preceding twenty-nine (29) boiler operating days to calculate the total pounds of SO_2 emitted over the most recent thirty (30) boiler-operating-day period for that unit; Step two, sum the total heat input, in MMBtu, during the current boiler operating day and the preceding twenty-nine (29) boiler operating days to calculate the total heat input over the most recent thirty (30) boiler-operating-day period for that unit; Step three, divide the total amount of SO_2 calculated from Step one by the total heat input calculated from Step two to calculate the rolling 30-boiler-operating-day SO_2 emission rate, in pounds per MMBtu for that unit. Each rolling 30-boiler-operating-day SO_2 emission rate shall include all emissions and all heat input that occur during all periods within any boiler operating day, including emissions from startup, shutdown, and malfunction. If a valid SO_2 pounds per hour or heat input is not available for any hour for the unit, that heat input and SO_2 pounds per hour shall not be used in the calculation of the rolling 30-boiler-operating-day emission rate.

(v) *Compliance determination for PM.* Compliance with the PM emission limit described in paragraph (j)(3) of this section shall be determined from annual performance stack tests. Within sixty (60) days either preceding or following the compliance deadline specified in paragraph (j)(5)(ii) of this section, and on at least an annual basis thereafter, the owner/operator of the unit shall conduct a stack test on the unit to measure PM using EPA Methods 1 through 5, in 40 CFR part 60, appendix A. Each test shall consist of three runs, with each run at least one hundred twenty (120) minutes in duration and each run collecting a minimum sample of sixty (60) dry standard cubic feet. Results shall be reported in lb/MMBtu using the calculation in 40 CFR part 60, appendix A, Method 19.

(8) *Alternative compliance determination.* If the owner/operator chooses to comply with the emission limits of paragraph (j)(4) of this section, this paragraph (j)(8) may be used in lieu of paragraph (j)(7) of this section to demonstrate compliance with the emission limits in paragraph (j)(4) of this section.

(i) *Continuous emission monitoring system.* (A) At all times after the compliance date specified in paragraph (j)(6) of this section, the owner/operator of the unit shall maintain, calibrate, and operate CEMS, in full compliance with the requirements found at 40 CFR part 75, to accurately measure NO_X, diluent, and stack gas volumetric flow rate from the unit. All valid CEMS hourly data shall be used to determine compliance with the emission limitation for NO_X in paragraph (j)(4) of this section. When the CEMS is out-of-control as defined by 40 CFR part 75, the CEMS data shall be treated as missing data and not used to calculate the emission average. Each required CEMS must obtain valid data for at least ninety (90) percent of the unit operating hours, on an annual basis.

(B) The owner/operator of the unit shall comply with the quality assurance procedures for CEMS found in 40 CFR part 75. In addition to these part 75 requirements, relative accuracy test audits shall be calculated for both the NO_X pounds per hour measurement and the heat input measurement. The CEMS monitoring data shall not be bias adjusted. Calculations of relative accuracy for lb/hr of NO_X and heat input shall be performed each time the CEMS undergo relative accuracy testing.

(ii) *Compliance determination for NO_X.* Compliance with the NO_X emission limit described in paragraph (j)(4) of this section shall be determined based on a rolling 30 boiler-operating-day basis. The rolling 30-boiler-operating-day NO_X emission rate for the unit

shall be calculated for each boiler operating day in accordance with the following procedure: Step one, sum the hourly pounds of NO_X emitted for the current boiler operating day and the preceding twenty-nine (29) boiler-operating-days to calculate the total pounds of NO_X emitted over the most recent thirty (30) boiler-operating-day period for that unit; Step two, sum the total heat input, in MMBtu, during the current boiler operating day and the preceding twenty-nine (29) boiler-operating-days to calculate the total heat input over the most recent thirty (30) boiler-operating-day period for that unit; Step three, divide the total amount of NO_X calculated from Step one by the total heat input calculated from Step two to calculate the rolling 30-boiler-operating-day NO_X emission rate, in pounds per MMBtu for that unit. Each rolling 30-boiler-operating-day NO_X emission rate shall include all emissions and all heat input that occur during all periods within any boiler operating day, including emissions from startup, shutdown, and malfunction. If a valid NO_X pounds per hour or heat input is not available for any hour for the unit, that heat input and NO_X pounds per hour shall not be used in the calculation of the rolling 30-boiler-operating-day emission rate.

(iii) *Compliance determination for SO_2.* Compliance with the SO_2 emission limit for the unit shall be determined from fuel sulfur documentation demonstrating the use of either natural gas or natural gas combined with landfill gas.

(iv) *Compliance determination for PM_{10}.* Compliance with the PM_{10} emission limit for the unit shall be determined from performance stack tests. Within sixty (60) days following the compliance deadline specified in paragraph (j)(6) of this section, and at the request of the Regional Administrator thereafter, the owner/operator of the unit shall conduct a stack test on the unit to measure PM_{10} using EPA Methods 1 through 4, 201A, and Method 202, per 40 CFR part 51, appendix M. Each test shall consist of three runs, with each run at least one hundred twenty (120) minutes in duration and each run collecting a minimum sample of sixty (60) dry standard cubic feet. Results shall be reported in lb/MMBtu using the calculation in 40 CFR part 60, appendix A, Method 19.

(9) *Recordkeeping.* The owner/operator shall maintain the following records for at least five years:

(i) CEMS data measuring NO_X in lb/hr, SO_2 in lb/hr, and heat input rate per hour.

(ii) Daily rolling 30-boiler operating day emission rates of NO_X and SO_2 calculated in accordance with paragraphs (j)(7)(iii) and (iv) of this section.

(iii) Records of the relative accuracy test for NO_X lb/hr and SO_2 lb/hr measurement, and hourly heat input measurement.

(iv) Records of quality assurance and quality control activities for emissions systems including, but not limited to, any records required by 40 CFR part 75.

(v) Records of all major maintenance activities conducted on emission units, air pollution control equipment, and CEMS.

(vi) Any other records required by 40 CFR part 75.

(vii) Records of ammonia consumption for the unit, as recorded by the instrumentation required in paragraph (j)(7)(ii) of this section.

(viii) All PM stack test results.

(10) *Alternative recordkeeping requirements.* If the owner/operator chooses to comply with the emission limits of paragraph (j)(4) of this section, the owner/operator shall maintain the records listed in this paragraph (j)(10) in lieu of the records contained in paragraph (j)(9) of this section. The owner/operator shall maintain the following records for at least five years:

(i) CEMS data measuring NO_X in lb/hr and heat input rate per hour.

(ii) Daily rolling 30-boiler operating day emission rates of NO_X calculated in accordance with paragraph (j)(8)(ii) of this section.

(iii) Records of the relative accuracy test for NO_X lb/hr measurement and hourly heat input measurement.

(iv) Records of quality assurance and quality control activities for emissions systems including, but not limited to, any records required by 40 CFR part 75.

(v) Records of all major maintenance activities conducted on emission units, air pollution control equipment, and CEMS.

(vi) Any other records required by 40 CFR part 75.

(vii) Records sufficient to demonstrate that the fuel for the unit is natural gas or natural gas combined with landfill gas.

(viii) All PM_{10} stack test results.

(11) *Notifications.* All notifications required under this section shall be submitted by the owner/operator to the Director, Enforcement Division (Mail Code ENF–2–1), U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, California 94105–3901.

(i) By March 31, 2017, the owner/operator shall submit notification by letter whether it will comply with the emission limits in paragraph (j)(3) of this section or whether it will comply with the emission limits in paragraph (j)(4) of this section. In the event that the owner/operator does not submit timely and proper notification by March 31, 2017, the owner/operator may not choose to comply with the alternative emission limits in paragraph (j)(4) of this section and shall comply with the emission limits in paragraph (j)(3) of this section.

(ii) The owner/operator shall submit notification of commencement of construction of any equipment which is being constructed to comply with either the NO_X or SO_2 emission limits in paragraph (j)(3) of this section.

(iii) The owner/operator shall submit semiannual progress reports on construction of any such equipment.

(iv) The owner/operator shall submit notification of initial startup of any such equipment.

(v) The owner/operator shall submit notification of its intent to comply with the PM_{10} emission limit in paragraph (j)(4)(iii) of this section within one hundred twenty (120) days following the compliance deadline specified in paragraph (j)(6) of this section. The notification shall include results of the initial performance test and the resulting applicable emission limit.

(12) *Reporting.* All reports required under this section shall be submitted by the owner/operator to the Director, Enforcement Division (Mail Code ENF–2–1), U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, California 94105–3901. All reports required under this section shall be submitted within 30 days after the applicable compliance date(s) in paragraph (j)(5) of this section and at least semiannually thereafter, within 30 days after the end of a semiannual period. The owner/operator may submit reports more frequently than semiannually for the purposes of synchronizing reports required under this section with other reporting requirements, such as the title V monitoring report required by 40 CFR 70.6(a)(3)(iii)(A), but at no point shall the duration of a semiannual period exceed six months.

(i) The owner/operator shall submit a report that lists the daily rolling 30-boiler operating day emission rates for NO_X and SO_2.

(ii) The owner/operator shall submit excess emission reports for NO_X and SO_2 limits. Excess emissions means emissions that exceed the emission limits specified in paragraph (j)(3) of this section. Excess emission reports shall include the magnitude, date(s), and duration of each period of excess emissions; specific identification of each period of excess emissions that occurs during startups, shutdowns, and malfunctions of the unit; the nature and cause of any malfunction (if known); and the corrective action taken or preventative measures adopted.

(iii) The owner/operator shall submit a summary of CEMS operation, to include dates and duration of each period during which the CEMS was inoperative (except for zero and span adjustments and calibration checks), reason(s) why the CEMS was inoperative and steps taken to prevent recurrence, and any CEMS repairs or adjustments.

(iv) The owner/operator shall submit the results of any relative accuracy test audits performed during the two preceding calendar quarters.

(v) When no excess emissions have occurred or the CEMS has not been inoperative, repaired, or adjusted during the reporting period, the owner/operator shall state such information in the semiannual report.

(vi) The owner/operator shall submit results of any PM stack tests conducted for demonstrating compliance

with the PM limit specified in paragraph (j)(3) of this section.

(13) *Alternative reporting requirements.* If the owner/operator chooses to comply with the emission limits of paragraph (j)(4) of this section, the owner/operator shall submit the reports listed in this paragraph (j)(13) in lieu of the reports contained in paragraph (j)(12) of this section. All reports required under this paragraph (j)(13) shall be submitted by the owner/operator to the Director, Enforcement Division (Mail Code ENF–2–1), U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, California 94105–3901. All reports required under this paragraph (j)(13) shall be submitted within 30 days after the applicable compliance date(s) in paragraph (j)(6) of this section and at least semiannually thereafter, within 30 days after the end of a semiannual period. The owner/operator may submit reports more frequently than semiannually for the purposes of synchronizing reports required under this section with other reporting requirements, such as the title V monitoring report required by 40 CFR 70.6(a)(3)(iii)(A), but at no point shall the duration of a semiannual period exceed six months.

(i) The owner/operator shall submit a report that lists the daily rolling 30-boiler operating day emission rates for NO_X.

(ii) The owner/operator shall submit excess emissions reports for NO_X limits. Excess emissions means emissions that exceed the emission limit specified in paragraph (j)(4) of this section. The reports shall include the magnitude, date(s), and duration of each period of excess emissions; specific identification of each period of excess emissions that occurs during startups, shutdowns, and malfunctions of the unit; the nature and cause of any malfunction (if known); and the corrective action taken or preventative measures adopted.

(iii) The owner/operator shall submit CEMS performance reports, to include dates and duration of each period during which the CEMS was inoperative (except for zero and span adjustments and calibration checks), reason(s) why the CEMS was inoperative and steps taken to prevent recurrence, and any CEMS repairs or adjustments.

(iv) The owner/operator shall submit the results of any relative accuracy test audits performed during the two preceding calendar quarters.

(v) When no excess emissions have occurred or the CEMS has not been inoperative, repaired, or adjusted during the reporting period, the owner/operator shall state such information in the semiannual report.

(vi) The owner/operator shall submit results of any PM_{10} stack tests conducted for demonstrating compliance with the PM_{10} limit specified in paragraph (j)(4) of this section.

(14) *Equipment operations.* (i) At all times, including periods of startup, shutdown, and malfunction, the owner/operator shall, to the extent practicable, maintain and operate the unit, including associated air pollution control equipment, in a manner consistent with good air pollution control practices for minimizing emissions. Pollution control equipment shall be designed and capable of operating properly to minimize emissions during all expected operating conditions. Determination of whether acceptable operating and maintenance procedures are being used will be based on information available to the Regional Administrator, which may include, but is not limited to, monitoring results, review of operating and maintenance procedures, and inspection of the unit.

(ii) After completion of installation of ammonia injection on a unit, the owner/operator shall inject sufficient ammonia to achieve compliance with the NO_X emission limit contained in paragraph (j)(3) of this section for that unit while preventing excessive ammonia emissions.

(15) *Enforcement.* Notwithstanding any other provision in this implementation plan, any credible evidence or information relevant as to whether the unit would have been in compliance with applicable requirements if the appropriate performance or compliance test had been performed can be used to establish whether or not the owner/operator has violated or is in violation of any standard or applicable emission limit in the plan.

(k) *Source-specific federal implementation plan for regional haze at Clarkdale Cement Plant and Rillito Cement Plant*—(1) *Applicability*. This paragraph (k) applies to each owner/operator of the following cement kilns in the state of Arizona: Kiln 4 located at the cement plant in Clarkdale, Arizona, and kiln 4 located at the cement plant in Rillito, Arizona.

(2) *Definitions*. Terms not defined in this paragraph (k)(2) shall have the meaning given them in the Clean Air Act or EPA's regulations implementing the Clean Air Act. For purposes of this paragraph (k):

Ammonia injection shall include any of the following: Anhydrous ammonia, aqueous ammonia or urea injection.

Continuous emission monitoring system or CEMS means the equipment required by this section to sample, analyze, measure, and provide, by means of readings recorded at least once every 15 minutes (using an automated data acquisition and handling system), a permanent record of NO_X emissions, diluent, or stack gas volumetric flow rate.

Kiln operating day means a 24-hour period between 12 midnight and the following midnight during which the kiln operates at any time.

Kiln operation means any period when any raw materials are fed into the kiln or any period when any combustion is occurring or fuel is being fired in the kiln.

NO_X means nitrogen oxides.

Owner/operator means any person who owns or who operates, controls, or supervises a cement kiln identified in paragraph (k)(1) of this section.

Unit means a cement kiln identified in paragraph (k)(1) of this section.

(3) *Emissions limitations*. (i) The owner/operator of kiln 4 of the Clarkdale Plant, as identified in paragraph (k)(1) of this section, shall not emit or cause to be emitted from kiln 4 NO_X in excess of 2.12 pounds of NO_X per ton of clinker produced, based on a rolling 30-kiln operating day basis.

(ii) The owner/operator of kiln 4 of the Rillito Plant, as identified in paragraph (k)(1) of this section, shall not emit or cause to be emitted from kiln 4 NO_X in excess of 3.46 pounds of NO_X per ton of clinker produced, based on a rolling 30-kiln operating day basis.

(4) *Alternative emissions limitation*. In lieu of the emission limitation listed in paragraph (k)(3)(i) of this section, the owner/operator of kiln 4 of the Clarkdale Plant may choose to comply with the following limitation by providing notification per paragraph (k)(13)(iv) of this section. The owner/operator of kiln 4 of the Clarkdale Plant, as identified in paragraph (k)(1) of this section, shall not emit or cause to be emitted from kiln 4 NO_X in excess of 810 tons per year, based on a rolling 12-month basis.

(5) *Compliance date*. (i) The owner/operator of each unit identified in paragraph (k)(1) of this section shall comply with the NO_X emissions limitations and other NO_X-related requirements of this paragraph (k)(3) of this section no later than December 31, 2018.

(ii) If the owner/operator of the Clarkdale Plant chooses to comply with the emission limit of paragraph (k)(4) of this section in lieu of paragraph (k)(3)(i) of this section, the owner/operator shall comply with the NO_X emissions limitations and other NO_X-related requirements of paragraph (k)(4) of this section no later than December 31, 2018.

(6) [Reserved]

(7) *Compliance determination*—

(i) *Continuous emission monitoring system*. (A) At all times after the compliance date specified in paragraph (k)(5) of this section, the owner/operator of the unit at the Clarkdale Plant shall maintain, calibrate, and operate a CEMS, in full compliance with the requirements found at 40 CFR 60.63(f) and (g), to accurately measure concentration by volume of NO_X, diluent, and stack gas volumetric flow rate from the in-line/raw mill stack, as well as the stack gas volumetric flow rate from the coal mill stack. The CEMS shall be used by the owner/operator to determine compliance with the emission limitation in paragraph (k)(3) of this section, in combination with data on actual clinker production. The owner/operator must operate the monitoring system and collect data at all

required intervals at all times the affected unit is operating, except for periods of monitoring system malfunctions, repairs associated with monitoring system malfunctions, and required monitoring system quality assurance or quality control activities (including, as applicable, calibration checks and required zero and span adjustments).

(B) At all times after the compliance date specified in paragraph (k)(5) of this section, the owner/operator of the unit at the Rillito Plant shall maintain, calibrate, and operate a CEMS, in full compliance with the requirements found at 40 CFR 60.63(f) and (g), to accurately measure concentration by volume of NO_X, diluent, and stack gas volumetric flow rate from the unit. The CEMS shall be used by the owner/operator to determine compliance with the emission limitation in paragraph (k)(3) of this section, in combination with data on actual clinker production. The owner/operator must operate the monitoring system and collect data at all required intervals at all times the affected unit is operating, except for periods of monitoring system malfunctions, repairs associated with monitoring system malfunctions, and required monitoring system quality assurance or quality control activities (including, as applicable, calibration checks and required zero and span adjustments).

(ii) *Methods.* (A) The owner/operator of each unit shall record the daily clinker production rates.

(B)(*1*) The owner/operator of each unit shall calculate and record the 30-kiln operating day average emission rate of NO_X, in pounds per ton (lb/ton) of clinker produced, as the total of all hourly emissions data for the cement kiln in the preceding 30-kiln operating days, divided by the total tons of clinker produced in that kiln during the same 30-day operating period, using the following equation:

$$E_D = k\left(\frac{1}{n}\right)\frac{\sum_{i=1}^{n}(C_i Q_i)}{\sum_{i=1}^{n} P_i}$$

Where:

E[D] = 30 kiln operating day average emission rate of NO_X, lb/ton of clinker;

C[i] = Concentration of NO_X for hour i as recorded by the CEMS required by paragraph (k)(7)(i) of this section, ppm;

Q[i] = volumetric flow rate of effluent gas for hour i as recorded by the CEMS required by paragraph (k)(7)(i) of this section, where C[i] and Q[i] are on the same basis (either wet or dry), scf/hr;

P[i] = total kiln clinker produced during production hour i, ton/hr;

k = conversion factor, 1.194×10^{-7} for NO_X; and

n = number of kiln operating hours over 30 kiln operating days, n = 1 up to 720.

(*2*) For each kiln operating hour for which the owner/operator does not have at least one valid 15-minute CEMS data value, the owner/operator must use the average emissions rate in pounds per ton (lb/hr) from the most recent previous hour for which valid data are available. Hourly clinker production shall be determined by the owner/operator in accordance with the requirements found at 40 CFR 60.63(b).

(C) At the end of each kiln operating day, the owner/operator shall calculate and record a new 30-day rolling average emission rate in lb/ton clinker from the arithmetic average of all valid hourly emission rates for the current kiln operating day and the previous 29 successive kiln operating days.

(D) Upon and after the completion of installation of ammonia injection on a unit, the owner/operator shall install, and thereafter maintain and operate, instrumentation to continuously monitor and record levels of ammonia injection for that unit.

(8) *Alternative compliance determination.* If the owner/operator of the Clarkdale Plant chooses to comply with the emission limits of paragraph (k)(4) of this section, this paragraph may be used in lieu of paragraph (k)(7)

of this section to demonstrate compliance with the emission limits in paragraph (k)(4) of this section.

(i) *Continuous emission monitoring system.* At all times after the compliance date specified in paragraph (k)(5) of this section, the owner/operator of the unit at the Clarkdale Plant shall maintain, calibrate, and operate a CEMS, in full compliance with the requirements found at 40 CFR 60.63(f) and (g), to accurately measure concentration by volume of NO_X, diluent, and stack gas volumetric flow rate from the in-line/raw mill stack, as well as the stack gas volumetric flow rate from the coal mill stack. The CEMS shall be used by the owner/operator to determine compliance with the emission limitation in paragraph (k)(4) of this section. The owner/operator must operate the monitoring system and collect data at all required intervals at all times the affected unit is operating, except for periods of monitoring system malfunctions, repairs associated with monitoring system malfunctions, and required monitoring system quality assurance or quality control activities (including, as applicable, calibration checks and required zero and span adjustments).

(ii) *Method.* Compliance with the ton per year NO_X emission limit described in paragraph (k)(4) of this section shall be determined based on a rolling 12-month basis. The rolling 12-month NO_X emission rate for the kiln shall be calculated within 30 days following the end of each calendar month in accordance with the following procedure: Step one, sum the hourly pounds of NO_X emitted for the month just completed and the eleven (11) months preceding the month just completed, to calculate the total pounds of NO_X emitted over the most recent twelve (12) month period for that kiln; Step two, divide the total pounds of NO_X calculated from Step one by two thousand (2,000) to calculate the total tons of NO_X. Each rolling 12-month NO_X emission rate shall include all emissions that occur during all periods within the 12-month period, including emissions from startup, shutdown and malfunction.

(iii) Upon and after the completion of installation of ammonia injection on the unit, the owner/operator shall install, and thereafter maintain and operate, instrumentation to continuously monitor and record levels of ammonia injection for that unit.

(9) *Recordkeeping.* The owner/operator of each unit shall maintain the following records for at least five years:

(i) All CEMS data, including the date, place, and time of sampling or measurement; emissions and parameters sampled or measured; and results.

(ii) All records of clinker production.

(iii) Daily 30-day rolling emission rates of NO_X, calculated in accordance with paragraph (k)(7)(ii) of this section.

(iv) Records of quality assurance and quality control activities for emissions measuring systems including, but not limited to, any records specified by 40 CFR part 60, Appendix F, Procedure 1.

(v) Records of ammonia injection, as recorded by the instrumentation required in paragraph (k)(7)(ii)(D) of this section.

(vi) Records of all major maintenance activities conducted on emission units, air pollution control equipment, CEMS and clinker production measurement devices.

(vii) Any other records specified by 40 CFR part 60, subpart F, or 40 CFR part 60, Appendix F, Procedure 1.

(10) *Alternative recordkeeping requirements.* If the owner/operator of the Clarkdale Plant chooses to comply with the emission limits of paragraph (k)(4) of this section, the owner/operator shall maintain the records listed in this paragraph in lieu of the records contained in paragraph (k)(9) of this section. The owner or operator shall maintain the following records for at least five years:

(i) All CEMS data, including the date, place, and time of sampling or measurement; emissions and parameters sampled or measured; and results.

(ii) Monthly rolling 12-month emission rates of NO_X, calculated in accordance with paragraph (k)(8)(ii) of this section.

(iii) Records of quality assurance and quality control activities for emissions measuring systems including, but not limited to, any records specified by 40 CFR part 60, Appendix F, Procedure 1.

(iv) Records of ammonia injection, as recorded by the instrumentation required in paragraph (k)(8)(iii) of this section.

(v) Records of all major maintenance activities conducted on emission units, air pollution control equipment, and CEMS measurement devices.

(vi) Any other records specified by 40 CFR part 60, subpart F, or 40 CFR part 60, Appendix F, Procedure 1.

(11) *Reporting.* All reports and notifications required under this paragraph (k) shall be submitted by the owner/operator to U.S. Environmental Protection Agency, Region 9, Enforcement Division via electronic mail to *aeo__r9@epa.gov* and to Air Division via electronic mail to *R9AirPermits@epa.gov*. Reports required under this paragraph (k)(11)(iii) through (k)(11)(vii) of this section shall be submitted within 30 days after the applicable compliance date in paragraph (k)(5) of this section and at least semiannually thereafter, within 30 days after the end of a semiannual period. The owner/operator may submit reports more frequently than semiannually for the purposes of synchronizing reports required under this section with other reporting requirements, such as the title V monitoring report required by 40 CFR 70.6(a)(3)(iii)(A), but at no point shall the duration of a semiannual period exceed six months.

(i) Prior to commencing construction of the ammonia injection system, the owner/operator shall submit to the EPA a report describing the design of the SNCR system. This report shall include: reagent type, description of the locations selected for reagent injection, reagent injection rate (expressed as a molar ratio of reagent to exhaust gas), equipment list, equipment arrangement, and a summary of kiln characteristics that were relied upon as the design basis for the SNCR system.

(ii) Within 30 days following the NO_X compliance date in paragraph (k)(5)(i) of this section, the owner/operator shall submit to the EPA a report of any process improvement or debugging activities that were performed on the SNCR system. This report shall include: a description of each process adjustment performed on the SNCR system or the kiln, a discussion of whether the adjustment affected NO_X emission rates, a description of the range (if applicable) over which the adjustment was examined, and a discussion of how the adjustment will be reflected or accounted for in kiln operating practices. If CEMS data or kiln operating data were recorded during process improvement or debugging activities, the owner/operator shall submit the recorded CEMS and kiln operating data with the report. The data shall be submitted in an electronic format consistent with and able to be manipulated by a spreadsheet program such as Microsoft Excel.

(iii) The owner/operator shall submit a report that lists the daily 30-day rolling emission rates for NO_X.

(iv) The owner/operator shall submit excess emissions reports for NO_X limits. Excess emissions means emissions that exceed the emissions limits specified in paragraph (k)(3) of this section. The reports shall include the magnitude, date(s), and duration of each period of excess emissions, specific identification of each period of excess emissions that occurs during startups, shutdowns, and malfunctions of the unit, the nature and cause of any malfunction (if known), and the corrective action taken or preventative measures adopted.

(v) The owner/operator shall submit CEMS performance reports, to include dates and duration of each period during which the CEMS was inoperative (except for zero and span adjustments and calibration checks), reason(s) why the CEMS was inoperative and steps taken to prevent recurrence, and any CEMS repairs or adjustments.

(vi) The owner/operator shall also submit results of any CEMS performance tests specified by 40 CFR part 60, Appendix F, Procedure 1 (Relative Accuracy Test Audits, Relative Accuracy Audits, and Cylinder Gas Audits).

(vii) When no excess emissions have occurred or the CEMS has not been inoperative, repaired, or adjusted during the reporting period, the owner/operator shall state such information in the reports required by paragraph (k)(9)(ii) of this section.

(12) *Alternative reporting requirements.* If the owner/operator of the Clarkdale Plant chooses to comply with the emission limits of paragraph (k)(4) of this section, the owner/operator shall submit the reports listed in this paragraph in lieu of the reports contained in paragraph (k)(11) of this section. All reports required under this paragraph (k)(12) shall be submitted within 30 days after the applicable compliance date in paragraph (k)(5) of this section and at least semiannually thereafter, within 30 days after the end of a semiannual period. The owner/operator may submit reports more frequently than semiannually for the purposes of synchronizing reports required under this section with other reporting requirements, such as the title V monitoring report required by 40 CFR 70.6(a)(3)(iii)(A), but at no point shall the duration of a semiannual period exceed six months.

(i) The owner/operator shall submit a report that lists the monthly rolling 12-month emission rates for NO_X.

(ii) The owner/operator shall submit excess emissions reports for NO_X limits. Excess emissions means emissions that exceed the emissions limits specified in paragraph (k)(3) of this section. The reports shall include the magnitude, date(s), and duration of each period of excess emissions, specific identification of each period of excess emissions that occurs during startups, shutdowns, and malfunctions of the unit, the nature and cause of any malfunction (if known), and the corrective action taken or preventative measures adopted.

(iii) The owner/operator shall submit CEMS performance reports, to include dates and duration of each period during which the CEMS was inoperative (except for zero and span adjustments and calibration checks), reason(s) why the CEMS was inoperative and steps taken to prevent recurrence, and any CEMS repairs or adjustments.

(iv) The owner/operator shall also submit results of any CEMS performance tests specified by 40 CFR part 60, Appendix F, Procedure 1 (Relative Accuracy Test Audits, Relative Accuracy Audits, and Cylinder Gas Audits).

(v) When no excess emissions have occurred or the CEMS has not been inoperative, repaired, or adjusted during the reporting period, the owner/operator shall state such information in the reports required by paragraph (k)(9)(ii) of this section.

(13) *Notifications.* (i) The owner/operator shall submit notification of commencement of construction of any equipment which is being constructed to comply with the NO_X emission limits in paragraph (k)(3) of this section.

(ii) The owner/operator shall submit semiannual progress reports on construction of any such equipment.

(iii) The owner/operator shall submit notification of initial startup of any such equipment.

(iv) By June 30, 2018, the owner/operator of the Clarkdale Plant shall notify EPA Region 9 by letter whether it will comply with the emission limits in paragraph (k)(3)(i) of this section or whether it will comply with the emission limits in paragraph (k)(4) of this section. In the event that the owner/operator does not submit timely and proper notification by June 30, 2018, the owner/operator of the Clarkdale Plant may not choose to comply with the alternative emission limits in paragraph (k)(4) of this section and shall comply with the emission limits in paragraph (k)(3)(i) of this section.

(14) *Equipment operation.* (i) At all times, including periods of startup, shutdown, and malfunction, the owner or operator shall, to the extent practicable, maintain and operate the unit including associated air pollution control equipment in a manner consistent with good air pollution control practices for minimizing emissions. Pollution control equipment shall be designed and capable of operating properly to minimize emissions during all expected operating conditions. Determination of whether acceptable operating and maintenance procedures are being used will be based on information available to the Regional Administrator which may include, but is not limited to, monitoring results, review of operating and maintenance procedures, and inspection of the unit.

(ii) After completion of installation of ammonia injection on a unit, the owner or operator shall inject sufficient ammonia to achieve compliance with NO_X emission limits set forth in

paragraph (k)(3) of this section for that unit while preventing excessive ammonia emissions.

(15) *Enforcement.* Notwithstanding any other provision in this implementation plan, any credible evidence or information relevant as to whether the unit would have been in compliance with applicable requirements if the appropriate performance or compliance test had been performed, can be used to establish whether or not the owner or operator has violated or is in violation of any standard or applicable emission limit in the plan.

(l) *Source-specific federal implementation plan for regional haze at Hayden Copper Smelter*—(1) *Applicability.* This paragraph (l) applies to each owner/operator of batch copper converters #1, 3, 4 and 5 and anode furnaces #1 and #2 at the copper smelting plant located in Hayden, Gila County, Arizona.

(2) *Definitions.* Terms not defined in this paragraph (l)(2) shall have the meaning given them in the Clean Air Act or EPA's regulations implementing the Clean Air Act. For purposes of this paragraph (l):

Anode furnace means a furnace in which molten blister copper is refined through introduction of a reducing agent such as natural gas.

Batch copper converter means a Peirce-Smith converter in which copper matte is oxidized to form blister copper by a process that is performed in discrete batches using a sequence of charging, blowing, skimming, and pouring.

Blister copper means an impure form of copper, typically between 96 and 98 percent pure copper that is the output of the converters.

Calendar day means a 24 hour period that begins and ends at midnight, local standard time.

Capture system means the collection of components used to capture gases and fumes released from one or more emission points, and to convey the captured gases and fumes to one or more control devices. A capture system may include, but is not limited to, the following components as applicable to a given capture system design: Duct intake devices, hoods, enclosures, ductwork, dampers, manifolds, plenums, and fans.

Continuous emission monitoring system or CEMS means the equipment required by this section to sample, analyze, measure, and provide, by means of readings recorded at least once every 15 minutes (using an automated data acquisition and handling system (DAHS)), a permanent record of SO_2 emissions, other pollutant emissions, diluent, or stack gas volumetric flow rate.

Copper matte means a material predominately composed of copper and iron sulfides produced by smelting copper ore concentrates.

NO_X means nitrogen oxides.

Owner/operator means any person who owns or who operates, controls, or supervises the equipment identified in paragraph (l)(1) of this section.

Regional Administrator means the Regional Administrator of EPA Region 9 or his or her designated representative.

SO_2 means sulfur dioxide.

(3) *Emission capture.* (i) The owner/operator must operate a capture system that has been designed to maximize collection of process off gases vented from each converter identified in paragraph (l)(1) of this section. The capture system must include primary and secondary capture systems as described in 40 CFR 63.1444(d)(2).

(ii) The operation of the batch copper converters, primary capture system, and secondary capture system shall be optimized to capture the maximum amount of process off gases vented from each converter at all times.

(iii) The owner/operator shall prepare a written operation and maintenance plan according to the requirements in paragraph (l)(3)(iv) of this section and submit this plan to the Regional Administrator 180 days prior to the compliance date in paragraph (l)(5)(ii) of this section. The Regional Administrator shall approve or disapprove the plan within 180 days of submittal. At all times when one or more converters are blowing, the owner/operator must operate the capture system consistent with this plan.

(iv) The written operations and maintenance plan must address the following requirements as applicable to the capture system or control device.

(A) *Preventative maintenance.* The owner/operator must perform preventative maintenance for each capture system and control device according to written procedures specified in owner/operator's operation and maintenance plan. The procedures must include a preventative maintenance schedule that is consistent with the manufacturer's or engineer's instructions for routine and long-term maintenance.

(B) *Capture system inspections.* The owner/operator must perform capture system inspections for each capture system in accordance with the requirements of 40 CFR 63.1447(b)(2).

(C) *Copper converter department capture system operating limits.* The owner/operator must establish, according to the requirements 40 CFR 63.1447(b)(3)(i) through (iii), operating limits for the capture system that are representative and reliable indicators of the optimized performance of the capture system, consistent with paragraph (l)(3)(ii) of this section, when it is used to collect the process off-gas vented from batch copper converters during blowing.

(4) *Emission limitations and work practice standards.* (i) SO_2 emissions collected by any primary capture system required by paragraph (l)(3) of this section must be controlled by one or more control devices and reduced by at least 99.8 percent, based on a 365-day rolling average.

(ii) SO_2 emissions collected by any secondary capture system required by paragraph (l)(3) of this section must be controlled by one or more control devices and reduced by at least 98.5 percent, based on a 365-day rolling average.

(iii) The owner/operator must not cause or allow to be discharged to the atmosphere from any primary capture system required by paragraph (l)(3) of this section off-gas that contains nonsulfuric acid particulate matter in excess of 6.2 mg/dscm as measured using the test methods specified in 40 CFR 63.1450(b).

(iv) The owner/operator must not cause or allow to be discharged to the atmosphere from any secondary capture system required by paragraph (l)(3) of this section off-gas that contains particulate matter in excess of 23 mg/dscm as measured using the test methods specified in 40 CFR 63.1450(a).

(v) Total NO_X emissions from anode furnaces #1 and #2 and the batch copper converters shall not exceed 40 tons per 12-continuous month period.

(vi) Anode furnaces #1 and #2 shall only be charged with blister copper or higher purity copper. This charging limitation does not extend to the use or addition of poling or fluxing agents necessary to achieve final casting chemistry.

(5) *Compliance dates.* (i) The owner/operator of each batch copper converter identified in paragraph (l)(1) of this section shall comply with the emissions limitations in paragraphs (l)(4)(ii) and (l)(4)(iv) of this section and other requirements of this section related to the secondary capture system no later than September 3, 2018.

(ii) The owner/operator of each batch copper converter identified in paragraph (l)(1) of this section shall comply with the emissions limitations in paragraphs (l)(4)(i), (l)(4)(iii), (l)(4)(v), and (l)(4)(vi) of this section and other requirements of this section, except those requirements related to the secondary capture system, no later than September 4, 2017.

(6) *Compliance determination*—(i) *Continuous emission monitoring system.* At all times after the compliance date specified in paragraph (l)(5) of this section, the owner/operator of each batch copper converter identified in paragraph (l)(1) of this section shall maintain, calibrate, and operate a CEMS, in full compliance with the requirements found at 40 CFR 60.13 and 40 CFR part 60, appendices B and F, to accurately measure the mass emission rate in pounds per hour of SO_2 emissions entering each control device used to control emissions from the converters, and venting from the converters to the atmosphere after passing through a control device or an uncontrolled bypass stack. The CEMS shall be used by the owner/operator to determine compliance with the emission limitation in paragraph (l)(4) of this section. The owner/operator must operate the monitoring system and collect data at all required intervals at all times that an affected unit is operating, except for

periods of monitoring system malfunctions, repairs associated with monitoring system malfunctions, and required monitoring system quality assurance or quality control activities (including, as applicable, calibration checks and required zero and span adjustments).

(ii) *Compliance determination for SO_2 limit for the converters.* The 365-day rolling SO_2 emission control efficiency for the converters shall be calculated separately for the primary capture system and the secondary capture system for each calendar day in accordance with the following procedure: Step one, sum the hourly pounds of SO_2 vented to each uncontrolled bypass stack and to each control device used to control emissions from the converters for the current calendar day and the preceding three-hundred-sixty-four (364) calendar days, to calculate the total pounds of pre-control SO_2 emissions over the most recent three-hundred-sixty-five (365) calendar day period; Step two, sum the hourly pounds of SO_2 vented to each uncontrolled bypass stack and emitted from the release point of each control device used to control emissions from the converters for the current calendar day and the preceding three-hundred-sixty-four (364) calendar days, to calculate the total pounds of post-control SO_2 emissions over the most recent three-hundred-sixty-five (365) calendar day period; Step three, divide the total amount of post-control SO_2 emissions calculated from Step two by the total amount of pre-control SO_2 emissions calculated from Step one, subtract the resulting ratio from one, and multiply the difference by 100 percent to calculate the 365-day rolling SO_2 emission control efficiency as a percentage.

(iii) *Compliance determination for non-sulfuric acid particulate matter.* Compliance with the emission limit for non-sulfuric acid particulate matter in paragraph (l)(4)(iii) of this section shall be demonstrated by the procedures in 40 CFR 63.1451(b) and 63.1453(a)(2). The owner/operator shall conduct an initial compliance test within 180 days after the compliance date specified in paragraph (l)(5) of this section unless a test performed according to the procedures in 40 CFR 63.1450 in the past year shows compliance with the limit.

(iv) *Compliance determination for particulate matter.* Compliance with the emission limit for particulate matter in paragraph (l)(4)(iv) of this section shall be demonstrated by the procedures in 40 CFR 63.1451(a) and 63.1453(a)(1). The owner/operator shall conduct an initial compliance test within 180 days after the compliance date specified in paragraph (l)(5) of this section unless a test performed according to the procedures in 40 CFR 63.1450 in the past year shows compliance with the limit.

(v) *Compliance determination for NO_X.* Compliance with the emission limit for NO_X in paragraph (l)(4)(v) of this section shall be demonstrated by monitoring natural gas consumption in each of the units identified in paragraph (l)(1) of this section for each calendar day. At the end of each calendar month, the owner/operator shall calculate 12-consecutive month NO_X emissions by multiplying the daily natural gas consumption rates for each unit by an approved emission factor and adding the sums for all units over the previous 12-consecutive month period.

(7) *Alternatives to requirements to install CEMS.* The requirement in paragraph (l)(6)(i) of this section to install CEMS to measure the mass of SO_2 entering a control device or venting to the atmosphere through uncontrolled bypass stacks will be waived if the owner/operator complies with one of the options in this paragraph (l)(7).

(i) *Acid plants.* The owner/operator may calculate the pounds of SO_2 entering an acid plant during a calendar day by adding the pounds of SO_2 emitted through the acid plant tail stack and 0.653 times the daily production of anhydrous sulfuric acid from the acid plant.

(ii) *Uncontrolled bypass stack.* The owner/operator may calculate the pounds of SO_2 venting to the atmosphere through an uncontrolled bypass stack based on test data provided the facility operates according to a start-up, shutdown, and malfunction plan consistent with 40 CFR 63.6(e)(3) and the Regional Administrator has approved a calculation methodology for planned and unplanned bypass events.

(8) *Capture system monitoring.* For each operating limit established under the capture system operation and maintenance plan required by paragraph (l)(4) of this section, the owner/operator must install, operate, and maintain an appropriate monitoring device according to the requirements in 40 CFR 63.1452(a)(1) through (6) to measure and record the operating limit value or setting at all times the required capture system is operating. Dampers that are manually set and remain in the same position at all times the capture system is operating are exempted from these monitoring requirements.

(9) *Recordkeeping.* The owner/operator shall maintain the following records for at least five years:

(i) All CEMS data, including the date, place, and time of sampling or measurement; parameters sampled or measured; and results.

(ii) Records of quality assurance and quality control activities for emissions measuring systems including, but not limited to, any records required by 40 CFR part 60, appendix F, Procedure 1.

(iii) Records of all major maintenance activities conducted on emission units, air pollution control equipment, and CEMS.

(iv) Any other records required by 40 CFR part 60, subpart F, or 40 CFR part 60, appendix F, Procedure 1.

(v) Records of all monitoring required by paragraph (l)(8) of this section.

(vi) Records of daily sulfuric acid production in tons per day of pure, anhydrous sulfuric acid if the owner/operator chooses to use the alternative compliance determination method in paragraph (l)(7)(i) of this section.

(vii) Records of planned and unplanned bypass events and calculations used to determine emissions from bypass events if the owner/operator chooses to use the alternative compliance determination method in paragraph (l)(7)(ii) of this section.

(viii) Records of daily natural gas consumption in each units identified in paragraph (l)(1) of this section and all calculations performed to demonstrate compliance with the limit in paragraph (l)(4)(vi) of this section.

(10) *Reporting.* All reports required under this section shall be submitted by the owner/operator to the Director, Enforcement Division (Mail Code ENF–2–1), U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, California 94105–3901. All reports required under this section shall be submitted within 30 days after the applicable compliance date in paragraph (l)(5) of this section and at least semiannually thereafter, within 30 days after the end of a semiannual period. The owner/operator may submit reports more frequently than semiannually for the purposes of synchronizing reports required under this section with other reporting requirements, such as the title V monitoring report required by 40 CFR 70.6(a)(3)(iii)(A), but at no point shall the duration of a semiannual period exceed six months.

(i) The owner/operator shall promptly submit excess emissions reports for the SO_2 limit. Excess emissions means emissions that exceed the emissions limit specified in paragraph (d) of this section. The reports shall include the magnitude, date(s), and duration of each period of excess emissions, specific identification of each period of excess emissions that occurs during startups, shutdowns, and malfunctions of the unit, the nature and cause of any malfunction (if known), and the corrective action taken or preventative measures adopted. For the purpose of this paragraph (l)(10)(i), promptly shall mean within 30 days after the end of the month in which the excess emissions were discovered.

(ii) The owner/operator shall submit CEMS performance reports, to include dates and duration of each period during which the CEMS was inoperative (except for zero and span adjustments and calibration checks), reason(s) why the CEMS was inoperative and steps taken to prevent recurrence, and any CEMS repairs or adjustments. The owner/operator shall submit reports semiannually.

(iii) The owner/operator shall also submit results of any CEMS performance tests required by 40 CFR part 60, appendix F, Procedure 1 (Relative Accuracy Test Audits, Relative Accuracy Audits, and Cylinder Gas Audits).

(iv) When no excess emissions have occurred or the CEMS has not been inoperative, repaired, or adjusted during the reporting period, the owner/operator shall state such information in the semiannual report.

(v) When performance testing is required to determine compliance with an emission limit in paragraph (l)(4) of this section, the owner/operator shall submit test reports as specified in 40 CFR part 63, subpart A.

(11) *Notifications.* (i) The owner/operator shall notify EPA of commencement of construction of any equipment which is being constructed to comply with the capture or emission limits in paragraph (l)(3) or (4) of this section.

(ii) The owner/operator shall submit semiannual progress reports on construction of any such equipment.

(iii) The owner/operator shall submit notification of initial startup of any such equipment.

(12) *Equipment operations.* At all times, including periods of startup, shutdown, and malfunction, the owner or operator shall, to the extent practicable, maintain and operate the unit including associated air pollution control equipment in a manner consistent with good air pollution control practices for minimizing emissions. Pollution control equipment shall be designed and capable of operating properly to minimize emissions during all expected operating conditions. Determination of whether acceptable operating and maintenance procedures are being used will be based on information available to the Regional Administrator which may include, but is not limited to, monitoring results, review of operating and maintenance procedures, and inspection of the unit.

(13) *Enforcement.* Notwithstanding any other provision in this implementation plan, any credible evidence or information relevant as to whether the unit would have been in compliance with applicable requirements if the appropriate performance or compliance test had been performed, can be used to establish whether or not the owner or operator has violated or is in violation of any standard or applicable emission limit in the plan.

(m) *Source-specific federal implementation plan for regional haze at Miami Copper Smelter*—(1) *Applicability.* This paragraph (m) applies to each owner/operator of batch copper converters 2, 3, 4 and 5 and the electric furnace at the copper smelting plant located in Miami, Gila County, Arizona.

(2) *Definitions.* Terms not defined in this paragraph (m)(2) shall have the meaning given them in the Clean Air Act or EPA's regulations implementing the Clean Air Act. For purposes of this paragraph (m):

Batch copper converter means a Hoboken converter in which copper matte is oxidized to form blister copper by a process that is performed in discrete batches using a sequence of charging, blowing, skimming, and pouring.

Calendar day means a 24 hour period that begins and ends at midnight, local standard time.

Capture system means the collection of components used to capture gases and fumes released from one or more emission points, and to convey the captured gases and fumes to one or more control devices. A capture system may include, but is not limited to, the following components as applicable to a given capture system design: duct intake devices, hoods, enclosures, ductwork, dampers, manifolds, plenums, and fans.

Continuous emission monitoring system or CEMS means the equipment required by this section to sample, analyze, measure, and provide, by means of readings recorded at least once every 15 minutes (using an automated data acquisition and handling system (DAHS)), a permanent record of SO_2 emissions, other pollutant emissions, diluent, or stack gas volumetric flow rate.

Copper matte means a material predominately composed of copper and iron sulfides produced by smelting copper ore concentrates.

Electric furnace means a furnace in which copper matte and slag are heated by electrical resistance without the mechanical introduction of air or oxygen.

NO_X means nitrogen oxides.

Owner/operator means any person who owns or who operates, controls, or supervises the equipment identified in paragraph (m)(1) of this section.

Slag means the waste material consisting primarily of iron sulfides separated from copper matte during the smelting and refining of copper ore concentrates.

SO_2 means sulfur dioxide.

(3) *Emission capture.* (i) The owner/operator of the batch copper converters identified in paragraph (m)(1) of this section must operate a capture system that has been designed to maximize collection of process off gases vented from each converter. The capture system must include a primary capture system as described in 40 CFR 63.1444(d)(3) and a secondary capture system designed to maximize the collection of emissions not collected by the primary capture system.

(ii) The operation of the batch copper converters, primary capture system, and secondary capture system shall be optimized to capture the maximum amount of process off gases vented from each converter at all times.

(iii) The owner/operator shall prepare a written operation and maintenance plan according to the requirements in paragraph (m)(3)(iv) of this section and submit this plan to the Regional Administrator 180 days prior to the compliance date in paragraph (m)(5) of this section. The Regional Administrator shall approve or disapprove the plan within 180 days of submittal. At all times when one or more converters are blowing, the owner/operator must operate the capture system consistent with this plan.

(iv) The written operations and maintenance plan must address the following requirements as applicable to the capture system or control device.

(A) *Preventative maintenance.* The owner/operator must perform preventative maintenance for each capture system and control device according to written procedures specified in owner/operator's operation and maintenance plan. The procedures must include a preventative maintenance schedule that is consistent with the manufacturer's or engineer's instructions for routine and long-term maintenance.

(B) *Capture system inspections.* The owner/operator must perform capture system inspections for each capture system in accordance with the requirements of 40 CFR 63.1447(b)(2).

(C) *Copper converter department capture system operating limits.* The owner/operator must establish, according to the requirements 40 CFR 63.1447(b)(3)(i) through (iii), operating limits for the capture system that are representative and reliable indicators of the performance of capture system when it is used to collect the process off-gas vented from batch copper converters during blowing.

(4) *Emission limitations and work practice standards.* (i) SO_2 emissions collected by the capture system required by paragraph (m)(3) of this section must be controlled by one or more control devices and reduced by at least 99.7 percent, based on a 365-day rolling average.

(ii) The owner/operator must not cause or allow to be discharged to the atmosphere from any primary capture system required by paragraph (m)(3) of this section off-gas that contains nonsulfuric acid particulate matter in excess of 6.2 mg/dscm as measured using the test methods specified in 40 CFR 63.1450(b).

(iii) Total NO_X emissions the electric furnace and the batch copper converters shall not exceed 40 tons per 12-continuous month period.

(iv) The owner/operator shall not actively aerate the electric furnace.

(5) *Compliance dates.* (i) The owner/operator of each batch copper converter identified in paragraph (m)(1) of this section shall comply with the emission capture requirement in paragraph (m)(3) of this section; the emission limitation in paragraph (m)(4)(i) of this section; the compliance determination requirements in paragraphs (m)(6)(i) and (ii) and (m)(7) of this section; the capture system monitoring requirements in paragraph (m)(8) of this section; the recordkeeping requirements in paragraphs (m)(9)(i) through (viii) of this section; and the reporting requirements in paragraphs (m)(10)(i) through (iv) of this section no later than January 1, 2018.

(ii) The owner/operator of each batch copper converter and the electric furnace identified in paragraph (m)(1) of this section shall comply with all requirements of this paragraph (m) except those listed in paragraph (m)(5)(i)

of this section no later than September 2, 2016.

(6) *Compliance determination*—(i) *Continuous emission monitoring system.* At all times after the compliance date specified in paragraph (m)(5) of this section, the owner/operator of each batch copper converter identified in paragraph (m)(1) of this section shall maintain, calibrate, and operate a CEMS, in full compliance with the requirements found at 40 CFR 60.13 and 40 CFR part 60, appendices B and F, to accurately measure the mass emission rate in pounds per hour of SO_2 emissions entering each control device used to control emissions from the converters, and venting from the converters to the atmosphere after passing through a control device or an uncontrolled bypass stack. The CEMS shall be used by the owner/operator to determine compliance with the emission limitation in paragraph (m)(4)(i) of this section. The owner/operator must operate the monitoring system and collect data at all required intervals at all times that an affected unit is operating, except for periods of monitoring system malfunctions, repairs associated with monitoring system malfunctions, and required monitoring system quality assurance or quality control activities (including, as applicable, calibration checks and required zero and span adjustments).

(ii) *Compliance determination for SO_2.* The 365-day rolling SO_2 emission control efficiency for the converters shall be calculated for each calendar day in accordance with the following procedure: Step one, sum the hourly pounds of SO_2 vented to each uncontrolled bypass stack and to each control device used to control emissions from the converters for the current calendar day and the preceding three-hundred-sixty-four (364) calendar days, to calculate the total pounds of pre-control SO_2 emissions over the most recent three-hundred-sixty-five (365) calendar day period; Step two, sum the hourly pounds of SO_2 vented to each uncontrolled bypass stack and emitted from the release point of each control device used to control emissions from the converters for the current calendar day and the preceding three-hundred-sixty-four (364) calendar days, to calculate the total pounds of post-control SO_2 emissions over the most recent three-hundred-sixty-five (365) calendar day period; Step three, divide the total amount of post-control SO_2 emissions calculated from Step two by the total amount of pre-control SO_2 emissions calculated from Step one, subtract the resulting ratio from one, and multiply the difference by 100 percent to calculate the 365-day rolling SO_2 emission control efficiency as a percentage.

(iii) *Compliance determination for non-sulfuric acid particulate matter.* Compliance with the emission limit for non-sulfuric acid particulate matter in paragraph (m)(4)(ii) of this section shall be demonstrated by the procedures in 40 CFR 63.1451(b) and 63.1453(a)(2). The owner/operator shall conduct an initial compliance test within 180 days after the compliance date specified in paragraph (m)(5) of this section unless a test performed according to the procedures in 40 CFR 63.1450 in the past year shows compliance with the limit.

(iv) *Compliance determination for NO_X.* Compliance with the emission limit for NO_X in paragraph (m)(4)(iii) of this section shall be demonstrated by monitoring natural gas consumption in each of the units identified in paragraph (m)(1) of this section for each calendar day. At the end of each calendar month, the owner/operator shall calculate monthly and 12-consecutive month NO_X emissions by multiplying the daily natural gas consumption rates for each unit by an approved emission factor and adding the sums for all units over the previous 12-consecutive month period.

(7) *Alternatives to requirements to install CEMS.* The requirement in paragraph (m)(6)(i) of this section to install CEMS to measure the mass of SO_2 entering a control device or venting to the atmosphere through uncontrolled bypass stacks will be waived if the owner/operator complies with one of the options in this paragraph (m)(7).

(i) *Acid plants.* The owner/operator may calculate the pounds of SO_2 entering an acid plant during a calendar day by adding the pounds of SO_2 emitted through the acid plant tail stack and

0.653 times the daily production of anhydrous sulfuric acid from the acid plant.

(ii) *Alkali scrubber.* The owner/operator may calculate the pounds of SO_2 entering an alkali scrubber during a calendar day by using the following equation:

$$M_{in,SO2} = M_{out,SO2} + SF*M_{alk}$$

Where:

$M_{in,SO2}$ is the calculated mass of SO_2 entering the scrubber during a calendar day;

$M_{out,SO2}$ is the mass of SO_2 emitted through the scrubber stack measured by the CEMS for the calendar day;

SF is a stoichiometric factor; and

M_{alk} is the mass of alkali added to the scrubber liquor during the calendar day.

SF shall equal:

1.14 if the alkali species is calcium oxide (CaO);

1.59 if the alkali species is magnesium oxide (MgO);

0.801 if the alkali species is sodium hydroxide (NaOH); or

Another value if the owner/operator has received approval from the Regional Administrator in advance.

(iii) *Uncontrolled bypass stack.* The owner/operator may calculate the pounds of SO_2 venting to the atmosphere through an uncontrolled bypass stack based on test data provided the facility operates according to a start-up, shutdown, and malfunction plan consistent with 40 CFR 63.6(e)(3) and EPA has approved a calculation methodology for planned and unplanned bypass events.

(8) *Capture system monitoring.* For each operating limit established under the capture system operation and maintenance plan required by paragraph (m)(3) of this section, the owner/operator must install, operate, and maintain an appropriate monitoring device according to the requirements in 40 CFR 63.1452(a)(1) though (6) to measure and record the operating limit value or setting at all times the required capture system is operating. Dampers that are manually set and remain in the same position at all times the capture system is operating are exempted from these monitoring requirements.

(9) *Recordkeeping.* The owner/operator shall maintain the following records for at least five years:

(i) All CEMS data, including the date, place, and time of sampling or measurement; parameters sampled or measured; and results.

(ii) Records of quality assurance and quality control activities for emissions measuring systems including, but not limited to, any records required by 40 CFR part 60, appendix F, Procedure 1.

(iii) Records of all major maintenance activities conducted on emission units, air pollution control equipment, and CEMS.

(iv) Any other records required by 40 CFR part 60, subpart F, or 40 CFR part 60, appendix F, Procedure 1.

(v) Records of all monitoring required by paragraph (m)(8) of this section.

(vi) Records of daily sulfuric acid production in tons per day of pure, anhydrous sulfuric acid if the owner/operator chooses to use the alternative compliance determination method in paragraph (m)(7)(i) of this section.

(vii) Records of daily alkali consumption in tons per day of pure, anhydrous alkali if the owner/operator chooses to use the alternative compliance determination method in paragraph (m)(7)(ii) of this section.

(viii) Records of planned and unplanned bypass events and calculations used to determine emissions from bypass events if the owner/operator chooses to use the alternative compliance determination method in paragraph (m)(7)(iii) of this section.

(ix) Records of daily natural gas consumption in each units identified in paragraph (m)(1) of this section and all calculations performed to demonstrate compliance with the limit in paragraph (m)(4)(iv) of this section.

(10) *Reporting.* All reports required under this section shall be submitted by the owner/operator to the Director, Enforcement Division (Mail Code ENF–2–1), U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, California 94105–3901. All reports required under this section shall be submitted within 30 days after the applicable compliance date in paragraph (m)(5) of this section and at least semiannually thereafter, within 30 days after the end of a semiannual period. The owner/operator may submit

reports more frequently than semiannually for the purposes of synchronizing reports required under this section with other reporting requirements, such as the title V monitoring report required by 40 CFR 70.6(a)(3)(iii)(A), but at no point shall the duration of a semiannual period exceed six months.

(i) The owner/operator shall promptly submit excess emissions reports for the SO_2 limit. Excess emissions means emissions that exceed the emissions limit specified in paragraph (d) of this section. The reports shall include the magnitude, date(s), and duration of each period of excess emissions, specific identification of each period of excess emissions that occurs during startups, shutdowns, and malfunctions of the unit, the nature and cause of any malfunction (if known), and the corrective action taken or preventative measures adopted. For the purpose of this paragraph (m)(10)(i), promptly shall mean within 30 days after the end of the month in which the excess emissions were discovered.

(ii) The owner/operator shall submit CEMS performance reports, to include dates and duration of each period during which the CEMS was inoperative (except for zero and span adjustments and calibration checks), reason(s) why the CEMS was inoperative and steps taken to prevent recurrence, and any CEMS repairs or adjustments. The owner/operator shall submit reports semiannually.

(iii) The owner/operator shall also submit results of any CEMS performance tests required by 40 CFR part 60, appendix F, Procedure 1 (Relative Accuracy Test Audits, Relative Accuracy Audits, and Cylinder Gas Audits).

(iv) When no excess emissions have occurred or the CEMS has not been inoperative, repaired, or adjusted during the reporting period, the owner/operator shall state such information in the semiannual report.

(v) When performance testing is required to determine compliance with an emission limit in paragraph (m)(4) of this section, the owner/operator shall submit test reports as specified in 40 CFR part 63, subpart A.

(11) *Notifications.*

(i) The owner/operator shall notify EPA of commencement of construction of any equipment which is being constructed to comply with the capture or emission limits in paragraph (m)(3) or (4) of this section.

(ii) The owner/operator shall submit semiannual progress reports on construction of any such equipment.

(iii) The owner/operator shall submit notification of initial startup of any such equipment.

(12) *Equipment operations.* At all times, including periods of startup, shutdown, and malfunction, the owner or operator shall, to the extent practicable, maintain and operate the unit including associated air pollution control equipment in a manner consistent with good air pollution control practices for minimizing emissions. Pollution control equipment shall be designed and capable of operating properly to minimize emissions during all expected operating conditions. Determination of whether acceptable operating and maintenance procedures are being used will be based on information available to the Regional Administrator which may include, but is not limited to, monitoring results, review of operating and maintenance procedures, and inspection of the unit.

(13) *Enforcement.* Notwithstanding any other provision in this implementation plan, any credible evidence or information relevant as to whether the unit would have been in compliance with applicable requirements if the appropriate performance or compliance test had been performed, can be used to establish whether or not the owner or operator has violated or is in violation of any standard or applicable emission limit in the plan.

(n) *Approval.* On November 12, 2015, the Arizona Department of Environmental Quality submitted the ''Arizona State Implementation Plan Revision: Regional Haze 5-Year Progress Report'' (''Progress Report''). The Progress Report meets the requirements of the Regional Haze Rule in 40 CFR 51.308.

[50 FR 28553, July 12, 1985]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.145, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

§ 52.146 Particulate matter (PM–10) Group II SIP commitments.

(a) On December 28, 1988, the Governor's designee for Arizona submitted a revision to the State Implementation Plan (SIP) for Casa Grande, Show Low, Safford, Flagstaff and Joseph City, that contains commitments, from the Director of the Arizona Department of Environmental Quality, for implementing all of the required activities including monitoring, reporting, emission inventory, and other tasks that may be necessary to satisfy the requirements of the PM–10 Group II SIPs.

(b) The Arizona Department of Environmental Quality has committed to comply with the PM–10 Group II State Implementation Plan (SIP) requirements for Casa Grande, Show Low, Safford, Flagstaff and Joseph City as provided in the PM–10 Group II SIPs for these areas.

(c) On December 28, 1988, the Governor's designee for Arizona submitted a revision to the State Implementation Plan (SIP) for Ajo, that contains commitments from the Director of the Arizona Department of Environmental Quality, for implementing all of the required activities including monitoring, reporting, emission inventory, and other tasks that may be necessary to satisfy the requirements of the PM–10 Group II SIPs.

(d) The Arizona Department of Environmental Quality has committed to comply with the PM–10 Group II State Implementation Plan (SIP) requirements.

[55 FR 17437, Mar. 27, 1990 and 55 FR 18108, May 1, 1990]

§ 52.147 Interstate transport.

(a) *Approval.* The SIP submitted on May 24, 2007 meets the requirements of Clean Air Act section 110(a)(2)(D)(i)(I) (contribute significantly to nonattainment or interfere with maintenance of the NAAQS in any other state) and section 110(a)(2)(D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only) for the 1997 8-hour ozone and 1997 $PM_{2.5}$ NAAQS.

(b) *Disapproval.* The SIPs submitted on May 24, 2007, February 28, 2011, and May 3, 2013 do not meet the requirements of Clean Air Act section 110(a)(2)(D)(i)(II) (interfere with measures in any other state to protect visibility, only) for the 1997 8-hour ozone and 1997 $PM_{2.5}$ NAAQS.

(c) *Approval.* The SIP submitted on October 14, 2009 meets the requirements of Clean Air Act section 110(a)(2)(D)(i)(I) (contribute significantly to nonattainment or interfere with maintenance of the NAAQS in any other state) for the 2006 $PM_{2.5}$ NAAQS.

(d) *Disapproval.* The SIPs submitted on October 14, 2009 and August 24, 2012 do not meet the requirements of Clean Air Act section 110(a)(2)(D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only) for the 2006 $PM_{2.5}$ NAAQS.

(e) *Disapproval.* The SIPs submitted on October 14, 2009, February 28, 2011, and May 3, 2013 do not meet the requirements of Clean Air Act section 110(a)(2)(D)(i)(II) (interfere with measures in any other state to protect visibility, only) for the 2006 $PM_{2.5}$ NAAQS.

[78 FR 46175, July 30, 2013]

§ 52.150 Yavapai-Apache Reservation.

(a) The provisions for prevention of significant deterioration of air quality at 40 CFR 52.21 are applicable to the Yavapai-Apache Reservation, pursuant to § 52.21(a).

(b) In accordance with section 164 of the Clean Air Act and the provisions of 40 CFR 52.21(g), the Yavapai-Apache Indian Reservation is designated as a Class I area for the purposes of preventing significant deterioration of air quality.

[61 FR 56470, Nov. 1, 1996]

§ 52.151 Operating permits.

Insofar as the permitting threshold provisions in the Pinal County Code of Regulations for the Pinal County Air Quality Control District concern the treatment of sources of greenhouse gas emissions as major sources for purposes of title V operating permits, EPA approves such provisions only to the extent they require permits for such sources where the source emits or has the potential to emit at least 100,000 tpy CO_2 equivalent emissions, as well

as 100 tpy on a mass basis, as of July 1, 2011.

[75 FR 82266, Dec. 30, 2010]

§ 52.152 Original identification of plan.

(a) This section identified the original ''The State of Arizona Air Pollution Control Implementation Plan'' and all revisions submitted by the State of Arizona that were federally approved prior to June 30, 2016.

(b) The plan was officially submitted on January 28, 1972.

(1) Arizona State Department of Health.

(i) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement: Arizona Revised Statutes section 36–1700 (''Declaration of Policy'')

(c) The plan revisions listed below were submitted on the dates specified.

(1) Letter of intent to revise plan submitted on March 1, 1972, by the Arizona State Board of Health.

(2) Letter of intent to revise plan submitted on March 2, 1972, by the Governor.

(3) Revised implementation plan submitted on May 30, 1972, by the Governor.

(i) Maricopa County Bureau of Air Pollution Control.

(A) Previously approved on July 27, 1972 and now deleted without replacement Rules 60 to 67.

(ii) Arizona State Department of Health.

(A) Previously approved on July 27, 1972 in paragraph (c)(3) of this section and now deleted without replacement: Chapter 2 (''Legal Authority''), Section 2.9 (''Jurisdiction over Indian lands''); Arizona Revised Statutes sections 36–1700 (''Declaration of Policy'') and 36–1801 (''Jurisdiction over Indian Lands''); and Arizona State Department of Health, Rules and Regulations for Air Pollution Control 7–1–4.3 (''Sulfite Pulp Mills'') and 7–1–9.1 (''Policy and Legal Authority'').

(4) Transportation control plan submitted on April 11, 1973, by the Governor.

(5) Amendments (Non-regulatory) to the transportation control plan submitted on May 10, 1973, by the Governor.

(6) Arizona Air Pollution Control Regulations (numbers in parentheses indicate recodification of regulations as identified in the Arizona State Implementation Plan Semi-Annual Report submitted to EPA on September 4, 1975).

7–1–1.1 (R9–3–101) (Policy and Legal Authority)
7–1–1.3 (R9–3–103) (Air Pollution Prohibited)
7–1–1.5 (R9–3–105) (Enforcement)
7–1–4.3 (R9–3–403) (Sulfur Emissions: Sulfite Pulp Mills)
7–1–4.4 (R9–3–404) (Sulphur Emissions: Sulfuric Acid Plants)
7–1–4.5 (R9–3–405) (Sulphur Emissions: Other Industries)
7–1–5.1 (R9–3–501) (Storage of Volatile Organic Compounds)
7–1–5.2 (R9–3–502) (Loading of Volatile Organic Compounds)
7–1–5.3 (R9–3–503) (Organic Compound Emissions: Pumps and Compressors)
7–1–5.4 (R9–3–504) (Organic Solvents)
7–1–6.1 (R9–3–601) (Carbon Monoxide Emissions: Industrial)
7–1–7.1 (R9–3–701) (Nitrogen Oxide Emissions: Fuel Burning Installations)
7–1–7.2 (R9–3–702) (Nitrogen Oxide Emissions: Nitric Acid Plants
7–1–8.3 (R9–3–803) (New Installations)

Submitted on August 20, 1973.

(i) Arizona State Department of Health.

(A) Previously approved on July 31, 1978 in paragraph (c)(6) of this section and now deleted without replacement: Arizona Air Pollution Control Regulation 7–1–4.3 (R9–3–403) (''Sulfur Emissions: Sulfite Pulp Mills'').

(7) Revised transportation control plan submitted on September 11, 1973, by the Governor.

(8) Letter supplementing the revised transportation control plan encouraging mass transit, carpooling, etc., submitted on September 21, 1973, by the Governor.

(9) Letter supplementing the revised transportation control plan encouraging mass transit, carpooling, etc., submitted on October 2, 1973, by the Governor.

(10) Maricopa County Air Pollution Control District Regulation III, Rule 31 (Particulate Matter Emissions) submitted on January 28, 1974.

(11) Arizona Air Pollution Control Regulation 7–1–1.7 (R9–3–107) (Unlawful open burning) submitted on February 19, 1974.

(12) Pima County Air Pollution Control District Regulation II, Rule 2 (Particulate matter emissions) submitted on March 19, 1974.

(13) Air quality maintenance area designation analysis submitted on April 17, 1974, by the Arizona Department of Health Services.

(14) Arizona Air Pollution Control Regulations:

7–1–2.10 (R9–3–210) (Emergency Episode Criteria)
7–1–4.2 (R9–3–402) (Sulfur Emissions: Fuel Burning Installations)

Submitted on August 30, 1974.

(15) Arizona Air Pollution Control regulations 7–1–8.1 (R9–3–801) (Original State jurisdiction); 7–1–8.2 (R9–3–802) (Assertions of jurisdiction); 7–1–8.3 (R9–3–803) (Delegation of authority); 7–1–11.3 (R9–3–1203) (Suspension and revocation of permits); 7–1–11.4 (R9–3–1204) (Permits non-transferable); 7–1–11.5 (R9–3–1205) (Posting of permits); 7–1–11.6 (R9–3–1206) (Notice by permit agencies); 7–1–11.7 (R9–3–1207) (Equipment covered); 7–1–11.9 (R9–3–1209) (Permit Fees); and 7–1–1.4 (R9–3–104) (Recordkeeping and reporting) submitted September 27, 1974.

(16) Assertion of State Jurisdiction over Apache, Navajo, Santa Cruz and Yavapai Counties; Assertion of State Jurisdiction over Cochise County; and Assertion of State Jurisdiction over specific sources in Mohave County.

Submitted on February 3, 1975.

(17) Amendments to the Rules and Regulations of the Pima County Air Pollution Control District (Regulation I: Rules 2, 4D, 4E, 4J, 8G, 16C, 29, and 30) submitted on February 20, 1975, by the Director, Arizona Department of Health Services (the Governor's official representative).

(18) Air pollution control regulations for various counties submitted by the Governor on July 1, 1975, as follows:

(i) Coconino County Air Pollution Control Regulations.

12–1–1 (Legal Authority)
12–1–2 (Definitions)
12–1–3 (Air Pollution Prohibited)
12–2–2 (Operating Permits)
12–2–4 (Permit Fees)
12–2–5 (Permit Renewals)
12–2–7 (Testing of Installations)
12–2–8 (Compliance with Terms of Installation Permit)
12–2–9 (Notification of Denial of Permit)
12–2–10 (Appeals to the Hearing Board)
12–2–11 (Permits Not Transferable)
12–2–12 (Expiration of Installation Permit)
12–2–13 (Posting of Permits)
12–3–1 (Ambient Air Quality Standards)
12–3–2 (Emission Standards)
12–3–3 (Reporting of Emissions)
12–3–4 (Production of Records: Confidentiality)
12–3–5 (Monitoring Devices)
12–3–6 (Penalty for Violation)
12–4–1 (Shade, Density, or Opacity of Emissions)
12–4–2 (Dust Control)
12–4–3 (Processing of Animal or Vegetable Matter)
12–4–4 (Volatile and Odorous Materials)
12–4–5 (Storage and Handling of Petroleum Products)
12–5–1 (Permit Required)
12–5–2 (Performance Tests: Permit Tags)
12–5–3 (Emission Limitations)
12–5–4 (Authority of Other Public Agencies)
12–6–1 (Unlawful Open Burning)
12–6–2 (Exceptions Requiring no Permission)
12–6–3 (Exceptions Requiring Permission)
12–6–4 (Exceptions Under Special Circumstances)
12–7–1 (Misdemeanor: Penalty)
12–7–2 (Order of Abatement)
12–7–3 (Hearings on Orders of Abatement)
12–7–5 (Notice of Hearing; Publication; Service)
12–7–6 (Injunctive Relief)

(A) Previously approved on November 15, 1978 and now deleted without replacement Rules 12–7–2, 12–7–3, 12–7–5, and 12–7–6.

(B) Previously approved on November 15, 1978 in paragraph (i) of this section and now deleted without replacement Rules 12–1–1 through 12–1–3, 12–2–2, 12–2–4, 12–2–5, 12–2–7 through 12–2–13, 12–3–1, 12–3–3 through 12–3–6, 12–4–1 through 12–4–5, 12–5–1 through 12–5–4, 12–6–1 through 12–6–4, and 12–7–1.

(ii) Mohave County Air Pollution Control Regulations.

Sec. 1, Reg. 1 (Policy and Legal Authority)
Sec. 1, Reg. 2 (Definitions)
Sec. 1, Reg. 3 (Air Pollution Prohibited)
Sec. 1, Reg. 4 (Enforcement)
Sec. 2, Reg. 1 (Shade, Density or Opacity of Emissions)
Sec. 2, Reg. 2 (Particulate Matter)
Sec. 2, Reg. 3 (Reduction of Animal or Vegetable Matter)
Sec. 2, Reg. 4 (Evaporation and Leakage)
Sec. 2, Reg. 5 (Storage Tanks)
Sec. 3, Reg. 1 (Particulate Matter from Fuel Burning Installations)

Sec. 3, Reg. 2 (Particulate Matter from Other Sources)
Sec. 3, Reg. 3 (Sulfur from Primary Copper Smelters)
Sec. 3, Reg. 4 (Ground Level Concentrations)
Sec. 3, Reg. 5 (Exceptions)
Sec. 3, Reg. 6 (Incinerators)
Sec. 4, Reg. 1 and Reg. 2 (Responsibility and Requirements of Testing)
Sec. 5, Reg. 1 (Open Fires: Prohibition and Exceptions)
Sec. 6, Reg. 1 (Sulfur Dioxide)
Sec. 6, Reg. 2 (Non-Specific Particulate)
Sec. 6, Reg. 3 (Evaluation)
Sec. 6, Reg. 4 (Anti-Degradation)
Sec. 7 (Violations)

(A) Previously approved on November 15, 1978 in paragraph (ii) of this section and now deleted without replacement Rules 1–1 through 1–4, 2–1 through 2–5, 3–1, 3–2, 3–6, 4–1, 4–2, 5–1, 6–1 through 6–4, and 7.

(iii) Yuma County Air Pollution Control Regulations.

8–1–1.1 (Policy and Legal Authority)
8–1–1.2 (Definitions)
8–1–1.3 (Air Pollution Prohibited)
8–1–1.4 (Recordkeeping and Reporting)
8–1–1.5 (Enforcement)
8–1–1.6 (Exceptions)
8–1–2.1 (Non-Specific Particulate)
8–1–2.2 (Sulfur Dioxide)
8–1–2.3 (Non-Methane Hydrocarbons)
8–1–2.4 (Photochemical Oxidants)
8–1–2.5 (Carbon Monoxide)
8–1–2.6 (Nitrogen Dioxide)
8–1–2.7 (Evaluation)
8–1–2.10 (Emergency Episode Criteria)
8–1–3.1 (Visible Emissions; General)
8–1–3.2 (Fugitive Dust)
8–1–3.3 (Particulates—Incineration)
8–1–3.4 (Particulates—Wood Waste Burners)
8–1–3.5 (Particulates—Fuel Burning Equipment)
8–1–3.6 (Particulates—Process Industries)
8–1–4.2 (Fuel Burning Installations)
8–1–4.3 (Sulfur Emissions—Sulfite Pulp Mills)
8–1–4.4 (Sulfur Emissions—Sulfuric Acid Plants)
8–1–4.5 (Sulfur Emissions—Other Industries)
8–1–5.1 (Storage of Volatile Organic Compounds)
8–1–5.2 (Loading of Volatile Organic Compounds)
8–1–5.3 (Pumps and Compressors)
8–1–5.4 (Organic Solvents; Other Volatile Compounds)
8–1–6.1 (CO_2 Emissions—Industrial)
8–1–7.1 (NO_2 Emissions—Fuel Burning Equipment)
8–1–7.2 (NO_2 Emissions—Nitric Acid Plants)
8–1–8.1 (Open Burning—Prohibition)
8–1–8.2 (Open Burning—Exceptions)

(A) Previously approved on November 15, 1978 in paragraph (iii) of this section and now deleted without replacement Rules 8–1–1.1, 8–1–2.7, 8–1–2.10, 8–1–4.2 through 8–1–4.5, 8–1–5.1 through 8–1–5.4, 8–1–6.1, 8–1–7.1, 8–1–7.2, 8–1–8.1, and 8–1–8.2.

(iv) Pinal-Gila Counties Air Pollution Control Regulations.

7–1–1.1 (Policy and Legal Authority)
7–1–1.2 (Definitions)
7–1–1.3 (Air Pollution Prohibited)
7–1–2.2 (Permit Unit Description and Fees)
7–1–2.4 (Appeals to Hearing Board)
7–1–2.5 (Transfer: Posting: Expirations)
7–1–2.6 (Recordkeeping and Reporting)
7–1–2.7 (Enforcement)
7–1–2.8 (Exceptions)
7–1–4.1 and 7–1–4.2 (Orders of Abatement)
7–1–5.1 (Classification and Reporting: Production of Records: Violation: and Penalty)
7–1–5.2 (Special Inspection Warrant)
7–1–5.3 (Decisions of Hearing Boards: Subpoenas)
7–1–5.4 (Judicial Review: Grounds: Procedures)
7–1–5.5 (Notice of Hearing: Publication: Service)
7–1–5.6 (Injunctive Relief)
7–2–1.1 (Non-Specific Particulate)
7–2–1.2 (Sulfur Dioxide)
7–2–1.3 (Non-Methane Hydrocarbons)
7–2–1.4 (Photochemical Oxidants)
7–2–1.5 (Carbon Monoxide)
7–2–1.6 (Nitrogen Dioxide)
7–2–1.7 (Evaluation)
7–2–1.8 (Anti-Degradation)
7–3–1.1 (Visible Emissions: General)
7–3–1.2 (Particulate Emissions—Fugitive Dust)
7–3–1.3 (Open Burning)
7–3–1.4 (Particulate Emissions—Incineration)
7–3–1.5 (Particulate Emissions—Wood-Waste Burners)
7–3–1.6 (Reduction of Animal or Vegetable Matter)
7–3–1.7 (Particulate Emissions—Fuel Burning Equipment)
7–3–1.8 (Particulate Emissions—Process Industries)
7–3–2.1 (Copper Smelters)
7–3–2.2 (SO_2 Emissions—Fuel Burning Installations)
7–3–2.3 (SO_2 Emissions—Sulfite Pulp Mills)
7–3–2.4 (SO_2 Emissions—Sulfuric Acid Plants)
7–3–2.5 (Other Industries)
7–3–3.1 (Storage of Volatile Organic Compounds)
7–3–3.2 (Loading of Volatile Organic Compounds)
7–3–3.3 (Pumps and Compressors)

7–3–3.4 (Organic Solvents: Other Volatile Compounds)
7–3–4.1 (CO_2 Emissions—Industrial)
7–3–5.1 (NO_2 Emissions—Fuel Burning Equipment)
7–3–5.2 (NO_2 Emissions—Nitric Acid Plants)
7–3–6.1 (Policy and Legal Authority)

(A) Previously approved on November 15, 1978 and now deleted without replacement Rules 7–1–4.1 to 7–1–4.2 and 7–1–5.1 to 7–1–5.6.

(B) Previously approved on November 15, 1978 and now deleted without replacement Rules 7–1–2.2, 7–1–2.4, 7–1–2.7, 7–2–1.3, and 7–3–6.1.

(C) Previously approved on December 17, 1979 and now deleted without replacement Rule 7–3–2.5.

(D) Previously approved on November 15, 1978 in paragraph (c)(18)(iv) of this section and now deleted without replacement Rules 7–1–1.1, 7–1–1.3, 7–1–2.5, 7–1–2.6, 7–2–1.1, 7–2–1.2, 7–2–1.4, 7–2–1.5, 7–2–1.6, 7–2–1.7, and 7–3–1.6.

(E) Previously approved on December 17, 1979 in paragraph (c)(18)(iv) of this section and now deleted without replacement Rule 7–2–1.8.

(F) Previously approved on November 15, 1978 in paragraph (c)(18)(iv) of this section and now deleted without replacement with respect to Gila County only Rules 7–3–1.2, 7–3–1.3, 7–3–1.4, 7–3–1.5, 7–3–1.7, 7–3–1.8, 7–3–2.2, 7–3–2.3, 7–3–2.4, 7–3–3.1, 7–3–3.2, 7–3–3.3, 7–3–4.1, 7–3–5.1, and 7–3–5.2.

(G) Previously approved on December 17, 1979 in paragraph (c)(18)(iv) of this section and now deleted without replacement with respect to Gila County only Rule 7–3–2.5.

(19) Arizona Air Pollution Control Regulations, submitted on September 16, 1975: R9–3–102 (Definitions), R9–3–108 (Test Methods and Procedures), R9–3–302 (Particulate Emissions: Fugitive Dust), R9–3–303 (Particulate Emissions: Incineration), R9–3–304 (Particulate Emissions: Wood Waste Burners), R9–3–305 (Particulate Emissions: Fuel Burning Equipment), R9–3–307 (Particulate Emissions: Portland Cement Plants); and R9–3–308 (Particulate Emissions: Heater-Planers), submitted on September 16, 1975.

(20) Arizona Air Pollution Control Regulations R9–3–505 (Gasoline Volatility Testing); R9–3–506 (Gasoline Volatility Standards); R9–3–1001 (Policy and Legal Authority); R9–3–1020 (State Stations Acting as Fleet Inspection Stations); any Fleet Inspection Stations for State Stations); submitted on January 23, 1976.

(i) Arizona State Department of Health.

(A) Previously approved on August 4, 1978 in paragraph (c)(20) of this section and now deleted without replacement: Arizona Air Pollution Control Regulation R9–3–1001 (''Policy and Legal Authority'').

(21) Amendments to the rules and Regulations of the Pima County Air Pollution Control District (Regulation I:

Rule 2 (paragraph uu-yy, Definitions); regulation II (Fuel Burning Equipment): Rule 2G (paragraphs 1–4c, Particulate Emissions), Rule 7A (paragraphs 1–6, Sulfur Dioxide Emissions), Rule 7B (paragraphs 1–4, Nitrogen Oxide Emission); Regulation VI: Rule 1A–H, (Ambient Air Quality Standards); Regulation VII (paragraph A–D, Standards of Performance for New Stationary Sources); and Regulation VIII (paragraphs A–C, Emission Standards for Hazardous Air Pollutants)) submitted on September 30, 1976 by the Director, Arizona Department of Health Services (the Governor's official representative).

(22)–(23) [Reserved]

(24) Arizona Air Pollution Control Regulations R9–3–1002 (Definitions); R9–3–1003 (Vehicles To Be Inspected by the Mandatory Vehicular Emissions Inspection Program); R9–3–1004 (State Inspection Requirements); R9–3–1005 (Time of Inspections); R9–3–1006 (Mandatory Vehicular Emissions Inspection); R9–3–1007 (Evidence of Meeting State Inspection Requirements); R9–3–1008 (Procedure for Issuing Certificates of Waiver); R9–3–1010 (Low Emissions Tune Up); R9–3–1011 (Inspection Report); R9–3–1012 (Inspection Procedure and Fee); R9–3–1013 (Reinspections); R9–3–1016 (Licensing of Inspectors); R9–3–1017 (Inspection of Governmental Vehicles); R9–3–1018 (Certificate of Inspection); R9–3–1019 (Fleet Station Procedures and Permits); R9–3–1022 (Procedure for Waiving Inspections Due to Technical Difficulties); R9–3–1023 (Certificate of Exemption); R9–3–1025 (Inspection of State Stations); R9–3–1026 (Inspection of Fleet Stations); R9–3–1027 (Registration of Repair Industry Analyzers); R9–3–1029 (Vehicle Emission Control Devices); and R9–3–1030

(Visible Emissions; Diesel-Powered Locomotives); submitted on February 11, 1977.

(25) [Reserved]

(26) Maricopa County Air Pollution Control District Regulation IV, rule 41, paragraph B (Continuously Monitoring and Recording Emissions) submitted on July 29, 1977.

(27) The following amendments to the plan were submitted on January 4, 1979 by the Governor's designee.

(i) Arizona State Rules and Regulations for Air Pollution Control.

(A) R–9–3–101, A., Nos. 2, 3, 29, 41, 53, 55, 87, 88, 89, 91, 92, 95, 100 and 117; R9–3–301, paragraphs D, J, and N; R9–3–306, paragraphs D and J; and R9–3–307, paragraphs C and E.

(B) New or amended Rules R9–3–101 (Nos. 1, 4, 6, (a, c, and d), 8, 9, 11, 13, 17 to 26, 28, 30 to 35, 37 to 40, 43 to 45, 48, 49, 54, 57 to 59, 61 to 73, 77 to 80, 82, 83, 86, 90, 94, 96, 98, 101, 102, 104, 105, 107 to 115, 118 to 120, 122, to 129, and 131), R9–3–217, R9–3–218, R9–3–219, R9–3–308, R9–3–310 (Paragraph C), R9–3–311 (Paragraph A), R9–3–312, R9–3–313 (Paragraphs A.1, A.2.b, A.3, A.4, B to D.1, D.3, D.4.a to F.1.2.iii, F.1.b., and F.2.b. to F.4), R9–3–314 to R9–3–319, R9–3–402 to R9–3–404, R9–3–406, R9–3–407, R9–3–409, R9–3–410, R9–3–502 (Paragraphs B, C, C.2, and D to G), R9–3–503 (Paragraph A), R9–3–504 (Paragraphs B and C), R9–3–505 (Paragraphs A, B.1.b., B.2.b, and B.3 to D), R9–3–506 (Paragraphs A.2, B, C.1.a to C.4), R9–3–507 (Paragraphs D to F), R9–3–508 (Paragraphs A and C), R9–3–510 (Paragraphs B to E), R9–3–511 (Paragraph B), R9–3–512 (Paragraph B), R9–3–513 (Paragraphs B and C), R9–3–514 (Paragraphs B and C), R9–3–516 (Paragraph B), R9–3–517 (Paragraphs B and C), R9–3–518 (Paragraphs B and C), R9–3–519 (Paragraphs A.2, A.3.a to A.3.c, A.3.e and B to C), R9–3–520 (Paragraphs B and C), R9–3–521 (Paragraphs B to D), R9–3–522 (Paragraphs A.1 to A.5, B and C), R9–3–523 (Paragraph B), R9–3–524 (Paragraphs C, D.1, D.2, D.4 to G.5), R9–3–525 (Paragraphs B to D), R9–3–526, R9–3–527, R9–3–528 (Paragraphs B to E and F.1 to F.4), R9–3–601 to R9–3–605, R9–3–1101, R9–3–1102, Appendix 10 (Sections A10.1.3.3, A10.1.4. and A10.2.2 to A10.3.4.) and Appendix 11.

(C) Previously approved in paragraphs (c)(27)(i)(A) and (B) of this section and now deleted without replacement: R9–3–101 (all paragraphs and nos. listed), paragraph B of R9–3–217, R9–3–301 (all paragraphs listed), R9–3–306 (all paragraphs listed), R9–3–307 (all paragraphs listed), R9–3–308, R9–3–310 (Paragraph C), R9–3–311 (Paragraph A), R9–3–312, R9–3–314, R9–3–315, R9–3–316, R9–3–317, R9–3–318, R9–3–518 (Paragraphs B and C), R9–3–319, R9–3–1101, and Appendix 10 (Sections A10.1.3.3, A10.1.4 and A10.2.2 to A10.3.4).

(D) Previously approved on April 23, 1982, in paragraph (c)(27)(i)(B) of this section and now deleted without replacement: R9–3–511 (Paragraph B), R9–3–512 (Paragraph B), R9–3–513 (Paragraphs B and C), and R9–3–517 (Paragraphs B and C).

(28) The following amendments to the plan were submitted on January 18, 1979 by the Governor's designee.

(i) Maricopa County Bureau of Air Pollution Control Rules and Regulations.

(A) Rule 33, Storage and Handling of Petroleum Products.

(B) New or amended Rules 21G and 41.

(29) The following amendments to the plan were submitted on January 23, 1979, by the Governor's designee.

(i) Arizona State Rules and Regulations for Air Pollution Control.

(A) Arizona Testing Manual for Air Pollutant Emissions (excluding Sections 2.0 and 5.0).

(B) Previously approved on April 23, 1982, in paragraph (c)(29)(i)(A) of this section and now deleted without replacement: Arizona Testing Manual for Air Pollutant Emissions, Sections 3.0 and 4.0.

(30) [Reserved]

(31) Revisions to the Arizona Air Pollution Control Regulations submitted on March 21, 1979:

R9–3–1002 (22,34); R9–3–1003 [A(A8–11),B,C]; R9–3–1005 [A, (A3)]; R9–3–1006 [A,(A1,2),B,(B2,3,4,5),D,E, (E1(c),2(c)),F,G, (G1,2), Table II]; R9–3–1008 [B,(B1,2,6,7)]; R9–3–1010 [A,(A3),C,D,F]; R9–3–1011 [A,B,(B1,2,3)];R9–3–1012(b); R9–3–1014; R9–3–1017 [B,(B4), C, E]; R9–3–1019 [A,B,D, D(1)(a)(i), D(1)(a)(ii)(6), D(1)(a)(iii), D(1)(c), D(1)(f)(11), H, (H1,2), I(I8,9,10,11,12,13), J, (J10), L, M, N, (N1,2)]; R9–3–(C,E); R9–3–1022(B); R9–3c–091023(A,B); R9–3–1027(F).

(32) The following amendments to the plan were submitted on February 23, 1979 by the Governor's designee.

(i) Nonatainment Area Plan for Carbon Monoxide and Photochemical Oxidants, Maricopa County Urban Planning Area.

(33) The *Metropolitan Pima County Nonattainment Area Plan for CO* was submitted by the Governor's designee on March 20, 1979.

(34) The *Metropolitan Pima County Nonattainment Area Plan for TSP* was submitted by the Governor's designee on March 27, 1979.

(35) The following amendments to the plan were submitted on April 10, 1979, by the Governor's designee.

(i) Yuma County Air Pollution Control District.

(A) New or amended Rules 8–1–1.2 8–1–1.3 thru 8–1–1.6 and 8–1–1.8 thru 8–1–1.13; 8–1–2.1 thru 8–1–2.6 and 8–1–2.8; 8–1–3.1 thru 8–1–3.6, 8–1–3.7 (except paragraph ''F'') and 8–1–3.8 thru 8–1–3.20; and Appendices I and II.

(B) Previously approved on April 12, 1982 in paragraph (i)(A) of this section and now deleted without replacement Rules 8–1–1.2 through 8–1–1.6, 8–1–1.8 through 8–1–1.13, 8–1–2.1 through 8–1–2.6, 8–1–2.8, 8–1–3.1 through 8–1–3.20, Appendix I, and Appendix II.

(36) The following amendments to the plan were submitted on July 3, 1979 by the Governor's designee.

(i) Revision to the Nonattainment Area Plan for Carbon Monoxide and Photochemical Oxidants, Maricopa County Urban Planning Area.

(37) The following amendments to the plan were submitted on September 20, 1979 by the Governor's designee.

(i) Arizona State Rules and Regulations for Air Pollution Control.

(A) New or amended rule R9–3–515 (Paragraphs C.1.a. to C.1.h.; C.2; C.3, C.3.b., C.3.c., and C.3.h.; C.4.c. to C.4.g. and C.4.i.; C.5 and C.5.b. to C.5.d.; C.6.b.i. to C.6.b.iii., C.6.b.vi., C.6.b.vii., and C.6.c.; and C.8.).

(ii) ''ASARCO Incorporated, Hayden Copper Smelter, State Implementation Plan Determination of Good Engineering Practice Stack Height,'' September 17, 1979, issued by ADHS.

(38) The following amendment to the plan were submitted on October 9, 1979, by the Governor's designee.

(i) Pima County Health Department.

(A) New or amended Regulation 10: Rules 101–103; Regulation 11: Rules 111–113; Regulation 12: Rules 121–123; Regulation 13: Rules 131–137; Regulation 14: Rules 141 and 143–147; Regulation 15: Rule 151; Regulation 16: Rules 161–165; Regulation 17: Rules 172–174; Regulation 18: Rules 181 and 182; Regulation 20: Rules 201–205; Regulation 21: Rules 211–215; Regulation 22: Rules 221–226; Regulation 23: Rules 231–232; Regulation 24: Rules 241 and 243–248; Regulation 25: Rules 251 and 252; Regulation 30: Rules 301 and 302; Regulation 31: Rules 312–316 and 318; Regulation 32: Rule 321; Regulation 33: Rules 331 and 332; Regulation 34: Rules 341–344; Regulation 40: Rules 402 and 403; Regulation 41: 411–413; Regulation 50: Rules 501–503 and 505–507; Regulation 51: Rules 511 and 512; Regulation 60: Rule 601; Regulation 61: Rule 611 (Paragraph A.1 to A.3) and Rule 612; Regulation 62: Rules 621–624; Regulation 63: Rule 631; Regulation 64: Rule 641; Regulation 70: Rules 701–705 and 706 (Paragraphs A to C, D.3, D.4, and E); Regulation 71: Rules 711–714; Regulation 72: Rules 721 and 722; Regulation 80: Rules 801–804; Regulation 81: Rule 811; Regulation 82: Rules 821–823; Regulation 90: Rules 901–904; Regulation 91: Rule 911 (except Methods 13–A, 13–B, 14, and 15), and Rules 912 and 913; Regulation 92: Rules 921–924; and Regulation 93: Rules 931 and 932.

(*1*) Previously approved on April 16, 1982 in paragraph (c)(38)(i)(A) of this section and now deleted from the SIP without replacement Pima County Health Department Regulations: Regulation 13: Rules 131–137; Regulation 16: Rule 164; Regulation 18: Rules 181 and 182; Regulation 20: Rule 205; Regulation 21: Rule 214; and Regulation 24: Rules 245–248.

(B) New or amended Regulation 17: Rule 171, paragraphs B.1, B.1.a, B.7, B.8, C.1.a, C.1.b, C.2.a, C.2.c, C.2.d, C.3.a, and E.1.b; Regulation 42: Rules 421, 422, 423, 424, 425, and 426; and Regulation 50: Rule 504.

(C) Previously approved on April 16, 1982 and now deleted without replacement Rules 141, 143 to 147, 702, 711 to 714.

(39) The following amendments to the plan were submitted on November 8, 1979 by the Governor's designee.

(i) Nonattainment Area Plan for Total Suspended Particulates, Maricopa County Urban Planning Area.

(40) [Reserved]

(41) The following amendments to the plan were submitted on February 15, 1980, by the Governor's designee.

(i) 1.0 Air Quality Surveillance Network.

(42) The *Technical Basis of New Source Review Regulations, Pima County, Arizona, February 6, 1980* (AQ–125–a) was submitted by the Governor's designee on February 28, 1980.

(43) The following amendments to the plan were submitted on April 1, 1980 by the Governor's designee.

(i) Arizona State Rules and Regulations for Air Pollution Control.

(A) R9–3–101, A., Nos. 7, 27, 46, 52, 54, 72, 73, 74, 81, 84, 85, 86, 88, 89, 92, 96, 97, 98, 111, 117, 118, and 122; R9–3–301, paragraphs B–1, B–2, C, E, F, H, I, J, K, M, N, O, P, and Q; R9–3–302, (except paragraphs D, E, and I); R9–3–303; R9–3–306, paragraphs B–2, C–1, C–3, and C–5 to C–7, E, F, G–1, G–3, G–4, H, and I; and R9–3–307, paragraphs A, B, D, and F.

(B) New or amended Rules R9–3–101 (Nos. 5, 15, 16, 42, 49, 51, 55, 94, 101, 103, 106, 126, 127, and 133), R9–3–201 (paragraph D.2), R9–3–202 (Paragraph D.2), R9–3–203 (Paragraph D.2), R9–3–204 (Paragraph C.2), R9–3–205 (Paragraph C.2), R9–3–206 (Paragraph C.2), R9–3–207 (Paragraph C.2), R9–3–313 (Paragraph F.1.a.i and ii), R9–3–401, R9–3–405, R9–3–408, R9–3–501 (Paragraph A to C), R9–3–502 (Paragraph A to A.4), R9–3–503 (Paragraphs B, C.1,C.2.a. to C.2.f., C.4 and C.5), R9–3–504 (Paragraph A.1 to A.4), R9–3–508 (Paragraph B.1 to B.6), R9–3–510 (Paragraph A.1 and A.2), R9–3–511 (Paragraph A.1 to A.5), R9–3–512 (Paragraph A.1 to A.5), R9–3–513 (Paragraph A.1 to A.5), R9–3–514 (Paragraph A.2), R9–3–516 (Paragraph A.1 to A.6), R9–3–517 (Paragraph A.1 to A.5), R9–3–518 (Paragraph A.1 to A.5), R9–3–520 (Paragraph A.1 to A.6), R9–3–521 (Paragraph A.1 to A.5), and Appendices 1 and 2.

(C) Previously approved in paragraphs (c)(43)(i)(A) and (B) of this section and now deleted without replacement: R9–3–101 (all paragraphs and nos. listed), R9–3–301 (all paragraphs listed), R9–3–302 (all paragraphs listed), R9–3–303, R9–3–306 (all paragraphs listed), R9–3–307 (all paragraphs listed), and R9–3–518 (Paragraph A.1 to A.5).

(D) Previously approved on April 23, 1982, in paragraph (c)(43)(i)(B) of this section and now deleted without replacement: R9–3–511 (Paragraph A.1 to A.5), R9–3–512 (Paragraph A.1 to A.5), R9–3–513 (Paragraph A.1 to A.5), and R9–3–517 (Paragraph A.1 to A.5).

(ii) Arizona Lead SIP Revision.

(44) The following amendments to the plan were submitted on June 23, 1980 by the Governor's designee.

(i) Maricopa County Bureau of Air Pollution Control Rules and Regulations.

(A) Rule 34, Organic Solvents.

(B) New or amended Rules 2 (except #49 and 57), 3, 24, 25, 25, 26, 27, 30, 31(A), (B), and (H), 32, (G), (H), (J), and (K), 40, 70–72, and 74 and deletion of ''ee''.

(45) The following amendments to the plan were submitted on July 17, 1980 by the Governor's designee.

(i) Arizona State Rules and Regulations for Air Pollution Control.

(A) R–9–3–101, A., Nos. 73, 74, 75, 83, 86, 87, 88, 90, 91, 94, 98, 99, 100, 113, 119, 120, and 124; R9–3–301, paragraphs A, B–3, G, I, J, K, L, M, N, O, P, Q, and R; R9–3–306, paragraphs A, B–1, B–3, B–4, C–2, C–4, and G–2; and R9–3–320, paragraphs B and C.

(B) New or amended Rules R9–3–101 (Nos. 6(b), 10, 12, 14, 36, 50, 55, 77, 84, and 92), R9–3–311 (Paragraph B), R9–3–313 (Paragraphs A.2.a., D.2, D.4, F.1.C, and F.2.a.), R9–3–320 (Paragraph A), R9–3–502 (Paragraph C.1), R9–3–503 (Paragraph C, C.2, C.2.g. and C.3), R9–3–504 (Paragraph A), R9–3–505 (Paragraph B.1.a, B.2.a), R9–3–506 (Paragraph A to A.1), R9–3–507 (Paragraphs A to C), R9–3–508 (Paragraph B), R9–3–509, R9–3–510 (Paragraph A), R9–3–511 (Paragraph A), R9–3–512 (Paragraph A), R9–3–513 (Paragraph A), R9–3–514 (Paragraphs A to A.1), R9–3–516 (Paragraph A), R9–3–517 (Paragraph A), R9–3–518 (Paragraph A), R9–3–519 (Paragraph A to A.1, A.3, and A.3.d), R9–3–520 (Paragraph A), R9–3–521 (Paragraph A), R9–3–522 (Paragraph A), R9–3–523 (Paragraph A), R9–3–524 (Paragraphs A, B, D, and D.3), R9–3–525 (Paragraph A), R9–3–528 (Paragraphs A and F.5), Section 3, Method 11; Section 3.16, Method 16; Section 3.19, Method 19; Section 3.20, Method 20; and Appendix 10 (Sections A10.2 and A10.2.1).

(C) New or amended Rule R9–3–515 (Paragraphs A; and C.6, C.6.b, and C.6.b.v.).

(D) Previously approved in paragraphs (c)(45)(i)(A) and (B) of this section and now deleted without replacement: R9–3–101 (all paragraphs and nos. listed), R9–3–301 (all paragraphs listed), R9–3–306 (all paragraphs listed), R9–3–311 (all paragraphs listed), R9–3–509, and Appendix 10 (Sections A10.2 and A10.2.1).

(E) Previously approved on April 23, 1982, in paragraph (c)(45)(i)(B) of this section and now deleted without replacement: R9–3–511 (Paragraph A); R9–3–512 (Paragraph A); R9–3–513 (Paragraph A); R9–3–517 (Paragraph A); Section 3, Method 11; Section 3.16, Method 16; Section 3.19, Method 19; and Section 3.20, Method 20.

(46) The following amendments to the plan were submitted on August 7, 1980, by the Governor's designee.

(i) Pinal-Gila Counties Air Quality Control District.

(A) New or amended Rules 7–1–1.2, 7–1–1.3(C), 7–3–1.1, 7–3–1.4(C), 7–3–1.7(F), and 7–3–3.4.

(B) Previously approved on April 12, 1982 in paragraph (c)(46)(i)(A) of this section and now deleted without replacement Rules 7–1–1.2 and 7–1–1.3(C).

(C) Previously approved on April 12, 1982 in paragraph (c)(46)(i)(A) of this section and now deleted without replacement with respect to Gila County only Rules 7–3–1.1, 7–3–1.4(C), 7–3–1.7(F), and 7–3–3.4.

(D) Previously approved on April 12, 1982 in paragraph (c)(46)(i)(A) of this section and now deleted without replacement with respect to Pinal County only Rule 7–3–3.4.

(47) The following amendments to the plan were submitted on September 10, 1980, by the Governor's designee.

(i) Arizona State Rules and Regulations and Air Pollution Control.

(A) New or amended Rules R9–3–101 (Nos. 24, 55, 102, and 115 (25–54, 56–101, 103–114, and 116–140 are renumbered only), R9–3–201 (Paragraphs A to D.1 and E), R9–3–202 (Paragraphs A to D.1 and E), R9–3–203 (Paragraphs A to D.1 and E), R9–3–204 (Paragraphs A to C.1 and D), R9–3–205 (Paragraphs A to C.1 and D), R9–3–206 (Paragraphs A to C.1 and D), R9–3–207 (Paragraphs A to C.1 and D), and R9–3–216.

(*1*) Previously approved in this paragraph (c)(47)(i)(A) and now deleted without replacement: R9–3–101 (all paragraphs and nos. listed).

(48) Arizona Lead SIP Revision submitted by the State on September 26, 1980.

(49) The following amendments to the plan were submitted on July 13, 1981 by the Governor's designee.

(i) Arizona Revised Statute Sec. 36–1718.

(50) The following amendments to the plan were submitted on July 13, 1981, by the Governor's designee.

(i) Arizona State Rules and Regulations for Air Pollution Control.

(A) New or amended Rules R9–3–310 (Paragraphs A and B), R9–3–501 (Paragraph D), R9–3–503 (Paragraph C.6), R9–3–506 (Paragraph C to C.1), and Appendix 10 (Sections A10.1–A10.1.3.2).

(B) New or amended Rule R9–3–515 (Paragraph C.4.a. and C.4.b.).

(C) Previously approved in paragraph (c)(50)(i)(A) of this section and now deleted without replacement: R9–3–310 (Paragraphs A and B) and Appendix 10 (Sections A10.1–A10.1.3.2).

(ii) Arizona Revised Statutes.

(A) Arizona County: Chapter 6, Article 8. Air Pollution, Sections 36–770 to 36–778, 36–779 to 36–779.07, 36–780, 36–780.01, 36–781 to 36–783, 36–784 to 36–784.04, 36–785, 36–785.01, 36–786 to 36–788, 36–789 to 36–789.02, 36–790, and 36–791.

(*1*) Previously approved on June 18, 1982 in paragraph (c)(50)(ii)(A) of this section and now deleted from the SIP without replacement Arizona Revised Statutes: sections 36–770, 36–776, and 36–777.

(B) Arizona State: Chapter 14, Air Pollution, Article 1. State Air Pollution Control, Sections 36–1700 to 36–1702, 36–1704 to 36–1706, 36–1707 to 36–1707.06, 36–1708, 36–1720.01, and 36–1751 to 36–1753.

(C) Previously approved on June 18, 1982 and now deleted without replacement Statutes 36–781, 36–782, 36–784, 36–784.01 to 36–784.04, 36–785, 36–785.01, and 36–786 to 36–788.

(D) Previously approved on June 18, 1982, in paragraph (c)(50)(ii)(B) of this

section and now deleted without replacement: Arizona Revised Statutes section 36–1700.

(51) The following amendments to the plan were submitted on June 1, 1981, by the Governor's designee.

(i) Pima County Health Department.

(A) New or amended Regulation 14: Rule 142; Regulation 20: Rule 204; Regulation 24: Rule 242; Regulation 26: Rule 261; Regulation 50: Rule 504; Regulation 61: Rule 611 (Paragraph A); Regulation 70: Rule 706 (Paragraphs D.1 and D.2); and Regulation 91: Rule 911 (Methods 19 and 20).

(B) Previously approved on April 16, 1982 and now deleted without replacement Rule 142.

(52) The following amendments to the plan were submitted on August 5, 1981, by the Governor's designee.

(i) Arizona State Rules and Regulations for Air Pollution Control.

(A) New or amended Rules R9–3–1002, R9–3–1003, R9–3–1005, R9–3–1006, R9–3–1008, R9–3–1010 to R9–3–1014, R9–3–1016, R9–3–1019, R9–3–1023, R9–3–1025, R9–3–1027, and R9–3–1030.

(ii) Arizona Revised Statutes.

(A) Inspection and Maintenance—Chapter 14, Article 3. Annual Emissions Inspection of Motor Vehicles, Sections 36–1771 to 36–1775, 36–1708.01, 36–1709 to 36–1711, 36–1712 to 36–1712.04, 36–1713, 36–1713.01, 36–1714 to 36–1717, 36–1718, 36–1718.01, 36–1719, 36–1720, and 36–1776 to 36–1780.

(B) Previously approved on June 18, 1982 and now deleted without replacement Statutes 36–1709 to 36–1712, 36–1712.01 to 36–1712.04, 36–1713, 36–1713.01, and 36–1714 to 36–1716.

(53) The following amendments to the plan were submitted on March 8, 1982, by the Governor's designee.

(i) Maricopa County Bureau of Air Pollution Control Rules and Regulations.

(A) Rules 2 (Nos. 11 and 33, and deletion of Nos. 18, 49, 50, 52, and 54), 28 and 33.

(ii) The Improvement Schedules for Transit System and Rideshare Program in Metropolitan Pima County.

(54) The following amendments to the plan were submitted on June 3, 1982 by the Governor's designee.

(i) Arizona State Rules and Regulations for Air Pollution Control.

(A) New or amended Rule R9–3–515 Paragraphs C to C.1. and C.1.i.; C.3.a. and C.3.d. to C.3.g.; C.4. and C.4.h.; C.5.a.; C.6.a. and C.6.b.iv.; and C.9.).

(B) New or amended rules R9–3–101 (Nos. 3, 7, 8, 17, 18, 19, 20, 21, 29, 34, 35, 37, 56, 61, 62, 63, 68, 69, 75, 77, 78, 79, 88, 89, 90, 91, 98, 99, 101, 117, 122, 129, 133, 136, 146, and 157; 53 and 123 are deleted); R9–3–217; R9–3–301; R9–3–304; R9–3–305; R9–3–306 (paragraph A only); R9–3–320 (Repealed and Reserved); R9–3–1101 (paragraphs A, C, and D); Appendix 1; and Appendix 2.

(C) New or amended rules R9–3–101 (Nos. 4 to 6, 9 to 16, 22 to 28, 30 to 33, 36, 38 to 55, 57 to 60, 64 to 67, 70 to 74, 76, 80 to 87, 92 to 97, 100, 102 to 116, 118 to 121, 123 to 128, 130 to 132, 134, 135, 137 to 141, 142 to 145, 147 to 156, and 158 are renumbered only); R9–3–219; R9–3–502 (paragraph A to A.1 and A.2); R9–3–505 (paragraph B to B.1, B.2, B.3, and B.4); R9–3–508 (paragraph B to B.1, B.2, and B.5); R9–3–511 (paragraph A to A.1 and A.2); R9–3–513 (paragraph A to A.1 and A.2); R9–3–516 (paragraph A to A.1 and A.2); R9–3–517 (paragraph A to A.1); R9–3–518 (paragraph A to A.1 and A.2); R9–3–520 (paragraph A to A.1 and A.2); R9–3–521 (paragraph A to A.1 and A.2); R9–3–522 (paragraph A to A.1 and A.2); and Appendix 8 (Sections A8.3.1 and A8.3.2).

(D) New or amended rules R9–3–302 (paragraphs A–H); and R9–3–303 (paragraphs A to C and E to I), adopted on May 26, 1982.

(E) Previously approved in paragraphs (c)(54)(i)(B) and (c)(54)(i)(C) of this section and now deleted without replacement: R9–3–101 (all nos. listed except no. 20).

(F) Previously approved on September 28, 1982, in paragraph (54)(i)(C), and now deleted without replacement: R9–3–219.

(G) Previously approved on September 28, 1982, in paragraph (c)(54)(i)(C) of this section and now deleted without replacement: R9–3–518 (paragraphs A to A.1 and A.2).

(H) Previously approved in paragraphs (c)(54)(i)(B), (C), and (D) of this section and now deleted without replacement: R9–3–301 (all paragraphs except paragraphs I and K), R9–3–302 (all paragraphs listed), R9–3–303 (all paragraphs listed), R9–3–304 (all paragraphs except paragraph H), R9–3–305, R9–3–306

(paragraph A only), and R9–3–1101 (all paragraphs listed).

(I) Previously approved on September 28, 1982, in paragraph (c)(54)(i)(C) of this section and now deleted without replacement: R9–3–511 (Paragraph A to A.1 and A.2), R9–3–513 (Paragraph A to A.1 and A.2), and R9–3–517 (Paragraph A to A.1).

(55) The following amendments to the plan were submitted by the Governor's designee on March 4, 1983.

(i) *Incorporation by reference.* (A) Maricopa County Health Department, Bureau of Air Quality Control.

(*1*) New or amended rule 21.0:A-C, D.1.a-d, and E adopted on October 25, 1982.

(56) The following amendments to the plan were submitted on February 3, 1984, by the Governor's designee.

(i) Arizona State Rules and Regulations for Air Pollution Control.

(A) New or amended rules R9–101 (Nos. 98 and 158), R9–3–201 to R9–3–207, R9–3–215, R9–3–218, R9–3–310, R9–3–322, R9–3–402, R9–3–404, R9–3–502, R9–3–515 (paragraph C.3., C.5., and C.6.b.v.), R9–3–529, R9–3–1101, and Appendices 1 and 11.

(B) New or amended rules R9–3–101, Nos. 135 and 157, adopted on September 19, 1983.

(C) Previously approved in paragraphs (c)(56)(i)(A) and (B) of this section and now deleted without replacement: R9–3–101 (Nos. 135 and 157), R9–3–218, R9–3–310, R9–3–322, R9–3–1101 and Appendix 11.

(57) The following amendments to the plan were submitted by the Governor's designee on April 17, 1985.

(i) *Incorporation by reference.* (A) Maricopa County Health Department, Bureau of Air Quality Control.

(*1*) New or amended regulations: rule 21.0: D.1., D.1.e, f, and g adopted on July 9, 1984.

(58) The following amendments to the plan were submitted by the Governor's designee on October 18, 1985.

(i) *Incorporation by reference.* (A) Pima County Health Department.

(*1*) New or amended regulations: Regulation 16: Rule 166; Regulation 17; Rules 171 and 175; Regulation 20: Rule 202; Regulation 37: Rules 371, 372, 373, Figure 371–A, Figure 371–C, and Figure 372; and Regulation 38, Rule 381, A1, 2, 3, 4, 5, and B, adopted on December 6, 1983.

(59) The following amendments to the plan were submitted by the Governor's designee on October 24, 1985.

(i) *Incorporation by reference.* (A) Arizona Department of Health Services.

(*1*) New or amended rule R9–3–303, adopted on September 28, 1984.

(*2*) Previously approved in paragraph (c)(59)(i)(A)(*1*) of this section and now deleted without replacement: R9–3–303.

(60) The following amendments to the plan were submitted by the Governor's designee on October 5, 1987.

(i) *Incorporation by reference.* (A) Arizona Department of Health Services.

(*1*) New or amended rules R9–3–1001 (Nos. 8, 25, 33, 34, 38, 39, 40, and 43, No. 8), R9–3–1003, R9–3–1005, R9–3–1006, R9–3–1008, R9–3–1009, R9–3–1010, R9–3–1011, R9–3–1013, R9–3–1016, R9–3–1018, R9–3–1019, R9–3–1025, R9–3–1026, R9–3–1027, R9–3–1028, R9–3–1030, and R9–3–1031, adopted on December 23, 1986.

(*2*) Previously approved and now removed (without replacement), Rule R9–3–1014.

(B) The Maricopa Association of Governments (MAG) 1987 Carbon Monoxide (CO) Plan for the Maricopa County Area, MAC CO Plan Commitments for Implementation, and Appendix A through E, Exhibit 4, Exhibit D, adopted on July 10, 1987.

(61) The following amendments to the plan were submitted by the Governor's designee on January 6, 1988.

(i) *Incorporation by reference.* (A) The 1987 Carbon Monoxide State Implementation Plan Revision for the Tucson Air Planning Area adopted on October 21, 1987.

(62) The following amendments to the plan were submitted by the Governor's designee on March 23, 1988.

(i) *Incorporation by reference.* (A) Arizona Revised Statutes.

(*1*) Senate Bill 1360: Section 6: ARS 15–1444–C (added), Section 7: QRS 15–1627–F (added), Section 21: ARS 49– 542–A (amended, Section 21: ARS 49–542–E (added), Section 21: ARS 49–542–J.3.(b) (amended), and Section 23: ARS 49–550–E (added), adopted on May 22, 1987.

(*2*) Senate Bill 1360: Section 2: ARS 9-500.03 (added), Section 14: ARS 41–796.01 (added); Section 17: 49–454 (added), Section 18: 49–474.01 (added), and Section

25: ARS 49–571 (added), adopted on May 22, 1987.

(63) The following amendments to the plan were submitted by the governor's designee on May 26, 1988:

(i) *Incorporation by reference.* (A) Travel reduction ordinances for Pima County: Inter governmental Agreement (IGA) between Pima County, City of Tucson, City of South Tucson, Town of Oro Valley and Town of Marana, April 18, 1988; Pima County Ordinance No. 1988–72, City of Tucson ordinance No. 6914, City of South Tucson Resolutions No. 88–01, 88–05, Town of Oro Valley Resolutions No. 162, 326 and 327, Town of Marana Resolutions No. 88–06, 88–07 and Ordinance No. 88.06.

(64) The following amendments to the plan were submitted by the Governor's designee on June 1, 1988.

(i) *Incorporation by reference.* (A) Letter from the Arizona Department of Environmental Quality, dated June 1, 1988, committing to administer the provisions of the Federal New Source Review regulations consistent with EPA's requirements. The commitments apply to the issuance of, or revision to, permits for any source which is a major stationary source or major modification as defined in 40 Code of Federal Regulations, part 51, subpart I.

(65) The following amendments to the plan were submitted by the Governor's designee on July 18, 1988.

(i) *Incorporation by reference.* (A) Arizona Revised Statutes.

(*1*) House Bill 2206, Section 2: ARS 15–1627 (amended); Section 6: Title 28, ARS Chapter 22, Article 1, ARS 28–2701, ARS 28–2702, ARS 28–2703, ARS 28–2704, and ARS 28–2705 (added); Section 7: ARS 41.101.03 (amended); Section 9: ARS 41–2605 (amended); Section 10: ARS 41–2066 (amended); Section 11: ARS 41–2083 (amended); Section 13: Title 41, Chapter 15, Article 6, ARS 41–2121: Nos. 1, 3, 4, 5, 6, 7, 8, and 9, ARS 41–2122, ARS 41–2123, ARS 41–2124 (added); Section 15: Title 49, Chapter 3, Article 1, ARS 49–403 to 49–406 (added); Section 17: Title 49, Chapter 3, Article 3, ARS 49–506 (added); Section 18; ARS 49–542 (amended); Section 19: ARS 49–550 (amended); Section 20: ARS 49–551 (amended); Section 21: Title 49, Chapter 3, Article 5, ARS 49–553 (added), Section 22: ARS 49–571 (amended); Section 23: Title 49, Chapter 3, Article 8, ARS 49–581, ARS 49–582, ARS 49–583, ARS 49–584, ARS 49–585; ARS 49–586, ARS 49–588, ARS 49–590, and ARS 49–593 (added); Section 25: Definition of major employer, Section 27: Appropriations; Section 29: Delayed effective dates, adopted on June 28, 1988.

(*2*) House Bill 2206 section 6 which added, under Arizona Revised Statutes, title 28, chapter 22, new sections 28–2701 through 28–2708, and section 13 which added, under Arizona Revised Statutes, title 41, chapter 15, Article 6 new sections 41–2125A and 41–2125B. (Oxygenated fuels program for Pima County.)

(66) The following amendments to the plan were submitted by the Governor's designee on July 22, 1988.

(i) *Incorporation by reference.* (A) Letter from the Pima County Health Department, Office of Environmental Quality, dated April 24, 1988 committing to administer the New Source Review provisions of their regulations consistent with EPA's requirements. The commitments apply to the issuance of, or revision to, permits for any source which is a major stationary source of major modification as defined in 40 Code of Federal Regulations, part 51, subpart I.

(B) Letter from Maricopa County Department of Health Services, Division of Public Health, dated April 28, 1988 and submitted to EPA by the Arizona Department of Environmental Quality July 25, 1988, committing to administer the New Source Review provisions of their regulations, consistent with EPA's requirements. These commitments apply to the issuance of, or revision to, permits for any source which is a major stationary source or major modification as defined in the Code of Federal Regulations, part 51, subpart I.

(C) Addendum to MAG 1987 Carbon Monoxide Plan for the Maricopa County Nonattainment Area, July 21, 1988 (supplemental information related to the SIP revision of July 18, 1988).

(D) Commitment in the July 22, 1988 submittal letter to apply the oxygenated fuels program of the July 18, 1988 submittal to Pima County.

(67) Regulations for the Maricopa County Bureau of Air Pollution Control were submitted on January 4, 1990 by the Governor's designee.

(i) *Incorporation by reference.* (A) Amended regulations: Regulation II, rule 220 and Regulation III, rule 335, both adopted July 13, 1988.

(B) Amended Maricopa County Division of Air Pollution Control Rule 314, adopted July 13, 1988.

(C) Amended Regulation VI, Rule 600, revised on July 13, 1988.

(D) Rules 312 and 314, adopted on July 13, 1998.

(68) The following amendments to the plan were submitted by the Governor's designee on June 11, 1991.

(i) *Incorporation by reference.* (A) Arizona Revised Statutes.

(*1*) House Bill 2181 (approved, May 21, 1991), section 1: Arizona Revised Statute (A.R.S.) 41–2065 (amended); section 2: A.R.S. 41–2083 (amended); section 3: A.R.S. section 41–2122 (amended); section 4: A.R.S. Section 41–2123 (amended); and section 5: A.R.S. section 41–2124 (repealed).

(69) The following amendment to the plan was submitted by the Governor's designee on May 27, 1994.

(i) *Incorporation by reference.* (A) *Arizona Department of Weights and Measures.* (*1*) Letter from Grant Woods, Attorney General, State of Arizona, to John U. Hays, Director, Department of Weights and Measures, dated August 31, 1993, and enclosed Form R102 (''Certification of Rules and Order of Rule Adoption'').

(*2*) Arizona Administrative Code, Article 9 (''Gasoline Vapor Control''), Rules R4–31–901 through R4–31–910, adopted August 27, 1993, effective (for state purposes) on August 31, 1993.

(70) New and amended regulations for the Maricopa County Environmental Services Department—Air Pollution Control were submitted on June 29, 1992, by the Governor's designee.

(i) *Incorporation by reference.* (A) New Rules 337, 350, and 351, adopted on April 6, 1992.

(71) New and amended regulations for the following agencies were submitted on August 15, 1994 by the Governor's designee.

(i) *Incorporation by reference.* (A) Pinal County Air Quality Control District.

(*1*) Chapter 1, Article 3, section 1–3–140, subsections 5, 15, 21, 32, 33, 35, 50, 51, 58, 59, 103, and 123, adopted on November 3, 1993; Chapter 3, Article 1, section 3–1–081(A)(8)(a), adopted on November 3, 1993; Chapter 3, Article 1, section 3–1–084, adopted on August 11, 1994; and Chapter 3, Article 1, section 3–1–107, adopted on November 3, 1993.

(72) New and amended plans and regulations for the following agencies were submitted on November 13, 1992 by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) Small Business Stationary Source Technical and Environmental Compliance Assistance Program, adopted on November 13, 1992.

(B) Maricopa County Environmental Quality and Community Services Agency.

(*1*) Rule 340, adopted on September 21, 1992.

(73) [Reserved]

(74) Plan revisions were submitted by the Governor's designee on March 3, 1994.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department new Rule 316, adopted July 6, 1993, and revised Rule 311, adopted August 2, 1993. Note: These rules are restored as elements of the State of Arizona Air Pollution Control Implementation Plan effective September 3, 1997.

(B) [Reserved]

(75) Program elements submitted on November 14, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) Basic and Enhanced Inspection and Maintenance Vehicle Emissions Program. Adopted on September 15, 1994.

(76) Program elements were submitted on February 1, 1995 by the Governor's designee.

(i) *Incorporation by reference.* (A) Small Business Stationary Source Technical and Environmental Compliance Assistance Program, adopted on February 1, 1995.

(77) Amended regulations for the following agency were submitted on December 19, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department.

(*1*) Rule 334, adopted on September 20, 1994.

(78) New and amended regulations for the Maricopa County Environmental Services Department—Air Pollution Control were submitted on February 4, 1993, by the Governor's designee.

(i) *Incorporation by reference.* (A) New Rule 352, adopted on November 16, 1992.

(B) Rule 100, Section 504 adopted on November 16, 1992.

(C) Rule 339, adopted on November 16, 1992.

(79) New and amended regulations for the following agencies were submitted on June 29, 1992 by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Quality and Community Services Agency.

(*1*) Rule 353, adopted on April 6, 1992.

(80) New and amended regulations for the following agencies were submitted on August 10, 1992 by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Quality and Community Services Agency.

(*1*) Rules 331 and 333, adopted on June 22, 1992.

(81) Amended regulation for the following agency was submitted on August 16, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department.

(*1*) Rule 341, adopted on August 5, 1994.

(82) New and amended rules and regulations for the Maricopa County Environmental Services Department—Air Pollution Control were submitted on August 31, 1995, by the Governor's designee.

(i) *Incorporated by reference.* (A) Rule 343, adopted on February 15, 1995.

(B) [Reserved]

(C) Rule 351, revised on February 15, 1995.

(D) Rule 318 and Residential Woodburning Restriction Ordinance, adopted on October 5, 1994.

(E) Maricopa County.

(*1*) Ordinance P–7, Maricopa County Trip Reduction Ordinance, adopted May 26, 1994.

(83) New and revised rules and regulations for the Maricopa County Environmental Services Department-Air Pollution Control were submitted on February 26, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) Rules 331, 333, and 334, revised on June 19, 1996, and Rule 338, adopted on June 19, 1996.

(B) Rule 336, adopted on July 13, 1988 and revised on June 19, 1996.

(84) Amended regulations for the Pinal County Air Quality Control District were submitted on November 27, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) Rules 1–1–020, 1–1–030, 1–1–040, 1–1–060, 1–1–070, 1–1–080, 1–1–100, 1–2–110, 2–1–010, 2–1–020, 2–1–030, 2–1–040, 2–1–050, 2–1–060, 2–1–070, 2–2–080, 2–2–090, 2–3–100, 2–3–110, 2–4–120, 2–4–130, 2–4–140, 2–4–150, 2–5–170, 2–5–210, 2–6–220, 2–7–230, 2–7–240, 2–7–250, 2–7–260, 2–7–270, 3–1–020, 3–1–132, adopted on June 29, 1993.

(B) Rules 1–1–090, 1–2–120, 3–1–010, 3–1–030, 3–1–055, 3–1–065, 3–1–070, 3–1–082, 3–1–085, 3–1–087, 3–1–090, 3–1–102, 3–1–105, 3–1–110, 3–1–120, 3–1–140, 3–1–150, 3–1–160, 3–1–170, 3–1–173, 3–1–175, 3–1–177, 3–2–180, 3–2–185, 3–2–190, 3–2–195, 3–3–200, 3–3–203, 3–3–205, 3–3–260, 3–3–270, 3–3–275, 3–3–280, adopted on November 3, 1993.

(C) Rules 1–1–010, 1–1–106, 2–5–190, 2–5–200, 3–1–042, 3–1–060, 3–1–081, 3–1–083, 3–1–084, 3–1–089, 3–1–103, 3–1–107, 3–1–109, 3–3–210, 3–3–250, adopted on February 22, 1995.

(D) Rules 1–3–130, 1–3–140, 2–5–160, 2–5–180, 3–1–040, 3–1–050, adopted on October 12, 1995.

(E) Rules 5–22–950, 5–22–960, and 5–24–1045 codified on February 22, 1995.

(F) Amendments to Rules 5–18–740, 5–19–800, and 5–24–1055 adopted on February 22, 1995.

(G) Previously approved on April 9, 1996 in paragraph (c)(84)(i)(A) of this section and now deleted without replacement, Rule 3–1–020.

(H) Previously approved on April 9, 1996 in paragraph (c)(84)(i)(D) of this section and now deleted without replacement, Rule 1–3–130.

(I) Rules 2–8–280, 2–8–290, 2–8–300, 2–8–310, and 2–8–320, adopted on June 29, 1993.

(J) Rules 3–8–700 and 3–8–710, amended on February 22, 1995.

(K) Rule 5–24–1040, codified on February 22, 1995.

(L) Rules 4–2–020, 4–2–030, and 4–2–040, adopted on June 29, 1993.

(M) Rule 5–24–1032, ''Federally Enforceable Minimum Standard of Performance—Process Particulate Emissions,'' codified February 22, 1995.

(85) New and revised rules and regulations for the Maricopa County Environmental Services Department-Air Pollution Control were submitted on March 4, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) Rule 337, revised on November 20, 1996, and Rules 342 and 346, adopted on November 20, 1996.

(86) [Reserved]

(87) New and amended fuel regulations for the following Arizona Department of Environmental Quality plan revisions were submitted on April 29, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Revised Statutes.

(*1*) Section 13 of H.B, 2001 (A.R.S. § 41–2083(E)), adopted on November 12, 1993.

(88) Plan revisions were submitted on May 7, 1997 by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department.

(*1*) Rule 310, adopted September 20, 1994.

(*2*) Resolution To Improve the Administration of Maricopa County's Fugitive Dust Program and to Foster Interagency Cooperation, adopted May 14, 1997.

(B) The City of Phoenix, Arizona.

(*1*) A Resolution of the Phoenix City Council Stating the City's Intent to Work Cooperatively with Maricopa County to Control the Generation of Fugitive Dust Pollution, adopted April 9, 1997.

(C) The City of Tempe, Arizona.

(*1*) A Resolution of the Council of the City of Tempe, Arizona, Stating Its Intent to Work Cooperatively with Maricopa County to Control the Generation of Fugitive Dust Pollution, adopted March 27, 1997.

(D) The Town of Gilbert, Arizona.

(*1*) A Resolution of the Mayor and the Common Council of the Town of Gilbert, Maricopa County, Arizona, Providing for the Town's Intent to Work Cooperatively with Maricopa County, Arizona, to Control the Generation of Fugitive Dust Pollution, adopted April 15, 1997.

(E) The City of Chandler, Arizona.

(*1*) A Resolution of the City Council of the City of Chandler, Arizona, Stating the City's Intent to Work Cooperatively with Maricopa County to Control the Generation of Fugitive Dust Pollution, adopted March 27, 1997.

(F) The City of Glendale, Arizona.

(*1*) A Resolution of the Council of the City of Chandler, Maricopa County, Arizona, Stating Its Intent to Work Cooperatively with Maricopa County to Control the Generation of Fugitive Dust Pollution, adopted March 25, 1997.

(G) The City of Scottsdale, Arizona.

(*1*) A Resolution of the Scottsdale City Council Stating the City's Intent to Work Cooperatively with Maricopa County to Control the Generation of Fugitive Dust Pollution, adopted March 31, 1997.

(H) The City of Mesa, Arizona.

(*1*) A Resolution of the Mesa City Council Stating the City's Intent to Work Cooperatively with Maricopa County to Control the Generation of Particulate Air Pollution and Directing City Staff to Develop a Particulate Pollution Control Ordinance Supported by Adequate Staffing Levels to Address Air Quality, adopted April 23, 1997.

(89) Plan revisions were submitted on September 12, 1997 by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Cleaner Burning Gasoline Interim rule submitted as a revision to the Maricopa Country Ozone Nonattainment Area Plan, adopted on September 12, 1997.

(90) Plan revisions were submitted on January 21, 1998 by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Cleaner Burning Gasoline Interim rule submitted as a revision to the PM–10 Maricopa County State Implementation Plan, adopted on September 12, 1997.

(91) The following amendments to the plan were submitted on October 6, 1997 by the Governor's designee.

(i) *Incorporation by reference.* (A) 1996 Carbon Monoxide Limited Maintenance Plan for the Tucson Air Planning Area (as updated August, 1997).

(1) Base year (1994) emissions inventory and contingency plan, including commitments to follow maintenance plan contingency procedures by the Pima Association of Governments and by the member jurisdictions: the town of Oro Valley, Arizona (Resolution No. (R) 96–38, adopted June 5, 1996), the City of South Tucson (Resolution No. 96–16, adopted on June 10, 1996), Pima County (Resolution and Order No. 1996–120, adopted June 18, 1996), the City of Tucson (Resolution No. 17319, adopted June 24, 1996), and the town of Marana, Arizona (Resolution No. 96–55, adopted June 18, 1996).

(B) Arizona Revised Statutes. Senate Bill 1002, Sections 26, 27 and 28: ARS 41–2083 (amended), 41–2122 (amended), 41–2125 (amended), adopted on July 18, 1996.

(92) Plan revisions were submitted on March 3, 1995, by the Governor's designee.

(A) Arizona State Administrative Code Title 18, Chapter 2, Article 14, adopted on December 23, 1994.

(93) Plan revisions were submitted on September 4, 1998 by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Revised Statute 49–457.

(94) New and amended rules and regulations for the Maricopa County Environmental Services Department-Air Pollution Control were submitted on August 4, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) Rule 336, adopted on July 13, 1988 and revised on April 7, 1999 and Rule 348, adopted on April 7, 1999.

(B) Rule 318 and Residential Woodburning Restriction Ordinance, revised on April 21, 1999.

(C) Rule 347, adopted on March 4, 1998.

(D) Rule 316, adopted on April 21, 1999.

(E) Rule 344, adopted on April 7, 1999.

(F) Rule 349, adopted on April 7, 1999.

(G) Rule 331, revised on April 7, 1999.

(95) The following amendments to the plan were submitted on August 11, 1998 by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Revised Statutes.

(*1*) Senate Bill 1427, Section 14: ARS 49–401.01 (amended) and Section 15: 49–406 (amended), approved on May 29, 1998.

(96) The following amendments to the plan were submitted on September 1, 1999 by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Revised Statutes.

(*1*) House Bill 2254, Section 1: ARS 41–3009.01 (amended); Section 2: 49–541.01 (amended); Section 3: 49–542 (amended); Section 4: 49–545 (amended); Section 5: 49–557 (amended); Section 6: 49–573 (amended); Section 7: 41–803 (amended) and Section 8: 41–401.01 (amended), adopted on May 18, 1999.

(*2*) House Bill 2189, Section 3: ARS 41–796.01 (amended); Section 9: 41–2121 (amended); Section 40: 49–401.01 (amended), Section 41: 49–402 (amended); Section 42: 49–404 (amended): Section 43:49–454 (amended); Section 44: 49–541 (amended); and Section 46: 49–571 (amended), adopted on May 18, 1999

(97) New and amended rules for the Arizona Department of Environmental Quality were submitted on March 26, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) Rules R18–2–310 and R18–2–310.01 effective on February 15, 2001.

(98) Plan revisions were submitted on July 11, 2000 by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Administrative Code R18–2–610 and R18–2–611 effective May 12, 2000.

(99) Plan revisions submitted on January 28, 2000 by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County, Arizona.

(*1*) Residential Woodburning Restriction Ordinance adopted on November 17, 1999.

(100) Plan revisions submitted on February 16, 2000 by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa Association of Governments, Maricopa County, Arizona.

(*1*) Resolution to Adopt the Revised MAG 1999 Serious Area Particulate

Plan for PM–10 for the Maricopa County Nonattainment Area (including Exhibit A, 2 pages), adopted on February 14, 2000.

(B) City of Avondale, Arizona.

(*1*) Resolution No. 1711–97; A Resolution of the City Council of the City of Avondale, Maricopa County, Arizona, To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 14 pages), adopted on September 15, 1997.

(*2*) Resolution No. 1949–99; A Resolution of the Council of the City of Avondale, Maricopa County, Arizona, Implementing Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 7 pages), adopted on February 16, 1999.

(C) Town of Buckeye, Arizona.

(*1*) Resolution No. 15–97; A Resolution of the Town Council of the Town of Buckeye, Maricopa County, Arizona, To Implement Measures in the MAG 1997 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 5 pages), adopted on October 7, 1997.

(D) Town of Carefree, Arizona.

(*1*) Town of Carefree Resolution No. 97–16; A Resolution of the Mayor and Common Council of the Town of Carefree, Arizona, To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 3 pages), adopted on September 2, 1997.

(*2*) Town of Carefree Resolution No. 98–24; A Resolution of the Mayor and Common Council of the Town of Carefree, Arizona, To Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 4 pages), adopted on September 1, 1998.

(*3*) Town of Carefree Ordinance No. 98–14; An Ordinance of the Town of Carefree, Maricopa County, Arizona, Adding Section 10–4 to the Town Code Relating to Clean-Burning Fireplaces, Providing Penalties for Violations (3 pages), adopted on September 1, 1998.

(E) Town of Cave Creek, Arizona.

(*1*) Resolution R97–28; A Resolution of the Mayor and Town Council of the Town of Cave Creek, Maricopa County, Arizona, Implementing Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 4 pages), adopted on September 2, 1997.

(*2*) Resolution R98–14; A Resolution of the Mayor and Town Council of the Town of Cave Creek, Maricopa County, Arizona, To Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 1 page), adopted on December 8, 1998.

(F) City of Chandler, Arizona.

(*1*) Resolution No. 2672; A Resolution of the City Council of the City of Chandler, Arizona To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 16 pages), adopted on August 14, 1997.

(*2*) Resolution No. 2929; A Resolution of the City Council of the City of Chandler, Arizona, To Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 9 pages), adopted on October 8, 1998.

(G) City of El Mirage, Arizona.

(*1*) Resolution No. R97–08–20; Resolution To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 8 pages), adopted on August 28, 1997.

(*2*) Resolution No. R98–08–22; A Resolution of the Mayor and Common Council of the City of El Mirage, Arizona, Amending Resolution No. R98–02–04 To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 5 pages), adopted on August 27, 1998.

(*3*) Resolution No. R98–02–04; A Resolution To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 5 pages), adopted on February 12, 1998.

(H) Town of Fountain Hills, Arizona.

(*1*) Resolution No. 1997–49; A Resolution of the Common Council of the Town of Fountain Hills, Arizona, Adopting the MAG 1997 Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area and Committing to Certain Implementation Programs (including Exhibit B, 5 pages and cover), adopted on October 2, 1997.

(*2*) Town of Fountain Hills Resolution No. 1998–49; Resolution To Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 7 pages), adopted on October 1, 1998. [INCORPORATION NOTE: Incorporated materials are pages 4 to 10 of the 11-page resolution package; pages 1 and 2 are cover sheets with no substantive content and page 11 is a summary of measures previously adopted by the Town of Fountain Hills.]

(I) Town of Gilbert, Arizona.

(*1*) Resolution No. 1817; A Resolution of the Common Council of the Town of Gilbert, Maricopa County, Arizona, Authorizing the Implementation of the MAG 1997 Serious Area Particulate Plan for PM–10 and the MAG Serious Area Carbon Monoxide Plan for the Maricopa County Area (including 15 pages of attached material), adopted on June 10, 1997.

(*2*) Resolution No. 1864; A Resolution of the Common Council of the Town of Gilbert, Arizona, Implementing Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Attachment A, 5 pages), adopted on November 25, 1997. [INCORPORATION NOTE: Attachment A is referred to as Exhibit A in the text of the Resolution.]

(*3*) Ordinance 1066; An Ordinance of the Common Council of the Town of Gilbert, Arizona Amending the Code of Gilbert by Amending Chapter 30 *Environment,* by adding New Article II *Fireplace Restrictions* Prescribing Standards for Fireplaces, Woodstoves, and Other Solid-Fuel Burning Devices in New Construction; Providing for an Effective Date of January 1, 1999; Providing for Repeal of Conflicting Ordinances; Providing for Severability (3 pages), adopted on November 25, 1997.

(*4*) Resolution No. 1939: A Resolution of the Common Council of the Town of Gilbert, Arizona, Expressing its Commitment to Implement Measures in the Maricopa Association of Governments (MAG) 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Attachment A, 5 pages), adopted on July 21, 1998. [INCORPORATION NOTE: Attachment A is referred to as Exhibit A in the text of the Resolution.]

(J) City of Glendale, Arizona.

(*1*) Resolution No. 3123 New Series; A Resolution of the Council of the City of Glendale, Maricopa County, Arizona, Implementing Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 20 pages), adopted on June 10, 1997.

(*2*) Resolution No. 3161 New Series; A Resolution of the Council of the City of Glendale, Maricopa County, Arizona, Implementing Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 6 pages), adopted on October 28, 1997.

(*3*) Resolution No. 3225 New Series; A Resolution of the Council of the City of Glendale, Maricopa County, Arizona, Implementing Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 9 pages), adopted on July 28, 1998.

(K) City of Goodyear, Arizona.

(*1*) Resolution No. 97–604 Carbon Monoxide Plan; A Resolution of the Council of the City of Goodyear, Maricopa County, Arizona, Implementing Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 21 pages), adopted on September 9. [INCORPORATION NOTE: Adoption year not given on the resolution but is understood to be 1997 based on resolution number.]

(*2*) Resolution No. 98–645; A Resolution of the Council of the City of Goodyear, Maricopa County, Arizona, Implementing Measures in the MAG 1998 Serious Area Particulate Plan for PM–10

for the Maricopa County Area (including Attachment III, 7 pages), adopted on July 27, 1998.

(L) City of Mesa, Arizona.

(*1*) Resolution No. 7061; A Resolution of the City Council of the City of Mesa, Maricopa County, Arizona, to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 13 pages plus index page), adopted on June 23, 1997.

(*2*) Resolution No. 7123; A Resolution of the City Council of the City of Mesa, Maricopa County, Arizona, to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 10 pages), adopted on December 1, 1997.

(*3*) Resolution No. 7360; A Resolution of the City Council of the City of Mesa, Maricopa County, Arizona, to Implement Measures in the MAG Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 8 pages), adopted on May 3, 1999.

(*4*) Ordinance No. 3434; An Ordinance of the City Council of the City of Mesa, Maricopa County, Arizona, Relating to Fireplace Restrictions Amending Title 4, Chapter 1, Section 2 Establishing a Delayed Effective Date; and Providing Penalties for Violations (3 pages), adopted on February 2, 1998.

(M) Town of Paradise Valley, Arizona.

(*1*) Resolution Number 913; A Resolution of the Town of Paradise Valley, to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 9 pages), adopted on October 9, 1997.

(*2*) Resolution Number 945; A Resolution of the Mayor and Town Council of the Town of Paradise Valley, Arizona, to Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 5 pages), adopted on July 23, 1998.

(*3*) Ordinance Number 454; An Ordinance of the Town of Paradise Valley, Arizona, Relating to Grading and Dust Control, Amending Article 5–13 of the Town Code and Sections 5–13–1 Through 5–13–5, Providing Penalties for Violations and Severability (5 pages), adopted on January 22, 1998. [INCORPORATION NOTE: There is an error in the ordinance's title, ordinance amended only sections 5–13–1 to 5–13–4; see section 1 of the ordinance.]

(*4*) Ordinance Number 450; An Ordinance of the Town of Paradise Valley, Arizona, Adding Section 5–1–7 to the Town Code Relating to Clean-Burning Fireplaces, Providing Penalties for Violations (3 pages), adopted on December 18, 1997.

(N) City of Peoria, Arizona.

(*1*) Resolution No. 97–37; A Resolution of the Mayor and Council of the City of Peoria, Arizona, to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibits A, 5 pages, and B, 19 pages), adopted on June 17, 1997.

(*2*) Resolution No. 97–113; A Resolution of the Mayor and Council of the City of Peoria, Arizona, to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area and Directing the Recording of This Resolution with the Maricopa County Recorder and Declaring an Emergency (including Exhibit A, 8 pages plus index page), adopted on October 21, 1997.

(*3*) Resolution No. 98–107; A Resolution of the Mayor and Council of the City of Peoria, Arizona, to Approve and Authorize the Acceptance to Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 7 pages), adopted on July 21, 1998.

(O) City of Phoenix, Arizona.

(*1*) Resolution No. 18949; A Resolution Stating the City's Intent to Implement Measures to Reduce Air Pollution (including Exhibit A, 19 pages), adopted on July 2, 1997.

(*2*) Resolution No. 19006; A Resolution Stating the City's Intent to Implement Measures to Reduce Air Pollution (including Exhibit A, 13 pages), adopted on November 19, 1997.

(*3*) Ordinance No. G4037; An Ordinance Amending Chapter 39, Article 2,

Section 39–7 of the Phoenix City Code by Adding Subsection G Relating to Dust Free Parking Areas; and Amending Chapter 36, Article XI, Division I, Section 36–145 of the Phoenix City Code Relating to Parking on Non-Dust Free Lots, adopted on July 2, 1997 (5 pages).

(*4*) Resolution No. 19141; A Resolution Stating the City's Intent to Implement Measures to Reduce Particulate Air Pollution (including Exhibit A, 10 pages), adopted on September 9, 1998.

(*5*) Ordinance No. G4062; An Ordinance Amending the Phoenix City Code By Adding A New Chapter 40 ''Environmental Protections,'' By Regulating Fireplaces, Wood Stoves and Other Solid-Fuel Burning Devices and Providing that the Provisions of this Ordinance Shall Take Effect on December 31, 1998 (5 pages), adopted on December 10, 1997.

(P) Town of Queen Creek, Arizona.

(*1*) Resolution 129–97; A Resolution of the Town Council of the Town of Queen Creek, Maricopa County, Arizona to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 3 pages), adopted on June 4, 1997.

(*2*) Resolution 145–97; A Resolution of the Town Council of the Town of Queen Creek, Maricopa County, Arizona to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 1 page), adopted on November 5, 1997.

(*3*) Resolution 175–98; A Resolution of the Town Council of the Town of Queen Creek, Maricopa County, Arizona to Implement Measures in the MAG 1998 Serious Area Particulate Plan for the Maricopa County Area (including Exhibit A, 9 pages), adopted on September 16, 1998.

(Q) City of Scottsdale, Arizona.

(*1*) Resolution No. 4864; A Resolution of the City of Scottsdale, Maricopa County, Arizona, To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area: Stating the Council's Intent to Implement Certain Control Measures Contained in that Plan (including Exhibit A, 21 pages), adopted on August 4, 1997.

(*2*) Resolution No. 4942; Resolution of the Scottsdale City Council To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 13 pages), adopted on December 1, 1997.

(*3*) Resolution No. 5100; A Resolution of the City of Scottsdale, Maricopa County, Arizona, To Strengthen Particulate Dust Control and Air Pollution Measures in the Maricopa County Area (including Exhibit A, 10 pages), adopted on December 1, 1998.

(R) City of Surprise, Arizona.

(*1*) Resolution No. 97–29; A Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 4 pages), adopted on June 12, 1997.

(*2*) Resolution No. 97–67; A Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 3 pages), adopted on October 23, 1997.

(*3*) Resolution No. 98–51; A Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 6 pages), adopted on September 10, 1998.

(S) City of Tempe, Arizona.

(*1*) Resolution No. 97.39; Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 18 pages), adopted on June 12, 1997.

(*2*) Resolution No. 97.71, Resolution of the Council of the City of Tempe Stating Its Intent to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 6 pages), adopted on November 13, 1997.

(*3*) Resolution No. 98.42, Resolution of the Council of the City of Tempe Implementing Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 8 pages), adopted on September 10, 1998.

(T) City of Tolleson, Arizona.

(*1*) Resolution No. 788, A Resolution of the Mayor and City Council of the City of Tolleson, Maricopa County, Arizona, Implementing Measures in the Maricopa Association of Governments (MAG) 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 12 pages), adopted on June 10, 1997.

(*2*) Resolution No. 808, A Resolution of the Mayor and City Council of the City of Tolleson, Maricopa County, Arizona, Implementing Measures in the Maricopa Association of Governments (MAG) 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A), adopted on July 28, 1998.

(*3*) Ordinance No. 376, N.S., An Ordinance of the City of Tolleson, Maricopa County, Arizona, Amending Chapter 7 of the Tolleson City Code by Adding a New Section 7–9, Prohibiting the Installation or Construction of a Fireplace or Wood Stove Unless It Meets the Standards Set Forth Herein (including Exhibit A, 4 pages), adopted on December 8, 1998.

(U) Town of Wickenburg, Arizona.

(*1*) Resolution No. 1308, Resolution To Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 4 pages), adopted on August 18, 1997.

(V) Town of Youngtown, Arizona.

(*1*) Resolution No. 97–15, Resolution To Implement Measures in the MAG 1997 Serious Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 4 pages), adopted on September 18, 1997.

(*2*) Resolution No. 98–15: Resolution To Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 8 pages), adopted on August 20, 1998.

(*3*) Resolution No 98–05: Resolution Stating Intent to Work Cooperatively with Maricopa County to Control the Generation of Fugitive Dust Pollution (including Exhibit A, 2 pages), adopted February 19, 1998.

(W) Maricopa County, Arizona.

(*1*) Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1A998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 16 pages), adopted on June 25, 1997. [INCORPORATION NOTE: ''1A998'' error in the original.]

(*2*) Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 9 pages), adopted on November 19, 1997.

(*3*) Resolution to Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 10 pages), adopted on February 17, 1999.

(*4*) Resolution to Implement Measures in the MAG 1999 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 10 pages), adopted on December 15, 1999.

(X) Arizona Department of Transportation, Phoenix, Arizona.

(*1*) Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 24 pages plus index page), adopted on June 20, 1997.

(*2*) Resolution to Implement Measures in the MAG 1998 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 8 pages), adopted on July 17, 1998.

(Y) Regional Public Transportation Authority, Phoenix, Arizona.

(*1*) Resolution #9701: Resolution to Implement Measures in the MAG 1997 Serious Area Particulate Plan for PM–10 and MAG 1998 Serious Area Carbon Monoxide Plan for the Maricopa County Area (including Exhibit A, 23 pages), adopted on June 12, 1997.

(Z) State of Arizona.

(*1*) Arizona Revised Statute Section 49–542(F)(7) as added in Section 31 of Arizona Senate Bill 1002, 42nd Legislative Session, 7th Special Session (1996), approved by the Governor July 18, 1996.

(101) Plan revisions submitted on March 2, 2000, by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department.

(*1*) Rule 310 revised on February 16, 2000.

(*2*) Rule 310.01 adopted on February 16, 2000.

(*3*) Appendix C revised on February 16, 2000.

(102) Plan revisions submitted on January 8, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (1) Maricopa County, Arizona.

(*1*) Resolution to Update Control Measure 6 in the Revised MAG 1999 Serious Area Particulate Plan for PM–10 for the Maricopa County Area (including Exhibit A, 2 pages), adopted on December 19, 2001.

(103) The following plan was submitted on February 7, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(1) Bullhead City Moderate Area PM_{10} Maintenance Plan and Request for Redesignation to Attainment, adopted on February 7, 2002.

(104) The following plan was submitted on March 29, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(1) Payson Moderate Area PM_{10} Maintenance Plan and Request for Redesignation to Attainment, adopted on March 29, 2002.

(B) [Reserved]

(105) Amended rule for the following agency was submitted on March 22, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department.

(*1*) Rule 314, revised on December 19, 2001.

(106) Amended rule for the following agency was submitted on February 22, 2002, by the governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department.

(*1*) Rule 140, revised on September 5, 2001.

(107) Amended rules for the following agency were submitted on October 7, 1998 by the Governor's designee.

(i) *Incorporation by reference.* (A) Pinal County Air Quality Control District.

(*1*) Rule 1–3–140, adopted on June 29, 1993 and amended on July 29, 1998.

(*2*) Rule 4–2–050, adopted on May 14, 1997.

(108) Revisions to the Arizona State Implementation Plan for the Motor Vehicle Inspection and Maintenance Programs, submitted on July 6, 2001.

(i) *Incorporation by reference.* (A) Arizona Revised Statutes.

(*1*) Section 49–551 as amended in Section 27 of Arizona Senate Bill 1427, 43rd Legislature, 2nd Regular Session (1998), approved by the Governor on May 29, 1998.

(*2*) Section 49–544 as amended in Section 15 of Arizona Senate Bill 1007, 43rd Legislature, 4th Special Session (1998), approved by the Governor on May 20, 1998.

(*3*) Section 49–541 as amended in Section 44 of Arizona House Bill 2189, 44th Legislature, 1st Regular Session (1999), approved by the Governor on May 18, 1999.

(*4*) Section 49–542.01 repealed in Section 3 and Section 49–545 as amended in Section 5 of Arizona House Bill 2104, 44th Legislature, 2nd Regular session (2000), approved by the Governor on April 28, 2000.

(*5*) Section 49–542.05 as added in Section 23 of Arizona Senate Bill 1004, 44th Legislature, 7th Special Session (2000), approved by the Governor on December 14, 2000.

(B) Arizona Administrative Code.

(*1*) Title 18, Chapter 2, Article 10 (except for AAC R 18–2–1020) ''Motor Vehicles; Inspection and Maintenance'' as adopted on December 31, 2000.

(109) Revisions to the Arizona State Implementation Plan for the Motor Vehicle Inspection and Maintenance Programs, submitted on April 10, 2002 by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Revised Statutes.

(*1*) Section 49–542 as amended in Section 9, Section 49–543 as amended in Section 11, and Section 49–541.01 repealed in Section 29 of Arizona House Bill 2538, 45th Legislature, 1st Regular Session (2001), approved by the Governor on May 7, 2001.

(B) Arizona Administrative Code.

(*1*) Amendments to AAC R 18–2–1006 and 18–2–1019, and the repeal of AAC R 18–2–1014 and R 18–2–1015 effective January 1, 2002.

(110) New and amended regulations were submitted on July 15, 1998, and supplemented on May 16, 2014, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) Rules R18–2–701, R18–2–710, R18–2–725, R18–2–727, R18–2–801, R18–2–802, R18–2–803, R18–2–804, and R18–2–805, amended on November 15, 1993.

(*2*) Rules R18–2–715.02 and R18–2–715, Appendix 8 amended on November 15, 1993.

(*3*) Arizona Administrative Code, title 18 (''Environmental Quality''), chapter 2 (''Department of Environmental Quality—Air Pollution Control''), supp. 12–2, June 30, 2012: R18–2–601 (''General''); R18–2–604 (''Open Areas, Dry Washes, or Riverbeds''); R18–2–605 (''Roadways and Streets''); R18–2–606 (''Material Handling''); R18–2–607 (''Storage Piles''); and R18–2–614 (''Evaluation of Nonpoint Source Emissions''); R18–2–706 (''Standards of Performance for Existing Nitric Acid Plants''); R18–2–707 (''Standards of Performance for Existing Sulfuric Acid Plants''); R18–2–714 (''Standards of Performance for Existing Sewage Treatment Plants''); R18–2–723 (''Standards of Performance for Existing Concrete Batch Plants''); R18–2–726 (''Standards of Performance for Sandblasting Operations''); and R18–2–728 (''Standards of Performance for Existing Ammonium Sulfide Manufacturing Plants'').

(111) The following plan was submitted on June 18, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) Ajo Sulfur Dioxide State Implementation and Maintenance Plan, adopted by Arizona Department of Environmental Quality on June 18, 2002.

(112) Revised regulations were submitted on August 15, 2001, by the Governor's designee as part of the submittal entitled *Arizona Cleaner Burning Gasoline Rule to Revise the State Implementation Plan for the Maricopa County Carbon Monoxide, Ozone, and PM10 Nonattainment Areas.* The incorporated materials from this submittal supercede those included in the submittals entitled *SIP Revision, Arizona Cleaner Burning Gasoline Permanent Rules—Maricopa County Ozone Nonattainment Area,* submitted on February 24, 1999, and *State Implementation Plan Revision for the Cleaner Burning Gasoline Program in the Maricopa County Ozone Nonattainment Area,* submitted on March 29, 2001.

(i) *Incorporation by reference.* (A) Arizona Administrative Code.

(*1*) AAC R20–2–701, R20–2–716, R20–2–750 through 762, and Title 20, Chap. 2, Art. 7, Tables 1 and 2 (March 31, 2001).

(113) Revised statutes were submitted on January 22, 2004, by the Governor's designee as part of the submittal entitled *Supplement to Cleaner Burning Gasoline Program State Implementation Plan Revision.* The incorporated materials from this submittal supercede those included in the submittals entitled *SIP Revision, Arizona Cleaner Burning Gasoline Permanent Rules—Maricopa County Ozone Nonattainment Area,* submitted on February 24, 1999, *State Implementation Plan Revision for the Cleaner Burning Gasoline Program in the Maricopa County Ozone Nonattainment Area,* submitted on March 29, 2001, and *Arizona Cleaner Burning Gasoline Rule to Revise the State Implementation Plan for the Maricopa County Carbon Monoxide, Ozone, and PM10 Nonattainment Areas,* submitted August 15, 2001.

(i) *Incorporation by reference.* (A) Arizona Revised Statutes.

(*1*) ARS sections 49–541(1)(a), (b), and (c), 41–2124, 41–2123, 41–2113(B)(4), 41–2115, and 41–2066(A)(2) (as codified on March 31, 2001).

(114) The following plan was submitted on June 21, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) Morenci Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan, adopted by the Arizona Department of Environmental Quality on June 21, 2002.

(115) Amended regulations were submitted on January 16, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(1) Rule 18–2–101 (Paragraphs 41 and 111), amended on November 15, 1993 and Rule R–18–2–702, amended on December 26, 2003.

(116) New and amended regulations were submitted on September 12, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) Rules R18–2–715 (sections F, G, and H) and R18–2–715.01 amended on August 9, 2002.

(117) Amended regulation was submitted on July 28, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department.

(*1*) Rule 331 adopted on April 21, 2004.

(118) The following plan was submitted on April 18, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) *Revised MAG 1999 Serious Area Carbon Monoxide Plan for the Maricopa County Nonattainment Area*, dated March 2001, adopted by the Maricopa Association of Governments on March 28, 2001, and adopted by the Arizona Department of Environmental Quality on April 18, 2001.

(119) The following plan was submitted on June 16, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) *MAG Carbon Monoxide Redesignation Request and Maintenance Plan for the Maricopa County Nonattainment Area and Appendices*, dated May 2003, adopted by the Arizona Department of Environmental Quality on June 16, 2003.

(120) [Reserved]

(121) A plan revision was submitted on April 20, 2005 by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department.

(*1*) Permit V98–004, condition 23, W.R. Meadows of Arizona, Inc., Goodyear, AZ, adopted on February 17, 2005.

(122) A plan revision was submitted on April 25, 2005 by the Governor's designee.

(i) *Incorporation by reference.* (A) Maricopa County Environmental Services Department.

(*1*) Rule 358 adopted on April 20, 2005.

(123) The following plan was submitted on December 7, 1998, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) Letter and enclosures regarding Arizona's Intent to ''Opt-out'' of the Clean Fuel Fleet Program, adopted by the Arizona Department of Environmental Quality on December 7, 1998.

(124) The following plan was submitted on December 14, 2000, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) *Final Serious Area Ozone State Implementation Plan for Maricopa County*, dated December 2000, adopted by the Arizona Department of Environmental Quality on December 14, 2000.

(125) The following plan was submitted on April 21, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) *One-Hour Ozone Redesignation Request and Maintenance Plan for the Maricopa County Nonattainment Area*, dated March 2004, adopted by the Maricopa Association of Governments Regional Council on March 26, 2004 and adopted by the Arizona Department of Environmental Quality on April 21, 2004.

(126) The following plan was submitted on December 14, 2001, by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) Douglas Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan, dated November 29, 2001, adopted by the Arizona Department of Environmental Quality on December 14, 2001.

(127) The following plan was submitted on April 2, 2004, by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) Modeling Supplement—Douglas Sulfur Dioxide (SO_2) State Implementation and Maintenance Plan, adopted by the Arizona Department of Environmental Quality on April 2, 2004.

(128) The following plan was submitted on September 16, 2005, by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) Modeling and Emissions Inventory Supplement for the Douglas Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan and Redesignation Request, dated September 2005, adopted by the Arizona Department of Environmental Quality on September 16, 2005.

(129) The following amended rule was submitted on September 12, 2005, by the Governor's designee.

(i) Incorporation by reference.

(A) Pinal County Air Quality Control District.

(*1*) Rule 2–8–300, adopted on June 29, 1993 and amended on May 18, 2005.

(130) An amended regulation was submitted on March 1, 2006, by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) Rule R18–2–Appendix 8, adopted on December 22, 1976 and amended effective on July 18, 2005.

(131) The following amended rules were submitted on December 30, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) Arizona Department of Environmental Quality.

(*1*) Rule R18–2–602, adopted effective on May 14, 1979 and amended effective on March 16, 2004.

(*2*) Rules R18–2–1501, R18–2–1502, R18–2–1503, R18–2–1504, R18–2–1505, R18–2–1506, R18–2–1507, R18–2–1508, R18–2–1509, R18–2–1510, R18–2–1511, R18–2–1512, and R18–2–1513, adopted effective on October 8, 1996 and amended effective on March 16, 2004.

(B) Pima County Department of Environmental Quality.

(*1*) Rule 17.12.480, amended on October 19, 2004.

(C) Pinal County Air Quality Control District.

(*1*) Rules 3–8–700 and 3–8–710, adopted effective on June 29, 1993 and amended on October 27, 2004.

(132) The following plan revision was submitted on June 26, 2002, by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(1) Final Miami Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan (June 2002), chapter 7 (''Maintenance Plan''), adopted on June 26, 2002 by the Arizona Department of Environmental Quality.

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) Final Miami Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan (June 2002), excluding the cover page, and pages iii, 2, 3, 4, and 49; chapter 7 (''Maintenance Plan''); appendix A (''SIP Support Information''), sections A.1 (''Pertinent Sections of the Arizona Administrative Code'') and A.2 (''Information Regarding Revisions to AAC R18–2–715 and R18–2–715.01, 'Standards of Performance for Primary Copper Smelters: Site Specific Requirements; Compliance and Monitoring' ''); and appendix D (''SIP Public Hearing Documentation''), adopted on June 26, 2002 by the Arizona Department of Environmental Quality.

(*2*) Submittal of Corrections to the Final Miami Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan (June 2002), letter and enclosures (replacement pages for the cover page and pages iii, 2, 3, 4 and 49), dated June 30, 2004.

(*3*) Letter from Stephen A. Owens, Director, Arizona Department of Environmental Quality, dated June 20, 2006, withdrawing a section 107(d)(3)(D) boundary redesignation request included in the Miami Sulfur Dioxide Nonattainment Area State Implementation and Maintenance Plan and requesting a section 110(k)(6) error correction.

(133) The following statute and plan were submitted on December 23, 2005 by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Revised Statutes.

(*1*) Section 49–542 as amended in section 1 of the Arizona House Bill 2357, 47th Legislature, 1st Regular Session (2005) and approved by the Governor on April 13, 2005.

(ii) Additional material.

(A) Arizona Department of Environmental Quality.

(*1*) Final Arizona State Implementation Plan Revision, Basic and Enhanced Vehicle Emissions Inspection/Maintenance Programs (December 2005), adopted by the Arizona Department of Environmental Quality on December 23, 2005, excluding appendices.

(134) The following plan was submitted on October 3, 2006 by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) September 2006 Supplement to Final Arizona State Implementation Plan Revision, Basic and Enhanced Vehicle Emissions Inspection/Maintenance Programs, December 2005, adopted by the Arizona Department of Environmental Quality on October 3, 2006, excluding appendices.

(135) An amended regulation was submitted on June 8, 2006, by the Governor's designee.

(i) Incorporation by reference.

(A) Maricopa County Environmental Services Department.

(*1*) Rule 314, adopted on July 13, 1988 and amended on April 20, 2005.

(136) The following plan was submitted on May 24, 2007 by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) Revision to the Arizona State Implementation Plan Under Clean Air Act Section 110(a)(2)(D)(i)—Regional Transport (May 2007), adopted by the Arizona Department of Environmental Quality on May 24, 2007.

(137) The Administrator is approving the following elements of the *Revised PM–10 State Implementation Plan for the Salt River Area,* September 2005, submitted on October 7, 2005, by the Governor's designee.

(i) *Incorporation by reference.*

(A) Maricopa County Air Quality Department.

(*1*) Rule 325, adopted on August 10, 2005.

(*2*) Rule 310, revised on April 7, 2004.

(*3*) Appendix C, ''Fugitive Dust Test Methods,'' adopted on June 16, 1999, and revised on April 7, 2004.

(*4*) Appendix F, ''Soil Designations,'' adopted on April 7, 2004.

(*5*) Resolution No. C–85–05–005–0–00: Resolution to Implement Additional Measures for the Maricopa County, Arizona Serious PM–10 Nonattainment Area (including Exhibit A), adopted on January 19, 2005.

(B) City of Apache Junction.

(*1*) Resolution No. 04–24: A Resolution of the Mayor and City Council of the City of Apache Junction, Arizona, Implementing Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A), adopted on September 21, 2004.

(C) City of Avondale.

(*1*) Resolution No. 2448–04: A Resolution of the Council of the City of Avondale, Arizona, Implementing Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A), adopted on September 20, 2004.

(D) Town of Buckeye.

(*1*) Resolution No. 58–04: A Resolution of the Mayor and Town Council of the Town of Buckeye, Arizona, Implementing Measures to Reduce Reentrained Dust Emission from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A), adopted on November 16, 2004.

(E) City of Chandler.

(*1*) Resolution No. 3782: Resolution to Implement Measures to Reduce Re-entrained Dust Emissions from Identified Paved Roads in Chandler As Part of the Revised PM–10 State Implementation Plan for Air Quality (including Exhibit A and Exhibit B), adopted on October 14, 2004.

(F) City of El Mirage.

(*1*) Resolution No. R04–10–54: A Resolution of the Mayor and City Council of the City of El Mirage, Maricopa County, Arizona, Implementing Measures to Reduce Re-entrained Dust Emissions

from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A), adopted on October 28, 2004.

(G) Town of Fountain Hills.

(*1*) Resolution No. 2004–63: A Resolution of the Mayor and Council of the Town of Fountain Hills, Arizona, Implementing Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and Protocol to Reduce Reentrained Dust Emissions from Targeted Paved Roads), adopted on November 18, 2004.

(H) Town of Gilbert.

(*1*) Resolution No. 2575: A Resolution of the Common Council of the Town of Gilbert, Arizona to Implement Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and Town of Gilbert Protocol for Reducing PM–10 Emissions from ''High Dust'' Paved Roads), adopted on March 29, 2005.

(I) City of Glendale.

(*1*) Resolution No. 3796 New Series: A Resolution of the Council of the City of Glendale, Maricopa County, Arizona, Implementing Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and Glendale Targeted Street Sweeping Protocol to Reduce Dust Emissions), adopted on September 14, 2004.

(J) City of Goodyear.

(*1*) Resolution No. 04–941: A Resolution of the Mayor and Council of the City of Goodyear, Maricopa County, Arizona, to Authorize the City Manager to Implement Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and Protocol for Reducing Reentrained Dust Emissions from Targeted Paved Roads), adopted on October 25, 2004.

(K) City of Mesa.

(*1*) Resolution No. 8344: A Resolution of the City Council of the City of Mesa, Maricopa County, Arizona, Stating the City's Intent to Implement Measures to Reduce Particulate Pollution (including Exhibit A), adopted on October 4, 2004.

(L) Town of Paradise Valley.

(*1*) Resolution Number 1084: Resolution to Implement Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A), adopted on September 23, 2004.

(M) City of Peoria.

(*1*) Resolution No. 04–235: A Resolution of the Mayor and City Council of the City of Peoria, Maricopa County, Arizona, Implementing Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and City of Peoria Targeted Paved Roadways Dust Control Protocol, September 24, 2004), adopted on October 5, 2004.

(N) City of Phoenix.

(*1*) Resolution No. 20114: A Resolution Stating the City's Intent to Implement Measures to Reduce Air Pollution (including Exhibit A, City of Phoenix 2004 Protocol and Implementation Plan for Paved Streets with Potential for Dust Emissions, and Attachment A), adopted on June 16, 2004.

(O) City of Scottsdale.

(*1*) Resolution No. 6588: A Resolution of the Council of the City of Scottsdale, Maricopa County Arizona, Authorizing Implementation of Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and Attachment #1—Protocol to Reduce Reentrained Dust Emissions from Targeted Paved Roads), adopted on December 6, 2004.

(P) City of Surprise.

(*1*) Resolution No. 04–163: A Resolution of the Mayor and Council of the City of Surprise, Arizona, to Implement Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and Protocol), adopted on September 23, 2004.

(Q) City of Tempe.

(*1*) Resolution No. 2004.84: A Resolution of the Mayor and City Council of

the City of Tempe, Arizona, to Implement Measures to Reduce Re-entrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and Protocol for Reducing Re-entrained Dust Emissions from Targeted Paved Roads, September 30, 2004), adopted on September 30, 2004.

(R) City of Tolleson.

(*1*) Resolution No. 947: A Resolution of the Mayor and City Council of the City of Tolleson, Maricopa County, Arizona, Implementing Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A), adopted on September 28, 2004.

(S) Town of Youngtown.

(*1*) Resolution No. 05–01: Resolution to Implement Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A), adopted on January 20, 2005.

(T) Arizona Department of Transportation.

(*1*) Resolution to Implement Measures to Reduce Reentrained Dust Emissions from Targeted Paved Roads in the Revised PM–10 State Implementation Plan for the Salt River Area (including Exhibit A and Arizona Department of Transportation Plan to Reduce Reentrained Dust Emissions from Targeted Paved Roads), adopted on September 17, 2004.

(138) The Administrator is approving the following elements of the *Revised PM–10 State Implementation Plan for the Salt River Area*, Additional Submittals, September 2005, Additional Submittal in November 2005, submitted on November 29, 2005, by the Governor's designee.

(i) *Incorporation by reference.*

(A) Maricopa County Air Quality Department.

(*1*) Rule 310.01, adopted on June 16, 1999, and revised on February 17, 2005.

(*2*) Application for Dust Control Permit, adopted on June 22, 2005.

(*3*) Guidance for Application for Dust Control Permit, adopted on June 22, 2005.

(139) The following plan was submitted on July 5, 2007 by the Governor's designee.

(i) Incorporation by reference.

(A) Maricopa County Air Quality Department

(*1*) Rule 242, adopted on June 20, 2007.

(140) The following plan was submitted on June 7, 2007 by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality. (*1) Final Arizona State Implementation Plan Revision, San Manuel Sulfur Dioxide Nonattainment Area,* March 2007, Arizona Department of Environmental Quality.

(B) Maricopa County Air Quality Department.

(*1*) Rule 510, ''Air Quality Standards,'' excluding Appendix G to the Maricopa County Air Pollution Control Regulations, adopted on July 13, 1988 and revised on November 1, 2006.

(141) The following amended rules were submitted on July 10, 2008, by the Governor's designee.

(i) Incorporation by reference.

(A) Maricopa County.

(*1*) Ordinance P–26, ''Residential Woodburning Restriction Ordinance,'' adopted on October 5, 1994 and revised on March 26, 2008.

(B) Maricopa County Air Quality Department.

(*1*) Rule 314, ''Open Outdoor Fires and Indoor Fireplaces at Commercial and Institutional Establishments,'' adopted on July 13, 1988 and revised on March 12, 2008.

(*2*) Rule 316, ''Nonmetallic Mineral Processing,'' adopted on March 12, 2008.

(*3*) Rule 300, ''Visible Emissions,'' amended March 12, 2008.

(142) New and amended regulations were submitted on January 9, 2008, by the Governor's designee.

(i) Incorporation by reference.

(A) Maricopa County Air Quality Department.

(*1*) Rule 322, ''Power Plant Operations,'' adopted October 17, 2007.

(*2*) Rule 323, ''Fuel Burning Equipment from Industrial/Commercial/Institutional (ICI) Sources,'' adopted October 17, 2007.

(*3*) Rule 324, ''Stationary Internal Combustion (IC) Engines,'' adopted October 17, 2007.

(143) The 2008 Revision to the Carbon Monoxide Limited Maintenance Plan for the Tucson Air Planning Area (for 2010), adopted by the Pima Association of Governments on June 26, 2008, and adopted and submitted by the Arizona Department of Environmental Quality on July 10, 2008, excluding appendix D.

(144) Appendix D (Revised) (''Letter from Arizona Department of Environmental Quality re: Vehicle Emissions Inspection Program (VEIP), Revised to include supporting documents authorizing the VEIP from 2009 to 2017 (Chapter 171, Senate Bill 1531 from the 48th Regular Session of the Arizona Legislature and Arizona Revised Statute text A.R.S. 41–3017.01''), adopted as a Supplement to the Carbon Monoxide Limited Maintenance Plan for the Tucson Air Planning Area (for 2010) by the Pima Association of Governments on May 28, 2009, and adopted and submitted by the Arizona Department of Environmental Quality on June 22, 2009.

(145) New and amended regulations were submitted on June 12, 2009 by the Governor's designee.

(i) *Incorporation by Reference.*

(A) Pinal County Air Quality Control District.

(*1*) Rule 2–8–302, ''Performance Standards—Hayden PM–10 Non-attainment Area,'' adopted on January 7, 2009.

(*i*) Pinal County Board of Supervisors, Resolution No. 010709–AQ3, Pinal County Air Quality Control District, ''A Resolution of the Board of Supervisors of Pinal County, Adopting Certain Revisions to the Pinal County Air Quality Control District Rules, adopted January 7, 2009; to Wit: Rule 2–8–302 (Performance Standards—Hayden PM10 Nonattainment Area). Rule 4–2–020, ''Fugitive Dust—General,'' amended on December 4, 2002. Rule 4–2–030, ''Fugitive Dust—Definitions,'' amended on December 4, 2002. Chapter 4, Article 4, ''PM–10 Non-attainment Area Rules; Dustproofing and Stabilization for Commercial Unpaved Parking, Drive and Working Yards''; Section 4–4–100, ''General Provisions,'' amended on June 3, 2009; Section 4–4–110, ''Definitions,'' amended on June 3, 2009; Section 4–4–120, ''Objective Standards,'' amended on June 3, 2009; Section 4–4–130, ''Work Practice Standards,'' adopted on June 3, 2009; Section 4–4–140, ''Recordkeeping and Records Retention,'' adopted on June 3, 2009. Chapter 4, Article 5, ''PM–10 Non-attainment Area Rules; Stabilization for Residential Parking and Drives''; Section 4–5–150, ''Stabilization for Residential Parking and Drives; Applicability,'' amended on June 3, 2009; Section 4–5–160, ''Residential Parking Control Requirement,'' amended on June 3, 2009; Section 4–5–170, ''Deferred enforcement date,'' amended on June 3, 2009. Chapter 4, Article 7, ''Construction Sites in Non-Attainment Areas—Fugitive Dust''; Section 4–7–210, ''Definitions,'' adopted on June 3, 2009; Section 4–7–214, ''General Provisions,'' adopted on June 3, 2009; Section 4–7–218, ''Applicability; Development Activity,'' adopted on June 3, 2009; Section 4–7–222, ''Owner and/or Operator Liability,'' adopted on June 3, 2009; Section 4–7–226, ''Objective Standards; Sites,'' adopted on June 3, 2009; Section 4–7–230, ''Obligatory Work Practice Standards; Sites,'' adopted on June 3, 2009; Section 4–7–234, ''Non-attainment-Area Dust Permit Program; General Provisions,'' adopted on June 3, 2009; Section 4–7–238, ''Non-attainment Area Site Permits,'' adopted on June 3, 2009; Section 4–7–242, ''Nonattainment Area Block Permits,'' adopted on June 3, 2009; Section 4–7–246, ''Recordkeeping and Records Retention,'' adopted on June 3, 2009. Chapter 4, Article 9, ''Test Methods''; Section 4–9–320, ''Test Methods for Stabilization For Unpaved Roads and Unpaved Parking Lots,'' adopted on June 3, 2009; Section 4–9–340, ''Visual Opacity Test Methods,'' adopted on June 3, 2009.

(146) The following plan was submitted on April 12, 2010 by the Governor's designee.

(i) Incorporation by reference.

(A) Maricopa County Air Quality Department.

(*1*) Rule 310, ''Fugitive Dust From Dust-Generating Operations,'' adopted on January 27, 2010.

(*2*) Rule 310.01, ''Fugitive Dust From Non-Traditional Sources of Fugitive Dust,'' adopted on January 27, 2010.

(147) The following plan was submitted on July 10, 2008 by the Governor's designee.

(i) Incorporation by reference.

(A) Maricopa County Air Quality Department.

(*1*) Appendix C—''Fugitive Dust Test Methods,'' adopted on March 26, 2008.

(148) The following plan revision was submitted on September 21, 2009 by the Governor's designee.

(i) *Incorporation by reference.* (A) *Arizona Department of Weights and Measures.* (*1*) Arizona Revised Statutes, title 41 (State Government), chapter 15 (Department of Weights and Measures), as amended and supplemented by the general and permanent laws enacted through the First Special Session, and legislation effective January 11, 2011 of the First Regular Session of the Fiftieth Legislature (2011):

(i) Article 1 (General Provisions), section 41–2051 (''Definitions''), subsections (6) (''Certification''), (10) (''Department''), (11) (''Diesel fuel''), (12) (''Director''), and (13) (''E85''), amended by Laws 2008, Ch. 254, § 2;

(ii) Article 6 (Motor Fuel), section 41–2121 (''Definitions''), subsection (5) (''Gasoline'') amended by Laws 2007, Ch. 292, § 11; and

(iii) Article 7 (Gasoline Vapor Control), section 41–2131 (''Definitions''), added by Laws 1992, Ch. 299, § 6; section 41–2132 (''Stage I and stage II vapor recovery systems''), amended by Laws 2010, Ch. 181, § 2; and section 41–2133 (''Compliance schedules''), amended by Laws 1999, Ch. 295, § 17.

(*2*) Arizona Administrative Code, title 20, chapter 2, article 1 (Administration and Procedures), section R20–2–101 (''Definitions''), effective (for state purposes) on June 5, 2004.

(*3*) Arizona Administrative Code, title 20, chapter 2, article 9 (Gasoline Vapor Control):

(i) Sections R20–2–901 (''Material Incorporated by Reference''), R20–2–902 (''Exemptions''), R20–2–903 (''Equipment and Installation''), R20–2–904 (''Application Requirements and Process for Authority to Construct Plan Approval''), R20–2–905 (''Initial Inspection and Testing''), R20–2–910 (''Annual Inspection and Testing''), R20–2–911 (''Compliance Inspections''), and R20–2–912 (''Enforcement''), effective (for state purposes) on June 5, 2004.

(ii) Sections R20–2–907 (''Operation''), R20–2–908 (''Training and Public Education''), and R20–2–909 (''Recordkeeping and Reporting''), effective (for state purposes) on October 8, 1998.

(149) The following plan was submitted on June 13, 2007 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Materials.* (A) *Arizona Department of Environmental Quality.* (1) Letter dated June 13, 2007 from Stephen A. Owens, Director, ADEQ, to Wayne Nastri, Regional Administrator, United States Environmental Protection Agency, Region IX.

(2) Eight-Hour Ozone Plan for the Maricopa Nonattainment Area, dated June 2007, including Appendices, Volumes One and Two.

(150) The following plan was submitted on August 24, 2012, by the Governor's designee.

(i) [Reserved]

(ii) Additional material.

(A) Arizona Department of Environmental Quality.

(*1*) ''Final 2012 State Implementation Plan Nogales PM_{10} Nonattainment Area,'' dated August 24, 2012, including Appendices A–K, adopted on August 24, 2012.

(151) The following plan revisions were submitted on August 15, 1994 by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(1) Rule R18–2–220, Air pollution emergency episodes, Department of Environmental Quality-Air Pollution Control, amended effective September 26, 1990.

(2) A letter from Eric C. Massey, Director, Air Quality, Arizona Department of Environmental Quality, to Jared Blumenfeld, Regional Administrator, US EPA, dated August 30, 2012, certifying that the attached copy of a document titled ''Procedures for Prevention of Emergency Episodes: 1988 Edition'' is a true and correct copy of the original and is an official publication of the Arizona Department of Environmental Quality.

(3) ''Procedures for Prevention of Emergency Episodes,'' 1988 edition, Arizona Department of Environmental Quality.

(152) The following plan was submitted August 24, 2012, by the Governor's designee.

(i) Incorporated by reference.

(A) Arizona Department of Environmental Quality.

(*1*) Arizona Administrative Code, title 18, chapter 2, article 3 (Permits and Permit Revisions):

(*i*) Section R18–2–313 (''Existing Source Emission Monitoring''), effective on February 15, 2001.

(*ii*) Section R18–2–327, (''Annual Emissions Inventory Questionnaire''), effective on December 7, 1995.

(B) Maricopa County Air Quality Department.

(*1*) Rule 100, Section 500, ''Monitoring and Records,'' revised on March 15, 2006.

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) ''Final Supplement to the Arizona State Implementation Plan under Clean Air Act Section 110(a)(1) and (2): Implementation of 2006 $PM_{2.5}$ National Ambient Air Quality Standards, 1997 $PM_{2.5}$ National Ambient Air Quality Standards, and 1997 8-Hour Ozone National Ambient Air Quality Standards,'' August 2012, adopted by the Arizona Department of Environmental Quality on August 24, 2012, excluding the appendices.

(*2*) Arizona Revised Statutes (West's, 2011–2012 Compact Edition):

(*i*) Title 28 (transportation), chapter 7 (certification of title and registration), article 5 (registration requirements generally), section 28–2153 (''Registration requirement; exceptions; assessment; violation; classification'');

(*ii*) Title 35 (public finances), chapter 2 (handling of public funds), article 2 (state management of public monies), section 35–313 (''Investment of trust and treasury monies; loan of securities'');

(*iii*) Title 38 (public officers and employees), chapter 1 (general provisions), article 1 (definitions), section 38–101 (''Definitions'') and article 8 (conflict of interest of officers and employees), sections 38–501 (''Application of article''), 38–502 (''Definitions''), 38–503 (''Conflict of interest; exemptions; employment prohibition''), 38–504 (''Prohibited acts''), 38–505 (''Additional income prohibited for services'') 38–506 (''Remedies''), 38–507 (''Opinions of the attorney general, county attorneys, city or town attorneys and house and senate ethics committee''), 38–508 (''Authority of public officers and employees to act''), 38–509 (Filing of disclosures''), 38–510 (''Penalties''), and 38–511 (''Cancellation of political subdivision and state contracts; definition'');

(*iv*) Title 49 (the environment), chapter 1 (general provisions), article 1 (department of environmental quality), section 49–103 (''Department employees; legal counsel''), subsections (A)(2), (A)(4), (B)(3), and (B)(5) of section 49–104 (''Powers and duties of the department and director''), and sections 49–106 (''Statewide application of rules'') and 49–107 (''Local delegation of state authority'');

(*v*) Title 49 (the environment), chapter 3 (air quality), article 1 (general provisions), section 49–405 (''Attainment area designations''); article 2 (state air pollution control), sections 49–421 (''Definitions''), 49–422 (''Powers and duties''), 49–424 (''Duties of department''), 49–425 (''Rules; hearing''), 49–433 (''Special inspection warrant''), 49–435 (''Hearings on orders of abatement''), and 49–441 (''Suspension and revocation of conditional order''), subsections (A) and (B)(2) of section 49–455 (''Permit administration fund''), and sections 49–460 (''Violations; production of records''), 49–461 (''Violations; order of abatement''), 49–462 (''Violations; injunctive relief''), 49–463 (''Violations; civil penalties''), and 49–465 (''Air pollution emergency''); and article 3 (county air pollution control), sections 49–471 (''Definitions''), 49–473 (''Board of supervisors''), 49–474 (''County control boards''), 49–476.01 (''Monitoring''), 49–478 (''Hearing board''), 49–479 (''Rules; hearing''), 49–480.02 (''Appeals of permit actions''), 49–482 (''Appeals to hearing board''), 49–488 (''Special inspection warrant''), 49–490 (''Hearings on orders of abatement''), 49–495 (''Suspension and revocation of conditional order''), 49–502 (''Violation; classification''), 49–510 (''Violations; production of records''), 49–511 (''Violations; order of abatement''), 49–512 (''Violations; injunctive relief''), and 49–513 (''Violations; civil penalties'').

(153) The following plan was submitted on October 14, 2009, by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) ''Arizona State Implementation Plan Revision under Clean Air Act Section 110(a)(1) and (2): Implementation of 2006 $PM_{2.5}$ National Ambient Air Quality Standards, 1997 $PM_{2.5}$ National Ambient Air Quality Standards, and 1997 8-Hour Ozone National Ambient Air Quality Standards,'' September 2009, adopted by the Arizona Department of Environmental Quality on October 14, 2009, excluding the appendices.

(154) The following plan was submitted February 28, 2011, by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) Arizona State Implementation Plan, Regional Haze Under Section 308 of the Federal Regional Haze Rule: Appendix D, Arizona BART—Supplemental Information:

(*i*) Table 1.1—NO_X BART, entry for AEPCO [Apache], ST1 [Unit 1] only.

(*ii*) Table 1.2—PM_{10} BART, entries for AEPCO [Apache], APS Cholla Power Plant and SRP Coronado Generating Station.

(*iii*) Table 1.3—SO_2 BART, entries for AEPCO, APS Cholla Power Plant and SRP Coronado Generating Station.

(*2*) Arizona State Implementation Plan, Regional Haze Under Section 308 of the Federal Regional Haze Rule (January 2011), excluding:

(*i*) Chapter 6: table 6.1; chapter 10: sections 10.4, 10.6 (regarding Unit I4 at the Irvington (Sundt) Generating Station), 10.7, and 10.8; chapter 11; chapter 12: sections 12.7.3 (''Emission Limitation and Schedules of Compliance'') and 12.7.6 (''Enforceability of Arizona's Measures''); and chapter 13: section 13.2.3 (''Arizona and Other State Emission Reductions Obligations'');

(*ii*) Appendix D: chapter I; chapter V (regarding Unit I4 at the Irvington (Sundt) Generating Station); chapter VI, sections C and D; chapter VII; chapter IX; chapter X, section E.1; chapter XI, section D; chapter XII, sections B and C; chapter XIII, sections B, C, and D; and chapter XIV, section D; and

(*iii*) Appendix E.

(155) The following plan was submitted on November 6, 2009 by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) Affidavit by Efrem K. Sepulveda, Law Librarian, Arizona State Library, Archives and Public Records, certifying authenticity of reproduction of A.R.S. §49–542 (2008 edition) plus title page to pocket part of Title 49 (2008 edition), signed January 11, 2013.

(*2*) Arizona Revised Statutes (Thomson West, 2008 Cumulative Pocket Part): Title 49 (the environment), section 49–542 (''Emissions inspection program; powers and duties of director; administration; periodic inspection; minimum standards and rules; exceptions; definition'').

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) Final Arizona State Implementation Plan Revision, Exemption of Motorcycles from Vehicle Emissions Inspections and Maintenance Program Requirements in Area A (October 2009), adopted by the Arizona Department of Environmental Quality on November 6, 2009, excluding appendices A and C.

(156) The following plan was submitted on January 11, 2011 by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) Final Addendum to the Arizona State Implementation Plan Revision, Exemption of Motorcycles from Vehicle Emissions Inspections and Maintenance Program Requirements in Area A, October 2009 (December 2010), adopted by the Arizona Department of Environmental Quality on January 11, 2011.

(157) The following plan was submitted on May 25, 2012 by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) Affidavit by Barbara Howe, Law Reference Librarian, Arizona State Library, Archives and Public Records, certifying authenticity of reproduction of Arizona Revised Statutes §49–451

(*sic*) (corrected to § 49–541) (2001 pocket part), signed May 3, 2012.

(*2*) Arizona Revised Statutes (West Group, 2001 Cumulative Pocket Part): title 49 (the environment), section 49–541 (''Definitions''), subsection 1 [Definition of Area A].

(*3*) Arizona Revised Statutes (Thomson/West, 2008): Title 9 (cities and towns), chapter 4 (general powers), article 8 (miscellaneous), section 9–500.04 (''Air quality control; definitions''), excluding paragraphs A.1, A.2, A.4, and A.10; paragraphs B through G; and paragraph I.

(*4*) Arizona Revised Statutes (West, 2012): Title 11 (counties), chapter 6 (county planning and zoning), article 6 (air quality), section 11–877 (''Air quality control measures'').

(*5*) Arizona Revised Statutes (Thomson/West, 2005 main volume, 2012 Cumulative Pocket Part):

(*i*) Title 49 (the environment), chapter 3 (air quality), article 2 (state air pollution control), section 49–457.01 (''Leaf blower use restrictions and training; leaf blowers equipment sellers; informational material; outreach; applicability''); and

(*ii*) Title 49 (the environment), chapter 3 (air quality), article 3 (county air pollution control), sections 49–474.01 (''Additional board duties in vehicle emissions control areas; definitions''), excluding paragraphs A.1 through A.3, A.9, A.10, paragraphs C through G, and paragraph I; 49–474.05 (''Dust control; training; site coordinators''); and 49–474.06 (''Dust control; subcontractor registration; fee'').

(*6*) Arizona Revised Statutes (Thomson/West, 2008): Title 9 (cities and towns), chapter 4 (general powers), article 8 (miscellaneous), section 9–500.27 (''Off-road vehicle ordinance; applicability; violation; classification''), excluding paragraphs D and E.

(*7*) Arizona Revised Statutes (West, 2012): Title 11 (counties), chapter 6 (county planning and zoning), article 6 (air quality), section 11–871 (''Emissions control; no burn; exemptions; penalty''), excluding paragraphs C through E.

(*8*) Arizona Revised Statutes (West, 2012): Title 28 (transportation), chapter 3 (traffic and vehicle regulation), article 18 (vehicle size, weight and load), section 28–1098 (''Vehicle loads; restrictions; civil penalties''), excluding paragraphs B and C.

(*9*) Arizona Revised Statutes (West, 2012 Cumulative Pocket Part):

(*i*) Title 49 (the environment), chapter 3 (air quality), article 2 (state air pollution control), sections 49–457.03 (''Off-road vehicles; pollution advisory days; applicability; penalties''), excluding paragraphs C and D; and 49–457.04 (''Off-highway vehicle and all-terrain vehicle dealers; informational material; outreach; applicability''); and

(*ii*) Title 49 (the environment), chapter 3 (air quality), article 3 (county air pollution control), section 49–501 (''Unlawful open burning; exceptions; civil penalty; definition''), excluding paragraph A.1, paragraphs B.2 through B.6, and paragraphs D, E, G, and H.

(*10*) Arizona Revised Statutes (West, 2012 Cumulative Pocket Part): Title 49 (the environment), chapter 3 (air quality), article 2 (state air pollution control), section 49–457.05 (''Dust action general permit; best management practices; applicability; definitions''), excluding paragraph C and paragraphs E, F, G, and H.

(*11*) Arizona Department of Environmental Quality, Air Quality Division, Dust Action General Permit, including attachments A, B, and C, issued December 30, 2011.

(ii) *Additional material*s.

(A) Arizona Department of Environmental Quality.

(*1*) *2012 Five Percent Plan for PM–10 for the Maricopa County Nonattainment Area*, and Appendices Volume One and Volume Two, adopted May 23, 2012.

(*2*) *2012 Five Percent Plan for PM–10 for the Pinal County Township 1 North, Range 8 East Nonattainment Area*, adopted May 25, 2012.

(158) The following plan was submitted May 3, 2013, by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality (ADEQ).

(*1*) Arizona State Implementation Plan Revision, Regional Haze Under Section 308 of the Federal Regional Haze Rule (May 2013), excluding:

(*i*) Chapter 10, section 10.7 (regarding ASARCO Hayden Smelter (PM_{10} emissions) and Chemical Lime Company—Nelson Lime Plant);

(*ii*) Chapter 11, except subsection 11.3.1(3) (''Focus on SO_2 and NO_X pollutants'');

(*iii*) Appendix D: chapter I, except for the footnotes in tables 1.1, 1.2 and 1.3 to the entries for AEPCO [Apache], and the entry in table 1.2 for Freeport-McMoRan Miami Smelter; chapter VI, section C (regarding PM_{10} emissions from ASARCO Hayden smelter); chapter XII, section C, and chapter XIII, subsection D; and

(*iv*) Appendix E.

(159) The following plan was submitted on January 23, 2012 by the Governor's Designee.

(i) [Reserved]

(ii) *Additional Materials.*

(A) Arizona Department of Environmental Quality

(*1*) *Final Update of the Limited Maintenance Plan for the Payson PM_{10} Maintenance Area (December 2011)*, adopted by the Arizona Department of Environmental Quality on January 23, 2012.

(160) The following plan was submitted on March 23, 2009, by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) *MAG Eight-Hour Ozone Redesignation Request and Maintenance Plan for the Maricopa Nonattainment Area* (February 2009), adopted by the Arizona Department of Environmental Quality on March 23, 2009, excluding the appendices.

(161) The following plan revision was submitted on July 28, 2011, and supplemented on May 16, 2014, by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) West's Arizona Revised Statutes, 2012–2013 Compact Edition; title 49 (''Environment''), chapter 3 (''Air Quality''), article 2 (''State Air Pollution Control'') section 49–426 (''Permits; duties of director; exceptions; applications; objections; fees''), excluding paragraphs (D), (E)(1), (F), (I), (J), and (M).

(*2*) Arizona Administrative Code, title 18 (''Environmental Quality''), chapter 2 (''Department of Environmental Quality—Air Pollution Control''), supp. 09–1, March 31, 2009: R18–2–608 (''Mineral Tailings''); R18–2–703 (''Standards of Performance for Fossil-fuel Fired Steam Generators and General Fuel-burning Equipment''); R18–2–704 (''Standards of Performance for Incinerators''); R18–2–715 (''Standards of Performance for Existing Primary Copper Smelters; Site-Specific Requirements''), excluding paragraphs (A) through (E); R18–2–720 (''Standards of Performance for Existing Lime Manufacturing Plants''); R18–2–724 (''Standards of Performance for Fossil-fuel Fired Industrial and Commercial Equipment''); R18–2–729 (''Standards of Performance for Cotton Gins''); and R18–2–730 (''Standards of Performance for Unclassified Sources'').

(*3*) Arizona Administrative Code, title 18 (''Environmental Quality''), chapter 2 (''Department of Environmental Quality—Air Pollution Control''), supp. 09–2, June 30, 2009: R18–2–732 (''Standards of Performance for Existing Hospital/Medical/Infectious Waste Incinerators'').

(*4*) Arizona Administrative Code, title 18 (''Environmental Quality''), chapter 2 (''Department of Environmental Quality—Air Pollution Control''), supp. 12–2, June 30, 2012: R18–2–204 (''Carbon Monoxide''); R18–2–719 (''Standards of Performance for Existing Stationary Rotating Machinery''); and Appendix 2 (''Test Methods and Protocols'').

(*5*) Arizona Testing Manual for Air Pollutant Emissions, Revision F, March 1992, excluding sections 2 through 7.

(*6*) Arizona Administrative Code, Title 18, ''Environmental Quality'', chapter 2,''Department of Environmental Quality—Air Pollution Control'', R18–2–311, ''Test Methods and Procedures,'' and R18–2–312, ''Performance Tests,'' effective November 15, 1993.

(162) The following plan revision was submitted on October 29, 2012, and supplemented on September 6, 2013 and July 2, 2014, by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality

(*1*) West's Arizona Revised Statutes, 2012–2013 Compact Edition; title 49 (''Environment''), chapter 3 (''Air Quality''), section 49–402 (''State and county control'').

(*2*) Arizona Administrative Code, title 18 (''Environmental Quality''), chapter 2 (''Department of Environmental Quality—Air Pollution Control''), supp. 12–2, June 30, 2012: R18–2–101 (''Definitions''), excluding definitions (2), (20), (32), (87), (109), and (122); R18–2–102 (''Incorporated Materials''); R18–2–201 (''Particulate matter: PM_{10} and $PM_{2.5}$''); R18–2–202 (''Sulfur Oxides (Sulfur Dioxide)''); R18–2–203 (''Ozone: One-hour Standard and Eight-hour Averaged Standard'') R18–2–205 (''Nitrogen Oxides (Nitrogen Dioxide)''); R18–2–206 (''Lead''); R18–2–210 (''Attainment, Nonattainment, and Unclassifiable Area Designations''); R18–2–215 (''Ambient air quality monitoring methods and procedures''); R18–2–216 (''Interpretation of Ambient Air Quality Standards and Evaluation of Air Quality Data''); and R18–2–701 (''Definitions'').

(*3*) Arizona Administrative Code, Title 18, ''Environmental Quality,'' chapter 2 ''Department of Environmental Quality—Air Pollution Control,'' R18–2–101, ''Definitions,'' only definition nos. (2), (32), (87), (109), and (122), effective August 7, 2012; R18–2–217, ''Designation and Classification of Attainment Areas,'' effective November 15, 1993; R18–2–218, ''Limitation of Pollutants in Classified Attainment Areas,'' effective August 7, 2012; R18–2–301, ''Definitions,'' effective August 7, 2012; R18–2–302, ''Applicability; Registration; Classes of Permits,'' effective August 7, 2012; R18–2–302.01, ''Source Registration Requirements,'' effective August 7, 2012; R18–2–303, ''Transition from Installation and Operating Permit Program to Unitary Permit Program; Registration Transition; Minor NSR Transition,'' effective August 7, 2012; R18–2–304, ''Permit Application Processing Procedures,'' effective August 7, 2012; R18–2–306, ''Permit Contents,'' effective December 20, 1999; R18–2–306.01, ''Permits Containing Voluntarily Accepted Emission Limitations and Standards,'' effective January 1, 2007; R18–2–306.02, ''Establishment of an Emissions Cap,'' effective September 22, 1999; R18–2–315, ''Posting of Permit,'' effective November 15,1993; R18–2–316, ''Notice by Building Permit Agencies,'' effective May 14, 1979; R18–2–319, ''Minor Permit Revisions,'' August 7, 2012; R18–2–320, ''Significant Permit Revisions,'' effective August 7, 2012; R18–2–321, ''Permit Reopenings; Revocation and Reissuance; Termination,'' effective August 7, 2012; R18–2–323, ''Permit Transfers,'' effective February 3, 2007; R18–2–330, ''Public Participation,'' effective August 7, 2012; R18–2–332, ''Stack Height Limitation,'' effective November 15, 1993; R18–2–334, ''Minor New Source Review'' effective August 7, 2012; R18–2–401 ''Definitions,'' effective August 7, 2012; R18–2–402 ''General,'' effective August 7, 2012; R18–2–403 ''Permits for Sources Located in Nonattainment Areas,'' effective August 7, 2012; R18–2–404, ''Offset Standards,'' effective August 7, 2012; R18–2–405, ''Special Rule for Major Sources of VOC or Nitrogen Oxides in Ozone Nonattainment Areas Classified as Serious or Severe,'' effective August 7, 2012; R18–2–406, ''Permit Requirements for Sources Located in Attainment and Unclassifiable Areas,'' effective August 7, 2012; R18–2–407, ''Air Quality Impact Analysis and Monitoring Requirements,'' excluding subsection (H)(1)(c), effective August 7, 2012; R18–2–409, ''Air Quality Models,'' effective November 15, 1993; and R18–2–412, ''PALs'' effective August 7, 2012.

(*4*) Arizona Revised Statutes, title 49, ''Environment,'' chapter 1 ''General Provisions'', section 49–107, ''Local delegation of state authority,'' effective July 1, 1987.

(*2*) Memorandum, ''Proposed Final Permits to be Treated as Appealable Agency Actions,'' dated February 10, 2015, from Eric Massey, Air Quality Division Director to Balaji Vaidyanathan, Permit Section Manager, submitted on February 23, 2015.

(*3*) ''State Implementation Plan Revision: New Source Review—Supplement,'' relating to the division of jurisdiction for New Source Review in Arizona, adopted on July 2, 2014.

(163) The following plan was submitted on August 27, 2012 by the Governor's Designee.

(i) Incorporation by Reference.

(A) Maricopa County Air Quality Department.

(*1*) Rule 313, ''Incinerators, Burn-Off Ovens and Crematories,'' revised May 9, 2012.

(164) A plan revision was submitted on September 6, 2013 by the Governor's Designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(1) ''Arizona State Implementation Plan Revision for the Nogales $PM_{2.5}$ Nonattainment Area'', dated September 2013, including appendices A and B.

(165) The following plan was submitted May 13, 2014, by the Governor's designee:

(i) *Incorporation by reference.*

(A) Arizona Department of Environmental Quality.

(*1*) Significant Revision No. 59195 to Air Quality Control Permit No. 55412, excluding section V.D., issued May 13, 2014.

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(1) Arizona State Implementation Plan, Revision to the Arizona Regional Haze Plan for Arizona Electric Power Cooperative, Incorporated, Apache Generating Station, excluding the appendices.

(166) The following plan was submitted on October 14, 2011, by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) Arizona State Implementation Plan Revision under Clean Air Act Section 110(a)(1) and (2); Implementation of the 2008 Lead National Ambient Air Quality Standards, excluding the appendices.

(167) The following plan was submitted on December 27, 2012 by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) Arizona State Implementation Plan Revision under Clean Air Act Section 110(a)(1) and (2); 2008 8-hour Ozone NAAQS, excluding the appendices.

(168) The following plan was submitted on December 6, 2013 by the Governor's designee.

(i) *Incorporation by reference.*

(A) Maricopa County Air Quality Department.

(*1*) Maricopa County Air Pollution Control Regulations, Rule 100 (''General Provisions and Definitions''), section 100 (''General''), subsection 108 (''Hearing Board''), revised September 25, 2013.

(169) The following plan was submitted on December 19, 2013 by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Pima County Department of Environmental Quality.

(*1*) Board of Supervisors of Pima County, Arizona, Ordinance No. 1993–128, Section 1, 17.040.190 ''Composition'' Section 6, 17.24.040 ''Reporting for compliance evaluations'' adopted September 28, 1993.

(*2*) Board of Supervisors of Pima County, Arizona, Ordinance 2005–43, Chapter 17.12, Permits and Permit Revisions, section 2,17.12.040 ''Reporting Requirements'' adopted April 19, 2005.

(170) The following plan was submitted on September 4, 2014 by the Governor's designee.

(i) *Incorporation by reference.*

(A) Pinal County Air Quality Control District.

(*1*) Pinal County Board of Supervisors, Resolution No. 072314–AQ1, 1–3–140, Definitions, 74, Hearing Board, including new text that is underlined and excluding removed text which was struck by the board, effective July 23, 2014.

(171) The following plan was submitted on September 2, 2014 by the Governor's designee.

(i) Incorporation by reference.

(A) Arizona Department of Environmental Quality.

(*1*) House Bill 2128, effective April 22, 2014, excluding sections 1 through 4, and 9 (including the text that appears in all capital letters and excluding the text that appears in strikethrough).

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) *MAG 2014 State Implementation Plan Revision for the Removal of Stage II Vapor Recovery Controls in the Maricopa Eight-Hour Ozone Nonattainment Area* (August 2014), adopted by the Regional Council of the Maricopa Association of Governments on August 27, 2014, excluding appendix A, exhibit 2 (''Arizona Revised Statutes Listed in Table 1–1'').

(172) The following plan was submitted July 2, 2014, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.*

(A) Arizona Department of Environmental Quality (ADEQ).

(*1*) *MAG 2014 Eight-Hour Ozone Plan—Submittal of Marginal Area Requirements for the Maricopa Nonattainment Area* (June 2014), excluding:

(*i*) Sections titled ''A Nonattainment Area Preconstruction Permit Program—CAA section 182(a)(2)(C),'' ''New Source Review—CAA, Title I, Part D,'' and ''Offset Requirements: 1:1 to 1 (Ratio of Total Emission Reductions of Volatile Organic Compounds to Total Increased Emissions)—CAA Section 182(a)(4)'' on pages 8 and 9 and section titled ''Meet Transportation Conformity Requirements—CAA Section 176(c)'' on pages 10 and 11.

(*ii*) Appendices A and B.

(173) The following plan was submitted on April 2, 2013 by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) *MAG 2013 Carbon Monoxide Maintenance Plan for the Maricopa County Area*, adopted by the Maricopa Association of Governments on March 27, 2013.

(174) The following plan was submitted on December 3, 2015 by the Governor's designee.

(i) [Reserved]

(ii) Additional materials.

(A) Arizona Department of Environmental Quality.

(*1*) SIP Revision: Clean Air Act Section 110(a)(2)(D), 2008 Ozone National Ambient Air Quality Standards (December 3, 2015).

[37 FR 10849, May 31, 1972. Redesignated and amended at 81 FR 85040, Nov. 23, 2016]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.152, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§ 52.153 Control strategy and regulations: Ozone.

(a) *Determination of attainment by the attainment date.* Effective December 12, 2019 the EPA has determined that the Phoenix-Mesa Moderate nonattainment area in Arizona attained the 2008 8-hour ozone National Ambient Air Quality Standards (NAAQS) by the applicable attainment date of July 20, 2018, based upon complete, quality-assured, and certified data for the calendar years 2015–2017. The EPA has also determined that the requirement of section 172(c)(9) to provide for contingency measures to be implemented in the event the area fails to attain by its attainment date for the 2008 8-hour NAAQS does not apply to the area.

(b) [Reserved]

[84 FR 60927, Nov. 12, 2019]

Subpart E—Arkansas

§ 52.170 Identification of plan.

(a) *Purpose and scope.* This section sets forth the applicable State Implementation Plan (SIP) for Arkansas under section 110 of the Clean Air Act, 42 U.S.C. 7410, and 40 CFR part 51 to meet national ambient air quality standards.

(b) *Incorporation by reference.* (1) Material listed in paragraphs (c) and (d) of this section with an EPA approval date prior to December 1, 2005, was approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Material is incorporated as it exists on the date of the approval, and notice of any change in the material will be published in the FEDERAL REGISTER. Entries in paragraphs (c) and (d)

of this section with EPA approval dates after December 1, 2005, will be incorporated by reference in the next update to the SIP compilation.

(2) EPA Region 6 certifies that the rules/regulations provided by EPA in the SIP compilation at the addresses in paragraph (b)(3) of this section are an exact duplicate of the officially promulgated State rules/regulations that have been approved as part of the State implementation plan as of December 1, 2005.

(3) Copies of the materials incorporated by reference may be inspected at *https://www.epa.gov/sips-ar* or the Environmental Protection Agency, Region 6, 1201 Elm Street, Suite 500, Dallas, Texas 75270–2102. If you wish to obtain material from the EPA Regional Office, please call (800) 887–6063 or (214) 665–2760.

(c) *EPA approved regulations.*

EPA-APPROVED CONTROL MEASURES IN THE ARKANSAS SIP

Control measures	Applicable geographic or nonattainment area	State submittal/ effective date	EPA approval date	Explanation
Air Quality Surveillance	Statewide	4/24/1980	8/6/1981, 46 FR 40005	Ref 52.200(c)(6) & (20).
Lead SIP	Statewide	12/10/1979	4/16/1982, 47 FR 16328	Ref 52.200(c)(17).
Protection of Visibility in Mandatory Class I Federal Areas.	Statewide	6/12/1985	2/10/1986, 51 FR 4910	Ref 52.200(c)(22).

EPA-APPROVED CONTROL MEASURES IN THE ARKANSAS SIP—Continued

Control measures	Applicable geographic or nonattainment area	State submittal/ effective date	EPA approval date	Explanation
Part II of the Visibility Protection Plan.	Statewide	10/9/1987	7/21/1988, 53 FR 27514	Ref 52.200(c)(25).
Good Engineering Practice Stack Height Regulations.	Statewide	6/1/1987	2/23/1989, 54 FR 7764 ...	Ref 52.200(c)(26).
Small Business Stationary Source Technical and Environmental Compliance Assistance Program.	Statewide	11/6/1992	3/8/1995, 60 FR 12691 ...	Ref 52.200(c)(31).

EPA-APPROVED NON-REGULATORY PROVISIONS AND QUASI-REGULATORY MEASURES IN THE ARKANSAS SIP

Name of SIP provision	Applicable geographic or nonattainment area	State submittal/ effective date	EPA approval date	Explanation
Emissions Inventory for Crittenden County.	Crittenden County	6/22/2007	1/15/2009, 74 FR 2383.	
8-Hour Ozone Maintenance plan for the Crittenden County, Arkansas Area.	Crittenden, Shelby County.	2/26/2009	3/24/2010, 75 FR 14077.	
Interstate Transport for the 1997 ozone and $PM_{2.5}$ NAAQS (Noninterference with measures required to protect visibility in any other State).	Statewide	3/28/2008	3/12/2012, 77 FR 14604 ..	Noninterference with measures required to protect visibility in any other State partially approved 3/12/2012.
Regional Haze SIP	Statewide	9/23/2008, 8/3/2010	3/12/2012, 77 FR 14604 ..	The following portions are partially approved and partially disapproved:
(a) Identification of affected Class I areas.				(a) Identification of best available retrofit technology (BART) eligible sources and subject to BART sources;
(b) Determination of baseline and natural visibility conditions.				(b) requirements for best available retrofit technology (BART);
(c) Determination of the Uniform Rate of Progress.				(c) the Arkansas Regional Haze Rule; and
(d) Reasonable progress goal consultation and long term strategy consultation.				(d) Long Term Strategy. (See § 52.173(a)).
(e) Coordination regional haze and reasonably attributable visibility impairment.				
(f) Monitoring Strategy and other implementation requirements.				
(g) Commitment to submit periodic Regional Haze SIP revisions and periodic progress reports describing progress towards the reasonable progress goals.				

EPA-APPROVED NON-REGULATORY PROVISIONS AND QUASI-REGULATORY MEASURES IN THE ARKANSAS SIP—Continued

Name of SIP provision	Applicable geographic or nonattainment area	State submittal/ effective date	EPA approval date	Explanation
(h) Commitment to make a determination of the adequacy of the existing SIP at the time a progress report is submitted. (i) Coordination with States and Federal Land Managers. (j) The following best available retrofit technology (BART) determinations: PM BART determination for the AEP Flint Creek Plant Boiler No. 1; SO_2 and PM BART determinations for the natural gas firing scenario for the Entergy Lake Catherine Plant Unit 4; PM BART determinations for both the bituminous and sub-bituminous coal firing scenarios for the Entergy White Bluff Plant Units 1 and 2; and PM BART determination for the Domtar Ashdown Mill Power Boiler No. 1.				
Infrastructure for the 1997 Ozone NAAQS.	Statewide	12/17/2007 3/28/2008	8/20/2012, 77 FR 50033 ..	Approval for CAA elements 110(a)(2)(A), (B), (E), (F), (G), (H), (K), (L), and (M). Approval for CAA elements 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality), (D)(ii), and (J) for the 1997 ozone NAAQS, except as it relates to Greenhouse Gas (GHG) emissions. The GHG PSD deficiency was addressed on April 2, 2013 (78 FR 19596).

EPA-APPROVED NON-REGULATORY PROVISIONS AND QUASI-REGULATORY MEASURES IN THE ARKANSAS SIP—Continued

Name of SIP provision	Applicable geographic or nonattainment area	State submittal/ effective date	EPA approval date	Explanation
Infrastructure for the 1997 and 2006 $PM_{2.5}$ NAAQS.	Statewide	3/28/2008, 9/16/2009, 12/1/2014	3/4/2015, 80 FR 11573	Approval for CAA elements 110(a)(2)(A), (B), (E), (F), (G), (H), (K), (L), and (M) on 8/20/2012, 77 FR 50033. Approval for PSD elements (C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality), D(ii) and (J) on March 4, 2015 (80 FR 11573)
Interstate transport for the 1997 ozone NAAQS (Noninterference with measures required to prevent significant deterioration of air quality in any other State).	Statewide	4/5/2011	8/20/2012, 77 FR 50033	Approved except as it relates to GHGs. The GHG PSD deficiency was addressed on April 2, 2013 (78 FR 19596).
Interstate transport for the 1997 and 2006 $PM_{2.5}$ NAAQS (contribute to nonattainment or interfere with maintenance).	Statewide	12/17/2007 9/16/2009	8/29/2013, 78 FR 53269	
Crittenden County Base Year Emission Inventory for the 2008 Ozone Standard.	Crittenden County	8/28/2015	1/13/2016, 81 FR 1884	
2008 8-hour ozone Redesignation Request, Maintenance Plan, and Clarification Letter for the Crittenden County portion of Memphis, TN-AR-MS Nonattainment Area.	Crittenden County portion of Memphis, TN-AR-MS Nonattainment Area.	12/10/2015	4/25/2016, 81 FR 24030	
Arkansas Regional Haze NO_X SIP Revision.	Statewide	10/31/2017	2/12/2018, 83 FR 5927	Regional Haze SIP submittal addressing NO_X BART requirements for Arkansas EGUs and reasonable progress requirements for NO_X for the first implementation period.
Infrastructure for the 2006 $PM_{2.5}$ NAAQS.	Statewide	3/24/2017	2/14/2018, 83 FR 6470	Approval for 110(a)(2)(D)(ii).
Infrastructure for the 2008 Pb NAAQS.	Statewide	3/24/2017	2/14/2018, 83 FR 6470	Approval for 110(a)(2)(A), (B), (C), (D), (E), (F), (G), (H), (J), (K), (L) and (M).
Infrastructure for the 2008 O_3 NAAQS.	Statewide	3/24/2017	2/14/2018, 83 FR 6470	Approval for 110(a)(2)(A), (B), (C), (D)(i) (portions pertaining and PSD), (D)(ii), (E), (F), (G), (H), (J), (K), (L) and (M).

EPA-APPROVED NON-REGULATORY PROVISIONS AND QUASI-REGULATORY MEASURES IN THE ARKANSAS SIP—Continued

Name of SIP provision	Applicable geographic or nonattainment area	State submittal/ effective date	EPA approval date	Explanation
Infrastructure for the 2010 NO_2 NAAQS.	Statewide	3/24/2017	2/14/2018, 83 FR 6470	Approval for 110(a)(2)(A), (B), (C), (D)(i)(portion pertaining to non-attainment interference with maintenance and PSD), (D)(ii), (E), (F), (G), (H), (J), (K), (L) and (M).
Infrastructure for the 2010 SO_2 NAAQS.	Statewide	3/24/2017	2/14/2018, 83 FR 6470	Approval for 110(a)(2)(A), (B), (C), (D)(i) (portion pertaining to PSD), (D)(ii), (E), (F), (G), (H), (J), (K), (L) and (M). Approval for 110(a)(2)(D)(i)(I) on 10/18/2019.
Infrastructure for the 2012 $PM_{2.5}$ NAAQS.	Statewide	3/24/2017	2/14/2018, 83 FR 6470	Approval for 110(a)(2)(A), (B), (C), (D)(i) (portion pertaining to PSD), (D)(ii), (E), (F), (G), (H), (J), (K), (L) and (M). Approval for 110(a)(2)(D)(i)(I) (significant contribution to nonattainment or interfere with maintenance in any other state) on 9/20/2018, 83 FR 47569.
Arkansas Regional Haze Phase II SIP Revision.	Statewide	8/8/2018	9/27/2019, 84 FR 51033	Regional Haze SIP revision addressing SO_2 and PM BART requirements for Arkansas EGUs, NO_X BART requirement for the White Bluff Auxiliary Boiler, reasonable progress requirements for SO_2 and PM for the first implementation period, and the long-term strategy requirements. We are approving a portion of this SIP revision. There are two aspects of this SIP revision we are not taking action on at this time: (1) The interstate visibility transport requirements under section 110(a)(2)(D)(i)(II); and (2) the long-term strategy is approved with respect to sources other than the Domtar Ashdown Mill.

EPA-APPROVED NON-REGULATORY PROVISIONS AND QUASI-REGULATORY MEASURES IN THE ARKANSAS SIP—Continued

Name of SIP provision	Applicable geographic or nonattainment area	State submittal/ effective date	EPA approval date	Explanation
Arkansas SIP Review for the Five-Year Regional Haze Progress Report.	Statewide	6/2/2015	10/1/2019, 84 FR 51986.	

[63 FR 56927, Oct. 23, 1998, as amended at 65 FR 61107, Oct. 16, 2000; 66 FR 51316, Oct. 9, 2001; 71 FR 13545, Mar. 16, 2006; 72 FR 18396, Apr. 12, 2007; 72 FR 54561, Sept. 26, 2007; 74 FR 2386, Jan. 15, 2009; 75 FR 14080, Mar. 24, 2010; 77 FR 14675, 14676, Mar. 12, 2012; 77 FR 50037, Aug. 20, 2012; 78 FR 19598, Apr. 2, 2013; 78 FR 53270, Aug. 29, 2013; 80 FR 11574, Mar. 4, 2015; 80 FR 24218, Apr. 30, 2015; 80 FR 38627, July 7, 2015; 81 FR 1887, Jan. 14, 2016; 81 FR 24032, Apr. 25, 2016; 82 FR 60520, Dec. 21, 2017; 83 FR 5939, Feb. 12, 2018; 83 FR 6472, Feb. 14, 2018; 83 FR 30570, June 29, 2018; 83 FR 38966, Aug. 8, 2018; 83 FR 47571, Sept. 20, 2018; 84 FR 44228, Aug. 23, 2019; 84 FR 44236, Aug. 23, 2019; 84 FR 51053, Sept. 27, 2019; 84 FR 51988, Oct. 1, 2019; 84 FR 55865, Oct. 18, 2019]

§ 52.171 Classification of regions.

The Arkansas plan was evaluated on the basis of the following classifications:

Air quality control region	Pollutant				
	Particulate matter	Sulfur oxides	Nitrogen dioxide	Carbon monoxide	Ozone
Central Arkansas Intrastate	II	III	III	III	III
Metropolitan Fort Smith Interstate	II	III	III	III	III
Metropolitan Memphis Interstate	I	III	III	III	I
Monroe (Louisiana)-El Dorado (Arkansas) Interstate	II	III	III	III	III
Northeast Arkansas Intrastate	III	III	III	III	III
Northwest Arkansas Intrastate	III	III	III	III	III
Shreveport-Texarkana-Tyler Interstate	II	III	III	III	III

[37 FR 10850, May 31, 1972, as amended at 39 FR 16346, May 8, 1974; 45 FR 6571, Jan. 29, 1980]

§ 52.172 Approval status.

With the exceptions set forth in this subpart, the Administrator approves Arkansas's state implementation plan under section 110 of the Clean Air Act. Furthermore, the Administrator finds that the plan satisfies all applicable requirements of Parts C and D, Title I, of the Clean Air Act as amended in 1990, except as noted below.

[81 FR 32241, May 23, 2016, as amended at 83 FR 38968, Aug. 8, 2018]

§ 52.173 Visibility protection.

(a) *Regional haze.* The regional haze State Implementation Plan (SIP) revisions submitted on September 23, 2008 and August 3, 2010, and supplemented on September 27, 2011 are partially approved and partially disapproved.

(1) The identification of sources that are eligible for Best Available Retrofit Technology (BART) is approved, with the exception of the 6A Boiler at the Georgia-Pacific Crossett Mill, which is BART eligible.

(2) The identification of sources subject to BART is approved, with the exception of the 6A and 9A Boilers at the Georgia-Pacific Crossett Mill, which are both subject to BART.

(3) The following BART determinations are disapproved:

(i) The sulfur dioxide (SO_2), nitrogen dioxide (NO_X), and particulate matter (PM) BART determinations for the Arkansas Electric Cooperative Corporation Bailey Plant Unit 1 and the AECC McClellan Plant Unit 1;

(ii) The SO_2 and NO_X BART determinations for the American Electric Power Flint Creek Plant Boiler No. 1;

(iii) The NO_X BART determination for the natural gas firing scenario and the SO_2, NO_X, and PM BART determinations for the fuel oil firing scenario for the Entergy Lake Catherine Plant Unit 4;

(iv) The SO_2 and NO_X BART determinations for both the bituminous and sub-bituminous coal firing scenarios for the Entergy White Bluff Plant Units 1 and 2;

(v) The BART determination for the Entergy White Bluff Plant Auxiliary Boiler;

(vi) The SO_2 and NO_X BART determinations for the Domtar Ashdown Mill Power Boiler No. 1; and

(vii) The SO_2, NO_X and PM BART determinations for the Domtar Ashdown Mill Power Boiler No. 2.

(4) The Arkansas Regional Haze Rule, (APCEC Regulation 19, Chapter 15), is partially approved and partially disapproved such that:

(i) The requirement under Reg. 19.104(B) for BART installation and operation as expeditiously as practicable, but no later than 5 years after EPA approval of the Arkansas Regional Haze State Implementation Plan is partially approved and partially disapproved, such that the partial approval is for the BART determinations we are approving and the partial disapproval is for the BART determinations we are disapproving;

(ii) The requirement under Reg. 19.1504(B) for BART installation and operation no later than 6 years after the effective date of the State regulation is disapproved;

(iii) Reg. 19.1505 (A)(1) and (2), (B), (C), (D)(1) and (2), (E), (F)(1) and (2), (G)(1) and (2), (H), (I)(1) and (2), (J)(1) and (2), (K), (L), (M)(1), and (N) are disapproved;

(iv) the Reg. 19.1506 requirement to demonstrate compliance with the BART limits listed in Reg. 19.1505 (A)(1) and (2), (B), (C), (D)(1) and (2), (E), (F)(1) and (2), (G)(1) and (2), (H), (I)(1) and (2), (J)(1) and (2), (K), (L), (M)(1), and (N) is disapproved; and

(v) The remaining portions are approved.

(5) The regional haze long term strategy under 40 CFR 51.308(d)(3) is partially approved and partially disapproved.

(6) The reasonable progress goals are disapproved.

(b) *Interstate Transport.* The portion of the SIP pertaining to adequate provisions to prohibit emissions from interfering with measures required in another state to protect visibility, submitted on March 28, 2008, and supplemented on September 27, 2011, is partially approved and partially disapproved.

(1) The Arkansas Regional Haze Rule, (APCEC Regulation 19, Chapter 15), is partially approved and partially disapproved such that:

(i) The requirement under Reg. 19.104(B) for BART installation and operation as expeditiously as practicable, but no later than 5 years after EPA approval of the Arkansas Regional Haze State Implementation Plan is partially approved and partially disapproved, such that the partial approval is for the BART determinations we are approving and the partial disapproval is for the BART determinations we are disapproving;

(ii) The requirement under Reg. 19.1504(B) for BART installation and operation no later than 6 years after the effective date of the State regulation is disapproved;

(iii) Reg. 19.1505 (A)(1) and (2), (B), (C), (D)(1) and (2), (E), (F)(1) and (2), (G)(1) and (2), (H), (I)(1) and (2), (J)(1) and (2), (K), (L), (M)(1), and (N) are disapproved;

(iv) The Reg. 19.1506 requirement to demonstrate compliance with the BART limits listed in Reg. 19.1505 (A)(1) and (2), (B), (C), (D)(1) and (2), (E), (F)(1) and (2), (G)(1) and (2), (H), (I)(1) and (2), (J)(1) and (2), (K), (L), (M)(1), and (N) is disapproved; and

(v) The remaining portions are approved.

(2) [Reserved]

(c) *Federal implementation plan for regional haze.* Requirements for Domtar Ashdown Paper Mill Power Boilers No. 1 and 2 affecting visibility.

(1) *Applicability.* The provisions of this section shall apply to each owner or operator, or successive owners or operators of the sources designated as Domtar Ashdown Paper Mill Power Boilers No. 1 and 2.

(2) *Definitions.* All terms used in this part but not defined herein shall have the meaning given them in the Clean Air Act and in parts 51 and 60 of this title. For the purposes of this section:

24-hour period means the period of time between 12:01 a.m. and 12 midnight.

Air pollution control equipment includes selective catalytic control units, baghouses, particulate or gaseous scrubbers, and any other apparatus utilized to control emissions of regulated air contaminants which would be emitted to the atmosphere.

Boiler-operating-day means a 24-hr period between 6 a.m. and 6 a.m. the following day during which any fuel is fed into and/or combusted at any time in the power boiler.

Daily average means the arithmetic average of the hourly values measured in a 24-hour period.

Heat input means heat derived from combustion of fuel in a unit and does not include the heat input from preheated combustion air, recirculated flue gases, or exhaust gases from other sources. Heat input shall be calculated in accordance with 40 CFR part 75.

Owner or Operator means any person who owns, leases, operates, controls, or supervises any of the units or power boilers listed under paragraph (c)(1) of this section.

Regional Administrator means the Regional Administrator of EPA Region 6 or his/her authorized representative.

Unit means one of the natural gas, fuel oil, or coal fired boilers covered under paragraph (c) of this section.

(3) *Emissions Limitations for Domtar Ashdown Paper Mill Power Boiler No. 1.* The SO_2 emission limit for the boiler is as listed in the following table in pounds per day (lb/day) as averaged over a rolling 30 boiler-operating-day period. The NO_X emission limit for the boiler is as listed in the following table in pounds per hour (lb/hr).

Unit	SO_2 Emission limit (lb/day)	NO_X Emission limit (lb/hr)
Domtar Ashdown Paper Mill Power Boiler No. 1 ..	504	207.4

(4) *Compliance dates for Domtar Ashdown Mill Power Boiler No. 1.* The owner or operator of the boiler must comply with the SO_2 and NO_X emission limits listed in paragraph (c)(3) of this section by November 28, 2016.

(5) *Compliance determination and reporting and recordkeeping requirements for Domtar Ashdown Paper Mill Power Boiler No. 1.* (i)(A) SO_2 emissions resulting from combustion of fuel oil shall be determined by assuming that the SO_2 content of the fuel delivered to the fuel inlet of the combustion chamber is equal to the SO_2 being emitted at the stack. The owner or operator must maintain records of the sulfur content by weight of each fuel oil shipment, where a ''shipment'' is considered delivery of the entire amount of each order of fuel purchased. Fuel sampling and analysis may be performed by the owner or operator, an outside laboratory, or a fuel supplier. All records pertaining to the sampling of each shipment of fuel oil, including the results of the sulfur content analysis, must be maintained by the owner or operator and made available upon request to EPA and ADEQ representatives. SO_2 emissions resulting from combustion of bark shall be determined by using the following site-specific curve equation, which accounts for the SO_2 scrubbing capabilities of bark combustion:

$Y = 0.4005 * X — 0.2645$

Where:

Y= pounds of sulfur emitted per ton of dry fuel feed to the boiler.

X= pounds of sulfur input per ton of dry bark.

(B) The owner or operator must confirm the site-specific curve equation through stack testing. By October 27, 2017, the owner or operator must provide a report to EPA showing confirmation of the site specific-curve equation accuracy. Records of the quantity of fuel input to the boiler for each fuel type for each day must be compiled no later than 15 days after the end of the month and must be maintained by the owner or operator and made available upon request to EPA and ADEQ representatives. Each boiler-operating-day of the 30-day rolling average for the boiler must be determined by adding together the pounds of SO_2 from that boiler-operating-day and the preceding 29 boiler-operating-days and dividing the total pounds of SO_2 by the sum of the total number of boiler operating days (*i.e.*, 30). The result shall be the 30 boiler-operating-day rolling average in terms of lb/day emissions of SO_2. Records of the total SO_2 emitted for each day must be compiled no later than 15 days after the end of the month and must be maintained by the owner or operator

and made available upon request to EPA and ADEQ representatives. Records of the 30 boiler-operating-day rolling averages for SO_2 as described in this paragraph (c)(5)(i) must be maintained by the owner or operator for each boiler-operating-day and made available upon request to EPA and ADEQ representatives.

(ii) If the air permit is revised such that Power Boiler No. 1 is permitted to burn only pipeline quality natural gas, this is sufficient to demonstrate that the boiler is complying with the SO_2 emission limit under paragraph (c)(3) of this section. The compliance determination requirements and the reporting and recordkeeping requirements under paragraph (c)(5)(i) of this section would not apply and confirmation of the accuracy of the site-specific curve equation under paragraph (c)(5)(i)(B) of this section through stack testing would not be required so long as Power Boiler No. 1 is only permitted to burn pipeline quality natural gas.

(iii) To demonstrate compliance with the NO_X emission limit under paragraph (c)(3) of this section, the owner or operator shall conduct stack testing using EPA Reference Method 7E, found at 40 CFR part 60, appendix A, once every 5 years, beginning 1 year from the effective date of our final rule, which corresponds to October 27, 2017. Records and reports pertaining to the stack testing must be maintained by the owner or operator and made available upon request to EPA and ADEQ representatives.

(iv) If the air permit is revised such that Power Boiler No. 1 is permitted to burn only pipeline quality natural gas, the owner or operator may demonstrate compliance with the NO_X emission limit under paragraph (c)(3) of this section by calculating NO_X emissions using fuel usage records and the applicable NO_X emission factor under AP–42, Compilation of Air Pollutant Emission Factors, section 1.4, Table 1.4–1. Records of the quantity of natural gas input to the boiler for each day must be compiled no later than 15 days after the end of the month and must be maintained by the owner or operator and made available upon request to EPA and ADEQ representatives. Records of the calculation of NO_X emissions for each day must be compiled no later than 15 days after the end of the month and must be maintained by the owner or operator and made available upon request to EPA and ADEQ representatives. Each boiler-operating-day of the 30-day rolling average for the boiler must be determined by adding together the pounds of NO_X from that day and the preceding 29 boiler-operating-days and dividing the total pounds of NO_X by the sum of the total number of hours during the same 30 boiler-operating-day period. The result shall be the 30 boiler-operating-day rolling average in terms of lb/hr emissions of NO_X. Records of the 30 boiler-operating-day rolling average for NO_X must be maintained by the owner or operator for each boiler-operating-day and made available upon request to EPA and ADEQ representatives. Under these circumstances, the compliance determination requirements and the reporting and recordkeeping requirements under paragraph (c)(5)(iii) of this section would not apply.

(6) *SO_2 and NO_X Emissions Limitations for Domtar Ashdown Paper Mill Power Boiler No.2.* The individual SO_2 and NO_X emission limits for the boiler are as listed in the following table in pounds per hour (lb/hr) as averaged over a rolling 30 boiler-operating-day period.

Unit	SO_2 Emission Limit (lb/hr)	NO_X Emission Limit (lb/hr)
Domtar Ashdown Paper Mill Power Boiler No. 2 ..	91.5	345

(7) *SO_2 and NO_X Compliance dates for Domtar Ashdown Mill Power Boiler No. 2.* The owner or operator of the boiler must comply with the SO_2 and NO_X emission limits listed in paragraph (c)(6) of this section by October 27, 2021.

(8) *SO_2 and NO_X Compliance determination and reporting and recordkeeping requirements for Domtar Ashdown Mill Power Boiler No. 2.* (i) NO_X and SO_2 emissions for each day shall be determined by summing the hourly emissions measured in pounds of NO_X or pounds of SO_2. Each boiler-operating-day of the 30-day rolling average for the boiler shall be determined by adding together the pounds of NO_X or SO_2 from that day and the preceding 29 boiler-operating-days and dividing the

total pounds of NO_X or SO_2 by the sum of the total number of hours during the same 30 boiler-operating-day period. The result shall be the 30 boiler-operating-day rolling average in terms of lb/hr emissions of NO_X or SO_2. If a valid NO_X pounds per hour or SO_2 pounds per hour is not available for any hour for the boiler, that NO_X pounds per hour shall not be used in the calculation of the 30 boiler-operating-day rolling average for NO_X. For each day, records of the total SO_2 and NO_X emitted for that day by the boiler must be maintained by the owner or operator and made available upon request to EPA and ADEQ representatives. Records of the 30 boiler-operating-day rolling average for SO_2 and NO_X for the boiler as described in this paragraph (c)(8)(i) must be maintained by the owner or operator for each boiler-operating-day and made available upon request to EPA and ADEQ representatives.

(ii) The owner or operator shall continue to maintain and operate a CEMS for SO_2 and NO_X on the boiler listed in paragraph (c)(6) of this section in accordance with 40 CFR 60.8 and 60.13(e), (f), and (h), and appendix B of 40 CFR part 60. The owner or operator shall comply with the quality assurance procedures for CEMS found in 40 CFR part 60. Compliance with the emission limits for SO_2 and NO_X shall be determined by using data from a CEMS.

(iii) Continuous emissions monitoring shall apply during all periods of operation of the boiler listed in paragraph (c)(6) of this section, including periods of startup, shutdown, and malfunction, except for CEMS breakdowns, repairs, calibration checks, and zero and span adjustments. Continuous monitoring systems for measuring SO_2 and NO_X and diluent gas shall complete a minimum of one cycle of operation (sampling, analyzing, and data recording) for each successive 15-minute period. Hourly averages shall be computed using at least one data point in each fifteen-minute quadrant of an hour. Notwithstanding this requirement, an hourly average may be computed from at least two data points separated by a minimum of 15 minutes (where the unit operates for more than one quadrant in an hour) if data are unavailable as a result of performance of calibration, quality assurance, preventive maintenance activities, or backups of data from data acquisition and handling system, and recertification events. When valid SO_2 or NO_X pounds per hour emission data are not obtained because of continuous monitoring system breakdowns, repairs, calibration checks, or zero and span adjustments, emission data must be obtained by using other monitoring systems approved by the EPA to provide emission data for a minimum of 18 hours in each 24-hour period and at least 22 out of 30 successive boiler operating days.

(iv) If the air permit is revised such that Power Boiler No. 2 is permitted to burn only pipeline quality natural gas, this is sufficient to demonstrate that the boiler is complying with the SO_2 emission limit under paragraph (c)(6) of this section. Under these circumstances, the compliance determination requirements under paragraphs (c)(8)(i) through (iii) of this section would not apply to the SO_2 emission limit listed in paragraph (c)(6) of this section.

(v) If the air permit is revised such that Power Boiler No. 2 is permitted to burn only pipeline quality natural gas and the operation of the CEMS is not required under other applicable requirements, the owner or operator may demonstrate compliance with the NO_X emission limit under paragraph (c)(6) of this section by calculating NO_X emissions using fuel usage records and the applicable NO_X emission factor under AP–42, Compilation of Air Pollutant Emission Factors, section 1.4, Table 1.4–1. Records of the quantity of natural gas input to the boiler for each day must be compiled no later than 15 days after the end of the month and must be maintained by the owner or operator and made available upon request to EPA and ADEQ representatives. Records of the calculation of NO_X emissions for each day must be compiled no later than 15 days after the end of the month and must be maintained and made available upon request to EPA and ADEQ representatives. Each boiler-operating-day of the 30-day rolling average for the boiler must be determined by adding together the pounds of NO_X from that day and the

preceding 29 boiler-operating-days and dividing the total pounds of NO_X by the sum of the total number of hours during the same 30 boiler-operating-day period. The result shall be the 30 boiler-operating-day rolling average in terms of lb/hr emissions of NO_X. Records of the 30 boiler-operating-day rolling average for NO_X must be maintained by the owner or operator for each boiler-operating-day and made available upon request to EPA and ADEQ representatives. Under these circumstances, the compliance determination requirements under paragraphs (c)(8)(i) through (iii) of this section would not apply to the NO_X emission limit.

(9) *PM BART Requirements for Domtar Ashdown Paper Mill Power Boiler No.2.* The owner or operator must rely on the applicable PM standard required under 40 CFR part 63, subpart DDDDD—National Emission Standards for Hazardous Air Pollutants for Major Sources: Industrial, Commercial, and Institutional Boilers and Process Heaters, as revised, to satisfy the PM BART requirement. Compliance with the applicable PM standard under 40 CFR part 63 subpart DDDDD, as revised, shall demonstrate compliance with the PM BART requirement.

(10) *PM compliance dates for Domtar Ashdown Mill Power Boiler No. 2.* The owner or operator of the boiler must comply with the PM BART requirement listed in paragraph (c)(9) of this section by November 28, 2016.

(11) Alternative *PM Compliance Determination for Domtar Ashdown Paper Mill Power Boiler No. 2.* If the air permit is revised such that Power Boiler No. 2 is permitted to burn only pipeline quality natural gas, this is sufficient to demonstrate that the boiler is complying with the PM BART requirement under paragraph (c)(9) of this section.

(12) *Reporting and recordkeeping requirements.* Unless otherwise stated all requests, reports, submittals, notifications, and other communications to the Regional Administrator required under this paragraph (c) shall be submitted, unless instructed otherwise, to the Director, Air and Radiation Division, U.S. Environmental Protection Agency, Region 6, to the attention of Mail Code: AR, at 1201 Elm Street, Suite 500, Dallas, Texas 75270–2102. For each unit subject to the emissions limitation under this paragraph (c), the owner or operator shall comply with the following requirements, unless otherwise specified:

(i) For each emissions limit under paragraph (c) of this section where compliance shall be determined by using data from a CEMS, comply with the notification, reporting, and recordkeeping requirements for CEMS compliance monitoring in 40 CFR 60.7(c) and (d).

(ii) [Reserved]

(13) *Equipment operations.* At all times, including periods of startup, shutdown, and malfunction, the owner or operator shall, to the extent practicable, maintain and operate the unit including associated air pollution control equipment in a manner consistent with good air pollution control practices for minimizing emissions. Determination of whether acceptable operating and maintenance procedures are being used will be based on information available to the Regional Administrator which may include, but is not limited to, monitoring results, review of operating and maintenance procedures, and inspection of the unit.

(14) *Enforcement.* (i) Notwithstanding any other provision in this implementation plan, any credible evidence or information relevant as to whether the unit would have been in compliance with applicable requirements if the appropriate performance or compliance test had been performed, can be used to establish whether or not the owner or operator has violated or is in violation of any standard or applicable emission limit in the plan.

(ii) Emissions in excess of the level of the applicable emission limit or requirement that occur due to a malfunction shall constitute a violation of the applicable emission limit.

(d) *Measures Addressing Partial Disapproval of Portion of Interstate Visibility Transport SIP for the 1997 8-hour ozone and $PM_{2.5}$ NAAQS.* The deficiencies identified in EPA's partial disapproval of the portion of the SIP pertaining to adequate provisions to prohibit emissions in Arkansas from interfering with measures required in another state to protect visibility, submitted

on March 28, 2008, and supplemented on September 27, 2011 are satisfied by § 52.173.

(e) *Measures addressing best available retrofit technology (BART) for electric generating unit (EGU) emissions of nitrogen oxides (NO_X).* The BART requirements for EGU NO_X emissions are satisfied by § 52.184 and the Arkansas Regional Haze NO_X SIP Revision approved February 12, 2018, 83 FR 5927.

(f) *Other measures addressing reasonable progress.* The reasonable progress requirements for NO_X emissions are satisfied by the Arkansas Regional Haze NO_X SIP Revision approved February 12, 2018.

(g) *Regional Haze Phase II SIP Revision.* A portion of the Regional Haze Phase II SIP Revision submitted on August 8, 2018, is approved as follows:

(1) Identification of the 6A Boiler at the Georgia-Pacific Crossett Mill as BART-eligible and the determination based on the additional information and technical analysis presented in the SIP revision that the Georgia-Pacific Crossett Mill 6A and 9A Boilers are not subject to BART.

(2) SO_2 and PM BART for the AECC Bailey Plant Unit 1; SO_2 and PM BART for the AECC McClellan Plant Unit 1; SO_2 BART for the AEP/SWEPCO Flint Creek Plant Boiler No. 1; SO_2 BART for Entergy White Bluff Units 1 and 2; SO_2, NO_X, and PM BART for the Entergy White Bluff Auxiliary Boiler; and the prohibition on burning of fuel oil at Entergy Lake Catherine Unit 4 until SO_2 and PM BART determinations for the fuel oil firing scenario are approved into the SIP by EPA.

(3) The focused reasonable progress analysis and the reasonable progress determination that no additional SO_2 and PM controls are necessary under the reasonable progress requirements for the first implementation period.

(4) The long-term strategy is approved with respect to sources other than the Domtar Ashdown Mill. This includes the BART emission limits contained in the SIP revision and the SO_2 emission limit of 0.60 lb/MMBtu under the long-term strategy provisions for Independence Units 1 and 2 based on the use of low sulfur coal.

(5) Consultation and coordination in the development of the SIP revision with the FLMs and with other states with Class I areas affected by emissions from Arkansas sources.

[77 FR 14676, Mar. 12, 2012, as amended at 81 FR 66415, Sept. 27, 2016; 82 FR 18995, Apr. 25, 2017; 83 FR 5917, 5940, Feb. 12, 2018; 84 FR 44228, Aug. 23, 2019; 84 FR 51054, 51059, Sept. 27, 2019]

§ 52.174 Control strategy and regulations: Ozone.

(a) The EPA has determined that the Crittenden County Marginal 2008 ozone NAAQS nonattainment area attained the NAAQS by the applicable attainment date of July 20, 2015.

(b) [Reserved]

[81 FR 26708, May 4, 2016]

§§ 52.175–52.180 [Reserved]

§ 52.181 Significant deterioration of air quality.

(a) The plan submitted by the Governor of Arkansas as follows:

(1) April 23, 1981—submittal of the PSD Supplement Arkansas Plan of Implementation for Pollution Control (the ''PSD Supplement'') submitted April 23, 1981 (as adopted by the Arkansas Commission on Pollution Control and Ecology (ACPCE) on April 10, 1981);

(2) June 3, 1988—submittal of revisions to the PSD Supplement (revised and adopted by the ACPCE on March 25, 1988);

(3) June 19, 1990—submittal of revisions to the PSD Supplement (revised and adopted by the ACPCE on May 25, 1990), and;

(4) March 5, 1999—submittal of Regulation 19, Chapter 9, Prevention of Significant Deterioration which recodified Arkansas' PSD regulations (as adopted by the Arkansas Pollution Control and Ecology Commission on January 22, 1999)

(5) November 6, 2012—submittal of Regulation 19, Chapter 9, Prevention of Significant Deterioration which provided the authority to regulate greenhouse gas emissions in the Arkansas PSD program.

(6) January 7, 2014—submittal of Regulation 19, Chapter 9, Prevention of Significant Deterioration which updated the Arkansas PSD program to provide for the issuance of greenhouse

gas plantwide applicability limit permits.

(7) December 1, 2014—submittal of Regulation 19, Chapter 9, Prevention of Significant Deterioration which provided the authority to regulate and permit emissions of $PM_{2.5}$ and its precursors.

(b) The requirements of sections 160 through 165 of the Clean Air Act are not met for federally designated Indian lands. Therefore, the provisions of § 52.21 except paragraph (a)(1) are hereby incorporated and made a part of the applicable implementation plan and are applicable to sources located on land under the control of Indian governing bodies.

[56 FR 20139, May 2, 1991, as amended at 63 FR 17683, Apr. 10, 1998; 63 FR 32981, June 17, 1998; 65 FR 61108, Oct. 16, 2000; 68 FR 11322, Mar. 10, 2003; 68 FR 74488, Dec. 24, 2003; 80 FR 11577, Mar. 4, 2015; 80 FR 38628, July 7, 2015]

§ 52.183 Small business assistance program.

The Governor of Arkansas submitted on November 6, 1992, a plan revision to develop and implement a Small Business Stationary Source Technical and Environmental Compliance Assistance Program (PROGRAM) to meet the requirements of section 507 of the Clean Air Act by November 15, 1994. The plan commits to provide technical and compliance assistance to small businesses, hire an Ombudsman to serve as an independent advocate for small businesses, and establish a Compliance Advisory Panel to advise the program and report to the EPA on the program's effectiveness. On April 23, 1993, the Governor submitted Act 251 of 1993 which establishes the Compliance Advisory Panel for the PROGRAM.

[60 FR 12695, Mar. 8, 1995]

§ 52.184 Interstate pollutant transport provisions; What are the FIP requirements for decreases in emissions of nitrogen oxides?

(a) The owner and operator of each source and each unit located in the State of Arkansas and for which requirements are set forth under the CSAPR NO_X Ozone Season Group 1 Trading Program in subpart BBBBB of part 97 of this chapter must comply with such requirements with regard to emissions occurring in 2015 and 2016.

(b) The owner and operator of each source and each unit located in the State of Arkansas and for which requirements are set forth under the CSAPR NO_X Ozone Season Group 2 Trading Program in subpart EEEEE of part 97 of this chapter must comply with such requirements with regard to emissions occurring in 2017 and each subsequent year. The obligation to comply with such requirements will be eliminated by the promulgation of an approval by the Administrator of a revision to Arkansas' State Implementation Plan (SIP) as correcting the SIP's deficiency that is the basis for the CSAPR Federal Implementation Plan (FIP) under § 52.38(b), except to the extent the Administrator's approval is partial or conditional.

(c) Notwithstanding the provisions of paragraph (b) of this section, if, at the time of the approval of Arkansas' SIP revision described in paragraph (b) of this section, the Administrator has already started recording any allocations of CSAPR NO_X Ozone Season Group 2 allowances under subpart EEEEE of part 97 of this chapter to units in the State for a control period in any year, the provisions of subpart EEEEE of part 97 of this chapter authorizing the Administrator to complete the allocation and recordation of CSAPR NO_X Ozone Season Group 2 allowances to units in the State for each such control period shall continue to apply, unless provided otherwise by such approval of the State's SIP revision.

[81 FR 74594, Oct. 26, 2016, as amended at 83 FR 65924, Dec. 21, 2018]

§ 52.200 Original identification of plan section.

(a) This section identifies the original ''Arkansas Plan for Implementation for Air Pollution Control'' and all revisions submitted by Arkansas that were federally approved prior to July 1, 1998.

(b) The plan was officially submitted on January 28, 1972.

(c) The plan revisions listed below were submitted on the dates specified.

(1) A certification that the public hearings on the plan were held was submitted by the State Department of

Pollution Control and Ecology on January 25, 1972. (Non-regulatory)

(2) State Department of Pollution Control and Ecology letter outlining projected emission reductions, ASA forecasts, source surveillance, legal authority and interstate cooperation was submitted on February 24, 1972. (Non-regulatory)

(3) Revision of section 16 of the State air code was submitted by the Department of Pollution Control and Ecology on July 7, 1972.

(4) June 27, 1975, letter from the Governor submitting sections 1 through 10 of the Regulations and Strategy of the Arkansas Plan of Implementation for Air Pollution Control except those portions relating to delegation of authority to enforce Federal requirements.

(5) August 16, 1976, statement issued by Director of the Arkansas Department of Pollution Control and Ecology specifying the test and reference methods for determining compliance with emission limitations.

(6) Administrative changes to the Arkansas Air Quality Surveillance Network were submitted by the Arkansas Department of Pollution Control and Ecology on February 15, 1977, January 10, 1978, and March 27, 1978. (Non-regulatory.)

(7) On April 4, 1979, the Governor submitted the nonattainment area plan for the area designated nonattainment as of March 3, 1978.

(8) On August 14, 1979, the Governor submitted supplemental information clarifying the plan.

(9) Revisions to Arkansas Regulation 4.5(a) for the ''Control of Volatile Organic Compounds'' showing a final compliance date of June 1, 1981, was submitted by the Arkansas Governor on December 10, 1979.

(10) A modification to the definition for lowest achievable emission rate (LAER), consistent with the definition contained in section 171(3) of the Act, was submitted by the Arkansas Governor on December 10, 1979.

(11) On July 11, 1979, the Governor submitted revisions to section 6(a) malfunction or upset and section 7(e) continuous emission monitoring of the Arkansas Regulations.

(12) Revisions to section 3 (i.e., 3.(a), (b), (k), (l), (n), (o), (z), (bb), (dd), (ee), (ff), and (gg)), section 4 (i.e., 4.1(b), 4.2(a), 4.5(a)(1), 4.5(a)(2), 4.6(c), and 4.6(d)), and section 5 (i.e., 5.4 and 5.5) were adopted by the Arkansas Commission on Pollution Control and Ecology on September 26, 1980 and submitted by the Governor on October 10, 1980.

(13) Revisions to section 3 (i.e., 3.(ii) through 3.(nn)), section 4 (i.e., 4.1, 4.5(a)(1), 4.5(a)(2), and 4.6(e)), and section 5 (i.e., 5.6) of the Arkansas Regulations for the Control of Volatile Organic Compounds were adopted by the Arkansas Commission on Pollution Control and Ecology on April 10, 1981 and submitted by the Governor on April 23, 1981.

(14) A variance to Regulation 8 for Weyerhaeuser Gypsum Plant in Nashville, Arkansas was submitted by the Governor on June 29, 1981.

(15) On April 23, 1981, the Governor submitted revisions to the plan to incorporate Federal Prevention of Significant Deterioration (PSD) Regulations 40 CFR 52.21 by reference.

(16) On September 11, 1981, the Governor submitted a revision to section 8 of the Regulations of the Arkansas Plan of Implementation for Air Pollution Control which implements an emission limit for Energy Systems Company of El Dorado, Arkansas.

(17) The Arkansas State Implementation Plan for lead was submitted to EPA on December 10, 1979, by the Governor of Arkansas as adopted by the Arkansas Department of Pollution Control and Ecology on November 16, 1979. A letter of clarification dated January 5, 1982, also was submitted.

(18) Revisions to the plan for intergovernmental consultation, interstate pollution abatement, and composition of the Arkansas Commission on Pollution Control and Ecology were submitted to EPA by the Arkansas Department of Pollution Control and Ecology on January 9, 1980.

(19) Revision to the plan for maintenance of employee pay was submitted to EPA by the Arkansas Department of Pollution Control and Ecology on January 9, 1980.

(20) On April 24, 1980, the Governor submitted final revisions to the ambient monitoring portion of the plan.

(21) On December 10, 1979, the Governor submitted a revision to Section

5.1(a) of the Regulation of the Arkansas Plan of Implementation for Air Pollution Control, which controls VOC emissions. This revision was adopted by the Arkansas Commission on Pollution Control and Ecology on November 16, 1979.

(22) On July 12, 1985, the Governor submitted a revision entitled, ''Protection of Visibility in Mandatory Class I Federal Areas, May 6, 1985.'' This submittal included new source review regulations and visibility monitoring strategy as adopted by the Arkansas Commission on Pollution Control and Ecology on May 24, 1985.

(i) *Incorporation by reference.* (A) New source review regulations include amendments to rules and regulations of the Arkansas Department of Pollution Control and Ecology entitled, ''Prevention of Significant Deterioration Supplement to the Arkansas Plan of Implementation for Air Pollution Control,'' Sections 1 through 6, adopted on May 24, 1985.

(B) Arkansas Department of Pollution Control and Ecology Minute Order No. 85–12, adopted May 24, 1985.

(ii) *Additional material.* (A) Narrative submittal, including introduction, and visibility monitoring strategy.

(23) A revision to the Arkansas Plan of Implementation of Air Pollution Control was submitted by the Governor on November 25, 1985.

(i) *Incorporation by reference.* (A) Act 763 of 1985 (public availability of emission data) approved April 3, 1985. Act 763 of 1985 amends section 82–1937 (Industrial secrets confidential—Revealing a misdemeanor) of the Arkansas Water and Air Pollution Control Act.

(24) A revision to the Arkansas Plan of Implementation for Air Pollution Control was submitted by the Governor on December 16, 1985.

(i) *Incorporation by reference.* (A) Act 817 of 1983 (permit fees) adopted March 25, 1983. Act 817 of 1983 added sections 82–1916 thru 82–1921 to the Arkansas Statutes. (B) Arkansas Department of Pollution Control and Ecology Regulation No. 9 (Regulations for Development and Implementation of a Permit Fee System for Environmental Permits) adopted by the Arkansas Commission on Pollution Control and Ecology on November 16, 1984. Only those portions of Regulation No. 9 related to air permits are incorporated.

(25) Part II of the Visibility Protection Plan was submitted by the Governor on October 9, 1987.

(i) *Incorporation by reference.* (A) Revision entitled ''Arkansas Plan of Implementation for Air Pollution Control—Revision: Protection of Visibility in Mandatory Class I Federal Areas: Part II—Long-Term Strategy, September 29, 1987''. This submittal includes a visibility long-term strategy and general plan provisions as adopted by the Arkansas Commission on Pollution Control and Ecology on September 25, 1987.

(B) Arkansas Department of Pollution Control and Ecology, Minute Order No. 87–24, adopted September 25, 1987.

(ii) *Additional material.* (A) None.

(26) A revision to the Arkansas Plan of Implementation for Air Pollution Control, as adopted by the Arkansas Commission on Pollution Control and Ecology on May 22, 1987, was submitted by the Governor of Arkansas on July 1, 1987. This revision adds the definitions and dispersion technique regulations required to implement the Federal stack height regulations.

(i) *Incorporation by reference.* (A) Sections 3(r), 3(s), 3(t), 3(u), 3(v), 3(w), 3(x), 3(y), 5(f), and 5(g) of the Arkansas Plan of Implementation for Air Pollution Control as adopted by the Arkansas Commission on Pollution Control and Ecology on May 22, 1987.

(ii) *Additional material.* None.

(27) Revisions to the Arkansas State Implementation Plan for (1) the National Ambient Air Quality Standards and particulate matter definitions (subsections (z) through (ff) of ''Section 3. Definitions''). (2) Prevention of Significant Deterioration of Air Quality and its Supplement, and (3) subsection f(ix) of ''Section 4. Permits'', as adopted on March 25, 1988, by the Arkansas Commission on Pollution Control and Ecology, were submitted by the Governor on June 3, 1988.

(i) *Incorporation by reference.* (A) Regulations of the Arkansas Plan of Implementation for Air Pollution Control ''Section 3. Definitions'', subsections (z) through (ff), as promulgated on March 25, 1988.

(B) Prevention of Significant Deterioration Supplement Arkansas Plan of Implementation For Air Pollution Control, as amended on March 25, 1988.

(C) Regulations of the Arkansas Plan for Implementation for Air Pollution Control ''Section 4. Permits'', subsection f(ix), as promulgated on March 25, 1988.

(ii) *Other material.* None.

(28) Revisions to the Arkansas State Implementation Plan for Prevention of Significant Deterioration (PSD) of Air Quality Supplement Arkansas Plan of Implementation for Air Pollution Control (PSD nitrogen dioxide increments), as adopted on May 25, 1990, by the Arkansas Commission on Pollution Control and Ecology, were submitted by the Governor on June 19, 1990.

(i) *Incorporation by reference.* (A) Prevention of Significant Deterioration Supplement Arkansas Plan of Implementation For Air Pollution Control as amended on May 25, 1990.

(ii) *Additional material.* None.

(29)–(30) [Reserved]

(31) The State is required to implement a Small Business Stationary Source Technical and Environmental Compliance Assistance Program (PROGRAM) as specified in the plan revision submitted by the Governor on November 6, 1992. This plan submittal, as adopted by the Arkansas Commission on Pollution Control and Ecology on November 5, 1992, was developed in accordance with section 507 of the Clean Air Act. On April 23, 1993, the Governor submitted Act 251 of 1993 which establishes the Compliance Advisory Panel (CAP) for the PROGRAM.

(i) *Incorporation by reference.* (A) Act 251 of 1993 approved by the Governor on February 26, 1993. Included in this Act are provisions creating a CAP, establishing membership of the CAP, and addressing the responsibilities and duties of the CAP.

(B) Arkansas Department of Pollution Control and Ecology, Minute Order No. 92–81, adopted November 5, 1992.

(ii) *Additional material.* (A) Revision entitled, ''Arkansas Small Business Stationary Source Technical and Environmental Compliance Assistance Program SIP Revision'', adopted November 5, 1992.

(B) Legal opinion letter dated November 5, 1992, from Steve Weaver, Chief Counsel, Arkansas Department of Pollution Control and Ecology, regarding legality of Commission teleconference meeting.

[37 FR 10850, May 31, 1972. Redesignated at 63 FR 56827, Oct. 23, 1998]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.200, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

Subpart F—California

§ 52.220 Identification of plan—in part.

This section identifies the local and regional air district rules, local ordinances, source-specific requirements, and nonregulatory materials submitted by the State of California and approved as part of the California state implementation plan. This section also identifies California statutes and state regulations submitted by the State of California and approved as part of the California state implementation plan on or prior to April 1, 2016. New or amended California statutes and state regulations approved after April 1, 2016 are identified in § 52.220a.

(a) Title of plan: ''The State of California Implementation Plan for Achieving and Maintaining the National Ambient Air Quality Standards''.

(b) The plan was officially submitted on February 21, 1972.

(1) Mendocino County APCD.

(i) Previously approved on May 31, 1972 and now deleted without replacement parts XI, XII, and part XIII.

(ii) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Part X, Paragraph 3.

(iii) Previously approved on May 31, 1972 in this paragraph (b) and now deleted without replacement, Part V, Paragraph 4.A.

(2) Placer County APCD.

(i) Previously approved on May 31, 1972 and now deleted without replacement Rule 42 (Mountain Counties Air Basin), Rules 40 and 42 (Lake Tahoe Air Basin).

(ii) Previously approved on May 31, 1972 in paragraph (b) of this section and

now deleted without replacement, Rules 40 and 42.

(iii) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement for implementation in the Lake Tahoe Air Basin, Rules 2–17, 2–18, 2–19, and 2–20.

(iv) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement for implementation in the Mountain Counties Air Basin, Rules 2–17, 2–18, 2–19, 2–20.

(v) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of this section: Article 2, Sections 11 and 16.

(vi) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of this section for implementation in the Mountain Counties and Sacramento Valley Air Basins: Article 2, Section 15.

(3) Tehama County APCD.

(i) Previously approved on May 31, 1972 and now deleted without replacement Rule 5.1.

(ii) Previously approved on May 31, 1972 and now deleted without replacement Rule 4.13.

(4) San Bernardino County APCD.

(i) Previously approved on May 31, 1972 and now deleted without replacement Regulation VI, Rules 100 to 104, 109, 110, 120, and 130 to 137.

(ii) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Regulation 3, Rules 40, 42, 43, and 44.

(5) Ventura County Air Pollution Control District.

(i) Previously approved on September 22, 1972 and now deleted without replacement Rule 18.

(6) Lassen County APCD.

(i) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Rules 1.4, 3.2, 3.3 (Schedules 1–6), 3.4, and 3.5.

(7) Nevada County APCD.

(i) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Rule 41.

(ii) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Rules 17, 18, and 19.

(iii) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement Rules 11 and 51.

(8) Orange County APCD.

(i) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Rule 120.

(9) Sierra County APCD.

(i) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Rules 46 and 50.

(10) Siskiyou County APCD.

(i) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Rules 3.1, 3.2, and 3.3.

(ii) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Rules 2.4, 2.6, and 5.1 to 5.18.

(11) Yolo-Solano AQMD.

(i) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Rules 1.7 and 2.18.

(ii) Previously approved on May 31, 1972 in paragraph (b) of this section and now deleted without replacement, Rule 2.7.

(12) California Air Resources Board.

(ii) Calaveras County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rule 305.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rule 109.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rules 204, 206, 210, 211, 212, and 213.

(iii) Colusa County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 3.1 and 5.1 to 5.17.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 1.4, 2.13, 6.11 and 6.12.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rules 1.6, 2.9, 2.10, 2.11, 2.12, and 4.2.

(D) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Rules 4.5 and 4.6.

(iv) Fresno County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 501, 502, 504, 506, 508 to 512, 514, 516, and 517.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 104, 105, 107, 109, 303, and 304.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 206.

(v) Glenn County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 111, 113 to 117, 119 to 125, and 150.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 151 and 153.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rules 53, 54, 55, and 97.

(D) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Rules 78 and 79.

(vi) Kern County APCD (including Southeast Desert).

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 502, 505 to 510, 512 to 515, and 517.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 107, 109, 303, and 304.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement for implementation in Kern County, Southeast Desert Air Basin, Rules 204, 206, 210, 211, 212, and 213.

(D) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement for implementation in Kern County, San Joaquin Valley Air Basin, Rules 107, 109, 206, 303, and 304.

(E) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement Rule 403 (Southeast Desert).

(F) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Rules 419 and 420.

(vii) Kings County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 502 to 509, 511 to 517.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rule 109.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rules 206 and 518.

(viii) Lassen County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 1.5, 3.1, and 5.1 to 5.17.

(B) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rules 2.02, 2.04, 2.06, 2.10, 2.11, 2.12, and 2.13.

(C) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Rules 3:2, 3:3, 3:4, 3:5 and 4:2.

(ix) Madera County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 507 to 510 and 512 to 517.

(B) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 206.

(x) Merced County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 502, 503, 506 to 510, and 512 to 517.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 107, 301 (Paragraphs c to g, i, and j), 303, and 304.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 206.

(xi) Modoc County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 1.5 and 4.1 to 4.17.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rule 1.4.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rules 2.02, 2.04, 2.06, 2.10, 2.12, and 2.13.

(D) Previously approved September 22, 1972 in paragraph (c)(6) of this section and now deleted with replacement in paragraph (c)(182)(i)(F)(*5*), (*6*), (*7*), and (*8*), Rule 2.3 ''Transfer,'' Rule 2.5 ''Cancellation of Application,'' Rule 2.7 ''Provision of Sampling and Testing Facilities,'' and Rule 2.9 ''Conditional Approval''.

(xii) San Joaquin County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 502 and 506 to 509.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 107 and 109.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 206.

(xiii) Stanislaus County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 303, 304, 502, 505 to 510 and 512 to 517.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rule 107.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 206.

(xiv) Tulare County APCD.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 303, 304, 501, 502, 506 to 514, 516 to 518.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 107 and 109.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 206.

(xv) San Bernardino County Air Pollution Control District.

(A) Previously approved on December 21, 1975 and now deleted without replacement Rule 68.

(xvi) Northern Sonoma County Air Pollution Control District.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 56, 64, 64.1 and 64.2.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 42 and 100.

(C) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rules 013, 015, 019, 020, 021, and 022.

(D) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rules 10, 12 and 18.

(E) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Rules 52, 85, 91 and 96.

(xvii) Los Angeles County Air Pollution Control District.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rule 51.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 43, 44, and Rule 120.

(C) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Rule 51.

(D) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Regulation VI.

(xviii) Orange County Air Pollution Control District.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rules 51, 67.1 and 68.

(xix) Riverside County Air Pollution Control District.

(A) Previously approved on September 22, 1972 and now deleted without replacement Rule 51.

(B) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 43 and 44 (Mojave Desert AQMD only).

(xx) Mariposa County APCD.

(A) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rule 17.

(B) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 16.

(xxi) Plumas County APCD.

(A) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rules 3, 4, and 40.

(B) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Rule 51.

(xxii) Sutter County APCD.

(A) Previously approved on September 22, 1972 in paragraph (c) of this section and now deleted without replacement, Rule 2.20.

(xxiii) Shasta County Air Pollution Control District.

(A) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 2.17 and 2.22.

(xxiv) Ventura County Air Pollution Control District.

(A) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 22.

(B) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted without replacement, Rule 100.

(xxv) Amador County Air Pollution Control District.

(A) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Rules 5 and 6.

(B) [Reserved]

(xxvi) Trinity County Air Pollution Control District.

(A) Previously approved on September 22, 1972 in this paragraph (c)(6) and now deleted without replacement, Regulation IV, introductory paragraph, and Rules 56, 62, 67 and 68.

(B) [Reserved]

(xxvii) Placer County Air Pollution Control District.

(A) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of this section: Article 2, Section 10 (paragraph (a)).

(B) Previously approved on September 22, 1972 in paragraph (c)(6) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of this section for implementation in the Lake Tahoe Air Basin: Article 2, Section 10 (paragraph (b)).

(7) Information (Non-regulatory) regarding air quality surveillance submitted on July 19, 1972, by the Air Resources Board.

(8) Compliance schedules submitted on December 27, 1973, by the Air Resources Board.

(9) Compliance schedules submitted on February 19, 1974, by the Air Resources Board.

(10) Compliance schedules submitted on April 22, 1974, by the Air Resources Board.

(11) Compliance schedules submitted on June 7, 1974, by the Air Resources Board.

(12) Compliance schedules submitted on June 19, 1974, by the Air Resources Board.

(13) Compliance schedules submitted on September 4, 1974, by the Air Resources Board.

(14) Compliance schedules submitted on September 19, 1974, by the Air Resources Board.

(15) Compliance schedules submitted on October 18, 1974, by the Air Resources Board.

(16) Compliance schedules submitted on December 4, 1974, by the Air Resources Board.

(17) Compliance schedules submitted on January 13, 1975, by the Air Resources Board.

(18) Air quality maintenance area designations submitted on July 12, 1974, by the Governor.

(19)–(20) [Reserved]

(21) Revised regulations for the following APCD's submitted on July 25, 1973, by the Governor.

(i) Lassen County APCD.

(A) Appendix A (Implementation Plan for Agricultural Burning) and Appendix B (Enforcement).

(ii) Modoc County APCD.

(A) Rule 3:10A and Regulation V (Rules 5:1 to 5:7).

(iii) Siskiyou County APCD.

(A) Rules 2.13, 4.5, 4.12, 4.13, 4.14, and Implementation Plan for Agricultural Burning.

(iv) Bay Area APCD.

(A) Regulation 1.

(*1*) Division 1, Sections 1000–1010.

(*2*) Division 2, Section 2000.

(*3*) Division 3, Sections 3000–3004, 3100–3111, 3115–3118, 3120, and 3200–3500.

(*4*) Division 4.

(B) Regulation 4.

(*1*) Sections 1–2.

(C) Regulation 2.

(*1*) Division 1, Sections 1214 to 1214.3.

(D) Regulation 3.

(*1*) Division 1, Sections 1205 to 1205.3.

(v) Butte County APCD.

(A) Sections 1–1 to 1–35, 2–8, 2–10 to 2–11, 2A–1 to 2A–18, 3–2 to 3–2.1, 3–6, 3–9, 3–10.1, 3–11.1, 3.14, and 3.16.

(vi) San Diego County APCD.

(A) Rules 41, 55, 58, and 101–113.

(B) Previously approved on May 11, 1977 and now deleted without replacement Rule 41.

(C) Previously approved on May 11, 1977 and now deleted without replacement, Rule 55.

(D) Previously approved on May 11, 1977 in paragraph (c)(21)(vi)(A) of this section and now deleted Rules 105, 106, 107, 110, 111, and 112 (now replaced by Rule 101).

(vii) Tehama County APCD.

(A) Rules 1:2, 3:1–3, 3:3a, 3:3b, 3:4–3:5, 3:5a, 3:6–3:14, 4:6, and Implementation Plan for Agricultural Burning.

(B) Previously approved on May 11, 1977 and now deleted without replacement Rule 41.

(viii) Yuba County APCD.

(A) Rules 1.1, 2.1–2.2, 2.10, 4.11, and Agricultural Burning Regulations, Sections 1 to 6.

(B) Rule 4.5.

(C) Previously approved on August 22, 1977 in paragraph (c)(21)(viii)(A) of this section and now deleted without replacement, Rule 4.11.

(ix) Kings County APCD.

(A) Rules 102, 105–108, 110, 404–406, 409, 417–I, II, IV, and 510.

(B) Rule 111.

(C) Previously approved on August 22, 1977 and now deleted without replacement Rule 510.

(D) Previously approved on August 22, 1977 in paragraph (c)(21)(ix)(A) of this section and now deleted without replacement, Rule 107.

(x) Colusa County APCD.

(A) Rule 6.5 and Amendment Number 3.

(B) Rule 4.4g.

(xi) Imperial County APCD.

(A) Agricultural Burning Implementation Plan (Rules 200–206).

(xii) Sacramento County APCD

(A) Rules 72, 90, 91, and 92.

(xiii) Ventura County APCD.

(A) Rules 2, 37, 56, 59, 60, and 101.

(B) Previously approved on August 15, 1977 in paragraph (c)(21)(xiii)(A) of this section and now deleted without replacement, Rule 60.

(xiv) Yolo-Solano APCD.

(A) New or amended Rules 1.2 (a, b, d to g, i to x, and z to ae), 1.4, 2.4(e), 2.8, 2.9, 4.1 to 4.5, 5.1 to 5.18, 6.1 (i) and (j), 6.2 to 6.5, and 6.7 to 6.8.

(B) Previously approved on June 14, 1978 and now deleted without replacement Rules 4.4, 4.5, 5.2, 5.3, 5.5, 5.7 to 5.9, and 5.13 to 5.17.

(C) Previously approved on June 14, 1978 in paragraph (c)(21)(xiv)(A) of this section and now deleted without replacement, Rule 5.18.

(D) Previously approved on June 14, 1978 in paragraph (c)(21)(xiv)(A) of this section and now deleted without replacement, Rule 2.4.

(xv) San Bernardino County APCD.

(A) New or amended Rules 5(a), 53A, 57, 57.1, 57.2.

(xvi) Santa Barbara County APCD.

(A) Rules 2(a, b, k, l, m, n, o, p, q, r, s, t, u, v, w), 40 [with the exception of 40(4)(m)].

(xvii) Calaveras County APCD.

(A) Rules 110 and 402(f).

(xviii) Los Angeles County APCD (Metropolitan Los Angeles portion).

(A) Amended Rule 45.

(B) Previously approved on September 8, 1978 in paragraph (c)(21)(xviii)(A) of this section and now deleted without replacement, Rule 45.

(22) Revised regulations for the following APCD's submitted on November 2, 1973 by the Governor's designee.

(i) Bay Area APCD.

(A) Regulation 2.

(*1*) Division 1, Section 1222.

(*2*) Division 3, Section 3211.

(*3*) Division 4, Section 4113.

(*4*) Division 8, Sections 8414–8416.

(*5*) Division 9, Sections 9613, 9615, 9711.3, and 9711.5.

(*6*) Division 11, Section 11101.

(*7*) Previously approved on May 11, 1977 in paragraph (c)(22)(i)(A)(*6*) of this section and now deleted without replacement, Division 11, Section 11101.

(B) [Reserved]

(ii) [Reserved]

(23) Revised regulations for the following APCD's submitted on January 22, 1974 by the Governor's designee.

(i) Sacramento County APCD.

(A) Rule 30.

(ii) Santa Barbara County APCD.

(A) Rules 22, 24.1, 24.2.

(24) Revised regulations for the following APVD's submitted on July 19, 1974, by the Governor's designee.

(i) Sutter County APCD.

(A) Rule 1.3

(ii) Bay Area APCD.

(A) Regulation 1: (*1*) Sections 3112–3114, 3119 and 3122.

(iii) San Diego County APCD.

(A) Regulation IX.

(B) Rule 61.

(iv) Stanislaus County APCD.

(A) Rules 103, 108, 108.1, 113, 401, 402, 403, 404, 405, 409.1, 409.2, 418, 421, 505, 518, and 401.1.

(B) Rule 110.

(C) Previously approved on August 22, 1977 in paragraph (c)(iv)(A) of this section and now deleted without replacement, Rule 518.

(v) Tehama County APCD.

(A) Rules 3:14 and 4:18.

(B) Rule 4:17.

(vi) Shasta County APCD.

(A) Rules 1:1 to 1:2, 2:6(1.)(a), 2:6(1.)(b) (i–ii and iv–vii) 2:6(1.)(c)(i–vi), 2:6(1.)(d–e), 2:6(2–4), 2:7, 2:8(a–c), 2:9, 2:11, 2:14, 2:25, 3:1 to 3:9, 3:11 to 3:12, and 4:1 to 4:23.

(B) Rule 3:10.

(C) Previously approved on August 22, 1977 and now deleted without replacement Rules 4.2 to 4.4, 4.8 to 4.10, 4.15, and 4.23.

(D) Previously approved on August 22, 1977 in paragraph (c)(24)(vi)(A) of this section and now deleted without replacement, Rule 3.7.

(vii) Kern County APCD.

(A) Rules 102, 103, 108, 108.1, 110, 113, 114, 301, 305, 401, 404, 405, 407.3, 409, 411, 413, 414, 417–I and II, 504, 516, and 518

(B) Rule 111.

(C) Rules 601–615, except those portions pertaining to sulfur dioxide and the 12-hour carbon monoxide criteria levels.

(B) Previously approved on October 27, 1977 in paragraph (c)(25)(vii)(A) of this section and now deleted without replacement, Rules 302 and 303.

(26) Revised regulations for the following APCD's submitted on January 10, 1975, by the Governor's designee.

(i) Sutter County APCD

(A) Rule 4.1

(ii) Bay Area APCD

(A) Regulation 2: (*1*) Sections 2018.1–2.

(B) Regulation 7.

(C) Regulation 8.

(D) Previously approved on May 11, 1977 in paragraph (c)(26)(ii)(B) of this section and now deleted without replacement, Regulation 7.

(E) Previously approved on May 11, 1977 in paragraph (c)(26)(ii)(C) of this section and now deleted without replacement, Regulation 8.

(iii) Butte County APCD.

(A) Sections 3–11, 3–12, and 3–12.1.

(iv) Glenn County APCD.

(A) Sections 2, 3.1, 10–14.3, 16, 17, 21, 21.1, 24, 57, 58, 81, 85, 86, 95.1, 118, 122.1–122.3, 154 and 155.

(B) Rules 95.2 and 95.3.

(C) Previously approved on May 11, 1977 and now deleted without replacement Rules 118 and 122.1 to 122.3.

(D) Previously approved on May 11, 1977 in paragraph (c)(26)(iv)(A) of this section and now deleted without replacement, Rule 155.

(E) Previously approved on August 22, 1977 in paragraph (c)(26)(iv)(A) of this section and now deleted without replacement, Rule 3.1.

(v) Yuba County APCD.

(A) Agricultural Burning Regulations, sections 1 and 3.

(vi) Colusa County APCD.

(A) Rules 6.2 and 6.4.d. (1–2).

(vii) Fresno County APCD.

(A) Rules 409, 417, 503, 507, 513, and 515.

(B) Previously approved on August 22, 1977 and now deleted without replacement Rules 503, 507, 513, and 515.

(viii) Mariposa County APCD.

(A) Rules 101, 102, 201, 202, 203 (a–f, h, i, and k), 204–216, 301–303, 305–306, 308–313, 315–323, 401–403, 405–409, and 600–618.

(B) Rule 203(j).

(C) Previously approved on August 22, 1977 and now deleted without replacement Rules 601, 602, 604 to 609, 611 to 616, and 618.

(D) Previously approved on August 22, 1977 in paragraph (c)(26)(viii)(A) of this section and now deleted without replacement, Rule 617.

(E) Previously approved on August 22, 1977 in paragraph (c)(26)(viii)(A) of this section and now deleted without replacement, Rule 205.

(ix) Sierra County APCD.

(A) Rules 101, 102, 201–216, 301–323, 405–409, 601–620, 6, 27, 29, and 51–56.

(B) Previously approved and now deleted, Rule 102.

(C) Previously approved on August 22, 1977 in paragraph (c)(26)(ix)(A) of this section and now deleted without replacement Rules 619 and 620.

(D) Previously approved on August 22, 1977 in paragraph (c)(26)(ix)(A) of this section and now deleted without replacement Rules 201 and 205.

(x) Shasta County APCD.

(A) Rules 2:6(5)(b), 3:1, 3:2, 4:6, and 4:14.

(xi) Tulare County APCD.

(A) Rules 417 and 417.1a. thru d., e.2., and f.

(B) New or amended Rules 417.1 (e)(1), (e)(3) and (e)(4).

(xii) Kern County APCD.

(A) Rules 410 and 503.

(xiii) Madera County APCD.

(A) Rules 102, 103, 105, 108, 112–114, 301, 305, 401, 402, (a–e, and g), 404–406, 407.2, 407.3, 408, 409, 409.1 409.2, 412, 416, 416.1a, b, c(2), c(3), d, e(2), f, 504, 505, and 518.

(B) Rule 402(f).

(C) Rule 110.

(D) New or amended Rules 416.1 (c)(1), (e)(1), (e)(3), and (e)(4).

(xiv) Yolo-Solano APCD.

(A) New or amended Rule 6.1 (a), (b), (c), (d), (e), and (g) (1, 2, and 3).

(xv) Monterey Bay Unified APCD.

(A) Rules 49 to 411 and 421.

(xvi) Plumas County APCD.

(A) Rule 203(j).

(B) New or amended Rules 101, 102, 201, 202, 204, 206, 209, 210(a), 214, 216, 216–49, 216–50, 216–51, 216–54, 216–55, 216–56, 216–1, 216–2, 216–3, 305, 306, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 401, 403, 405, 406, 408, 701, 702, 704, 705, 706, 707, 708, 709, 711, 712, 713, 714, 715, 716, 717.

(C) Previously approved and now deleted (without replacement) Rules 51.7, 57.5, 62, 70.

(D) Previously approved on June 14, 1978 and now deleted without replacement Rules 705 to 709.

(E) Previously approved and now deleted, Rule 102.

(F) Previously approved on June 14, 1978 in paragraph (c)(26)(xvi)(B) of this section and now deleted without replacement, Rule 717.

(G) Previously approved on June 14, 1978 in paragraph (c)(26)(xvi)(B) of this section and now deleted without replacement, Rules 701, 702, 704, 711, 712, 713, 714, 715 and 716.

(xvii) Placer County APCD.

(A) New or amended Rules 102, 105, 201, 202, 204, 209, 312, 403, 405, 406, 701, 705, 707, 711, 712, 713, 714, 716, 717.

(B) Previously approved on June 14, 1978 and now deleted without replacement Rules 701, 707, 711 to 714, and 716 (Mountain Counties Air Basin).

(C) Previously approved on June 14, 1978 and now deleted without replacement Rules 701, 705, 707, 711 to 714, and 716 (Lake Tahoe Air Basin).

(D) Previously approved on June 14, 1978 in paragraph (c)(26)(xvii)(A) of this

section and now deleted without replacement, Rule 105.

(E) Previously approved on June 14, 1978 in paragraph (c)(26)(xvii)(A) of this section and now deleted without replacement Rule 717 (Lake Tahoe Air Basin).

(F) Previously approved on June 14, 1978 in paragraph (c)(26)(xvii)(A) of this section and now deleted without replacement Rules 705 and 717 (Mountain Counties Air Basin).

(G) Previously approved on June 14, 1978 in paragraph (c)(26)(xvii)(A) of this section and now deleted without replacement Rules 701, 705, 707, 711 to 714, 716, and 717 (Sacramento Valley Air Basin).

(H) Previously approved on June 14, 1978 in paragraph (c)(26)(xvii)(A) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of this section: Rule 403.

(27) Revised regulations for the following APCD's submitted on April 10, 1975, by the Governor's designee.

(i) Stanislaus County APCD.

(A) Rule 409.

(ii) Tehama County APCD.

(A) Rule 4:6.

(iii) Sacramento County APCD.

(A) Rules 12, 22a, 22b, 25, 32–34, and 40.

(iv) Bay Area APCD.

(A) Regulation 2, section 1302.2 and section 1302.22.

(B) Rules 32, 33, 34, 38, 40.

(v) San Bernardino County APCD.

(A) New or amended Rule 73.

(vi) Riverside County APCD.

(A) New or amended Rule 57.

(vii) Nevada County APCD.

(A) New or amended Rules 101, 102, 105, 106, 107, 201, 202, 203 [with exception of (g)], 204, 206, 208, 209, 210(a), 212, 214, 215, 301, 302, 303, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 322, 401, 403, 405, 406, 408, 601, 602, 701, 702, 703, 705, 706, 707, 708, 709, 711, 712, 713, 714, 715, 716, 717.

(B) Previously approved on June 14, 1978 and now deleted without replacement Rules 701 to 703, 705 to 709, and 712 to 716.

(C) Previously approved and now deleted, Rule 102.

(D) Previously approved on June 14, 1978 in paragraph (c)(27)(vii)(A) of this section and now deleted without replacement, Rules 105, 601, and 602.

(E) Previously approved on June 14, 1978 in paragraph (c)(27)(vii)(A) of this section and now deleted without replacement Rule 717.

(F) Previously approved on June 14, 1978 in paragraph (c)(27)(vii)(A) of this section and now deleted without replacement, Rule 711.

(G) Previously approved on June 14, 1978 in paragraph (c)(27)(vii)(A) of this section and now deleted without replacement Rules 106, 107, 201, 215, 401, and 403.

(viii) El Dorado County APCD.

(A) New or amended Rules 101, 102, 202, 204, 206, 209, 210(a), 212, 214, 301, 305, 306, 309, 310, 311, 312, 313, 315, 316, 317, 318, 323, 401, 403, 405, 406, 408, 601, 602, 701, 702, 704, 705, 706, 707, 708, 709, 711, 712, 713, 714, 715, 716, 717.

(B) Previously approved and now deleted (without replacement) Rules 5, 6, 7.

(C) Previously approved on June 14, 1978 in paragraph (c)(27)(viii)(A) of this section and now deleted Rule 101.

(D) Previously approved on June 14, 1978 in paragraph (c)(27)(viii)(A) of this section and now deleted without replacement, Rules 323, 601, and 602.

(E) Previously approved on June 14, 1978 in paragraph (c)(27)(viii)(A) and now deleted without replacement Rules 701, 702, 704 to 709, and 711 to 717.

(ix) [Reserved]

(x) Santa Barbara County APCD.

(A) Rules 32, 36, 36.3, 36.4, 36.5, 37, 38.

(28) Revised regulations for the following APCD's submitted on July 22, 1975, by the Governor's designee.

(i) Sutter County APCD

(A) Rules 1.2, 2.82, and 4.11.

(ii) San Diego County APCD.

(A) Rule 66.

(iii) Yuba County APCD

(A) Rule 1.1.

(iv) Calaveras County APCD.

(A) Rules 102, 201–215, 301–323, 401–403, 405–408, 409 (Public Records), 601–604, 700–717, 105, 106, 110, 407(b), 409 (Organic Solvents), 409.1 (Architectural Coatings), 409.2 (Disposal and Evaporation of Solvents), 412, and 413.

(B) Previously approved on August 22, 1977 and now deleted without replacement Rules 701, 704 to 709, 711 to 714, and 716.

(C) Previously approved on August 22, 1977 in paragraph (c)(28)(iv)(A) of

this section and now deleted without replacement Rule 717.

(D) Previously approved on May 11, 1977 in paragraph (c)(28)(iv)(A) of this section and now deleted without replacement, Rules 205 and 603.

(E) Previously approved on May 11, 1977 in paragraph (c)(28)(iv)(A) of this section and now deleted with replacement in paragraph (c)(527)(i)(A)(*1*) of this section, Rule 408, ''Source Recordkeeping and Reporting,'' effective December 16, 1974.

(v) Tuolumne County APCD.

(A) Rules 102, 201, 202, 203, (a–f, h, i, and k), 204–216, 301–303, 305–306, 308–313, 315–323, 400–403, 405–408, 409 (Public Records), 600–618, 105–110, 301–304, 409 (Fuel Burning Equipment, Oxides of Nitrogen), 410, and 412–414.

(vi) Kings County APCD.

(A) Rule 410.

(vii) Shasta County APCD.

(A) Rule 2.8(e).

(viii) Kern County APCD.

(A) Rules 115, 407.1, 422, and 423.

(B) Previously approved on August 22, 1977 in paragraph (c)(28)(viii)(A) of this section and now deleted without replacement, Rules 422 and 423.

(ix) Sacramento County APCD.

(A) Rule 93.

(x) Riverside County APCD.

(A) New or amended Rule 53.

(xi) Orange County APCD (Metropolitan Los Angeles portion).

(A) Amended Rule 53.

(29) Revised regulations for the following APCD's submitted on November 3, 1975 by the Governor's designee.

(i) Lake County APCD.

(A) Part III, Number 59a.

(ii) Sacramento County APCD.

(A) Rules 13 and 14.

(B) Rules 71, 112, and 113.

(iii) Monterey Bay Unified APCD.

(A) Rule 418.

(iv) Bay Area APCD.

(A) Regulation 2, section 1302.21 and section 1302.23.

(v) San Diego County.

(A) Rule 63.

(B) Rules 112, 113.

(vi) Ventura County APCD.

(A) Rules 65, 66, 72, and 73.

(B) Previously approved on August 15, 1977 and now deleted without replacement Rules 65 and 66.

(C) Previously approved on August 15, 1977 in paragraph (c)(29)(vi)(A) of this section and now deleted without replacement, Rule 72 (72–72.8).

(30) Revised regulations for the following APCD's submitted on February 10, 1976 by the Governor's designee.

(i) Bay Area APCD

(A) Regulation 1: (*1*) Section 3121.

(B) Regulation 6.

(ii) Butte County APCD

(A) Section 3–11.2

(iii) Yuba County APCD.

(A) Agricultural Burning Regulations, sections 1 and 3.

(iv) Colusa County APCD.

(A) Rule 6.6A.I and 6.6A.II–1. (a–f).

(v) Fresno County APCD.

(A) Rules 115, 422, 423, and 407.

(B) Previously approved on August 22, 1977 in paragraph (c)(30)(v)(A) of this section and now deleted without replacement, Rules 422 and 423.

(vi) San Joaquin County APCD.

(A) Rules 114, 401, 402, 407.1, 409, 411, 422 and 423.

(B) Previously approved on August 22, 1977 in paragraph (c)(30)(vi)(A) of this section and now deleted without replacement, Rules 422 and 423.

(C) Rule 411.1 and 411.2.

(vii) Lake County APCD.

(A) Table V.

(viii) Sacramento County APCD.

(A) Rules 94–97.

(ix) Ventura County APCD.

(A) Rules 70 and 71.

(x) Southern California APCD.

(A) New or amended Rules 501, 502, 506, 507, 508, 509, 511, 512, 513, 514, 515, 516, 517, 518, 801, 803, 804, 807, 808, 809, 810, 811, 813, 814, 815, 817.

(B) Previously approved on June 14, 1978 and now deleted without replacement Rules 501, 502, 506 to 509, 511 to 518, 801, 803 to 804, 807 to 811, 813 to 815, and 817.

(xi) Santa Barbara County APCD.

(A) Rule 32.1.

(31) Revised regulations for the following APCD's submitted on April 21, 1976, by the Governor's designee.

(i) Great Basin Unified APCD.

(A) Rules 200 to 216.

(B) Rules 100 to 107, 215, 300 to 303, 400 to 402, 404 to 413, 416 to 421, 500 to 501, 600 to 616, and 800 to 817.

(C) Alpine County APCD: Rules 1.4, 3.1, 4.2–1, 4.7, 4.7–1, 4.8, 4.10, 4.11, and 5.18.

(D) Inyo County APCD: Rules 1.3, 3.1, 4.1, 4.10, 4.11, 4.12, and 5.1.

(E) Mono County APCD: Rules 1.4, 3.1, 4.2–1, 4.7, 4.7–1, 4.8, 4.10, 4.11, 5.1, and 5.18.

(F) Previously approved on June 6, 1977 and now deleted without replacement Rules 600 to 615 and 800 to 817.

(G) Previously approved on June 6, 1977 in paragraph (c)(31)(i)(B) of this section and now deleted without replacement, Rules 105, 302, and 303.

(H) Previously approved on December 8, 1976 in paragraph (c)(31)(i)(A) of this section and now deleted without replacement Rules 211 and 214.

(I) Previously approved on June 6, 1977 in paragraph (c)(31)(i)(B) of this section and now deleted without replacement Rules 107 and 616.

(J) Previously approved on June 6, 1977 in paragraph (c)(31)(i)(B) of this section and now deleted without replacement, Rule 402.

(ii) Sutter County APCD

(A) Rule 4.1

(iii) San Diego County APCD.

(A) Rule 5.

(B) Previously approved on May 11, 1977 in paragraph (c)(31)(iii)(A) of this section and now deleted without replacement, Rule 5.

(iv) Glenn County APCD

(A) Sections 14.3 and 15.

(v) Kings County APCD.

(A) Rule 411.

(B) Rules 412 and 412.1.

(vi) Southern California APCD.

(A) Rules 461 and 462.

(B) New or amended Rules 103, 104, 105, 106.

(C) Rules 201–207, 209–212, 214–217, and 219.

(D) Previously approved on November 9, 1978 and now deleted without replacement Rule 211.

(E) Previously approved on June 14, 1978 in paragraph (c)(31)(vi)(B) of this section and now deleted without replacement, Rule 105.

(F) Previously approved on November 9, 1978 in paragraph (c)(31)(vi)(C) of this section and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District, Rules 211, 214, 215, and 216.

(vii) Santa Barbara County APCD.

(A) Rule 35.1 and 35.2.

(B) Rule 2(x).

(C) Rule 63, except those portions pertaining to sulfur dioxide and the 12-hour carbon monoxide criteria levels.

(viii) Fresno County APCD.

(A) Rule 411 and 411.1.

(ix) Kern County APCD.

(A) Rule 412 and 412.1.

(x) Stanislaus County APCD.

(A) Rule 411 and 411.1.

(xi) Tulare County APCD.

(A) Rule 412 and 412.1.

(xii) Madera County APCD.

(A) Rule 411.1 and 411.2.

(xiii) Ventura County APCD.

(A) Rules 2, 4, 36, 40, 41, 42, 43, 104, 201, and 202.

(B) Previously approved on August 15, 1977 and now deleted without replacement Rule 43.

(xiv) Yolo-Solano APCD.

(A) New or amended Rules 6.1(f) (1 and 2), (g)(4), (h) (1 and 2) and 6.6.

(xv) Nevada County APCD.

(A) Amended Rule 211.

(xvi) Bay Area APCD.

(A) Regulation 2, section 3212.

(B) Regulation 3, section 3203.

(xvii) [Reserved]

(xviii) Amador County APCD.

(A) Rule 404.

(B) New or amended Rules 101, 102, 104, 105, 106, 107, 201, 202, 204, 206, 207.1, 209, 210(A), 211, 212, 213.2, 213.3, 214, 305, 307, 308, 312, 401, 402, 403, 405, 406, 408, 409, 601, 602, 603, 702, 704, 705, 706, 707, 708, 709, 711, 712, 713, 714, 715, 716, 717.

(C) Previously approved and now deleted (without replacement) Rules 18.1 (Regulation V), 22 (Regulation V).

(D) Previously approved on January 24, 1978 and now deleted without replacement Rules 705 to 709 and 712 to 716.

(E) Previously approved on January 24, 1978 and now deleted without replacement Rules 213.2 and 213.3.

(F) Previously approved on June 14, 1978 in paragraph (c)(31)(xvii)(B) of this section and now deleted without replacement, Rule 105.

(G) Previously approved on January 24, 1978 in paragraph (c)(31)(xviii)(B) of this section and now deleted without replacement Rule 717.

(32) Revised regulations for the following APCD's submitted on August 2, 1976 by the Governor's designee.

(i) Bay Area APCD.

(A) Regulation 2: (*1*) Sections 2022.1–2, 2035.1, 3211.1, and Divisions 16–18.

(ii) Stanislaus County APCD.

(A) Rules 102, 104, 105, 111, 112, 114, 301, 305, 407.1, 416, 416.1, 422, 423, 501, 504, and 511.

(B) Previously approved on August 22, 1977 and now deleted without replacement Rules 501, 404, and 511.

(C) Previously approved on August 22, 1977 in paragraph (c)(32)(ii)(A) of this section and now deleted without replacement, Rules 104, 105, 112, 422, and 423.

(iii) Merced County APCD.

(A) Rules 411 and 411.1.

(B) Rule 109.

(C) New or amended Rules 102, 103, 103.1, 104, 105, 108.1, 110 to 115, 302, 401, 404, 405, 407.1, 408.1, 408.2, 409, 409.1, 409.2, 410, 412, 416, 416.1[(I), (II) (A–L), (II) (N–O), (III), (IV), (V), and (VI)], 421(a), 501, 504, 505, 511, and 518.

(D) Previously approved and now deleted (without replacement) Rules 102(hh) and 102(ii).

(E) Previously approved on June 14, 1978 and now deleted without replacement Rules 105, 501, and 504.

(F) Previously approved on June 14, 1978 in paragraph (c)(32)(iii)(C) of this section and now deleted without replacement, Rule 302.

(G) Previously approved on June 14, 1978 in paragraph (c)(32)(iii)(C) of this section and now deleted without replacement Rules 505 and 518.

(iv) Southern California APCD.

(A) New or amended Rules 403, 404, 405, 407, 408, 409, 432, 441, 443, 464, 465, 467, 470, 471, 472, 473, 504, 505, 510, 802, 805, 806, 812, 816.

(B) Previously approved and deleted (without replacement).

(*1*) Los Angeles County APCD Rules 53.1, 55.

(*2*) San Bernardino County APCD Rules 50, 51.

(*3*) Riverside County APCD Rule 55.

(*4*) Orange County APCD Rule 55.

(C) Rules 202 and 219.

(D) Previously approved on June 14, 1978 and now deleted without replacement Rules 504, 505, 510, 802, 805, 806, 812, and 816.

(E) Previously approved on June 14, 1978 and now deleted without replacement.

(*1*) Los Angeles County APCD Rule 505.

(*2*) Riverside County APCD Rule 505.

(*3*) San Bernadino County APCD Rule 505.

(F) Previously approved on June 14, 1978 and now deleted without replacement Rule 432.

(v) Plumas County APCD.

(A) Amended Rule 324.

(vi) El Dorado County APCD.

(A) Amended Rule 211.

(33)–(34) [Reserved]

(35) Revised regulations for the following APCDs submitted on November 10, 1976 by the Governor's designee.

(i) Sacramento County APCD.

(A) Rules 1, 2, 11, 12, 21, 22a, 22b, 24, 25, 27, 28, 29, 33, 39, 44, 70, 71, 90, 92, 93, 94, 95, 96, 97, 98, and definitions list addition to Regulation VII.

(B) Rule 14.

(ii) Southern California APCD.

(A) Rule 461.

(iii) Ventura County APCD.

(A) Rule 70.

(B) Rules 2, 57, 72, and 73 and Regulation VII (Rules 110–129).

(C) Previously approved on August 15, 1977 and now deleted without replacement Rules 115 to 119, 122, and 128 to 129.

(D) Previously approved on August 15, 1977 in paragraph (c)(35)(iii)(B) of this section and now deleted without replacement, Rules 72 (72.9–72.10) and 73.

(iv) Santa Barbara County APCD.

(A) Rule 35.2.

(v) San Joaquin County APCD.

(A) Rules 102, 103, 103.1, 104, 105, 111, 112, 301, 305, 402, 416.1, 501, 504, 511.

(B) Previously approved on October 4, 1977 and now deleted without replacement Rule 501.

(C) Previously approved on October 4, 1977 in paragraph (c)(35)(v)(A) of this section and now deleted without replacement, Rules 104, 105, and 112.

(vi) Tulare County APCD.

(A) Rules 102, 103, 103.1, 104, 105, 110, 112, 115, 305 (402 paragraphs a. through e. and g.), 405, 407.1, 407.3, 409, 417.1, and 421.

(B) Rules 111 and 402(f).

(C) Previously approved on September 21, 1976 and now deleted without replacement Rules 105 and 305.

(vii) Fresno County APCD.

(A) Rules 407 and 408.

(viii) Imperial County APCD.

(A) Rules 100, 114.5, 131.5, and 148.D(3).

(ix) Del Norte County APCD.

(A) Rule 540.

(B) [Reserved]

(C) New or amended Rules 100, 110, 120, 130, 150, 160 (except 160(a) and non-criteria pollutants), 190, 240(d) (except paragraph (3)), 300, 310, 320, 340, 400(b), 410(a), 410(c), 420, 430, 440, 470, 480, 482, 500, 510, 520, 600, 610, 620, 630, 640, and 650; and the following portions of Regulation 2: General prohibitions (all of page 1), Articles I and II, paragraphs A1, A2, A3, A4, 5, 7, and 8 of Article III, and Articles IV to VII.

(ii) San Diego County APCD.

(A) Rule 68.

(iii) San Luis Obispo County APCD.

(A) Rule 112, and Rules 404(A) through 404(B)(1)(a), 404(B)(1)(c), 404(B)(2), 404(B)(3), 404(B)(4), 404(c), 404(D), and 404(E).

(iv) Lake County APCD.

(A) Rules 500, 510, and 511.

(B) New or amended sections 100, 200 to 205.1, 207 to 234, 236, 238 to 260, 300, 301, 400, 401, 402 (A to E, and G), 410, 411, 412 (A and C), 430 to 439, 520, 530 to 533, 800, 900 to 902, 1000 to 1003, 1100, 1200, 1300, 1400, 1500, 1600, 1601, 1610, 1611, 1612, 1620, 1700, 1701, 1710 to 1714, 1720 to 1725, 1730, 1731 to 1736, and tables I, II, III, IV, and V.

(C) Previously approved and now deleted (without replacement) part II; sections 9, 15, 18, 28, 42, 43, 49a, 49b, 50, 52, and 54 of part III; sections 1 to 4 of part IV; section (1)(B) of part V; and parts IV and VI of Appendix B.

(D) Previously approved on August 4, 1978 and now deleted without replacement Rules 300, 800, 1600, 1601, 1610 to 1612, 1620, 1700 to 1701, 1710 to 1714, 1720 to 1725, and 1730 to 1736.

(E) Previously approved on August 4, 1978 in paragraph (c)(37)(iv)(B) of this section and now deleted without replacement, Rules 531, 901, and 1500.

(v) Tuolumne County APCD.

(A) Rule 404.

(B) New or amended Rules 102, 202, 203, 206, 207, 208, 209, 213, 215, 216, 217, 301, 302, 303, 304, 308, 319, 321, 322, 323, 324, 402, 407, 409, 601, 602, 603, 604, 605, 700, 701, 702, 703, 704, 705, 706, 707, 708,

709, 710, 711, 712, 713, 714, 715, 716, and 717 and rescinded Rules 413 and 414.

(C) Previously approved on December 6, 1979 and now deleted without replacement Rules 601 to 605, 700 to 704, and 705 to 716.

(D) Previously approved on December 6, 1979 in paragraph (c)(37)(v)(B) of this section and now deleted without replacement, Rules 216, 323, and 324.

(E) Previously approved on December 6, 1979 in paragraph (c)(37)(v)(B) of this section and now deleted without replacement Rule 717.

(38) Revisions to air pollution emergency episode plans submitted on June 1, 1977 by the Governor's designee.

(i) South Coast Air Quality Management District's Regulation VII Emergencies as revised on May 6, 1977. No action has been taken on those portions of Rules 702, 703, 704, 706, 708, 708.2, 710, 711, 712 and 714 that pertain to sulfate, oxidant in combination with sulfate, or oxidant in combination with sulfur dioxide. No action has been taken on Rules 708.2(b)(3)(B), 708.2(b)(4)(B), 708.2(b)(4)(C) and 708.2(b)(5)(C).

(39) Revised regulations for the following APCDs submitted on June 6, 1977, by the Governor's designee.

(i) Great Basin Unified APCD.

(A) Rule 403.

(ii) San Bernardino County APCD (Southeast Desert portion).

(A) Rule 430.

(B) Rules 201–207, 209–212, 213, 213.1, 213.2, 214–217, and 219.

(C) New or amended Rules 104, 106, 208, 218, 401, 403, 53–A(a), 407 to 409, 431, 432, 441 to 443, 464 to 470, 472, 473, 475, 476, 503 to 508, 510 to 518, 801 to 817.

(D) [Reserved]

(E) Rules 703, 704 (except those portions that pertain to the criteria levels for carbon monoxide and sulfur dioxide), 705, 706, 707, 708, 709, 710, 711, 713, and 714.

(F) Previously approved on September 8, 1978 and now deleted without replacement Rules 503 to 508, 510 to 516, 518, and 801 to 817.

(G) Previously approved on September 8, 1978 and now deleted without replacement Rules 466 and 467.

(H) Previously approved on September 8, 1978 in paragraph (c)(39)(ii)(C) of this section and now deleted without replacement for implementation in the Mojave Desert Air Quality Management District, Rule 517.

(I) Previously approved on November 9, 1978 in paragraph (c)(39)(ii)(B) of this section and now deleted without replacement for implementation in the Mojave Desert Air Quality Management District, Rules 210, 211, and 214 to 216.

(J) Previously approved on November 9, 1978 in paragraph (c)(39)(ii)(B) of this section and now deleted without replacement: Rules 213, 213.1, and 213.2.

(iii) Los Angeles County APCD (Southeast Desert portion).

(A) Rule 430.

(B) Rules 201–207, 209–212, 213, 213.1, 213.2, 214–217, and 219.

(C) New or amended Rules 101, 102, 2, 103 to 106, 208, 218, 301, 42, 401, 403 to 405, 407 to 409, 431, 432, 441 to 444, 461, 463 to 476, 502 to 518, 801 to 817.

(D) Deleted without replacement Rule 53.1, and Regulation VI—Orchard or Citrus Grove Heaters.

(E) Rules 701, 702, 703, 704 (except those portions that pertain to the criteria levels for carbon monoxide and sulfur dioxide), 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, and 715.

(F) Previously approved on September 8, 1978 and now deleted without replacement Rules 502 to 516, 518, and 801 to 817.

(G) Previously approved on September 8, 1978 in paragraph (c)(39)(iii)(C) of this section and now deleted without replacement, Rules 42 and 105.

(iv) Riverside County APCD (Southeast Desert portion).

(A) Rule 430.

(B) Rules 201–207, 209–212, 213, 213.1, 213.2, 214–217 and 219.

(C) New or amended Rules 103, 104, 208, 218, 301, 42, 401, 403 to 405, 53, 56, 407 to 409, 431, 432, 441 to 444, 463 to 476, 73, 503 to 518, 801 to 817.

(D) Deleted without replacement Regulation V—Orchard, Field or Citrus Grove Heaters.

(E) Rules 702, 703, 704 (except those portions that pertain to the criteria levels for carbon monoxide and sulfur dioxide), 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, and 715.

(F) Previously approved on September 8, 1978 and now deleted without

replacement Rules 503 to 516, 518, and 801 to 817.

(G) Previously approved on September 8, 1978 in paragraph (c)(39)(iv)(C) of this section and now deleted without replacement, Rules 42 and 301.

(H) Previously approved on November 9, 1978 in paragraph (c)(39)(iv)(B) of this section and now deleted without replacement for implementation in the Mojave Desert Air Quality Management District, Rules 210, 211, and 214 to 216.

(I) Previously approved on September 8, 1978 in paragraph (c)(39)(iv)(C) of this section and now deleted without replacement for implementation in the Mojave Desert Air Quality Management District, Rule 517.

(J) Previously approved on November 9, 1978 in paragraph (c)(39)(iv)(B) of this section and now deleted without replacement: Rules 213, 213.1, and 213.2.

(v) Yolo-Solano APCD.

(A) Amended Rule 2.21.

(vi) South Coast Air Quality Management District.

(A) Amended Rule 461.

(B) Amended Rule 431.

(vii) Mariposa County APCD.

(A) New or amended Rules 102(B), 102(E), 102(S), 102(II), 102(SS), 203 (with the exception of (D)), 206(B), 207, 208, 211, 215, 216, 301, 302, 303, 304, 308, 319, 320, 321, 322, 324, 402, 404, 407, 507, 514, 600, 603, and 610.

(B) Previously approved and now deleted (without replacement) Rule 203(k).

(C) Previously approved on June 6, 1977 and now deleted without replacement Rules 600, 603, and 610.

(D) Previously approved on August 16, 1978 in paragraph (c)(39)(vii)(A) of this section and now deleted without replacement, Rules 216 and 402.

(E) Previously approved on August 16, 1978 in paragraph (c)(39)(vii)(A) of this section and now deleted without replacement Rule 514.

(viii) Sierra County APCD.

(A) New or amended Rules 102(B), 102(E), 102(S), 102(II), 102(SS), 203 (with the exception of (D) and (G)), 206(B), 207, 208, 211, 215, 216, 301, 302, 303, 308, 319, 320, 321, 322, 324, 402, 404, 407, 409, 507, 514, 516, 600 to 617.

(B) Previously approved and now deleted (without replacement) Rules 203(j) and 620.

(C) Previously approved on September 14, 1978 and now deleted without replacement Rules 601 to 602, 604 to 609, and 611.

(D) Previously approved and now deleted, Rule 102.

(E) Previously approved on September 14, 1978 in paragraph (c)(39)(viii)(A) of this section and now deleted without replacement Rules 600, 612, 613, 614, 615, 616, and 617.

(ix) Plumas County APCD.

(A) New or amended Rules 102(B), 102(E), 102(S), 102(II), 102(SS), 203 (with the exception of (D) and (G)), 206(B), 207, 208, 211, 215, 216, 301, 302, 303, 304, 307, 308, 319, 320, 321, 322, 324, 402, 404, 407, 409, 507, 514, 602 to 605, 700, 703, and 710.

(B) Previously approved on September 14, 1978 and now deleted without replacement Rules 602 to 605, 700, and 710.

(C) Previously approved and now deleted, Rule 102.

(x) Nevada County APCD.

(A) New or amended Rules 102(B), 102(E), 102(S), 102(II), 102(SS), 103, 104, 203(e and i), 206(B), 207, 216, 304, 319, 320, 321, 402, 407, 409, 507, 514, 700, 703(E and I), 704, 710 and 711(A).

(B) Previously approved on September 14, 1978 and now deleted without replacement Rules 704, 710, and 711(A).

(C) Previously approved and now deleted, Rule 102.

(D) Previously approved on September 14, 1978 in paragraph (c)(39)(x)(A) of this section and now deleted without replacement, Rule 402.

(E) Previously approved on September 14, 1978 in paragraph (c)(39)(x)(A) of this section and now deleted without replacement Rule 514.

(F) Previously approved on September 14, 1978 in paragraph (c)(39)(x)(A) of this section and now deleted without replacement, Rules 700 and 703 (paragraphs (E) and (I)).

(40) [Reserved]

(41) Revised regulations for the following APCD's submitted on October 13, 1977, by the Governor's designee.

(i) Kings County APCD.

(A) New or amended Rules 412 and 412.2.

(ii) San Diego County Air Pollution Control District.

(A) New or amended Rules 2(b), 2(t), 2(u), 2(v), 2(w), 3, 19.2, 40, 42, 50, 52, 53, 54, 61.5, 64, 65, 66, 68, 71, 76, 77, 85, 95, 96, 101(f), 102(d), 102(e), 103(d), 103(g), 104, 109, and 177.

(*1*) Rule 65 is now removed without replacement as of March 14, 1989.

(B) Previously approved and now deleted (without replacement) Rule 113.

(C) Regulation VIII, Rules 126–138 and Appendix A, except as these rules apply to the 12-hour carbon monoxide episode criteria specified in Rule 127.

(D) Previously approved on August 31, 1978 and now deleted without replacement Rules 77, 85, and 96.

(E) Previously approved on August 31, 1978 and now deleted without replacement Rule 3.

(F) Previously approved on August 31, 1978 in paragraph (c)(41)(ii)(A) of this section and now deleted Rule 104 (now replaced by Rule 101).

(iii) Bay Area APCD.

(A) New or amended rules: Regulation 1, section 3121 and Regulation 2, sections 3210.5 to 3210.11.

(iv) Ventura County APCD.

(A) New Rule 105.

(v) Kern County APCD.

(A) Rule 108.

(vi) San Luis Obispo County APCD.

(A) New Rule 113.

(vii) Monterey Bay Unified APCD.

(A) New Rules 215, 422.

(viii) Amador County APCD.

(A) New or amended Rules 102(C), 102(F), 102(AW), 103, 205(A)(1), 207, 212, 216, 302(A), 304, 305(C), 313(A), 507, 602.1, 604, 605, 701, 703(E) and 710.

(ix) Calaveras County APCD.

(A) New or amended Rules 102, 203 (with the exception of (D) and (G)), 206(B), 207, 208, 209, 211, 215, 216, 217, 301, 302, 303, 304, 319, 320, 321, 322, 323, 324, 402, 404, 407, 507, 602 to 604, 700, 702, 703, 710, and 715.

(B) Previously approved and now deleted (without replacement) Rule 203(J).

(C) Previously approved on November 7, 1978 and now deleted without replacement Rules 700, 702, 703, 710, 715.

(D) Previously approved on November 7, 1978 in paragraph (c)(41)(ix)(A) of this section and now deleted without replacement, Rules 216, 324, 402, 602, 603, and 604.

(x) Placer County APCD.

(A) New or amended Rules 101, 102, 103, 104, 203 (with the exception of (G)), 206, 207, 208, 210, 211, 213, 214, 301 to 311, 313 to 322, 401, 402, 404, 407, 408, 409, 507, 603 to 605, 702 to 704, 706, 708, 709, 710, 715, 801 to 804.

(B) Previously approved on November 15, 1978 and now deleted without replacement Rules 703, 704, 708 to 710, and 715 (Mountain Counties Air Basin).

(C) Previously approved on November 15, 1978 and now deleted without replacement Rules 603 to 605, 702 to 704, 706, 708 to 710, and 715 (Lake Tahoe Air Basin).

(D) Previously approved on November 15, 1978 in paragraph (c)(41)(x)(A) of this section and now deleted without replacement, Rule 402.

(E) Previously approved on November 15, 1978 in paragraph (c)(41)(x)(A) of this section and now deleted without replacement, Rules 801 to 804 (Lake Tahoe Air Basin).

(F) Previously approved on November 15, 1978 in paragraph (c)(41)(x)(A) of this section and now deleted without replacement, Rules 801, 802, 803 (paragraphs B and C), and 804 (Mountain Counties Air Basin).

(G) Previously approved on November 15, 1978 in paragraph (c)(41)(x)(A) of this section and now deleted without replacement, Rules 603, 604, 605, and 801 to 804 (Sacramento Valley Air Basin).

(H) Previously approved on November 15, 1978 in paragraph (c)(41)(x)(A) of this section and now deleted without replacement Rule 706 (Mountain Counties Air Basin).

(I) Previously approved on November 15, 1978 in paragraph (c)(41)(x)(A) of this section and now deleted without replacement Rules 702 to 704, 706, 708 to 710, and 715 (Sacramento Valley Air Basin).

(J) Previously approved on November 15, 1978 in paragraph (c)(41)(x)(A) of this section and now deleted with replacement in paragraph (c)(497)(i)(B)(*1*) of this section, Rule 206.

(K) Previously approved on November 15, 1978 in paragraph (c)(41)(x)(A) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of

this section for implementation in the Mountain Counties and Sacramento Valley Air Basins: Rule 507.

(xi) Tulare County APCD.

(A) New or amended Rules 108 and 412.1

(xii) Shasta County APCD.

(A) New or amended Rules 1:2 (with the exception of the definition of ''person''); 2:6(1)(a), (1)(b), (i–ii), (1)(b)(iii), (a, b, and d), (1)(b), (iv–vii), (1)(c), (i–vi and viii), (1) (d and e), (2) (a–d and f), (3) (a–c and e–g), (4) (a–c and e–i), (5) (b–d); 2:7, 2:8; 3:2 (except part VI and VII of table II, and explanatory notes 6 and 7); 3:4, 4:1, 4:5, 4:6, 4:14, and 4:19.

(B) Previously approved on November 14, 1978 and now deleted without replacement Rules 4.5 and 4.6.

(xiii) Madera County APCD.

(A) Amended Rule 412.1.

(xiv) South Coast Air Quality Management District.

(A) New or amended Rules 101 and 102 (except for the definition of ''agricultural burning'').

(B) Previously approved on December 19, 1978 in paragraph (c)(41)(xiv)(A) of this section and now deleted with replacement in paragraph (c)(520)(i)(A)(*1*) of this section in the Mojave Desert Air Quality Management District, Rule 102 (except for the definition of ''agricultural burning'').

(xv) Northern Sonoma County APCD.

(A) New or amended Rules 420(e) and (f), and 455(a) and (d).

(42) Revised regulations for the following APCD's submitted on November 4, 1977 by the Governor's designee.

(i) Imperial County APCD.

(A) New or amended Rules 100 to 110, 113 to 115, 301 to 303, 305, 401, 403 to 406, 408, 409, 411 to 416, 419 to 422, 501 to 516, and 701 to 706.

(B) Previously approved and now deleted (without replacement), Rules 106B, 113, 126, 131 and 147.

(C) Rules 601, 602 (except those portions that pertain to the criteria levels for carbon monoxide and sulfur dioxide), 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, and 614.

(D) New Rule 417 (A–H, and J).

(E) Previously approved on August 11, 1978 and now deleted without replacement Rules 501 to 512 and 514 to 516.

(F) Previously approved on August 11, 1978 in paragraph (c)(42)(i)(A) of this section and now deleted without replacement, Rules 104, 106, and 303.

(G) Previously approved on August 11, 1978 in paragraph (c)(42)(i)(A) of this section and now deleted without replacement, Rule 513.

(ii) Sacramento County APCD.

(A) Rules 3, 7(a) to 7(b)(2), 7b(4) to 7(d), 9, 11, 12, 13, 14, 15, 21, 22a, 23, 24, 25, 26, 94, 95, 96, 97, and 98.

(B) Rules 120, 121, 122, 125, and 126, except those portions that pertain to the 12-hour CO criteria level.

(iii) Kings County APCD.

(A) New or amended Rules 102, 103, 103.1, 104, 105, 108, 108.1, 110, 111, 112, 113, 401, 402(a) to 402(d), 402(f), 402(g), 404, 404.1, 405, 405.1, 405.2, 405.3, 406, 407.1, 409, 410, 416.1, 417, 417.1, 418, 421, and 501.

(B) Previously approved and now deleted, Rule 405.1.

(C) Previously approved on August 4, 1978 and now deleted without replacement Rules 105 and 501.

(D) Previously approved on August 4, 1978 in paragraph (c)(42)(iii)(A) of this section and now deleted without replacement, Rules 104 and 110.

(iv) Stanislaus County APCD.

(A) New or amended Rules 103.1, 108, 411.1.

(v) Merced County APCD.

(A) Amended Rules 411(b) and 411.1.

(vi) Kern County APCD.

(A) Rule 412.1.

(vii) San Luis Obispo County APCD.

(A) New or amended Rules 105(A)(1), 407, 501(A)(7), 502(A)(3).

(viii) Glenn County APCD.

(A) New or amended Rules 82, 152, and 154.

(B) Previously approved on September 14, 1978 in paragraph (c)(42)(viii)(A) of this section and now deleted without replacement, Rules 152 and 154.

(ix) Great Basin Unified APCD.

(A) New or amended Rules 300, 423, and 617.

(B) Previously approved and now deleted (without replacement) Rules 411 and 418.

(x) El Dorado County APCD.

(A) New or amended Rules 102, 201, 203 [with the exception of (G)], 206(B), 207, 208, 215, 216, 217, 217–49 to 217–50, 217–51(A to D), 217–53 to 217–56, 217–1 to

217–3, 302, 303, 304, 307, 308, 319, 320, 321, 322, 324, 402, 407, 409, 507, 700, 703 and 710.

(B) Previously approved on November 6, 1978 in paragraph (c)(42)(x)(A) of this section and now deleted Rule 102.

(C) Previously approved on November 6, 1978 in paragraph (c)(42)(x)(A) of this section and now deleted without replacement, Rules 216, 324, and 402.

(D) Previously approved on November 6, 1978 in paragraph (c)(42)(x)(A) of this section and now deleted without replacement Rules 700, 703, and 710.

(xi) Fresno County APCD.

(A) New or amended Rules 411.1 and 416.1(g).

(xii) San Joaquin County APCD.

(A) New or amended Rules 108 and 411.2.

(xiii) San Bernardino County Desert APCD.

(A) New or amended Rules 101, 102, 103, 105, 404, 405, 406(a), 444, 461, 462, 463, 471, 474, 501, 502 and 509.

(B) Previously approved and now deleted without replacement Rules 44 and 53.1.

(C) Rules 701, 702, 712, and 715.

(D) Previously approved on December 21, 1978 and now deleted without replacement Rules 501, 502, and 509.

(xiv) Riverside County APCD.

(A) New or amended Rules 101, 102, 105, 461, and 501.

(B) Rule 701.

(C) Previously approved on December 21, 1978 and now deleted without replacement Rule 501.

(D) Previously approved on December 21, 1978 in paragraph (c)(42)(xiv)(A) of this section and now deleted without replacement, Rule 105 (Mojave Desert AQMD only).

(xv) Del Norte County APCD.

(A) New or amended Rules 240(e), 420 (e) and (f), and 455 (a) and (d), and Appendix D to regulation 1.

(xvi) South Coast Air Quality Management District.

(A) New or amended Rules 218, 463, and 466.

(B) Rules 702 (map only) and 708.2.

(C) Rules 714 and 715.1 (except those portions that pertain to sulfate, oxidant in combination with sulfate, and oxidant in combination with sulfur dioxide).

(xvii) Humboldt County APCD.

(A) New or amended Rules 240(e), 420 (e) and (f), and 455 (a) and (d), and Appendix D to Regulation 1.

(xviii) Santa Barbara County APCD.

(A) New Rule 39.3.

(xix) Mendocino County APCD.

(A) New or amended Rules 240(e), 420 (e) and (f), and 455 (a) and (d), and Appendix D to Regulation 1.

(xx) Trinity County APCD.

(A) New or amended Rules 240(e), 420 (e) and (f), and 455 (a) and (d), and Appendix D to Regulation 1.

(xxi) Northern Sonoma County APCD.

(A) New or amended Rules 240(e), 310, and Appendix D to Regulation 1.

(B) Previously approved on December 21, 1978 in paragraph (c)(42)(xxi)(A) of this section and now deleted with replacement in paragraph (c)(164)(i)(B)(*4*) of this section, Rule 240(e).

(xxii) Monterey Bay Unified APCD.

(A) Regulation VII, Rules 700–713.

(43) [Reserved]

(44) Revised regulations for the following APCD's submitted on June 22, 1978, by the Governor's designee.

(i) Great Basin Unified APCD.

(A) Amended Rule 419.

(ii) Santa Barbara County APCD.

(A) New Rule 24.15.

(iii) Ventura County APCD.

(A) New or amended Rules 2, 7, and 56 (with the exception of Sections B(2)(c) and C).

(iv) Yolo-Solano APCD.

(A) Amended Rules 1.2 (preamble), 1.4, 2.8(c)(2), 2.13(h)(4), 2.15, 2.17, 2.20, 4.4(b), 5.1, 5.4(e)(1), 5.10, 5.11, and 6.7(f).

(B) Previously approved and now deleted (without replacement) Rule 2.8(b)(4).

(C) Previously approved on January 29, 1979 and now deleted without replacement Rules 5.1, 5.10 and 5.11.

(vii) San Luis Obispo County APCD.

(A) Rule 407.

(B) New or amended Rule 201.

(48) Chapter 3—Legal Authority of the California SIP, submitted on March 16, 1979, by the Governor's designee.

(49) Addendum to Chapter 23 of the California SIP submitted on March 29, 1979, by the Governor's designee.

(50) Revised regulations for the following APCD's submitted on May 7, 1979, by the Governor's designee.

(i) Del Norte County APCD.

(A) New or amended Rules 240, 410 (a) and (c), and 615.

(B) Previously approved on October 31, 1980 and now deleted without replacement Rule 615.

(ii) Humboldt County APCD.

(A) New or amended Rules 240, 410 (a) and (c), 615.

(B) Previously approved on October 31, 1980 and now deleted without replacement Rule 615.

(iii) Mendocino County APCD.

(A) New or amended Rules 240, 410, and 615.

(B) Previously approved on October 31, 1980 and now deleted without replacement Rule 615.

(iv) Trinity County APCD.

(A) New or amended Rules 240, 410 (a) and (c), and 615.

(B) Previously approved on October 31, 1980 and now deleted without replacement Rule 615.

(v) Northern Sonoma County APCD.

(A) New or amended Rules 240, 300, 310, 320, 410 (a) and (c), 420, 540, 615.

(B) Previously approved on October 31, 1980 and now deleted without replacement Rules 320 and 615.

(C) Previously approved on October 31, 1980 in paragraph (c)(50)(v)(A) of this section and now deleted with replacement in paragraph (c)(164)(i)(B)(*4*) of this section, Rule 240.

(vi) Merced County APCD.

(A) New or amended Rule 409.1.

(B) New or amended Rule 519.

(vii) Modoc County APCD.

(A) New or amended Rules 1:2 w, 2:11, 2:15, 3:3 and 3:4.

(viii) Monterey Bay Unified APCD.

(A) Rules 403 and 602.

(ix) Ventura County APCD.

(A) New or amended Rules 71 and 71.3.

(B) New or amended Rule 11.

(x) San Diego County APCD.

(A) New or amended Rule 10(h) and deletion of Rule 43.

(51) Revised regulations for the following APCD's submitted May 23, 1979, by the Governor's designee.

(i) Kern County APCD.

(A) Amended Rules 305 and 503.

(B) Rules 410.1 and 424.

(C) Previously approved on August 11, 1980 and now deleted without replacement Rule 503 (including Southeast Desert).

(ii) Monterey Bay Unified APCD.

(A) Rule 417.

(B) Rule 617.

(iii) Del Norte County APCD.

(A) New or amended Rules 130, 300, 310, 320, 420, 540 and Regulation 1/Appendix D.

(B) Previously approved on October 31, 1980 and now deleted without replacement Rule 320.

(iv) Humboldt County APCD.

(A) New or amended Rules 130, 300, 310, 320, 420, 540 and Regulation 1/Appendix D.

(B) Previously approved on October 31, 1980 and now deleted without replacement Rule 320.

(v) Mendocino County APCD.

(A) New or amended Rules 130, 300, 310, 320, 420, 540 and Regulation 1/Appendix D.

(B) Previously approved on October 31, 1980 and now deleted without replacement Rule 320.

(vi) Trinity County APCD.

(A) New or amended Rules 130, 300, 310, 320, 420, 540 and Regulation 1/Appendix D.

(B) Previously approved on October 31, 1980 and now deleted without replacement Rule 320.

(vii) San Diego County APCD.

(A) Amended Rules 2(t), 61.5, and 61.7.

(B) New or amended Rules 19.2(d)(4), 50, 62(a), 66(P) and (W), 95, and 98.

(C) New or amended Rule 11.

(D) Previously approved on September 28, 1981 and now deleted without replacement Rules 95 and 98.

(E) Previously approved on July 6, 1982 in paragraph (c)(51)(vii)(C) of this section, and now deleted with replacement in paragraph (c)(488)(i)(A)(*3*) of this section, Rule 11.

(viii) San Joaquin County APCD.

(A) New or amended Rule 409.1.

(B) New or amended Rules 110 (a), (b), and (d)–(i), 301, 303–311, and 511.

(C) New or amended Rules 102, 108.2, 110(c), 302, 401, and 521.

(D) Previously approved on December 9, 1981 and now deleted without replacement Rules 301, 303 to 311, and 511.

(E) Previously approved on June 18, 1982 and now deleted without replacement Rule 302.

(ix) Stanislaus County APCD.

(A) New or amended Rule 409.1.

(B) New or amended Rule 110 (A), (B) and (D)–(I).

(C) New or amended Rules 110(c) and 519.

(D) Previously approved on June 18, 1982 and now deleted without replacement Rule 519.

(x) Tulare County APCD.

(A) New or amended Rules 410.1 and 413.

(B) New or amended Rules 111 (a), (b), and (d)–(i), 402, and 417.

(C) New or amended Rules 108, 111(c), 201, 410 and 519.

(xi) Lake County APCD.

(A) New Rules 227.1, 254.1, and 660.

(B) Previously approved on January 27, 1981 in paragraph (c)(51)(xi)(A) of this section and now deleted without replacement, Rule 660.

(xii) San Bernardino County Desert APCD.

(A) New Rules 480 and 501.1.

(B) New or amended Rules 442, 463, and 1113.

(C) Previously approved on January 27, 1981 and now deleted without replacement Rule 501.1.

(xiii) Santa Barbara County APCD.

(A) New or amended Rules 101, 102, 103, 104, 201(A, B, D, E, F, and G), 202, 203, 204, 205(A and B), 206, 207, 208, 209, 210, 211, 301, 302, 304, 305, 306, 307, 308, 309, 311, 312, 313, 314, 315, 317, 319, 322, 324, 328, 401, 402, 403, 501, 502, 503, 504, 505, 505–A, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 601, 602, 603, 604, 605, 606, 607, 608, 609, and 610.

(B) Previously approved on May 18, 1981 and now deleted without replacement Rules 210 to 211, 501 to 504, 506 to 512, 514 to 516, and 518.

(C) Previously approved on May 18, 1981 in paragraph (c)(51)(xiii)(A) of this section and now deleted without replacement, Rule 402.

(D) Previously approved on May 18, 1981 in paragraph (c)(51)(xiii)(A) of this section and now deleted without replacement Rules 204, 207, 208, 209, 513, 517, and 519.

(E) Previously approved on May 18, 1981 in paragraph (c)(51)(xiii)(A) of this section and now deleted with replacement in paragraph (c)(187)(i)(E)(*1*) of this section, Rule 206.

(F) Previously approved on May 18, 1981 in paragraph (c)(51)(xiii)(A) of this section and now deleted with replacement in paragraph (c)(254)(i)(C) of this section, Rules 203 and 204.

(G) Previously approved on May 18, 1981 in paragraph (c)(51)(xiii)(A) of this section and now deleted with replacement in paragraph (c)(361)(i)(A)(*4*) of this section, Rule 201.

(H) Previously approved on May 5, 1982, in paragraph (c)(51)(xiii)(A) of this section and now deleted with replacement in paragraph (c)(533)(i)(A)(*3*) of this section, Rule 202, ''Exemptions to Rule 201,'' revision adopted on August 25, 2016.

(I) Previously approved on May 5, 1982, in paragraph (c)(51)(xiii)(A) of this section and now deleted with replacement in paragraph (c)(254)(i)(C)(*8*) of this section, Rule 205, ''Standards for Granting Permits,'' revision adopted April 17, 1997.

(xiv) El Dorado County APCD—Lake Tahoe Air Basin Portion.

(A) New or amended Rules 101, 102 (except LAER, stationary source, modification definitions), 103, 104, 201–203, 206A–212, 217, 301–305, 307–310, 312–321, 404, 702–704, 706–710, and 801–804. Deleted Rules 59(g)(1), 102I, 102S, 102BB, 102FF, 102GG, 102LL, 102RR, 208, 214, 601, 602, and 700.

(B) Amended Rule 306.

(C) New or amended Rules 102, LAER, stationary source, and modifications; 213; and 214.

(D) Previously approved on May 18, 1981 in paragraph (c)(51)(xiv)(A) of this section and now deleted without replacement, Rules 801 to 804.

(E) Previously approved on May 18, 1981 in paragraph (c)(51)(xiv)(A) of this section and now deleted without replacement Rules 702 to 704 and 707 to 710.

(F) Previously approved on May 18, 1981 in paragraph (c)(51)(xiv)(A) of this section and now deleted without replacement, Rule 706.

(xv) Placer County APCD—Mountain Counties Air Basin Portion.

(A) New or amended Rules 404, 602, and 603.

(B) Deletion of Rules 604 and 605.

(C) Previously approved on May 18, 1981 and now deleted without replacement Rules 404, 602, and 603.

(xvi) Sacramento County APCD.

(A) Amended Rule 71.

(B) Previously approved on January 26, 1982 and now deleted without replacement Rule 71.

(xvii) Shasta County APCD.

(A) Amended Rule 3.4.

(xviii) Sierra County APCD. (A) New or amended Rules 207, 210, 211, 218 and 618.

(B) Previously approved on January 25, 1982 in paragraph (c)(51)(xviii)(A) of this section and now deleted without replacement, Rule 618.

(xix) Tehama County APCD.

(A) Amended Rule 2.1 and previously approved and now deleted Rule 2.9 (Action on Applications).

(xx) Ventura County APCD.

(A) New or amended Rules 6, 8, 9, 13, 24, 40, 63, 75, 102, 103, 110, 111, 112, 113, 114, 120, 121, 123, 124, 125, 126, 127, and 130.

(B) Previously approved on June 18, 1982 and now deleted without replacement Rules 40, 110 to 114, 120 to 121, 123 to 126, and 130.

(C) Previously approved on June 18, 1982 in paragraph (c)(51)(xx)(A) of this section and now deleted without replacement, Rule 9.

(D) Previously approved on June 18, 1982 in paragraph (c)(51)(xx)(A) of this section and now deleted without replacement Rules 8 and 127.

(52) Revised regulations for the following APCD's submitted October 15, 1979, by the Governor's designee.

(i) Kern County APCD.

(A) Amended Rule 302

(B) Rules 410.4, 410.5, and 414.2.

(C) Previously approved on August 21, 1981 and now deleted without replacement for implementation in the Southeast Desert Air Basin, Rule 414.2.

(ii) Imperial County APCD.

(A) Rules 415.1 and 424.

(B) New or amended Rules 101 L, 110, 201B, 301, 302, 304, 306, 401, 404, 406, 408, 410, 417 I, 418, 419, 422, Regulation VI, 701, 702, 703 (deletion), 705, and 706.

(C) Previously approved on January 27, 1981 in paragraph (c)(52)(ii)(B) of this section and now deleted without replacement, Rules 304 and 706.

(iii) [Reserved]

(iv) Kings County APCD.

(A) New or amended Rules 210.1 (except paragraphs (3)(D) and (5)(B)(8)), 210.2, 410.1, 410.2, 410.3, 410.5, 412.1, 413, 414.1, and 414.2.

(B) New or amended Rules 111 (A), (B), and (D)–(I), 301, 302, and 401.

(C) New or amended Rules 111(c), and 519.

(D) Previously approved on October 9, 1981 and now deleted without replacement Rule 302.

(E) Previously approved on June 18, 1982 and now deleted without replacement Rule 519.

(F) Previously approved on December 9, 1981 in paragraph (c)(52)(iv)(B) of this section and now deleted without replacement, Rule 301.

(G) Previously approved on May 7, 1982 in paragraph (c)(52)(iv)(A) of this section and now deleted without replacement: Rule 414.2.

(v) Madera County APCD.

(A) New or amended Rules 210.2, 410.1, 410.3, 410.5, 411, and 412.

(B) New or amended Rules 102, 103, 103.1, 104, 105, 108, 108.1, 110, 115, 210.3, 301, 305, 402(a)–(e), 409, 410, 416, 417, 418, 501, 504, 511, 601, 602, 603, 606–611, and 612.

(C) New or amended Rules 111(c) 402(f) and 519.

(vi) Merced County APCD.

(A) New or amended Rules 210.1 (except paragraphs (3)(D) and (5)(B)(8)), 210.2, 409.5, and 411.

(B) New or amended Rules 109 (A), (B), and (D)–(I).

(C) New or amended Rule 109(c).

(D) Previously approved on May 7, 1982 in paragraph (c)(52)(vii)(A) of this section and now deleted without replacement: Rules 413.2 and 413.3.

(vii) San Joaquin County APCD.

(A) New or amended Rules 209.1 (except paragraphs (B)(3) and (D)(2)(b)), 209.2, 409.3, 410, 411.1, 413, 413.1, 413.2, and 413.3.

(B) New or amended Rule 209.3.

(C) New or amended Rule 209.4.

(viii) Stanislaus County APCD.

(A) New or amended Rules 209.2 and 411.

(ix) Tulare County APCD.

(A) New or amended Rules 210.1 (except paragraphs (C)(4) and (e)(2)(H)), 210.2 and 410.5.

(B) New or amended Rules 301 and 302.

(C) Previously approved on December 9, 1981 and now deleted without replacement Rules 301 and 302.

(x) Lake County APCD.

(A) Amended Rule 433.

(xi) Amador County APCD.

(A) New or amended Rules 102, 103, 107, 203, 206B, 207, 209–211, 213, 215, 216, 301–313, 315–324, 401, 402, 404, 407, 409, Regulation VI, 700–704, 710, and 711.

(B) Previously approved on May 18, 1981 and now deleted without replacement Rules 605, 700 to 704, and 710 to 711.

(C) Previously approved on May 18, 1981 in paragraph (c)(52)(xi)(A) of this section and now deleted without replacement, Rules 103, 402, and 601 to 604.

(xii) Nevada County APCD.

(A) New or amended Rules 207, 210, 211, 218, 306, 307, and 404.

(B) Previously approved on May 18, 1981 in paragraph (c)(52)(xii)(A) of this section and now deleted without replacement, Rule 404 (paragraph (D)).

(xiii) Placer County APCD—Mountain Counties Air Basin Portion.

(A) New or amended Rules 101, 102, 104, 201, 202, 207, 210, 211, 220–222, 301–310, and 312–323.

(B) New or amended Rules 215 and 219.

(C) Rule 508 (except paragraph (c)(3)(h)).

(D) New or amended Rules 501B, 502, 504, 506, 512, and 513.

(E) Previously approved and now deleted, Rule 104.

(F) Previously approved on May 18, 1981 in paragraph (c)(52)(xiii)(D) of this section and now deleted without replacement Rules 504, 506, 512, and 513.

(G) Previously approved on July 7, 1982 in paragraph (c)(52)(xiii)(C) of this section and now deleted without replacement: Rule 508.

(H) Previously approved on June 18, 1982 in paragraph (c)(52)(xiii)(D) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of this section for implementation in the Mountain Counties and Sacramento Valley Air Basins: Rules 501(B) and 502.

(xiv) Tuolumne County APCD.

(A) New or amended Rules 207, 210, 218, and 404.

(xv) Fresno County APCD.

(A) New or amended Rules 210.1 [except paragraphs (3)(D) and (5)(B)(8)], 210.2, 409.5, 409, 409.3, 409.4, and 411.

(B) New or amended Rules 301, 302, and 305.

(C) Previously approved on December 9, 1981 and now deleted without replacement Rule 305.

(D) Previously approved on December 9, 1981 in paragraph (c)(52)(xv)(B) of this section and now deleted without replacement, Rule 302.

(A) New or amended Rules 1, Section 1 (except Silviculture Deletion), 1.1 (except PPM), 2.0–2.2, 2.4 except (a), 2.5–2.12, 2.15–2.20, 2.22–2.24, 2.27, 2.30, Section 5 (Deletion), 5.0–5.3, 5.5–5.19, 6.1–6.7, 7, 7.1 and 8.1.

(B) New or amended Rules 2.3 and 2.4(a).

(C) Previously approved on January 26, 1982 in paragraph (c)(52)(xvi)(A) of this section and now deleted without replacement, Rules 7.0, 7.1, and 8.1.

(D) Previously approved on January 26, 1982 in paragraph (c)(52)(xvi)(A) of this section and now deleted without replacement Rules 5.0 to 5.3, 5.5 to 5.19, and 6.1 to 6.7.

(xvii) San Diego County APCD.

(A) New or amended Rule 67.7 and 67.2.

(xviii) Shasta County APCD.

(A) New or amended Rules 1.1, 1.2, 2.11, 2.12, and 3.2 (except rows (vi) and (vii)).

(B) Amended Rule 2:5.

(xix) Yolo—Solano APCD.

(A) New or amended Rules 4.1–4.3.

(B) New or amended Rules 301, 302, and 305.

(C) Previously approved on January 26, 1982 and now deleted without replacement Rule 4.3.

(xx) Sacramento County APCD.

(A) New or amended Rule 1.

(xxi) Siskiyou County APCD.

(A) New or amended Rules 2.14–2.16.

(53) Revisions to air pollution emergency episode plans submitted on February 14, 1980 by the Governor's designee.

(i) Bay Area Air Quality Management District Rules 100, 101, 300, 301, 302, 303, 304, 305, 400, 401, 402, 403, and 404.

(54) Revised regulations for the following APCD's submitted on February 25, 1980, by the Governor's designee.

(i) Ventura County APCD.

(A) Rules 150, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, and 162.

(B) New or amended Rule 71.1.

(C) New or amended Rules 56, 80, 81, and deletion of Rules 17, 151, 163, and 164.

(ii) Monterey Bay Unified APCD.

(A) Rule 422 and deletion of Rule 508.

(B) Amended Rule 416.

(iii) San Luis Obispo County APCD.

(A) Rules 301, 302, 303, and 304.

(B) Previously approved on May 18, 1981 and now deleted without replacement Rules 303 and 304.

(iv) Yolo—Solano APCD.

(A) Amended Rule 5.4.

(B) New or amended Rules 2.21, 2.21.1, 2.24 and 2.25.

(C) New or amended Rule 3.13.

(D) Previously approved on January 26, 1982 and now deleted without replacement Rule 5.4.

(v) Sacramento County APCD.

(A) New or amended Rule 17.

(B) [Reserved]

(C) New or amended Rules 3.13, 3.4.1, and 3.4.2.

(vi) Sutter County APCD.

(A) New or amended Rules 1.4, 2.8.1 (Deletion), 2.17, and 2.82.

(B) Previously approved on January 26, 1982 in paragraph (c)(54)(vi)(A) of this section and now deleted without replacement, Rule 1.4.

(vii) Yuba County APCD.

(A) Amended Rule 2.26.

(viii) Butte County APCD.

(A) New Rule 2–12.e.

(B) Amended Rules 4.5A and 4.5B.

(C) Previously approved on May 27, 1982 in paragraph (viii)(B) of this section and now deleted Rules 4.5A and 4.5B.

(ix) Tehama County APCD.

(A) Amended Rules 2.5A and 2.5B.

(x) Colusa County APCD.

(A) New or amended Rules 2.7 A and B.

(xi) Glenn County APCD.

(A) New or amended Rules 51.1 and 51.2.

(xii) Shasta County APCD.

(A) New or amended Rules 1:2 (Best Available Control Technology, Stationary Source and Precursor) and 2:1 A.

(55) The following material for Imperial County was submitted on October 11, 1979 by the Governor's designee.

(i) Summary of Plan Compliance with Clean Air Act Requirements.

(ii) Imperial County plan to attain National Ambient Air Quality Standards for oxidants, October 31, 1978.

(iii) SIP Revision—Imperial County ARB Staff Report, No. 79–4–2.

(iv) ARB resolution 79–9, February 21, 1979.

(v) Copies of Board hearing testimony.

(56) Revised regulations for the following APCDs submitted on March 17, 1980, by the Governor's designee.

(i) Imperial County APCD.

(A) Rules 207 [except Subparagraph C.4.], 208, and 209.

(B) Previously approved on November 10, 1980 in paragraph (c)(56)(i)(A) of this section and now deleted with replacement in paragraph (c)(490)(i)(A)(*1*) of this section: Rule 207 and Rule 209.

(ii) Ventura County APCD.

(A) Amended Rule 26.3.

(B) New or amended Rules 10, 25, and 27.

(C) Previously approved on June 18, 1982 and now deleted without replacement Rule 25.

(D) Previously approved on June 18, 1982 in paragraph (c)(56)(ii)(B) of this section and now deleted without replacement Rule 27.

(57) The *North Central Coast Air Basin Strategy* (Chapter 10 of the comprehensive revisions to the State of California Implementation Plan for the Attainment and Maintenance of Ambient Air Quality Standards) submitted on September 12, 1979 by the Governor's designee.

(58) Revised regulations for the following APCDs submitted on December 17, 1979 by the Governor's designee.

(i) Monterey Bay Unified APCD.

(A) Rules 418, 425 and 426.

(B) New or amended Rules 300, 405, and 601.

(ii) South Coast AQMD.

(A) New or amended Rules 1107, 1108, 1108.1 and 1128.

(B) New or amended Rules 404, 442, 501.1, 502, 504.1(b), (c), and (d), and 1124.

(C) Previously approved on September 28, 1981 and now deleted without replacement Rule 501.1.

(iii) Great Basin Unified APCD.

(A) New or amended Rules 205, 210, 300A, and G, 403, 408, 419, and 617.

(B) New or amended Rules 203, 209–A and B, 212, and 213.

(C) Previously approved on June 18, 1982 in paragraph (c)(51)(iii)(B) of this section and now deleted without replacement Rule 203.

(D) Previously approved on January 27, 1981 in paragraph (c)(58)(iii)(A) of this section and now deleted without replacement, Rule 617.

(iv) Ventura County APCD.

(A) New or amended Rule 74.3.

(v) Butte County APCD.

(A) New or amended Rules 2.12a, 2.12b, 2.12c, and 2.12d.

(vi) Shasta County APCD.

(A) New or amended Rules 1.2, 3.14, and 3.15.

(vii) Yolo—Solano APCD.

(A) Amended Rules 2.8 and 6.6.

(viii) San Luis Obispo County APCD.

(A) New or amended Rule 407.

(ix) Modoc County APCD.

(A) New or amended Rule 2:8–e.

(59) Revised regulations for the following APCD submitted on March 4, 1980 by the Governor's designee.

(i) Monterey Bay Unified APCD.

(A) Rules 207 (except B.4.) and 208.

(B) New or amended Rules 205, 211, 212, 213, and 214.

(60) Chapter 4, *California Air Quality Control Strategies*, of the California SIP, submitted on May 23, 1979, by the Governor's designee.

(61) Redesignation of AQCR's in California, submitted on September 11, 1978, by the Governor's designee.

(62) The *San Diego Air Basin Control Strategy* (Chapter 14 of the Comprehensive Revisions to the State of California Implementation Plan for the Attainment and Maintenance of Ambient Air Quality Standards) submitted on July 5, 1979, by the Governor's designee, except the inspection/maintenance portion. Additional documents were also submitted as appendices. Those portions of the *San Diego Air Basin Control Strategy*, including Appendices, identified by Table 14–1, ''Location of Plan Elements Which Meet Clean Air Act Requirements'' (pages 6–7), comprise the submitted nonattainment area plan, except the inspection/maintenance portion. The remaining portions are for informational purposes only.

(63) The following portions of the *California Environmental Quality Act* submitted on October 20, 1980, by the Governor's designee: Sections 21000; 21001; 21002; 21002.1; 21061; 21063; 21065; 21080.1; 21080.4; 21080.5 (a), (b), (c) and (d); 21081; 21082; 21100; 21104; 21151; 21153; 21160.

(64) Revised regulations for the following APCD submitted on February 13, 1980, by the Governor's designee.

(i) San Diego County APCD.

(A) Rules 20.1, 20.2, 20.3, 20.4, 20.5 and 20.6.

(B) Previously approved on April 14, 1981 in paragraph (c)(64)(i)(A) of this section, and now deleted with replacement in paragraph (c)(508)(i)(A) of this section, Rules 20.1, 20.2, 20.3, 20.4, and 20.6.

(65) The following amendments to the South Coast Air Basin Control Plan were submitted on July 25, 1979, by the Governor's designee.

(i) The *South Coast Air Basin Control Strategy* (Chapter 18 of the Comprehensive Revision to the State of California Implementation Plan for the Attainment and Maintenance of Ambient Air Quality Standards). Those portions of the *South Coast Air Basin Control Strategy* identified by Table 18–1, ''Location of Plan Elements Which Meet Clean Air Act Requirements,'' together with Rules 1115 and 1126, comprise the submitted nonattainment area plan control strategy. The remaining portions are for informational purposes only.

(ii) New or amended Rules 218, 431, 431.1–431.3, 1120, 1206–1208, 1212, 1213, 1215, 1216, 1218, 1219, 1222, and 1225–1230.

(iii) Previously approved on September 28, 1981 and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District Rules 1206, 1208, 1212, 1213, 1215, 1216, 1218, 1219, 1222, and 1225–1230.

(iv) Previously approved on September 28, 1981 in paragraph (c)(65)(ii) of this section and now deleted without replacement Rules 1206, 1208, 1212, 1213, 1215, 1216, 1218, 1219, 1222, and 1225 to 1230.

(v) Previously approved on September 28, 1981 in paragraph (c)(65)(ii) of this section and now deleted without replacement for implementation in the Mojave Desert Air Quality Management District (Riverside County), Rules 1206, 1208, 1212, 1213, 1215, 1216, 1218, 1219, 1222, and 1225 to 1230.

(66) Revised regulations for the following APCD's, submitted on February 7, 1980, by the Governor's designee.

(i) South Coast AQMD.

(A) New or amended Rule 461.

(B) Amended Rule 466.

(ii) Bay Area AQMD.

(A) Regulation 8: Rule 1, 2 (except paragraph 301), 4, 7, 8, 9, 10, 11, 13, 14, 15, 16, 18 and 19.

(67) Revised regulations for the following APCD's, submitted on April 2, 1980, by the Governor's designee.

(i) South Coast AQMD.

(A) New or amended Rule 1122.

(B) New or amended Rules 107, 709(c), 1111, 1121 and 1140.

(ii) Bay Area AQMD.

(A) New or amended Regulation 9, Rules 9–4–100, 9–4–101, 9–4–200 to 9–4–203, 9–4–300, 9–4–301, 9–4–303, and 9–4–400 to 9–4–404.

(iii) Kern County APCD.

(A) New or amended Rules 412.1(b)–(f).

(B) New Rule 411.1.

(C) Previously approved on July 8, 1982 and now deleted without replacement for implementation in the Southeast Desert Air Basin, Rule 411.1.

(iv) Sacramento County APCD.

(A) New or amended Rules 7, 24, 25, 28, 30, and 53.

(B) New or amended Rules 120, 121, and 122.

(68) Revised regulations for the South Coast AQMD, submitted on April 3, 1980, by the Governor's designee.

(i) New or amended Rules 1301, 1303, 1304, 1305, 1306, 1307, 1310, 1311, and 1313.

(ii) Previously approved on January 21, 1981 and now deleted without replacement Rule 1311.

(69) Revised regulations for the South Coast AQMD submitted on April 23, 1980, by the Governor's designee.

(i) New or amended Rules 464, 465, 1123, and 1125.

(ii) New or amended Rules 301, 405, 431.2(c)(5), 701, 702 (a), (d), (e), (f), (h) and (i), 703–706, 708.3(a), (b)(8)–(b)(10), 708.4(g) and (h), 709(a), 710(a) and (b)(4), 711(a)(1), (a)(4), (b)(1) and (b)(4), and 713–715.

(iii) New Rule 1103.

(iv) California Health and Safety Code, Sections 41950 to 41962, 94000 to 94004; and Stationary Source Test Methods—Volume 2: Certification and Test Procedures for Gasoline Vapor Recovery Systems submitted on April 23, 1980.

(v) Previously approved on July 8, 1982 in paragraph (c)(69)(iii) of this section and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District Rule 1103.

(70) Revised regulations for the following APCD's submitted on August 15, 1980, by the Governor's designee.

(i) South Coast AQMD.

(A) New or amended Rules 1302 and 1308.

(B) New or amended Rule 1101.

(*1*) Previously approved on September 2, 1981 in paragraph (c)(70)(i)(B) of this section and now deleted without replacement, for the Antelope Valley area only, Antelope Valley Rule 1101, previously South Coast Rule 1101. South Coast Rule 1101 remains in effect for the South Coast area.

(C) New or amended Rules 702(b), 707, 708, 708.3 (a)(2) and (c), 708.4 (a) and (b), 709(e), 710 (b)(1)(D), (b)(2)(D), (b)(3)(B), and (c)(3)(B), 711 (a)(1)(E), (a)(2)(D), (a)(3)(B), (a)(4)(F), (b)(3)(B), and (b)(4)(f), and 1102.

(D) Amended Rule 401 (except subparagraph 401(b)).

(ii) San Diego County APCD.

(A) New or amended Rules 2 (z) and (aa), 40, and 10 (f) and (i).

(iii) Shasta County APCD.

(A) Amended Rule 3.3.

(iv) El Dorado County APCD (Mountain Counties and Lake Tahoe Air Basin).

(A) New or amended Rules 601–613.

(B) Previously approved on May 27, 1982 in paragraph (c)(70)(iv)(A) of this section and now deleted without replacement, Rules 601 to 613.

(71) The *San Joaquin Valley Air Basin Control Strategy (Chapter 16 of the Comprehensive Revisions to the State of California Implementation Plan for the Attainment and Maintenance of Ambient Air Quality Standards)* submitted on October 11, 1979, by the Governor's designee. Those portions of the *San Joaquin Valley Air Basin Control Strategy* identified by Tables 16–1a, 1b and 1c (Summary of Plan Compliance with Clean Air Act Requirements) except for those portions which pertain to Fresno County and the six transportation control measures for Stanislaus County,

comprise the submitted plan. The remaining portions are for informational purposes only. The following rules were also submitted on October 11, 1979 as part of the enforceable plan:

(i) Kings County APCD.

(A) New or amended Rules 411 and 414.3.

(B) Previously approved on May 7, 1982 in paragraph (c)(71)(i)(A) of this section and now deleted without replacement: Rule 414.3.

(ii) Madera County APCD.

(A) New or amended Rule 210.1 (except paragraphs (3)(D) and (5)(B)(8)).

(iii) Merced County APCD.

(A) New or amended Rules 409.3 and 410.

(iv) Tulare County APCD.

(A) New or amended Rule 410.3.

(72) The San Francisco Bay Area Basin Control Strategy (Chapter 15 of the Comprehensive Revisions to the State of California Implementation Plan for the Attainment and Maintenance of Ambient Air Quality Standards) including appendices, submitted on July 25, 1979, by the Governor's designee.

(73) Revised regulations for the following APCD's submitted on January 14, 1980, by the Governor's designee.

(i) Bay Area AQMD.

(A) Regulation 2: Rule 1: 2–1–200, 2–1–300, 2–1–307, and 2–1–400, Rule 2: 2–2–100, 2–2–200, 2–2–209, 2–2–210, 2–2–300, and 2–2–400; Rule 3: 2–3–100, 2–3–101, 2–3–200, 2–3–201, 2–3–300, 2–3–301, 2–3–302, 2–3–401, 2–3–401.1 to 2–3–401.3, 2–3–402, 2–3–403, 2–3–404, and 2–3–405.

(B) New or amended Regulation 2, Rule 1: 2–1–100 to 2–1–102, 2–1–111, 2–1–112, and 2–1–408.

(74) Revised regulations for the following APCD's submitted on December 24, 1979, by the Governor's designee.

(i) Imperial County APCD.

(A) New or amended Rules 111, 413, 414, 416, 416 (deletion), and 517.

(B) Previously approved on January 27, 1981 and now deleted without replacement Rule 517.

(ii) Santa Barbara County.

(A) Rule 316.

(iii) Ventura County APCD.

(A) New Rule 70 (except paragraph E).

(75) Revised regulations for the Kern County APCD, submitted on January 8, 1980, by the Governor's designee.

(i) Rules 210.2, 410.3, 411, 414, 414.1, and 414.3.

(ii) New or amended Rule 424(F).

(iii) Previously approved on August 21, 1981 and now deleted without replacement for implementation in the Southeast Desert Air Basin, Rule 414.3.

(iv) Previously approved on August 21, 1981 in paragraph (c)(75)(i) of this section and now deleted without replacement within the San Joaquin Valley Unified Air Pollution Control District area, Rule 414.3.

(76) Revised regulations for the following APCD's, submitted on April 15, 1980, by the Governor's designee.

(i) Kern County APCD.

(A) Amended Rule 210.1

(77) The following amendments to the plan were submitted on October 18, 1979, by the Governor.

(i) San Luis Obispo County APCD.

(A) New or amended Rules 415, 416, 420, and 422.

(ii) The South Central Coast Air Basin Control Strategy [Chapter 17 of the Comprehensive Revision to the State of California Implementation Plan for the Attainment and Maintenance of Ambient Air Quality Standards]. Those portions of the South Central Coast Air Basin Control Strategy identified by Tables 17–1 and 17–2 ''Location of Plan Elements Which Meet Clean Air Act Requirements'' together with the rules identified below comprise the submitted nonattainment area plan. The remaining portions are for informational purposes only.

(A) Santa Barbara County APCD Rules 320, 321, 323, 327, 329 to 332, 201.C and 205.C. (except subparagraph 5.b.8.).

(B) Ventura County APCD Rules 26 (except 26.2, 26.3 and 26.4), 74.4, 74.7, and 74.8.

(78) Revised regulations for the following APCD submitted on November 19, 1979, by the Governor's designee.

(i) South Coast AQMD.

(A) Deletion of Rules 67 and 72.

(ii) California Lead SIP.

(79) Revised regulations for the following APCD's submitted on June 2, 1980, by the Governor's designee.

(i) Monterey Bay Unified APCD.

(A) Rule 427.

(ii) Bay Area AQMD.

(A) New or amended Regulation 1, Rules 1–100 to 1–111, 1–114, 1–200 to 1–205,

1–207 to 217, 1–219 to 1–232, 1–400 to 1–402, 1–410 to 1–412, 1–420, 1–430 to 1–434, 1–440, 1–441, 1–500 to 1–502, 1–510, 1–521, 1–530, 1–540, 1–541, 1–543, 1–544; Regulation 5, Rules 5–100, 5–101, 5–110, 5–111, 5–200 to 5–207, 5–300, 5–301, 5–400 to 5–404; Regulation 6, Rules 6–100, 6–101, 6–200 to 6–204, 6–300 to 6–304, 6–310, 6–312,6–320, 6–330, 6–400, 6–401, 6–500 to 6–502; Regulation 11, Rules 11–1–100 to 11–1–102, 11–1–300 to 11–1–303; Regulation 12, Rules 12–2–100, 12–2–101, 12–2–200, 12–2–201, 12–2–300, 12–2–301, 12–2–500, 12–2–501, 12–3–100, 12–3–101, 12–3–300, 12–3–301, 12–3–500, 12–3–501–12–4–100 to 12–4–102, 12–4–200 to 12–4–212, and 12–4–300 to 12–4–307.

(B) New or amended Regulation 1: 1–206, 1–520, 1–542, and 1–600 to 1–604; Regulation 6: 6–305, 6–311, 6–600, and 6–601; and Regulation 11: 11–1–500, 11–1–501, and 11–1–600 to 11–1–603.

(iii) Ventura County APCD.

(A) New or amended Rule 2.

(B) New or amended Rule 59.

(iv) South Coast AQMD.

(A) Deletion of Rule 471.

(B) New Rule 466.1.

(v) San Diego County APCD.

(A) New or amended Rules 1, 2 (a), (b), (t), (v), (u), (x), and (y), 14, 17, 67.0, and 67.1.

(B) Previously approved on September 28, 1981 in paragraph (c)(79)(v)(A) of this section and now deleted without replacement Rule 14.

(vi) Shasta County APCD.

(A) New Rule 3.17.

(80) The following amendments to the plan were submitted on August 21, 1979 by the Governor's designee.

(i) Revised regulations for Placer County APCD—Lake Tahoe Air Basin Portion.

(A) New or amended Rules 101–104, 201–204, 206–211, 215, 217, 301–308, and 310–319.

(B) New Rule 507.

(C) New or amended Rules 502–506 and 511–513.

(D) Previously approved and now deleted, Rule 104.

(E) New or amended Rules 212, 213, 508 (except Paragraph (1)(C)(3)(h), and 514.

(F) Previously approved on June 23, 1982 in paragraph (c)(80)(i)(C) of this section and now deleted without replacement Rules 504, 506, and 511 to 513.

(G) Previously approved on June 23, 1982 in paragraph (c)(80)(i)(E) of this section and now deleted without replacement: Rule 508.

(H) Previously approved on April 23, 1982 in paragraph (c)(80)(i)(B) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of this section: Rule 507.

(I) Previously approved on June 18, 1982 in paragraphs (c)(80)(i)(C) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of this section: Rules 502, 503 and 505.

(J) Previously approved on June 23, 1982 in paragraph (c)(80)(i)(E) of this section and now deleted with replacement in paragraph (c)(389)(i)(B)(*1*) of this section: Rule 514.

(ii) Chapter 8, Lake Tahoe Basin Control Strategy, including Support Documents and Appendices. The Transportation Improvement Program and Regional Transportation Plan are for informational purposes only.

(81) Revised regulations for the following APCD, submitted on February 11, 1980 by the Governor's designee.

(A) New or amended Rule 409.4.

(iii) Kings County APCD.

(A) New or amended Rule 410.4.

(iv) San Joaquin County APCD.
(A) New or amended Rule 409.4.
(v) Stanislaus County APCD.
(A) New or amended Rule 409.4.
(vi) Tulare County APCD.
(A) New or amended Rule 410.4.
(vii) Modoc County APCD.
(A) Amended Rule 3:12.
(85) Revised regulations for the following APCDs submitted on December 15, 1980, by the Governor's designee.
(i) Tulare County APCD.
(A) New or amended Rule 412.
(B) New or amended Rule 412.1.
(C) New or amended Rules 201 and 417.1.
(ii) Madera County APCD.
(A) New or amended Rule 412.1
(B) New or amended Rules 201, 202, 301, and 417.1.
(iii) Sacramento County APCD.
(A) New or amended Rule 13.
(iv) San Diego County APCD.
(A) New or amended Rules 61.0, 61.0 (n) and (o), 61.1, 61.1(a)(1) (i) and (h), 61.2, 61.2(a), 61.3 and 61.4
(v) San Bernardino County APCD, Southeast Desert Air Basin portion.
(A) New or amended Rules 461 and 462.
(vi) Tehama County APCD.
(A) New or amended Rules 1.2, 1.3, 2.7, 2.8, 2.9, 3.1, 3.2, 3.3–3.14, 4.1, 4.2, 4.6, and 4.7.
(B) Previously approved and now deleted Rule 2.8 (Further Information).
(C) Previously approved on April 12, 1982 in paragraph (c)(85)(vi)(A) of this section and now deleted without replacement, Rules 1.3 and 2.9.
(D) Previously approved on April 12, 1982 in paragraph (c)(85)(vi)(A) of this section and now deleted without replacement Rules 2.7 and 2.8.
(vii) Santa Barbara County APCD.
(A) New or amended Rule 210.
(B) Previously approved on June 18, 1982 in paragraph (c)(85)(vii)(A) of this section and now deleted without replacement, Rule 210.
(viii) South Coast AQMD.
(A) New Rule 1130.
(ix) Kings County APCD.
(A) New or amended Rule 417.1.
(x) Kern County APCD.
(A) New or Amended Rules 110 and 417.1.
(B) Previously approved on July 6, 1982 in paragraph (c)(85)(x)(A) of this section and now deleted without replacement, Rule 110.
(C) Previously approved on July 6, 1982 in paragraph (c)(85)(x)(A) of this section and now deleted without replacement for implementation in Kern County, Southeast Desert Air Basin Rule 110.
(86) Revised regulations for the following APCD's submitted on July 10, 1980 by the Governor's designee.
(i) Bay Area AQMD.
(A) Regulation 8: Rule 2 (Paragraph 301).
(B) New Rules 17 (paragraphs 112, 302, 400, and 401) and 26.
(C) New or amended Regulations, Rules 1–206, 1–218, 6–311, 9–1–100, 9–1–101, 9–1–110 9–1–200 to 9–1–204, 9–1–300 to 9–1–308, 9–1–310, 9–1–311, 9–1–400 to 9–1–404, 9–1–500 to 9–1–502, and 9–4–302.
(D) New or amended Rule 1–541 and Regulation 9, Rules 9–1–600 to 9–1–605.
(ii) Butte County APCD.
(A) Amended Rule 4.9.
(B) Previously approved on May 27, 1982 in paragraph (ii)(A) of this section and now deleted Rule 4.9.
(87) Revised regulations for the following APCD's submitted on September 5, 1980 by the Governor's designee.
(i) Bay Area AQMD.
(A) Regulation 8: Rule 5, Rule 6, and Rule 12.
(B) New Rules 25 and 28 (except section 401).
(ii) San Diego County APCD.
(A) New or amended Rule 19.
(iii) San Joaquin County APCD.
(A) New or amended Rule 411.2.
(B) New or amended Rules 202 and 416.1.
(iv) San Bernardino County APCD, Southeast Desert Air Basin portion.
(A) New or amended Rules 1301, 1302, 1303, 1304, 1305, 1306, 1307, 1308, 1310, 1311, and 1313.
(v) Los Angeles County APCD, Southeast Desert Air Basin portion.
(A) New or amended Rules 1301, 1302, 1303, 1304, 1305, 1306, 1307, 1308, 1310, 1311, and 1313.
(vi) Sacramento County APCD.
(A) New or amended Rules 74, 90, 92, 93, 94, 95, 96, 98, and Regulation VII.
(B) Previously approved on June 18, 1982 and now deleted without replacement Rule 74.

(vii) Ventura County APCD.

(A) New or amended Rules 2 and 55.

(viii) Shasta County APCD.

(A) New Rule 2:6.

(88) Revised regulations for the following APCDs submitted on July 25, 1980, by the Governor's designee.

(i) Stanislaus County APCD.

(A) New or amended Rule 209.1 (except paragraphs (3)(E) and (5)(B)(8)).

(B) New or amended Rules 103 and 305.

(C) New or amended Rules 202 and 416.1.

(D) Previously approved on December 9, 1981 and now deleted without replacement Rule 305.

(ii) Bay Area AQMD.

(A) New or amended Regulation 3, Rules 3–100 to 3–103, 3–200 to 3–206, 3–208 to 3–211, 3–300 to 3–311, and 3–400 to 3–408.

(iii) South Coast AQMD.

(A) New or amended Rule 1119.

(B) Amended Rule 462.

(C) In Resolution 11–04 dated January 18, 2011, Antelope Valley Air Quality Management District certified that no sources which would be subject to Rule 1119, ''Petroleum Coke Calcining Operations,'' exist in the AVAQMD. Therefore, Rule 1119 has been rescinded and is removed from the SIP.

(i) Stanislaus County APCD.

(A) New or amended Rule 409.5.

(ii) Placer County (Mountain Counties Air Basin portion).

(A) New or amended Rules 213, 216, and 223.

(B) New or amended Rules 102, 203, 211, 301, 305, 306, 324, 325, 601, and 702.

(C) Rule 214.

(D) Previously approved and now deleted without replacement Rules 601 and 702.

(iii) Lake County APCD.

(A) New Rule 216.1.

(iv) Great Basin Unified APCD.

(A) New or amended Rules 101, 300, 404–A, 423, and 424.

(B) Previously approved on April 13, 1982 in paragraph (c)(92)(iv)(A) of this section and now deleted without replacement, Rule 300.

(v) San Diego County APCD.

(A) New or amended Rules 127, 130, 131, 132, and 134.

(B) New or amended Rule 21.

(vi) South Coast AQMD.

(A) New or amended Rule 1113.

(93) Revised regulations for the following APCDs submitted on June 22, 1981, by the Governor's designee.

(i) Stanislaus County APCD.

(A) New or amended Rule 409.3.

(B) New or amended Rule 409.8.

(ii)(A) [Reserved]

(B) New Rule 28, Section 401.

(C) New or amended Regulation 5, Rule 5–401.3.

(iii) Plumas County APCD.

(A) New or amended Rules 203, 301–319, 512–516, 703, and 710.

(B) New or amended Rules 501–511 and 517–521.

(C) Previously approved on June 18, 1982 in paragraph (c)(93)(iii)(B) of this section and now deleted without replacement, Rule 509.

(D) Previously approved on June 18, 1982 in paragraph (c)(93)(iii)(B) of this section and now deleted without replacement Rules 503, 504, 506, and 518 to 521.

(E) Previously approved on June 18, 1982 in paragraph (c)(93)(iii)(B) of this section and now deleted without replacement Rules 507 and 508.

(F) Previously approved on April 23, 1982 in paragraph (c)(93)(iii)(A) of this section and now deleted without replacement, Rules 516 (paragraph (C)), 703 and 710.

(iv) Sierra County APCD.

(A) New or amended Rules 203, 301–319, 512–516, 522, 523, 703, and 710.

(B) New or amended Rules 501–511 and 517–521.

(C) Previously approved on April 23, 1982 and now deleted without replacement Rule 522.

(D) Previously approved on June 18, 1982 in paragraph (c)(93)(iv)(B) of this section and now deleted without replacement, Rule 509.

(E) Previously approved on June 18, 1982 in paragraph (c)(93)(iv)(B) of this section and now deleted without replacement Rules 503, 504, 506, and 518 to 521.

(F) Previously approved on June 18, 1982 in paragraph (c)(93)(iv)(B) of this section and now deleted without replacement Rules 507 and 508.

(G) Previously approved on April 23, 1982 in paragraph (c)(93)(iv)(A) of this section and now deleted without replacement, Rules 516 (paragraph (C)), 703 and 710.

(v) Kern County APCD.

(A) New or amended Rule 410.6.

(vi) El Dorado County APCD (Mountain Counties Air Basin Portion).

(A) Rules 318, 319, and 320.

(94) Revised regulations for the following APCD's submitted on October 7, 1980, by the Governor's designee.

(i) Stanislaus County APCD.

(A) New or amended Rule 411.1.

(ii) [Reserved]

(iii) San Bernardino County APCD.

(A) New or amended Rules 701, 704, 705, 707–711, and 712. Previously approved Rule 707, ''Plans'', submitted on June 6, 1977 is retained.

(95) Revised regulations for the following APCD's submitted on March 23, 1981, by the Governor's designee.

(i) Kern County APCD.

(A) New or amended Rule 412.1(a).

(B) Amended Rule 412.1.

(C) New or amended Rules 202, 202.1, and 426.

(ii) Ventura County APCD.

(A) Amended Rule 26.2.

(B) New or amended Rules 21, 29, 30, and 64.

(C) Previously approved on June 18, 1982 and now deleted without replacement Rule 21.

(iii) Northern Sonoma County APCD.

(A) Amended Regulation 2, Rules 100, 120, 140, 200, 220, 240, 300, and 320.

(iv) South Coast AQMD.

(A) Amended Rule 461.

(v) Stanislaus County APCD.

(A) New Rule 409.7.

(B) New or amended Rule 301.

(C) Previously approved on June 18, 1982 and now deleted without replacement Rule 301.

(vi) Humboldt County APCD.

(A) New or amended Rules 130, 200, 210, 220, 230, 240, 250, and 260.

(B) Previously approved on June 18, 1982 in paragraph (c)(95)(vi)(A) of this section now deleted without replacement for implementation in the North Coast Unified Air Quality Management District, Rule 250.

(96) Revised regulations for the following APCDs submitted on November 3, 1980, by the Governor's designee.

(i) South Coast AQMD.

(A) New or amended Rule 1113.

(ii) Butte County APCD.

(A) New or amended Rules 1–8, 1–8.1, 1–10, 1–13, 1–14, 3–1, 3–2, 3–6, 3–11, 3–11.2, 3–11.3, 3–12, 3–12.1, 3–12.2, 3–14, 3–15, 3–16, and 3–16.1.

(iii) Glenn County APCD.

(A) New or amended Rules 2 (a,i,v, and aa), 3, 11, 11.1, 11.2, 13, 13.1, 14, 14.1, 14.2, 14.3, 15, 16, 19, 21, 21.1, 22, 75, 81, 83, 83.1, 83.2, 96, 110, and 112.

(B) Previously approved on January 26, 1982 and now deleted without replacement Rules 110 and 112.

(C) Previously approved on January 26, 1982 in paragraph (c)(96)(iii)(A) of this section and now deleted without replacement, Rule 3.

(D) Previously approved on January 26, 1982 in paragraph (c)(96)(iii)(A) of this section and now deleted without replacement Rule 96.

(iv) Yolo-Solano APCD.

(A) New or amended Rules 1.2 (a and g), 6.1 and 6.3.

(v) Bay Area AQMD.

(A) New Rule 20.

(97) Revised regulations for the following APCDs submitted on June 24, 1980, by the Governor's designee.

(i) Sacramento County APCD.

(A) New or amended Rule 18.

(98) Revised regulations for the following APCDs, submitted on January 28, 1981, by the Governor's designee.

(i) Sutter County APCD.

(A) Amended Rules 3.8, 3.14, and 3.15.

(B) New or amended Rules 1.0–1.3, 2.1–2.12, 2.15, 2.16, 3.0–3.7, 3.9, 3.10, 3.12, 3.13, 4.0–4.5, 4.7–4.10, 4.12–4.15, 5.0–5.19, 6.0–6.7, 7.0, 7.1, 7.2, 8.0, 8.1, 8.2, 9.0–9.7, and 9.8.

(C) Previously approved and now deleted Rules 2.1 (Control of Emissions), 2.7 (Wet Plumes), 2.15 (Fuel Burning Equipment), 2.20 (Payment of Order Charging Costs), 3.7 (Information), 4.5 (Standards for Granting Applications), 4.6 (Permits, Daily Limits, and 4.8 (Permit Forms).

(D) Previously approved on April 12, 1982 and now deleted without replacement Rules 5.0 to 5.17, 5.19, 6.0 to 6.7, and 7.0 to 7.2.

(E) Previously approved on April 12, 1982 in paragraph (c)(98)(i)(B) of this section and now deleted without replacement, Rules 8.0 to 8.2 and 9.0 and 9.4.

(F) Previously approved on April 12, 1982 in paragraph (c)(98)(i)(B) of this section and now deleted without replacement Rules 4.7, 4.9, 4.10, 5.18, 9.7, and 9.8.

(G) Previously approved on May 3, 1982, in paragraph (c)(98)(i)(A) of this section and now deleted with replacement in paragraph (c)(457)(i)(A)(*5*) by Feather River Air Quality Management District Rule 3.15, ''Architectural Coatings.''

(A) New or amended agricultural burning regulations consisting of ''General Provisions'' and Articles I–VII.

(iii) Mendocino County APCD.

(A) Amended Regulation 2, Rules 100, 120, 140, 200, 220, 240, 300, 320, Appendices A, B, and C.

(iv) Del Norte County APCD.

(A) Amended Regulation 2, Rules 100, 120, 140, 200, 220, 240, 300, 320, Appendices A, B, and C.

(v) Humboldt County APCD.

(A) Amended Regulation 2, Rules 100, 120, 140, 200, 220, 240, 300, 320, Appendices A, B, and C.

(vi) Trinity County APCD.

(A) Amended Regulation 2, Rules 100, 120, 140, 200, 220, 240, 300, 320, Appendices A, B, and C.

(vii) El Dorado County APCD.

(A) New Rule 313.

(B) Rules 313, 314, 315, 316, and 317.

(viii) Ventura County APCD.

(A) New Rule 71.2.

(ix) Bay Area AQMD.

(A) New or amended Rules 1–112, 1–113, 1–115 and Regulation 9, Rule 9–3–202.

(x) South Coast AQMD.

(A) New or amended Rule 1115.

(xi) San Diego County APCD.

(99) Commitments by the Bay Area AQMD, Fresno County APCD, Kern County APCD, Monterey Bay Unified APCD, Sacramento County APCD, San Diego County APCD, Santa Barbara County APCD, South Coast AQMD, and Ventura County APCD to carry out public notification programs as required by section 127 of the Clean Air Act and in accordance with EPA guidance. These commitments were submitted by the Air Resources Board on January 22, 1981.

(100) Revised regulations for the following APCDs submitted on October 25, 1979, by the Governor's designee.

(i) San Diego County APCD.

(A) New or amended Rules 67.3 and 67.5.

(101) Revised regulations for the following APCD's submitted on July 30, 1981 by the Governor's designee.

(i) Bay Area AQMD.

(A) Regulation 8, Rule 1 (Paragraph 202) and Rule 16 (paragraph 110).

(B) New or amended Regulation 2, Rule 2–2–114; Regulation 5, Rule 5–401.13; and Manual of Procedures—Volume I to Volume VI.

(C) New or amended Regulation 8, Rule 24.

(ii) Kern County APCD.

(A) New or amended Rules 603, 609, 610, 611, and 613.

(B) New or amended Rules 108, 201, 301, 302, and 305.

(C) New or amended Rules 414 and 410.3.

(D) New or amended Rules 410.7, 412, and 414.4.

(E) Previously approved on July 6, 1982 and now deleted without replacement Rule 305 (including Southeast Desert).

(F) Previously approved on October 11, 1983 and now deleted without replacement for implementation in the Southeast Desert Air Basin, Rule 414.4.

(G) Previously approved on July 6, 1982 in paragraph (c)(101)(ii)(B) of this section and now deleted without replacement, Rules 301 and 302 (including Southeast Desert).

(102) Revised rules for the following APCDs submitted on July 14, 1981 by the Governor's designee.

(i) San Joaquin County.

(A) New Rules 409.5 and 409.6.

(ii) Stanislaus County.

(A) New Rule 409.6.

(B) New or amended Rules 409.7 and 409.8.

(iii) Merced County APCD.

(A) New or amended Rules 409.6.

(iv) South Coast AQMD.

(A) New or amended Rule 301.

(103) Revised rules for the following APCDs, submitted on October 23, 1981 by the Governor's designee.

(i) Kings County.

(A) Amended Rule 412.2.

(ii) San Diego County APCD.

(A) New or amended Rule 67.4 and 67.6.

(B) New or amended Rules 42, 64, 101–103, and 109.

(C) New Rule 67.8.

(D) Previously approved on July 6, 1982 and now deleted without replacement Rule 42.

(E) Previously approved on July 6, 1982 in paragraph (c)(103)(ii)(B) of this section and now deleted Rule 109 (now replaced by Rule 101).

(iii) Santa Barbara County APCD.

(A) Rule 325.

(B) New or amended Rules 601–608 and 609.

(C) Previously approved and now deleted Rules 609 (Scientific Committee) and 610 (Emergency Action Committee).

(iv) Ventura County APCD.

(A) Amended Rule 70(E).
(B) New or amended Rules 2, 12, 16, 23, 41, 42, and 74.2.
(C) New Rule 74.5.
(D) Amended Rule 74.9.
(E) Previously approved on June 18, 1982 and now deleted without replacement Rule 42.
(v) Sacramento County APCD.
(A) Amended Rule 20.
(B) New or amended Rules 50, 70, and 14.
(C) New Rules 4A, 4B, 10 and 51.
(vi) Del Norte County APCD.
(A) Amended Rules 300 and 310.
(B) Previously approved on April 13, 1982 and now deleted without replacement Rules 300 and 310.
(vii) Humboldt County APCD.
(A) Amended Rules 300 and 310.
(B) Previously approved on April 13, 1982 and now deleted without replacement Rules 300 and 310.
(viii) Mendocino County APCD.
(A) Amended Rules 300 and 310.
(B) Previously approved on April 13, 1982 and now deleted without replacement Rules 300 and 310.
(ix) Northern Sonoma County APCD.
(A) Amended Rules 300 and 310.
(B) Previously approved on April 13, 1982 and now deleted without replacement Rules 300 and 310.
(x) Trinity County APCD.
(A) Amended Rules 300 and 310.
(B) Previously approved on April 13, 1982 and now deleted without replacement Rules 300 and 310.
(xi) Great Basin Unified APCD.
(A) Amended Rule 301.
(B) Previously approved on April 13, 1982 in paragraph (c)(103)(xi)(A) of this section and now deleted without replacement, Rule 301.
(xii) San Luis Obispo County APCD.
(A) New or amended Rules 301, 302, and 411.
(B) Previously approved on June 18, 1982 and now deleted without replacement Rule 301.
(C) Previously approved on June 18, 1982 and now deleted without replacement Rule 301.
(xiii) El Dorado County APCD (Mountain Counties Air Basin).
(A) New or amended Rules 301–319, 501, 703, and 710.
(B) Previously approved on May 27, 1982 and now deleted without replacement rule 501.
(C) Previously approved on May 27, 1982 in paragraph (c)(103)(xiii)(A) of this section and now deleted without replacement, Rules 318 and 319.
(D) Previously approved on May 27, 1982 in paragraph (c)(103)(xiii)(A) of this section and now deleted without replacement Rule 710.
(xiv) Imperial County APCD.
(A) New or amended Rules 101, 301, 302, 305–307.
(B) Previously approved on May 27, 1982 and now deleted without replacement Rule 305.
(C) Previously approved on May 27, 1982 in paragraph (c)(103)(xiv)(A) of this section and now deleted without replacement, Rules 301, 302, 306, and 307.
(xv) Shasta County APCD.
(A) Amended Rule 2:11.
(xvi) Monterey Bay Unified APCD.
(A) Amended Rules 301, 601, and 602.
(xvii) Tuolumne County APCD.
(A) New or amended Rules 203, 301–319, 501–521, 703, and 710.
(B) Previously approved on May 27, 1982 and now deleted without replacement Rule 516.
(C) Previously approved on May 27, 1982 in paragraph (c)(103)(xvii)(A) of this section and now deleted without replacement, Rule 509.
(D) Previously approved on May 27, 1982 in paragraph (c)(103)(xvii)(A) of this section and now deleted without replacement Rules 503, 504, 506, and 518 to 521.
(xviii) South Coast AQMD.
(A) New or amended Rules 504.1, 218, 219, 220, 409, and 502.
(B) Previously approved on July 6, 1982 and now deleted without replacement Rule 504.1.
(104) Revised regulations for the following APCD's submitted on November 5, 1981 by the Governor's designee.
(i) Bay Area AQMD.
(A) Regulation 2, Rule 1: 2–1–101, 2–1–102, 2–1–111, 2–1–112, 2–1–201 to 2–1–205, 2–1–301 to 2–1–306, 2–1–401 to 2–1–410, and 2–1–420 to 2–1–423; Rule 2: 2–2–101 to 2–2–114, 2–2–201 to 2–2–208, 2–2–301 to 2–2–306, 2–2–310, and 2–2–401 to 2–2–410.
(ii) South Coast AQMD.
(A) New or amended Rule 444.
(iii) Fresno County APCD.
(A) New or amended Rule 409.6.
(105) Schedule to study Nontraditional Total Suspended Particulate

Sources and commitment to implement control measures necessary to provide for attainment, submitted on November 18, 1981 by the Governor's designee.

(106) The *Southeast Desert Air Basin Control Strategy* for ozone (Chapter 19 of the Comprehensive Revisions to the State of California Implementation Plan for the Attainment and Maintenance of the Ambient Air Quality Standards) was submitted by the Governor's designee on February 15, 1980. The portions of the *Southeast Desert Air Basin Control Strategy* identified in Table 19–1 (Summary of Plan Compliance with Clean Air Act Requirements), except those which pertain to Imperial County, comprise the plan. The remaining portions are for informational purposes only.

(107) On August 11, 1980, the Governor's designee submitted a revision to the State Implementation Plan which adds the Southeast Desert Air Basin portion of Riverside County into the South Coast Air Quality Management District.

(108) On November 28, 1980, the Governor's designee submitted a revision to the State Implementation Plan which deletes Rule 67, for the San Bernardino County APCD as applied to new sources.

(109) Three items submitted for Fresno County and the Sacramento Metropolitan Area by the Governor's designee on October 9, 1980:

(i) *Air Quality Planning Addendum-Council of Fresno County Governments 1979–84 Overall Work Program.*

(ii) *Emission Inventory, 1976* for the Sacramento Metropolitan Area.

(iii) *Air Quality Plan Technical Appendix, January 1979* for the Sacramento Metropolitan Area.

(110) Five items submitted for Ventura County by the Governor's designee on April 1, 1980:

(i) *Appendix B–81, Empirical Kinetic Modeling Approach:* Ozone Formation, Transport, and Concentration Relationships in Ventura County; Update of Emission Reduction Required for Attainment of Ozone NAAQS.

(ii) *Letter:* Jan Bush to Mike Redemer, January 23, 1981.

(iii) *Letter and enclosures:* Janet Lyders to Mike Scheible, February 6, 1981.

(iv) *Letter and enclosures:* Jan Bush to William Lockett, December 15, 1980.

(v) *Letter and enclosures:* Jan Bush to William Lockett, October 23, 1980.

(111) Four items submitted for Ventura County by the Governor's designee on July 16, 1981:

(i) Attachment V—Transportation Control Measures.

(ii) Ventura Air Quality Management Plan, Appendix O, *Plan for Attainment of Standards for Total Suspended Particulates In Ventura County: Interim Report,* July, 1980.

(iii) Attachment IV—Population Forecasts.

(iv) Attachment VI—Implementation of Emission Reductions Required for Attainment of TSP Standards.

(112) Plan for Attainment of the Federal Secondary Total Suspended Particulate Standard in Santa Clara County, an addendum to the San Francisco Bay Area Air Basin Control Strategy (Chapter 15) submitted on March 16, 1981, by the Governor's designee.

(113) Supplemental material for the San Diego Nonattainment Area Plan submitted on July 13, 1981, by the Governor's designee.

(114) Supplemental material for the San Diego Nonattainment Area Plan submitted on August 31, 1981, by the Governor's designee.

(115) Supplemental material for the San Diego Nonattainment Area Plan submitted on December 8, 1981, by the Governor's designee.

(116) Supplemental material for the South Coast Nonattainment Area Plan submitted on July 24, 1981, by the Governor's designee.

(117) Supplemental material for the South Coast Nonattainment Area Plan submitted on December 24, 1981, by the Governor's designee.

(118) Supplemental material for the South Coast Nonattainment Area Plan submitted on February 18, 1982, by the Governor's designee.

(119) Revised regulations for the following APCDs submitted on April 17, 1980, by the Governor's designee.

(i) El Dorado County APCD (Mountain Counties Air Basin).

(A) New or amended Rules 502–520.

(B) Rule 102.

(C) Previously approved on May 27, 1982 and now deleted without replacement Rules 502 to 508, 510 to 513, 515, 517 to 519, and 521.

(D) Previously approved on May 27, 1982 in paragraph (c)(119)(i)(A) of this section and now deleted without replacement, Rule 509.

(E) Previously approved on May 27, 1982 in paragraph (c)(119)(i)(A) of this section and now deleted without replacement Rule 520.

(ii) Mendocino County APCD.

(A) New or amended Rules 130, 200, 210, 220, 230, 240, 250, and 260.

(B) Previously approved on June 18, 1982 in paragraph (c)(119)(ii)(A) of this section and now deleted without replacement Rule 250.

(C) Previously approved on June 18, 1982 in paragraph (c)(119)(ii)(A) of this section and now deleted with replacement in paragraph (c)(489)(i)(A)(*4*) of this section, Rule 230.

(120) *The Mountain Counties Air Basin Control Strategy* for ozone (Chapter 9 of the ''Comprehensive Revisions to the State of California Implementation Plan for the Attainment and Maintenance of the Ambient Air Quality Standards'' was submitted by the Governor's designee on April 3, 1981. The submittal also included revised regulations for the following APCD's.

(i) El Dorado County APCD (Mountain Counties Air Basin portion).

(A) Rules 401, 402, 403, 404, 405, 406, 407, 410, 411, 415, 416, 418, 419, 420, 421, 422, 423, 424, and 425.

(B) Previously approved on July 7, 1982 and now deleted without replacement Rules 401 to 407, 410 to 411, 415 to 416, and 418 to 424.

(C) Previously approved on July 7, 1982 in paragraph (c)(120)(i)(A) of this section and now deleted without replacement Rule 425.

(121) Revised regulations for the following APCDs submitted on March 1, 1982 by the Governor's designee.

(i) South Coast AQMD.

(A) New or amended Rule 474.

(B) Amended Rules 107, 1107, 1108.1, 1125 and 1126.

(C) Amended Rule 1110.

(D) Previously approved on October 11, 1983 and now deleted without replacement Rule 107.

(E) Previously approved on May 3, 1984 in paragraph (c)(121)(i)(C) of this section and now deleted without replacement for implementation in the South Coast Air Quality Management District, Rule 1110.

(F) Previously approved on May 3, 1984 in paragraph (c)(121)(i)(C) of this section and now deleted without replacement for implementation in the Antelope Valley Air Quality Management District, Rule 1110.

(ii) San Diego County APCD.

(A) New or amended Rules 62 and 53.

(B) Amended Rule 67.6(e).

(C) Amended Rule 17, adopted on November 25, 1981.

(iii) Lake County APCD.

(A) New or amended Rule 655.

(iv) Bay Area AQMD.

(A) Amended Regulation 8, Rules 2–112 and 5–313.4.

(v) Ventura County APCD.

(A) Amended Rule 74.6.

(122) [Reserved]

(123) Supplemental material for the Kern County Nonattainment Area Plan submitted on March 4, 1982, by the Governor's designee.

(124) Revised regulations for the following APCDs submitted on August 6, 1982, by the Governor's designee.

(i) Bay Area AQMD.

(A) New or amended Regulation 1: Rules 1–100, 1–112, 1–205, 1–233, 1–234, 1–235, 1–520, 1–522, 1–530, 1–540, 1–543, 1–544, and 1–602; Regulations 4: Rule 4–303; Regulation 5: Rules 5–208 and 5–402; and deletion of Regulation 6: Rule 6–132.

(B) [Reserved]

(C) Amended Regulation 8, Rules 2, 4, 5, 8 and 10.

(D) New or amended Regulation 2: Rules 2–1–207, 2–1–208, 2–1–301, 2–1–304, and 2–1–307.

(E) Amended Regulation 8, Rule 23.

(ii) Lake County APCD.

(A) New or amended Rules 630, 631, 660.1, 660.2, and 660.3.

(B) Previously approved on November 10, 1982 in paragraph (c)(124)(ii)(A) of this section and now deleted without replacement, Rules 660.1, 660.2, and 660.3.

(C) Previously approved on November 10, 1982 in paragraph (c)(124)(ii)(A) of this section and now deleted without replacement Rules 631 and 660.1 to 660.3.

(iii) San Joaquin County APCD.

(A) New or amended Rules 203, 415, 503, and 521.

(B) Previously approved on November 10, 1982 and now deleted without replacement Rules 503 and 521.

(iv) South Coast AQMD.

(A) New or amended Rule 407.

(B) Amended Rule 1107.

(C) [Reserved]

(v) Stanislaus County APCD.

(A) New or amended Rules 203 and 503.

(B) New or amended Rules 409.4 and 409.8.

(C) Previously approved on November 10, 1982 and now deleted without replacement Rule 503.

(vi) Del Norte County APCD.

(A) New or amended Rules 616, 618, and 620.

(B) New or amended Rule 230, adopted December 14, 1981.

(C) Previously approved on November 10, 1982 and now deleted without replacement Rules 616 and 618.

(D) Previously approved on November 10, 1982 in paragraph (c)(124)(vi)(A) of this section and now deleted without replacement, Rule 620.

(vii) Humboldt County APCD.

(A) New or amended Rules 616, 618, and 620.

(B) New or amended Rule 230, adopted December 8, 1981.

(C) Previously approved on November 10, 1982 and now deleted without replacement Rules 616 and 618.

(D) Previously approved on November 10, 1982 in paragraph (c)(124)(vii)(A) of this section and now deleted without replacement Rule 620.

(viii) Mendocino County APCD.

(A) New or amended Rules 610, 616, 618, and 620.

(B) New or amended Rules 130 (introductory text, b1, m1, p5, and s2), and 230, adopted January 5, 1982.

(C) Previously approved on November 10, 1982 and now deleted without replacement Rules 616 and 618.

(D) Previously approved on November 10, 1982 in paragraph (c)(124)(viii)(A) of this section and now deleted without replacement, Rule 620.

(ix) Northern Sonoma County APCD.

(A) New or amended Rules 616, 618, and 620.

(B) New or amended Rules 130 (introductory text, b1, n1, p5, and s2), 220(c), 230, and 260, adopted February 23, 1982 and rule 200, adopted June 15, 1982.

(C) Previously approved on November 10, 1982 and now deleted without replacement Rules 616 and 618.

(D) Previously approved on July 31, 1985 in paragraph (c)(124)(ix)(B) of this section and now deleted without replacement, Rule 130 (introductory text, b.1, n1, p5, and s2), and now deleted with replacement in paragraphs (c)(480)(i)(A)(*3*) and (*4*), Rules 220(c) and 230.

(E) Previously approved on November 10, 1982 in paragraph (c)(124)(ix)(A) of this section and now deleted without replacement, Rule 620.

(x) Trinity County APCD.

(A) New or amended Rules 616, 618, and 620.

(B) New or amended Rule 230, adopted December 7, 1981.

(C) Previously approved on November 10, 1982 and now deleted without replacement Rules 616 and 618.

(D) Previously approved on November 10, 1982 in paragraph (c)(124)(x)(A) of this section and now deleted without replacement, Rule 620.

(xi) Kern County APCD.

(A) New or amended Rule 411.

(xii) Butte County APCD.

(A) New or amended Rules 4–6 and 4–6A.

(B) Previously approved on June 1, 1983 in paragraph (xii)(A) of this section and now deleted Rules 4–6 and 4–6A.

(125) Revised Regulations for the following APCDs submitted on May 20, 1982 by the Governor's designee.

(i) San Diego County APCD.

(A) New or amended Rule 40.

(ii) South Coast AQMD.

(A) New or amended Rule 431.1.

(B) New or amended Rules 303 and 304.

(C) [Reserved]

(D) Amended Rules 442, 467 and 1128.

(iii) Monterey Bay Unified APCD.

(A) New or amended Rule 422.

(B) New Rule 428.

(iv) Shasta County APCD.

(A) New or amended Rules 2:6, 2:7, 2:8, 2:9, 2:11 and 4:4.

(B) Previously approved on November 10, 1982 and now deleted without replacement Rule 4.4.

(C) Previously approved on November 10, 1982 in paragraph (c)(125)(iv)(A) of this section and now deleted without replacement, Rule 2:11.

(v) Tulare County APCD.

(A) New or amended Rules 104 and 405.

(B) Amended Rule 410.1.

(C) Previously approved on November 10, 1982 in paragraph (c)(125)(v)(A) of this section and now deleted without replacement, Rule 104.

(vi) Yolo-Solano APCD.

(A) New or amended Rules 4.1 and 4.2.

(B) Previously approved on November 10, 1982 and now deleted without replacement Rules 4.1 and 4.2.

(vii) Yuba County APCD.

(A) New or amended Rule 9.6.

(viii) Bay Area AQMD.

(A) Manual of Procedures: Volumes I, V and VI.

(B) Amended Regulation 8, Rules 7, 14, 18 and 19.

(ix) San Joaquin County APCD.

(A) Amended Rule 412.

(126) Revised regulations for the following APCDs submitted on November 8, 1982 by the Governor's designee.

(i) Sacramento County APCD.

(A) New or amended Rules 59 and 70.

(B) Amended Rules 16 and 19.

(C) Previously approved on June 1, 1983 and now deleted without replacement Rule 70.

(ii) Santa Barbara County APCD.

(A) New or amended Rule 210D.

(B) Previously approved on June 1, 1983 in paragraph (c)(126)(ii)(A) of this section and now deleted without replacement, Rule 210D.

(iii) Stanislaus County APCD.

(A) New or amended Rules 110, 202, and 302.

(B) Amended Rules 409.8, 411 and 411.1(G).

(C) Previously approved on June 18, 1982 and now deleted without replacement Rule 302.

(iv) South Coast AQMD.

(A) New or amended Rules 708.3 and 1105.

(v) Tulare County APCD.

(A) New or amended Rule 519.

(B) Amended Rules 410.3 and 410.4.

(C) Previously approved on June 1, 1983 and now deleted without replacement Rule 519.

(vi) Yolo-Solano County APCD.

(A) New or amended Rule 6.1.

(B) Amended Rule 2.22.

(127) New and amended regulations for the following APCD's submitted on February 3, 1983 by the Governor's designee.

(i) Bay Area Air Quality Management District.

(A) [Reserved]

(B) Amended Regulation 3: Rules 3–102, 3–302, 3–302.1, 3–303, and Schedule A.

(C) Amended Rules 13 and 29.

(D) New or amended Regulation 2: Rules 2–2–113.2, 2–2–115, 2–2–209, 2–2–210, 2–2–211, 2–2–303.2, 2–2–304.1, 2–2–304.2, and 2–2–404; and Regulation 3: Rule 3–312.

(ii) Fresno County APCD.

(A) Amended Rules 406 and 408.

(B) Amended Rule 409.1.

(iii) North Coast Unified AQMD.

(A) New Rule 350.

(B) Previously approved on November 18, 1983 and now deleted without replacement Rule 350.

(iv) Imperial County APCD.

(A) Amended Rule 409.

(B) Amended Rule 424.

(v) Monterey Bay Unified APCD.

(A) New or amended Rule 601.

(B) Amended Rule 301, submitted on February 3, 1983.

(C) Previously approved on August 9, 1985 in paragraph (c)(127)(v)(B) of this section and now deleted without replacement, Rule 301.

(vi) San Luis Obispo County APCD.

(A) Amended Rule 302.

(B) Previously approved on November 18, 1983 and now deleted without replacement Rule 302.

(vii) South Coast AQMD.

(A) New or amended Rules 301.1, 302, 303, and Resolutions 82–23 and 82.35.

(B) New or amended Rules 461, 1102, and 1102.1.

(C) New or amended Rules 301, 304, 401(b) and 1148.

(D) Previously approved on November 18, 1983 and now deleted without replacement Rule 303.

(E) Previously approved on October 19, 1984 and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District Rule 1148.

(F) Previously approved on November 18, 1983 in paragraph (c)(127)(vii)(A) of this section and now deleted without

replacement for implementation in the Antelope Valley Air Pollution Control District and the South Coast Air Quality Management District, Rule 302.

(G) Previously approved on October 19, 1984 in paragraph (c)(127)(vii)(C) of this section and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District and the South Coast Air Quality Management District, Rule 304.

(H) Previously approved on October 19, 1984 in paragraph (c)(127)(vii)(C) of this section and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District and the Mojave Desert Air Quality Management District (Riverside County), Rule 304.

(I) Previously approved on November 18, 1983 in paragraph (c)(127)(vii)(A) of this section and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District and the Mojave Desert Air Quality Management District, Rules 302 and 303.

(viii) Ventura County APCD.

(A) New or amended Rule 41.

(B) Amended Rule 74.2.

(128) The 1982 Ozone Air Quality Plan for the Monterey Bay Region was submitted on December 31, 1982 and January 14, 1983 by the Governor's designee.

(129) The 1982 Ozone Air Quality Plan for Stanislaus County and the 1982 Ozone and CO plan for San Joaquin County were submitted on December 1, 1982 by the Governor's designee.

(130) The 1982 Ozone Air Quality Plan for Santa Barbara County was submitted on December 31, 1982 by the Governor's designee.

(131) [Reserved]

(132) Revised regulations for the following APCDs submitted on June 28, 1982, by the Governor's designee.

(i) Kern County APCD.

(A) Amended Rule 425.

(B) Previously approved on May 3, 1984 and now deleted without replacement, Rule 425.

(133) The enabling legislation, Chapter 892, Statutes of 1982, (Senate Bill No. 33) for a California motor vehicle inspection and maintenance program and the California Air Resources Board's Executive Order G–125–15 submitted on September 17, 1982 by the Governor's designee.

(134) A schedule to implement the California motor vehicle inspection and maintenance (I/M) program, the California Air Resources Board's Executive Order G–125–33, and local resolutions and requests from the Bay Area Air Quality Management District, Sacramento County APCD, Placer County APCD, Yolo-Solano APCD, San Diego County APCD, South Coast Air Quality Management District and Ventura County APCD to have the State implement the I/M program, submitted on July 26, 1983 by the Governor's designee.

(135) The 1982 Ozone and CO Air Quality Plan for the San Francisco Bay Air Basin was submitted on February 4, 1983 by the Governor's designee.

(136) The 1982 Ozone and CO Air Quality Plan for the San Diego Air Basin was submitted on February 28 and August 12, 1983 by the Governor's designee.

(137) Revised regulations for the following APCDs was submitted on July 19, 1983 by the Governor's designee.

(i) Kern County APCD.

(A) New or amended Rules 301.1 and 302.

(B) Amended Rule 410.1

(C) Previously approved on February 1, 1984 in paragraph (c)(137)(i)(A) of this section and now deleted without replacement, Rules 301.1 and 302 (including Southeast Desert).

(ii) Merced County APCD.

(A) New or amended Rules 104, 108, 113, 202, 209.1, 301, 305, 407 and 519.

(B) Amended Rule 409.1.

(C) New or amended Rules 409.4, 409.5, 411 and 411.1.

(D) Previously approved on February 1, 1984 and now deleted without replacement Rules 305 and 319.

(E) Previously approved on February 1, 1984 in paragraph (c)(137)(ii)(A) of this section and now deleted without replacement, Rules 104, 113, and 301 (paragraphs a, b, and h).

(iii) Sacramento County APCD.

(A) New or amended Rule 7.

(B) Amended Rule 17.

(iv) San Diego County APCD.

(A) New or amended Rules 10 and 40.

(162) Revised regulations for the following APCD were submitted on June 21, 1985 by the Governor's designee.

(i) Northern Sonoma County APCD.

(A) Amended Rule 220 (a).

(B) Previously approved on July 31, 1985 in paragraph (c)(162)(i)(A) of this section and now deleted with replacement in Paragraph (c)(480)(i)(A)(*3*) of this section, Chapter II, 220(A).

(163) Rule 1304(e), Resource Conservation and Energy Projects, adopted on March 7, 1980, submitted on April 3, 1980 (See § 52.220(c)(68)(i)), and conditionally approved on January 21, 1981 [See § 52.232(a)(3)(i)(A)] is disapproved but only with respect to projects whose application for a permit is complete after January 1, 1986.

(164) Revised regulations for the following APCD's were submitted on October 16, 1985 by the Governor's designee.

(i) *Incorporation by reference.* (A) Amador County APCD.

(*1*) New or amended Rules 301–319 and 501, adopted 6/16/81; and Rules 502–514 and 517–521, adopted 1/8/80.

(*2*) Previously approved on April 17, 1987 in paragraph (c)(164)(i)(A)(*1*) of this section and now deleted without replacement, Rules 318, 319, and 509.

(*3*) Previously approved on April 17, 1987 in paragraph (c)(164)(i)(A)(*1*) of this section and now deleted without replacement Rules 504, 506, 519, and 520.

(B) Northern Sonoma County APCD.

(*1*) Amended Rules 100, 120, 130 (d1 and s5), 500, 520, 600, and 610, adopted 2/22/84, and amended Rule 200(a), adopted 7/19/83.

(*2*) Appendices A and B adopted on February 22, 1984.

(*3*) Previously approved on April 17, 1987 in paragraph (c)(164)(i)(B)(*1*) of this section and now deleted without replacement, Rules 500 and 520.

(*4*) Rule 240, ''Permit to Operate,'' adopted on February 22, 1984.

(*5*) Previously approved on April 17, 1987 in paragraph (c)(164)(i)(B)(1) of this section and now deleted without replacement, Rule 130 (d1 and s5), and now deleted with replacement in paragraph (c)(480)(i)(A)(*2*) of this section, rule 200(a).

(*6*) Previously approved on April 17, 1987 in paragraph (c)(164)(i)(B)(*1*) of this section and now deleted without replacement, Rules 600 and 610.

(C) Ventura County APCD.

(*1*) Amended Rules 15, 54, 61, 64, 67, 69, 70, 74.3, 74.4, 74.5, 74.6, 74.8, 80, and 103, revised 7/5/83.

(*2*) Previously approved and now removed (without replacement), Rule 84.

(*3*) Previously approved on April 17, 1987 and now deleted without replacement Rule 61.

(*4*) Rule 74.11 adopted on April 9, 1985.

(*5*) Previously approved on April 17, 1987 in paragraph (c)(164)(i)(C)(*1*) of this section and now deleted without replacement, Ventura County Rule 67.

(*6*) Previously approved on September 24, 1999 in paragraph (c)(164)(i)(C)(*4*) of this section and now deleted with replacement in paragraph (c)(391)(i)(D)(*1*) of this section, Rule 74.11 as adopted on April 9, 1985.

(D) Yuba County APCD.

(*1*) Amended Rules 1.1, 2.0, 2.1, 2.3, 2.5, 2.6, 2.7, 2.9, 2.11, and 2.16, adopted 3/5/85.

(E) South Coast Air Quality Management District.

(*1*) Rule 1150.1, adopted on April 5, 1985.

(165) Revised regulations for the following APCD's were submitted by the Governor's designee on November 12, 1985.

(i) *Incorporation by reference.* (A) Northern Sonoma County APCD.

(*1*) Amended Rule 130 s4, adopted 7/9/85.

(*2*) Previously approved on April 17, 1987 in paragraph (c)(165)(i)(A)(*1*) of this section and now deleted without replacement, Rule 130 (s4).

(B) South Coast Air Quality Management District.

(*1*) Amended Rule 221, adopted 1/4/85.

(*2*) Rule 1140, ''Abrasive Blasting,'' amended on August 2, 1985.

(166) A revised regulation for the following district was submitted on December 2, 1983, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast AQMD.

(1) Amended Rule 466 adopted 10/7/83.

(167) A revised regulation for the following district was submitted on August 1, 1984, by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County APCD.

(1) Amended Rule 74.7 adopted 7–3–84.

(168) Revised regulations for the following APCD's were submitted by the Governor's designee on February 10, 1986.

(i) *Incorporation by reference.* (A) Butte County APCD.

(*1*) New or amended Rules 101, 102, 250, 260, 261, 270, 301, 302, 303, 304, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 320, 322, 323, 324, 325, 401, 402, 403, 405, 406, 407, 420, 421, 422, 423, 425, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 701, 702, 703, 704, 801, 802, 901, 902, and 3–3 (repealed), adopted August 6, 1985.

(*2*) New or amended Rules 202, 203, 204, 205, 210, 211, 212, 213, 214, 215, 220, 225, and 231 adopted August 6, 1985.

(*3*) Previously approved on February 3, 1987 and now deleted without replacement Rules 601 to 618, 620 to 621, and 801 to 802.

(*4*) Rule 424, adopted on August 6, 1985.

(*5*) Previously approved on February 3, 1987 in paragraph (c)(168)(i)(A)(*1*) of this section and now deleted without replacement, Rules 701, 702, 703, and 902.

(*6*) Previously approved on February 3, 1987 in paragraph (c)(168)(i)(A)(*1*) of this section and now deleted without replacement Rules 423 and 425.

(*7*) Previously approved on February 3, 1987 in paragraph (c)(168)(i)(A)(*1*) of this section and now deleted with replacement in paragraph (c)(457)(i)(C)(*1*): Rule 101 ''Title'' and Rule 102 ''Definitions'', except for the following definitions from existing SIP BCAPCD Rule 102: ''approved ignition devices,'' ''open out-door fire'', ''permissive burn day,'' ''range improvement burning,'' ''submerged fill pipe,'' and ''vapor recovery system.''.

(*1*) Amended Rules 110 and 202 (introductory paragraph and subparagraphs (a) through (d.7)), adopted May 13, 1986.

(*2*) Previously approved on February 3, 1989 in paragraph (c)(173)(i)(D)(*1*) of this section and now deleted without replacement, Rule 110.

(E) San Diego County Air Pollution Control District.

(*1*) Amended Rules 61.7 and 61.8, adopted on January 13, 1987.

(F) South Coast Air Quality Management District.

(*1*) Rule 443.1, adopted on December 5, 1986.

(174) Revised regulations for the following APCD's were submitted on September 1, 1987 by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast AQMD.

(*1*) Amended Rule 212, adopted May 1, 1987.

(B) Ventura County APCD.

(*1*) Amended Rule 12, adopted June 16, 1987.

(175) Revised regulations for the following APCD's were submitted on November 25, 1987, by the Governor's designee.

(i) *Incorporation by reference.* (A) Shasta County AQMD.

(*1*) Amended rules 1:2, 2:6.a.4.(c), 2:6.b, 2:7.a, 2:7.c, 2:8.c.2.(a), 2:8.c.3.(a), 2:8.c.4, and 2:19, adopted on July 28, 1987.

(*2*) Previously approved on April 17, 1989 in paragraph (c)(175)(i)(A)(*1*) of this section and now deleted without replacement Rule 2:19.

(B) Tehama County APCD.

(*1*) New or amended rules 1:2, 3:1, 3:6(1), 3:11(a), 3:12, 3:13.j, 3:14(10), 3:15, 4:3, and 4:24, adopted on August 4, 1987.

(*2*) Rule 4.22, adopted on August 4, 1987.

(*3*) Previously approved on April 17, 1989 in paragraph (c)(175)(i)(B)(*1*) of this section and now deleted without replacement Rule 3:15.

(C) Yolo-Solano APCD.

(*1*) Amended rule 3:7(d), adopted on August 12, 1987.

(176) Revised regulations for the following APCD's were submitted on March 23, 1988 by the Governor's designee.

(i) *Incorporation by reference.* (A) Siskiyou County Air Pollution Control District.

(*1*) New and amended rules 4.1, 4.1–1, 4.1–2, 4.2–1, 4.3, 4.4, 4.5, 4.6, 4.6–1, 4.7, 4.8, 4.9, 4.10, 4.11, 7.1, 7.2, 7.3, 7.4, 7.5–1, 7.5–2, 7.5–3, 7.6, and 7.7 adopted on October 27, 1987.

(B) Lake County Air Pollution Control District.

(*1*) Amended rules 431.5, 431.7, 432, 432.5, 433, 434, 436.5, 442, 1105, and 1107 adopted October 20, 1987.

(*2*) Previously approved on October 23, 1989 in paragraph (c)(176)(i)(B)(*1*) of this section and now deleted Section 442 (now replaced by Section 436).

(C) Lassen County Air Pollution Control District.

(*1*) Amended Articles I, II, III, IV, V, VI, and VII adopted August 11, 1987.

(D) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 429 adopted on September 16, 1987.

(E) South Coast Air Quality Management District.

(*1*) Rule 444, adopted on October 2, 1987.

(177) Revised regulations for the following APCD's were submitted by the Governor's designee on February 7, 1989.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Amended Rules 2 and 55 adopted May 24, 1988.

(*2*) Amended Rule 56 adopted May 24, 1988.

(*3*) Previously approved on August 6, 1990 in paragraph (c)(177)(i)(A) of this section and now deleted without replacement, Rule 55.

(B) Bay Area Air Quality Management District.

(*1*) Amended Regulation 4 adopted September 7, 1988.

(C) Mariposa County Air Pollution Control District.

(*1*) Amended Regulation III and Rules 300, 301, 302, 303, 304, 305, 306, 307, and 308 adopted July 19, 1988.

(D) Madera County Air Pollution Control District.

(*1*) Amended rules 106, 112, 114, 401, 403, 422, 424, 425, 501, 504, 505, 506, 518, 519, 601, 603, 605, 606, 609, 610, 611, 613, and 614 adoped on January 5, 1988.

(*2*) Previously approved on April 16, 1991 and now deleted without replacement Rules 106, 501, 504 to 506, and 519.

(*3*) Previously approved on April 16, 1991 in paragraph (c)(177)(i)(D)(*1*) of this section and now deleted without replacement, Rule 112.

(*4*) Previously approved on April 16, 1991 in paragraph (c)(175)(i)(D)(*1*) of this section and now deleted without replacement Rule 518.

(E) Bay Area Air Quality Management District.

(*1*) Rule 8–5 adopted on May 4, 1988.

(F) Lake County Air Quality Management District.

(*1*) Rules 248.5 and 270, adopted on December 6, 1988.

(*2*) Section (Rule) 1150, adopted on December 6, 1988.

(178) [Reserved]

(179) Revised regulations for the following APCD's were submitted on March 26, 1990, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kings County Air Pollution Control District.

(*1*) Amended Rules 417 and 417.1 adopted on February 28, 1989.

(B) San Bernardino County Air Pollution District.

(*1*) Amended Rules 101, 102 (except fugitive liquid leak and fugitive vapor leak), 103, 104, 105, and 106 adopted on December 19, 1988.

(*2*) Previously approved on November 27, 1990 in paragraph (c)(179)(i)(B)(*1*) of this section and now deleted without replacement, Rule 105.

(*3*) Previously approved on November 27, 1990 in paragraph (c)(179)(i)(B)(*1*) of this section and now deleted with replacement in paragraph (c)(520)(i)(A)(*1*) of this section, Rule 102 (except fugitive liquid leak and fugitive vapor leak), amended on December 19, 1988.

(C) Bay Area Air Quality Management District.

(*1*) Rule 8–44, adopted January 4, 1989.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 74.7, adopted on January 10, 1989.

(*2*) Rule 30 adopted on May 30, 1989.

(E) Siskiyou County Air Pollution Control District.

(*1*) Rules 1.2 (except section V1), 1.4, 2.1, 2.2, 2.10. 4.1, 4.6, 6.1, and Appendix A, adopted on January 24, 1989.

(*2*) Rule 4.10 adopted on January 24, 1989.

(*3*) Rule 4.3, adopted on January 24, 1989.

(*4*) Previously approved on November 4, 1996 in paragraph (c)(179)(i)(E)(*1*) of this section and now deleted without replacement, Rule 1.4.

(*5*) Previously approved on November 4, 1996 in paragraph (c)(179)(i)(E)(*1*) of this section and now deleted without replacement Rule 2.10.

(F) Lake County Air Quality Management District.

(*1*) Rule 1010, adopted on June 13, 1989.

(*2*) Section (Rule) 431.5, adopted on June 13, 1989.

(G) Tuolumne County Air Pollution Control District.

(*1*) Rules 101, 102, and Rule 300, adopted November 22, 1988.

(*2*) Rules 302 to 310, adopted on November 22, 1988.

(180) [Reserved]

(181) New and amended regulations for the following APCD were submitted on October 16, 1990, by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Rule 71.2, adopted on September 26, 1989.

(182) New and amended regulations for the following APCDs were submitted on December 31, 1990, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rules 1175 and 1176, adopted on January 5, 1990.

(*2*) Rule 109, adopted on May 5, 1989.

(*3*) Rule 108, adopted on April 6, 1990.

(*4*) Rule 461, adopted on July 7, 1989.

(*5*) Rule 431.2, amended on May 4, 1990.

(B) Bay Area Air Quality Management District.

(*1*) Regulation 8, Rule 8, adopted on November 1, 1989.

(*2*) Amended Rule 8-28, adopted September 6, 1989.

(*3*) Rule 8–46, adopted July 12, 1989.

(*4*) Amended Regulation 8, Rule 16, adopted on August 2, 1989.

(*5*) Amended Regulation 8, Rule 11, adopted on September 20, 1989.

(*6*) Regulation 2, Rule 1 adopted on November 1, 1989.

(*7*) Previously approved on January 26, 1999 in paragraph (c)(182)(i)(B)(*6*) of this section and now deleted with replacement in (c)(429)(i)(E)(*1*), Regulation 2, Rule 1 adopted on November 1, 1989.

(C) San Luis Obispo County Air Pollution Control District.

(*1*) Rule 424, adopted on July 18, 1989.

(D) Santa Barbara County Air Pollution Control District.

(*1*) Amended Rule 323, adopted on February 20, 1990.

(E) San Diego County Air Pollution Control District.

(*1*) Amended Rules 101, 102, 103, and 108, adopted March 27, 1990.

(*2*) Previously approved on March 11, 1988 in paragraph (c)(182)(i)(E)(*1*) of this section and now deleted Rules 101, 102, 103, and 108 (now replaced by Rule 101).

(F) Modoc County Air Pollution Control District.

(*1*) Rules 4.1–2, 4.6, 4.6–1, and 4.9 adopted on January 3, 1989.

(*2*) Rule 4.11, adopted on January 3, 1989.

(*3*) Rule 1.2 and Rule 7.1, adopted May 1, 1989.

(*4*) Rule 4.1, adopted on January 15, 1989.

(*5*) Regulation II, ''Permit System,'' Rule 2.3 ''Transfers'' amended on January 15, 1989.

(*6*) Regulation II, ''Permit System,'' Rule 2.5 ''Expiration of Applications'' amended on January 15, 1989.

(*7*) Regulation II, ''Permit System,'' Rule 2.7 ''Conditional Approval'' amended on January 15, 1989.

(*8*) Regulation II, ''Permit System,'' Rule 2.10 ''Further Information'' amended on January 15, 1989.

(G) Siskiyou County Air Pollution Control District.

(*1*) Rule 4.14, adopted on July 11, 1989.

(*2*) Rule 7.1, adopted July 11, 1989.

(183) New and amended regulations for the following APCD's were submitted on April 5, 1991, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Diego County Air Pollution Control District.

(*1*) Rule 67.8, adopted on December 18, 1990.

(*2*) Rule 61.9, adopted on March 14, 1989, is now removed without replacement as of April 19, 1994.

(*3*) Revised Rule 67.3, adopted on October 16, 1990.

(*4*) Amended Rule 61.4, adopted on October 16, 1990.

(*5*) Amended Rule 67.4, adopted July 3, 1990.

(*6*) Amended Rule 61.0, adopted on September 16, 1990.

(*7*) New Rule 67.12, adopted December 4, 1990.

(*8*) Previously approved on March 24, 1992 and now deleted without replacement Rule 67.8.

(*9*) Amended Rule 67.18, adopted on July 3, 1990.

(*10*) Revised Rules 61.2, 61.3, and 67.5, adopted October 16, 1990.

(*11*) Amended Rule 61.1, adopted October 16, 1990.

(*12*) Rule 67.6, adopted on October 16, 1990.

(*13*) Rule 67.15, adopted on December 18, 1990.

(B) Ventura County Air Pollution Control District.

(*1*) Rules 74.5.1 and 74.5.2, adopted on December 4, 1990.

(*2*) Rule 71, adopted on September 11, 1990.

(*3*) Rule 74.13, adopted on January 22, 1991.

(*4*) Rule 74.16, adopted January 8, 1991.

(C) Placer County Air Pollution Control District.

(*1*) Amended Rule 217, adopted on September 25, 1990.

(*2*) Amended Rule 213, adopted on September 25, 1990.

(*3*) New Rule 410 and Amended Rule 223, adopted on September 25, 1990.

(*4*) Amended Rule 212, adopted September 25, 1990.

(*5*) Rule 216, adopted on September 25, 1990.

(D) Sacramento Metropolitan Air Quality Management District.

(*1*) Amended rules 443, adopted September 25, 1990, and 452, adopted August 21, 1990.

(E)(*1*) [Reserved]

(*2*) Rule 316, adopted on July 10, 1990.

(F) Bay Area Air Quality Management District.

(*1*) Amended Regulation 8, Rule 43, adopted on June 20, 1990.

(*2*) Regulation 8, Rule 17, adopted on September 5, 1990.

(G) [Reserved]

(H) El Dorado County Air Pollution Control District.

(*1*) Regulation IX, Rules 900 through 914, adopted September 18, 1990.

(*2*) Previously approved on October 1, 1999 in paragraph (c)(183)(i)(H)(*1*) of this section and now deleted Rules 900, 901, 902, 903, and 904 (now replaced by Rule 238).

(*3*) Previously approved on October 1, 1999 in paragraph (c)(183)(i)(H)(*1*) of this section and now deleted Rules 905, 906, 907, 908, 910, 911, and 912 (now replaced by Rule 244).

(*4*) Previously approved on October 1, 1999 in paragraph (c)(183)(i)(H)(*1*) of this section and now deleted Rule 909 (now replaced by a Negative Declaration adopted on April 3, 2001).

(*5*) Previously approved on October 1, 1999 in paragraph (c)(183)(i)(H)(*1*) of this section and now deleted without replacement Rule 913.

(*6*) Previously approved on October 1, 1999 in paragraph (c)(183)(i)(H)(*1*) of this section and now deleted Rule 914 (now replaced by Rule 501).

(184) New and amended regulations for the following APCDs were submitted on May 13, 1991, by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Amended rule 445, adopted November 6, 1990.

(*2*) Amended Rules 442, adopted October 2, 1990, and 446, adopted December 4, 1990.

(*3*) Previously approved on August 20, 1991 and now deleted without replacement Rule 445.

(B) South Coast Air Quality Management District.

(*1*) Rules 1102 and 1102.1, adopted on December 7, 1990.

(*2*) Rule 465, adopted on December 7, 1990, and Rule 1123, adopted on December 7, 1990.

(*3*) Rules 1153 and 1164, adopted on January 4, 1991, and December 7, 1990, respectively.

(*4*) New Rule 1174, adopted on October 5, 1990.

(*5*) Rule 1103, adopted on December 7, 1990.

(*6*) Rule 464, adopted on December 7, 1990.

(*7*) Rules 201, 203, 205, 209, 214 to 217 amended on January 5, 1990 and Rule 201.1 adopted on January 5, 1990.

(*8*) Rule 208, adopted on January 5, 1990.

(*9*) Previously approved on August 11, 1992 and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District Rule 1123.

(*10*) Rules 1162 and 1173, adopted on December 7, 1990.

(*11*) Previously approved on May 13, 1999 in paragraph (c)(184)(i)(B)(*7*) of this section and now deleted without replacement Rules 214, 215, and 216.

(*12*) Previously approved on October 4, 1994 in paragraph (c)(184)(i)(B)(*4*) of this section and now deleted without replacement, for the Antelope Valley area only, Antelope Valley Rule 1174, previously South Coast Rule 1174. South Coast Rule 1174 remains in effect for the South Coast area.

(C) Bay Area Air Quality Management District.

(*1*) Rule 8-37, adopted on October 17, 1990.

(*2*) Regulation 6, adopted on December 19, 1990.

(D) San Diego County Air Pollution Control District.

(E) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.24, adopted on November 14, 1990.

(F) Tehama County Air Pollution Control District.

(*1*) Rule 1.2, adopted April 25, 1989.

(*2*) Rule 3.12, adopted on April 25, 1989.

(185) New and amended regulations for the following APCD's were submitted on May 30, 1991, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) Rules 410.6 and 410.6A, adopted on May 6, 1991.

(*2*) Rule 410.5, adopted on May 6, 1991.

(*3*) Rule 410.4A, adopted on May 6, 1991.

(*4*) Amended Rule 410.1, adopted on May 6, 1991.

(*5*) Amended Rules 414 and 414.1 and New Rule 414.5, adopted on May 6, 1991.

(*6*) Revised Rule 410.4, adopted on May 6, 1991.

(*7*) Rule 410.3 and Rule 412, adopted on May 6, 1991.

(*8*) [Reserved]

(*9*) Rule 410.7, adopted May 6, 1991.

(B) San Diego County Air Pollution Control District.

(*1*) Rule 67.2, adopted on May 21, 1991.

(*2*) Rule 67.7, adopted on May 21, 1991.

(*3*) [Reserved]

(*4*) Amended Rule 67.16, adopted on May 21, 1991.

(*5*) Rule 67.1, adopted on May 21, 1991.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rules 467.1 and 467.2, adopted on April 11, 1991.

(*2*) Rule 460.2, adopted on April 11, 1991.

(*3*) New Rule 460.1, adopted on April 11, 1991.

(*4*) New Rules 463.4, 464.1, and 464.2, adopted on April 11, 1991.

(*5*) New Rule 461.2, adopted on April 11, 1991.

(*6*) Amended Rules 465.3 and 466.1, adopted April 11, 1991.

(*7*) Previously approved on April 24, 1992 and now deleted without replacement Rule 467.1.

(D) Placer County Air Pollution Control District.

(*1*) Amended Rule 215, adopted on September 25, 1990.

(186) New and amended regulations for the following APCDs were submitted on October 25, 1991, by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Amended Rules 447 adopted April 30, 1991.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 468.1, adopted on May 16, 1991.

(C) South Coast Air Quality Management District.

(*1*) Rule 1104, adopted March 1, 1991.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 62.6, adopted on July 16, 1991.

(*2*) Rule 103, adopted on June 4, 1991.

(E) Santa Barbara County Air Pollution Control District.

(*1*) Rule 105 adopted on July 30, 1991.

(*2*) Previously approved on June 3, 1999, in paragraph (c)(186)(i)(E)(*1*) of this section and now deleted with replacement in paragraph (c)(533)(i)(A)(*2*) of this section, Rule 105, ''Applicability,'' revision adopted on August 25, 2016.

(F) Northern Sierra Air Pollution Control District.

(*1*) Rules 302 to 312, adopted on November 10, 1988.

(187) New and amended regulations for the following APCDs were submitted on January 28, 1992, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 463.1, adopted on September 19, 1991.

(*2*) Rule 460.2 adopted on September 19, 1991.

(*3*) New Rule 463.2, adopted on September 19, 1991.

(*4*) New Rule 460.4, adopted on September 19, 1991.

(*5*) Rule 461.1 and Rule 465.2, adopted on September 19, 1991.

(*6*) Rule 465.1, adopted on September 19, 1991.

(B) Ventura County Air Pollution Control District.

(*1*) New Rule 74.17, adopted on September 17, 1991.

(*2*) Rule 74.1, adopted on November 12, 1991.

(*3*) New rules 150 to 159 amended on September 17, 1991.

(*4*) Rules 26.A (''General''), 26.8 and 26.9 adopted on October 22, 1991.

(*5*) Previously approved on October 4, 1994 in paragraph (c)(187)(i)(B)(*1*) of this section and now deleted without replacement, Rule 74.17.

(C) South Coast Air Quality Management District.

(*1*) Rule 1142, adopted on June 19, 1991.

(*2*) Rule 1135, adopted on July 19, 1991.

(*3*) Previously approved on December 13, 1994 and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District Rule 1142.

(D) San Diego County Air Pollution Control District.

(*1*) New rules 127, 128, and 130 amended on September 17, 1991.

(E) Santa Barbara County Air Pollution Control District.

(*1*) Rule 206, ''Conditional Approval of Authority to Construct or Permit to Operate,'' Revised October 15, 1991.

(188) New and amended regulations for the following APCDs were submitted on June 19, 1992, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Rule 339, adopted on November 5, 1991.

(*2*) Rule 331, adopted on December 10, 1991.

(*3*) Rule 342, adopted on March 10, 1992.

(*4*) Rule 329, adopted on February 25, 1992.

(B) San Bernardino County Air Pollution Control District.

(*1*) Rule 1116, adopted on March 2, 1992.

(C) South Coast Air Quality Management District.

(*1*) Rule 1171, adopted on August 2, 1991.

(*2*) Rule 465, amended on November 1, 1991.

(*3*) Previously approved on December 20, 1993 in paragraph (c)(188)(i)(C)(*1*) of this section and now deleted with replacement in paragraph (c)(519)(i)(A)(*1*) of this section in the Mojave Desert Air Quality Management District, Rule 1171, adopted August 2, 1991.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 74.18, adopted on January 28, 1992.

(*2*) Rule 74.6, adopted on December 10, 1991.

(*3*) Rule 74.3, adopted on December 10, 1991.

(*4*) Rule 29 adopted on October 22, 1991.

(E) [Reserved]

(F) Sacramento Metropolitan Air Quality Management District.

(*1*) Rules 448 and 449 adopted on December 17, 1991.

(189) New and amended regulations for the following APCDs were submitted on September 14, 1992, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1115, adopted on March 6, 1992.

(*2*) Rule 1126, adopted on March 6, 1992.

(*3*) Rule 1128, adopted on February 7, 1992, and Rule 1141, adopted on April 3, 1992.

(*4*) Rules 1125 and 1136, adopted on August 2, 1991.

(*5*) New Rule 1179, adopted March 6, 1992.

(*6*) Rule 109 adopted on March 6, 1992, and Rule 1106.1 adopted on May 1, 1992.

(*7*) Rule 1141.1, adopted on November 4, 1983 and amended on March 6, 1992.

(*8*) Previously approved on December 20, 1993 in paragraph (c)(189)(i)(A)(*3*) of this section and now deleted without replacement for implementation in the Antelope Valley Air Quality Management District Rule 1141.

(*9*) Previously approved on December 20, 1993 in paragraph (c)(189)(i)(A)(*3*) of this section and now deleted without replacement for implementation in the Antelope Valley Air Quality Management District, Rule 1128.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 71.1 and Rule 71.3, adopted on June 16, 1992.

(*2*) Rule 74.10, adopted on June 16, 1992.

(*3*) Rule 74.14, adopted on May 26, 1992.

(C) Bay Area Air Quality Management District.

(*1*) Rule 8–49, adopted on August 21, 1992.

(*2*) Regulation 9 Rule 1, amended on May 20, 1992.

(190) New and amended regulations for the following APCDs were submitted on November 12, 1992, by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Revised Rule 74.19, adopted August 11, 1992.

(*2*) Rule 74.2 revised on August 11, 1992.

(*3*) Rule 24 adopted on September 15, 1992.

(B) Bay Area Air Quality Management District.

(*1*) Rule 8–18, adopted on March 4, 1992.

(C) El Dorado County Air Pollution Control District.

(*1*) Rule 1000 adopted on September 21, 1992.

(*2*) Rule 1000.1, ''Emission Statement Waiver,'' adopted on September 21, 1992.

(D) Feather River Air Pollution Control District.

(*1*) Rule 4.8 adopted on September 14, 1992.

(E) Kern County Air Pollution Control District.

(*1*) Rule 108.2 adopted on July 13, 1992.

(F) San Bernardino County Air Pollution Control District (now Mojave Desert Air Quality Management District).

(*1*) Rule 107 adopted on September 14, 1992.

(G) Santa Barbara County Air Pollution Control District.

(*1*) Rule 212 adopted on October 20, 1992.

(191) New and amended regulations for the following APCDs were submitted on January 11, 1993, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1145, adopted on January 10, 1992.

(B) Santa Barbara County Air Pollution Control District.

(*1*) Rule 346, adopted on October 13, 1992.

(C) San Bernardino County Air Pollution Control District.

(*1*) Rule 463, adopted on November 2, 1992.

(*2*) Previously approved on May 3, 1995 in paragraph (c)(191)(i)(C)(*1*) of this section, and now deleted with replacement in the Mojave Desert Air Quality Management District in paragraph (c)(518)(i)(A)(*5*), Rule 463.

(D) Kern County Air Pollution Control District.

(*1*) Rule 412.1, adopted on November 9, 1992.

(E) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 1160, ''Emission Statements,'' adopted on November 18, 1992.

(192) New and amended regulations for the following APCDs were submitted on April 6, 1993, by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Air Quality Management District.

(*1*) Rule 456, adopted on February 23, 1993.

(*2*) Rule 454, adopted on February 23, 1993.

(*3*) Revised Rule 450, adopted February 23, 1993.

(193) New and amended regulations for the following APCDs were submitted on May 13, 1993, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1106, adopted on August 2, 1991; Rule 1107, adopted on August 2, 1991; and Rule 1151, adopted on September 6, 1991.

(*2*) Rule 1130 adopted on March 6, 1992.

(*3*) Rule 1122, adopted on April 5, 1991.

(B) San Luis Obispo County Air Pollution Control District.

(*1*) Rule 417, adopted February 9, 1993.

(C) Butte County Air Pollution Control District.

(*1*) Rule 241, adopted on January 12, 1993.

(D) Glenn County Air Pollution Control District.

(*1*) Section 51, adopted on March 16, 1993.

(E) Ventura County Air Pollution Control District

(1) Rule 26.7 adopted on December 22, 1992.

(194) New and amended regulations for the following APCDs were submitted on November 18, 1993, by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Rule 70, adopted on May 4, 1993; Rule 71, adopted on June 8, 1993; and Rule 71.4, adopted on June 8, 1993.

(*2*) Rule 59, adopted on September 15, 1992.

(*3*) Rule 74.15.1, adopted on May 11, 1993.

(*4*) Rule 74.21, adopted on April 6, 1993.

(*5*) Rule 74.20, adopted on June 8, 1993.

(B) Kern County Air Pollution Control District.

(*1*) Rule 410.4, adopted on July 12, 1993.

(*2*) Rule 425, adopted on August 16, 1993.

(*3*) Previously submitted to EPA on June 28, 1982 and approved in the FEDERAL REGISTER on May 3, 1984 and now removed without replacement, Rule 425.

(*4*) Rule 424 adopted on April 19, 1993.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4603, adopted on May 20, 1993.

(*2*) Rule 4621, adopted on May 20, 1993.

(*3*) Rule 4802, adopted on May 21, 1992, and amended on December 17, 1992.

(*4*) Rules 2031, 2070, 2080, and 2092 adopted on May 21, 1992 and amended on December 17, 1992.

(*5*) Rule 4201, adopted on December 17, 1992.

(D) Santa Barbara County Air Pollution Control District.

(*1*) Rule 349, adopted on April 27, 1993.

(E) San Diego County Air Pollution Control District.

(*1*) Rule 67.12, adopted on April 6, 1993.

(*2*) Amended Rule 19, adopted April 6, 1993.

(F) Monterey Bay Unified Air Pollution Control District

(*1*) Rule 417, Rule 418, and Rule 427, adopted on August 25, 1993.

(*2*) Rule 425, adopted on August 25, 1993.

(*3*) Rule 420 and Rule 426, adopted on August 25, 1993.

(*4*) Previously submitted to EPA on February 6, 1975 and approved in the FEDERAL REGISTER on July 13, 1987 and now removed without replacement, Rule 428.

(*5*) Rule 300—Regulation 3, Part 4, Paragraph 4.4 adopted on June 9, 1993.

(G) Mendocino County Air Quality Management District.

(*1*) Rule 130 (p6), (t2), and (t3) adopted April 6, 1993.

(*2*) Rule 400(b) adopted on April 6, 1993.

(H) South Coast Air Quality Management District.

(*1*) Rule 403.1, adopted on January 15, 1993.

(I) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 105 adopted on April 20, 1993.

(J) Yolo-Solano Air Quality Management District.

(*1*) Rule 3.18 adopted on July 28, 1993.

(195) New and amended regulations for the following APCDs were submitted on February 11, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Diego Air Pollution Control District.

(*1*) Rule 67.17, adopted on September 21, 1993.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 74.22, adopted on November 9, 1993.

(*2*) Rule 59, adopted on October 12, 1993.

(196) New and amended regulations for the following APCDs were submitted on March 29, 1994 by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Sacramento Metropolitan AQMD rules 442, 443, 446, 447, and 452 adopted on November 16, 1993.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 74.9, adopted on December 21, 1993.

(*2*) Rule 15.1 adopted on October 12, 1993.

(C) Santa Barbara County Air Pollution Control District.

(*1*) Rule 316, adopted on December 14, 1993.

(*2*) Rules 325 & 326, adopted on January 25, 1994 and December 14, 1993, respectively.

(*3*) Rule 343, adopted on December 14, 1993.

(D) Yolo-Solano Air Quality Management District.

(*1*) Rule 3.2, adopted on August 25, 1993; and rules 3.14 and 3.15, adopted on September 22, 1993.

(E) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 213, amended on February 16, 1994.

(F) [Reserved]

(*4*) Rule 401, adopted on April 18, 1972 and amended on November 29, 1993.

(197) New and amended regulations for the following APCDs were submitted on May 24, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rules 1162, 1173, 1175 and 1176, adopted on May 13, 1994.

(*2*) Rule 463, adopted on March 11, 1994.

(B) Bay Area Air Quality Management District.

(*1*) Rule 8–6, adopted on February 2, 1994. Rule 8–5, adopted on January 20, 1993.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4622, adopted on February 17, 1994.

(*2*) Rule 4681, adopted on December 16, 1993.

(*3*) Rules 4302 and 4303, adopted on May 21, 1992 and amended on December 16, 1993.

(*4*) Rule 4103, adopted on December 16, 1993.

(*5*) Rule 1081, originally adopted on April 11, 1991 and amended on December 16, 1993.

(*6*) Rule 2050, ''Cancellation of Application,'' adopted on May 21, 1992 and amended on December 16, 1993.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 74.24, adopted on March 8, 1994.

(*2*) Rule 56, adopted on October 22, 1968, as amended on March 29, 1994.

(E) El Dorado County Air Pollution Control District.

(*1*) Rules 501, 523, 524, and 525 adopted on April 26, 1994.

(198) New and amended regulations for the following APCDs were submitted on July 13, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Revised Rule 8–8, adopted on June 15, 1994.

(B) Placer County Air Pollution Control District.

(*1*) Rule 230, adopted on June 28, 1994.

(*2*) Rule 229, adopted on June 28, 1994.

(*3*) Previously approved on December 14, 1994 in paragraph (c)(198)(i)(B)(1) of this section and now deleted without replacement Rule 230.

(*4*) Previously approved on June 8, 2001 in paragraph (c)(198)(i)(B)(2) of this section and now deleted without replacement Rule 229.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4407, adopted on May 19, 1994.

(*2*) Rule 4682 adopted on June 16, 1994 and Rule 4684 adopted on May 19, 1994.

(*3*) Rule 4607, adopted on May 19, 1994.

(D) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 458, adopted on June 7, 1994.

(E) Mojave Desert Air Quality Management District.

(*1*) Rules 461 and 462, adopted on May 25, 1994.

(*2*) Rule 1117 adopted June 22, 1994.

(*3*) Previously approved on May 3, 1995 in paragraph (c)(198)(i)(E)(*1*) of this section, and now deleted with replacement in paragraphs (c)(518)(i)(A)(*3*) and (*4*), respectively, Rules 461 and 462.

(F) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 430, adopted on May 25, 1994.

(*2*) Rule 416, adopted April 20, 1994.

(G) [Reserved]

(H) South Coast Air Quality Management District.

(*1*) Rule 1146 and Rule 1146.1, adopted May 13, 1994.

(I) San Diego County Air Pollution Control District.

(*1*) Rule 67.10, adopted on June 15, 1994.

(*2*) Rule 60 adopted on May 17, 1994.

(J) Ventura County Air Pollution Control District.

(*1*) Rule 74.28, adopted on May 10, 1994.

(*2*) Rule 74.30 adopted May 17, 1994.

(*3*) Rule 64, amended June 14, 1994.

(*4*) Rule 54, amended on June 14, 1994.

(K) Santa Barbara County Air Pollution Control District.

(*1*) Rule 354, adopted June 28, 1994.

(*2*) Rule 359, adopted on June 28, 1994.

(199) New and amended regulations for the following APCDs were submitted on September 28, 1994 by the Governor's designee.

(i) *Incorporation by reference*. (A) Bay Area Air Quality Management District.

(*1*) Regulation 8, Rules 11 and 16 adopted on June 15, 1994, and Regulation 8, Rule 28 adopted on June 1, 1994.

(*2*) Regulation 8, Rules 14 and 43 adopted on June 1, 1994, and regulation 8, Rules 13, 23, 47 adopted on June 15, 1994.

(*3*) Rules 8–25 and 8–42, adopted on June 1, 1994 and Rule 8–50, adopted on June 15, 1994.

(*4*) Rule 8–22, adopted on June 1, 1994.

(*5*) Rules 8–29, 8–33, and 8–39, adopted on June 1, 1994, and Rules 8–19 and 8–38, adopted on June 15, 1994.

(*6*) Rules 8–4, 8–7, 8–15, 8–31, and 8–41 adopted on June 1, 1994. Rules 8–1, 8–2, 8–12, 8–20, 8–24, 8–30, 8–34, 8–35, and 8–40 adopted on June 15, 1994. Rule 8–32 adopted on July 6, 1994.

(*7*) [Reserved]

(*8*) Regulation 2, Rule 2 and Rule 4 adopted on June 15, 1994.

(*9*) Previously approved on January 26, 1999 in paragraph (c)(199)(i)(A)(*8*) of this section and now deleted with replacement in (c)(429)(i)(E)(*2*), Regulation 2, Rule 2 adopted on June 15, 1994.

(*10*) Previously approved on January 26, 1999 in paragraph (c)(199)(i)(A)(*8*) of this section and now deleted with replacement in (c)(429)(i)(E)(*3*), Regulation 2, Rule 4 adopted on June 15, 1994.

(B) San Luis Obispo County Air Pollution Control District.

(*1*) Rule 419, adopted July 12, 1994.

(C) Monterey Bay Unified Air Pollution Control District.

(*1*) Rules 433 and 434, adopted June 15, 1994.

(D) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4352, adopted on September 14, 1994.

(*2*) Rule 4354, adopted on September 14, 1994.

(*3*) Rules 6010, 6020, 6040, 6050, 6060, 6070, 6080, 6081, 6090, 6100, 6110, 6120, 6130, 6140, and 6150 were adopted on May 21, 1992; amended on December 17, 1992.

(*4*) Rule 4301, adopted on May 21, 1992, as amended on December 17, 1992.

(*5*) Rule 1010 adopted on June 18, 1992 and Rule 1130 adopted on June 18, 1992 and amended on December 17, 1992.

(*6*) Rules 1110, 1140, 1150, 2010, and 2040 amended on December 17, 1992.

(*7*) Rule 4202, adopted on December 17, 1992.

(*8*) Rule 1080, originally adopted on June 18, 1992 and amended on December 17, 1992.

(*9*) Previously approved on June 3, 1999 in paragraph (c)(199)(i)(D)(*6*) of this section and now deleted without replacement Rule 2040.

(*10*) Rules 1040, 1050, 1070 and 1090 adopted on June 18,1992 and amended on December 17, 1992.

(E) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.34, adopted on July 13, 1994.

(*2*) Rule 2.32 adopted on August 10, 1994.

(*3*) Previously approved on September 3, 1998, in paragraph (c)(199)(i)(E)(*1*) of this section and now deleted with replacement in paragraph (c)(463)(i)(B)(*3*) of this section, Rule 2.34, ''Stationary Gas Turbines,'' adopted on July 13, 1994.

(200) Program elements were submitted on November 13, 1992 by the Governor's designee.

(i) *Incorporation by reference.* (A) Small Business Stationary Source Technical and Environmental Compliance Assistance Program, adopted on October 15, 1992.

(201) A plan for the following agency was submitted on November 7, 1994 by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) California's Opt-out Program, Executive Order G–125–145, dated November 7, 1994.

(202) New and amended regulations for the following APCDs were submitted on October 19, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Rule 2–1–249, adopted on June 15, 1994.

(*2*) Previously approved on April 3, 1995 in paragraph (c)(202)(i)(A)(*1*) of this section and now deleted with replacement in (c)(429)(i)(E)(*1*), Rule 2–1–249, adopted on June 15, 1994.

(B) Kern County Air Pollution Control District.

(*1*) Rule 425.3, adopted on October 13, 1994.

(*2*) Rule 425.1 adopted on October 13, 1994.

(C) San Diego County Air Pollution Control District. (*1*) Rule 67.4, adopted on September 27, 1994.

(*2*) Rule 67.16, adopted on September 20, 1994.

(*3*) Rule 69.2, adopted on September 27, 1994.

(*4*) Rule 68, adopted on September 20, 1994.

(*5*) Rule 69.4, adopted on September 27, 1994.

(*6*) Rule 69.3, adopted on September 27, 1994.

(D) Mojave Desert Air Quality Management District.

(*1*) Rule 464, adopted August 24, 1994.

(E) Placer County Air Pollution Control District.

(*1*) Rule 250, adopted on October 17, 1994.

(*2*) Rule 233, adopted on October 6, 1994.

(*3*) Previously approved on August 23, 1995, in paragraph (c)(202)(i)(E)(*1*) of this section, and now deleted with replacement in (c)(474)(i)(A)(*1*), Rule 250, ''Stationary Gas Turbines,'' adopted on October 17, 1994.

(F) Yolo-Solano Air Quality Management District.

(*1*) Rule 3.1, adopted on February 23, 1994.

(*2*) Previously approved on July 7, 1997 in paragraph (c)(202)(i)(F)(*1*) of this section and now deleted without replacement Rule 3.1, paragraphs 403 and 406.

(203) New and amended regulations for the following APCDs were submitted on October 20, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) El Dorado County Air Pollution Control District.

(*1*) Rule 233 adopted on October 18, 1994.

(*2*) Rule 229 adopted on September 27, 1994.

(204) New and amended plans and regulations for the following agencies were submitted on November 15, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) Title 17, California Code of Regulations, Subchapter 8.5, Consumer Products, Article 1, Antiperspirants and Deodorants, Sections 94500–94506.5 and Article 2, Consumer Products, Sections 94507–94517, adopted on December 27, 1990, August 14, 1991, and September 21, 1992.

(*2*) Title 13, California Code of Regulations, Diesel Fuel Regulations, Sections 2281–2282, adopted on August 22, 1989, June 21, 1990, April 15, 1991, October 15, 1993, and August 24, 1994.

(*3*) Title 13, California Code of Regulations, Reformulated Gasoline Regulations, Sections 2250, 2252, 2253.4, 2254, 2257, 2260, 2261, 2262.1, 2262.2, 2262.3, 2262.4, 2262.5, 2262.6, 2262.7, 2263, 2264, 2266–2272, and 2296, 2297, adopted on April 1, 1991, May 23, 1991, and September 18, 1992.

(*4*) Long Term Measures, Improved Control Technology for Light-Duty Vehicles (Measure M2), Off-Road Industrial Equipment (Diesel), Consumer Products Long-Term Program (Measure CP4), and Additional Measures (Possible Market-Incentive Measures

and Possible Operational Measures Applicable to Heavy-Duty Vehicles), as contained in ''The California State Implementation Plan for Ozone, Volume II: The Air Resources Board's Mobile Source and Consumer Products Elements,'' adopted on November 15, 1994.

(*5*) Mid-Term Measures, Accelerated Ultra-Low Emission Vehicle (ULEV) requirement for Medium-Duty Vehicles (Measure M3), Heavy-Duty Vehicles NO_X regulations (Measure M5), Heavy-Duty Gasoline Vehicles lower emission standards (Measure M8), Industrial Equipment, Gas & LPG—3-way catalyst technology (Measure M11), Mid-Term Consumer Products (Measure CP–2), as contained in The California State Implementation Plan for Ozone, Volume II: The Air Resources Board's Mobile Source and Consumer Products Elements, adopted on Nov. 15, 1994.

(*6*) State control measures: Accelerated Retirement of LDV's (Measure M1), Early Introduction of 2g/bhp-hr Heavy Duty Diesel Vehicles (Measure M4), Accelerated Retirement of Heavy-Duty Vehicles (Measure M7), Aerosol Paints (Measure CP3), and California Department of Pesticide Regulation's Pesticide Plan, as contained in ''The California State Implementation Plan for Ozone, Volume II: The Air Resources Board's Mobile Source and Consumer Products Elements,'' adopted on November 15, 1994, and tables of local agency control measures and revisions to local Rate-of-Progress plan elements as contained in ''The California State Implementation Plan for Ozone, Volume IV: ''Local Plans,'' adopted on November 15, 1994.

(*7*) Previously approved on August 21, 1995, in paragraph (c)(204)(i)(A)(*3*) of this section, and now deleted without replacement: Title 13, California Code of Regulations, Reformulated Gasoline Regulations, sections 2262.1, 2262.2, and 2262.7.

(B) South Coast Air Quality Management District.

(*1*) Long Term Measures, Advance Technology for Coating Technologies (Measure ADV–CTS–01), Advance Technology for Fugitives (Measure ADV–FUG), Advance Technologies for Process Related Emissions (Measure ADV–PRC), Advance Technologies for Unspecified Stationary Sources (Measure ADV–UNSP), and Advance Technology for Coating Technologies (Measure ADV–CTS–02), as contained in the ''1994 Air Quality Management Plan,'' adopted on September 9, 1994.

(*2*) Control measures, emissions inventory, modeling, and ozone attainment demonstration, as contained in ''1994 Air Quality Management Plan,'' adopted on September 9, 1994.

(C) San Diego Air Pollution Control District.

(*1*) Emissions inventory, 15% Rate-of-Progress plan, Post-1996 Rate-of-Progress plan, modeling, and ozone attainment demonstration, as contained in ''1994 Ozone Attainment and Rate-of-Progress Plans for San Diego County,'' adopted on November 1, 1994.

(D) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Control measures, emissions inventory, 15% Rate-of-Progress plan, Post-1996 Rate-of-Progress plan, modeling, and ozone attainment demonstration, as contained in ''San Joaquin Valley Attainment and Rate-of-Progress Plans,'' adopted on November 14, 1994.

(E) Ventura County Air Pollution Control District.

(*1*) Control measures, emissions inventory, 15% Rate-of-Progress plan, Post-1996 Rate-of-Progress plan, modeling, and ozone attainment demonstration, as contained in ''1994 Air Quality Management Plan for Ventura County,'' adopted on November 8, 1994.

(F) Mojave Desert Air Quality Management District.

(*1*) Control measures, emissions inventory, modeling, and ozone attainment demonstration, as contained in ''Rate-of-Progress and Attainment Demonstration Plans for the Mojave Desert,'' adopted on October 26, 1994.

(205) New and amended plans for the following APCDs were submitted on December 28, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) Emissions inventory, 15% Rate-of-Progress plan, Post-1996 Rate-of-Progress plan, modeling, and ozone attainment demonstration, as contained in the ''Rate-of-Progress and Attainment Demonstration Plans for the

Kern County Air Pollution Control District,'' adopted on December 1, 1994.

(*2*) [Reserved]

(B) Bay Area Air Quality Management District.

(*1*) Amendments to the San Francisco Bay Area Redesignation Request and Maintenance Plan for the National Ozone Standard and 1990 Emissions Inventory adopted on September 7, 1994 by the Bay Area Air Quality Management District, October 5, 1994 by the Metropolitan Transportation Commission, and August 24, 1994 by the Association of Bay Area Governments.

(*2*) Federal General Conformity Regulation, adopted on September 7, 1994.

(ii) [Reserved]

(206) Amended rule for the following APCD was submitted on November 23, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Diego County Air Pollution Control District.

(*1*) Rule 67.3, adopted on November 1, 1994.

(*2*) [Reserved]

(ii) [Reserved]

(207) New and amended regulations for the following APCDs were submitted on November 30, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Placer County Air Pollution Control District.

(*1*) Rule 223, adopted on October 6, 1994.

(*2*) Rules 101, 102, 103, 201, 202, 203, 204, 208, 209, 210, 211, 213, 214, 217, 219, 220, 221, 222, 225, 226, 228, 406, 407, and 408, adopted on October 19, 1993; deletion of 104 for Lake Tahoe Air Basin and Mountain Counties Air Basin submitted on 08/21/ 79 and 10/15/79, respectively.

(B) El Dorado County Air Pollution Control District.

(*1*) Rule 224, adopted on September 27, 1994.

(*2*) Rule 231, adopted September 27, 1994.

(*3*) Rule 215, adopted on September 27, 1994.

(*4*) Rules 225 and 230 adopted September 27, 1994.

(*5*) Rule 502, adopted on November 8, 1994.

(C) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.21, adopted on March 23, 1994.

(*2*) Rule 2.28, adopted on May 25, 1994.

(*3*) Rules 2.25 and 2.33, adopted April 27, 1994 and September 14, 1994, respectively.

(*4*) Rule 2.13 adopted May 25, 1994.

(*5*) Rule 2.35, adopted on September 14, 1994.

(*6*) Rule 2.29, adopted on May 25, 1994.

(*7*) Rule 2.31, adopted on April 27, 1994.

(*8*) Rule 2.23 adopted on March 23, 1994.

(D) Mojave Desert Air Quality Management District.

(*1*) Rule 1102, adopted October 26, 1994.

(*2*) Rule 1104 adopted September 28, 1994.

(*3*) Rule 1157 and Rule 1160, adopted on October 26, 1994.

(*4*) Previously approved on April 30, 1996 in paragraph (c)(207)(i)(D)(*2*) of this section and now deleted with replacement in paragraph (c)(519)(i)(A)(*1*) of this section, Rule 1104, adopted on September 28, 1994.

(E) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 419, adopted on November 23, 1994.

(*2*) Appendix G General Conformity, adopted on October 19, 1994.

(F) Great Basin Unified Air Pollution Control District.

(*1*) Regulation XIII, adopted on October 5, 1994.

(G) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 9110, adopted on October 20, 1994.

(H) Santa Barbara County Air Pollution Control District.

(*1*) Rule 702, adopted on October 20, 1994.

(I) South Coast Air Quality Management District.

(*1*) Rule 1901, adopted on September 9, 1994.

(208) New and amended regulations for the following APCDs were submitted on December 19, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Placer County Air Pollution Control District.

(*1*) Rule 410, adopted on November 3, 1994.

(*2*) Rule 212, adopted on November 3, 1994.

(209) Redesignation Request and Ozone Maintenance Plan for the redesignation of the Monterey Bay Unified Air Pollution Control District submitted on July 14, 1994 and November 14, 1994, respectively, by the Governor's designee.

(i) *Incorporation by reference.* (A) Maintenance Plan for the redesignation of the Monterey Bay Area adopted on October 19, 1994 by the Monterey Bay Unified Air Pollution Control District, October 12, 1994 by the Association of Monterey Bay Area Governments, and October 6, 1994 by the Council of San Benito County Governments.

(210) New and amended regulations for the following APCDs were submitted on December 22, 1994 by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Rule 8–45, adopted on November 2, 1994.

(B) San Diego County Air Pollution Control District.

(*1*) Rule 67.18, adopted on December 13, 1994.

(C) Mojave Desert Air Quality Management District.

(*1*) Rule 1103, adopted on December 21, 1994.

(*2*) Rule 471, adopted on December 21, 1994.

(D) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 1002, adopted on November 23, 1994.

(E) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4651, adopted on December 17, 1992.

(F) Feather River Air Quality Management District.

(*1*) Rule 10.4, adopted on November 7, 1994.

(G) Placer County Air Pollution Control District.

(*1*) Rule 508, adopted on November 3, 1994.

(H) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 104, adopted on November 3, 1994.

(211) Revised Clean Air Plans for ozone for the following APCDs submitted on November 14, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara Air Pollution Control District

(*1*) TCM–5, Improve Commuter Public Transit Service, adopted on November 2, 1994

(*2*) Emissions inventory, 15% Rate-of-Progress plan, and control measures, as contained in ''1994 Clean Air Plan for Santa Barbara County,'' adopted on November 2, 1994.

(212) Ozone redesignation request for the Bay Area Air Quality Management District submitted on November 5, 1993, by the Governor's designee.

(i) *Incorporation by reference.* (A) Redesignation request for the San Francisco Bay Area and the Ozone Maintenance Plan for the National Ozone Standard adopted on September 1, 1993 by the Bay Area Air Quality Management District, September 22, 1993 by the Metropolitan Transportation Commission, and September 16, 1993 by the Association of Bay Area Governments.

(213) California Statewide emission inventory submitted on March 30, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) 1990 Base-Year Emission Inventory for Ozone Nonattainment Areas in California.

(*i*) Sacramento, San Diego, San Joaquin Valley, South Coast, Southeast desert, Ventura.

(*ii*) Santa Barbara.

(*iii*) Monterey Bay Area.

(214) New and amended regulations for the following APCDs were submitted on January 24, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1151, adopted on December 9, 1994.

(B) San Diego County Air Pollution Control District.

(*1*) Rule 61.1 adopted on January 10, 1995.

(C) Santa Barbara County Air Pollution Control District.

(*1*) Rule 337, adopted October 20, 1994.

(*2*) Rule 344, adopted on November 10, 1994.

(*3*) Rule 337, ''Surface Coating of Aerospace Vehicles and Components,'' revised on June 21, 2012.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 74.15, adopted on November 8, 1994.

(*2*) Rule 74.26 and Rule 74.27, adopted on November 8, 1994.

(E) Placer County Air Pollution Control District.

(*1*) Rule 215, adopted on November 3, 1994.

(215) New and amended regulations for the following APCDs were submitted on February 24, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rules 1125 and 1126, adopted on January 13, 1995.

(*2*) Rule 1153 adopted on January 13, 1995.

(*3*) Rule 1106, adopted on January 13, 1995.

(*4*) Rule 1164, adopted on January 13, 1995.

(*5*) Rule 1124, adopted January 13, 1995.

(*6*) Previously approved on July 14, 1995 and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District Rule 1106.

(*7*) Previously approved on June 13, 1995 in paragraph (c)(215)(i)(A)(*1*) of this section and now deleted without replacement for implementation in the Antelope Valley Air Quality Management District Rules 1125 and 1126.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 74.12 adopted on January 10, 1995.

(*2*) Rule 71 and Rule 71.5, adopted on December 13, 1994.

(*3*) Rule 74.18 adopted December 13, 1994.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4403, adopted on February 16, 1995.

(D) Yolo-Solano Air Pollution Control District.

(*1*) Rule 2.26 adopted November 9, 1994.

(*2*) Rule 2.37 adopted on November 9, 1994.

(E) Imperial County Air Pollution Control District.

(*1*) Rule 925, adopted on November 29, 1994.

(F) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 421 adopted on December 21, 1994.

(G) Shasta County Air Quality Management District.

(*1*) Rule 3:8, ''Enhanced Monitoring and Compliance Certification for Major Sources as Defined by Title V of the Federal Clean Air Act,'' adopted on January 3, 1995.

(216) New and amended regulations for the following APCDs were submitted on March 31, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) Mojave Desert Air Quality Management District.

(*1*) Rule 1116, adopted on February 22, 1995.

(*2*) Rule 221, adopted December 21, 1994.

(*3*) Rule 1159, adopted on February 22, 1995.

(*4*) Rule 1114 adopted February 22, 1995.

(B) Bay Area Air Quality Management District.

(*1*) Amended Regulation 2, Rule 1, Section 129 adopted on February 1, 1995; Amended Regulation 2, Rule 6, Sections 232, 234, 310, 311, 403, 404, 420, 421, 422, 423 adopted on February 1, 1995.

(217) New and amended regulations for the following APCDs were submitted on February 28, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Amended Regulation 2, Rule 1, Sections 102, 129, 204, 213, 214, 215, 216, 217, 218, 219, 302, 408, 411 adopted November 3, 1993; and New Regulation 2, Rule 6, Sections 206, 207, 210, 212, 213, 214, 218, 222, 230, 231, 301, 311, 401, 402, 403, 404, 420, 421, 422, 602 adopted November 3, 1993.

(B) Lake County Air Pollution Control District.

(1) New Regulation 12, section 12.200 (a4), (c2), (d1), (d2), (d3), (e3), (f1), (f2), (m1), (o1), (p1), (p2), (s3), and sections 12.800–12.850, adopted October 19, 1993.

(C) South Coast Air Quality Management District.

(*1*) Rules 204, 206, and 210 amended on October 8, 1993.

(218) New and amended regulations for the Bay Area Air Quality Management District were submitted on April 29, 1994 by the Governor's designee.

(i) *Incorporation by reference.* (A) New Regulation 2, Rule 6, Sections 310 and 423 adopted November 3, 1993.

(219) New and amended regulations for the following APCDs were submitted on April 13, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Rule 339, adopted December 15, 1994.

(220) New and amended regulations for the following APCDs were submitted on May 24, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Rule 323, adopted March 16, 1995.

(B) Placer County Air Pollution Control District.

(*1*) Rule 218, adopted on February 9, 1995.

(*2*) Rule 236 adopted on February 9, 1995.

(*3*) Rule 244, adopted on February 9, 1995.

(C) South Coast Air Quality Management District.

(*1*) Rule 1121, adopted on March 10, 1995.

(D) San Diego County Air Pollution Control District.

(*1*) Rule 1501, adopted on March 7, 1995.

(E) Ventura County Air Pollution Control District.

(*1*) Rule 34 adopted on March 14, 1995.

(221) New and amended regulations for the following APCDs were submitted on May 25, 1995 by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) Rule 411 and Rule 413, adopted on April 6, 1995.

(*2*) Rule 410.4, adopted on April 6, 1995.

(*3*) Rule 425.2, adopted on April 6, 1995.

(B) Butte County Air Quality Management District.

(*1*) Rule 1103, adopted on February 16, 1995.

(222) New and amended regulations for the following APCDs were submitted on June 16, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rules 1107, 1115, and 1171 adopted on May 12, 1995.

(*2*) Previously approved on July 14, 1995 and now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District Rule 1115.

(B) El Dorado County Air Pollution Control District.

(*1*) Rule 234, adopted on April 25, 1995.

(C) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 411, adopted on February 2, 1995.

(*2*) Rule 413, adopted on April 6, 1995.

(*3*) Rule 412, adopted on June 1, 1995.

(D) San Diego County Air Pollution Control District.

(*1*) Rule 67.24, adopted on March 7, 1995.

(E) Butte County Air Quality Management District.

(*1*) Rule 403, adopted on November 9, 1993.

(*2*) Previously approved on May 2, 2001 in paragraph (c)(222)(i)(E)(*1*) of this section and now deleted with replacement in paragraph (c)(457)(i)(C)(*2*): Rule 403 ''Permit to Operate.''

(F) Imperial County Air Pollution Control District.

(*1*) Rule 910, ''Enhanced Monitoring,'' adopted March 21, 1995.

(223) Revised ozone transportation control measure (TCM) for the San Joaquin Valley submitted on March 2, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) Railroad Grade Separations TCM, adopted on September 14, 1994.

(224) New and amended regulations for the following APCDs were submitted on August 10, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 448 and rule 449, adopted on February 2, 1995.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 70, adopted on May 9, 1995.

(*2*) Rule 220, adopted on May 9, 1995.

(*3*) Rule 74.5.2, adopted on May 5, 1995.

(C) Mojave Desert Air Quality Management District.

(*1*) Rules 1400, 1401, 1402, 1404. Adopted on June 28, 1995.

(*2*) Rule 103 amended on June 28, 1995.

(D) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 436, adopted on May 17, 1995.

(E) Santa Barbara County Air Pollution Control District.

(*1*) Amended Rule 370 adopted on June 15, 1995.

(225) New and amended regulations for the following APCDs were submitted on October 13, 1995 by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rules 1130 and 1136 adopted September 8, 1995.

(*2*) Rule 462, revised on June 9, 1995.

(*3*) Rule 1166, adopted on July 14, 1995.

(*4*) Rule 1149, adopted on December 4, 1987 and amended on July 14, 1995.

(B) Placer County Air Pollution Control District.

(*1*) Rule 238, adopted June 8, 1995.

(*2*) Rule 212, adopted on June 8, 1995.

(*3*) Rule 239, revised June 8, 1995.

(*4*) Rule 235, adopted on June 8, 1995.

(*5*) Rule 216 adopted on June 8, 1995.

(C) El Dorado County Air Pollution Control District.

(*1*) Rules 236 and 237, adopted on July 25, 1995 and June 27, 1995, respectively.

(*2*) Rule 235 adopted on June 27, 1995.

(*3*) Rule 520 adopted on June 27, 1995.

(D) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4602, adopted June 15, 1995.

(E) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 431, adopted on August 16, 1995.

(F) Santa Barbara County Air Pollution Control District.

(*1*) Rule 330, adopted on April 21, 1995.

(G) Ventura County Air Pollution Control District.

(*1*) Rule 74.15.1 revised on June 13, 1995.

(*2*) Rules 10, 11, 12, 13, 14, 15 and 16 adopted on June 13, 1995.

(H) Mohave Desert Air Quality Management District.

(*1*) Rule 222, adopted on July 31, 1995.

(226) Air Quality Management Plan for the following APCD was submitted on September 11, 1991, by the Governor's designee.

(i) *Incorporation by reference.* (A) Great Basin Unified Air Pollution Control District.

(*1*) Air Quality Management Plan for the Mammoth Lakes PM–10 Planning Area adopted December 12, 1990.

(227) New regulation for the following APCD was submitted on October 18, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 2530, adopted on June 15, 1995.

(228) Air Quality Management Plans for the following APCD were submitted on January 9, 1992, by the Governor's designee.

(i) *Incorporation by reference.* (A) Great Basin Unified Air Pollution Control District.

(*1*) Revisions to the Air Quality Management Plan for Mammoth Lakes PM–10 Planning Area adopted November 6, 1991.

(*i*) Rule 431 adopted November 6, 1991.

(*ii*) Town of Mammoth Lakes Municipal Code Chapter 8.30 dated October 2, 1991.

(*iii*) Previously approved on October 2, 1991 in paragraph (c)(228)(i)(A)(*1*)(*ii*) of this section and now deleted with replacement in paragraph (c)(457)(i)(I)(*2*) of this section, Town of Mammoth Lakes Municipal Code Chapter 8.30 dated October 2, 1991.

(229) New and amended regulations for the following APCDs were submitted on January 31, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 461, adopted on September 8, 1995.

(*2*) Rule 701, adopted on September 9, 1995.

(230) New and amended regulations for the following APCDs were submitted on March 26, 1996, by the Governors designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Rule 74.7, adopted on October 10, 1995.

(*2*) Rule 74.23, adopted on October 10, 1995.

(*3*) Rule 74.29, adopted on October 10, 1995.

(B) South Coast Air Quality Management District.

(*1*) Rule 1134, adopted on December 7, 1995.

(*2*) Rule 102 amended on November 17, 1995.

(C) Kern County Air Pollution Control District.

(*1*) Rule 427, adopted on January 25, 1996.

(*2*) Rule 427 adopted on July 2, 1998.

(D) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4352, amended on October 19, 1995.

(*2*) Rule 4304 adopted on October 19, 1995.

(*3*) Rule 4351 adopted on October 19, 1995.

(E) Butte County Air Quality Management District.

(*1*) Rule 422, adopted on September 18, 1990.

(*2*) Previously approved on May 2, 2001 in paragraph (c)(230)(i)(E)(*1*) of this section and now deleted without replacement Rule 422.

(231) New and amended regulations for the following APCDs were submitted on May 10, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Unified APCD.

(*1*) Rules 207 and 215, adopted on March 20, 1996.

(B) Kern County Air Pollution Control District.

(*1*) Rule 102 and Rule 410.3, adopted on March 7, 1996.

(*2*) Rule 410.1, Rule 410.5, Rule 411, and Rule 414.5 amended on March 7, 1996.

(*3*) Rule 414, adopted on March 7, 1996.

(*4*) Rule 410.4A, adopted on May 6, 1991 and amended on March 7, 1996 and Rule 410.7, adopted on June 29, 1981 and amended on March 7, 1996.

(*5*) [Reserved]

(*6*) Rule 410.4, adopted on June 26, 1979 and amended on March 7, 1996.

(*7*) Rules 413 adopted on April 18, 1972 and Rule 414.1 adopted on January 9, 1979, both amended on March 7, 1996.

(*8*) Previously approved on January 13, 2000, in paragraph (c)(231)(i)(B)(*6*) of this section and now deleted with replacement in paragraph (c)(447)(i)(D)(*2*) of this section, Rule 410.4, ''Surface Coating of Metal Parts and Products,'' amended on March 7, 1996.

(*9*) Previously approved on November 13, 1998 in paragraph (c)(231)(i)(B)(*4*) and now deleted with replacement in (c)(447)(i)(D)(*5*) Rule 410.4A amended on March 7, 1996.

(C) Mojave Desert Air Quality Management District.

(*1*) Rule 2002, adopted on October 26, 1994.

(D) Butte County Air Quality Management District.

(*1*) Rule 1105, adopted on February 15, 1996.

(E) Great Basin Unified Air Pollution Control District.

(*1*) Rules 218 and 219, adopted on December 4, 1995.

(232) New regulations for the following APCD were submitted on March 21, 1994, by the Governor's designee:

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Regulation XX, adopted October 15, 1993.

(*2*) Previously approved on November 8, 1996 now deleted without replacement for implementation in the Antelope Valley Air Pollution Control District, Regulation XX.

(233) New and amended plans for the following agencies were submitted on December 29, 1994, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) 15% Rate-of-Progress plan and Post-1996 Rate-of-Progress plan for the Los Angeles-South Coast Air Basin Area, as contained in the ''Rate-of-Progress Plan Revision: South Coast Air Basin & Antelope Valley & Coachella/San Jacinto Planning Area,'' adopted on December 9, 1994.

(B) Sacramento Metropolitan Air Quality Management District.

(*1*) Emissions inventory, Post-1996 Rate-of-Progress plan, modeling, and

ozone attainment demonstration, as contained in ''Sacramento Area Attainment and Rate-of-Progress Plans,'' adopted by Sacramento Metropolitan Air Quality Management District on December 1, 1994; by Feather River Air Quality Management District on December 12, 1994; by El Dorado County Air Pollution Control District on December 13, 1994; by Yolo-Solano Air Pollution Control District on December 14, 1994; and by Placer County Air Pollution Control District on December 20, 1994.

(234) The California Vehicle Inspection and Maintenance Program was submitted on January 22, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) Motor Vehicle Inspection and Maintenance Program adopted on January 22, 1996.

(*i*) Health and Safety Code: Division 26, Part 5 § 39032.5; Chapter 5. Motor Vehicle Inspection Program, Article 1, Article 2, Article 3, Article 4, Article 5, Article 6, Article 7, Article 8, Article 9.

(*ii*) Business and Professions Code, Chapter 20.3, Automotive Repair, Article 4, § 9886, § 9886.1, § 9886.2, § 9886.4.

(*iii*) Vehicle Code § 4000.1, § 4000.2, § 4000.3, § 4000.6.

(*iv*) Title 16, California Code or Regulations, Division 33, Bureau of Automotive Repair, Article 5.5, Motor Vehicle Inspection Program, § 3340.1, § 3340.5, § 3340.6, § 3340.10, § 3340.15, § 3340.16, § 3340.16.5, § 3340.16.6, § 3340.17, § 3340.18, § 3340.22, § 3340.22.1, § 3340.22.2, § 3340.22.3, § 3340.23, § 3340.24, § 3340.28, § 3340.29, § 3340.30, § 3340.31, § 3340.32, § 3340.32.1, § 3340.33, § 3340.33.1, § 3340.35, § 3340.35, § 3340.36, § 3340.41, § 3340.41.3, § 3340.41.5, § 3340.42, § 3340.42.1., § 3340.50, § 3340.50.1, § 3340.50.3, § 3340.50.4, § 3340.50.5.

(*2*) Previously approved on January 8, 1997, in paragraph (234)(i)(A)(*1*)(*i*) of this section, and now deleted without replacement: Health and Safety Code: Division 26, Part 5, Chapter 5 (Motor Vehicle Inspection Program), Article 1, sections 44001.6, 44001.7, 44003.1, 44006; Article 2, sections 44015.3, 44022, 44023; Article 3, section 44031; Article 8, sections 44081.5, 44082, 44083.

(*3*) Previously approved on January 8, 1997, in paragraph (234)(i)(A)(*1*)(*iv*) of this section, and now deleted without replacement: Title 16, California Code of Regulations, Division 33, Bureau of Automotive Repair, Article 5.5, Motor Vehicle Inspection Program, sections 3340.16.6, 3340.42.1.

(235) New and amended regulations for the following APCD were submitted on December 10, 1993, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4901, adopted on July 15, 1993.

(236) New and amended plans for the following agencies were submitted on June 13, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) Letter dated June 13, 1996, from James D. Boyd to David Howekamp, including ''Corrections to State and Local Measures'' (Attachment A) and ''Summary Emission Reduction Spreadsheets'' (Attachment C).

(237) New and amended plans for the following agencies were submitted on July 10, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Revised rule adoption schedule, adopted on April 12, 1996.

(238) New and amended plans for the following agencies were submitted on July 12, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) ''Revised Rule Adoption and Implementation Schedule'' (Table 4–2) and ''Architectural Coatings'' (Appendix E–95, Tables E–43 and E–45) contained in ''Ventura County 1995 Air Quality Management Plan Revision,'' adopted on December 19, 1995.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Post-1996 Rate-of-Progress plan, as contained in ''San Joaquin Valley Revised Post-1996 Rate-of-Progress Plans,'' adopted on September 20, 1995.

(239) New and amended regulations for the following APCDs were submitted on July 23, 1996, by the Governor's designee:

(i) *Incorporation by reference.* (A) Mojave Desert Air Quality Management District.

(*1*) Rules 1300–1306, adopted on March 25, 1996.

(*2*) Rule 1115, adopted on March 2, 1992, and amended on April 22, 1996.

(*3*) Previously approved on December 23, 1997 in paragraph (c)(239)(i)(A)(*2*) of this section and now deleted with replacement in paragraph (c)(518)(i)(A)(*2*) of this section, Rule 1115, adopted on March 2, 1992 and amended on April 22, 1996.

(B) South Coast Air Quality Management District.

(*1*) Rule 1128, adopted on May 4, 1979 and amended on March 8, 1996, and Rule 1130, adopted on October 3, 1980 and amended on March 8, 1996.

(C) Kern County Air Pollution Control District.

(*1*) Rules 101, 112, 113, 114, and 115 amended on May 2, 1996.

(*2*) Rules 108 and 108.1 adopted on May 2, 1996.

(*3*) Rule 201, adopted on April 18, 1972 and amended on May 2, 1996.

(*4*) Rules 202.1, 209.1, 210.2, and 210.5, adopted on December 15, 1980, April 5, 1982, December 28, 1976, and November 18, 1985, respectively, and amended on May 2, 1996.

(*5*) Rule 205, (a part of regulation II), ''Permit Renewal,'' adopted on April 18, 1972 and amended on May 2, 1996.

(*i*) Resolution of May 2, 1996.

(*6*) Rule 103.1, Inspection of Public Records,'' amended on May 2, 1996.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 2 amended on April 9, 1996.

(E) Bay Area Air Quality Management District.

(*1*) Rule 9–7 adopted on September 15, 1993, Rule 9–8 adopted on January 20, 1993, Rule 9–9 adopted on September 21, 1994, and Rule 9–12 adopted on January 19, 1994.

(*2*) Rule 8–4, Rule 8–11, Rule 8–12, Rule 8–13, Rule 8–14, Rule 8–19, Rule 8–20, Rule 8–23, Rule 8–29, Rule 8–31, Rule 8–32, Rule 8–38, Rule 8–43, Rule 8–45, Rule 8–50 amended on December 20, 1995.

(*3*) Rule 8–3, adopted on March 1, 1978, revised on December 20, 1995.

(*4*) Rule 9–11 amended November 15, 1995.

(*5*) Rule 8–26, adopted on May 7, 1980 and amended on December 20, 1995.

(*6*) Rule 9–10 adopted on January 5, 1994.

(*7*) Manual of Procedures, volume I, section 5, adopted on September 16, 1993.

(F) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rules 8010, 8020, 8030, 8040, 8060, and 8070 adopted on April 25, 1996.

(240) New and amended regulations for the following APCD were submitted on August 28, 1996 by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rules 212, 1301, 1302, 1309, 1309.1, 1310, and 1313, adopted on December 7, 1995, Rule 1303, adopted on May 10, 1996, and Rules 1304 and 1306, adopted on June 14, 1996.

(*2*) Rules 2000, 2001, 2002, 2004, 2006, 2007, 2011, 2011—Appendix A, 2012, 2012—Appendix A, and 2015 adopted on October 15, 1993 and amended on December 7, 1995.

(*3*) Rule 2012(j)(3)—Testing Guidelines (Protocol) for Alternative Nitrogen Oxides Emission Rate Determination at Process Units, dated March 31, 1994, adopted on December 7, 1995.

(*4*) Rule 2005 adopted on October 15, 1993 and amended on May 10, 1996.

(*5*) Rule 1136 adopted on September 16, 1983 and amended on June 14, 1996.

(241) New and amended regulations for the following APCD were submitted on October 18, 1996 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Diego County Air Pollution Control District.

(*1*) Rules 2, Definitions; 67.0, Architectural Coatings; 67.1, Alternative Emission Control Plans; 67.2, Dry Cleaning Equipment Using Petroleum-Based Solvents; 67.3, Metal Parts and Products Coating Operations; 67.5, Paper, Film, and Fabric Coating Operations; 67.7, Cutback and Emulsified Asphalts; 67.12, Polyester Resin Operations; 67.15, Pharmaceutical and Cosmetic Manufacturing Operations; 67.16, Graphic Arts Operations; 67.17, Storage

of Materials Containing Volatile Organic Compounds; 67.18, Marine Coating Operations; and 67.24, Bakery Ovens, adopted on May 15, 1996.

(*2*) Rule 67.4, revised on May 15, 1996.

(*3*) Rule 66, adopted on July 1, 1972, revised on July 25, 1995.

(*4*) Rule 19.3 adopted on May 15, 1996.

(*5*) Rule 67.19, adopted May 15, 1996.

(*6*) Rule 24, ''Temporary Permit to Operate,'' adopted on March 20, 1996.

(*7*) Previously approved on March 27, 1997 in paragraph (c)(241)(i)(A)(*1*) of this section and now deleted with replacement by Rule 67.12.1 in paragraph (c)(488)(i)(A)(*2*) of this section, Rule 67.12, ''Polyester Resin Operations,'' adopted on May 15, 1996.

(*8*) Previously approved on October 24, 2007 in paragraph (c)(241)(i)(A)(*6*) of this section, and now deleted with replacement in paragraph (c)(488)(i)(A)(*4*) of this section, Rule 24, ''Temporary Permit to Operate,'' adopted on March 20, 1996.

(B) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.27, revised on August 14, 1996.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 74.19.1, adopted on June 11, 1996.

(*2*) Rules 74.6.1, 74.6.2, and 74.6.3, adopted on July 9, 1996.

(*3*) Rule 23 adopted on July 9, 1996.

(D) Kern County Air Pollution Control District.

(*1*) Rules 416 and 417, adopted on April 18, 1972 and amended on July 11, 1996.

(242) New and amended regulations for the following APCDs were submitted on November 26, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) Mojave Desert AQMD.

(*1*) Rule 1118, adopted on October 28, 1996.

(*2*) Previously approved on August 17, 1998 in paragraph (c)(242)(i)(A)(*1*) of this section and now deleted with replacement in paragraph (c)(485)(B)(*1*), Rule 1118, adopted on October 28, 1996.

(B) South Coast Air Quality Management District.

(*1*) Rule 1113, adopted on September 2, 1977 and amended on November 8, 1996.

(*2*) Rule 1176, adopted on November 3, 1989 and amended on September 13, 1996.

(243) Transportation Air Quality Conformity Procedures and Transportation Conformity Consultation Procedures for the following AQMD were submitted on December 16, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) ''The San Francisco Bay Area Transportation Air Quality Conformity Procedures,'' which includes sections 93.100-93.104 and sections 93.106–93.136, adopted on November 6, 1996.

(*2*) ''The San Francisco Bay Area Transportation Air Quality Conformity Interagency Consultation Procedures,'' adopted on November 6, 1996.

(244) New and amended regulations for the following APCDs were submitted on March 3, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 101 revised on November 13, 1996.

(*2*) Rule 404, adopted on October 16, 1996.

(*3*) Rule 207, amended on December 18, 1996.

(*4*) Rule 434, adopted on December 18, 1996.

(*5*) Rule 426 revised December 18, 1996.

(B) San Diego County Air Pollution Control District.

(*1*) Amended Rule 10, adopted July 25, 1995.

(C) Mojave Desert Air Quality Management District.

(*1*) Rule 1114 adopted on March 2, 1992 and amended on November 25, 1996.

(*2*) Rule 403.1, ''Fugitive Dust Control for the Searles Valley Planning Area'', adopted on June 22, 1994 and amended on November 25, 1996.

(*3*) Previously approved on August 18, 1998 in (c)(244)(i)(C)(*1*) of this section and now deleted with replacement in (c)(518)(i)(A)(*1*) of this section, Rule 1114, amended on November 25, 1996.

(D) South Coast Air Quality Management District.

(*1*) Rule 1130.1, adopted on August 2, 1991 and amended on December 13, 1996.

(E) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 6030 adopted on May 21, 1992; amended on November 13, 1996.

(*2*) Rule 4305 adopted on December 19, 1996.

(F) Santa Barbara County Air Pollution Control District.

(*1*) Rule 323 revised July 18, 1996.

(G) Ventura County Air Pollution Control District.

(*1*) Rules 74.12, 74.13, 74.18, 74.19, 74.24, and 74.30, amended on September 10, 1996.

(*2*) Rule 74.20, revised on January 14, 1997.

(245) New and amended regulations for the following APCDs were submitted on March 26, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) Yolo-Solano Air Quality Management District.

(*1*) Rule 3.4, adopted on December 11, 1996.

(B) San Diego County Air Pollution Control District.

(*1*) Amended Rule 21, adopted November 29, 1994.

(C) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 430, amended on January 15, 1997.

(*2*) Previously approved on February 9, 1999 in (245)(i)(C)(*l*) and now deleted without replacement Rule 430.

(246) New and amended regulations for the following APCDs were submitted on October 28, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) Northern Sierra Air Quality Management District.

(*1*) Rules 101, 202, 203, 204, 206, 207, 208, 209, 210, 221, 222, 223, 225, 300, 301, 314, 315, and 317, adopted on September 11, 1991, Rule 102 adopted on May 11, 1994, Rule 313 adopted on June 10, 1992, and Rule 316 adopted on August 14, 1996.

(*2*) Rule 211, adopted on September 11, 1991.

(*3*) Previously approved on September 16, 1997 in paragraph (c)(246)(i)(A)(*1*) of this section and now deleted without replacement, Rule 223.

(*4*) Rule 505, ''Conditional Approval,'' Rule 510, ''Separation of Emissions,'' Rule 511, ''Combination of Emissions,'' Rule 512, ''Circumvention,'' Rule 515, ''Provision of Sampling and Testing Facilities,'' and Rule 517, ''Transfer,'' adopted on September 11, 1991.

(*5*) Rule 501, ''Permit Required'' and Rule 513, ''Source Recordkeeping,'' amended on May 11, 1994.

(*6*) Rules 212, ''Process Weight Table,'' and 213, ''Storage of Gasoline Products,'' adopted on September 11, 1991.

(247) New and amended plans for the following agency were submitted on February 5, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Carbon monoxide emissions inventory, VMT forecasts and commitments to monitor actual VMT levels and revise and replace the VMT projections as needed in the future, as contained in the South Coast 1997 Air Quality Management Plan.

(*2*) Nitrogen dioxide attainment plan and maintenance plan, as contained in the South Coast 1997 Air Quality Management Plan, adopted on November 15, 1996.

(*3*) Baseline and projected emissions inventories and ozone attainment demonstration, as contained in the South Coast 1997 Air Quality Management Plan for ozone.

(*4*) Baseline and projected emissions inventories, SCAQMD commitment to adopt and implement control measures, reasonable further progress, contingency measures, attainment demonstration, PM–10 attainment date extension request to December 31, 2006, as contained in the South Coast 1997 Air Quality Management Plan, with respect to PM–10.

(*5*) SCAQMD commitment to adopt and implement control measures, as contained in the Coachella Request for Redesignation and Maintenance Plan for PM–10.

(*6*) Appendix V, page V–5–4, Table 5–2—''Carbon Monoxide Emissions (tons/day) Projected from 1993 through 2000 for the South Coast Air Basin.''

(248) New and amended regulations for the following APCDs were submitted on August 1, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Diego County Air Pollution Control District

(*1*) Rule 67.10 adopted on June 25, 1997.

(*2*) Rule 67.9, adopted on April 30, 1997.

(*3*) Rules 52, 53, 54, amended on January 27, 1997.

(B) South Coast AQMD.

(*1*) Rule 1124, adopted on December 13, 1996.

(*2*) Rule 403, amended on February 14, 1997, and Rule 1186, adopted on February 14, 1997.

(*3*) Rule 1145, adopted on July 8, 1983 and amended on February 14, 1997.

(C) Placer County Air Pollution Control District.

(*1*) Rule 239, adopted on November 3, 1994 and amended on February 13, 1997.

(D) Mojave Desert Air Quality Management District.

(*1*) Rule 1157, amended May 19, 1997.

(E) Ventura County Air Pollution Control District.

(*1*) Rule 70 revised on May 13, 1997.

(F) Bay Area Air Quality Management District.

(*1*) Regulation 8, Rule 45, adopted on November 6, 1996.

(249) New and amended regulations for the following APCD's were submitted on September 8, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1122, adopted on March 2, 1979 and amended on July 11, 1997.

(*2*) Rule 701, amended on June 13, 1997.

(B) Kern County Air Pollution Control District.

(*1*) Rule 425.2 adopted on October 13, 1994 and amended on July 10, 1997.

(250) New regulations for the following APCD were submitted on October 31, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Rule 1301 adopted on September 18, 1997.

(251) New and amended plans for the following agency were submitted on November 5, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Commitments to adopt and implement control measures contained in the Ventura 1997 Air Quality Management Plan, adopted on October 21, 1997.

(252) Air Quality Management Plan for the following APCD was submitted on December 28, 1992, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Federal 1992 Air Quality Attainment Plan for Carbon Monoxide and Appendices adopted on November 18, 1992.

(253) Carbon Monoxide Redesignation Request and Maintenance Plan for ten federal planning areas submitted on July 3, 1996, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board. (*1*) Carbon Monoxide Redesignation Request and Maintenance Plan for the following areas: Bakersfield Metropolitan Area, Chico Urbanized Area, Fresno Urbanized Area, Lake Tahoe North Shore, Lake Tahoe South Shore, Modesto Urbanized Area, Sacramento Area, San Diego Area, San Francisco-Oakland-San Jose Area, and Stockton Urbanized Area adopted on April 26, 1996.

(254) New and amended regulations for the following APCDs were submitted on March 10, 1998, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District

(*1*) Rule 4401 adopted on January 15, 1998.

(*2*) Rule 4605, adopted on December 19, 1991 and amended on December 19, 1996.

(*3*) Rules 4602 and 4607, adopted on April 11, 1991 and amended on September 17, 1997.

(*4*) Rule 4661, adopted on December 17, 1992.

(*5*) Rule 4701 adopted on December 19, 1996, and Rule 4703 adopted on October 16, 1997.

(B) Northern Sonoma County Air Pollution Control District.

(*1*) Rule 130 amended on July 25, 1995.

(*2*) Previously approved on February 9, 1999 in paragraph (c)(254)(i)(B)(*1*) of this section and now deleted without replacement, Rule 130.

(C) Santa Barbara County Air Pollution Control District.

(*1*) Rule 102 amended on April 17, 1998.

(*2*) Rule 339, adopted on November 5, 1991 and revised on April 17, 1997.

(*3*) Rule 321, adopted on February 24, 1971 and revised on September 18, 1997.

(*4*) Rule 342 amended on April 17, 1997.

(*5*) Rule 316 revised on April 17, 1997.

(*6*) Rule 203, ''Transfer,'' revised April 17, 1997.

(*7*) Rule 204, ''Applications,'' revised April 17, 1997.

(*8*) Rule 205, ''Standards for Granting Permits,'' revision adopted April 17, 1997.

(*9*) Previously approved on February 9, 2016, in paragraph (c)(254)(i)(C)(*7*) of this section and now deleted with replacement in paragraph (c)(533)(i)(A)(*4*) of this section, Rule 204, ''Applications,'' revision adopted on August 25, 2016.

(D) South Coast Air Quality Management District.

(*1*) Rule 102 amended on June 13, 1997.

(*2*) Rule 1151, adopted on July 8, 1988 and amended on June 13, 1997, and Rule 1171, adopted on August 2, 1991 and amended on June 13, 1997.

(*3*) Rule 1302, amended December 7, 1995.

(*4*) Rule 1134 adopted on August 8, 1997.

(*5*) Rule 1138, adopted on November 14, 1997.

(E) Antelope Valley Air Pollution Control District.

(*1*) Resolution No. 97–01 dated July 1, 1997.

(*2*) Rules 101 and 102 amended on August 19, 1997 and Rule 103 amended on September 16, 1997.

(*3*) Rules 201, 203, 204, 205, and 217, adopted on January 9, 1976 and amended on August 19, 1997.

(F) Bay Area Air Quality Management District.

(*1*) Regulation 5, adopted on November 2, 1994.

(G) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 431, adopted on December 17, 1997.

(H) Mojave Desert Air Quality Management District.

(*1*) Rules 474, 475, and 476 adopted on August 25, 1997.

(*2*) Rule 1158, adopted on February 22, 1995 and amended on August 25, 1997.

(I) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 414, adopted August 1, 1996.

(J) Lake County Air Quality Management District.

(*1*) Rule 640, as amended on July 15, 1997; and Rule 1350, adopted on October 15, 1996.

(*2*) Sections (Rules) 433, adopted on July 15, 1997.

(K) Ventura County Air Pollution Control District.

(*1*) Rule 59, adopted on October 6, 1969 and amended on July 15, 1997.

(L) Great Basin Unified Air Pollution Control District.

(*1*) Rule 432, adopted on May 8, 1996.

(255) New and amended regulations for the following APCD's were submitted on May 18, 1998, by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 450, adopted on July 23, 1981 and amended on December 5, 1996, and Rule 459, adopted on December 7, 1995 and amended on October 2, 1997.

(*2*) Rules 101, 442, 443, 447, 452, 456, and 458, adopted on September 5, 1996.

(*3*) Rule 454, adopted on June 5, 1979 and amended on April 3, 1997.

(*4*) Rule 413, amended May 1, 1997.

(*5*) Rule 449, adopted on April 3, 1997.

(*6*) Rule 105, Emission Statement, adopted on April 20, 1993, and amended September 5, 1996.

(*7*) Previously approved on November 9, 1998, in paragraph (c)(255)(i)(A)(*2*) of this section and now deleted with replacement in paragraph (c)(474)(i)(B)(*1*) of this section, Rule 442, adopted on September 5, 1996.

(B) North Coast Unified Air Quality Management District.

(*1*) Rule 130 amended September 26, 1997.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 1020, amended December 18, 1997.

(D) Lake County Air Quality Management District.

(*1*) Rule 1002, as amended on March 19, 1996.

(*2*) Section (Rule) 439.5, adopted on July 15, 1997.

(E) Placer County Air Pollution Control District.

(*1*) Rule 102, adopted June 19, 1997.

(F) South Coast Air Quality Management District.

(*1*) Rule 1146.2, adopted on January 9, 1998.

(G) Ventura County Air Pollution Control District.

(*1*) Rules 26.1, 26.2, 26.3, 26.4, 26.5, 26.6 and 26.10 adopted on January 13, 1998.

(*2*) Previously approved on December 7, 2000, in paragraph (c)(255)(i)(G)(*1*) of this section and now deleted without replacement Rule 26.10.

(256) New and amended regulations for the following APCDs were submitted on June 23, 1998, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Regulation 1, revised on November 3, 1993.

(*2*) Rule 8–51, adopted on November 18, 1992 and amended on January 7, 1998.

(B) San Diego County Air Pollution Control District.

(*1*) Rule 50, adopted on August 13, 1997.

(C) Kern County Air Pollution Control District.

(*1*) Rule 410.3, adopted on June 26, 1979 and revised on May 7, 1998.

(*2*) Rule 409, adopted on April 18, 1972, as amended on May 7, 1998.

(D) Antelope Valley Air Pollution Control District.

(*1*) Rule 701 was amended on January 20, 1998.

(E) El Dorado County Pollution Control District .

(*1*) Rule 239 adopted on March 24, 1998.

(F) Ventura County Air Pollution Control District.

(*1*) Rule 74.10, adopted on September 29, 1981 and amended on March 10, 1998.

(G) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 447 amended on April 2, 1998.

(257) Plan revisions for the Coachella Valley Planning Area were submitted on February 16, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) Fugitive dust control ordinances for: City of Cathedral City Ordinance No. 377, adopted on February 18, 1993; City of Coachella Ordinance No. 715, adopted on October 6, 1993; City of Desert Hot Springs Ordinance No. 93–2, adopted on May 18, 1993; City of Indian Wells Ordinance No. 313, adopted on February 4, 1993; City of Indio Ordinance No. 1138, adopted on March 17, 1993; City of La Quinta Ordinance No. 219, adopted on December 15, 1992; City of Palm Desert Ordinance No. 701, adopted on January 14, 1993; City of Palm Springs Ordinance No. 1439, adopted on April 21, 1993; City of Rancho Mirage Ordinance No. 575, adopted on August 5, 1993; and County of Riverside Ordinance No. 742, adopted on January 4, 1994.

(258) New and amended regulations for the following APCD's were submitted on June 3, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 433, adopted on June 15, 1994 and revised on March 26, 1997.

(*2*) Rule 215, amended on March 26, 1997.

(*3*) Rule 425, adopted on March 26, 1997.

(259) New and amended regulations for the following APCDs were submitted on December 3, 1998, by the Governor's designee.

(i) *Incorporation by reference.* (A) Yolo-Solano Air Quality Management District.

(*1*) Rule 10.3, adopted on February 8, 1995.

(260) New and amended regulations for the following APCDs were submitted on October 27, 1998, by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 101, amended on September 3, 1998.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 2020 adopted on September 17, 1998.

(C) Kern County Air Pollution Control District.

(*1*) Rule 208, originally adopted on April 18, 1972, amended on September 17, 1998.

(261) New and amended regulations for the following APCDs were submitted on January 12, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 101, adopted November 12, 1998.

(262) New and amended regulations for the following APCDs were submitted on February 16, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Regulation 1, adopted on October 7, 1998.

(*2*) Previously approved on June 28, 1999 in paragraph (c)(262)(i)(A)(*1*) of this section and now deleted without replacement Regulation 1, Rules 402 and 402.1.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 2, adopted November 10, 1998.

(*2*) Rule 74.24.1, adopted on November 10, 1998.

(*3*) Rule 74.6, revised on November 10, 1998.

(C) South Coast Air Quality Management District.

(*1*) Rule 1107, adopted on June 1, 1979 and amended on August 14, 1998.

(*2*) Rule 1151, adopted on December 11, 1998.

(D) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4606 adopted on December 19, 1991 and amended on December 17, 1998.

(E) Antelope Valley Air Pollution Control District.

(*1*) Rule 1171, adopted on November 17, 1998.

(*2*) [Reserved]

(*3*) Rule 226, adopted on March 17, 1998 and amended on July 21, 1998.

(*4*) Previously approved on May 24, 2001 in paragraph (c)(262)(i)(E)(*1*) of this section and now deleted with replacement in (c)(521)(i)(A)(*1*) of this section, Rule 1171, adopted on November 17, 1998.

(263) New and amended regulations for the following APCDs were submitted on May 13, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1103, adopted on March 12, 1999.

(*2*) Rule 102 adopted on February 4, 1977 and amended on June 12, 1998.

(*3*) Rules 403 and 1186, amended on December 11, 1998.

(B) Santa Barbara County Air Pollution Control District.

(*1*) Rule 102 adopted on January 21, 1999.

(*2*) Rule 351 adopted on August 24, 1993 and amended on August 20, 1998.

(C) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 464, adopted on July 23, 1998.

(D) Tehama County Air Pollution Control District.

(*1*) Rule 4:31 adopted on March 14, 1995, Rule 4:34 adopted on June 3, 1997, and Rule 4.37 adopted on April 21, 1998.

(*2*) Rule 4.14 adopted on November 3, 1998.

(264) New and amended regulations for the following APCDs were submitted on June 3, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 462, adopted on May 14, 1999.

(*2*) Rule 1106.1, adopted on May 1, 1992, and amended on February 12, 1999.

(B) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.30, adopted on April 14, 1999.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 64, adopted on April 13, 1999.

(*2*) Rule 103 adopted on February 9, 1999.

(D) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 1002, adopted on April 21, 1999.

(265) New and amended plans for the following agencies were submitted on May 20, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) Executive Order G–99–037, dated May 20, 1999, State commitment to continue working with U.S. EPA and the affected parties to achieve the emission reductions identified in the SIP for federal measures, and to adopt by December 31, 2000, and submit as a SIP revision, a revised attainment demonstration for the federal one-hour ozone standard in the South Coast Air Basin, and adopt by December 31, 2001, control measures needed to achieve

any additional emission reductions which are determined to be appropriate for ARB; Attachment A, update to the 1994 ozone SIP for the South Coast.

(266) New and amended regulations for the following APCDs were submitted on September 29, 1998 by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1168, adopted on April 7, 1989, and amended February 13, 1998.

(*2*) Rule 431.1, adopted on November 4, 1997 and amended on June 12, 1998.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4653, adopted on March 19, 1998.

(*2*) Rule 4354, adopted on April 16, 1998.

(*3*) Rule 2201 adopted on August 20, 1998.

(*4*) Rule 4642, adopted on April 16, 1998.

(267) New plan for Owens Valley PM–10 Planning Area for the following agency was submitted on December 10, 1998 by the Governor's designee.

(i) *Incorporation by reference.* (A) Great Basin Unified APCD.

(1) Owens Valley PM–10 Planning Area Demonstration of Attainment State Implementation Plan, Section 7–4, Commitment to adopt 2003 SIP Revision and Section 8–2, the Board Order adopted on November 16, 1998 with Exhibit 1.

(268) New and amended regulations for the following agencies were submitted on July 23, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 2005 adopted on April 9, 1999.

(*2*) Rule 218, ''Continuous Emission Monitoring,'' amended on May 14, 1999.

(*3*) Rule 218.1, ''Continuous Emission Monitoring Performance Specification,'' adopted on May 14, 1999.

(B) Mojave Desert Air Quality Management District.

(*1*) Rule 1116 revised on April 26, 1999.

(C) Lake County Air Quality Management District.

(*1*) Section (Rule) 226.5, adopted on September 13, 1988.

(269) New and amended regulations for the following APCDs were submitted on September 7, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) Rule 102, adopted on April 18, 1972 and amended on July 1, 1999.

(B) San Diego County Air Pollution Control District.

(*1*) Rule 2, adopted on June 30, 1999.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 1020, adopted on June 18, 1992 and amended on June 17, 1999.

(*2*) Rule 4452 adopted on December 17, 1992.

(D) South Coast Air Quality Management District.

(*1*) Rule 102, adopted on February 4, 1997 and amended on April 9, 1999.

(270) New and amended regulations for the following APCDs were submitted on October 29, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Rule 37 adopted September 14, 1999.

(*2*) Previously approved on December 13, 1999 in paragraph (c)(270)(i)(A)(1) of this section and now deleted without replacement, Ventura County Rule 37.

(B) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 207, amended on September 15, 1999.

(C) South Coast Air Quality Management District.

(*1*) Amended Rule 465, adopted on August 13, 1999.

(*2*) Rule 1104 adopted on April 7, 1978 and amended on August 13, 1999.

(*3*) Rule 1158, adopted on June 11, 1999.

(D) Santa Barbara County Air Pollution Control District.

(*1*) Rule 353, adopted on August 19, 1999.

(E) Antelope Valley Air Pollution Control District.

(*1*) Rule 1151 adopted on July 20, 1999.

(*2*) Rule 2220, ''Transportation Outreach Program,'' adopted on January 19, 1999.

(271) New and amended regulations for the following agencies were submitted on August 22, 1997, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 2002 adopted on February 14, 1997.

(272) New and amended plan for the following agency was submitted on February 4, 2000, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) SCAQMD commitment to adopt and implement short- and intermediate-term control measures; SCAQMD commitment to adopt and implement long-term control measures; SCAQMD commitment to achieve overall emissions reductions for the years 1999–2008; SCAQMD commitment to implement those measures that had been adopted in regulatory form between November 1994 and September 1999; rate-of-progress plan for the 1999, 2002, 2005, 2008, and 2010 milestone years; amendment to the attainment demonstration in the 1997 Air Quality Management Plan for ozone; and motor vehicle emissions budgets for purposes of transportation conformity, as contained in the 1999 Amendment to the South Coast 1997 Air Quality Management Plan.

(*2*) SCAQMD commitment to adopt and implement control measures, as contained in the 1999 Amendment to the South Coast Air Quality Management Plan, with respect to PM–10.

(273) New and amended regulations for the following APCD's were submitted on August 21, 1998, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4621, amended on June 18, 1998.

(*2*) Rule 4622, adopted on June 18, 1998.

(274) New and amended regulations for the following APCD were submitted on June 29, 1995, by the Governor's designee.

(i) *Incorporation by reference.* (A) Mojave Desert Air Quality Management District.

(*1*) Rule 1161, adopted on June 28, 1995.

(275) New and amended plan for the following agency was submitted on March 19, 1999, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Control measures 333, 352, 353, T13, T18, T21, and T22; 1999 rate-of-progress plan; and motor vehicle emissions budgets (cited on page 5–4), as contained in the Santa Barbara 1998 Clean Air Plan.

(ii) *Additional materials.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Baseline and projected emissions inventories, and ozone attainment demonstration, as contained in the Santa Barbara 1998 Clean Air Plan.

(276) New and amended regulations for the following APCDs were submitted on February 23, 2000, by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Unified Air Pollution Control District.

(*1*) Rules 101 and 102, adopted on December 15, 1999.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4661, adopted on December 9, 1999.

(277) New and amended regulations for the following APCDs were submitted on March 28, 2000, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Rule 330, adopted on June 11, 1979 and amended on January 20, 2000.

(B) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 701, adopted on May 27, 1999.

(C) Bay Area Air Quality Management District.

(*1*) Rule 8–11 adopted on January 24, 1979 and amended on November 19, 1997.

(*2*) Rule 8.20, amended on March 3, 1999.

(*3*) Rule 8–16, adopted on March 7, 1979 and amended on September 15, 1998.

(*4*) Rule 8–40 amended December 15, 1999.

(*5*) Bay Area Air Quality Management District Rule 8–52, adopted on July 7, 1999.

(*6*) Rule 8–7, adopted on November 17, 1999.

(*7*) Rule 8–5 adopted on December 15, 1999 and Rule 8–18 adopted on January 7, 1998.

(*8*) Rule 8–28, adopted on July 16, 1980 and amended on March 18, 1998.

(D) South Coast Air Quality Management District.

(*1*) Rule 1121 adopted on December 10, 1999.

(*2*) [Reserved]

(278) New and amended regulations for the following APCDs were submitted on January 21, 2000, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1130 amended on October 8, 1999.

(*2*) Rule 1186, adopted on September 10, 1999.

(*3*) [Reserved]

(B) Santa Barbara County Air Pollution Control District.

(*1*) Rule 352 adopted on September 16, 1999.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 74.11.1 adopted on September 14, 1999.

(*2*) Rules 57 and 68, adopted on June 14, 1977.

(279) New and amended regulations for the following APCDs were submitted on May 26, 2000, by the Governor's designee.

(i) *Incorporation by reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 426 amended September 14, 1999

(*2*) Rules 101, 408, 409, 420, 421, 701, and 702, adopted on September 14, 1999.

(*3*) Rule 416, adopted on September 14, 1999.

(*4*) Rules 109 and 110 adopted on September 14, 1999.

(*5*) Rule 427, adopted on September 14, 1999.

(*6*) Rules 100 and 113, adopted on September 14, 1999.

(*7*) Rule 405, adopted on September 14, 1999.

(*8*) Rule 417 adopted on September 14, 1999.

(*9*) Rule 415, adopted on September 14, 1999.

(*10*) Rule 115 adopted on November 19, 1985 and amended on September 14, 1999.

(*11*) Rule 400, revised on September 14, 1999.

(*12*) Rule 201, adopted prior to October 15, 1979 and revised on September 14, 1999.

(*13*) Rule 208, adopted March 17, 1980 and revised on September 14, 1999.

(*14*) Rules 203, 205, and 206, adopted on November 19, 1985 and revised on September 14, 1999.

(*15*) Rule 204, ''Applications,'' revised on September 14, 1999.

(*16*) Previously approved on January 3, 2007 in paragraph (c)(279)(i)(A)(*14*) of this section and now deleted with replacement in paragraph (c)(442)(i)(A)(*5*) of this section, Rule 206.

(B) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 404, Monterey Bay Unified APCD, adopted on March 22, 2000.

(*2*) Rule 403, adopted on March 22, 2000.

(*3*) Rule 400, adopted July 1, 1969 and amended on March 22, 2000.

(280) New and amended regulations for the following APCDs were submitted on July 26, 2000, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1189, adopted on January 21, 2000.

(*2*) Rule 461, adopted on April 21, 2000.

(*3*) Rule 1150.1, adopted on April 5, 1985 and amended on March 17, 2000.

(B) El Dorado County Air Pollution Control District.

(*1*) Rule 240, adopted on February 15, 2000.

(*2*) Rule 101, adopted on February 15, 2000.

(C) Yolo-Solano Air Quality Management District.

(*1*) Rule 1.1, revised on August 13, 1997.

(*2*) [Reserved]

(281) New and amended regulations for the following APCDs were submitted on May 23, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) El Dorado County Air Pollution Control District.

(*1*) Rules 238, 244, and 245, adopted on March 27, 2001.

(*2*) Rule 229, adopted on January 23, 2001.

(B) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 213 adopted on March 21, 2001.

(282) New and amended regulations for the following APCDs were submitted on May 31, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rules 1631, 1632, 1633, and 2507 adopted on May 11, 2001.

(*2*) Rules 2000, 2001, 2002, 2004, 2006, 2007, 2010, 2011, 2012, 2015, and 2020 adopted on May 11, 2001; and Rules 2011–2 and 2012–2 adopted on March 16, 2001.

(B) Bay Area Air Quality Management District.

(*1*) Rule 8–51, revised on May 2, 2001.

(C) Monterey Bay Unified Air Pollution Control District

(*1*) Rule 205, ''Provision of Sampling and Testing Facilities,'' revised on March 21, 2001.

(*2*) Rule 204, ''Cancellation of Applications,'' revised on March 21, 2001.

(*3*) Rule 206, ''Standards for Issuing Authorities to Construct and Permits to Operate,'' revised on March 21, 2001.

(283) San Francisco Bay Area Ozone Attainment Plan for the 1-Hour National Ozone Standard, June 1999, was submitted on August 13, 1999 by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Tables 10 and 12 of the San Francisco Bay Area Ozone Attainment Plan for the 1-Hour National Ozone Standard, June 1999, which detail the commitment to adopt and implement any combination of new control measures to achieve 11 ton per day reduction in VOC emissions by June 2000.

(*2*) Contingency measures, Table 18, ''Post-Attainment Year (2000–2003) Inventory Reductions Reflected in the SIP''.

(284) New and amended regulations for the following APCDs were submitted on May 8, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Unified Air Pollution Control District.

(*1*) Rules 429 adopted on September 16, 1987 and amended on January 17, 2001 and Rule 434 adopted on June 15, 1994 and amended on January 17, 2001.

(*2*) Rules 418 and 419, adopted on December 13, 2000.

(*3*) Rule 416, adopted on September 1, 1974 and amended on January 17, 2001.

(*4*) Rule 433, adopted on January 17, 2001.

(*5*) [Reserved]

(B) South Coast Air Quality Management District.

(*1*)Rule 1612.1 adopted on March 16, 2001.

(*2*) Rule 1146, adopted on November 17, 2000.

(*3*) Rule 442 adopted on May 7, 1976 and amended on December 15, 2000.

(*4*) Rule 1102, adopted on January 6, 1978 and amended on November 17, 2000.

(*5*) Rule 1131 adopted on September 15, 2000.

(*6*) Rule 1132, adopted on January 19, 2001.

(C) Santa Barbara County Air Pollution Control District.

(*1*) Rule 326 adopted on December 14, 1993, and amended on January 18, 2001.

(*2*) Rule 346, adopted on January 18, 2001.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 74.9, adopted on July 21, 1981 and amended on November 14, 2000.

(*2*) Rule 70, adopted on November 14, 2000.

(285) New and amended regulations for the following APCDs were submitted on December 11, 2000 by Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Rule 74.15.1, adopted on June 13, 2000.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4603 adopted on April 11, 1991 and amended on September 21, 2000.

(C) Bay Area Air Quality Management District.

(*1*) Rule 9–11, adopted on May 17, 2000.

(*2*) Regulation 8, Rule 34, adopted on October 6, 1999.

(D) Antelope Valley Air Pollution Control District.

(*1*) Rule 701, adopted on July 18, 2000.

(E) San Diego County Air Pollution Control District.

(*1*) Rule 61.2, amended on July 26, 2000.

(286) New and amended regulations for the following APCDs were submitted on March 14, 2001 by Governor's designee.

(i) *Incorporation by reference.* (A) South Coast AQMD.

(*1*) Rule 109 amended on August 18, 2000, Rule 481 amended on November 17, 2000, Rule 1107 amended on November 17, 2000, Rule 1141.1 amended on November 17, 2000, Rule 1141.2 amended on November 17, 2000, and Rule 1162 amended on November 17, 2000.

(*2*) Rule 1168, amended on September 15, 2000.

(*3*) Rule 1141 adopted on July 8, 1983, and amended on November 17, 2000.

(287) New and amended regulations for the following APCD were submitted on November 8, 2001 by the Governor's designee.

(i) *Incorporation by reference.* (A) Mojave Desert Air Quality Management District.

(1) Rule 1161 adopted on October 22, 2001.

(288) New and amended regulations for the following APCDs were submitted on October 30, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rules 4103 and 4106, adopted on June 21, 2001.

(B) Lake County Air Quality Management District.

(*1*) Sections [Rules] 203, 204.5, 208.3, 208.8, 226.4, 226.5, 240.8, 246, 248.3, 248.5, 249.5, 251.7, 270, 431, 431.5, 433, 434, 1000, 1001, 1003, 1105, 1107, 1130, 1140, 1145, 1150, 1160, and 1170, adopted on June 19, 2001.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 74.19 adopted on August 11, 1992 and amended on April 10, 2001.

(D) Imperial County Air Pollution Control District.

(*1*) Rules 412 and 413 adopted on January 16, 2001.

(*2*) Rule 403, adopted on November 19, 1985 and revised on July 24, 2001.

(E) South Coast Air Quality Management District.

(*1*) Rule 2005 adopted on April 20, 2001.

(289) New and amended regulation for the following AQMD were submitted on November 28, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) Yolo-Solano Air Quality Management District.

(1) Rule 2.32 adopted on October 10, 2001.

(290) New and amended regulations for the following APCDs were submitted on December 14, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) Rule 427, adopted on November 1, 2001.

(291) [Reserved]

(292) New and amended regulations for the following APCDs were submitted on November 7, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Air Pollution Control District.

(*1*) Rule 431, adopted on October 17, 2001.

(B) Santa Barbara County Air Pollution Control District.

(*1*) Rule 325 adopted on January 25, 1994, and amended on July 19, 2001.

(293) New and amended regulations for the following APCDs were submitted on January 22, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rules 208 and 444, adopted on December 21, 2001.

(*2*) Rule 1124 adopted on July 6, 1979, and amended on September 21, 2001.

(*3*) Rule 1634, adopted on November 9, 2001.

(B) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.14, adopted on November 14, 2001.

(*2*) Previously approved on January 2, 2004 in paragraph (c)(293)(i)(B)(1) of this

section and now deleted with replacement in (c)(497)(i)(D)(2), Rule 2.14, adopted on November 14, 2001.

(294) New and amended regulations for the following APCD were submitted on February 20, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4653, amended on December 20, 2001.

(*2*) Rule 4603 adopted on April 11, 1991, and amended on December 20, 2001.

(*3*) Rule 4602 adopted on April 11, 1991 and amended on December 20, 2001; Rule 4604 adopted on April 11, 1991 and amended on December 20, 2001; Rule 4606 adopted on December 19, 1991 and amended on December 20, 2001; Rule 4607 adopted on April 11, 1991 and amended on December 20, 2001; and, Rule 4684 adopted on May 19, 1994 and amended on December 20, 2001.

(*4*) Rule 4661, adopted on May 21, 1992 and amended on December 20, 2001, Rule 4662, adopted April 11, 1991 and amended on December 20, 2001, and Rule 4663, adopted on December 20, 2001.

(*5*) Rule 4605 adopted on December 19, 1991 and amended on December 20, 2001.

(295) New and amended regulations for the following APCD were submitted on February 8, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Tehama County Air Pollution Control District.

(*1*) Rules 4:31 and 4:37 adopted on January 29, 2002.

(296) New and amended regulations for the following APCD were submitted on November 9, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) El Dorado County Air Pollution Control District.

(*1*) Rule 244 adopted on March 27, 2001, and amended on September 25, 2001.

(*2*) Rule 232, adopted on October 18, 1994 and amended on September 25, 2001.

(297) New and amended regulations for the following APCDs were submitted on March 15, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Rule 74.6, adopted on January 8, 2002.

(*2*) Rule 74.29 adopted on October 10, 1995, and amended on January 8, 2002.

(*3*) Rule 74.24.1 adopted on November 10, 1998, and amended on January 8, 2002.

(*4*) Rule 74.23, adopted on January 8, 2002.

(*5*) Rule 74.2, adopted on November 13, 2001.

(B) Imperial County Air Pollution Control District.

(*1*) Rule 101, adopted on July 28, 1981 and amended on December 11, 2001.

(C) South Coast Air Quality Management District.

(*1*) Rule 1107 adopted on June 1, 1979, and amended on November 9, 2001.

(*2*) Rule 518.2 adopted on January 12, 1996, amended on December 21, 2001.

(D) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 427, adopted on January 16, 1980 and amended on December 19, 2001.

(*2*) Rule 417 adopted on September 1, 1974, and amended on December 19, 2001.

(E) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4601, adopted on October 31, 2001.

(*2*) Rule 4623, adopted on April 11, 1991 and amended on December 20, 2001.

(F) Santa Barbara County Air Pollution Control District.

(*1*) Rule 323, adopted on November 15, 2001.

(298) New and amended contingency measures for the following APCDs were submitted on May 29, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) 2001 Clean Air Plan Contingency Control Measures R–SC–1 (Architectural Coatings); N–IC–1 and N–IC–3 (Control of Emissions from Reciprocating Internal Combustion Engines); N–XC–2 (Large Water Heaters and Small Boilers, Steam Generators, and Process Heaters); R–SL–2 (Solvent Degreasers) [incorrectly identified as CAP Control Measure R–SL–1 in Table

4–3, ''Proposed APCD Control Measures''']; R–SL–2 (Solvent Cleaning Operations); N–IC–2 (Gas Turbines); R–SL–4 (Electronic Industry—Semiconductor Manufacturing); N–XC–4 (Small Industrial and Commercial Boilers, Steam Generators, and Process Heaters), adopted on November 15, 2001.

(299) Amended regulation for the following APCD was submitted on July 2, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) El Dorado County Air Pollution Control District.

(*1*) Rule 233, adopted on October 18, 1994, and amended on June 11, 2002.

(300) Amended regulations for the following APCDs were submitted on June 18, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Mojave Desert Air Quality Management District.

(*1*) Rule 1161 amended on March 25, 2002.

(B) Bay Area Air Quality Management District.

(*1*) Rule 8–3, adopted on November 21, 2001.

(C) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 426, adopted on April 17, 2002.

(D) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4703 adopted on April 25, 2002.

(301) Amended regulation for the following APCD was submitted on March 5, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4354, adopted September 14, 1994 and amended February 21, 2002.

(302) New and amended regulations for the following APCDs were submitted on October 16, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 701, revised on August 13, 2002.

(*2*) Rule 101, adopted on August 13, 2002.

(*3*) Rule 420 adopted on November 11, 1985, and amended on August 13, 2002.

(B) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 408, adopted on September 1, 1974 and revised on August 21, 2002.

(*2*) Rule 415, adopted on August 21, 2002.

(*3*) Rule 414, adopted on August 21, 2002.

(*4*) Rules 412 and 413, adopted on September 1, 1974 and revised on August 21, 2002.

(303) New and amended regulations for the following APCDs were submitted on August 6, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Rule 401, adopted on October 18, 1971 and revised on May 16, 2002.

(B) Yolo Solano Air Quality Management District.

(*1*) Rule 2.22, revised on June 12, 2002.

(*2*) Rule 2.21, adopted on March 23, 1994 and amended on June 12, 2002.

(*3*) Previously approved on January 23, 2003, in paragraph (c)(303)(i)(B)(*1*) of this section and now deleted with replacement in paragraph (c)(463)(i)(B)(*2*) of this section, Rule 2.22, ''Gasoline Dispensing Facilities,'' revised on June 12, 2002.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4311 adopted on June 20, 2002.

(*2*) Rule 4661, adopted on May 16, 2002.

(*3*) Rule 4693, adopted on May 16, 2002.

(*4*) Rule 3170, ''Federally Mandated Ozone Nonattainment Fee,'' adopted on May 16, 2002.(304) New and amended regulations for the following APCD were submitted on December 6, 2001, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rules 8011, 8021, 8031, 8041, 8051, 8061, 8071, and 8081, adopted on November 15, 2001.

(305) Amended regulations for the following APCD were submitted on May 20, 2002 by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(1) Rules 10, 26.1, 26.2, 26.3, 26.4, 26.6, and 26.11 adopted on May 14, 2002.

(306) The following plan was submitted on December 5, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) PM–10 (Respirable Dust) Attainment Demonstration, Maintenance Plan, and Redesignation Request (excluding pages 4–1, 4–2, 6–1, 6–2, Appendix A, and pages D–12 through D–37 of Appendix D) adopted on September 5, 2002.

(B) California Air Resources Board, California.

(*1*) California Air Resources Board Executive Order G–125–295 adopted on December 4, 2002.

(307) New and amended regulations for the following APCDs were submitted on November 19, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 449, adopted on February 5, 1975 and amended on September 26, 2002.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4622, adopted on May 21, 1992 and amended on September 19, 2002.

(C) San Diego County Air Pollution Control District.

(*1*) Rule 101, adopted on September 25, 2002.

(*2*) Rule 67.11.1, adopted on September 25, 2002.

(*3*) Rule 67.11, ''Wood Products Coating Operations,'' adopted on June 27, 2012 and effective on June 27, 2013.

(D) South Coast Air Quality Management District.

(*1*) Rule 1137 adopted on February 1, 2002.

(308) New and amended regulations for the following APCDs were submitted on December 12, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Rule 8–7, amended on November 6, 2002.

(B) Lake County Air Quality Management District.

(*1*) Sections 226.5, 232.1, 238.5, 249.3, 250.5, 433.5, 436, and 436.5, adopted on October 1, 2002 and Sections 431.5, 431.7, 432.5, and 433, amended on October 1, 2002.

(C) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 307, adopted on September 26, 2002.

(D) South Coast Air Quality Management District.

(*1*) Rule 1631, amended on October 4, 2002.

(E) Monterey Bay Unified Air Pollution Control District.

(1) Rule 203, ''Application,'' revised October 16, 2002.

(2) Rule 212, ''Public Availability of Emission Data,'' revised on October 16, 2002.

(309) New and amended plan for the following agency was submitted on November 18, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District (SCAQMD).

(*1*) SCAQMD commitment to adopt and implement control measures, and reasonable further progress, as contained in the Implementation Status of the PM–10 Portion of the 1997 AQMP and PM–10 Emissions Budgets for Transportation Conformity use (2002 status report) adopted by SCAQMD on June 7, 2002.

(*2*) Baseline and projected emissions inventories, SCAQMD commitment to adopt and implement control measures, reasonable further progress, contingency measures, attainment demonstration, PM–10 attainment date extension, and motor vehicle emissions budgets, as contained in Chapters 3, 4, 5, 6 and 8 of the 2002 Coachella Valley PM–10 SIP adopted by SCAQMD on June 21, 2002, and the 2002 Coachella Valley PM–10 SIP Addendum (Appendix E) adopted by SCAQMD on September 13, 2002.

(310) New and amended rules for the following districts were submitted on May 21, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4692, adopted on March 21, 2002.

(B) South Coast Air Quality Management District.

(*1*) Rule 1178 adopted on December 21, 2001; Rule 481 adopted on October 7, 1977 and amended on January 11, 2002; and, Rule 1141.2 adopted on July 6, 1984 and amended on January 11, 2002.

(311) New and amended rules for the following districts were submitted on

December 23, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1171, adopted on August 2, 1991 and amended on August 2, 2002.

(*2*) Previously approved on June 3, 2003 in paragraph (c)(311)(i)(A)(1) of this section and now deleted without replacement, Subsection (c)(1) (July 1, 2005 VOC limits) of Rule 1171.

(*3*) Rule 1309.1, adopted on May 3, 2002.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rules 2020 and 2201 adopted on December 19, 2002.

(312) New and amended rules for the following districts were submitted on January 21, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Rules 8.5 and 8.18, amended on November 27, 2002, and adopted on January 1, 1978 and October 1, 1980, respectively.

(B) Santa Barbara County Air Pollution Control District.

(*1*) Rule 360, adopted on October 17, 2002.

(313) New and amended plan for the following agency was submitted on December 20, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Diego County Air Pollution Control District.

(*1*) Ozone Redesignation Request and Maintenance Plan for San Diego County, including motor vehicle emissions budgets for 2010 and 2014, Resolution #02–389, adopted on December 11, 2002.

(314) New and amended plan for the following agency was submitted on February 21, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Emission Inventories, 1-hour ozone maintenance demonstration, commitments to continue ambient monitoring and to track progress, and contingency measures, as contained in the Final 2001 Clean Air Plan adopted on December 19, 2002.

(315) New and amended regulations for the following APCDs were submitted on April 1, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Rule 8–4, amended on October 16, 2002 and Rule 8–16, adopted on March 7, 1979 and amended on October 16, 2002.

(*2*) Rule 8–31 adopted on September 7, 1983 and amended on October 16, 2002; and Rule 8–43 adopted on November 23, 1988 and amended on October 16, 2002.

(*3*) Rule 8–14, adopted on March 7, 1979 and amended on October 16, 2002; and Rule 8–19, adopted on January 9, 1980 and amended on October 16, 2002.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4408, adopted on December 19, 2002.

(*2*) Rule 4610, adopted on December 19, 2002.

(C) Mojave Desert Air Quality Management District.

(*1*) Rule 1113, adopted on February 24, 2003.

(316) New and amended regulations for the following APCDs were submitted on June 5, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) Rule 417, originally adopted on April 18, 1972, amended on March 13, 2003.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4313, adopted on March 27, 2003.

(C) San Diego County Air Pollution Control District.

(*1*) Rule 67.3 adopted on May 9, 1979 and amended on April 9, 2003.

(D) South Coast Air Quality Management District.

(*1*) Rule 1133 adopted on January 10, 2003; Rule 1133.1 adopted on January 10, 2003; and, Rule 1133.2 adopted on January 10, 2003.

(E) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.33, revised on March 12, 2003.

(F) Antelope Valley Air Quality Management District.

(*1*) Rule 1113, adopted on March 18, 2003.

(317) The plan and amended regulation for the following APCD were submitted on August 19, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4901, adopted on July 15, 1993 and amended on July 17, 2003.

(*2*) 2003 PM10 Plan, San Joaquin Valley Plan to Attain Federal Standards for Particulate Matter 10 Microns and Smaller (all except ''Contingency Control Measures'' section, pages 4–53 to 4–55), adopted on June 19, 2003, and ''Regional Transportation Planning Agency Commitments for Implementation,'' dated April 2003 (Volume 3).

(B) [Reserved]

(318) Amended regulation for the following APCD was submitted on September 19, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District.

(*1*) Rule 74.20, adopted on September 9, 2003.

(319) Amended regulation for the following APCD was submitted on November 14, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1168, amended on October 3, 2003.

(320) New and amended regulations for the following APCDs were submitted on August 11, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 438, adopted on April 16, 2003.

(*2*) Rule 1002, adopted on February 22, 1989 and revised on April 16, 2003.

(*3*) Rule 418, adopted on September 1, 1974 and revised on April 16, 2003.

(*4*) Rule 101, adopted on April 16, 2003.

(B) South Coast Air Quality Management District.

(*1*) Rule 109 adopted on May 5, 1989 and amended on May 2, 2003; and, Rule 1131 adopted on September 15, 2000 and amended on June 6, 2003.

(C) Santa Barbara County Air Pollution Control District.

(*1*) Rule 102, adopted on June 19, 2003.

(321) New and amended regulations for the following APCDs were submitted on November 4, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) Rules 108, ''Stack Monitoring,'' and 417, ''Agricultural and Prescribed Burning,'' amended on July 24, 2003.

(*2*) [Reserved]

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4902, adopted on June 17, 1993.

(*2*) [Reserved]

(C) Great Basin Air Pollution Control District.

(*1*) Rule 101, adopted on September 24, 2003.

(*2*) Rule 406, adopted on January 21, 1976 and revised on September 24, 2003.

(*3*) Rule 407, adopted on September 5, 1974 and revised on September 24, 2003.

(D) San Diego County Air Pollution Control District.

(*1*) Rule 69.4, adopted on September 27, 1994 and amended on July 30, 2003.

(*2*) [Reserved]

(ii) [Reserved]

(322) New and amended plan for the following agency was submitted on December 9, 2003, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) East Kern County Ozone Attainment Demonstration, Maintenance Plan and Redesignation Request, adopted on May 1, 2003: Chapter 5— ''Regional Forecast,'' including emissions inventory summary (Table 5–1) and motor vehicle emissions budgets (Table 5–2); Chapter 6— ''Emission Control Measures,'' including contingency measures (Table 6–1); and Appendix B— ''Emission Inventories.''

(323) The following plan was submitted on November 30, 2001 by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District

(*1*) San Francisco Bay Area Ozone Attainment Plan for the 1-hour National Ozone Standard (Section 3: Emission Inventory; Section 5: Control Strategy, except subsection ''Demonstrating Reasonable Further Progress'' Appendix B: Control Measure Descriptions;

Appendix C: Reasonably Available Control Measure Analysis; Appendix E: Further Study Measure Descriptions;) adopted on October 24, 2001.

(324) Amended regulation for the following AQMD was submitted on April 1, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1132, adopted on January 19, 2001 and amended on March 5, 2004.

(325) Amended regulations for the following APCD were submitted on September 29, 2003, by the Governor's Designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rules 4305 and 4351 adopted on August 21, 2003, and Rule 4306 adopted on September 18, 2003.

(326) Amended regulations for the following APCD were submitted on October 9, 2003, by the Governor's Designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rules 4701 and 4702 adopted on August 21, 2003.

(327) The following plan was submitted on December 30, 2003 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Amendments to the 2003 San Joaquin Valley Plan to Attain Federal Standards for Particulate Matter 10 Microns and Smaller, adopted December 18, 2003.

(328) Amended regulations for the following APCDs were submitted on January 15, 2004, by the Governor's Designee.

(i) *Incorporation by reference.* (A) Ventura County Air Pollution Control District

(*1*) Rule 70, adopted on June 25, 1974 and revised on November 11, 2003.

(*2*) Rule 56, adopted on October 22, 1968 and amended on November 11, 2003.

(B) South Coast Air Quality Management District.

(*1*) Rule 1171, adopted on November 7, 2003.

(2) Previously approved on July 27, 2004 in paragraph (c)(328)(i)(B)(1) of this section and now deleted without replacement, Subsection (c)(1) (July 1, 2005 VOC limits) of Rule 1171.

(C) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 400, adopted on July 1, 1969, and amended on October 15, 2003.

(329) Amended regulations for the following APCDs were submitted on February 20, 2004, by the Governor's Designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rules 2007, 2011 including protocol for Rule 2011, and 2012 including protocol for Rule 2012 amended on December 5, 2003.

(330) The following plan was submitted on April 10, 2003 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Amended 2002 and 2005 Ozone Rate of Progress Plan for San Joaquin Valley, adopted on December 19, 2002.

(*i*) Appendix E, ''Regional Transportation Planning Agency Commitments for Implementation.''

(331) New and amended regulations for the following APCDs were submitted on June 3, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4610 amended on April 17, 2003.

(*2*) Rule 4604, adopted on April 11, 1991, and amended on January 15, 2004.

(B) South Coast Air Quality Management District.

(*1*) Rule 461, originally adopted on January 9, 1976 and amended on January 9, 2004.

(*2*) Rule 1105.1, adopted on November 7, 2003.

(332) Amended regulations for the following APCDs were submitted on July 19, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 403, adopted on November 19, 1985 and revised on May 18, 2004 and Rule 405, adopted prior to November 4, 1977 and revised on May 18, 2004.

(*2*) Rule 415, originally adopted on November 4, 1977 and revised on May 18, 2004.

(*3*) Rule 425, adopted on August 5, 1989, and amended on May 18, 2004.

(*4*) Rule 414, Storage of Reactive Organic Compound Liquids, adopted on December 11, 1979, and revised on May 18, 2004.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 2, adopted on October 22, 1968, and amended on April 13, 2004.

(*2*) Rules 50, 52, and 53, adopted on July 2, 1968 and revised on April 13, 2004.

(*3*) Rules 68 and 102, adopted on May 23, 1972 and revised on April 13, 2004.

(*4*) Rule 5, ''Effective Date,'' amended on April 13, 2004.

(*5*) Ventura County Rule 10—Permits Required, adopted on April 13, 2004.

(333) New and amended regulations for the following AQMD were submitted on July 29, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 2015 adopted on October 15, 1993 and amended on June 4, 2004.

(*2*) Amended Rules 403 (except for subdivision h), 403.1 (except for subdivision j), and 1186, as adopted on April 2, 2004.

(334) New and amended regulations for the following APCDs were submitted on September 23, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) Kern County Air Pollution Control District.

(*1*) Rule 416.1, adopted on July 8, 2004.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4550 and the List of Conservation Management Practices, adopted on May 20, 2004, re-adopted on August 19, 2004.

(*2*) Rules 8011, 8021, 8031, 8041, 8051, and 8061, amended on August 19, 2004 and Rules 8071 and 8081, amended on September 16, 2004.

(335) New and amended regulations for the following APCDs were submitted on January 13, 2005, by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 408, adopted on September 1, 1974 and revised on September 15, 2004.

(*2*) Rule 438, adopted on April 16, 2003 and revised on September 15, 2004.

(*3*) Rule 404, adopted on December 15, 2004.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4103, adopted on June 18, 1992 and amended on September 16, 2004.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 74.25, adopted on October 12, 2004.

(D) South Coast Air Quality Management District.

(*1*) Rule 1122, adopted on October 1, 2004.

(E) Kern County Air Pollution Control District

(*1*) Rule 402, ''Fugitive Dust'', adopted on November 29, 1993 and amended on November 3, 2004.

(336) New and amended regulations for the following APCDs were submitted on April 26, 2005, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4101, adopted on May 21, 1992, and amended on February 17, 2005.

(B) Ventura County Air Pollution Control District.

(*1*) Rules 74.6, 74.6.1, 74.12, 74.13, 74.19, 74.19.1, 74.24, and 74.30, adopted on November 11, 2003.

(C) Imperial County Air Pollution Control District.

(*1*) Rule 101, adopted on January 11, 2005.

(*2*) Rule 424, adopted on November 9, 1982 and revised on January 11, 2005.

(D) Santa Barbara County Air Pollution Control District.

(*1*) Rule 102, adopted on January 20, 2005.

(337) New and amended regulations for the following APCDs were submitted on July 15, 2005, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4623, adopted on April 11, 1991 and amended on May 19, 2005.

(*2*) Rule 4403, adopted on April 11, 1991 and revised on April 20, 2005; Rule 4409 adopted on April 20, 2005; Rule 4451

adopted on April 11, 1991 and revised on April 20, 2005; Rule 4452 adopted on April 11, 1991 and revised on April 20, 2005; and, Rule 4455 adopted on April 20, 2005.

(*3*) Rule 4204, adopted on February 17, 2005.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 74.14, adopted on November 24, 1987 and revised on April 12, 2005.

(*2*) Rule 57, adopted on July 2, 1968 and revised on January 11, 2005 and Rule 57.1, adopted on January 11, 2005.

(*3*) Rule 74.20, Adhesives and Sealants, adopted on June 8, 1993, and revised on January 11, 2005.

(C) South Coast Air Quality Management District.

(*1*) Rules 2010, 2011, 2011 Protocol Appendix A Chapters 2–6 and Attachments A-F, 2012, and 2012 Protocol Appendix A Chapters 2–8 and Attachments A–G adopted on January 7, 2005.

(*2*) Previously approved on August 29, 2006, in paragraph (c)(337)(i)(C)(*1*) of this section and now deleted with replacement in (c)(491)(i)(A)(*4*), Rule 2011: Attachment C, ''Requirements for Monitoring, Reporting, and Recordkeeping for SO_X Emissions: Quality Assurance and Quality Control Procedures,'' amended on December 4, 2015.

(*3*) Previously approved on August 29, 2006, in paragraph (c)(337)(i)(C)(*1*) of this section and now deleted with replacement in (c)(491)(i)(A)(*5*), Rule 2011: Chapter 3, ''Requirements for Monitoring, Reporting, and Recordkeeping for SO_X Emissions: Process Units—Periodic Reporting and Rule 219 Equipment,'' amended on December 4, 2015.

(*4*) Previously approved on August 29, 2006, in paragraph (c)(337)(i)(C)(*1*) of this section and now deleted with replacement in (c)(491)(i)(A)(*6*), Rule 2012: Attachment C, ''Requirements for Monitoring, Reporting, and Recordkeeping for NO_X Emissions: Quality Assurance and Quality Control Procedures,'' amended on December 4, 2015.

(*5*) Previously approved on August 29, 2006, in paragraph (c)(337)(i)(C)(*1*) of this section and now deleted with replacement in (c)(491)(i)(A)(*7*), Rule 2012: Chapter 4, ''Requirements for Monitoring, Reporting, and Recordkeeping for NO_X Emissions: Process Units—Periodic Reporting and Rule 219 Equipment,'' amended on December 4, 2015.

(*6*) Previously approved on August 29, 2006, in paragraph (c)(337)(i)(C)(*1*) of this section and now deleted with replacement in (c)(491)(i)(A)(*8*), Rule 2011: Attachment E, ''Requirements for Monitoring, Reporting, and Recordkeeping for SO_X Emissions: Definitions,'' amended on February 5, 2016.

(*7*) Previously approved on August 29, 2006, in paragraph (c)(337)(i)(C)(*1*) of this section and now deleted with replacement in (c)(491)(i)(A)(*9*), Rule 2012: Attachment F, ''Requirements for Monitoring, Reporting, and Recordkeeping for NO_X Emissions: Definitions,'' amended on February 5, 2016.

(D) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 403, adopted on September 1, 1974 and revised on February 16, 2005.

(338) New and amended regulations for the following agency were submitted on March 13, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) California Code of Regulations, Title 17, Division 3, Chapter 1, Subchapter 8.5, Consumer Products, Article 3, Aerosol Coating Products, Sections 94520 to 94528, and Subchapter 8.6, Maximum Incremental Reactivity, Article 1, Tables of Maximum Incremental Reactivity (MIR) Values, Sections 94700 to 94701, both adopted on May 1, 2001.

(339) New and amended plans were submitted on January 9, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District (SCAQMD).

(*1*) South Coast 2003 Air Quality Management Plan (AQMP), as adopted by SCAQMD on August 1, 2003, and by California Air Resources Board on October 23, 2003.

(*i*) Baseline and projected emissions inventories in AQMP Chapter III Tables 3–1A and 3–3A, in Appendix III Tables A–1, A–2, A–3, A–5, and A–7, and in Appendix V Attachment 4; SCAQMD commitment to adopt and implement control measures CMB–07, CMB–09, WST–01, WST–02, PRC–03, BCM–07, BCM–08, MSC–04, MSC–06, TCB–01 in

AQMP Chapter 4 Table 4–8A, and in Appendix IV–A); PM–10 reasonable further progress in AQMP Chapter 6, Table 6–1 and in Appendix V Chapter 2; contingency measures CTY–01, CTY–14, TCB–01 in Appendix IV–A Section 2; PM–10 attainment demonstration in AQMP Chapter 5, and in Appendix V Chapter 2; and motor vehicle emissions budgets in ''2003 South Coast AQMP On-Road Motor Vehicle Emissions Budgets.''

(*2*) 2003 Coachella Valley PM–10 State Implementation Plan, as adopted by SCAQMD on August 1, 2003, and by California Air Resources Board on October 23, 2003.

(*i*) Baseline and projected emissions inventories in Tables 2–2, 2–3, 2–4, and 2–5; reasonable further progress in Tables 2–9 and 2–7; attainment demonstration in Chapter 3; and motor vehicle emissions budgets in ''2003 Coachella Valley PM–10 SIP On-Road Motor Vehicle Emissions Budgets.''

(B) [Reserved]

(ii) *Additional material.* (A) The following portions of the Final 2003 State and Federal Strategy (2003 State Strategy) for the California State Implementation Plan, adopted by the California Air Resources Board (ARB) on October 23, 2003:

(*1*) State agency commitments with respect to the following near-term defined measures for the South Coast Air Basin: LT/MED–DUTY–1 [Air Resources Board (ARB)], LT/MED–DUTY–2 (Bureau of Automotive Repair), ON–RD HVY–DUTY–1 (ARB), ON–RD HVY–DUTY–3 (ARB), OFF–RD CI–1 (ARB), OFF–RD LSI–1 (ARB), OFF–RD LSI–2 (ARB), SMALL OFF–RD–1 (ARB), SMALL OFF–RD–2 (ARB), MARINE–1 (ARB), MARINE–2 (ARB), FUEL–2 (ARB), CONS–1 (ARB), CONS–2 (ARB), FVR–1 (ARB), FVR–2 (ARB), and PEST–1 (Department of Pesticide Regulation) in Resolution 03–22 Attachments A–2, A–3, A–4 and A–6 Table I–7 and in 2003 State Strategy Section I Appendix I–1 and Sections II and III.

(B) The following portions of the South Coast 2003 Air Quality Management Plan (AQMP), adopted by the South Coast Air Quality Management District (SCAQMD) on August 1, 2003 and adopted by the California Air Resources Board on October 23, 2003:

(*1*) Base year and future year baseline planning inventories (summer and winter) in AQMP Chapter III and Appendix III; SCAQMD commitment to adopt and implement control measures CTS–07, CTS–10, FUG–05, MSC–01, MSC–03, PRC–07, WST–01, WST–02, FSS–04, FLX–01, CMB–10, MSC–05, MSC–07, MSC–08, FSS–06, and FSS–07 in AQMP Chapter 4, Table 4–1, as qualified and explained in AQMP, Chapter 4, pages 4–59 through 4–61 and in Appendix IV–A Section 1, and SCAQMD commitments to achieve near-term and long-term emissions reductions through rule adoption and implementation in AQMP Chapter 4, Tables 4–8A and 4–8B; contingency measure CTY–01 in AQMP Chapter 9, Table 2 and in Appendix IV–A Section 2 (excluding FSS–05); nitrogen dioxide maintenance demonstration in AQMP Chapter 6 page 6–11; and motor vehicle emissions budget for nitrogen dioxide in year 2003 of 686 tons per day (winter planning inventory) in AQMP Chapter 6 Table 6–7.

(*2*) [Reserved]

(340) New and amended rules for the following agencies were submitted on November 16, 2004, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District (SCAQMD).

(*1*) Amended Handbooks for Rules 403 (Chapters 5, 7, and 8) and 403.1 (Chapters 2, 3, 4, and 7), as adopted on April 2, 2004.

(B) Plan revisions for the Coachella Valley Planning Area.

(*1*) Fugitive dust control ordinances for: City of Cathedral City Ordinance No. 583 (1/14/04), City of Coachella Ordinance No. 896 (10/8/03), City of Desert Hot Springs Ordinance No. 2003–16 (10/7/03), City of Indian Wells Ordinance No. 545 (11/6/03), City of Indio Ordinance No. 1357 (12/3/03), City of La Quinta Ordinance No. 391 (12/2/03), City of Palm Desert Ordinance No. 1056 (11/13/03), City of Palm Springs Ordinance No. 1639 (11/5/03), City of Rancho Mirage Ordinances No. 855 (12/18/03) and No. 863 (4/29/04), and County of Riverside Ordinance No. 742.1 (1/13/04).

(341) The 2004 Revision to the California State Implementation Plan for Carbon Monoxide, Updated Carbon Monoxide Maintenance Plan for the

Ten Federal Planning Areas, submitted on November 8, 2004 by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) *2004 Revision to the California State Implementation Plan for Carbon Monoxide, Updated Maintenance Plan for Ten Federal Planning Areas*, adopted by the California Air Resources Board on July 22, 2004. The ten Federal planning areas include Bakersfield Metropolitan Area, Chico Urbanized Area, Fresno Urbanized Area, Lake Tahoe North Shore Area, Lake Tahoe South Shore Area, Modesto Urbanized Area, Sacramento Urbanized Area, San Diego Area, San Francisco-Oakland-San Jose Area, and Stockton Urbanized Area.

(342) New and amended regulations for the following APCDs were submitted on October 20, 2005, by the Governor's designee.

(i) *Incorporation by reference.* (A) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.21, adopted on March 23, 1994, and amended on September 14, 2005.

(*2*) Previously approved on October 31, 2006 in paragraph (c)(342)(i)(A)(*1*) of this section and now deleted with replacement in paragraph (c)(497)(i)(D)(*1*) of this section, Rule 2.21 amended on September 14, 2005.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4103, adopted on June 18, 1992 and amended on May 19, 2005.

(C) South Coast Air Quality Management District.

(*1*) Rule 461, adopted on January 9, 1976 and amended on June 3, 2005.

(*2*) Rules 2000, 2001, 2005, 2007, 2011 Protocol Appendix A Chapter 1, and 2012 Protocol Appendix A Chapter 1 adopted on May 6, 2005.

(*3*) Rule 463, adopted on August 15, 1977 and amended on May 6, 2005.

(*4*) Rule 403, adopted on May 7, 1976 and amended on June 3, 2005.

(*5*) Previously approved on August 29, 2006 in paragraph (c)(342)(i)(C)(*2*) of this section and now deleted with replacement in (c)(491)(i)(A)(*1*), Rule 2001, ''Applicability,'' amended on December 4, 2015.

(D) Great Basin Unified Air Pollution Control District.

(*1*) Rule 405, adopted on September 5, 1974 and revised on July 7, 2005.

(*2*) Rule 502, ''Conservation Management Practices,'' adopted on July 7, 2005.

(343) An amended regulation for the following AQMD was submitted on December 21, 2005, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 2002 adopted on January 7, 2005.

(344) New and amended regulations for the following APCDs were submitted on March 10, 2006, by the Governor's designee.

(i) *Incorporation by reference.* (A) Antelope Valley Air Quality Management District.

(*1*) Rule 442, adopted on May 7, 1976 and amended on November 15, 2005.

(*2*) Rule 101, ''Title,'' and Rule 102, ''Definition of Terms,'' originally adopted on February 4, 1977 and amended on May 17, 2005.

(*3*) Rule 106, ''Increments of Progress,'' Rule 210, ''Applications,'' Rule 212, ''Standards for Approving Permits,'' and Rule 218, ''Stack Monitoring,'' originally adopted on January 9, 1976 and amended on May 17, 2005.

(*4*) Rule 108, ''Alternative Emission Control Plans,'' Rule 109, ''Recordkeeping for Volatile Organic Compound Emissions,'' Rule 208, ''Permit for Open Burning,'' Rule 220, ''Exemption—Net Increase in Emissions,'' Rule 221, ''Plans,'' and Rule 226, ''Limitations on Potential to Emit,'' originally adopted on March 2, 1990, May 5, 1989, October 8, 1976, November 4, 1977, January 4, 1985, and March 17, 1998, respectively, and amended on May 17, 2005.

(B) Lake County Air Quality Management District.

(*1*) Chapter VIII, Section 1002 and Table 8, adopted on March 19, 1996 and amended on August 9, 2005.

(C) San Joaquin Valley Unified Air Quality Management District.

(*1*) Rule 4308, adopted on October 20, 2005; Rule 4309, adopted on December 15, 2005; and Rule 4905, adopted on October 20, 2005.

(*2*) Previously approved on May 30, 2007 in paragraph (c)(344)(i)(C)(*1*) of this

section and now deleted with replacement in paragraph (c)(461)(i)(D)(*1*), Rule 4905, ''Natural-Gas-Fired Fan-Type Central Furnaces,'' adopted on October 20, 2005.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 74.9, Stationary Internal Combustion Engines, adopted on November 8, 2005.

(345) New and amended regulations for the following APCDs were submitted on June 16, 2006, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 102, adopted on December 3, 2004.

(*2*) Rule 1178 adopted on December 21, 2001, and amended on April 7, 2006.

(B) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 411, adopted on October 27, 2005.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 11, ''Definitions for Regulation II,'' and Rule 29, ''Conditions on Permits,'' adopted on June 13, 1995 and May 23, 1972, respectively, and revised on March 14, 2006.

(*2*) Rule 26, ''New Source Review—General,'' Rule 26.2, ''New Source Review—Requirements,'' Rule 26.3, ''New Source Review—Exemptions,'' Rule 26.4, ''New Source Review—Emissions Banking,'' Rule 26.5, ''New Source Review—Essential Public Service Bank,'' and Rule 26.6, ''New Source Review—Calculations,'' originally adopted on October 22, 1991 and now revised on March 14, 2006.

(D) Great Basin Unified Air Pollution Control District

(*1*) Rule 201, ''Exemptions,'' adopted on September 5, 1974 and revised on January 23, 2006.

(E) Imperial County Air Pollution Control District.

(*1*) Rule 800,''General Requirements for Control of Fine Particulate Matter (PM–10),'' adopted on October 10, 1994, revised on November 25, 1996 and revised on November 8, 2005.

(*2*) Rule 801,''Construction & Earthmoving Activities,'' Rule 802, ''Bulk Materials,'' Rule 803,''Carry-Out & Track-Out,'' Rule 804,''Open Areas,'' Rule 805,''Paved & Unpaved Roads,'' Rule 806,''Conservation Management Practices,'' adopted on November 8, 2005.

(346) New and amended plans for the following AQMD were submitted on February 24, 2006, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District (SCAQMD).

(*1*) 2005 Carbon Monoxide Redesignation Request and Maintenance Plan for the South Coast Air Basin, as adopted by SCAQMD on March 4, 2005, and by California Air Resources Board on February 24, 2006.

(347) New and amended regulations for the following APCDs were submitted on October 5, 2006, by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4307, adopted on April 20, 2006.

(*2*) Rule 4352, ''Solid Fuel Fired Boilers, Steam Generators and Process Heaters,'' amended on May 18, 2006.

(B) South Coast Air Quality Management District.

(*1*) Rule 1118 adopted February 13, 1998, and amended November 4, 2005.

(*2*) Rule 1127, ''Emissions Reductions from Livestock Waste,'' adopted on August 6, 2004.

(C) Mojave Desert Air Quality Management District.

(*1*) Rule 442, Adopted: 5/7/76; CARB Ex. Ord. G–73: 02/01/77; Readopted: 07/25/77; Amended: 02/02/79; Amended: 02/27/06.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 74.30, Wood Products Coatings, adopted May 17, 1994 and revised on June 27, 2006.

(E) Yolo Solano Air Quality Management District.

(*1*) Rule 11.2, ''Confined Animal Facilities Permit Program,'' adopted on June 14, 2006.

(348) New and amended rules for the following APCDs were submitted on December 29, 2006 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Air Pollution Control District.

(*1*) Rule 4354, adopted on August 17, 2006.

(*2*) Rule 9310, ''School Bus Fleets,'' adopted on September 21, 2006.

(*3*) Rule 9510, ''Indirect Source Review (ISR),'' adopted on December 15, 2005.

(B) South Coast Air Quality Management District.

(*1*) Rule 1156, adopted on November 4, 2005.

(349) San Francisco Bay Area Transportation Air Quality Conformity Protocol—Conformity Procedures and Interagency Consultation Procedures was submitted on December 20, 2006, by the Governor's designee.

(i) *Incorporation by reference.* (A) Association of Bay Area Governments (ABAG), Bay Area Air Quality Management District (BAAQMD), and Metropolitan Transportation Commission (MTC).

(*1*) The San Francisco Bay Area Transportation Air Quality Conformity Protocol—Conformity Procedures (July 26, 2006) and San Francisco Bay Area Transportation Air Quality Conformity Protocol—Interagency Consultation Procedures (July 26, 2006), adopted by BAAQMD on July 19, 2006, by ABAG on July 20, 2006, and by MTC on July 26, 2006.

(350) New and amended regulations were submitted on May 8, 2007, by the Governor's designee.

(i) *Incorporation by reference.* (A) Great Basin Unified Air Pollution Control District.

(*1*) Rule 431, adopted on December 7, 1990 and revised on December 4, 2006.

(*2*) [Reserved]

(*3*) Previously approved on October 31, 2007 in paragraph (c)(350)(i)(A)(1) of this section and now deleted with replacement in paragraph (c)(457)(i)(I)(*1*) of this section, Rule 431, adopted on December 7, 1990 and revised on December 4, 2006.

(B) Mojave Desert Air Quality Management District.

(*1*) Rule 444, adopted on October 8, 1976 and amended on September 25, 2006.

(*2*) Rule 1106, Marine Coating Operations, adopted on August 28, 2006 and amended on October 23, 2006.

(*3*) Previously approved on July 16, 2008 in paragraph (c)(350)(i)(B)(2) of this section and now deleted with replacement in (c)(498)(i)(B)(1), Rule 1106, adopted on August 28, 2006 and amended on October 23, 2006.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4702, adopted on August 21, 2003 and amended on January 18, 2007.

(*2*) Rule 4401, ''Steam-Enhanced Crude Oil Production Wells,'' adopted on December 14, 2006.

(*3*) Previously approved on January 10, 2008 in paragraph(c)(350)(i)(C)(*1*) of this section and now deleted with replacement in paragraph (c)(441)(i)(D)(*4*), Rule 4702, ''Internal Combustion Engines,'' amended on January 18, 2007.

(D) South Coast Air Quality Management District.

(*1*) Rule 1107, Coating of Metal Parts and Products, adopted on June 1, 1979, and amended on January 6, 2006.

(E) Ventura County Air Pollution Control District.

(*1*) Rule 26.1, ''New Source Review—Definitions,'' originally adopted on October 22, 1991 and now revised on November 14, 2006.

(351) New and amended regulation for the following APCDs were submitted on August 24, 2007, by the Governor's designee.

(i) *Incorporation by reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 101, Adopted 7/28/81; revised 9/14/99; 1/16/2001; 12/11/2001; 08/13/02; 01/11/2005; 10/10/2006.

(*2*) Rule 420, ''Beef Feedlots,'' adopted on October 10, 2006.

(*3*) Rule 201, ''Permits Required'' amended on October 10, 2006.

(*4*) Rule 202, ''Exemptions'' amended on October 10, 2006.

(*5*) Previously approved on May 9, 2011 in paragraph (c)(351)(i)(A)(*4*) of this section and now deleted with replacement in paragraph (c)(485)(i)(A)(*2*), Rule 202, ''Exemptions,'' revised on October 10, 2006.

(B) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 101, Adopted 9–1–74; Revised 12–21–83; 12–13–84; 11–13–96; 11–12–98; and 12–15–1999; and 4–16–03; and 2–21–07.

(*2*) Rules 415 and 418, adopted on September 1, 1974 and revised on February 21, 2007 and March 21, 2007, respectively.

(*3*) Rule 1002, adopted on February 22, 1989 and revised on March 21, 2007.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4104, ''Reduction of Animal Matter,'' Rule 4404, ''Heavy Oil Test Station—Kern County,'' adopted May 21, 1992 and amended on December 17, 1992.

(*2*) Rule 4641, ''Cutback, Slow Cure, and Emulsified Asphalt, Paving and Maintenance Operations,'' Rule 4672, ''Petroleum Solvent Dry Cleaning Operations,'' adopted April 11, 1991 and amended on December 17, 1992.

(*3*) Rule 4453, ''Refinery Vacuum Producing Devices or Systems,'' adopted on May 21, 1992 and amended on December 17, 1992.

(*4*) Rule 4454, ''Refinery Process Unit Turnaround,'' adopted on May 21, 1992 and amended on December 17, 1992.

(*5*) Rule 4402, ''Crude Oil Production Sumps'', adopted on April 11, 1991 and amended December 17, 1992.

(*6*) Rule 4625, ''Wastewater Separators'', adopted on April 11, 1991 and amended December 17, 1992.

(*7*) Rule 4565, ''Biosolids, Animal Manure, and Poultry Litter Operations'', adopted on March 15, 2007.

(D) Kern County Air Pollution Control District.

(*1*) Rule 404.1, adopted on April 18, 1972 and amended on January 24, 2007.

(*i*) Resolution No. *2007–001–01*, Reference No. *Item 5*, Adoption of Amendments to Rules and Regulations of the Kern County Air Pollution Control District; to Wit: Rule 404.1.

(*2*) Rule 431, adopted on January 24, 2007 and amended on March 8, 2007.

(*i*) Resolution No. *2007–003–03*, Reference No. *Item 3*, Amendments to Rules and Regulations of the Kern County Air Pollution Control District; To Wit: Rule 431 (Propellant Combustion and Rocket Testing).

(352) New and amended regulations were submitted on September 5, 2007, by the governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 413, adopted on April 6, 1995 and amended on March 24, 2005.

(353) New and amended regulations were submitted on August 12, 2002, by the Governor's designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Rule 9–10, Inorganic Gaseous Pollutants: Nitrogen Oxides and Carbon Monoxide from Boilers, Steam Generators, and Process Heaters in Petroleum Refineries, adopted on July 17, 2002.

(354) New and amended regulations for the following APCDs were submitted on March 7, 2008, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 2004, ''Requirements'' adopted on October 15, 1993 and amended on April 6, 2007.

(*2*) Rule 2007, ''Trading Requirements'' adopted on October 15, 1993 and amended April 6, 2007.

(*3*) Rule 2010, ''Administrative Remedies and Sanctions'' adopted on October 15, 1993 and amended on April 6, 2007.

(*4*) Rule 1146.2, ''Emissions of Oxides of Nitrogen From Large Water Heaters and Small Boilers and Process Heaters,'' adopted on January 8, 1998 and amended on May 5, 2006.

(*5*) Rule 1113, ''Architectural Coatings,'' amended on July 13, 2007.

(B) Mojave Desert Air Quality Management District.

(*1*) Rule 1162, Polyester Resin Operationss, adopted on August 27, 2007

(*2*) Previously approved on November 24, 2008 in paragraph (c)(354)(i)(B)(*1*) of this section and now deleted with replacement paragraph (c)(519)(i)(A)(*2*) of this section, Rule 1162, ''Polyester Resin Operations,'' adopted on August 27, 2007.

(C) Sacramento Metropolitan Air Quality Management District

(*1*) Rule 411, ''NOx from Boilers, Process Heaters and Steam Generators'' adopted on October 27, 2005 and amended on August 23, 2007.

(D) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 427, ''Steam Drive Crude Oil Production Wells,'' adopted on January 16, 1980 and amended on October 17, 2007.

(E) San Joaquin Valley Unified Air Pollution Control District

(*1*) Rule 4662, ''Organic Solvent Degreasing Operations,'' Adoption

April 11, 1991 and amended September 20, 2007

(*2*) Rule 4663, ''Organic Cleaning Storage, and Disposal,'' Adoption December 20, 2001 and amended September 20, 2007

(*3*) Rule 4624, ''Transfer of Organic Liquid,'' adopted on December 20, 2007.

(*4*) Rule 4653, ''Adhesives,'' adopted on September 20, 2007.

(*5*) Rule 4703, ''Stationary Gas Turbines,'' adopted on September 20, 2007.

(*6*) Rule 4621, ''Gasoline Transfer into Stationary Storage Containers, Delivery Vessels, and Bulk Plants,'' amended on December 20, 2007.

(*7*) Rule 4622, ''Gasoline Transfer into Motor Vehicle Fuel Tanks,'' amended on December 20, 2007.

(*8*) Rule 4651, ''Soil Decontamination Operations,'' amended on September 20, 2007.

(*9*) Rule 4604, ''Can and Coil Coating Operations,'' adopted on September 20, 2007.

(*10*) Rule 4612, ''Motor Vehicle and Mobile Equipment Coating Operations-Phase II,'' adopted on September 20, 2007.

(*11*) Rule 4605, ''Aerospace Assembly and Component Coating Operations,'' adopted on September 20, 2007.

(*12*) 4684, ''Polyester Resin Operations,'' adopted on September 20, 2007.

(*13*) Rule 4661, ''Organic Solvents,'' amended on September 20, 2007.

(*14*) Rule 2020, ''Exemptions,'' adopted on September 19, 1991 and amended on December 20, 2007.

(F) San Diego Air Pollution Control District.

(*1*) Rule 67.6.1, ''Cold Solvent Cleaning and Stripping Operations,'' adopted May 23, 2007.

(*2*) Rule 67.6.2, ''Vapor Degreasing Operations,'' adopted May 23, 2007.

(*3*) Rule 67.0, ''Architectural Coatings,'' adopted on December 12, 2001.

(*4*) Previously approved on June 20, 2013, in paragraph (c)(354)(i)(F)(*3*) of this section and now deleted without replacement, Rule 67.0, ''Architectural Coatings,'' adopted on December 12, 2001.

(G) Northern Sierra Air Quality Management District.

(*1*) Rule 227, ''Cutback and Emulsified Asphalt Paving Materials,'' adopted on November 27, 2006.

(355) The following plan revision was submitted on November 30, 2007, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) Attachment 3 to Executive Order S–07–003, Appendix H, Revised Proposed Revision to the Pesticide Element of the 1994 Ozone SIP for the Ventura County Nonattainment Area (August 13, 2007).

(*2*) California Air Resources Board, Executive Order S–07–003, November 30, 2007; to Wit: Revised Pesticide Element of the 1994 Ozone SIP for the Ventura County Nonattainment Area.

(356) The following plan was submitted on November 16, 2007, by the Governor's Designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Air Pollution Control District.

(*1*) 2007 PM10 Maintenance Plan and Request for Redesignation, adopted by the San Joaquin Valley Air Pollution Control District on September 20, 2007, section 6. Contingency Plan on pages 16 to 17.

(ii) *Additional materials.* (A) San Joaquin Valley Air Pollution Control District.

(*1*) 2007 PM10 Maintenance Plan and Request for Redesignation, adopted by the San Joaquin Valley Air Pollution Control District on September 20, 2007, except for Appendices A through F.

(*2*) State of California, Air Resources Board, Staff Report, Analysis of the San Joaquin Valley 2007 PM10 Maintenance Plan, Release Date: October 12, 2007, Appendix B Emission Inventory.

(*3*) Letter dated May 13, 2008, from James N. Goldstene, California Air Resources Board, to Wayne Nastri, EPA, providing revised motor vehicle emission budgets for the 2007 San Joaquin Valley PM10 Maintenance Plan.

(B) State of California Air Resources Board.

(*1*) Proposed State Strategy for California's 2007 State Implementation Plan, adopted on September 27, 2007.

(*2*) CARB Resolution No. 07–28 with Attachments A and B, September 27, 2007. Commitment to achieve the total emissions reductions necessary to attain the Federal standards in the SJV air basin, which represent 2.3 tons per day (tpd) of direct $PM_{2.5}$ and 17.1 tpd of

nitrogen oxides by 2014 for purposes of the 1997 $PM_{2.5}$ NAAQS, as described in Resolution No. 07–28 at Attachment B, pp. 3–6, and modified by CARB Resolution No. 09–34 (April 24, 2009) adopting ''Status Report on the State Strategy for California's 2007 State Implementation Plan (SIP) and Proposed Revisions to the SIP Reflecting Implementation of the 2007 State Strategy'' and by CARB Resolution No. 11–24 (April 28, 2011) adopting the ''Progress Report on Implementation of $PM_{2.5}$ State Implementation Plans (SIP) for the South Coast and San Joaquin Valley Air Basins and Proposed SIP Revisions.''

(*3*) Executive Order S–07–002, Relating to Approval of the State Strategy for California's State Implementation Plan (SIP) for the Federal 8-Hour Ozone and $PM_{2.5}$ Standards, November 16, 2007.

(*4*) CARB Resolution No. 07–28 with Attachments A and B, September 27, 2007. Commitments to achieve the total emissions reductions necessary to attain the Federal standards in the SJV air basin, which represent aggregate emissions reductions of 24 tons per day (tpd) of volatile organic compounds (VOC) and 46 tpd of nitrogen oxides (NO_X) by 2023 from existing technologies and 81 tpd of NO_X by 2023 from new technologies and to achieve 23 tpd of VOC by 2014; 88–93 tpd of NO_X by 2017; 24 tpd of VOC and 56 tpd of NO_X by 2020 as provided in CARB Resolution 07–28, Attachment B, pp. 3–6 as modified by the 2009 State Strategy Status Report, pp. 20–21 as adopted by CARB Resolution No. 09–34 (April 24, 2009).

(357) The following commitments were submitted on February 29, 2008, by the Governor's Designee:

(i) *Incorporation by reference.* (A) Commitments for the installation and operation of a FRM or FEM PM–10 monitor and SIP development and submittal.

(*1*) Resolution No. 2008–001–02, adopted by the Air Pollution Control Board, Kern County Air Pollution Control District on February 27, 2008.

(*2*) Executive Order S–08–004, adopted by the California Air Resources Board on March 3, 2008.

(358) The 8–Hour Ozone Reasonable Available Control Technology State Implementation Plans (RACT)(SIP) for the following Air Quality Management Districts (AQMDs)/Air Pollution Control Districts (APCDs) were submitted on January 31, 2007, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Resolution 06–24 (A Resolution of the South Coast Air Quality Management District (SCAQMD) Board certifying that the SCAQMD's current air pollution rules and regulations fulfill the 8-hour Reasonably Available Control Technology (RACT) requirements, and adopting the RACT SIP revision, dated July 14, 2006.

(*2*) South Coast Air Quality Management District (SCAQMD) Staff Report, SCAQMD 8–Hour Ozone Reasonably Available Control Technology (RACT) State Implementation Plan (SIP) Demonstration, including appendices, dated June 2006.

(*3*) Notice of Exemption from the California Environmental Quality Act, SCAQMD 8–Hour Ozone Reasonably Available Control Technology (RACT) State Implementation Plan (SIP), dated June 2, 2006.

(*4*) EPA comment letter to South Coast Air Quality Management District dated June 28, 2006, on 8-hour Ozone Reasonably Available Control Technology—State Implementation Plan (RACT SIP) Analysis, draft staff report dated May 2006, from Andrew Steckel, Chief, Rulemaking Office, U.S. EPA to Mr. Joe Cassmassi, Planning and Rules Manager, South Coast Air Quality Management District.

(B) Ventura County Air Pollution Control District.

(*1*) Ventura County Air Pollution Control Board Resolution approving and adopting the 2006 Reasonably Available Control Technology State Implementation Plan Revision, dated June 27, 2006.

(*2*) Final Ventura County Air Pollution Control District 2006 Reasonably Available Control Technology (RACT) State Implementation Plan (SIP) Revision, including Tables A–1, A–2, B, C, and D, dated June 27, 2006.

(ii) *Additional materials.* (A) Antelope Valley Air Quality Management District.

(*1*) 8-Hour Reasonably Available Control Technology—State Implementation Plan Analysis (RACT SIP Analysis), August 2006, adopted on September 19, 2006.

(*2*) [Reserved]

(B) Yolo-Solano Air Quality Management District.

(*1*) Reasonably Available Control Technology (RACT) State Implementation Plan (SIP), adopted on September 13, 2006.

(*2*) [Reserved]

(359) New and amended regulations were submitted on July 18, 2008, by the Governor's designee.

(i) *Incorporation by reference.* (A) North Coast Unified Air Quality Management District.

(*1*) Rule 104.2, ''Visible Emissions,'' Rule 104.3, ''Particulate Matter,'' Rule 104.4, ''Fugitive Dust Emissions,'' and Rule 104.10, ''Petroleum Loading and Storage,'' originally adopted on November 3, 1982 and revised on May 19, 2005.

(*2*) Rule 200, ''Effective Date and Definitions,'' Rule 202, ''Burn Hours and Notice of Ignition,'' Rule 203, ''General Burn Practices, Requirements, and Conditions,'' Rule 204, ''Ignition Devices and Methods,'' Rule 207, ''Wildland Vegetation Management,'' and Rule 208, ''Burn Registration Program,'' originally adopted on July 18, 2003 and revised on May 15, 2005; Rule 201, ''General Prohibitions and Exemptions for Selected Open Burning'' originally adopted on July 18, 2003 and revised on May 17, 2007; Rule 205, ''Certificates from Department of Fish and Game,'' adopted on July 18, 2003; and Rule 206, ''Burning at Disposal Sites,'' originally adopted on July 18, 2003 and revised on December 16, 2004.

(*3*) Rule 100, ''General Provisions,'' originally adopted on November 3, 1982 and amended on May 19, 2005.

(*4*) Rule 101, ''Definitions,'' originally adopted on November 3, 1982 and amended on May 19, 2005 and May 15, 2008.

(*5*) Rule 108, ''Severability of Rules and Regulations,'' originally adopted on May 19, 2005.

(B) South Coast Air Quality Management District

(*1*) Rule 1121, ''Fuel Burning Equipment,'' adopted on December 10, 1999 and amended on September 3, 2004.

(*2*) Rule 445, ''Wood Burning Devices,'' adopted on March 7, 2008.

(C) Placer County Air Pollution Control District.

(*1*) Rule 212, ''Storage of Organic Liquids,'' adopted on May 24, 1977 and amended on June 19, 1997.

(*2*) Rule 216, ''Organic Solvent Cleaning and Degreasing Operations,'' amended on December 11, 2003.

(*3*) Rule 215, ''Transfer of Gasoline Into Trucks, Trailers, and Railroad Tank Cars at Loading Facilities,'' adopted on June 19, 1997.

(D) Antelope Valley Air Quality Management District.

(*1*) Rule 444, ''Open Outdoor Fires,'' adopted on October 8, 1976 and revised on February 19, 2008.

(E) Santa Barbara County Air Pollution Control District.

(*1*) Rule 361, ''Small Boilers, Steam Generators and Process Heaters,'' adopted on January 17, 2008.

(F) San Diego County Air Pollution Control District.

(*1*) Rule 61.4, ''Transfer of Volatile Organic Compounds into Vehicle Fuel Tanks,'' revised on March 26, 2008.

(360) New and amended regulations were submitted on May 20, 2008 by the Governor's designee.

(i) *Incorporation by Reference.* (A) South Coast Air Quality Management District

(*1*) Rule 1110.2, ''Gaseous- and Liquid-Fueled Internal Combustion Engines, adopted on August 3, 1990 and amended February 1, 2008.

(361) New and amended regulations were submitted on October 20, 2008, by the governor's designee.

(i) *Incorporation by Reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Rule 102, ''Definitions,'' adopted on October 18, 1971 and revised on June 19, 2008.

(*2*) Rule 333, ''Control of Emissions from Reciprocating Internal Combustion Engines,'' adopted on June 19, 2008.

(*3*) Rule 339, ''Motor Vehicle and Mobile Equipment Coating Operations,'' revised on June 19, 2008.

(*4*) Rule 201, ''Permits Required,'' revised June 19, 2008.

(B) Antelope Valley Air Quality Management District

(1) Rule 1173, ''Fugitive Emissions of Volatile Organic Compounds,'' adopted July 7, 1989 and amended June 17, 2008.

(362) New and amended regulations were submitted on April 29, 2009 by the Governor's designee.

(i) *Incorporation by Reference.* (A) San Diego Air Pollution Control District.

(*1*) Rule 27.1, ''Federal Requirements for the San Diego County Air Pollution Control District's Alternative Mobile Source Emission Reduction Program Approved On September 8, 2000,'' adopted and effective on August 8, 2008.

(B) South Coast Air Quality Management District.

(*1*) Rule 1168, ''Adhesive and Sealant Applications,'' amended on January 7, 2005.

(*2*) Rule 1156, ''Further Reductions of Particulate Emissions from Cement Manufacturing Facilities,'' amended on March 6, 2009.

(C) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 450, ''Graphic Arts Operations,'' adopted October 23, 2008.

(D) San Joaquin Valley Air Pollution Control District.

(*1*) Rule 4902, ''Residential Water Heaters,'' amended on March 19, 2009.

(363) New and amended regulations were submitted on March 17, 2009 by the Governor's designee.

(i) *Incorporation by Reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 1020, ''Definitions,'' adopted on June 18, 1992 and amended on January 15, 2009.

(*2*) Rule 4607, ''Graphic Arts and Paper, Film, Foil, and Fabric Coatings,'' adopted on December 18, 2008.

(*3*) Rule 4306, ''Boilers, Steam Generators and Process Heaters—Phase 3, '' adopted on October 16, 2008.

(*4*) Rule 4307, ''Boilers, Steam Generators and Process Heaters—2.0 MMbtu/hr to 5.0 MMbtu/hr,'' adopted on October 16, 2008.

(*5*) Rule 2201, ''New and Modified Stationary Source Review Rule,'' adopted on September 19, 1991, and amended on December 18, 2008.

(*6*) Rule 2530, ''Federally Enforceable Potential to Emit,'' adopted on June 15, 1995, and amended on December 18, 2008.

(*7*) Rule 4320, ''Advance Emission Reduction Options for Boilers, Steam Generators and Process Heaters greater than 5.0 MMbtu/hr,'' adopted on October 16, 2008.

(B) Santa Barbara County Air Pollution Control District.

(*1*) Rule 102, ''Definitions,'' adopted on October 18, 1971 and amended on January 15, 2009.

(*2*) Rule 316, ''Storage and Transfer of Gasoline,'' adopted on January 15, 2009.

(C) Yolo Solano Air Quality Management District

(*1*) Rule 3.21, ''Rice Straw Emission Reduction Credits,'' adopted on December 10, 2008.

(D) Placer County Air Pollution Control District.

(*1*) Rule 231, ''Industrial, Institutional and Commercial Boiler, Steam Generator and Process Heaters,'' amended on October 9, 1997.

(E) Ventura County Air Pollution Control District.

(*1*) Rule 74.18, ''Motor Vehicle and Mobile Equipment Coating Operations,'' revised on November 11, 2008.

(F) South Coast Air Quality Management District.

(*1*) Rule 223, ''Emission Reduction Permits for Large Confined Animal Facilities,'' adopted on June 2, 2006.

(364) New and amended regulations were submitted on December 23, 2008 by the Governor's designee.

(i) *Incorporation by Reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4606, ''Wood Products and Flat Wood Paneling Product Coating Operations,'' adopted on October 16, 2008.

(*2*) Rule 4901, ''Wood Burning Fireplaces and Wood Burning Heaters,'' amended on October 16, 2008.

(*3*) Rule 4603, ''Surface Coating of Metal Parts and Products,'' adopted on October 16, 2008.

(*4*) Previously approved on October 11, 2009 in paragraph (c)(364)(i)(A)(*2*) of this section and now deleted with replacement in paragraph (c)(457)(i)(H)(*1*), Rule 4901, ''Wood Burning Fireplaces and Wood Burning Heaters,'' amended on October 16, 2008.

(B) South Coast Air Quality Management District.

(*1*) Rule 1158, ''Storage, Handling, and Transport of Coke, Coal and Sulfur,'' amended July 11, 2008.

(*2*) Rule 1186, ''PM_{10} Emissions from Paved and Unpaved Roads and Livestock Operations,'' amended on July 11, 2008.

(C) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.41, ''Expandable Polystyrene Manufacturing Operations,'' adopted on September 10, 2008.

(D) Mojave Desert Air Quality Management District.

(*1*) Rule 1165, ''Glass Melting Furnaces,'' amended on August 25, 2008.

(365) New and amended regulations were submitted on March 27, 2008, by the Governor's designee.

(i) *Incorporation by Reference*. (A) California Air Resources Board.

(*1*) Barclays Official California Code of Regulations, Title 17 Public Health, Division 3 Air Resources, Chapter 1 Air Resources Board, Subchapter 8.5 Consumer Products, Article 1 Antiperspirants and Deodorants, amendment filed 6–20–2005, operative 7–20–2005.

(*2*) Barclays Official California Code of Regulations, Title 17 Public Health, Division 3 Air Resources, Chapter 1 Air Resources Board, Subchapter 8.5 Consumer Products, Article 2 Consumer Products, amendment filed 11–8–2007, operative 12–8–2007.

(*3*) Barclays Official California Code of Regulations, Title 17 Public Health, Division 3 Air Resources, Chapter 1 Air Resources Board, Subchapter 8.5 Consumer Products, Article 3 Aerosol Coating Products, amendment filed 11–8–2007, operative 12–8–2007.

(366) New and amended regulations for the following agencies were submitted on April 6, 2009, by the Governor's designee.

(i) *Incorporation by reference*. (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4103, ''Open Burning,'' amended May 17, 2007.

(B) South Coast Air Quality Management District.

(*1*) Rule 1125, ''Metal Container, Closure, and Coil Coating Operations,'' amended on March 7, 2008.

(*2*) Rule 1149, ''Storage Tank and Pipeline Cleaning and Degassing,'' amended on May 2, 2008.

(*3*) Rule 1162, ''Polyester Resin Operations,'' amended on July 8, 2005.

(*4*) Rule 1151, ''Motor Vehicle and Mobile Equipment Non-Assembly Line Coating Operations,'' amended on December 2, 2005.

(C) Antelope Valley Air Quality Management District.

(*1*) Rule 461, ''Gasoline Transfer and Dispensing,'' adopted on October 21, 2008.

(D) Placer County Air Pollution Control District.

(*1*) Rule 516, ''Rice Straw Emission Reduction Credits,'' adopted on February 19, 2009.

(367) The following plan was submitted on December 19, 2007, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional material*. (A) Monterey Bay Unified Air Pollution Control District (MBUAPCD).

(*1*) 2007 Federal Maintenance Plan for Maintaining the National Ozone Standard in the Monterey Bay Region (Monterey Maintenance Plan), excluding Appendix A.

(*2*) MBUAPCD Board of Directors Certified Minutes and Resolution dated March 21, 2007, adopting the Monterey Maintenance Plan.

(*3*) Letter dated May 10, 2007, from Association of Monterey Bay Area Governments (AMBAG) to MBUAPCD, confirming AMBAG's approval of the Monterey Maintenance Plan on May 9, 2007.

(*4*) California Air Resources Board Executive Order # G–07–68, dated December 19, 2007, adopting the Monterey Maintenance Plan.

(368) New and amended regulations were submitted on June 26, 2009 by the Governor's designee.

(i) *Incorporation by Reference*. (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4570, ''Confined Animal Facilities,'' adopted on June 18, 2009.

(369)–(370) [Reserved]

(371) [Reserved]

(372) The following revisions to the California Motor Vehicle Inspection and Maintenance Program were submitted on June 5, 2009 (2009 I/M Revision), by the Governor's Designee.

(i) *Incorporation by reference.* (A) California Air Resources Board. (*1*) California Code of Regulations, Title 16 (Professional and Vocational Regulations), Division 33 (Bureau of Automotive Repair), Chapter 1 (Automotive Repair Dealers and Official Stations and Adjusters), Article 1 (General Provisions), sections 3303.1, ''Public Access to License, Administrative Action, and Complaint Information'' (operative July 20, 2007); 3303.2, ''Review of Applications for Licensure, Registration and Certification; Processing Time'' (operative July 9, 2003); Article 5.5 (Motor Vehicle Inspection Program), sections 3340.1, ''Definitions'' (operative June 29, 2006); 3340.7, ''Fee for Inspection at State-Contracted Test-Only Facility'' (operative August 17, 1995); 3340.9, ''Repair Assistance Program'' (operative October 30, 2000); 3340.10, ''Licensing of Smog Check Stations'' (operative July 26, 1996); 3340.15, ''General Requirements for Smog Check Stations'' (operative July 9, 2003); 3340.16, ''Test-Only Station Requirements'' (operative August 1, 2007); 3340.16.5, ''Test-and-Repair Station Requirements'' (operative June 29, 2006); 3340.17, ''Test Equipment, Electronic Transmission, Maintenance and Calibration Requirements'' (operative June 29, 2006); 3340.18, ''Certification of Emissions Inspection System Calibration Gases and Blenders of Gases'' (operative July 9, 2003); 3340.22.1, ''Smog Check Station Service Signs'' (operative February 1, 2001); 3340.22.2, ''Smog Check Station Repair Cost Limit Sign'' (operative February 1, 2001); 3340.23, ''Licensed Smog Check Station That Ceases Operating As a Licensed Station'' (operative June 23, 1995); 3340.24, ''Suspension, Revocation, and Reinstatement of Licenses'' (operative June 23, 1995); 3340.28, ''Licenses and Qualifications for Technicians'' (operative January 17, 2009); 3340.29, ''Licensing of Technicians'' (operative January 17, 2009); 3340.30, ''General Requirements for Licensed Technicians'' (operative June 23, 1995); 3340.31, ''Retraining of Licensed Technicians'' (operative June 23, 1995); 3340.32, ''Standards for the Certification of Institutions Providing Retraining to Licensed Technicians or Prerequisite Training to Those Seeking to Become Licensed Technicians'' (operative July 9, 2003); 3340.32.1, ''Standards for the Decertification and Recertification of Institutions Providing Retraining to Licensed Technicians or Prerequisite Training to Those Seeking to Become Licensed Technicians'' (operative June 23, 1995); 3340.33, ''Standards for the Certification of Basic and Advanced Instructors Providing Retraining to Intern, Basic Area, and Advanced Emission Specialist Licensed Technicians or Prerequisite Training to Those Seeking to Become Intern, Basic Area, or Advanced Emission Specialist Licensed Technicians'' (operative February 1, 2001); 3340.33.1, ''Standards for the Decertification and Recertification of Instructors Providing Retraining to Licensed Technicians or Prerequisite Training to Those Seeking to Become Licensed Technicians'' (operative June 23, 1995); 3340.35, ''A Certificate of Compliance, Noncompliance, Repair Cost Waiver or an Economic Hardship Extension'' (operative June 25, 1998); 3340.35.1, ''A Certificate of Compliance, Noncompliance, Repair Cost Waiver or an Economic Hardship Extension Fee Calculation'' (operative December 2, 1998); 3340.36, ''Clearing Enforcement Forms'' (operative July 26, 1996); 3340.37, ''Installation of Oxides of Nitrogen (NOx) Devices)'' (operative July 26, 1996); 3340.41, ''Inspection, Test, and Repair Requirements'' (operative June 29, 2006); 3340.42, ''Mandatory Smog Check Inspection and Test Procedures, and Emissions Standards'' (operative January 11, 2008); 3340.50, ''Fleet Facility Requirements'' (operative February 15, 2002); 3340.50.3, ''Fleet Records and Reporting Requirements'' (operative June 23, 1995); 3340.50.4, ''Fleet Certificates'' (operative June 25, 1998); 3340.50.5 ''Suspension or Rescission of Fleet Facility License'' (operative June 23, 1995); Article 10 (Gold Shield Program), sections 3392.1, ''Gold Shield Program (GSP)'' (operative May 28, 2003); 3392.2, ''Responsibilities of Smog Check Stations Certified as Gold Shield'' (operative August 1, 2007); 3392.3, ''Eligibility for Gold Shield Certification; Quality Assurance'' (operative May 28, 2003); 3392.4, ''Gold Shield Guaranteed Repair (GSGR) Program Advertising Rights'' (operative May 28, 2003); 3392.5, ''Causes for Invalidation of

Gold Shield Station Certification'' (operative May 28, 2003); 3392.6, ''Gold Shield Program Hearing and Determination'' (operative May 28, 2003); Article 11 (Consumer Assistance Program), sections 3394.1, ''Purpose and Components of the Consumer Assistance Program'' (operative October 30, 2000); 3394.2, ''Consumer Assistance Program Administration'' (operative October 30, 2000); 3394.3, ''State Assistance Limits'' (operative October 30, 2000); 3394.4, ''Eligibility Requirements'' (operative August 12, 2008); 3394.5, ''Ineligible Vehicles'' (operative October 30, 2000); 3394.6, ''Application and Documentation Requirements'' (operative July 31, 2006).

(ii) *Additional material.* (A) California Air Resources Board. (*1*) Executive Order S–09–008, dated June 9, 2009, adopting the 2009 I/M Revision.

(*2*) Non-regulatory portion of the Revised State Implementation Plan for California's Motor Vehicle Inspection & Maintenance Program (April 7, 2009), excluding chapter 51.351 (except as it applies to the San Francisco Bay Area), chapter 51.352, and attachments 4 and 5.

(*3*) Health and Safety Code (2009): Division 26, Part 1, Chapter 2, section 39032.5; Part 5, Chapter 5 (Motor Vehicle Inspection Program), Articles 1–9.

(*4*) Business and Professions Code (2008): Division 3, Chapter 20.3 (Automotive Repair), Article 4, sections 9886, 9886.1, 9886.2, 9886.3, 9886.4.

(*5*) Vehicle Code (2009): Division 3, Chapter 1 (Original and Renewal of Registration; Issuance of Certificates of Title), Article 1, sections 4000.1, 4000.2, 4000.3, 4000.6.

(373) The following revisions to the California Motor Vehicle Inspection and Maintenance Program were submitted on October 28, 2009, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional material.* (A) California Air Resources Board. (*1*) California I/M Program SIP Revision—Additional Enhanced I/M Performance Modeling, Tables of Results, excluding New Mobile 6 Input and Output Files and New Registration Distribution Files.

(374) The following revisions to the California Reformulated Gasoline Regulations were submitted on June 15, 2004 (2004 RFG Revision), by the Governor's Designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) Title 13, California Code of Regulations, Division 3 (Air Resources Board), Chapter 5 (Standards for Motor Vehicle Fuels), Article 1 (Standards for Gasoline), Subarticle 1 (Gasoline Standards That Became Applicable Before 1996), sections 2253.4, ''Lead in Gasoline'' (operative August 12, 1991); 2254, ''Manganese Additive Content'' (operative August 12, 1991); 2257, ''Required Additives in Gasoline'' (operative July 16, 1999); 2259, ''Exemptions for Motor Vehicle Fuels Used in Test Programs'' (operative February 15, 1995); Subarticle 2 (Standards for Gasoline Sold Beginning March 1, 1996), sections 2260, ''Definitions'' (operative May 1, 2003); 2261, ''Applicability of Standards; Additional Standards'' (operative May 1, 2003); 2262, ''The California Reformulated Gasoline Phase 2 and Phase 3 Standards'' (operative December 24, 2002); 2262.3, ''Compliance With the CaRFG Phase 2 and CaRFG Phase 3 Standards for Sulfur, Benzene, Aromatic Hydrocarbons, Olefins, T50 and T90'' (operative August 20, 2001); 2262.4, ''Compliance With the CaRFG Phase 2 and CaRFG Phase 3 Standards for Reid Vapor Pressure'' (operative December 24, 2002); 2262.5, ''Compliance With the Standards for Oxygen Content'' (operative December 24, 2002); 2262.6, ''Prohibition of MTBE and Oxygenates Other Than Ethanol in California Gasoline Starting December 31, 2003'' (operative May 1, 2003); 2262.9, ''Requirements Regarding Denatured Ethanol Intended For Use as a Blend Component in California Gasoline'' (operative December 24, 2002); 2263, ''Sampling Procedures and Test Methods'' (operative May 1, 2003); 2263.7, ''Multiple Notification Requirements'' (operative September 2, 2000); 2264, ''Designated Alternative Limits'' (operative August 20, 2001); 2264.2, ''Election of Applicable Limit for Gasoline Supplied From a Production or Import Facility'' (operative September 2, 2000); 2265, ''Gasoline Subject to PM Alternative Specifications Based on the California Predictive Model'' (operative December 24, 2002); 2266, ''Certified Gasoline Formulations

Resulting in Equivalent Emission Reductions Based on Motor Vehicle Emissions Testing'' (operative August 20, 2001); 2266.5, ''Requirements Pertaining to California Reformulated Gasoline Blendstock for Oxygen Blending (CARBOB) and Downstream Blending'' (operative May 1, 2003); 2267, ''Exemptions for Gasoline Used in Test Programs'' (operative September 2, 2000); 2268, ''Liability of Persons Who Commit Violations Involving Gasoline That Has Not Yet Been Sold or Supplied to a Motor Vehicle'' (operative September 2, 2000); 2269, ''Submittal of Compliance Plans'' (operative December 24, 2002); 2270, ''Testing and Recordkeeping'' (operative December 24, 2002); 2271, ''Variances'' (operative December 24, 2002); 2272, ''CaRFG Phase 3 Standards for Qualifying Small Refiners'' (operative May 1, 2003); 2273, ''Labeling of Equipment Dispensing Gasoline Containing MTBE'' (operative May 1, 2003); 2273.5, ''Documentation Provided with Delivery of Gasoline to Retail Outlets'' (operative May 1, 2003).

(*2*) ''California Procedures for Evaluating Alternative Specifications for Phase 2 Reformulated Gasoline Using the California Predictive Model,'' as last amended December 11, 1998.

(*3*) ''California Procedures for Evaluating Alternative Specifications for Phase 3 Reformulated Gasoline Using the California Predictive Model,'' as last amended April 25, 2001.

(*4*) ''California Procedures for Evaluating Alternative Specifications for Gasoline Using Vehicle Emissions Testing,'' as last amended April 25, 2001.

(*5*) ''Procedures for Using the California Model for California Reformulated Gasoline Blendstocks for Oxygenate Blending (CARBOB),'' as adopted April 25, 2001.

(ii) *Additional material.* (A) California Air Resources Board.

(*1*) Executive Order G–125–320, dated June 15, 2004, adopting the 2004 RFG Revision.

(*2*) The following additional material is available for inspection at EPA Region 9. To inspect this material, please contact EPA Region 9, 75 Hawthorne Street, San Francisco, California, 94105, Chief of Air Planning, (415) 947–8021.

(*i*) Standard Test Method for Determination of Ethanol Content of Denatured Fuel Ethanol by Gas Chromatography, Designation: D 5501–94 (1998); Standard Test Method for Gum Content in Fuels by Jet Evaporation, Designation: D 381–00; Standard Test Method for Water Using Volumetric Karl Fischer Titration, Designation: E 203–96; Standard Test Method for Water in Organic Liquids by Coulometric Karl Fischer Titration, Designation: E 1064–00; Standard Test Methods for Chloride Ion In Water, Designation: D 512–89 (1999); Standard Test Methods for Copper in Water, Designation: D 1688–95; Standard Test Method for Acidity in Volatile Solvents and Chemical Intermediates Used in Paint, Varnish, Lacquer, and Related Products, Designation: D 1613–96 (1999); Standard Test Method for Determination of pHe of Ethanol, Denatured Fuel Ethanol, and Fuel Ethanol (Ed75–Ed85), Designation: D 6423–99.

(*ii*) Standard Test Method for Determination of Total Sulfur in Light Hydrocarbons, Motor Fuels and Oils by Ultraviolet Fluorescence, Designation: D 5453–93.

(*iii*) Standard Test Method for Determination of MTBE, ETBE, TAME, DIPE, *tertiary*-Amyl Alcohol and C1 to C4 Alcohols in Gasoline by Gas Chromatography, Designation: D 4815–99; Standard Test Method for Distillation of Petroleum Products at Atmospheric Pressure, Designation: D 86–99a; Standard Test Method for Determination of Olefin Content of Gasolines by Supercritical-Fluid Chromatography, Designation: D 6550–00.

(375) The following revisions to the California Reformulated Gasoline Regulations were submitted on February 3, 2009 (2009 RFG Revision), by the Governor's Designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) Title 13, California Code of Regulations, Division 3 (Air Resources Board), Chapter 5 (Standards for Motor Vehicle Fuels), Article 1 (Standards for Gasoline), Subarticle 2 (Standards for Gasoline Sold Beginning March 1, 1996), sections 2260, ''Definitions'' (operative August 29, 2008); 2261, ''Applicability of Standards; Additional Standards'' (operative August 29, 2008); 2262, ''The

California Reformulated Gasoline Phase 2 and Phase 3 Standards'' (operative August 29, 2008); 2262.3, ''Compliance With the CaRFG Phase 2 and CaRFG Phase 3 Standards for Sulfur, Benzene, Aromatic Hydrocarbons, Olefins, T50 and T90'' (operative August 29, 2008); 2262.4, ''Compliance With the CaRFG Phase 2 and CaRFG Phase 3 Standards for Reid Vapor Pressure'' (operative August 29, 2008); 2262.5, ''Compliance With the Standards for Oxygen Content'' (operative August 29, 2008); 2262.6, ''Prohibition of MTBE and Oxygenates Other Than Ethanol in California Gasoline Starting December 31, 2003'' (operative April 9, 2005); 2262.9, ''Requirements Regarding Denatured Ethanol Intended For Use as a Blend Component in California Gasoline'' (operative August 29, 2008); 2263, ''Sampling Procedures and Test Methods'' (operative August 29, 2008); 2263.7, ''Multiple Notification Requirements'' (operative August 29, 2008); 2264, ''Designated Alternative Limits'' (operative August 20, 2001); 2264.2, ''Election of Applicable Limit for Gasoline Supplied From a Production or Import Facility'' (operative August 29, 2008); 2265, ''Gasoline Subject to PM Alternative Specifications Based on the California Predictive Model'' (operative August 29, 2008); 2265.1, ''Offsetting Emissions Associated with Higher Sulfur Levels'' (operative August 29, 2008); 2265.5, ''Alternative Emission Reduction Plan (AERP)'' (operative August 29, 2008); 2266, ''Certified Gasoline Formulations Resulting in Equivalent Emission Reductions Based on Motor Vehicle Emissions Testing'' (operative August 29, 2008); 2266.5, ''Requirements Pertaining to California Reformulated Gasoline Blendstock for Oxygen Blending (CARBOB) and Downstream Blending'' (operative August 29, 2008); 2270, ''Testing and Recordkeeping'' (operative August 29, 2008); 2271, ''Variances'' (operative August 29, 2008); 2273, ''Labeling of Equipment Dispensing Gasoline Containing MTBE'' (operative August 29, 2008).

(*2*) ''California Procedures for Evaluating Alternative Specifications for Phase 3 Reformulated Gasoline Using the California Predictive Model,'' as last amended August 7, 2008.

(*3*) ''Procedures for Using the California Model for California Reformulated Gasoline Blendstocks for Oxygenate Blending (CARBOB),'' as last amended August 7, 2008.

(ii) *Additional material.* (A) California Air Resources Board.

(*1*) Executive Order S–09–001, dated February 3, 2009, adopting the 2009 RFG Revision.

(376) The following revisions to the California Diesel Fuel Regulations were submitted on February 3, 2009 (2009 Diesel Fuels Revision), by the Governor's Designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) Title 13, California Code of Regulations, Division 3 (Air Resources Board), Chapter 1 (Motor Vehicle Pollution Control Devices), Article 1 (General Provisions), sections 1956.8, ''Exhaust Emissions Standards and Test Procedures—1985 and Subsequent Model Heavy-Duty Engines and Vehicles'' (operative December 31, 2008); 1960.1, ''Exhaust Emissions Standards and Test Procedures—1981 through 2006 Model Passenger Cars, Light-Duty and Medium-Duty Vehicles'' (operative March 26, 2004); 1961, ''Exhaust Emissions Standards and Test Procedures—2004 and Subsequent Model Passenger Cars, Light-Duty and Medium-Duty Vehicles'' (operative June 16, 2008); Chapter 5 (Standards for Motor Vehicle Fuels), Article 2 (Standards for Diesel Fuel), sections 2281, ''Sulfur Content of Diesel Fuel'' (operative August 4, 2005); 2282, ''Aromatic Hydrocarbon Content of Diesel Fuel'' (operative August 4, 2005); 2284, ''Lubricity of Diesel Fuel'' (operative August 4, 2005); 2285, ''Exemption from Diesel Fuel Requirements for Military-Specification Fuels Used in Qualifying Military Vehicles'' (operative August 14, 2004); Chapter 14 (Verification Procedure, Warranty and In-Use Compliance Requirements for In-Use Strategies to Control Emissions from Diesel Engines), section 2701, ''Definitions'' (operative January 1, 2005).

(*2*) Title 17, California Code of Regulations, Division 3 (Air Resources), Chapter 1 (Air Resources Board), Subchapter 7.5 (Airborne Toxic Control Measures), section 93114, ''Airborne

Toxic Control Measure To Reduce Particulate Emissions from Diesel-Fueled Engines—Standards for Nonvehicular Diesel Fuel'' (operative August 14, 2004).

(ii) *Additional material*. (A) California Air Resources Board.

(*1*) Executive Order S–09–001, dated February 3, 2009, adopting the 2009 Diesel Fuels Revision.

(377) New and amended regulations were submitted on September 15, 2009.

(i) *Incorporation by Reference*. (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 452, ''Can Coating,'' Rule 454, ''Degreasing Operations,'' Rule 463, ''Wood Products Coatings,'' adopted September 25, 2008.

(*2*) Rule 466, ''Solvent Cleaning,'' adopted on May 23, 2002.

(*3*) Rule 456, ''Aerospace Assembly and Component Coating Operations,'' amended on October 23, 2008.

(*4*) Rule 465, ''Polyester Resin Operations,'' amended on September 25, 2008.

(*5*) Rule 464, ''Organic Chemical Manufacturing Operations,'' adopted on September 25, 2008.

(B) Yolo Solano Air Quality Management District.

(*1*) Rule 2.37, ''Natural Gas-Fired Water Heaters and Small Boilers,'' revised on April 8, 2009.

(*2*) Rule 2.42, ''Nitric Acid Production,'' adopted on May 13, 2009.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 70, ''Storage and Transfer of Gasoline,'' adopted on March 10, 2009.

(378) New and amended regulations were submitted on January 10, 2010 by the Governor's designee.

(i) *Incorporation by Reference*. (A) South Coast Air Quality Management District.

(*1*) Rule 1173, ''Control of Volatile Organic Compound Leaks and Releases from Components at Petroleum Facilities and Chemical Plants,'' amended on February 6, 2009.

(*2*) Rule 1132, ''Further Control of VOC Emissions From High-Emitting Spray Booth Facilities,'' amended on May 5, 2006.

(*3*) Rule 1148.1, ''Oil and Gas Production Wells,'' adopted on March 5, 2004.

(B) Placer County Air Pollution Control District.

(*1*) Rule 245, ''Surface Coating of Metal Parts and Products,'' amended on August 20, 2009.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 74.12, ''Surface Coating of Metal Parts and Products,'' adopted on April 8, 2008.

(*2*) Rule74.29, ''Soil Decontamination Operations,'' adopted on April 8, 2008.

(D) San Joaquin Valley Air Pollution Control District

(*1*) Rule 4311, ''Flares,'' amended on June 18, 2009.

(E) Feather River Air Quality Management District.

(*1*) Rule 3.22, ''Internal Combustion Engines,'' adopted on June 01, 2009.

(379) New and amended regulations for the following APCDs were submitted on May 17, 2010 by the Governor's designee.

(i) *Incorporation by Reference*. (A) South Coast Air Quality Management District.

(*1*) Rule 1144, ''Vanishing Oils and Rust Inhibitors,'' adopted on March 6, 2009.

(*2*) Rule 1145, ''Plastic, Rubber, Leather, and Glass Coatings,'' amended on December 4, 2009.

(*3*) Rule 1111, ''Reduction of NO_X Emissions from Natural Gas-Fired, Fan-Type Central Furnaces,'' amended on November 6, 2009.

(*4*) Rule 1147, ''NO_X Reductions from Miscellaneous Sources,'' adopted on December 5, 2008.

(*5*) Rule 1157, ''PM_{10} Emission Reductions from Aggregate and Related Operations,'' adopted on September 6, 2006.

(*6*) Previously approved on August 4, 2010 in paragraph (c)(379)(i)(A)(*3*) of this section and now deleted with replacement in paragraph (c)(461)(i)(C)(*2*), Rule 1111, ''Reduction of NO_X Emissions from Natural-Gas-Fired Fan-Type Central Furnaces,'' amended on November 6, 2009.

(*7*) Previously approved on August 4, 2010 in paragraph (c)(379)(i)(A)(*4*) of this section and now deleted with replacement in paragraph (c)(428)(i)(D)(*2*), Rule 1147, ''NO_X Reductions from Miscellaneous Sources,'' adopted on December 5, 2008.

(B) San Diego County Air Pollution Control District.

(*1*) Rule 2, ''Definitions,'' Rev. Adopted and Effective on June 30, 1999, Table 1—Exempt Compounds: Rev. and Effective on November 4, 2009.

(*2*) Previously approved on September 17, 2010 in paragraph (c)(379)(i)(B)(*1*) of this section and now deleted with replacement in paragraph (c)(488)(i)(A)(*1*), Rule 2, ''Definitions,'' Rev. Adopted and Effective on June 30, 1999, Table 1—Exempt Compounds: Rev. and Effective on November 4, 2009.

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4308, ''Boilers, Steam Generators and Process Heaters —0.075 MMBtu/hr to less than 2.0 MMbtu/hr,'' adopted on December 17, 2009.

(*2*) Rule 4695, ''Brandy Aging and Wine Aging Operations'' adopted on September 17, 2010.

(*3*) Rule 4602, ''Motor Vehicle Assembly Coatings,'' amended on September 17, 2009.

(*4*) Rule 4603, ''Surface Coating of Metal Parts and Products, Plastic Parts and Products and Pleasure Crafts,'' amended on September 17, 2009.

(*5*) Rule 4692, ''Commercial Charbroiling,'' amended on September 17, 2009.

(*6*) Rule 4601, ''Architectural Coatings'', amended on December 17, 2009.

(*7*) Rule 9410, ''Employer Based Trip Reduction,'' adopted on December 17, 2009.

(D) Placer County Air Pollution Control District

(*1*) Rule 233, ''Biomass Boilers,'' amended on December 10, 2009.

(E) Mojave Desert Air Quality Management District.

(*1*) Rule 1159, ''Stationary Gas Turbines,'' amended on September 28, 2009.

(380) The following plan was submitted on July 14, 2010, by the Governor's Designee.

(i) *Incorporation by reference.* (A) Great Basin Unified Air Pollution Control District.

(*1*) ''Board Order #080128–01 Requiring the City of Los Angeles to Undertake Measures to Control PM–10 Emissions from the Dried Bed of Owens Lake,'' including Attachments A–D, adopted February 1, 2008, and included as Appendix C to the ''2010 PM–10 Maintenance Plan and Redesignation Request for the Coso Junction Planning Area,'' adopted May 17, 2010.

(ii) *Additional materials.* (A) Great Basin Unified Air Pollution Control District (GBUAPCD).

(*1*) Non-regulatory portions of ''The 2010 PM–10 Maintenance Plan and Redesignation Request for the Coso Junction Planning Area'' (the 2010 Plan), including Appendices A, B, and D, adopted May 17, 2010.

(*2*) Letter dated June 10, 2010 from Theodore D. Schade, GBUAPCD, to Deborah Jordan, United States Environmental Protection Agency Region 9, regarding Coso Junction PM–10 Contingency Measures.

(*3*) GBUAPCD Board Resolution 2010–01, dated May 17, 2010, adopting the 2010 Plan.

(B) California Air Resources Board (CARB).

(*1*) CARB Resolution 10–25, dated June 24, 2010, adopting the 2010 Plan.

(381) New and amended regulations were submitted on July 20, 2010, by the Governor's designee.

(i) *Incorporation by reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 101, ''Definitions,'' adopted on February 23, 2010.

(*2*) Rule 424, ''Architectural Coatings,'' amended on February 23, 2010.

(*3*) Rule 425, ''Aerospace Coating Operations,'' revised February 23, 2010.

(*4*) Rule 427, ''Automotive Refinishing Operations,'' revised February 23, 2010.

(*5*) Rule 400.1, ''Stationary Gas Turbine(s)—Reasonably Available Control Technology (RACT),'' adopted on February 23, 2010.

(*6*) Rule 116, ''Emissions Statement and Certification,'' adopted on February 23, 2010.

(*7*) Rule 400.2, ''Boilers, Process Heaters and Steam Generators,'' adopted on February 23, 2010.

(B) Kern County Air Pollution Control District.

(*1*) Rule 102, ''Definitions,'' adopted on March 11, 2010.

(*2*) Rule 410.1A, ''Architectural Coatings,'' adopted on March 11, 2010. Effective as of 1/1/2011.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 2, ''Definitions'', ''Exempt Organic Compounds,'' revised on January 12, 2010.

(*2*) Rule 74.2, ''Architectural Coatings,'' amended on January 12, 2010.

(D) Northern Sierra Air Quality Management District

(*1*) Rule 215, ''Phase II Vapor Recovery System Requirements,'' amended on February 22, 2010.

(E) Placer County Air Pollution Control District.

(*1*) Rule 502, ''New Source Review,'' as adopted on February 11, 2010.

(F) Feather River Air Quality Management District.

(*1*) Rule 10.1, ''New Source Review,'' as amended on October 5, 2009, except section C, as adopted on February 8, 1993.

(G) Antelope Valley Air Quality Management District.

(*1*) Rule 1134, ''Stationary Gas Turbines,'' amended on January 19, 2010.

(*2*) Rule 109, ''Recordkeeping for Volatile Organic Compound Emissions,'' amended April 20, 2010.

(*3*) Rule 403, ''Fugitive Dust,'' amended on April 20, 2010.

(H) Mojave Desert Air Quality Management District

(*1*) Rule 1117, ''Graphic Arts and Paper, Film, Foil and Fabric Coatings,'' amended September 28, 2009.

(I) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.3, ''Ringelmann Chart,'' revised on January 13, 2010.

(*2*) Rule 2.11, ''Particulate Matter Concentration,'' revised on January 13, 2010.

(*3*) Rule 2.12, ''Specific Contaminants,'' revised on January 13, 2010.

(J) San Diego Air Pollution Control District.

(*1*) Rule 66.1, ''Miscellaneous Surface Coating Operations and Other Processes Emitting Volatile Organic Compounds,'' adopted on February 24, 2010.

(K) South Coast Air Quality Management District.

(*1*) Rule 1112.1, ''Emissions of Particulate Matter and Carbon Monoxide from Cement Kilns,'' amended on December 4, 2009.

(382) New and amended regulations for the following APCDs were submitted on July 11, 2007, by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Permit to Operate for the Kiefer Landfill (''Permit to Operate No. 17359 (Rev01)''), as revised on November 13, 2006.

(ii) *Additional materials.* (A) El Dorado County Air Quality Management District.

(*1*) El Dorado County Air Quality Management District Reasonably Available Control Technology (RACT) State Implementation Plan (SIP) Update Analysis Staff Report (''2006 RACT SIP'') adopted on February 6, 2007.

(B) Feather River Air Quality Management District.

(*1*) 2006 Reasonably Available Control Technology (RACT) Analysis for State Implementation Plan (SIP) (''2006 RACT SIP'') as adopted on December 4, 2006.

(C) Sacramento Metropolitan Air Quality Management District.

(*1*) Reasonably Available Control Technology (RACT) as Applicable to the 8-Hour Ozone Standard, dated October 26, 2006, as adopted October 26, 2006, excluding the RACT determinations for:

(*i*) Pharmaceutical Products Manufacturing Source Category; and

(*ii*) Kiefer Landfill (RACT for volatile organic compounds).

(D) Placer County Air Pollution Control District.

(*1*) 2006 Reasonably Available Control Technology State Implementation Plan Update Analysis, as adopted on August 10, 2006.

(E) Mojave Desert Air Quality Management District.

(*1*) 8-Hour Reasonably Available Control Technology—State Implementation Plan Analysis (RACT SIP Analysis), August 2006, adopted on January 22, 2007.

(383) New and amended regulations were submitted on February 16, 2010, by the Governor's designee.

(i) *Incorporation by Reference.* (A) California Air Resources Board.

(*1*) Executive Order R–08–016, dated May 5, 2009.

(*2*) ''Final Regulation Order, Regulation for Reducing Emissions from Consumer Products,'' California Code of

Regulations, Title 17 (Public Health), Division 3 (Air Resources), Chapter 1 (Air Resources Board), Subchapter 8.5 (Consumer Products), Article 2 (Consumer Products), amendment filed 6–18–2009, operative 7–18–2009.

(384) New and amended regulations for the following APCD's were submitted on September 10, 2010 by the Governor's designee.

(i) *Incorporation by Reference.* (A) South Coast Air Quality Management District

(*1*) Resolution No. 10–20, dated July 9, 2010.

(*2*) ''Revision to the State Implementation Plan for the South Coast Air Quality Management District, State of California: Sulfur Oxides and Particulate Matter Offset Requirements for the Proposed CPV Sentinel Power Plant to be Located in Desert Hot Springs, California, Including AB 1318 Offset Tracking System'', which is incorporated by reference in Resolution No. 10–20, dated July 9, 2010.

(*3*) ''CPV Sentinel Energy Project AB 1318 Tracking System'', which is incorporated by reference in Resolution No. 10–20, dated July 9, 2010.

(385) New and amended regulations for the following APCDs were submitted on February 28, 2011.

(i) *Incorporation by Reference.* (A) [Reserved]

(B) Northern Sonoma County Air Pollution Control District.

(*1*) Rule 130, ''Definitions,'' amended December 14, 2010.

(*2*) Previously approved on May 6, 2011 in paragraph (c)(385)(i)(B)(1) of this section and now deleted with replacement in paragraph (c)(480)(i)(A)(*1*) of this section, Rule 130, ''Definitions,'' amended December 14, 2010.

(386) The following plan was submitted on November 16, 2007, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board (CARB).

(*1*) CARB Resolution 07–28, dated September 27, 2007, adopting the ''2007 State Implementation Plan for the 1997 ozone and $PM_{2.5}$ National Ambient Air Quality Standards'' (''2007 State Strategy'').

(*2*) ''Interstate Transport State Implementation Plan (SIP) for the 1997 8-hour Ozone Standard and $PM_{2.5}$ to satisfy the Requirements of Clean Air Act section 110(a)(2)(D)(i) for the State of California (September 21, 2007),'' as modified by Attachment A and submitted as Appendix C to the 2007 State Strategy (''2007 Transport SIP''), at page 5 (''Evaluation of Interference with Other States' Measures Required to Meet Regional Haze and Visibility SIP Requirements'').

(*3*) 2007 Transport SIP at pages 19–20 (Attachment A) (''Evaluation of Significant Contribution to Nonattainment or Interference with Maintenance of Attainment Standards in Another State'').

(*4*) 2007 Transport SIP at pages 21–22 (Attachment A) (''Evaluation of interference with Prevention of Significant Deterioration Measures of any other State'').

(*5*) ''110(a)(2) Infrastructure SIP,'' submitted as Appendix B to the 2007 State Strategy, and ''Legal Authority and Other Requirements,'' submitted as Appendix G to the 2007 State Strategy (collectively, ''2007 Infrastructure SIP'').

(387) The following plan was submitted on March 16, 2009, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board (CARB).

(1) CARB Resolution 09–4, dated January 22, 2009, adopting the ''California Regional Haze Plan''.

(2) The ''California Regional Haze Plan'', adopted on January 22, 2009, as amended and supplemented on September 8, 2009 in a ''letter from James N. Goldstene, CARB to Laura Yoshii, United States Environmental Protection Agency'', and as amended and supplemented on June 9, 2010 in a ''letter from James N. Goldstene, CARB to Jared Blumenfeld, United States Environmental Protection Agency''.

(388) New and amended regulations for the following APCD were submitted on April 5, 2011 by the Governor's Designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District—SCAQMD)

(*1*) Rule 1143, ''Consumer Paint Thinners & Multi-purpose Solvents,'' adopted on March 6, 2009 and amended December 3, 2010.

(*2*) Rule 1144, ''Metal Working Fluids and Direct-Contact Lubricants,'' adopted on March 6, 2009, and amended July 9, 2010.

(*3*) Rule 1175, ''Control of Emissions from the Manufacture of Polymeric Cellular (Foam) Products,'' amended November 5, 2010.

(*4*) Rule 2002, ''Allocations for Oxides of Nitrogen (NO_X) and Oxides of Sulfur (SO_X),'' amended November 5, 2010.

(*5*) Rule 1171, ''Solvent Cleaning Operations,'' amended February 1, 2008.

(*6*) Previously approved on August 12, 2011 in paragraph (c)(388)(i)(A)(*4*) of this section and now deleted with replacement in (c)(491)(i)(A)(*2*), Rule 2002, ''Allocations for NO_X & SO_X,'' amended on October 7, 2016.

(B) San Joaquin Valley Air Pollution Control District.

(*1*) Rule 4354, ''Glass Melting Furnaces,'' amended on September 16, 2010.

(*2*) Rule 4103, ''Open Burning,'' amended on April 15, 2010, not effective until June 1, 2010.

(*3*) Table 9–1, Revised Proposed Staff Report and Recommendations on Agricultural Burning, approved on May 20, 2010.

(*4*) San Joaquin Valley Air Pollution Control District, Resolution No. 10–05–22, adopted on May 20, 2010.

(*5*) California Air Resources Board, Resolution 10–24, adopted on May 27, 2010.

(*6*) Rule 4570, ''Confined Animal Facilities,'' amended on October 21, 2010.

(*7*) Rule 4612, ''Motor Vehicle and Mobile Equipment Coating,'' amended on October 21, 2010.

(*8*) Rule 4653, ''Adhesives and Sealants,'' amended on September 16, 2010.

(C) Santa Barbara County Air Pollution Control District.

(*1*) Rule 321, ''Solvent Cleaning Machines and Solvent Cleaning,'' revised September 20, 2010.

(D) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 466, ''Solvent Cleaning,'' amended October 28, 2010.

(*2*) Rule 414, ''Water Heaters, Boilers and Process Heaters Rated Less Than 1,000,000 BTU per hour,'' amended on March 25, 2010.

(*3*) Rule 451, ''Surface Coating of Miscellaneous Metal Parts and Products,'' amended October 28, 2010.

(*4*) Rule 448, ''Gasoline Transfer into Stationary Storage Containers,'' amended on February 26, 2009.

(*5*) Rule 449, ''Transfer of Gasoline into Vehicle Fuel Tanks,'' amended on February 26, 2009.

(E) Placer County Air Pollution Control District.

(*1*) Rule 236, ''Wood Products and Coating Operations,'' amended October 14, 2010, effective July 1, 2011.

(*2*) Rule 238, ''Factory Coating of Flat Wood Paneling,'' amended October 14, 2010, effective July 1, 2011.

(*3*) Rule 218, ''Architectural Coatings,'' amended October 14, 2010.

(*4*) Rule 234, ''Automotive Refinishing Operations,'' adopted November 3, 1994 and amended October 14, 2010, effective July 1, 2011.

(F) Mojave Desert Air Quality Management District.

(*1*) Rule 1116, ''Automotive Refinishing Operations,'' amended on August 23, 2010.

(G) Lake County Air Quality Management District.

(*1*) Lake County Air Quality Management District Board of Directors Resolution 2010–174 adopting Section 470, ''Air Toxics Control Measure for Emissions of Toxic Particulate Matter from In-Use Agricultural Compression Ignition Engines,'' adopted on September 21, 2010, as ''Exhibit A.''

(H) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.43, ''Biomass Boilers,'' adopted on November 10, 2010.

(389) New and amended regulations were submitted on December 7, 2010, by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 214, ''Federal New Source Review,'' as adopted on October 28, 2010.

(B) Placer County Air Pollution Control District.

(*1*) Rule 501, ''General Permit Requirements,'' adopted on August 12, 2010.

(*2*) Rule 242, ''Stationary Internal Combustion Engines,'' adopted on April 10, 2003.

(*3*) Rule 246, ''Natural Gas-Fired Water Heaters,'' adopted on June 19, 1997.

(*4*) Rule 503, ''Emission Statement,'' amended on August 12, 2010.

(390) Amended regulations were submitted on January 28, 2011, by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 203, ''Prevention of Significant Deterioration,'' as amended on January 27, 2011.

(B) Placer County Air Pollution Control.

(*1*) Rule 243, ''Polyester Resin Operations,'' adopted on April 10, 2003.

(391) New and amended regulations were submitted on June 21, 2011 by the Governor's designee. Final approval of these regulations is based, in part, on the clarifications contained in letters dated July 6, 2012 and August 20, 2012 from the Placer County Air Pollution Control District regarding specific implementation of parts of the Prevention of Significant Deterioration program.

(i) *Incorporation by reference.* (A) Eastern Kern Air Pollution Control District.

(*1*) Rule 102, ''Definitions,'' amended on January 13, 2011.

(*2*) Rule 202, ''Permit Exemptions,'' amended on January 13, 2011.

(B) Santa Barbara County Air Pollution Control District.

(*1*) Rule 102, ''Definitions,'' revised on January 20, 2011.

(C) Placer County Air Pollution Control District.

(*1*) Rule 518, ''Prevention of Significant Deterioration (PSD) Permit Program,'' adopted on February 10, 2011.

(*2*) Previously approved on December 10, 2012 in paragraph (c)(391)(i)(C)(*1*) of this section and now deleted with replacement in paragraph (c)(497)(i)(B)(*2*) of this section, Rule 518, ''Prevention of Significant Deterioration (PSD) Permit Program.''

(D) Ventura County Air Pollution Control District.

(*1*) Rule 74.11, ''Natural Gas-Fired Water Heaters,'' revised on May 11, 2010.

(*2*) [Reserved]

(ii) *Additional materials.* (A) Placer County Air Pollution Control District (PCAPCD).

(*1*) Letter dated July 6, 2012 from Thomas J. Christofk, PCAPCD, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding Clarifications of District Rule 518 and 40 CFR 51.166.

(*2*) Letter dated August 20, 2012 from Thomas Christofk, PCAPCD, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding Clarifications of District Rule 518 and 40 CFR 52.21(k)(2).

(392) A plan was submitted on June 30, 2008 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) 2008 $PM_{2.5}$ Plan, adopted on April 30, 2008.

(*2*) SJVUAPCD Governing Board, In the Matter of: Adopting the San Joaquin Valley Unified Air Pollution Control District 2008 $PM_{2.5}$ Plan, Resolution No. 08–04–10, April 30, 2008. Commitments to achieve emissions reductions (including emissions reductions of 8.97 tpd of NO_X, 6.7 tpd of direct $PM_{2.5}$, and 0.92 tpd of SOx by 2014) as described in Table 6–3a (p. 6–11), Table 6–3b (p. 6–12), and Table 6–3c (p. 6–12) respectively of the 2008 $PM_{2.5}$ Plan and commitments to adopt and submit control measures as described in Table 6–2 (p. 6–9) of the 2008 $PM_{2.5}$ Plan, as amended June 17, 2010.

(B) State of California Air Resources Board.

(*1*) CARB Resolution No. 08–28 with Attachment A, May 22, 2008.

(393) An amended plan was submitted on August 12, 2009 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) State of California Air Resources Board.

(*1*) Status Report on the State Strategy for California's 2007 State Implementation Plan (SIP) and Proposed Revisions to the SIP Reflecting Implementation of the 2007 State Strategy, pages 11–17, April 24, 2009.

(*2*) CARB Resolution No. 09–34, April 24, 2009.

(394) An amended plan was submitted on September 15, 2010 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) 2008 $PM_{2.5}$ Plan Amendment to Extend the Rule 4905 Amendment Schedule, June 17, 2010.

(*2*) SJVUAPCD Governing Board, In the Matter of: Proposed Amendments to the 2008 $PM_{2.5}$ Plan to Extend the Rule Amendment Schedule for Rule 4905 (Natural Gas-Fired, Fan-Type Residential Central Furnaces), Resolution 10–06–18, June 17, 2010.

(B) State of California Air Resources Board.

(1) Executive Order S–10–003, Relating to Approval of Amendments to the 2008 $PM_{2.5}$ Plan to Extend the Rule Amendment Schedule for Rule 4905 (Natural Gas-Fired, Fan-Type Residential Central Furnaces), September 15, 2010.

(395) An amended plan was submitted on May 18, 2011 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) State of California Air Resources Board.

(*1*) Progress Report on Implementation of $PM_{2.5}$ State Implementation Plans (SIP) for the South Coast and San Joaquin Valley Air Basins and Proposed SIP Revisions, Release Date: March 29, 2011.

(*2*) CARB Resolution No. 11–24, April 28, 2011. Commitment to propose measures as described in Appendix B of the Progress Report on the Implementation of $PM_{2.5}$ State Implementation Plans (SIP) for the South Coast and San Joaquin Valley Air Basins and Proposed SIP Revisions.

(*3*) Executive Order S–11–010, ''Approval of Revisions to the Fine Particulate Matter State Implementation Plans for the South Coast Air Quality Management Plans for the South Coast Air Quality Management District and the San Joaquin Valley Air Pollution Control District,'' May 18, 2011.

(396) An amended plan was submitted on July 29, 2011 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) State of California Air Resources Board.

(*1*) 8-Hour Ozone State Implementation Plan Revisions and Technical Revisions to the $PM_{2.5}$ State Implementation Plan Transportation Conformity Budgets for the South Coast and San Joaquin Valley Air Basins, Appendix A, page A–6, (dated June 20, 2011), adopted July 21, 2011.

(*i*) Commitment to develop and submit by 2020 revisions to the SIP that will: Reflect modifications to the 2023 emissions reduction target based on updated science and identify additional strategies and implementing agencies needed to achieve the needed reductions by 2023 as given in the 2011 Ozone SIP Revisions on page A–8.

(*2*) CARB Resolution No. 11–22, July 21, 2011.

(*i*) Commitment to develop, adopt and submit by 2020 contingency measures to be implemented if advanced technology measures do not achieve the planned reductions and attainment contingency measures meeting the requirements of CAA 172(c)(9), pursuant to CAA section 182(e)(5) as given on page 4.

(*ii*) Commitment to update the air quality modeling in the SJV 2007 Ozone Plan to reflect the emissions inventory improvements and any other new information by December 31, 2014 or the date by which state implementation plans are due for the expected revision to the Federal 8-hour ozone standard whichever comes first, as provided on page 3.

(*iii*) Commitments to propose measures as provided in Appendix B, Table B–1 of the *Progress Report on the Implementation of $PM_{2.5}$ State Implementation Plans (SIP) for the South Coast and San Joaquin Valley Air Basins and Proposed SIP Revisions* (Release Date: March 29, 2011), adopted April 28, 2011, as amended by Appendix A, p. A–7 of the *8-Hour Ozone State Implementation Plan Revisions and Technical Revisions to the $PM_{2.5}$ State Implementation Plan Transportation Conformity Budgets for the South Coast and San Joaquin Valley Air Basins* (Release Date: June 20, 2011), adopted July 21, 2011.

(*3*) Executive Order S–11–016, ''Approval of Revisions to the 8-Hour Ozone State Implementation Plans for the

South Coast Air Quality Management District and the San Joaquin Valley Air Pollution Control District,'' July 29, 2011.

(397) A plan was submitted on November 16, 2007 by the

Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) State of California Air Resources Board.

(*1*) Proposed State Strategy for California's 2007 State Implementation Plan, adopted on September 27, 2007.

(*2*) CARB Resolution No. 07–28 with Attachments A and B, September 27, 2007. Commitment to achieve the total emissions reductions necessary to attain the Federal standards in the South Coast air basin, which represent 6.1 tons per day (tpd) of direct $PM_{2.5}$, 38.1 tpd of SO_X, 33.6 tpd of VOC and 118.2 tpd of nitrogen oxides by 2014 for purposes of the 1997 $PM_{2.5}$ NAAQS, as described in Resolution No. 07–28 at Attachment B, pp. 3–5, and modified by CARB Resolution No. 09–34 (April 24, 2009) adopting the ''Status Report on the State Strategy for California's 2007 State Implementation Plan (SIP) and Proposed Revision to the SIP reflecting Implementation of the 2007 State Strategy,'' and by CARB Resolution 11–24 (April 28, 2011) adopting the ''Progress Report on Implementation of $PM_{2.5}$ State Implementation Plans (SIP) for the South Coast and San Joaquin Valley Air Basins and Proposed SIP Revisions.''.

(*3*) Executive Order S–07–002, Relating to Approval of the State Strategy for California's State Implementation Plan (SIP) for the Federal 8-Hour Ozone and $PM_{2.5}$ Standards, November 16, 2007.

(*4*) CARB Resolution No. 07–20 with Attachment A, June 14, 2007.

(*5*) CARB Resolution No. 07–28 with Attachments A and B, September 27, 2007. Commitment to achieve the total emissions reductions necessary to attain the Federal standards in the South Coast air basin, which represent 152 tpd of NO_X and 46 tpd of VOC by 2014, and 54 tpd of VOC and 141 tpd of nitrogen oxides by 2023 for purposes of the 1997 8-hour ozone NAAQS, as described in Resolution No. 07–28 at Attachment B, p. 4, and modified by CARB Resolution No. 09–34 (April 24, 2009) adopting the ''Status Report on the State Strategy for California's 2007 State Implementation Plan (SIP) and Proposed Revision to the SIP reflecting Implementation of the 2007 State Strategy.''

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) 2007 Ozone Plan, adopted on April 30, 2007.

(*2*) SJVUAPCD Governing Board, In the Matter of: Adopting the San Joaquin Valley Unified Air Pollution Control District 2007 Ozone Plan, Resolution No. 07–04–11a, April 30, 2007. Commitments to achieve emissions reductions as described in Table 6–1 of the 2007 Ozone Plan, as amended December 18, 2008.

(398) A plan was submitted on November 28, 2007 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) South Coast Air Quality Management District.

(*1*) Final South Coast 2007 Air Quality Management Plan (excluding those portions of Chapter 4 (''AQMP Control Strategy'') and Chapter 7 (''Implementation'') addressing District-recommended measures for adoption by CARB and references to those measures (pp. 4–43 through 4–54 and the section titled ''Recommended Mobile Source and Clean Fuel Control Measures'' in table 7–3, pp. 7–8 and 7–9); those portions of Chapter 6 (''Clean Air Act Requirements'') and Chapter 7 (''Implementation'') addressing California Clean Air Act Requirements (pp. 6–13 through 6–22 and page 7–3); those portions of Chapter 4 (''AQMP Control Strategy'') addressing emission and risk reduction goals identified in the AQMP's proposed control measure MOB–03 (''Proposed Backstop Measures for Indirect Sources of Emissions from Ports and Port-Related Facilities'') (p. 4–24); the motor vehicle emissions budgets in Chapter 6 (''Clean Air Act Requirements'') (pp. 6–24 through 6–26), and Chapter 8 (''Future Air Quality—Desert Nonattainment Areas'')), adopted on June 1, 2007.

(*2*) SCAQMD Governing Board Resolution 07–9, ''A Resolution of the Governing Board of the South Coast Air

Quality Management District certifying the final Program Environmental Impact Report for the 2007 Air Quality Management Plan, adopting the Final 2007 Air Quality Management Plan (AQMP), to be referred to after adoption as the Final 2007 AQMP, and to fulfill USEPA Requirements for the use of emissions reductions form the Carl Moyer Program in the State Implementation Plan,'' June 1, 2007. Commitments to achieve emissions reductions (including emissions reductions of 2.9 tons per day (tpd) of direct $PM_{2.5}$, 2.9 tpd of SO_X, 10.4 tpd of VOC and 10.8 tpd of nitrogen oxides by 2014) as described by SCAQMD Governing Board Resolution No. 07–9, p. 10, June 1, 2007, and modified by SCAQMD Governing Board Resolution 11–9, p. 3, March 4, 2011, and commitments to adopt and submit control measures as described in Table 4–2A of the Final 2007 AQMP, as amended March 4, 2011.

(*3*) SCAQMD Governing Board Resolution 07–9, ''A Resolution of the Governing Board of the South Coast Air Quality Management District certifying the final Program Environmental Impact Report for the 2007 Air Quality Management Plan, adopting the Final 2007 Air Quality Management Plan (AQMP), to be referred to after adoption as the Final 2007 AQMP, and to fulfill USEPA Requirements for the use of emissions reductions form the Carl Moyer Program in the State Implementation Plan,'' June 1, 2007. Commitments to achieve emissions reductions (including emissions reductions of 19.3 tpd of VOC and 9.2 tpd of nitrogen oxides by 2023) as described by SCAQMD Governing Board Resolution No. 07–9, p. 10, June 1, 2007, and modified by SCAQMD Governing Board Resolution 11–9, p. 3, March 4, 2011, and commitments to adopt and submit control measures as described in Table 4–2A of the Final 2007 AQMP, as amended March 4, 2011.

(*4*) Final South Coast 2007 Air Quality Management Plan, Chapter 8 (''Future Air Quality—Desert Nonattainment Areas'') (excluding pp. 8–14 to 8–17 (regarding transportation conformity budgets)), adopted on June 1, 2007.a

(B) State of California Air Resources Board.

(*1*) CARB Resolution No. 07–41, September 27, 2007.

(399) An amended plan was submitted on May 18, 2011 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) State of California Air Resources Board.

(*1*) Progress Report on Implementation of $PM_{2.5}$ State Implementation Plans (SIP) for the South Coast and San Joaquin Valley Air Basins and Proposed SIP Revisions, Appendices B and C. Release Date: March 29, 2011.

(*2*) CARB Resolution No. 11–24, April 28, 2011.

(*3*) Executive Order S–11–010, ''Approval of Revisions to the Fine Particulate Matter State Implementation Plans for the South Coast Air Quality Management Plans for the South Coast Air Quality Management District and the San Joaquin Valley Air Pollution Control District,'' May 18, 2011.

(400) An amended plan was submitted on May 19, 2011 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 2201, ''New and Modified Stationary Source Review Rule,'' amended on April 21, 2011.

(ii) *Additional Material.* (A) South Coast Air Quality Management District.

(*1*) Revisions to the 2007 $PM_{2.5}$ and Ozone State Implementation Plan for South Coast Air Basin and Coachella Valley (SIP Revisions), adopted on March 4, 2011.

(*2*) SCAQMD Governing Board Resolution 11–9, ''A Resolution of the South Coast Air Quality Management District Governing Board (AQMD) certifying the Addendum to Final Program Environmental Impact Report (PEIR) for the 2007 Air Quality Management Plan, (AQMP), for a revision to the Final 2007 AQMP, to be referred to after adoption as the Revision to the Final 2007 AQMP,'' March 4, 2011.

(B) State of California Air Resources Board.

(*1*) CARB Resolution No. 11–24, April 28, 2011. Commitment to propose measures as described in Appendix B of the ''Progress Report on the Implementation of the $PM_{2.5}$ State Implementation

Plans (SIP) for the South Coast and San Joaquin Valley Air Basins and Proposed SIP Revisions.''

(C) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Letter from David Warner, Deputy Air Pollution Control Officer, San Joaquin Valley Unified Air Pollution Control District, to Gerardo C. Rios, Chief, Air Permits Office, EPA Region IX, dated June 26, 2014.

(401) An amended plan was submitted on July 29, 2011 by the

Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) State of California Air Resources Board.

(*1*) 8-Hour Ozone State Implementation Plan Revisions and Technical Revisions to the $PM_{2.5}$ State Implementation Plan Transportation Conformity Budgets for the South Coast and San Joaquin Valley Air Basins, Appendix A, page A–5 (dated June 20, 2011), adopted July 21, 2011.

(*i*) Commitment to develop and submit by 2020 revisions to the SIP that will reflect modifications to the 2023 emissions reduction target based on updated science, and identify additional strategies and implementing agencies needed to achieve the needed reductions by 2023 as given in the 2011 Ozone SIP Revision on page A–8.

(*2*) CARB Resolution No. 11–22, July 21, 2011.

(*i*) Commitment to develop, adopt and submit by 2020 contingency measures to be implemented if advanced technology measures do not achieve the planned emissions reductions, and attainment contingency measures meeting the requirements of CAA section 172(c)(9), pursuant to CAA section 182(e)(5) as given on p. 4.

(*ii*) Commitment to propose measures as provided in Appendix B Table B–1 of the *Progress Report on the Implementation of $PM_{2.5}$ State Implementation Plans (SIP) for the South Coast and San Joaquin Valley Air Basins and Proposed SIP Revisions* (Release Date: March 29, 2011), adopted April 28, 2011.

(*3*) Executive Order S–11–016, ''Approval of Revisions to the 8–Hour Ozone State Implementation Plans and Technical Revisions to the $PM_{2.5}$ State Implementation Plan Transportation Conformity Budgets for the South Coast San Joaquin Valley Air Basin,'' July 21, 2011.

(402) New and amended regulations were submitted on July 28, 2011 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4401, ''Steam-Enhanced Crude Oil Production Wells,'' adopted on June 16, 2011.

(*2*) Rule 4605, ''Aerospace Assembly and Component Coating Operations,'' amended on June 16, 2011.

(403) A new rule for the following APCD was submitted on March 2, 2011, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1315, ''Federal New Source Review Tracking System,'' excluding paragraph (b)(2) and subdivisions (g) and (h), adopted on February 4, 2011.

(404) New and amended regulations for the following APCDs were submitted on September 27, 2011, by the Governor's Designee.

(i) *Incorporation by Reference.* (A) South Coast Air Quality Management District

(*1*) Rule 2005, ''New Source Review for RECLAIM,'' amended on June 3, 2011.

(*2*) Rule 1420.1, ''Emissions Standard For Lead From Large Lead-Acid Battery Recycling Facilities,'' adopted on November 5, 2010.

(*3*) Rule 1113, ''Architectural Coatings,'' amended on June 3, 2011.

(*4*) Rule 1150.1, ''Control of Gaseous Emissions from Municipal Solid Waste Landfills,'' amended on April 1, 2011.

(*5*) Previously approved on December 20, 2011 in paragraph (c)(404)(i)(A)(*1*) of this section and now deleted with replacement in (c)(491)(i)(A)(*3*), Rule 2005, ''New Source Review for Regional Clean Air Incentives Market,'' amended on December 4, 2015.

(*6*) Previously approved on March 26, 2013 in paragraph (c)(404)(i)(A)(*3*) of this section and now deleted with replacement in paragraph (c)(488)(i)(D)(*1*), Rule 1113, ''Architectural Coatings,'' amended on June 3, 2011.

(B) Northern Sierra Air Quality Management District.

(*1*) Rule 228, ''Surface Coating of Metal Parts and Products,'' amended on April 25, 2011.

(*2*) Rule 214, ''Phase I Vapor Recovery Requirements,'' amended on April 25, 2011.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 2, ''Definitions,'' adopted on October 22, 1968, as revised through April 12, 2011.

(*2*) Rule 74.19, ''Graphic Arts,'' revised on June 14, 2011.

(D) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4354, ''Glass Melting Furnaces,'' amended on May 19, 2011.

(405) New and amended regulations for the following APCDs were submitted on August 26, 2011 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4684, ''Polyester Resin Operations,'' amended on August 18, 2011.

(406) New and amended regulations were submitted on January 28, 2011, by the Governor's designee.

(i) *Incorporation by Reference.* (A) California Air Resources Board.

(*1*) Submittal letter from Robert D. Fletcher (California Air Resources Board) to Jared Blumenfeld (Environmental Protection Agency), stating the submission does not include the second tier emission limits for Multi-purpose Solvent and Paint Thinner, dated January 28, 2011.

(*2*) Executive Order R–10–013, dated August 6, 2010.

(*3*) ''Final Regulation Order, Regulation for Reducing Emissions from Consumer Products,'' California Code of Regulations, Title 17 (Public Health), Division 3 (Air Resources), Chapter 1 (Air Resources Board), Subchapter 8.5 (Consumer Products), Article 2 (Consumer Products), adopted August 6, 2010, effective October 20, 2010.

(407) A plan was submitted on June 18, 2009 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) San Joaquin Valley Air Pollution Control District.

(*1*) Reasonably Available Control Technology (RACT) Demonstration for Ozone State Implementation Plan (SIP), adopted April 16, 2009.

(408) An amended plan was submitted on April 24, 2009 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) *Amendments to the 2007 Ozone Plan* (amending the rulemaking schedule for Measure S–GOV–5 Organic Waste Operations) adopted on December 18, 2008.

(*2*) SJVUAPCD Governing Board, In the Matter of: Proposed Amendment to the 2007 Ozone Plan to Extend the Rule Adoption Schedule for Organic Waste Operations, SJVUAPCD Governing Board Resolution No. 08–12–18. December 18, 2008.

(409) New regulation was submitted on December 9, 2011, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) State of California Office of Administrative Law, ''Notice of Approval of Regulatory Action,'' Title 13, California Code of Regulations (CCR), section 2027, effective on November 9, 2011.

(*2*) Final Regulation Order, 13 CCR section 2027 (''In-Use On-Road Diesel-Fueled Heavy-Duty Drayage Trucks'').

(410) New regulation was submitted on December 15, 2011, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resources Board.

(*1*) State of California Office of Administrative Law, ''Notice of Approval of Regulatory Action,'' Title 13, California Code of Regulations (CCR), section 2025, effective on December 14, 2011.

(*2*) Final Regulation Order, 13 CCR section 2025 (''Regulation to Reduce Emissions of Diesel Particulate Matter, Oxides of Nitrogen and Other Criteria Pollutants, from In-Use Heavy-Duty Diesel-Fueled Vehicles'').

(411) New and amended regulations for the following APCDs were submitted on February 23, 2012. Final approval of these regulations is based, in part, on the clarifications contained in letters dated July 10, 2012 and August 21, 2012 from the Imperial County Air Pollution Control District regarding specific implementation of parts of the

Prevention of Significant Deterioration program.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 459, ''Automotive, Mobile Equipment, and Associated Parts and Components Coating Operations,'' amended August 25, 2011.

(*2*) Rule 101, ''General Provisions and Definitions,'' amended on October 27, 2011.

(B) San Joaquin Valley Air Pollution Control District.

(*1*) Rule 4682, ''Polystyrene, Polyethylene, and Polypropylene Products Manufacturing,'' amended on December 15, 2011.

(*2*) Rule 4402, ''Crude Oil Production Sumps,'' amended on December 15, 2011.

(*3*) Rule 4625, ''Wastewater Separators,'' amended on December 15, 2011.

(*4*) Rule 4352, ''Solid Fuel Fired Boilers, Steam Generators and Process Heaters,'' amended on December 15, 2011.

(C) San Diego County Air Pollution Control District

(*1*) Rule 67.4, ''Metal Container, Metal Closure and Metal Coil Coating Operations,'' adopted and effective on November 9, 2011.

(*2*) Rule 67.16, ''Graphic Arts Operations,'' adopted on November 9, 2011 and effective on May 9, 2012.

(D) Antelope Valley Air Quality Management District

(*1*) Rule 1168, ''Adhesive and Sealant Applications,'' amended on September 20, 2011.

(E) Imperial County Air Pollution Control District.

(*1*) Rule 904, ''Prevention of Significant Deterioration (PSD) Permit Program,'' revised on December 20, 2011.

(F) South Coast Air Quality Management District.

(*1*) Rule 463, ''Organic Liquid Storage,'' amended on November 4, 2011.

(G) Santa Barbara County Air Pollution Control District.

(*1*) Rule 352, ''Natural Gas-Fired Fan-Type Central Furnaces and Small Water Heaters,'' revised on October 20, 2011.

(ii) *Additional materials.* (A) Imperial County Air Pollution Control District (ICAPCD).

(*1*) Letter dated July 10, 2012 from Brad Poiriez, ICAPCD, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding Clarifications of District Rule 904 and 40 CFR 51.166.

(*2*) Letter dated August 21, 2012 from Brad Poiriez, ICAPCD, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding Clarifications of District Rule 904 and 40 CFR 52.21(k)(2).

(412) New regulations were submitted on June 14, 2011 by the Governor's designee.

(i) *Incorporation by Reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 3170, ''Federally Mandated Ozone Nonattainment Fee,'' amended on May 19, 2011.

(413) The following plan revisions were submitted on October 12, 2009, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Department of Pesticide Regulation.

(*1*) California Code of Regulations, Title 3 (Food and Agriculture), Division 6 (Pesticides and Pest Control Operations), Chapter 2 (Pesticides), Subchapter 4 (Restricted Materials), Article 4 (Field Fumigation Use Requirements), sections 6447, ''Methyl Bromide-Field Fumigation—General Requirements,'' the undesignated introductory text (operative January 25, 2008; as published in Register 2010, No. 44); 6447.3, ''Methyl Bromide-Field Fumigation Methods'' (operative January 25, 2008); 6448, ''1,3, Dichloropropene Field Fumigation—General Requirements'' (operative January 25, 2008); 6449, ''Chloropicrin Field Fumigation—General Requirements'' (operative January 25, 2008); 6450, ''Metam-Sodium, Potassium N-methyldithiocarbamate (metam-potassium), and Dazomet Field Fumigation—General Requirements'' (operative January 25, 2008); 6450.2, ''Dazomet Field Fumigation Methods'' (operative January 25, 2008); 6451, ''Sodium Tetrathiocarbonate Field Fumigation—General Requirements'' (operative January 25, 2008); 6451.1, ''Sodium Tetrathiocarbonate Field Fumigation Methods'' (operative January 25, 2008); 6452, ''Reduced Volatile Organic Compound Emissions Field Fumigation

Methods'' (operative January 25, 2008); 6452.1, ''Fumigant Volatile Organic Compound Emission Records and Reporting'' (operative January 25, 2008).

(ii) *Additional material.* (A) California Department of Pesticide Regulation.

(*1*) Decision, ''In the Matter of Proposed Ozone SIP Commitment for the San Joaquin Valley,'' signed by Mary-Ann Warmerdam, April 17, 2009, including Exhibit A, ''Department of Pesticide Regulation Proposed SIP Commitment for San Joaquin Valley.''

(*2*) Memorandum, Rosemary Neal, Ph.D., California Department of Pesticide Regulation to Randy Segawa, California Department of Pesticide Regulation, November 5, 2008; Subject: Update to the Pesticide Volatile Organic Inventory. Estimated Emissions 1990–2006, and Preliminary Estimates for 2007.

(414) The following plan revisions were submitted on August 2, 2011, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Department of Pesticide Regulation.

(*1*) California Code of Regulations, Title 3 (Food and Agriculture), Division 6 (Pesticides and Pest Control Operations), Chapter 2 (Pesticides), Subchapter 4 (Restricted Materials), Article 4 (Field Fumigation Use Requirements), sections 6448.1, ''1,3-Dichloropropene Field Fumigation Methods'' (operative April 7, 2011); 6449.1, ''Chloropicrin Field Fumigation Methods'' (operative April 7, 2011); 6450.1, ''Metam-Sodium and Potassium N-methyldithiocarbamate (Metam-Potassium) Field Fumigation Methods'' (operative April 7, 2011); 6452.2, ''Fumigant Volatile Organic Compound Emission Limits'' (excluding benchmarks for, and references to, Sacramento Metro, San Joaquin Valley, South Coast, and Southeast Desert in subsection (a) and excluding subsection (d))(operative April 7, 2011); 6452.3, ''Field Fumigant Volatile Organic Compound Emission Allowances'' (operative April 7, 2011); 6452.4, ''Annual Volatile Organic Compound Emissions Inventory Report'' (excluding reference to section 6446.1 in subsection(a)(4))(operative April 7, 2011).

(*2*) California Code of Regulations, Title 3 (Food and Agriculture), Division 6 (Pesticides and Pest Control Operations), Chapter 3 (Pest Control Operations), Subchapter 2 (Work Requirements), Article 1 (Pest Control Operations Generally), sections 6624, ''Pesticide Use Records'' (excluding references in subsection (f) to methyl iodide and section 6446.1) (operative December 20, 2010); section 6626, ''Pesticide Use Reports for Production Agriculture'' (operative April 7, 2011).

(415) New and amended regulations were submitted on August 23, 2011 by the Governor's designee. Final approval of these regulations is based, in part, on the clarifications contained in a May 18, 2012 letter from the San Joaquin Valley Unified Air Pollution Control District regarding specific implementation of parts of the Prevention of Significant Deterioration program.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 2410, ''Prevention of Significant Deterioration,'' adopted on June 16, 2011.

(ii) *Additional materials.* (A) San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD).

(*1*) Letter dated May 18, 2012 from David Warner, SJVUAPCD, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding Clarifications of District Rule 2410 and 40 CFR 51.166.

(416) Specified portions of the following rule were submitted on November 18, 2011 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD).

(*1*) The following specified portions of SJVUAPCD Rule 4694, Wine Fermentation and Storage Tanks, adopted December 15, 2005:

(*i*) Section 1.0 (Purpose), except for the words ''fermentation and'' and ''or achieve equivalent reductions from alternative emission sources'';

(*ii*) Section 2.0 (Applicability), except for the words ''fermenting wine and/or'';

(*iii*) Section 3.0 (Definitions), paragraphs 3.1—Air Pollution Control Officer (APCO), 3.2—Air Resources Board (ARB or CARB), 3.18—Gas Leak, 3.19—Gas-Tight, 3.21—Must, 3.22—Operator, 3.27—Storage Tank, 3.29—Tank, 3.33—

Volatile Organic Compound (VOC), 3.35—Wine, and 3.36—Winery;

(*iv*) Section 4.0 (Exemptions), paragraph 4.2;

(*v*) Section 5.0 (Requirements), paragraph 5.2—Storage Tanks; and

(*vi*) Section 6.0 (Administrative Requirements), paragraph 6.4—Monitoring and Recordkeeping, introductory text and paragraph 6.4.2.

(*2*) Rule 4566, ''Organic Material Composting Operations,'' adopted on August 18, 2011.

(B) South Coast Air Quality Management District.

(*1*) Rule 1133.1, ''Chipping and Grinding Activities,'' amended on July 8, 2011.

(*2*) Rule 1133.3, ''Emission Reductions from Greenwaste Composting Operations,'' adopted on July 8, 2011.

(C) Placer County Air Pollution Control District.

(*1*) Rule 502, ''New Source Review,'' as amended on October 13, 2011.

(ii) *Additional materials.* (A) California Air Resources Board (CARB)

(*1*) CARB Executive Order S–11–024, November 18, 2011, adopting specified portions of SJVUAPCD Rule 4694 as a revision to the SIP.

(B) San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD)

(*1*) SJVUAPCD Resolution No. 11–08–20, August 18, 2011, adopting specified portions of SJVUAPCD Rule 4694 as a revision to the SIP.

(417) [Reserved]

(418) New and amended regulation for the following APCD was submitted on April 22, 2011, by the Governor's Designee.

(i) *Incorporation by Reference.* (A) South Coast Air Quality Management District

(*1*) Rule 317, ''Clean Air Act Non-Attainment Fees,'' amended on February 4, 2011.

(419) New and amended regulations for the following APCDs were submitted on April 25, 2012. Final approval of these regulations is based, in part, on the clarifications contained in letters dated July 19, 2012 and August 21, 2012 from the Eastern Kern Air Pollution Control District regarding specific implementation of parts of the Prevention of Significant Deterioration program.

(i) *Incorporation by reference.* (A) Eastern Kern Air Pollution Control District.

(*1*) Rule 210.4, ''Prevention of Significant Deterioration,'' adopted on January 12, 2012.

(B) Placer County Air Pollution Control District

(*1*) Rule 102, ''Definitions,'' amended February 9, 2012.

(C) Butte County Air Quality Management District.

(*1*) Rule 207, ''Wood Burning Devices,'' amended on December 11, 2008.

(ii) *Additional materials.* (A) Eastern Kern Air Pollution Control District (EKAPCD).

(*1*) Letter dated July 19, 2012 from David L. Jones, EKAPCD, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding Clarifications of District Rule 210.4 and 40 CFR 51.166.

(*2*) Letter dated August 21, 2012 from David L. Jones, EKAPCD, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding Clarifications of District Rule 210.4 and 40 CFR 52.21(k)(2).

(420) A new regulation for the following APCD was submitted on July 3, 2012. Final approval of this regulation is based, in part, on the clarifications contained in a letter dated August 7, 2012 from the Yolo-Solano Air Quality Management District regarding specific implementation of parts of the Prevention of Significant Deterioration program.

(i) *Incorporation by reference.* (A) Yolo-Solano Air Quality Management District.

(*1*) Rule 3.24, ''Prevention of Significant Deterioration,'' adopted on June 13, 2012.

(ii) *Additional materials.* (A) Yolo-Solano Air Quality Management District (YSAQMD).

(*1*) Letter dated August 7, 2012 from Mat Ehrhardt, YSAQMD, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding Clarifications of District Rule 210.4 and 40 CFR 51.166.

(421) New regulations were submitted on December 30, 2010, by the Governor's

designee. Final approval of this regulation is based, in part, on the clarifications contained in a August 15, 2012 letter from the South Coast Air Quality Management District regarding specific implementation of parts of the Prevention of Significant Deterioration program.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1714, ''Prevention of Significant Deterioration for Greenhouse Gases,'' adopted on November 5, 2010.

(ii) *Additional materials.* (A) South Coast Air Quality Management District (SCAQMD).

(*1*) Letter dated August 15, 2012 from Mohsen Nazemi, SCAQMD, to Gerardo Rios, EPA Region 9, regarding Clarifications for Rule 1714—Prevention of Significant Deterioration for Greenhouse Gases.

(422) Amended regulations for the following APCDs were submitted on September 20, 2012 by the Governor's designee.

(i) *Incorporation by reference.* (A) Monterey Bay Unified Air Pollution Control District

(*1*) Rule 400, ''Visible Emissions,''amended on August 15, 2012.

(423) New and amended regulations for the following APCDs were submitted on September 21, 2012, by the Governor's designee.

(i) *Incorporation by reference.* (A) Placer County Air Pollution Control District.

(*1*) Rule 301, ''Nonagricultural Burning Smoke Management,'' amended on February 9, 2012.

(*2*) Rule 302, ''Agricultural Waste Burning Smoke Management,'' amended on February 9, 2012.

(*3*) Rule 303, ''Prescribed Burning Smoke Management,'' amended on February 9, 2012.

(*4*) Rule 304, ''Land Development Burning Smoke Management,'' amended on February 9, 2012.

(*5*) Rule 305, ''Residential Allowable Burning,'' amended on February 9, 2012.

(*6*) Rule 306, ''Open Burning of Nonindustrial Wood Waste at Designated Disposal Sites,'' amended on February 9, 2012.

(*7*) Rule 233, ''Biomass Boilers,'' amended on June 14, 2012.

(B) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 417, ''Wood Burning Appliances,'' adopted on October 26, 2006.

(*2*) Rule 421, ''Mandatory Episodic Curtailment of Wood and Other Solid Fuel Burning (except section 402),'' amended on September 24, 2009.

(C) South Coast Air Quality Management District.

(*1*) Rule 461, ''Gasoline Transfer and Dispensing,'' amended on April 6, 2012.

(*2*) [Reserved]

(D) Antelope Valley Air Quality Management District.

(*1*) Rule 107, ''Certification of Submission and Emission Statements,'' adopted on May 15, 2012.

(*2*) Rule 1151, ''Motor Vehicle and Mobile Equipment Coating Operations,'' amended on June 19, 2012.

(E) Santa Barbara County Air Pollution Control District.

(*1*) Rule 102, ''Definitions'' amended on June 21, 2012.

(*2*) Rule 353, ''Adhesives and Sealants,'' revised on June 21, 2012.

(*3*) Rule 321, ''Solvent Cleaning Machines and Solvent Cleaning,'' revised on June 21, 2012.

(*4*) Rule 330, ''Surface Coating of Metal Parts and Products,'' revised on June 21, 2012.

(*5*) Rule 349, ''Polyester Resin Operations,'' revised on June 21, 2012.

(*6*) Previously approved on April 11, 2013, in paragraph (c)(423)(i)(E)(*1*) of this section and now deleted with replacement in paragraph (c)(533)(i)(A)(*1*) of this section, Rule 102, ''Definitions,'' revision adopted on August 25, 2016.

(F) Feather River Air Quality Management District.

(*1*) Rule 10.1, ''New Source Review,'' as amended on February 6, 2012.

(*2*) [Reserved]

(G) Butte County Air Quality Management District.

(*1*) Rule 300, ''Open Burning Requirements, Prohibitions and Exemptions,'' amended on February 24, 2011.

(*2*) Previously approved on July 8, 2015 in paragraph (c)(423)(i)(G)(*1*) of this section and now deleted with replacement in paragraph (c)(474)(i)(C)(*1*), Rule 300, ''Open Burning Requirements, Prohibitions and Exemptions,'' approved on February 24, 2011.

(ii) *Additional material*—(A) *Sacramento Metropolitan Air Quality Management District.* (*1*) Rule 421, ''Mandatory Episodic Curtailment of Wood and Other Solid Fuel Burning,'' Financial Hardship Exemption Decision Tree, dated December 12, 2007.

(*2*) [Reserved]

(424) New and amended regulations for the following APCDs were submitted on November 7, 2012 by the Governor's designee.

(i) *Incorporation by Reference.* (A) Imperial County Air Pollution Control District

(*1*) Rule 800, ''General Requirements for Control of Fine Particulate Matter PM10,'' amended on October 16, 2012.

(*2*) Rule 804, ''Open Areas,'' amended on October 16, 2012.

(*3*) Rule 805, ''Paved and Unpaved Roads,'' amended on October 16, 2012.

(*4*) Rule 806, ''Conservation Management Practices (CMPs),'' amended on October 16, 2012.

(*5*) Previously approved on April 22, 2013 in paragraph (c)(424)(i)(A)(2) of this section and now deleted with replacement in (c)(523)(i)(A)(4), Rule 804, ''Open Areas,'' amended on October 16, 2012.

(425) A plan was submitted on December 28, 2012, by the Governor's designee.

(i) [Reserved]

(ii) *Additional material.* (A) San Diego County Air Pollution Control District (SDAPCD).

(*1*) Redesignation Request and Maintenance Plan for the 1997 National Ozone Standard for San Diego County, including motor vehicle emissions budgets (MVEBs) and inventories.

(*2*) SDAPCD Resolution Number 12–175, dated December 5, 2012. ''Resolution Adopting the Redesignation Request and Maintenance Plan for the 1997 National Ozone Standard for San Diego County,'' including inventories and motor vehicle emissions budgets for 2020 and 2025.

(B) State of California Air Resources Board (CARB)

(*1*) CARB Resolution Number 12–36, dated December 6, 2012. ''Approval of the San Diego 8-Hour Ozone SIP Redesignation Request and Maintenance Plan,'' including inventories and motor vehicle emissions budgets for 2020 and 2025.

(426) The following plan was submitted on April 28, 2010, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) South Coast Air Quality Management District.

(*1*) *Final PM_{10} Redesignation Request and Maintenance Plan for the South Coast Air Basin* (December 2009) (2009 South Coast PM_{10} Redesignation Request and Maintenance Plan), adopted January 8, 2010.

(*2*) SCAQMD Board Resolution 10–1, dated January 8, 2010, adopting the 2009 South Coast PM_{10} Redesignation Request and Maintenance Plan.

(B) State of California Air Resources Board.

(*1*) CARB Resolution 10–21, dated March 25, 2010, adopting the 2009 South Coast PM_{10} Redesignation Request and Maintenance Plan.

(427) New and amended regulations for the following APCDs were submitted on September 26, 2012, by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 214, ''Federal New Source Review,'' amended on August 23, 2012.

(*2*) Rule 217, ''Public Notice Requirements for Permits,'' adopted on August 23, 2012.

(428) New and amended regulations for the following APCDs was submitted on February 6, 2013, by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Placer County Air Pollution Control District.

(*1*) Rule 235, ''Adhesives,'' amended on October 11, 2012.

(*2*) Rule 239, ''Graphic Arts Operations,'' amended on October 11, 2012.

(B) Antelope Valley Air Quality Management District.

(*1*) Rule 218, ''Continuous Emission Monitoring,'' amended on July 17, 2012.

(*2*) Rule 218.1, ''Continuous Emission Monitoring Performance Specifications,'' adopted on July 17, 2012.

(C) Mojave Desert Air Quality Management District.

(*1*) Rule 1113, ''Architectural Coatings,'' amended on April 23, 2012.

(D) South Coast Air Quality Management District.

(*1*) Rule 1177, ''Liquefied Petroleum Gas Transfer and Dispensing,'' adopted on June 1, 2012.

(*2*) Rule 1147, ''NO_X Reductions from Miscellaneous Sources,'' amended on September 9, 2011.

(E) Great Basin Unified Air Pollution Control District.

(*1*) Rule 221, ''Prevention of Significant Deterioration (PSD) Permit Requirements for New Major Facilities or Major Modifications in Attainment or Unclassifiable Areas,'' except for the incorporation by reference of 40 CFR 52.21(b)(49)(v) into sections C. and D3, adopted on September 5, 2012.

(F) Butte County Air Quality Management District.

(*1*) Rule 1107, ''Prevention of Significant Deterioration (PSD) Permits,'' except for the incorporation by reference of 40 CFR 52.21(b)(49)(v) into sections 3 and 4.1, adopted on June 28, 2012.

(ii) *Additional materials.* (A) Great Basin Unified Air Pollution Control District.

(*1*) Letter dated November 13, 2014 from Theodore D. Schade, Great Basin Unified Air Pollution Control District, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding clarifications of District Rule 221 and 40 CFR 51.166.

(*2*) Letter dated April 15, 2015, from Phillip L. Kiddoo, Great Basin Unified Air Pollution Control District, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding additional clarifications of District Rule 221 and 40 CFR 51.166.

(B) Butte County Air Quality Management District.

(*1*) Letter dated November 13, 2014, from W. James Wagoner, Butte County Air Quality Management District, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding clarifications of District Rule 1107 and 40 CFR 51.166.

(*2*) Letter dated April 8, 2015, from W. James Wagoner, Butte County Air Quality Management District, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding additional clarifications of District Rule 1107 and 40 CFR 51.166.

(429) New and amended regulations for the following APCDs was submitted on April 22, 2013, by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Ventura County Air Pollution Control District.

(*1*) Rule 74.20, ''Adhesives and Sealants,'' revised on September 11, 2012.

(*2*) Rule 74.11.1, ''Large Water Heaters and Small Boilers,'' amended on September 11, 2012.

(*3*) Rule 74.15.1, ''Boilers, Steam Generators, and Process Heaters,'' amended on September 11, 2012.

(*4*) Rule 74.13, ''Aerospace Assembly and Component Manufacturing Operations,'' revised on September 11, 2012.

(*5*) Rule 74.24, ''Marine Coating Operations,'' revised on September 11, 2012.

(*6*) Previously approved on May 19, 2014, in paragraph (c)(429)(i)(A)(*3*) of this section and now deleted with replacement in (c)(472)(i)(B)(*1*), Rule 74.15.1, ''Boilers, Steam Generators, and Process Heaters,'' amended on September 11, 2012.

(B) Antelope Valley Air Quality Management District.

(*1*) Rule 431.1, ''Sulfur Content of Gaseous Fuels,'' amended on August 21, 2012.

(C) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 426, ''Architectural Coatings,'' amended on August 15, 2012.

(D) Feather River Air Quality Management District.

(*1*) Rule 10.10, ''Prevention of Significant Deterioration,'' except for the incorporation by reference of 40 CFR 52.21(b)(49)(v) into sections B and F.1, adopted on August 1, 2011.

(E) Bay Area Air Quality Management District.

(*1*) Regulation 2, ''Permits,'' Rule 1, ''General Requirements,'' adopted on December 19, 2012.

(*2*) Regulation 2, ''Permits,'' Rule 2, ''New Source Review,'' adopted on December 19, 2012.

(*3*) Regulation 2, ''Permits,'' Rule 4, ''Emissions Banking,'' adopted on December 19, 2012.

(*4*) Previously approved on August 1, 2016 in paragraphs (c)(429)(i)(E)(*1*) and (*2*), and on December 4, 2017 in paragraph (c)(429)(i)(E)(*3*) of this section and now deleted with replacement in

paragraph (c)(502)(i)(A)(*1*) of this section, Regulation 2, Rules 1, 2, and 4.

(ii) *Additional materials.* (A) Feather River Air Quality Management District.

(*1*) Letter dated December 18, 2014 from Christopher D. Brown, Feather River Air Quality Management District, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding clarifications of District Rule 10.10 and 40 CFR 51.166.

(430) New and amended regulations for the following APCD was submitted on June 11, 2013 by the Governor's Designee.

(i) *Incorporation by Reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 444, ''Open Burning,'' adopted on May 3, 2013.

(*2*) Rule 445, ''Wood Burning Devices,'' adopted on May 3, 2013.

(431) A plan was submitted on December 7, 2010, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Sacramento Metropolitan Air Quality Management District (SMAQMD).

(*1*) PM_{10} Implementation/Maintenance Plan and Redesignation Request for Sacramento County, including motor vehicle emissions budgets (MVEBs) and attainment year emission inventory.

(*2*) SMAQMD Resolution Number 2010–046, dated October 28, 2010. ''Sacramento Metropolitan Air Quality Management District PM_{10} Implementation/Maintenance Plan and Redesignation Request for Sacramento County,'' including attainment year emissions inventory and MVEBs for 2012 and 2022.

(B) State of California Air Resources Board (CARB).

(*1*) CARB Resolution Number 10–37, dated November 18, 2010. ''Adoption and Submittal of the PM_{10} Implementation/Maintenance Plan and Redesignation Request for Sacramento County,'' including attainment year emissions inventory and MVEBs for 2012 and 2022.

(432) The following plan was submitted on November 14, 2011, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) South Coast Air Quality Management District.

(*1*) South Coast Air Quality Management District Proposed Contingency Measures for the 2007 $PM_{2.5}$ SIP (dated October 2011) (''Contingency Measures SIP''), adopted October 7, 2011.

(*2*) SCAQMD Resolution No. 11–24, dated October 7, 2011, adopting the Contingency Measures SIP.

(*3*) Letter dated April 24, 2013 from Elaine Chang, Deputy Executive Officer, SCAQMD, to Deborah Jordan, Director, Air Division, EPA Region 9, Re: ''Update of the 2012 RFP Emissions and 2015 Reductions from Contingency Measures for the 2007 Annual $PM_{2.5}$ Air Quality Management Plan for the South Coast Air Basin,'' including attachments.

(B) State of California Air Resources Board.

(*1*) CARB Executive Order S–11–023, dated November 14, 2011, adopting the Contingency Measures SIP.

(433) The following plan was submitted on June 20, 2012, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) South Coast Air Quality Management District.

(*1*) *Final 2012 Lead State Implementation Plan—Los Angeles County* (May 2012) (''2012 Los Angeles County Lead SIP''), adopted May 4, 2012.

(*2*) SCAQMD Board Resolution 12–11, dated May 4, 2012, adopting the 2012 Los Angeles County Lead SIP.

(B) State of California Air Resources Board.

(*1*) CARB Resolution 12–20, dated May 24, 2012, adopting the 2012 Los Angeles County Lead SIP.

(434) New and amended regulations for the following APCDs was submitted on September 24, 2013, by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Placer County Air Pollution Control District.

(*1*) Rule 240, ''Surface Preparation and Cleanup,'' amended on December 11, 2003.

(435) A plan revision submitted on November 15, 2012 by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Butte County Air Quality Management District.

(1) ''2012 $PM_{2.5}$ Emission Inventory Submittal to the State Implementation Plan for the Chico, CA/Butte County (partial) Planning Area,'' as submitted by the California Air Resources Board on November 15, 2012. The document in CARB's submittal is titled, ''Chico Nonattainment Area (Partial Butte County) 2011 Daily Winter-Time Emissions Inventory (Base Year 2005—Grown and Controlled in Tons Per Day.''

(436) A plan revision submitted on January 14, 2013 by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) San Francisco Bay Area Air Quality Management District.

(1) ''2012 $PM_{2.5}$ Emission Inventory to the State Implementation Plan for the San Francisco Bay Area'' as submitted by the California Air Resources Board on January 14, 2013. The document in CARB's submittal is titled, ''Bay Area Winter Emissions Inventory for Primary $PM_{2.5}$ & PM Precursors: Year 2010.''

(437) New and amended regulations for the following APCD was submitted on November 17, 2009 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) Ventura County Air Pollution Control District.

(*1*) Reasonably Available Control Technology State Implementation Plan Revision (2009 RACT SIP Revision) as adopted on September 15, 2009 (''2009 RACT SIP'').

(438) The following plan was submitted on July 3, 2013, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) ''Quantifying Contingency Reductions for the 2008 $PM_{2.5}$ Plan'' (dated June 20, 2013), adopted October 7, 2011.

(*2*) SJVUAPCD Governing Board Resolution No. 13–6–18, dated June 20, 2013, ''In the Matter of: Authorizing Submittal of the 'Quantification of Contingency Reductions for the 2008 $PM_{2.5}$ Plan' to EPA.''

(*3*) *Electronic mail*, dated July 24, 2013, from Samir Sheikh, SJVUAPCD, to Kerry Drake, EPA Region 9, ''RE: Per our conversation earlier.''

(B) State of California Air Resources Board.

(*1*) CARB Executive Order 13–30, dated June 27, 2013, ''San Joaquin Valley $PM_{2.5}$ Contingency Measures Update.''

(C) Previously approved in paragraphs (c)(438)(ii)(A)(*1*), (c)(438)(ii)(A)(*2*), (c)(438)(ii)(A)(*3*), and (c)(438)(ii)(B)(*1*) of this section and now deleted without replacement: ''Quantifying Contingency Reductions for the 2008 $PM_{2.5}$ Plan'' (dated June 20, 2013), SJVUAPCD Governing Board Resolution No. 13–6–18 (dated June 20, 2013), *Electronic mail* (dated July 24, 2013) from Samir Sheikh to Kerry Drake, and California Air Resources Board Executive Order 13–30 (dated June 27, 2013).

(439) The following plan was submitted on February 13, 2013, by the Governor's designee.

(i) [Reserved]

(ii) *Additional material.* (A) California Air Resources Board.

(*1*) Resolution 13–3, dated January 25, 2013, adopting the Final 2012 Air Quality Management Plan (December 2012) prepared by the South Coast Air Quality Management District.

(*2*) Letter from Richard W. Corey, Executive Officer, California Air Resources Board, dated May 2, 2014.

(*3*) Letter and enclosures from Lynn Terry, Deputy Executive Officer, California Air Resources Board, dated April 3, 2014, providing supplemental information related to Appendix VIII (''Vehicle Miles Traveled Emissions Offset Demonstration'') of the Final 2012 Air Quality Management Plan.

(B) South Coast Air Quality Management District.

(*1*) Governing Board Resolution No. 12–19, dated December 7, 2012, adopting the Final 2012 Air Quality Management Plan.

(*2*) The following portions of the Final 2012 Air Quality Management Plan (December 2012): Ozone-related portions of chapter 4 (''Control Strategy and Implementation''); Appendix IV–A (''District's Stationary Source Control Measures''); Appendix IV–B

(''Proposed Section 182(e)(5) Implementation Measures''); Appendix IV–C (''Regional Transportation Strategy and Control Measures''); and Appendix VII (''1-Hour Ozone Attainment Demonstration'').

(*3*) Letter from Barry R. Wallerstein, D.Env, Executive Officer, South Coast Air Quality Management District, May 1, 2014.

(*4*) Appendix VIII (''Vehicle Miles Traveled Emissions Offset Demonstration'') (December 2012) of the Final 2012 Air Quality Management Plan.

(*5*) The following portions of the Final 2012 Air Quality Management Plan (December 2012): $PM_{2.5}$-related portions of chapter 4 (''Control Strategy and Implementation''); Appendix III (''Base and Future Year Emissions Inventory''); Appendix IV–A (''District's Stationary Source Control Measures''); and Appendix V (''Modeling and Attainment Demonstrations''). SCAQMD's commitments to adopt and implement specific rules and measures in accordance with the schedule provided in Chapter 4 of the 2012 $PM_{2.5}$ Plan as modified by Table F–1 in Attachment F to the 2015 Supplement, to achieve the emissions reductions shown therein, and to submit these rules and measures to CARB within 30 days of adoption for transmittal to EPA as a revision to the SIP, as stated on pp. 7–8 of SCAQMD Governing Board Resolution 12–19 and modified by SCAQMD Governing Board Resolution 15–3, excluding all commitments pertaining to control measure IND–01 (Backstop Measures for Indirect Sources of Emissions from Ports and Port-Related Facilities).

(*6*) The $PM_{2.5}$-related portions of Appendix VI (''Reasonably Available Control Measures (RACM) Demonstration'') of the Final 2012 Air Quality Management Plan (December 2012).

(440) Amended regulations were submitted by the Governor's designee on September 28, 2011.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 2020, ''Exemptions,'' amended on August 18, 2011.

(441) New and amended regulations for the following APCDs were submitted on May 13, 2014 by the Governor's Designee.

(i) *Incorporation by Reference.* (A) South Coast Air Quality Management District.

(1) Rule 1146, ''Emissions of Oxides of Nitrogen from Industrial, Institutional, and Commercial Boilers, Steam Generators, and Process Heaters,'' amended November 1, 2013.

(2) Rule 1146.1, ''Emissions of Oxides of Nitrogen from Small Industrial, Institutional, and Commercial Boilers, Steam Generators, and Process Heaters,'' amended November 1, 2013.

(B) Placer County Air Pollution Control District.

(*1*) Rule 502, ''New Source Review,'' amended on August 8, 2013.

(*2*) Rule 247, ''Natural Gas-Fired Water Heaters, Small Boilers and Process Heaters,'' amended February 13, 2014.

(*3*) Rule 249, ''Surface Coating of Plastic Parts and Products,'' adopted on August 8, 2013.

(C) Ventura County Air Pollution Control District.

(*1*) Rule 54, ''Sulfur Compounds,'' revised on January 14, 2014.

(*2*) Metalworking Fluids and Direct-Contact Lubricants,'' adopted on November 12, 2013.

(*3*) Rule 23, ''Exemptions from Permit,'' revised on November 12, 2013.

(D) San Joaquin Valley Air Pollution Control District.

(*1*) Rule 4621, ''Gasoline Transfer into Stationary Storage Containers, Delivery Vessels, and Bulk Plants,'' amended on December 19, 2013.

(*2*) Rule 4622, ''Gasoline Transfer into Motor Vehicle Fuel Tanks,'' amended on December 19, 2013.

(*3*) Rule 4308, ''Boilers, Steam Generators, and Process Heaters—0.075 MMBtu/hr to less than 2.0 MMBtu/hr,'' amended on November 14, 2013.

(*4*) Rule 4702, ''Internal Combustion Engines,'' amended on November 14, 2013.

(E) Antelope Valley Air Quality Management District.

(*1*) Rule 1124, ''Aerospace Assembly and Component Manufacturing Operations,'' amended on August 20, 2013.

(*2*) Rule 1130, ''Graphic Arts,'' amended on November 19, 2013.

(*3*) Rule 1113, ''Architectural Coatings,'' amended on March 18, 2003.

(F) San Luis Obispo County Air Pollution Control District.

(*1*) Rule 220, ''Federal Prevention of Significant Deterioration,'' except for the incorporation by reference of 40 CFR 52.21(b)(49)(v) into sections B and D.3., amended on January 22, 2014.

(ii) *Additional materials.* (A) San Luis Obispo County Air Pollution Control District.

(*1*) Letter dated December 16, 2014 from Larry R. Allen, San Luis Obispo County Air Pollution Control District, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding clarifications of District Rule 220 and 40 CFR 51.166.

(442) New and amended regulations for the following APCDs were submitted on February 10, 2014 by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 101, ''Definitions,'' revised on October 22, 2013.

(*2*) Rule 400.3, ''Internal Combustion Engine(s),'' adopted on October 22, 2013.

(*3*) Rule 400.4, ''Emissions of Oxides of Nitrogen from Wallboard Kilns,'' adopted on October 22, 2013.

(*4*) Previously approved on October 2, 2014 in paragraph (c)(442)(i)(A)(*1*) of this section and now deleted with replacement in paragraph (c)(485)(i)(A)(*1*), Rule 101, ''Definitions,'' revised on October 22, 2013.

(*5*) Rule 206, ''Processing of Applications,'' revised on October 22, 2013.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 1020, ''Definitions,'' amended on February 21, 2013.

(C) South Coast Air Quality Management District.

(*1*) Rule 1114, ''Petroleum Refinery Coking Operations,'' adopted on May 3, 2013.

(D) Placer County Air Pollution Control District.

(*1*) Rule 213, ''Gasoline Transfer into Stationary Storage Containers,'' amended on February 21, 2013.

(*2*) Rule 214, ''Transfer of Gasoline into Vehicle Fuel Tanks,'' amended on February 21, 2013.

(E) Feather River Air Quality Management District.

(*1*) Rule 3.14, ''Surface Preparation and Clean-Up,'' amended on August 1, 2011.

(*2*) Rule 3.20, ''Wood Products Coating Operations,'' amended on August 1, 2011.

(*3*) Rule 3.21, ''Industrial, Institutional, and Commercial Boilers, Steam Generators, and Process Heaters,'' adopted on June 5, 2006.

(*4*) Rule 3.19, ''Vehicle and Mobile Equipment Coating Operations,'' amended on August 1, 2011.

(F) Yolo-Solano Air Quality Management District.

(1) Rule 1.1, ''General Provisions and Definitions,'' revised on May 8, 2013.

(2) Rule 2.31, ''Solvent Cleaning and Degreasing,'' revised on May 8, 2013.

(*3*) Previously approved on April 28, 2015 in paragraph (442)(i)(F)(*1*) of this section and now deleted with replacement in (472)(i)(A)(*1*), Rule 1.1, ''General Provisions and Definitions,'' revised on May 8, 2013.

(G) Butte County Air Quality Management District.

(*1*) Rule 434, ''Emission Statements,'' adopted on April 25, 2013.

(H) Santa Barbara County Air Pollution Control District.

(*1*) Rule 810, ''Federal Prevention of Significant Deterioration (PSD),'' except for the incorporation by reference of 40 CFR 52.21(b)(49)(v) into sections B and D.3., amended on June 20, 2013.

(ii) *Additional materials.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Letter dated November 25, 2014 from David Van Mullem, Santa Barbara County Air Pollution Control District, to Gerardo Rios, United States Environmental Protection Agency Region 9, regarding clarifications of District Rule 810 and 40 CFR 51.166.

(443) New and amended regulations for the following APCDs were submitted on December 23, 1998 by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Lake County Air Quality Management District.

(*1*) Lake County Air Quality Management District Board of Directors Resolution 98–195 adopting Section 228, ''Hazardous Air Pollutants (HAP),''

adopted on June 23, 1998, as ''Exhibit A.''

(444) New and amended regulations were submitted on May 28, 2014, by the Governor's designee.

(i) *Incorporation by reference.* (A) California Air Resource Board.

(*1*) ''Final Regulation Order, Regulation for Reducing Emissions from Consumer Products,'' Subchapter 8.5 (Consumer Products), Article 2 (Consumer Products), amended March 15, 2013.

(445) A plan revision submitted on December 21, 2010 by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) State of California Air Resources Board.

(1) California Air Resources Board Resolution No. 10–35, adopted November 18, 2010.

(B) Imperial County Air Pollution Control District.

(*1*) Imperial County Air Pollution Control Board, Minute Order No. 15, adopted July 13, 2010.

(*2*) Chapter 4—Emission Inventory, in ''Imperial County 2009 1997 8-Hour Ozone Modified Air Quality Management Plan'', adopted on July 13, 2010.

(446) A plan was submitted on May 23, 2013, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Feather River Air Quality Management District (FRAQMD).

(1) Yuba City-Marysville $PM_{2.5}$ Redesignation Request and Maintenance Plan, including motor vehicle emissions budgets (MVEBs) and attainment year emission inventory, dated April 1, 2013.

(2) FRAQMD Board of Directors Resolution 2013–01, dated April 1, 2013. ''Resolution Adopting the $PM_{2.5}$ Redesignation Request and Maintenance Plan,'' including attainment year emissions inventory and MVEBs for 2017 and 2024.

(B) State of California Air Resources Board (CARB).

(1) CARB Resolution Number 13–14, dated April 25, 2013. ''Yuba City-Marysville $PM_{2.5}$ Maintenance Plan and Redesignation Request.''

(*2*) CARB Resolution Number 14–6, dated February 20, 2014. ''Minor Updates to Yuba City-Marysville $PM_{2.5}$ Maintenance Plan and Redesignation Request.''

(447) New and amended regulations were submitted on July 25, 2014, by the Governor's designee.

(i) *Incorporation by Reference.* (A) Feather River Air Quality Management District.

(*1*) Rule 3.17 (except specific provisions of subsections E.8, F.2 and F.4), ''Wood Heating Devices,'' amended on October 5, 2009.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4307, ''Boilers, Steam Generators, and Process Heaters—2.0 MMBtu/hr to 5.0 MMBtu/hr,'' amended on May 19, 2011.

(*2*) Previously approved on February 12, 2015 in paragraph (c)(447)(i)(B)(*1*) of this section and now deleted with replacement in (c)(488)(i)(C)(*1*), Rule 4307, ''Boilers, Steam Generators, and Process Heaters—2.0 MMBtu/hr to 5.0 MMBtu/hr,'' amended on May 19, 2011.

(C) South Coast Air Quality Management District.

(*1*) Rule 1155, ''Particulate Matter (PM) Control Devices,'' amended on May 2, 2014.

(D) Eastern Kern Air Pollution Control District.

(*1*) Rule 432, ''Polyester Resin Operations,'' adopted on March 13, 2014.

(*2*) Rule 410.4, ''Metal, Plastic, and Pleasure Craft Parts and Products Coating Operations,'' amended on March 13, 2014.

(*3*) Rule 410.8, ''Aerospace Assembly and Coating Operations,'' adopted on March 13, 2014.

(*4*) Rule 410.9, ''Wood Products Surface Coating Operations,'' adopted on March 13, 2014.

(*5*) Rule 410.4A, ''Motor Vehicle and Mobile Equipment Refinishing Operations,'' amended on March 13, 2014.

(448) New and amended regulations were submitted on August 15, 2014, by the Governor's designee.

(i) *Incorporation by Reference.* (A) Feather River Air Quality Management District.

(*1*) Rule 2.0, ''Open Burning,'' amended on October 6, 2008.

(449) New and amended regulations for the following APCDs were submitted on July 18, 2014 by the Governor's designee.

(i) [Reserved]

(ii) *Additional material.* (A) Ventura County Air Pollution Control District.

(*1*) Reasonably Available Control Technology State Implementation Plan Revision (2014 RACT SIP) as adopted on June 10, 2014 (''2014 RACT SIP'').

(B) Placer County Air Pollution Control District.

(*1*) 2014 Reasonably Available Control Technology State Implementation Plan Analysis, as adopted on April 10, 2014.

(C) South Coast Air Quality Management District.

(*1*) South Coast Air Quality Management District, ''2016 AQMP Reasonably Available Control Technology (RACT) Demonstration,'' dated May 22, 2014.

(D) San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD).

(*1*) SJVUAPCD ''2014 Reasonably Available Control Technology (RACT) Demonstration for the 8-Hour Ozone State Implementation Plan (SIP),'' dated June 19, 2014, as adopted by the SJVUAPCD on June 19, 2014.

(450) The following plan was submitted on February 24, 2006 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Sacramento Metro 1997 Eight-Hour Ozone Planning Area.

(*1*) *Sacramento Regional Nonattainment Area 8-Hour Ozone Rate-of-Progress Plan,* Final Draft, December 2005.

(451) The following plan was submitted on April 17, 2009 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Sacramento Metro 1997 Eight-Hour Ozone Planning Area.

(*1*) *Sacramento Regional 8-Hour Ozone Attainment and Reasonable Further Progress Plan (With Errata Sheets Incorporated),* March 26, 2009 (Reasonable further progress demonstration and related contingency demonstration for milestone year 2011 as presented in chapter 13 (''Reasonable Further Progress Demonstrations'') only).

(452) The following plan was submitted on December 31, 2013 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Sacramento Metro 1997 Eight-Hour Ozone Planning Area.

(*1*) *Sacramento Regional 8-Hour Ozone Attainment and Reasonable Further Progress Plan (2013 SIP Revisions),* September 26, 2013, including appendices.

(*2*) Supplemental information, titled ''Sacramento Federal Ozone Nonattainment Area, July 24, 2014,'' for Appendix F–1 (''Vehicle Miles Traveled Offset Demonstration'') of the *Sacramento Regional 8-Hour Ozone Attainment and Reasonable Further Progress Plan (2013 SIP Revisions).*

(453) New and amended regulations for the following APCDs were submitted on May 12, 2011.

(i) *Incorporation by reference.* (A) Monterey Bay Unified Air Pollution Control District.

(1) Rule 207, ''Review of New or Modified Sources,'' revised on April 20, 2011.

(454) The following plan was submitted on June 16, 2014, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board (CARB).

(*1*) CARB Resolution 14–15, dated May 22, 2014, approving the ''California Regional Haze Plan 2014 Progress Report.''

(*2*) The ''California Regional Haze Plan 2014 Progress Report'', adopted on May 22, 2014.

(455) New and amended regulations for the following APCDs were submitted on June 26, 2013.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 9610, ''State Implementation Plan Credit for Emission Reductions Generated through Incentive Programs,'' adopted on June 20, 2013.

(456) New and amended regulations for the following APCDs were submitted on February 7, 2008 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) Northern Sierra Air Quality Management District.

(*1*) Reasonably Available Control Technology (RACT) State Implementation Plan (SIP) Revision for Western

Nevada County 8-Hour Ozone Non-Attainment Area as adopted on June 25, 2007.

(457) New and amended regulations for the following APCDs were submitted on November 6, 2014 by the Governor's designee.

(i) *Incorporation by reference.* (A) Feather River Air Quality Management District.

(*1*) Rule 10.9, ''Rice Straw Emission Reduction Credits and Banking,'' amended on October 6, 2014.

(*2*) Rule 3.22, ''Stationary Internal Combustion Engines,'' amended on October 6, 2014.

(*3*) Rule 3.8, ''Gasoline Dispensing Facilities,'' amended on June 2, 2014.

(*4*) Rule 10.1, ''New Source Review,'' amended on October 6, 2014.

(*5*) Rule 3.15, ''Architectural Coatings,'' amended on August 4, 2014.

(B) Mojave Desert Air Quality Management District.

(*1*) Rule 464, ''Oil-Water Separators,'' amended on June 23, 2014.

(C) Butte County Air Quality Management District.

(*1*) Rule 101, ''Definitions,'' amended on April 24, 2014.

(*2*) Rule 400, ''Permit Requirements,'' amended on April 24, 2014.

(*3*) Rule 401, ''Permit Exemptions,'' amended on April 24, 2014.

(*4*) Rule 432, ''Federal New Source Review,'' amended on April 24, 2014.

(*5*) Rule 433, ''Rice Straw Emission Reduction Credits,'' amended on April 24, 2014.

(*6*) Previously approved on December 22, 2016, in paragraph (c)(457)(i)(C)(*4*) of this section and now deleted with replacement in paragraph (c)(504)(i)(A)(*1*) of this section, Rule 432, ''Federal New Source Review'' amended on April 24, 2014.

(D) San Luis Obispo County Air Pollution Control District.

(*1*) Rule 222, ''Federal Emission Statement,'' adopted on May 28, 2014.

(E) South Coast Air Quality Management District.

(*1*) Rule 1130, ''Graphic Arts,'' amended on May 2, 2014.

(F) Antelope Valley Air Quality Management District.

(*1*) Rule 701, ''Air Pollution Emergency Contingency Actions,'' amended on April 15, 2014.

(G) Santa Barbara County Air Pollution Control District.

(*1*) Rule 323.1, ''Architectural Coatings,'' adopted on June 19, 2014.

(H) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4901, ''Wood Burning Fireplaces and Wood Burning Heaters,'' amended on September 18, 2014.

(I) Great Basin Unified Air Pollution Control District.

(*1*) Rule 431, Particulate Emissions (except paragraphs M and N), revised May 5, 2014.

(*2*) Town of Mammoth Lakes Municipal Code Chapter 8.30, Particulate Emissions Regulations (except paragraphs 8.30.110 and 8.30.120), as adopted in Ordinance Number 14–06, June 4, 2014.

(458) New and amended regulations for the following APCDs were submitted on December 29, 2014 by the Governor's designee.

(i) *Incorporation by Reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1325, Rule 1325, ''Federal $PM_{2.5}$ New Source Review Program'' adopted on December 5, 2014.

(*2*) Previously approved on May 1, 2015 in paragraph (c)(458)(i)(A)(*1*) of this section and now deleted with replacement in paragraph (c)(509)(i)(A)(*1*), Rule 1325.

(459) The following plan revision was submitted on October 27, 2009, by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) Feather River Air Quality Management District.

(*1*) Reasonably Available Control Technology State Implementation Plan Revision, Negative Declaration for Control Techniques Guidelines Issued 2006–2008 (''2009 RACT SIP''), as adopted on June 1, 2009.

(460) The following plan revision was submitted on September 29, 2014, by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) Feather River Air Quality Management District.

(*1*) Reasonably Available Control Technology Analysis and Negative Declarations (''2014 RACT SIP''), as adopted on August 4, 2014.

(461) New and amended regulations were submitted on April 7, 2015 by the Governor's designee.

(i) *Incorporation by Reference.* (A) Monterey Bay Unified Air Pollution Control District.

(*1*) Rule 1002, ''Transfer of Gasoline into Vehicle Fuel Tanks,'' revised on December 17, 2014.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 74.33, ''Liquefied Petroleum Gas Transfer or Dispensing,'' adopted on January 13, 2015.

(C) South Coast Air Quality Management District.

(*1*) Rule 1151, ''Motor Vehicle and Mobile Equipment Non-Assembly Line Coating Operations,'' amended on September 5, 2014.

(*2*) Rule 1111, ''Reduction of NO_X Emissions From Natural-Gas-Fired, Fan-Type Central Furnaces,'' amended September 5, 2014.

(*3*) Rule 1153.1, ''Emissions of Oxides of Nitrogen from Commercial Food Ovens,'' adopted on November 7, 2014.

(D) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4905, ''Natural-Gas-Fired, Fan-Type Central Furnaces,'' amended January 22, 2015.

(462) The following plan was submitted on October 21, 2014, by the Governor's designee.

(i) [Reserved]

(ii) *Additional Materials.* (A) Great Basin Unified Air Pollution Control District (GBUAPCD).

(*1*) ''2014 Air Quality Maintenance Plan and Redesignation Request for the Town of Mammoth Lakes'' (Mammoth Lakes PM_{10} Maintenance Plan), adopted on May 5, 2014.

(*2*) GBUAPCD Board Order #140505–03 adopting the Mammoth Lakes PM_{10} Maintenance Plan, dated May 5, 2014.

(B) State of California Air Resources Board (CARB).

(*1*) CARB Resolution 14–27 adopting the redesignation request and Mammoth Lakes PM_{10} Maintenance Plan, dated September 18, 2014.

(463) Amended regulations for the following APCDs were submitted on June 26, 2015 by the Governor's designee.

(i) *Incorporation by reference.* (A) Placer County Air Pollution Control District.

(*1*) Rule 515, ''Stationary Rail Yard Control Emission Reduction Credits,'' amended on February 19, 2015.

(B) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.26, ''Motor Vehicle and Mobile Equipment Coating Operations,'' revised on December 10, 2008.

(*2*) Rule 2.22, ''Gasoline Dispensing Facilities,'' revised on January 14, 2015.

(*3*) Rule 2.34, ''Stationary Gas Turbines,'' revised on November 12, 2014.

(464) The following plan was submitted on December 21, 2010 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) Imperial County Air Pollution Control District.

(*1*) Final 2009 Reasonably Available Control Technology State Implementation Plan (''2009 RACT SIP'') as adopted on July 13, 2010.

(465) New regulation for the following APCD was submitted on July 15, 2015 by the Governor's designee.

(i) *Incorporation by reference.* (A) Placer County Air Pollution Control District.

(*1*) ''Ozone Emergency Episode Plan,'' adopted on June 11, 2015.

(466) The following plan was submitted on October 6, 2011, by the Governor's Designee.

(i) [Reserved].

(ii) Additional materials.

(A) California Air Resources Board (CARB).

(*1*) CARB Resolution 11–28, dated September 22, 2011, adopting the ''Proposed State Implementation Plan Revision for Federal Lead Standard Infrastructure Requirements.''

(*2*) ''Proposed State Implementation Plan Revision for Federal Lead Standard Infrastructure Requirements,'' (''2011 Pb Infrastructure SIP'').

(467) The following plan was submitted on December 12, 2012, by the Governor's Designee.

(i) [Reserved].

(ii) *Additional materials.* (A) California Air Resources Board (CARB).

(*1*) CARB Resolution 12–32, dated November 15, 2012, adopting the ''Proposed State Implementation Plan Revision for Federal Nitrogen Dioxide Standard Infrastructure Requirements.''

(*2*) ''Proposed State Implementation Plan Revision for Federal Nitrogen Dioxide Standard Infrastructure Requirements,'' (''2012 NO_2 Infrastructure SIP'').

(468) The following plan was submitted on March 6, 2014, by the Governor's Designee.

(i) Incorporation by Reference. (A) California Air Resources Board

(*1*) California Government Code, Title 9 (Political Reform), Chapter 2 (Definitions), Section 82048, ''Public official,'' added by California Initiative Measure approved on June 4, 1974, effective January 7, 1975, and last amended in 2004.

(*2*) California Government Code, Title 9 (Political Reform), Chapter 7 (Conflicts of Interest), Article 1 (General Prohibition), Section 87103, ''Financial interest in decision by public official,'' added by California Initiative Measure approved on June 4, 1974, effective January 7, 1975, and last amended in 2000.

(*3*) California Government Code, Title 9 (Political Reform), Chapter 7 (Conflicts of Interest), Article 3 (Conflict of Interest Codes), Section 87302, ''Required provisions; exemptions,'' added by California Initiative Measure approved on June 4, 1974, effective January 7, 1975, and last amended in 1992.

(*4*) Title 2, California Code of Regulations, Division 6 (Fair Political Practices Commission), Chapter 7 (Conflict of Interest), Article 1 (Conflicts of Interest; General Prohibition), Section 18700, ''Basic Rule and Guide to Conflict of Interest Regulations'' (filed on December 17, 1976, effective upon filing, and last amendment filed on December 20, 2005, operative January 19, 2006).

(*5*) Title 2, California Code of Regulations, Division 6 (Fair Political Practices Commission), Chapter 7 (Conflict of Interest), Article 1 (Conflicts of Interest; General Prohibition), Section 18701, ''Definitions: Source of Income, Commission Income and Incentive Income'' (filed on January 22, 1976, effective February 21, 1976, and last amendment filed on December 29, 2005, operative January 28, 2006).

(ii) *Additional materials.* (A) California Air Resources Board (CARB).

(*1*) CARB Resolution 14–1, dated January 23, 2014, adopting the ''California Infrastructure SIP.''

(*2*) ''California Infrastructure SIP,'' (''2014 Multi-pollutant Infrastructure SIP'').

(469) The following plan was submitted on June 2, 2014, by the Governor's Designee.

(i) Incorporation by Reference. (A) Great Basin Unified Air Pollution Control District.

(*1*) Rule 701, ''Air Pollution Episode Plan for Particulate Matter,'' adopted on March 3, 2014.

(470) The following plan was submitted on December 20, 2013 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board.

(*1*) Letter and enclosures from Lynn Terry, Deputy Executive Officer, California Air Resources Board, dated June 19, 2014, providing supplemental information related to Appendix D (''VMT Emissions Offset Demonstration'') of the San Joaquin Valley 2013 Plan for the Revoked 1-Hour Ozone Standard, excluding EMFAC2011 output files.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) 2013 Plan for the Revoked 1-Hour Ozone Standard, adopted by the San Joaquin Valley Unified Air Pollution Control District on September 19, 2013 and approved by the California Air Resources Board on November 21, 2013, excluding section 4.4 (''Contingency Reductions'').

(471) The following plan was submitted on March 4, 2015, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional material.* (A) South Coast Air Quality Management District.

(*1*) ''2015 Supplement to the 24-Hour $PM_{2.5}$ State Implementation Plan for the South Coast Air Basin'' (February 2015), excluding Attachment C (''New Transportation Conformity Budgets for 2015''). SCAQMD's commitments to adopt and implement specific rules and measures in accordance with the schedule provided in Chapter 4 of the 2012 $PM_{2.5}$ Plan as modified by Table F–1 in Attachment F to the 2015 Supplement, to achieve the emissions reductions shown therein, and to submit these rules and measures to CARB within 30 days of adoption for transmittal to

EPA as a revision to the SIP, as stated on pp. 7–8 of SCAQMD Governing Board Resolution 12–19 and modified by SCAQMD Governing Board Resolution 15–3, excluding all commitments pertaining to control measure IND–01 (Backstop Measures for Indirect Sources of Emissions from Ports and Port-Related Facilities).

(*2*) SCAQMD Governing Board Resolution No. 15–3, dated February 6, 2015.

(B) State of California Air Resources Board.

(*1*) CARB Resolution 15–2, dated February 19, 2015, ''Minor Revision to the South Coast Air Basin 2012 $PM_{2.5}$ State Implementation Plan.''

(472) New and amended regulations were submitted on November 13, 2015, by the Governor's designee.

(i) *Incorporation by reference.* (A) Yolo-Solano Air Quality Management District.

(*1*) Rule 1.1, General Provisions and Definitions, revised July 8, 2015.

(B) Ventura County Air Pollution Control District.

(*1*) Rule 74.15.1, ''Boilers, Steam Generators, and Process Heaters,'' revised June 23, 2015.

(C) San Diego Air Pollution Control District.

(*1*) Rule 67.0.1, ''Architectural Coatings,'' adopted on June 24, 2015.

(473) A new regulation for the following AQMD was submitted on April 6, 2016 by the Governor's designee.

(i) *Incorporation by reference.* (A) El Dorado County Air Quality Management District.

(*1*) ''Ozone Emergency Episode Plan,'' adopted January 12, 2016.

(474) New and amended regulations were submitted on March 11, 2016, by the Governor's designee.

(i) *Incorporation by reference.* (A) Placer County Air Pollution Control District.

(*1*) Rule 250, ''Stationary Gas Turbines,'' amended on October 8, 2015.

(B) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 442, ''Architectural Coatings,'' amended on September 24, 2015.

(C) Butte County Air Quality Management District

(*1*) Rule 300, ''Open Burning Requirements, Prohibitions and Exemptions'' amended on August 27, 2015.

(D) Ventura County Air Pollution Control District.

(*1*) Rule 26.13, ''New Source Review—Prevention of Significant Deterioration (PSD),'' revised on November 10, 2015.

(475) A new plan for the following AQMD was submitted January 21, 2009 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Reasonably Available Control Technology (RACT) Update as Applicable to the 8-Hour Ozone Standard, dated October 23, 2008, adopted October 23, 2008.

(476) The following revision was submitted on November 13, 2015 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board.

(*1*) Attachment A to Resolution 15–50, ''Updates to the Transportation Conformity Budgets for the San Joaquin Valley 2007 PM_{10}, 2007 Ozone and 2012 $PM_{2.5}$ SIPs,'' Table A–1 (Updated Transportation Conformity Budgets for the 2008 Ozone Plan (Tons per summer day) and Table A–3 (Updated Transportation Conformity Budgets for the 2008 PM_{10} Maintenance Plan (Tons per annual day)).

(*2*) Attachment A to Resolution 15–50, ''Updates to the Transportation Conformity Budgets for the San Joaquin Valley 2007 $PM_{10,}$ 2007 Ozone and 2012 $PM_{2.5}$ SIPs,'' Table A–2 (Updated Transportation Conformity Budgets for the 2012 $PM_{2.5}$ Plan (Tons per winter day).

(477) The following plan revision was submitted on November 17, 2014 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Material.* (A) California Air Resources Board.

(*1*) ''Report on Reductions Achieved from Incentive-based Emission Reduction Measures in the San Joaquin Valley,'' adopted on October 24, 2014, including appendices F–H.

(478) The following plan was submitted on March 4, 2013, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) ''2012 $PM_{2.5}$ Plan'' (dated December 20, 2012), adopted December 20, 2012, except for the motor vehicle emission budgets used for transportation conformity purposes.

(*2*) SJVUAPCD Governing Board Resolution No. 12–12–19, dated December 20, 2012, ''In the Matter of Adopting the San Joaquin Valley Unified Air Pollution Control District *2012 $PM_{2.5}$ Plan*.''

(*3*) SJVUAPCD's commitments to adopt and implement specific rules and measures by the dates specified in Chapter 5 of the 2012 $PM_{2.5}$ Plan to achieve the emissions reductions shown therein, and to submit these rules and measures to CARB within 30 days of adoption for transmittal to EPA as a revision to the SIP, or if the total emission reductions from the adopted rules are less than those committed to in the Plan, to adopt, submit, and implement substitute rules that will achieve equivalent reductions in emissions of direct $PM_{2.5}$ or $PM_{2.5}$ precursors in the same adoption and implementation timeframes or in the timeframes needed to meet CAA milestones, as stated on p. 4 of SJVUAPCD Governing Board Resolution 12–12–19, dated December 20, 2012.

(B) California Air Resources Board.

(*1*) CARB Resolution 13–2, dated January 24, 2013, ''San Joaquin Valley $PM_{2.5}$ State Implementation Plan.''

(479) The following plan was submitted on November 6, 2014, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) San Joaquin Valley Unified Air Pollution Control District.

(*1*) ''Supplemental Document, Clean Air Act Subpart 4: The 2012 $PM_{2.5}$ Plan for the 2006 $PM_{2.5}$ Standard and District Rule 2201 (New and Modified Stationary Source Review)'' (dated September 18, 2014), adopted September 18, 2014.

(*2*) SJVUAPCD Governing Board Resolution No. 14–09–01, dated September 18, 2014, ''In the Matter of: Authorizing Submittal of ''Supplemental Document for the 2012 $PM_{2.5}$ Plan'' to EPA.''

(B) California Air Resources Board.

(*1*) CARB Resolution 14–37, dated October 24, 2014, ''Supplemental Document for the San Joaquin Valley 24-Hour $PM_{2.5}$ State Implementation Plan.''

(480) New and amended regulations for the following AQMD was submitted on December 11, 2014 by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Northern Sonoma County Air Pollution Control District.

(*1*) Rule 130, ''Definitions,'' adopted on November 14, 2014.

(*2*) Rule 200, ''Permit Requirements,'' adopted on November 14, 2014.

(*3*) Rule 220, ''New Source Review,'' adopted on November 14, 2014.

(*4*) Rule 230, ''Action on Applications,'' adopted on November 14, 2014.

(*5*) Previously approved on October 6, 2016, in paragraph (c)(480)(i)(A)(*1*) of this section and now deleted with replacement in (c)(504)(i)(B)(*1*), Rule 130, ''Definitions'' adopted on November 14, 2014.

(*6*) Previously approved on October 6, 2016, in paragraph (c)(480)(i)(A)(*3*) of this section and now deleted with replacement in (c)(504)(i)(B)(*2*), Rule 220, ''New Source Review'' adopted on November 14, 2014.

(*7*) Previously approved on October 6, 2016, in paragraph (c)(480)(i)(A)(*4*) of this section and now deleted with replacement in (c)(504)(i)(B)(*3*), Rule 230, ''Action on Applications'' adopted on November 14, 2014.

(481) The following revision was submitted on July 17, 2014 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board.

(*1*) California Air Resources Board, Staff Report, ''8-Hour Ozone State Implementation Plan Emission Inventory Submittal,'' release date: May 23, 2014, excluding the tables of 2012 average summer daily emissions (tons per day) other than the tables for Chico (Butte County), San Luis Obispo County (Eastern San Luis Obispo), Calaveras County, and San Francisco Bay Area.

(482) New regulations for the following APCDs were submitted on September 5, 2014 by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 2449, ''Control of Oxides of Nitrogen Emissions from Off-Road Diesel Vehicles,'' amended on July 11, 2014.

(483) The following plan was submitted on June 9, 2016, by the Governor's designee.

(i) *Incorporation by Reference.* (A) Great Basin Unified Air Pollution Control District.

(*1*) Rule 433, ''Control of Particulate Emissions at Owens Lake,'' adopted on April 13, 2016.

(ii) *Additional materials.* (A) Great Basin Unified Air Pollution Control District (GBUAPCD).

(*1*) ''2016 Owens Valley Planning Area PM_{10} State Implementation Plan,'' adopted April 13, 2016, excluding all of the following: Section 10.1 (''Proposed Rule 433''); Appendix I–1 (''2006 Settlement Agreement''); Appendix II–1 (''2014 Stipulated Judgement''); Appendices D (''2008 GBUAPCD Board Order No. 080128–01''), E (''2013 GBUAPCD Board Order No. 130916–01''), and F (''GBUAPCD Fugitive Dust Rules (400, 401, 402)'') of Appendix V–1 (''Owens Valley Planning Area 2016 State Implementation Plan BACM Assessment); Appendix VI–2 (''Owens Lake Dust Mitigation Program Phase 9/10 Project—Final Environmental Impact Report (May 2015)''); and Appendix X–1 (''Proposed Rule 433'').

(484) The following plan was submitted on January 9, 2015, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Imperial County Air Pollution Control District.

(*1*) ''Imperial County 2013 State Implementation Plan for the 2006 24-Hour $PM_{2.5}$ Moderate Nonattainment Area,'' adopted December 2, 2014, Chapter 3 (''Emissions Inventory'') excluding: Section 3.4.1 (''Determination of Significant Sources of $PM_{2.5}$ Precursors''); Section 3.4.2 (''Determination of Significant Sources of $PM_{2.5}$''); the 2011 and 2012 winter and annual average inventories in Table 3.1 (''$PM_{2.5}$ Emissions Inventory by Major Source Category 2008, 2011 and 2012 Winter and Annual Planning Emissions Inventories''); the 2011 and 2012 winter and annual average inventories in Table 3.7 (''NO_X Emissions Inventory by Major Source Category 2008, 2011 and 2012 Winter and Annual Planning Emissions Inventories''); the 2011 and 2012 winter and annual average inventories in Table 3.8 (''VOCs Emissions Inventory by Major Source Category 2008, 2011 and 2012 Winter and Annual Planning Emissions Inventories''); the 2011 and 2012 winter and annual average inventories in Table 3.9 (''SO_X Emissions Inventory by Major Source Category 2008, 2011 and 2012 Winter and Annual Planning Emissions Inventories''); and the 2011 and 2012 winter and annual average inventories in Table 3.10 (''Ammonia Emissions Inventory by Major Source Category 2008, 2011 and 2012 Winter and Annual Planning Emissions Inventories'').

(485) New and amended regulations were submitted on April 21, 2016 by the Governor's designee.

(i) *Incorporation by reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 101, ''Definitions,'' revised February 9, 2016.

(*2*) Rule 202, ''Exemptions,'' revised February 9, 2016.

(*3*) Rule 217, ''Large Confined Animal Facilities (LCAF) Permits Required,'' revised February 9, 2016.

(*4*) Previously approved on June 8, 2017 in paragraph (c)(485)(i)(A)(1) of this section and now deleted with replacement in (c)(523)(i)(A)(1), Rule 101, ''Definitions,'' revised on February 9, 2016.

(B) Mojave Desert Air Quality Management District.

(*1*) Rule 1118, ''Aerospace Assembly, Rework and Component Manufacturing Operations,'' amended on October 26, 2015.

(486) The following plan was submitted on November 6, 2014, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board.

(*1*) California Air Resources Board, Staff Report, Proposed Updates to the 1997 8-Hour Ozone Standard, State Implementation Plans; Coachella Valley and Western Mojave Desert (excluding section III (pp. 8–12), Table A–2, Table B–2, Table C–2, the bottom row of Table E–1, Table E–3 and accompanying discussion of Western Mojave Desert ROG

calculations on p. E–7, and Figure E–2 (regarding Western Mojave Desert); Table B–3 (regarding contingency measures); and Appendix D (regarding transportation conformity budgets)), adopted on October 24, 2014.

(*2*) California Air Resources Board, Staff Report, Proposed Updates to the 1997 8-Hour Ozone Standard, State Implementation Plans; Coachella Valley and Western Mojave Desert, adopted on October 24, 2014: ''Reasonable Further Progress Demonstration Update,'' at p. 10 (excluding those portions that pertain to reasonable further progress targets after 2011); Table A–2 (excluding pp. A–10 through A–12, and those portions that pertain to reasonable further progress targets after 2011); Table C–2 (excluding those portions that pertain to reasonable further progress targets after 2011).

(487) New and amended regulations were submitted on September 6, 2016 by the Governor's designee.

(i) *Incorporation by reference.* (A) Northern Sierra Air Quality Management District.

(*1*) Rule 513, ''Emissions Statements and Recordkeeping,'' amended on June 27, 2016.

(*2*) [Reserved]

(488) New and amended regulations were submitted on August 22, 2016 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Diego County Air Pollution Control District.

(*1*) Regulation 1, Rule 2, ''Definitions,'' Rev. Adopted and Effective on June 30, 1999, Table 1—Exempt Compounds: Rev. and Effective on June 14, 2016.

(*2*) Rule 67.12.1, ''Polyester Resin Operations,'' adopted and effective on May 11, 2016.

(*3*) Rule 11, ''Exemptions from Rule 10 Permit Requirements,'' revision adopted on May 11, 2016.

(*4*) Rule 24, ''Temporary Permit to Operate,'' revision adopted on June 29, 2016.

(B) San Joaquin Valley Unified Air Pollution Control District.

(*1*) Rule 4307, ''Boilers, Steam Generators, and Process Heaters—2.0 MMBtu/hr to 5.0 MMBtu/hr,'' amended on April 21, 2016.

(C) Sacramento Metropolitan Air Quality Management District.

(*1*) Rule 464, ''Organic Chemical Manufacturing Operations,'' amended on April 28, 2016.

(D) South Coast Air Quality Management District.

(*1*) Rule 1113, ''Architectural Coatings,'' amended February 5, 2016, except for the final sentence of paragraphs (b)(8), and (b)(25).

(489) Amended regulations for the following AQMD was submitted on November 15, 2016 by the Governor's Designee.

(i) *Incorporation by Reference.* (A) Mendocino County Air Quality Management District.

(*1*) Regulation I, Rule 1–130, ''Definitions,'' amended on September 20, 2016.

(*2*) Regulation I, Rule 1–200, ''Permit Requirements,'' amended on September 20, 2016.

(*3*) Regulation I, Rule 1–220, ''New Source Review Standards (Including PSD Evaluations),'' amended on September 20, 2016.

(*4*) Regulation I, Rule 1–230, ''Action on Applications,'' amended on September 20, 2016.

(490) An amended regulation was submitted on January 21, 2014 by the Governor's designee.

(i) *Incorporation by reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 207, ''Federal New Source Review,'' revised on October 22, 2013.

(*2*) Previously approved on September 5, 2017 in paragraph (c)(490)(i)(A)(*1*) of this section and now deleted with replacement in paragraph (c)(522)(i)(A)(*1*) of this section, Rule 207 revised on April 24, 2014.

(B) [Reserved]

(ii) [Reserved]

(491) Amended regulations for the following APCDs were submitted on March 17, 2017 by the Governor's designee.

(i) *Incorporation by reference.*

(A) South Coast Air Quality Management District.

(*1*) Rule 2001, ''Applicability,'' amended on December 4, 2015.

(*2*) Rule 2002, ''Allocations for Oxides of Nitrogen (NO_X) and Oxides of Sulfur (SO_X),'' amended on October 7, 2016.

(*3*) Rule 2005, ''New Source Review for RECLAIM,'' amended on December 4, 2015.

(*4*) Protocol for Rule 2011: Attachment C, ''Quality Assurance and Quality Control Procedures,'' amended on December 4, 2015.

(*5*) Protocol for Rule 2011: Chapter 3, ''Process Units—Periodic Reporting,'' amended on December 4, 2015.

(*6*) Protocol for Rule 2012: Attachment C, ''Quality Assurance and Quality Control Procedures,'' amended on December 4, 2015.

(*7*) Protocol for Rule 2012: Chapter 4, ''Process Units Periodic Reporting and Rule 219 Equipment,'' amended on December 4, 2015.

(*8*) Protocol for Rule 2011: Attachment E, ''Definitions,'' amended on February 5, 2016.

(*9*) Protocol for Rule 2012: Attachment F, ''Definitions,'' amended on February 5, 2016.

(492) The following plan revisions were submitted on July 27, 2017 by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Appendix A to the Supplemental RACM/RACT Analysis for the NO_X RECLAIM Program, Facility Permit to Operate, 63500 19th Ave., North Palm Springs, CA 92258, title page, table of contents, section A (page 1), and section D (pages 1–21), adopted on July 7, 2017.

(*2*) Appendix B to the Supplemental RACM/RACT Analysis for the NO_X RECLAIM Program, Facility Permit to Operate, 15775 Melissa Land Rd, North Palm Springs, CA 92258, title page, table of contents, section A (page 1), and section D (pages 1–49), adopted on July 7, 2017.

(ii) *Additional materials.* (A) South Coast Air Quality Management District.

(*1*) Attachment B (''Supplemental RACM/RACT Analysis for the NO_X RECLAIM Program (May 2017)''), excluding Appendices A and B.

(*2*) Attachment C (''Negative Declaration for Control Techniques Guidelines of Surface Coating Operations at Shipbuilding and Repair Facilities, and Paper, Film and Foil Coatings (May 2017)'').

(493) The following plan was submitted by on October 23, 2015 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Antelope Valley Air Quality Management District.

(*1*) 8-Hour Reasonably Available Control Technology—State Implementation Plan Analysis (RACT SIP Analysis), July 2015, adopted on July 21, 2015.

(*2*) Antelope Valley Air Quality Management District Federal Negative Declaration (8 hr Ozone Standard) for Twenty CTG Source Categories, signed June 15, 2015 and adopted on July 21, 2015.

(494) The following plan revision was submitted on June 7, 2017 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Antelope Valley Air Quality Management District.

(*1*) Antelope Valley Air Quality Management District Federal Negative Declaration (8-hour Ozone Standards) for Seven Control Techniques Guideline Source Categories, signed October 19, 2016 and adopted on December 20, 2016.

(*2*) [Reserved]

(495) The following plan was submitted on November 10, 1993 by the Governor's designee.

(i) [Reserved]

(ii) *Additional material.*

(A) California Air Resources Board.

(*1*) Letter and attachments from James D. Boyd, Executive Officer, California Air Resources Board, to Felicia Marcus, Regional Administrator, EPA Region IX, November 10, 1993.

(496) The following plan was submitted on August 24, 2016, by the Governor's Designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board (CARB).

(*1*) CARB Resolution 16–8, dated July 21, 2016, adopting the ''2016 Ozone State Implementation Plan for the San Joaquin Valley.''

(*2*) ''Staff Report, ARB Review of the San Joaquin Valley 2016 Plan for the 2008 8-Hour Ozone Standard,'' section V.H (''Bakersfield Area Monitor'') and

Appendix C (''U.S. EPA Letter Regarding Arvin Site Relocation''), only.

(B) San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD).

(*1*) SJVUAPCD ''2016 Ozone Plan for 2008 8-Hour Ozone Standard,'' dated June 16, 2016, Chapter 3.4 and Appendix C only, as adopted by the SJVUAPCD on June 16, 2016.

(*2*) Resolution 16–6–20, In the Matter of: Adopting the San Joaquin Valley Unified Air Pollution Control District 2016 Ozone Plan for the 2008 8-Hour Ozone Standard, June 16, 2016, commitment to adopt, implement and submit measures committed to in the 2016 Ozone Plan for the 2008 8-Hour Ozone Standard, only.

(*3*) 2016 Ozone Plan for 2008 8-Hour Ozone Standard, adopted June 16, 2016, excluding subchapters 3.4 (''Reasonably Available Control Technology''), 3.11.1 (''Emission Inventory Requirements''), 6.3.2 (''Reasonable Further Progress Requirements''), and 6.4 (''Contingency for Attainment''); appendix C (''Stationary and Area Source Control Strategy Evaluations''); and tables D–1 and D–4 through D–8 in attachment B (''San Joaquin Valley 8-Hr Ozone Motor Vehicle Emissions Budgets'') of appendix D (''Mobile Source Control Strategy'').

(*4*) 2016 Ozone Plan for 2008 8-Hour Ozone Standard, adopted June 16, 2016, subchapters 3.11.1 (''Emission Inventory Requirements'') and 6.4 (''Contingency for Attainment''), only.

(497) New and/or amended regulations for the following AQMDs were submitted on January 24, 2017 by the Governor's designee.

(i) *Incorporation by reference.* (A) Sacramento Metropolitan Air Quality Management District.

(*1*) Permit to Operate for the Kiefer Landfill (''Permit to Operate No. 24360—Air Pollution Control Landfill Gas Flare No. 1, Enclosed Type'') with Attachment A, as reissued on April 14, 2016.

(*2*) Permit to Operate for the Kiefer Landfill (''Permit to Operate No. 24361—Air Pollution Control Landfill Gas Flare No. 2, Enclosed Type'') with Attachment A, as reissued on April 14, 2016.

(B) Placer County Air Pollution Control District.

(*1*) Rule 206, ''Incinerator Burning,'' amended on October 13, 2016.

(*2*) Rule 518, ''Prevention of Significant Deterioration (PSD) Permit Program,'' amended on October 13, 2016.

(C) Northern Sierra Air Quality Management District.

(*1*) City of Portola.

(*i*) Ordinance No. 344, Portola Municipal Code, Chapter 15.10, ''Wood Stove and Fireplace Ordinance,'' adopted June 22, 2016, except paragraphs 15.10.060(B) and sections 15.10.090 and 15.10.100.

(*ii*) [Reserved]

(*2*) [Reserved]

(D) Yolo-Solano Air Quality Management District.

(*1*) Rule 2.21, ''Organic Liquid Storage and Transfer,'' revised on September 14, 2016.

(*2*) Rule 2.14, ''Architectural Coatings,'' revised on October 12, 2016.

(498) New or amended regulations were submitted on February 24, 2017 by the Governor's designee.

(i) *Incorporation by Reference.* (A) Ventura County Air Pollution Control District.

(*1*) Rule 74.34, ''NO_X Reductions from Miscellaneous Sources,'' adopted on December 13, 2016.

(B) Mojave Desert Air Quality Management District.

(*1*) Rule 1106, ''Marine and Pleasure Craft Coating Operations,'' amended on October 24, 2016.

(499) The following plan was submitted on September 9, 2015 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Mojave Desert Air Quality Management District.

(*1*) 8-Hour Reasonably Available Control Technology—State Implementation Plan Analysis (RACT SIP Analysis), February 2015, adopted on February 23, 2015.

(*2*) Mojave Desert Air Quality Management District Federal Negative Declaration (8 hr Ozone Standard) for Nineteen CTG Categories, signed January 13, 2015 and adopted on February 23, 2015.

(B) [Reserved]

(500) The following plan was submitted on February 28, 2017 by the Governor's designee.

(i) *Incorporation by reference.* (A) Northern Sierra Air Quality Management District.

(*1*) Northern Sierra Air Quality Management District Resolution #2017–01, adopted January 23, 2017.

(*2*) [Reserved]

(B) [Reserved]

(ii) *Additional materials.* (A) Northern Sierra Air Quality Management District.

(*1*) The ''Portola Fine Particulate Matter ($PM_{2.5}$) Attainment Plan,'' adopted January 23, 2017, excluding subchapter V.G (''Demonstrating Attainment of the 24-hour Standard''), subchapter VI.B (''Contingency Measure''), and appendices.

(*2*) [Reserved]

(B) [Reserved]

(501) The following plan revision was submitted on February 22, 2018 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Yolo-Solano Air Quality Management District.

(*1*) Adoption of Four Negative Declarations; Resolution No. 18–01 adopted January 10, 2018.

(*2*) [Reserved]

(B) [Reserved]

(502) Amended regulations for the following APCD were submitted on December 14, 2017 by the Governor's Designee.

(i) *Incorporation by reference.* (A) Bay Area Air Quality Management District.

(*1*) Regulation 2, ''Permits,'' Rule 1, ''General Requirements,'' adopted on December 6, 2017; Regulation 2, ''Permits,'' Rule 2, ''New Source Review,'' adopted on December 6, 2017; and Regulation 2, ''Permits,'' Rule 4, ''Emissions Banking,'' adopted on December 6, 2017.

(*2*) [Reserved]

(B) [Reserved]

(ii) [Reserved]

(503) New and amended regulations for the following APCDs were submitted on August 9, 2017 by the Governor's designee.

(i) *Incorporation by reference.* (A) Antelope Valley Air Quality Management District.

(*1*) Rule 1151.1, ''Motor Vehicle Assembly Coating Operations,'' adopted on June 20, 2017.

(*2*) [Reserved]

(B) San Diego County Air Pollution Control District.

(*1*) Rule 67.21, ''Adhesive Material Application Operations,'' amended on May 14, 2008.

(*2*) [Reserved]

(ii) [Reserved]

(504) The following amended regulations were submitted on June 12, 2017, by the Governor's designee.

(i) *Incorporation by reference.* (A) Butte County Air Quality Management District.

(*1*) Rule 432, ''Federal New Source Review,'' amended on March 23, 2017.

(*2*) [Reserved]

(B) Northern Sonoma County Air Pollution Control District.

(*1*) Rule 130, ''Definitions,'' amended on May 3, 2017.

(*2*) Rule 220, ''New Source Review Standards (including PSD Evaluations),'' amended on May 3, 2017.

(*3*) Rule 230, ''Action on Applications,'' amended on May 3, 2017.

(ii) [Reserved]

(505) The following plan was submitted on November 13, 2017 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Yolo-Solano Air Quality Management District.

(*1*) Reasonably Available Control Technology (RACT) State Implementation Plan (SIP) Analysis: ''Table 3—CTG Categories for Which YSAQMD Will Adopt a Negative Declaration,'' adopted on September 13, 2017.

(*2*) [Reserved]

(B) [Reserved]

(506) The following plan was submitted on December 18, 2017, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Butte County Air Quality Management District.

(*1*) ''Chico, CA/Butte County $PM_{2.5}$ Nonattainment Area Redesignation Request and Maintenance Plan,'' adopted October 26, 2017.

(*2*) [Reserved]

(B) [Reserved]

(507) New regulations for the following APCD were submitted on June 29, 2018 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD).

(*1*) Permit #C–705–3–19, J.R. Simplot Company, Nitric Acid Plant, Helm, CA, adopted by the SJVUAPCD, Resolution No.18–06–14, June 21, 2018.

(*2*) [Reserved]

(B) [Reserved]

(ii) *Additional materials.* (A) San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD).

(*1*) SJVUAPCD ''Appendix B Negative Declarations For Proposed Revision to the State Implementation Plan (SIP) to Address Federal Clean Air Act Requirements for Reasonably Available Control Technology (RACT) June 21, 2018,'' containing negative declarations, as adopted by the SJVUAPCD on June 21, 2018.

(*2*) [Reserved]

(B) [Reserved]

(508) New or amended regulations for the following APCD was submitted on June 17, 2016 by the Governor's designee.

(i) *Incorporation by reference.* (A) San Diego County Air Pollution Control District.

(*1*) Rule 20.1, ''New Source Review—General Provisions,'' revision adopted on April 27, 2016.

(*2*) Rule 20.2, ''New Source Review—Non-Major Stationary Sources'' (except subsections (d)(2)(i)(B), (d)(2)(v), (d)(2)(vi)(B) and (d)(3)), revision adopted on April 27, 2016.

(*3*) Rule 20.3, ''New Source Review—Major Stationary Sources and PSD Stationary Sources'' (except subsections (d)(1)(vi), (d)(2)(i)(B), (d)(2)(v), (d)(2)(vi)(B) and (d)(3)), revision adopted on April 27, 2016.

(*4*) Rule 20.4, ''New Sources Review—Portable Emission Units'' (except subsections (b)(2), (b)(3), (d)(1)(iii), (d)(2)(i)(B), (d)(2)(iv), (d)(2)(v)(B), (d)(3) and (d)(5)), revision adopted on April 27, 2016.

(*5*) Rule 20.6, ''Standards for Permit to Operate Air Quality Analysis,'' revision adopted on April 27, 2016.

(B) [Reserved]

(ii) [Reserved]

(509) New and amended regulations for the following APCDs were submitted on May 8, 2017 by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 1325, ''Federal $PM_{2.5}$ New Source Review Program'' amended on November 4, 2016.

(*2*) [Reserved]

(B) Feather River Air Quality Management District.

(*1*) Rule 3.23, ''Natural Gas-Fired Water Heaters, Small Boilers, and Process Heaters'' adopted on October 3, 2016.

(*2*) [Reserved]

(ii) [Reserved]

(510) New additional materials for the following APCD was submitted on November 16, 2017 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) South Coast Air Quality Management District.

(*1*) ''Nonattainment New Source Review (NSR) Compliance Demonstration for the 2008 Ozone National Ambient Air Quality Standard (NAAQS),'' adopted July 7, 2017.

(*2*) [Reserved]

(B) [Reserved]

(511) New additional materials for the following APCD's were submitted on June 19, 2018 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) San Joaquin Valley Air Pollution Control District.

(*1*) ''Certification that the San Joaquin Valley Unified Air Pollution Control District's Current NNSR Program Addresses the 2008 Ozone NAAQS SIP Requirements Rule,'' adopted April 19, 2018.

(*2*) [Reserved]

(B) Yolo-Solano Air Quality Management District.

(*1*) ''Certification that Yolo-Solano's Existing NNSR Program meets the 2008 Ozone NAAQS SIP Requirements Rule,'' adopted March 14, 2018.

(*2*) [Reserved]

(512) The following plan was submitted on January 19, 2016, by the Governor's Designee.

(i) [Reserved].

(ii) *Additional materials.* (A) California Air Resources Board (CARB).

(*1*) ''California Infrastructure State Implementation Plan (SIP) Revision, Clean Air Act Section 110(a)(2)(D),''

adopted December 17, 2015, (''California Transport Plan'').

(*2*) [Reserved]

(B) [Reserved]

(513) The following plan was submitted on January 4, 2017 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) El Dorado County Air Quality Management District.

(*1*) Reasonably Available Control Technology (RACT) State Implementation Plan (SIP) Update Analysis Staff Report, adopted on January 3, 2017.

(*2*) Board of Directors of the El Dorado County Air Quality Management District, Resolution No. 002–2017, ''Resolution Approving 2008 Reasonably Available Control Technology (RACT) State Implementation Plan (SIP) Update Analysis.''

(B) [Reserved]

(514) The following plan was submitted on December 5, 2018, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board.

(*1*) Resolution 18–50, 2018 Updates to the California State Implementation Plan, October 25, 2018, including Attachments A (''Covered Districts''), B (''Menu of Enhanced Enforcement Actions''), and C (''Correction of Typographical Error'').

(*2*) 2018 Updates to the California State Implementation Plan, adopted on October 25, 2018, chapter VIII (''SIP Elements for the San Joaquin Valley''), chapter X (''Contingency Measures''), and Appendix A (''Nonattainment Area Inventories''), pages A–1, A–2 and A–27 through A–30, only.

(*3*) 2018 Updates to the California State Implementation Plan, adopted on October 25, 2018, excluding chapters II through VIII, and chapter X, and excluding pages A–3 through A–30 of appendix A (''Nonattainment Area Inventories'').

(*4*) 2018 Updates to the California State Implementation Plan, adopted on October 25, 2018, chapter III (''SIP Elements for Ventura County''), excluding section III.C (''Contingency Measures''); and pages A–7 through A–10 of appendix A (''Nonattainment Area Inventories''), only.

(*5*) 2018 Updates to the California State Implementation Plan, adopted on October 25, 2018, Chapter II (''SIP Elements for Imperial County'') and pages A–3 through A–6 of Appendix A (''Nonattainment Area Inventories''), only.

(B) [Reserved]

(515) The following additional materials were submitted on December 20, 2017, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board.

(*1*) Resolution 17–28, ''Supplemental Transportation Conformity Emissions Budgets for the Portola Fine Particulate Matter ($PM_{2.5}$) Attainment Plan,'' October 26, 2017, excluding the 2022 conformity budget.

(*2*) [Reserved]

(B) [Reserved]

(516) New and amended regulations for the following APCDs were submitted on November 13, 2017 by the Governor's designee.

(i) *Incorporation by reference.* (A) Antelope Valley Air Quality Management District.

(*1*) Rule 462, ''Organic Liquid Loading,'' amended on September 19, 2017.

(*2*) [Reserved]

(B) [Reserved]

(ii) [Reserved]

(517) The following plan was submitted on April 27, 2017, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) California Air Resources Board.

(*1*) Resolution 17–7, 2016 State Strategy for the State Implementation Plan, March 23, 2017, commitments to a rulemaking schedule and to achieve aggregate emission reductions of 8 tons per day of NO_X in San Joaquin Valley by 2031, and the rulemaking schedule included in attachment A to Resolution 17–7, only.

(*2*) Revised Proposed 2016 State Strategy for the State Implementation Plan, adopted on March 23, 2017, except for the subchapter titled ''South Coast Commitment'' in chapter 3 (''Proposed SIP Commitment'').

(*3*) Resolution 17–7, 2016 State Strategy for the State Implementation Plan, March 23, 2017, commitments to a rulemaking schedule; to achieve aggregate emissions reductions of 113 tons per

day (tpd) of NO_X and 50 to 51 tpd of VOC in the South Coast by 2023, and 111 tpd of NO_X and 59 to 60 tpd of VOC in the South Coast by 2031; and the rulemaking schedule included in attachment A to Resolution 17–7, only.

(*4*) Revised Proposed 2016 State Strategy for the State Implementation Plan, adopted on March 23, 2017, subchapter titled ''South Coast Commitment'' in chapter 3 (''Proposed SIP Commitment'').

(*5*) Resolution 17–8, 2016 Air Quality Management Plan for Ozone and $PM_{2.5}$ in the South Coast Air Basin and the Coachella Valley, March 23, 2017, commitments to develop, adopt, and submit contingency measures by 2028 for the 2008 ozone NAAQS if advanced technology measures do not achieve planned reductions.

(*6*) Letter from Dr. Michael T. Benjamin, Chief, Air Quality Planning and Science Division, California Air Resources Board, to Amy Zimpfer, Associate Director, Air Division, EPA Region IX, May 20, 2019, clarification that commitments in Resolution 17–8 to submit contingency measures by 2028 if advanced technology measures do not achieve planned reductions includes a commitment to submit attainment contingency measures to satisfy the requirements in sections 172(c)(9) and 182(c)(9) of the Clean Air Act, only.

(B) South Coast Air Quality Management District.

(*1*) The following portions of the ''Final 2016 Air Quality Management Plan (March 2017),'' adopted March 3, 2017: Chapter 5 (''$PM_{2.5}$ Modeling Approach''), pages 5–17 through 5–27; Appendix III (''Base and Future Emission Inventory''), Attachment A (''Annual Average Emissions by Source Category in South Coast Air Basin'') for $PM_{2.5}$, NO_X, SO_2, VOC, and NH3 for years 2012, 2017, 2019, and 2020 and Attachment D, tables D–1, D–3, D–7 and D–9; Appendix IV–A (''SCAQMD's Stationary and Mobile Source Control Measures''), Table IV–A–4 and section 2 (''$PM_{2.5}$ Control Measures''); Appendix IV–C (''Regional Transportation Strategy and Control Measures''), section IV (''TCM Best Available Control Measure (BACM) Analysis for 2006 24-Hour and 2012 Annual $PM_{2.5}$ NAAQS''); Appendix V (''Modeling and Attainment Demonstration''), Chapter 7 (''24-hour $PM_{2.5}$ Demonstration'') and Attachment 8 (''24-hour Unmonitored Area Analysis Supplement''); Appendix VI–A (''Reasonably Available Control Measures (RACM)/Best Available Control Measures (BACM) Demonstration''), pages VI–A–13 through VI–A–42, Attachment VI–A–1 (''Evaluation of SCAQMD Rules and Regulations''), Attachment VI–A–2 (''Control Measure Assessment''), and Attachment VI–A–3 (''California Mobile Source Control Program Best Available Control Measures/Reasonably Available Control Measures Assessment''); Appendix VI–C (''Reasonable Further Progress (RFP) and Milestone Years''), pages VI–C–5 through VI–C–8, and Attachment VI–C–1 (''California Existing Mobile Source Control Program''); Appendix VI–D (''General Conformity and Transportation Conformity Budget''), pages VI–D–2 through VI–D–6 and excluding tables VI–D–1 through 3; and Appendix VI–F (''Precursor Requirements'').

(*2*) Letter dated March 14, 2018 from Philip Fine, Deputy Executive Officer, Planning, Rule Development, and Area Sources, South Coast Air Quality Management District, to Amy Zimpfer, Associate Director, Air Division, EPA Region IX.

(*3*) Letter dated June 15, 2018 from Philip Fine, Deputy Executive Officer, Planning, Rule Development, and Area Sources, South Coast Air Quality Management District, to Amy Zimpfer, Associate Director, Air Division, EPA Region IX, regarding ''Condensable and Filterable Portions of $PM_{2.5}$ Emissions in the 2016 AQMD.''

(*4*) Final 2016 Air Quality Management Plan (March 2017) and appendices, adopted March 3, 2017, excluding the portions of the plan and appendices related solely to $PM_{2.5}$ and Coachella Valley, and excluding the portion of chapter 6 that is titled ''California Clean Air Act Requirements,'' chapter 8 (''Looking Beyond Current Requirements''), chapter 9 (''Air Toxics Control Strategy'') and chapter 10 (''Climate and Energy'').

(*5*) Resolution 17–2, A Resolution of the South Coast Air Quality Management District (SCAQMD or District) Governing Board certifying the Final Program Environmental Impact Report

(PEIR) for the 2016 Air Quality Management Plan (AQMP or Plan), and adopting the 2016 AQMP, which is to be submitted into the California State Implementation Plan (SIP), March 3, 2017, commitments to develop, adopt, submit and implement the ozone control measures in tables 4–2 and 4–4 of chapter 4 in the AQMP as expeditiously as possible to meet or exceed the commitments identified in tables 4–9, 4–10 and 4–11 of the AQMP, and to substitute any other measures as necessary to make up any emissions reduction shortfall.

(518) New and amended regulations for the following APCDs were submitted on May 23, 2018 by the Governor's designee.

(i) *Incorporation by reference.* (A) Mojave Desert Air Quality Management District.

(*1*) Rule 1114, ''Wood Products Coating Operations,'' amended on January 22, 2018.

(*2*) Rule 1115, ''Metal Parts and Products Coating Operations,'' amended on January 22, 2018.

(*3*) Rule 461, ''Gasoline Transfer and Dispensing,'' amended on January 22, 2018.

(*4*) Rule 462, ''Organic Liquid Loading,'' amended on January 22, 2018.

(*5*) Rule 463, ''Storage of Organic Liquids,'' amended on January 22, 2018.

(B) [Reserved]

(ii) [Reserved]

(519) New and amended regulations and additional materials for the following APCDs were submitted on July 16, 2018 by the Governor's designee.

(i) *Incorporation by reference.* (A) Mojave Desert Air Quality Management District.

(*1*) Rule 1104, ''Organic Solvent Degreasing Operations,'' amended on April 23, 2018.

(*2*) Rule 1162, ''Polyester Resin Operations,'' amended on April 23, 2018.

(B) [Reserved]

(ii) *Additional materials.* (A) Mojave Desert Air Quality Management District.

(*1*) Federal Negative Declaration (8 hr Ozone Standard) for Two Control Technologies Guidelines Source Categories, approved on April 23, 2018.

(*2*) [Reserved]

(B) [Reserved]

(520) New and amended regulations for the following APCDs were submitted on August 22, 2018 by the Governor's designee.

(i) *Incorporation by reference.* (A) Mojave Desert Air Quality Management District.

(*1*) Rule 102, ''Definition of Terms,'' amended on April 23, 2018.

(*2*) [Reserved]

(B) [Reserved]

(ii) [Reserved]

(521) New and amended regulations for the following APCDs were submitted on October 30, 2018 by the Governor's designee.

(i) *Incorporation by reference.* (A) Antelope Valley Air Quality Management District.

(*1*) Rule 1171, ''Solvent Cleaning Operations,'' amended on August 21, 2018.

(*2*) [Reserved]

(B) [Reserved]

(ii) [Reserved]

(522) The following amended regulations were submitted on October 5, 2018 by the Governor's designee.

(i) *Incorporation by reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 207, ''New and Modified Stationary Source Review,'' except subsections C.1.c, C.2.a, C.2.b, D.1.g, and D.3.b, revised on September 11, 2018.

(*2*) [Reserved]

(B) [Reserved]

(ii) [Reserved]

(523) New and amended regulations for the following Air Pollution Control Districts were submitted on October 29, 2018 by the Governor's Designee.

(i) *Incorporation by reference.* (A) Imperial County Air Pollution Control District.

(*1*) Rule 101, ''Definitions,'' revised on September 11, 2018.

(*2*) Rule 428, ''Wood Burning Appliances'' except section E.4.2, adopted on September 11, 2018.

(*3*) Rule 429, ''Mandatory Episodic Curtailment of Wood and Other Solid Fuel Burning,'' adopted on September 11, 2018.

(*4*) Rule 804, ''Open Areas,'' revised on September 11, 2018.

(B) [Reserved]

(ii) [Reserved]

(524) New additional materials for the following AQMD was submitted on June 4, 2019 by the Governor's designee.

(i) *Incorporation by reference.* (A) Yolo-Solano Air Quality Management District.

(*1*) Rule 3.25, ''Federal New Source Review for New and Modified Major $PM_{2.5}$ Sources,'' amended May 15, 2019.

(*2*) [Reserved]

(B) [Reserved]

(ii) [Reserved]

(525) The following plan was submitted on December 20, 2018, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) South Coast Air Quality Management District.

(*1*) Updated Federal 1979 1-Hour Ozone Standard Attainment Demonstration (November 2018), adopted November 2, 2018.

(*2*) [Reserved]

(B) [Reserved]

(526) The following rule was submitted on August 5, 2019, by the Governor's designee.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(*1*) Rule 301, ''Permitting and Associated Fees'' (paragraphs (e)(1), except (e)(1)(C), (e)(2), (5), and (8) only), amended on July 12, 2019.

(*2*) [Reserved]

(B) [Reserved]

(ii) [Reserved]

(527) New regulations for the following APCDs were submitted on November 21, 2018 by the Governor's designee.

(i) *Incorporation by reference.* (A) Calaveras County Air Pollution Control District.

(*1*) Rule 513, ''Source Recordkeeping and Emission Statement,'' adopted on June 26, 2018.

(*2*) [Reserved]

(B) [Reserved]

(ii) [Reserved]

(528) New additional materials for the following air districts were submitted on August 31, 2018 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Materials.* (A) Antelope Valley Air Quality Management District.

(*1*) ''Nonattainment New Source Review (NNSR) Compliance Demonstrations for the 2008 Ozone National Ambient Air Quality Standard (NAAQS),'' adopted July 17, 2018.

(*2*) [Reserved]

(B) Ventura County Air Pollution Control District.

(*1*) ''NNSR Compliance Demonstrations for the 2008 Ozone NAAQS,'' adopted July 31, 2018.

(*2*) [Reserved]

(529) The following plan was submitted on June 7, 2018 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Northern Sierra Air Quality Management District.

(*1*) Reasonably Available Control Technology (RACT) State Implementation Plan (SIP) Revision for Western Nevada County 8-Hour Ozone Nonattainment Area, adopted on March 26, 2018.

(*2*) [Reserved]

(B) [Reserved]

(530) The following plan was submitted on November 14, 2017 by the Governor's designee.

(i) [Reserved]

(ii) *Additional Materials.* (A) Imperial County Air Pollution Control District.

(*1*) Imperial County 2017 State Implementation Plan for the 2008 8-Hour Ozone Standard, adopted September 12, 2017, Chapter 7 (''Reasonably Available Control Technology Assessment'').

(*2*) Imperial County 2017 State Implementation Plan for the 2008 8-Hour Ozone Standard, adopted September 12, 2017, Appendix B (''Reasonably Available Control Technology Analysis for the 2017 Imperial County State Implementation Plan for the 2008 8-Hour Ozone Standard'').

(*3*) Imperial County 2017 State Implementation Plan for the 2008 8-Hour Ozone Standard, adopted September 12, 2017, except Chapter 7 (''Reasonably Available Control Technology Assessment'') and Appendix B (Reasonably Available Control Technology Analysis for the 2017 Imperial County State Implementation Plan for the 2008 8-Hour Ozone Standard'').

(B) [Reserved]

(531) The following additional material was submitted on December 7, 2018 by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Mojave Desert Air Quality Management District.

(*1*) Federal Negative Declaration (8 hr Ozone Standard) for One Control Technologies Guidelines Source Category, approved on October 22, 2018.

(*2*) [Reserved]

(B) [Reserved]

(532) The following plan was submitted on April 11, 2017, by the Governor's designee.

(i) [Reserved]

(ii) *Additional materials.* (A) Ventura County Air Pollution Control District.

(*1*) Final 2016 Ventura County Air Quality Management Plan, adopted February 14, 2017, excluding chapter 7 (''Contingency Measures'').

(*2*) [Reserved]

(B) [Reserved]

(533) New or amended regulations for the following APCD was submitted on October 18, 2016 by the Governor's designee.

(i) *Incorporation by reference.* (A) Santa Barbara County Air Pollution Control District.

(*1*) Rule 102, ''Definitions,'' revision adopted on August 25, 2016.

(*2*) Rule 105, ''Applicability,'' revision adopted on August 25, 2016.

(*3*) Rule 202, ''Exemptions to Rule 201,'' revision adopted on August 25, 2016.

(*4*) Rule 204, ''Applications,'' revision adopted on August 25, 2016.

(*5*) Rule 809, ''Federal Minor Source New Source Review,'' revision adopted on August 25, 2016.

(B) [Reserved]

(ii) [Reserved]

[37 FR 10850, May 31, 1972]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.220, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

EFFECTIVE DATE NOTE: At 85 FR 38086, June 25, 2020, § 52.220 was amended by adding paragraphs (c)(514)(ii)(A)(*6*) and (c)(532)(ii)(A)(*2*), effective July 27, 2020. For the convenience of the user, the added text is set forth as follows:

§ 52.220 Identification of plan—in part.

(*2*) Final 2016 Ventura County Air Quality Management Plan, adopted February 14, 2017, chapter 7 (''Contingency Measures''), only.

* * * * *

§ 52.220a Identification of plan—in part.

(a) *Purpose and scope.* This section sets forth a portion of the applicable State implementation plan for the State of California under section 110 of the Clean Air Act, 42 U.S.C. 7401–7671q and 40 CFR part 51 to meet national ambient air quality standards. This section identifies the state statutes and state regulations portion of the applicable California State implementation plan.

(b) *Incorporation by reference.* (1) Material listed in paragraph (c) and (d) of this section with an EPA approval date on or prior to April 1, 2016, was approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Material is incorporated as it exists on the date of the approval, and notice of any change in the material will be published in the FEDERAL REGISTER. Entries in paragraphs (c) and (d) of this section with EPA approval dates after April 1, 2016 will be incorporated by reference in the next update to the SIP compilation.

(2) EPA Region IX certifies that the rules/regulations provided by EPA in the SIP compilation at the addresses in paragraph (b)(3) of this section are an exact duplicate of the officially promulgated State rules/regulations which have been approved as part of the State implementation plan as of April 1, 2016.

(3) Copies of the materials incorporated by reference may be inspected at the Region IX EPA Office at 75 Hawthorne Street, San Francisco, CA 94105; or the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call (202) 741–6030, or go to: *http://www.archives.gov/federal-register/cfr/ibr-locations.html*.

(c) *EPA-approved regulations.*

GOVERNMENT CODE				
Title 9 (Political Reform), Chapter 2 (Definitions)				
82048	Public official	1/1/2005	4/1/2016, 81 FR 18766	Added by California Initiative Measure approved on June 4, 1974, effective January 7, 1975, and last amended in 2004. Submitted on March 6, 2014. See 40 CFR 52.220(c)(468)(i)(A)(*1*).
Title 9 (Political Reform), Chapter 7 (Conflicts of Interest), Article 1 (General Prohibitions)				
87103	Financial interest in decision by public official.	1/1/2001	4/1/2016, 81 FR 18766	Added by California Initiative Measure approved on June 4, 1974, effective January 7, 1975, and last amended in 2000. Submitted on March 6, 2014. See 40 CFR 52.220(c)(468)(i)(A)(*2*).
Title 9 (Political Reform), Chapter 7 (Conflicts of Interest), Article 3 (Conflict of Interest Codes)				
87302	Required Provisions; exemptions.	1/1/1993	4/1/2016, 81 FR 18766	Added by California Initiative Measure approved on June 4, 1974, effective January 7, 1975, and last amended in 1992. Submitted on March 6, 2014. See 40 CFR 52.220(c)(468)(i)(A)(*3*).
HEALTH AND SAFETY CODE				
Division 26 (Air Resources Board), Part 4 (Nonvehicular Air Pollution Control), Chapter 3 (Emission Limitations), Article 5 (Gasoline Vapor Recovery)				
41950	Standards for stationary tanks.	1/1/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv). Added Stats. 1975 ch. 957 § 12.
41951	''Pressure tank'' defined.	1/1/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv). Added Stats. 1975 ch. 957 § 12.
41952	''Vapor recovery system'' defined.	1/1/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv). Former § 39068.4. Added Stats. 1975 ch. 957 § 12.
41953	''Floating roof'' defined.	1/1/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv). Former § 39068.5. Added Stats. 1975 ch. 957 § 12.
41954	Procedures; Standards; Certification; Testing; Fees.	9/28/1981	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv). Stats. 1981 ch. 902 § 5.
41955	Submission of system for certification.	9/20/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
41956	Fire prevention and measurement standards.	9/28/1981	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41956.1	Revision of standards; Prohibited systems.	9/28/1981	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41957	Safety hazards	9/20/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41958	Design and performance standards; Certification and testing.	9/28/1981	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41959	Simultaneous testing	9/20/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41960	Local or regional authorities.	9/20/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41960.1	Operation of motor vehicle fueling vapor control system.	9/20/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41960.2	Maintenance of vapor control system; Identification of equipment defects.	9/28/1981	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41960.3	Complaints concerning motor vehicle vapor control systems.	9/28/1981	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41960.4	Posting of operating instructions for motor vehicle fueling vapor control systems.	9/28/1981	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41961	Certification fee	9/20/1976	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
41962	Certification of standards compliance for cargo tanks.	1/1/1978	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv). Added Stats. 1977 ch. 983 § 2.
PUBLIC RESOURCES CODE				
Division 13 (Environmental Quality)				
21000	Legislative intent	1/1/1980	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1979 c. 947 p. 3270 § 4.
21001	Additional legislative intent.	1/1/1980	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1979 c. 947 p. 3271 § 5.
21002	Approval of projects; feasible alternatives or mitigation measures.	1/1/1977	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1976 c. 1312 § 1.
21002.1	Use of environmental impact reports; policy.	1/1/1978	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1977 c. 1200 p. 3996 § 1.5.
21061	"Environmental impact report" defined.	1/1/1977	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1976 c. 1312 § 5.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
21063	"Public agency" defined.	12/5/1972	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1972 c. 1154 p. 2271 § 1.
21065	"Project" defined	12/5/1972	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1972 c. 1154 p. 2271 § 1.
21080.1	Environmental impact report or negative declaration; determination by lead agency; finality; consultation.	1/1/1978	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1977 c. 1200 p. 3997 § 3.
21080.4	Environmental impact report; requirement determined by lead agency; duties of responsible agencies; consultation; assistance by office of planning and research.	9/26/1978	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1978 c. 1113 p. 3403 § 8.3.
21080.5(a), (b), (c), and (d).	Plans in lieu of environmental impact report.	6/30/1978	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1978 c. 308.
21081	Necessary findings where environmental impact report identifies effects.	1/1/1977	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1976 c. 1312 § 9.
21082	Public agencies; adoption of objectives, criteria and procedures; consistency with guidelines.	1/1/1977	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1976 c. 1312 § 9.5.
21100	Environmental impact report on proposed state projects; significant effect; cumulative impact analysis.	1/1/1977	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1976 c. 1312 § 16.
21104	State lead agency; consultations prior to completion of impact report.	1/1/1978	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1977 c. 1200 p. 4001 § 11.
21151	Local agencies; preparation and completion of impact report; submission as part of general plan report; significant effort.	12/5/1972	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1972 c. 1154 p. 2276 § 11.
21153	Local lead agency; consultations prior to completion of impact report.	12/5/1972	1/21/1981, 46 FR 5965	Section from the California Environmental Quality Act. Submitted on October 20, 1980. See 40 CFR 52.220(c)(63). Stats. 1972 c. 1154 p. 2276 § 14.

CALIFORNIA CODE OF REGULATIONS				
Title 2 (Administration), Division 6 (Fair Political Practices Commission), Chapter 7 (Conflicts of Interest); Article 1 (Conflicts of Interest; General Prohibition)				
18700	Basic rule; Guide to conflict of interest regulations.	1/19/2006	4/1/2016, 81 FR 18766	Filed on December 17, 1976, effective upon filing, and last amendment filed on December 20, 2005, operative January 19, 2006. Submitted on March 6, 2014. See 40 CFR 52.220(c)(468)(i)(A)(*4*).
18701	Public Official, Definitions.	1/28/2006	4/1/2016, 81 FR 18766	Filed on January 22, 1976, effective February 21, 1976, and last amendment filed on December 29, 2005, operative January 28, 2006. Submitted on March 6, 2014. See 40 CFR 52.220(c)(468)(i)(A)(*5*).
Title 3 (Food and Agriculture), Division 6 (Pesticides and Pest Control Operations), Chapter 2 (Pesticides); Subchapter 4 (Restricted Materials); Article 4 (Field Fumigant Use Requirements)				
6447	Methyl Bromide—Field Fumigation General Requirements.	1/25/2008	10/26/2012, 77 FR 65294	Only the undesignated introductory text of this regulation was approved into the SIP. Submitted on October 12, 2009. See 40 CFR 52.220(c)(413)(i)(A)(1).
6447.3	Methyl Bromide—Field Fumigation Methods.	1/25/2008	10/26/2012, 77 FR 65294	Submitted on October 12, 2009. See 40 CFR 52.220(c)(413)(i)(A)(1).
6448	1,3-Dichloropropene Field Fumigation—General Requirements.	1/25/2008	10/26/2012, 77 FR 65294	Submitted on October 12, 2009. See 40 CFR 52.220(c)(413)(i)(A)(1).
6448.1	1,3-Dichloropropene Field Fumigation Methods.	4/7/2011	10/26/2012, 77 FR 65294	Submitted on August 2, 2011. See 40 CFR 52.220(c)(414)(i)(A)(1).
6449	Chloropicrin Field Fumigation—General Requirements.	1/25/2008	10/26/2012, 77 FR 65294	Submitted on October 12, 2009. See 40 CFR 52.220(c)(413)(i)(A)(1).
6449.1	Chloropicrin Field Fumigation Methods.	4/7/2011	10/26/2012, 77 FR 65294	Submitted on August 2, 2011. See 40 CFR 52.220(c)(414)(i)(A)(1).
6450	Metam-Sodium, Potassium N-methyldithiocarbamate (metam potassium), and Dazomet Field Fumigation—General Requirements.	1/25/2008	10/26/2012, 77 FR 65294	Submitted on October 12, 2009. See 40 CFR 52.220(c)(413)(i)(A)(1).
6450.1	Metam-Sodium and Potassium N-methyldithiocarbamate (Metam Potassium) Field Fumigation Methods.	4/7/2011	10/26/2012, 77 FR 65294	Submitted on August 2, 2011. See 40 CFR 52.220(c)(414)(i)(A)(1).
6450.2	Dazomet Field Fumigation Methods.	1/25/2008	10/26/2012, 77 FR 65294	Submitted on 10/12/2009. See 40 CFR 52.220(c)(413)(i)(A)(1).

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
6451	Sodium Tetrathiocarbonate Field Fumigation—General Requirements.	1/25/2008	10/26/2012, 77 FR 65294	Submitted on October 12, 2009. See 40 CFR 52.220(c)(413)(i)(A)(1).
6451.1	Sodium Tetrathiocarbonate Field Fumigation Methods.	1/25/2008	10/26/2012, 77 FR 65294	Submitted on October 12, 2009. See 40 CFR 52.220(c)(413)(i)(A)(1).
6452	Reduced Volatile Organic Compound Emissions Field Fumigation Methods.	11/1/2013	81 FR 6481, 2/8/2016	Amends previous version of rule approved at 77 FR 65294 (October 26, 2012). Amended rule adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.
6452.1	Fumigant Volatile Organic Compound Emission Records and Reporting.	1/25/2008	10/26/2012, 77 FR 65294	Submitted on October 12, 2009. See 40 CFR 52.220(c)(413)(i)(A)(1).
6452.2	Volatile Organic Compound Emission Limits.	11/1/2013	81 FR 6481, 2/8/2016	Amends previous version of rule approved at 77 FR 65294 (October 26, 2012). Amended rule adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.
6452.3	Field Fumigant Volatile Organic Compound Emission Allowances.	4/7/2011	10/26/2012, 77 FR 65294	Submitted on August 2, 2011. See 40 CFR 52.220(c)(414)(i)(A)(1).
Title 3 (Food and Agriculture), Division 6 (Pesticides and Pest Control Operations), Chapter 3 (Pest Control Operations), Subchapter 1 (Licensing), Article 5 (Agricultural Pest Control Adviser Licenses)				
6558	Recommendations for Use of Non-fumigants in the San Joaquin Valley Ozone Nonattainment Area.	11/1/2013	81 FR 6481, 2/8/2016	Adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.
Title 3 (Food and Agriculture), Division 6 (Pesticides and Pest Control Operations), Chapter 3 (Pest Control Operations), Subchapter 1 (Licensing), Article 6 (Pest Control Dealer Licenses)				
6577	Sales of Non-fumigants for Use in the San Joaquin Valley Ozone Nonattainment Area.	11/1/2013	81 FR 6481, 2/8/2016	Adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.
Title 3 (Food and Agriculture), Division 6 (Pesticides and Pest Control Operations), Chapter 3 (Pest Control Operations); Subchapter 2 (Work Requirements); Article 1 (Pest Control Operations Generally)				
6624	Pesticide Use Records.	12/20/2010	10/26/2012, 77 FR 65294	Excluding references in subsection (f) to methyl iodide and section 6446.1. Submitted on August 2, 2011. See 40 CFR 52.220(c)(414)(i)(A)(2).
6626	Pesticide Use Reports for Production Agriculture.	4/7/2011	10/26/2012, 77 FR 65294	Submitted on August 2, 2011. See 40 CFR 52.220(c)(414)(i)(A)(2).
Title 3 (Food and Agriculture), Division 6 (Pesticides and Pest Control Operations), Chapter 4 (Environmental Protection), Subchapter 2 (Air), Article 1 (Toxic Air Contaminants)				
6864	Criteria for Identifying Pesticides as Toxic Air Contaminants.	11/1/2013	81 FR 6481, 2/8/2016	Adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Title 3 (Food and Agriculture), Division 6 (Pesticides and Pest Control Operations), Chapter 4 (Environmental Protection), Subchapter 2 (Air), Article 2 (Volatile Organic Compounds)				
6880	Criteria to Designate Low-Volatile Organic Compound (VOC) or High-VOC Nonfumigant Pesticide Products.	11/1/2013	9/20/2016, 81 FR 64350	Adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.
6881	Annual Volatile Organic Compound Emissions Inventory Report.	11/1/2013	9/20/2016, 81 FR 64350	Amends and renumbers previous version of rule approved at 77 FR 65294 (October 26, 2012) as 3 CCR § 6452.4. Amended and renumbered rule adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.
6883	Recommendation Requirements in the San Joaquin Valley Ozone Nonattainment Area.	11/1/2013	9/20/2016, 81 FR 64350	Adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.
6884	San Joaquin Valley Ozone Nonattainment Area Use Prohibitions.	11/1/2013	9/20/2016, 81 FR 64350	Adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.
6886	Dealer Responsibilities for the San Joaquin Valley Ozone Nonattainment Area.	11/1/2013	9/20/2016, 81 FR 64350	Adopted by the California Department of Pesticide Regulation on May 23, 2013. Submitted on February 4, 2015.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 1 (Motor Vehicle Pollution Control Devices), Article 1 (General Provisions)				
1900(b)(11) through (b)(17).	Definitions	11/22/1999	81 FR 39424, 6/16/2016	Definitions of ''motorcycle engine,'' ''passenger car,'' ''recall,'' ''replacement part,'' ''subgroup,'' and ''reactivity adjustment factor.''
1900(b)(9) and (b)(22)	Definitions	8/7/2012	81 FR 39424, 6/16/2016	Definitions of ''intermediate volume manufacturer'' and ''small volume manufacturer.''
1900(b)(22)	Definitions	12/31/2012	81 FR 39424, 6/16/2016	Definition of ''small volume manufacturer.''
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 1 (Motor Vehicle Pollution Control Devices); Article 2 (Approval of Motor Vehicle Pollution Control Devices (New Vehicles))				
1956.8(a)(2), (a)(5), (b), and (h).	Exhaust Emissions Standards and Test Procedures—1985 and Subsequent Model Heavy-Duty Engines and Vehicles.	11/17/2002	81 FR 39424, 6/16/2016	Exhaust emissions standards for new 2004 and subsequent model heavy-duty diesel engines, heavy-duty natural gas-fueled and LPG-fueled engines derived from diesel-cycle engines; crankcase emissions requirements; test procedures.
1956.8(b), (c)(1)(B), (d), and (h)(2) (footnotes J and K).	Exhaust Emissions Standards and Test Procedures—1985 and Subsequent Model Heavy-Duty Engines and Vehicles.	12/4/2003	81 FR 39424, 6/16/2016	Test procedures; exhaust emissions standards for new 2005 and subsequent model HD OC engines.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
1956.8(a)(2)(A), (a)(6), and (b).	Exhaust Emissions Standards and Test Procedures—1985 and Subsequent Model Heavy-Duty Engines and Vehicles.	11/15/2006	81 FR 39424, 6/16/2016	Heavy-duty diesel engine idling requirements; test procedures.
1956.8	Exhaust Emissions Standards and Test Procedures—1985 and Subsequent Model Heavy-Duty Engines and Vehicles.	12/31/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(376)(i)(A)(1).
1956.8(b), (c)(1)(B), (c)(3), (d), (h)(2), and (h)(5).	Exhaust Emissions Standards and Test Procedures—1985 and Subsequent Model Heavy-Duty Engines and Vehicles.	8/7/2012	81 FR 39424, 6/16/2016	Test procedures; exhaust emissions standard for new 2005 and subsequent model HD OC engines; 1992 and subsequent model diesel engines used in MD low-emissions vehicles.
1956.8(b), (c)(1)(A)(3), (d), and (h)(5).	Exhaust Emissions Standards and Test Procedures—1985 and Subsequent Model Heavy-Duty Engines and Vehicles.	12/31/2012	81 FR 39424, 6/16/2016	Test procedures; exhaust emissions standard for new 2005 and subsequent model HD OC engines; 1992 and subsequent model diesel engines used in MD low-emissions vehicles.
1956.8(b)	Exhaust Emissions Standards and Test Procedures—1985 and Subsequent Model Heavy-Duty Engines and Vehicles.	12/22/2011	83 FR 23232, 5/18/2018	Updates certain test procedures.
1958(a) (excluding (a)(1)), (b)(1), (b)(2), (f), (g), and (h).	Exhaust Emissions Standards and Test Procedures—Motorcycles and Motorcycle Engines Manufactured on or after January 1, 1978.	11/22/1999	81 FR 39424, 6/16/2016	Exhaust emissions standards for HC + NO_X and for CO; different standards established for different sizes and for different models years; provisions for small volume manufacturers and for early-compliance credits; sunset review. Excluded subsection relates to an exclusion for motorcycles or motorcycle engines where the engine displacement is less than 50 cubic centimeters.
1960.1	Exhaust Emissions Standards and Test Procedures—1981 through 2006 Model Passenger Cars, Light-Duty and Medium-Duty Vehicles.	3/26/2004	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(376)(i)(A)(1).
1960.1(r)	Exhaust Emission Standards and Test Procedures—1981 through 2006 Model Passenger Cars, Light Duty Trucks, and Medium Duty Vehicles.	8/7/2012	81 FR 39424, 6/16/2016	4,000-mile Supplement FTP Emission Standards for LEV, ULEV, and SULEV in the PC, LDT, and MDVs.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
1960.1(r)	Exhaust Emission Standards and Test Procedures—1981 through 2006 Model Passenger Cars, Light Duty Trucks, and Medium Duty Vehicles.	12/31/2012	81 FR 39424, 6/16/2016	4,000-mile Supplement FTP Emission Standards for LEV, ULEV, and SULEV in the PC, LDT, and MDVs.
1961, including Introduction, (a)(4), (a)(8), (a)(12), (a)(15); (b)(3)(B), (b)(3)(C), (b)(3)(D), (b)(3)(E); (d); and (e).	Exhaust Emission Standards and Test Procedures—2004 and Subsequent Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	12/4/2003	81 FR 39424, 6/16/2016	50 °F Exhaust emissions standards, requirements for vehicles certified to the optional 150,000 mile standards, NMOG credit provisions, fuel-fired heater provisions, phase-in requirements for MDV manufacturers; test procedures.
1961(d)	Exhaust Emission Standards and Test Procedures—2004 and Subsequent Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	2/17/2007	81 FR 39424, 6/16/2016	Test procedures.
1961	Exhaust Emissions Standards and Test Procedures—2004 and Subsequent Model Passenger Cars, Light-Duty and Medium-Duty Vehicles.	6/16/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(376)(i)(A)(1).
1961, including Introduction, (a)(1), (a)(3), (a)(4), (a)(5), (a)(7), (a)(8)(B), (a)(14)(A); (b)(1)(A), (b)(1)(B)(1.)(c.), (b)(1)(B)(3.), (b)(1)(C)(1.), (b)(1)(D), (b)(3)(A), (b)(3)(B), (b)(3)(C), (b)(3)(E); (c)(1), (c)(2)(A), (c)(3)(A), (d).	Exhaust Emission Standards and Test Procedures—2004 through 2019 Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	8/7/2012	81 FR 39424, 6/16/2016	"LEV III" exhaust emission standards for 2004 through 2019 model PC, LDT, and MDV; test procedures.
1961, including Introduction, (a)(1), (b)(1)(A), (d).	Exhaust Emission Standards and Test Procedures—2004 through 2019 Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	12/31/2012	81 FR 39424, 6/16/2016	"LEV III" exhaust emission standards for 2004 through 2019 model PC, LDT, and MDV; test procedures.
1961.2	Exhaust Emission Standards and Test Procedures—2015 and Subsequent Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	8/7/2012	81 FR 39424, 6/16/2016	"LEV III" exhaust emission standards for 2015 and subsequent model year PC, LDT, and MDV.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
1961.2, including Introduction, (a)(1), (a)(2)(A), (a)(2)(D), (a)(7)(A), (a)(7)(A)(2.) (through equation 2), (A)(9), (b)(1)(A), (b)(1)(A)(2.), (b)(1)(D), (b)(4)(A), (c)(1)(B), (c)(3)(B), and (d).	Exhaust Emission Standards and Test Procedures—2015 and Subsequent Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	12/31/2012	81 FR 39424, 6/16/2016	"LEV III" exhaust emission standards for 2015 and subsequent model year PC, LDT, and MDV.
1962.1	Zero-Emission Vehicle Standards for 2009 through 2017 Model Year Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	8/7/2012	81 FR 39424, 6/16/2016	ZEV standards, percentage ZEV requirements, PZEV provisions, qualification for ZEV multipliers and credits, generation and use of credits, calculation of penalties, test procedures.
1962.1(b)(2)(D)(1) and (2), (c)(3)(A), and (h)(1).	Zero-Emission Vehicle Standards for 2009 through 2017 Model Year Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	12/31/2012	81 FR 39424, 6/16/2016	ZEV requirements for large volume manufacturers in model years 2012 through 2017 and PZEV allowances; test procedures, ZEV-specific definitions.
1962.2, excluding (g)(6)(C).	Zero-Emission Vehicle Standards for 2018 and Subsequent Model Year Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	8/7/2012	81 FR 39424, 6/16/2016	ZEV standards, percentage ZEV requirements, TZEV provisions, qualification of ZEV credits, generation and use of credits, test procedures, ZEV-specific definitions; excluded provision relates to GHG–ZEV over compliance credits.
1962.2(c)(2)(B), (c)(3)(A), (c)(3)(A)(1.), (h)(1).	Zero-Emission Vehicle Standards for 2018 and Subsequent Model Year Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles.	12/31/2012	81 FR 39424, 6/16/2016	Certain ZEV requirements in model years 2018 and subsequent model years including evaporative emission standards for TZEVs, TZEV allowances, and test procedures.
1962.3	Electric Vehicle Charging Requirements.	8/7/2012	81 FR 39424, 6/16/2016	Applicability, definitions, requirements, alternatives.
1965	Emission Control and Smog Index Labels—1979 and Subsequent Model-Year Motor Vehicles.	11/22/1999	81 FR 39424, 6/16/2016	Emission control label requirements.
1965	Emission Control and Smog Index Labels—1979 and Subsequent Model-Year Motor Vehicles.	12/4/2003	81 FR 39424, 6/16/2016	Emission control label requirements.
1965	Emission Control, Smog Index, and Environmental Performance Labels—1979 and Subsequent Model-Year Motor Vehicles.	8/7/2012	81 FR 39424, 6/16/2016	Emission control label requirements.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
1968.2(a), (c) (excluding ''emission standard,'' ''evaporative emission standards,'' and ''exhaust emission standards'' or ''tailpipe emission standards''), (d)(3), (d)(4), (e)(6), (e)(15), (f)(1)–(f)(9, (f)(12), (f)(13), (f)(15), (f)(17), (h)(4), (i)(1), (i)(2), and (j)(2).	Malfunction and Diagnostic System Requirements—2004 and Subsequent Model-Year Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles and Engines.	7/31/2013	82 FR 14446, 3/21/2017	Provisions relate to On-Board Diagnostic systems requirements (OBD II).
1968.5(a)(3) (excluding ''nonconforming OBD II system''), (b)(3), (b)(6), and (c)(3).	Enforcement of Malfunction and Diagnostic System Requirements for 2004 and Subsequent Model-Year Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles and Engines.	7/31/2013	82 FR 14446, 3/21/2017	Provisions related to enforcement of OBD II requirements.
1971.1, excluding the following definitions: ''emission standard,'' ''evaporative emission standards,'' and ''exhaust emission standards'' or ''tailpipe emission standards'').	On-Board Diagnostic System Requirements—2010 and Subsequent Model-Year Heavy-Duty Engines.	7/31/2013	82 FR 14446, 3/21/2017	Amends emission standards and other requirements for On-Board Diagnostic OBD (OBD) systems for heavy-duty vehicles.
1971.5	Enforcement of Malfunction and Diagnostic System Requirements for 2010 and Subsequent Model-Year Heavy-Duty Engines.	6/17/2010	81 FR 39424, 6/16/2016	Establishes enforcement protocol for use by CARB to assure the engines certified for sale in California are equipped with OBD systems that properly function and meet the applicable regulatory requirements.
1971.5(a)(3) (excluding amendments to the existing definition for ''nonconforming OBD system''), (b)(3), (b)(6) and (d)(3).	Enforcement of Malfunction and Diagnostic System Requirements for 2010 and Subsequent Model-Year Heavy-Duty Engines.	7/31/2013	82 FR 14446, 3/21/2017	Amends certain enforcement-related provisions for the OBD systems requirements for heavy-duty vehicles.
1976(c)	Standards and Test Procedures for Motor Vehicle Fuel Evaporative Emissions.	2/17/2007	81 FR 39424, 6/16/2016	Test procedures.
1976(b)(1), (c), (f)(3) and (f)(4).	Standards and Test Procedures for Motor Vehicle Fuel Evaporative Emissions.	8/7/2012	81 FR 39424, 6/16/2016	Fuel evaporative emission standards; test procedures; definitions.
1976(b)(1), (b)(1)(G)(3), (c).	Standards and Test Procedures for Motor Vehicle Fuel Evaporative Emissions.	12/31/2012	81 FR 39424, 6/16/2016	Fuel evaporative emission standards; test procedures; definitions.
1978(a)(1), (b)	Standards and Test Procedures for Vehicle Refueling Emissions.	12/4/2003	81 FR 39424, 6/16/2016	Standards for vehicle refueling for 1998 and subsequent model passenger cars, LDT, and MDV less than 8,501 pounds.
1978(b)	Standards and Test Procedures for Vehicle Refueling Emissions.	2/17/2007	81 FR 39424, 6/16/2016	Test procedures.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
1978	Standards and Test Procedures for Vehicle Refueling Emissions.	8/7/2012	81 FR 39424, 6/16/2016	Refueling emissions standards for 1998 and subsequent model gasoline-fueled, alcohol-fueled, diesel-fueled, LPG-fueled, fuel-flexible and hybrid electric PC, LDT, and MDV up to 8,501 pounds, and similarly-fueled 2015 and subsequent year MDV from 8,501 pounds to 14,000 pounds.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 1 (Motor Vehicle Pollution Control Devices); Article 4.5				
2025	Regulation to Reduce Emissions of Diesel Particulate Matter, Oxides of Nitrogen and Other Criteria Pollutants, from in-Use Heavy-Duty Diesel-Fueled Vehicles.	12/14/2011	4/4/2012, 77 FR 20308	The State of California Office of Administrative Law's corresponding Notice of Approval of Regulatory Action is dated December 14, 2011. Submitted on December 15, 2011. See 40 CFR 52.220(c)(410)(i)(A)(2).
2027	In-Use on-Road Diesel-Fueled Heavy-Duty Drayage Trucks.	11/9/2011	4/4/2012, 77 FR 20308	The State of California Office of Administrative Law's corresponding Notice of Approval of Regulatory Action is dated November 9, 2011. Submitted on December 9, 2011. See 40 CFR 52.220(c)(409)(i)(A)(2).
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 1 (Motor Vehicle Pollution Control Devices), Article 6 (Emission Control Warranty System)				
2037(g)	Defects Warranty Requirements for 1990 and Subsequent Model Passenger Cars, Light-Duty Trucks, Medium-Duty Vehicles, and Motor Vehicle Engines Used in Such Vehicles.	8/7/2012	81 FR 39424, 6/16/2016	Reporting requirements.
2038(c)(3)	Performance Warranty Requirements for 1990 and Subsequent Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles, and Motor Vehicle Engines Used in Such Vehicles.	8/7/2012	81 FR 39424, 6/16/2016	Reporting requirements.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 2 (Enforcement of Vehicle Emission Standards and Surveillance Testing), Article 1 (Assembly-Line Testing)				
2062	Assembly-Line Procedures—1998 and Subsequent Model Years.	8/7/2012	81 FR 39424, 6/16/2016	Assembly-line test procedures.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 2 (Enforcement of Vehicle Emission Standards and Surveillance Testing), Article 2.1 (Procedures for In-Use Vehicle Voluntary and Influenced Recalls)				
2111(a)(1)	Applicability	8/15/2007	81 FR 39424, 6/16/2016	Procedures apply to California-certified 1982 and subsequent model-year passenger cars, light-duty trucks, medium-duty vehicles, heavy-duty vehicles, motorcycles, and 1997 and subsequent model-year off-road motorcycles and all-terrain vehicles, and 2007 and subsequent model-year off-road sport vehicles, off-road utility vehicles, and sand cars.
2111(a)(4)	Applicability	8/16/2009	81 FR 39424, 6/16/2016	Procedures apply to certain California-certified 2008 model year spark-ignition sterndrive/inboard marine engines with maximum rated power less than or equal to 373 kilowatts, and all California-certified 2009 and subsequent model-year spark-ignition sterndrive/inboard marine engines.
2112(l)(12)	Definitions	8/15/2007	81 FR 39424, 6/16/2016	Definition of ''useful life'' for 1997 and subsequent model year off-road motorcycles, all-terrain vehicles, and for 2007 and subsequent model year off-road sport vehicles, off-road utility vehicles, sand cars, and engines used in such vehicles.
2112(l)(20), (l)(23)	Definitions	8/16/2009	81 FR 39424, 6/16/2016	Definition of ''useful life'' for certain types of vehicles.
2112(b), (l)(9), (l)(18)	Definitions	8/7/2012	81 FR 39424, 6/16/2016	Definition of ''correlation factor,'' and definition of ''useful life'' for certain types of vehicles.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 2 (Enforcement of Vehicle Emission Standards and Surveillance Testing), Article 2.3 (In-Use Vehicle Enforcement Test Procedures)				
2139(h)	Testing	8/16/2009	81 FR 39424, 6/16/2016	Specifies in-use compliance tests for spark-ignition sterndrive/inboard marine engines.
2139(a), (b), (c)(2)	Testing	8/7/2012	81 FR 39424, 6/16/2016	Specifies in-use vehicle emission tests by CARB after vehicles have been accepted and restorative maintenance, if any, has been performed.
2140(b)	Notification and Use of Test Results.	8/7/2012	81 FR 39424, 6/16/2016	Notification and use requirements once the in-use emission tests have been completed.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 2 (Enforcement of Vehicle Emission Standards and Surveillance Testing), Article 2.4 (Procedures for Reporting Failures of Emission-Related Components)				
2145(b)(3)	Field Information Report.	8/7/2012	81 FR 39424, 6/16/2016	Reporting requirements.
2147(b)	Demonstration of Compliance with Emissions Standards.	8/16/2009	81 FR 39424, 6/16/2016	Applies the requirements to sterndrive/inboard marine engines.
2147(b)(3)	Demonstration of Compliance with Emissions Standards.	8/7/2012	81 FR 39424, 6/16/2016	Testing requirements and selection of deterioration factors.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 4.4 (Specifications for Fill Pipes and Openings of Motor Vehicle Fuel Tanks)				
2235	Requirements	8/7/2012	81 FR 39424, 6/16/2016	Requirements for 1977 and subsequent model gasoline-fueled motor vehicles with respect to fill pipes and openings.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 5 (Standards for Motor Vehicle Fuels); Article 1 (Standards for Gasoline)				
2250	Degree of Unsaturation for Gasolines Sold Before April 1, 1996.	12/16/1992	8/21/1995, 60 FR 43379	Submitted on November 15, 1994. See 40 CFR 52.220(c)(204)(i)(A)(3).
2252	Sulfur Content of Gasoline Represented as Unleaded Sold Before April 1, 1996.	8/11/1991	8/21/1995, 60 FR 43379	Submitted on November 15, 1994. See 40 CFR 52.220(c)(204)(i)(A)(3).
2253.4	Lead in Gasoline	8/12/1991	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(1).
2254	Manganese Additive Content.	8/12/1991	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(1).
2257	Required Additives in Gasoline.	7/16/1999	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(1).
2259	Exemptions for Motor Vehicle Fuels Used in Test Programs.	2/15/1995	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(1).
2260	Definitions	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2261	Applicability of Standards; Additional Standards.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2262	The California Reformulated Gasoline Phase 2 and Phase 3 Standards.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2262.3	Compliance with the CaRFP Phase 2 and CaRFG Phase 2 Standards for Sulfur, Benzene, Aromatic Hydrocarbons, Olefins, T50 and T90.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2262.4	Compliance with the CaRFP Phase 2 and CaRFG Phase 2 Standards for Reid Vapor Pressure.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2262.5	Compliance with the Standards for Oxygen Content.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2262.6	Prohibition of MTBE and Oxygenates Other Than Ethanol in California Gasoline Starting December 31, 2003.	4/9/2005	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2262.9	Requirements Regarding Denatured Ethanol Intended for Use as a Blend Component in California Gasoline.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2263	Sampling Procedures and Test Methods.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2263.7	Multiple Notification Requirements.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2264	Designated Alternative Limits.	8/20/2001	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2264.2	Election of Applicable Limit for Gasoline Supplied From a Production or Import Facility.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2265	Gasoline Subject to PM Alternative Specifications Based on the California Predictive Model.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2265.1	Offsetting Emissions Associated with Higher Sulfur Levels.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2265.5	Alternative Emission Reduction Plan (AERP).	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2266	Certified Gasoline Formulations Resulting in Equivalent Emission Reductions Based on Motor Vehicle Emission Testing.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2266.5	Requirements Pertaining to California Reformulated Gasoline Blendstock for Oxygen Blending (CARBOB) and Downstream Blending.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2267	Exemptions for Gasoline Used in Test Programs.	9/2/2000	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(1).
2268	Liability of Persons Who Commit Violations Involving Gasoline That has Not Yet Been Sold or Supplied to a Motor Vehicle.	9/2/2000	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(1).
2269	Submittal of Compliance Plans.	12/24/2002	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(1).
2270	Testing and Recordkeeping.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2271	Variances	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).
2272	CaRFP Phase 3 Standards for Qualifying Small Refiners.	5/1/2003	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(1).
2273	Labeling of Equipment Dispensing Gasoline Containing MTBE.	8/29/2008	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(375)(i)(A)(1).

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2273.5	Documentation Provided with Delivery of Gasoline to Retail Outlets.	5/1/2003	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(1).
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 5 (Standards for Motor Vehicle Fuels); Article 2 (Standards for Diesel Fuel)				
2281	Sulfur Content of Diesel Fuel.	8/4/2005	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(376)(i)(A)(1).
2282	Aromatic Hydrocarbon Content of Diesel Fuel.	8/4/2005	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(376)(i)(A)(1).
2284	Lubricity of Diesel Fuel.	8/4/2005	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(376)(i)(A)(1).
2285	Exemption from Diesel Fuel Requirements for Military Specification Fuels Used in Qualifying Military Vehicles.	8/14/2004	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(376)(i)(A)(1).
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 5 (Standards for Motor Vehicle Fuels); Article 4 (Sampling and Test Procedures)				
2296	Motor Fuel Sampling Procedures.	10/14/1992	8/21/1995, 60 FR 43379	Submitted on November 15, 1994. See 40 CFR 52.220(c)(204)(i)(A)(3).
2297	Test Method for the Determination of the Reid Vapor Pressure Equivalent Using an Automated Vapor Pressure Test Instrument.	9/17/1991	8/21/1995, 60 FR 43379	Submitted on November 15, 1994. See 40 CFR 52.220(c)(204)(i)(A)(3).
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 5.1 (Standards for Fuels for Nonvehicular Sources)				
2299.3	Airborne Toxic Control Measure for Auxiliary Diesel Engines Operated on Ocean-Going Vessels At-Berth in a California Port.	1/2/2009	81 FR 39424, 6/16/2016	Requires that any person who owns, operates, container vessel, passenger vessel, or refrigerated cargo vessel that visits a California port comply with section 93118.3 relating to the operation of auxiliary diesel engines on OGV at-berth in a California port. Also applies to any person who owns or operates a port or terminal located at a California port where container, passenger or refrigerated cargo vessels visit.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 9 (Off-Road Vehicles and Engines Pollution Control Devices), Article 1 (Small Off-Road Engines)				
2401(a)(13), (36), (41), (51), (52).	Definitions	5/5/2010	81 FR 39424, 6/16/2016	Definitions for ''eight-hour workday,'' ''professional level,'' ''standard battery package,'' ''zero-emission equipment credits,'' and ''zero-emission equipment engine family.''
2403(b)(2), (b)(3), (b)(4), (d), (e)(1).	Exhaust Emission Standards and Test Procedures—Small Off-Road Engines.	5/5/2010	81 FR 39424, 6/16/2016	Low-emitting blue sky series engine requirements, evaporative emission requirements, test procedures.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2403(b)(2)(B) and (d)	Exhaust Emission Standards and Test Procedures—Small Off-Road Engines.	1/10/2013	82 FR 14446, 3/21/2017	Amends certain certification requirements and test procedures.
2404(a)	Emission Control Labels and Consumer Information—1995 and Later Small Off-Road Engines.	11/15/2006	81 FR 39424, 6/16/2016	The requirements in section 2404 recognize the certain emission-critical or emission-related parts must be properly identified and maintained in order for engines to meet the applicable emissions standards and that information regarding engines' emissions levels may influence consumer choice.
2404(m)(1), (m)(2), (m)(3).	Emission Control Labels and Consumer Information—1995 and Later Small Off-Road Engines.	5/5/2010	81 FR 39424, 6/16/2016	Zero-emission equipment label content and placement requirements.
2404(c)(4)(A)	Emission Control Labels and Consumer Information—1995 and Later Small Off-Road Engines.	1/10/2013	82 FR 14446, 3/21/2017	Amends the rule to revise certain engine label content requirements.
2405(b)(1), (b)(2), (h)(1), (h)(2).	Defects Warranty Requirements for 1995 and Later Small Off-Road Engines.	5/5/2010	81 FR 39424, 6/16/2016	Zero-emission equipment warranty requirements.
2406(b)(1), (b)(2)	Emission Control System Warranty Statement.	5/5/2010	81 FR 39424, 6/16/2016	Warranty contact requirement.
2407(a)(7)	New Engine Compliance and Production Line Testing—New Small Off-Road Engine Selection, Evaluation, and Enforcement Action.	1/10/2013	82 FR 14446, 3/21/2017	Specifies use of certain test procedures.
2408(b)(2), (d)(4), (f)(1), (f)(3), (f)(4), (f)(5), (g)(1)(E), (i)(3), (i)(7).	Emission Reduction Credits—Certification Averaging, Banking, and Trading Provisions.	5/5/2010	81 FR 39424, 6/16/2016	Limits on use of certification emission credits, certain reporting requirements.
2408.1	Emission Reduction Credits—Zero-Emission Equipment Credits Averaging, Banking, and Trading Provisions.	5/5/2010	81 FR 39424, 6/16/2016	Applicability; general provisions; averaging, banking, and trading provisions; credit calculation and compliance provisions; use of zero-emission equipment credit; record-keeping and reporting.
2409(a), (b)(1), (b)(2), (b)(5), (b)(6), (d)(3).	Emission Reduction Credits—Production Credit Program for New Engines.	5/5/2010	81 FR 39424, 6/16/2016	Applicability; general provisions; certain banking provisions.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 9 (Off-Road Vehicles and Engines Pollution Control Devices), Article 3 (Off-Highway Recreational Vehicles and Engines)				
2411(a)(1), (a)(13), (a)(17), (a)(18), (a)(19).	Definitions	8/15/2007	81 FR 39424, 6/16/2016	Definitions for ''all-terrain vehicle,'' off-highway recreational vehicle engines,'' ''off-road sport vehicle,'' ''off-road utility vehicle,'' ''sand car.''

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2412	Emission Standards and Test Procedures—New Off-Highway Recreational Vehicles and Engines.	8/15/2007	81 FR 39424, 6/16/2016	Exhaust and evaporative emissions standards for off-highway recreational vehicles and engines used in such vehicles produced on or after January 1, 1997 that are sold, leased, used, or introduced into commerce in California; test procedures.
2412(c) and (d)(1)	Emission Standards and Test Procedures—New Off-Highway Recreational Vehicles and Engines.	1/10/2013	82 FR 14446, 3/21/2017	Updates references to test procedures.
2413	Emission Control Labels—New Off-Highway Recreational Vehicles.	8/15/2007	81 FR 39424, 6/16/2016	Provisions related to applicability, and label content and location.
2416	Applicability	4/1/2015	83 FR 23232, 5/18/2018	Sections 2416–2419.4 establish certain evaporative emission standards for off-highway recreational vehicles.
2417	Definitions	4/1/2015	83 FR 23232, 5/18/2018	Sections 2416–2419.4 establish certain evaporative emission standards for off-highway recreational vehicles.
2418	Evaporative Emission Standards and Test Procedures.	4/1/2015	83 FR 23232, 5/18/2018	Sections 2416–2419.4 establish certain evaporative emission standards for off-highway recreational vehicles.
2419	Evaporative Emission Control Labels—New Off-Highway Recreational Vehicles.	4/1/2015	83 FR 23232, 5/18/2018	Sections 2416–2419.4 establish certain evaporative emission standards for off-highway recreational vehicles.
2419.1	Defect Warranty Requirements for Evaporative Emissions Control Systems of 2018 and Later Model Year Off-Highway Recreational Vehicles.	4/1/2015	83 FR 23232, 5/18/2018	Sections 2416–2419.4 establish certain evaporative emission standards for off-highway recreational vehicles.
2419.2	Evaporative Emissions Control System Warranty Statement.	4/1/2015	83 FR 23232, 5/18/2018	Sections 2416–2419.4 establish certain evaporative emission standards for off-highway recreational vehicles.
2419.3	New Off-Highway Recreational Vehicle Evaporative Emission Standards, Enforcement and Recall Provisions, Warranty, Quality Audit, and New Engine Testing.	4/1/2015	83 FR 23232, 5/18/2018	Sections 2416–2419.4 establish certain evaporative emission standards for off-highway recreational vehicles.
2419.4	Evaporative Emissions Control System Testing and Certification Requirement.	4/1/2015	83 FR 23232, 5/18/2018	Sections 2416–2419.4 establish certain evaporative emission standards for off-highway recreational vehicles.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 9 (Off-Road Vehicles and Engines Pollution Control Devices), Article 4 (Off-Road Compression-Ignition Engines and Equipment)				
2420	Applicability	1/6/2006	81 FR 39424, 6/16/2016	Applies to new heavy-duty off-road CI engines produced on or after January 1, 1996 and all other new 2000 model year and later off-road CI engines, except those covered by the preemption provisions in CAA section 209(e)(1). Certification required for new engines subject to 13 CCR chapter 9, article 4.
2421	Definitions	1/6/2006	81 FR 39424, 6/16/2016	Defined terms in addition to hose in 13 CCR § 1900(b).
2421(a)(1)–(a)(4), (a)(15), (a)(19)–(a)(65).	Definitions	1/10/2013	82 FR 14446, 3/21/2017	Amends and adds certain defined terms.
2423	Exhaust Emission Standards and Test Procedures—Off-Road Compression-Ignition Engines.	1/6/2006	81 FR 39424, 6/16/2016	Exhaust emissions standards (tiers 1, 2, 3 and 4), upper limits for family emission limits (tiers 1, 2, 3 and 4), low-emitting blue sky series engine requirements, crankcase emissions provisions, early certification provisions, prohibition on defeat devices, test procedures, recordkeeping and compliance calculations, economic hardship provisions, allowance for production of engines, labeling requirements,
2423(a), (b) (excluding optional alternative NO_X + NMHC standards and associated family emission limits), (c), (d), (e), (f), (g), (h), (j), (k), (l) and (m).	Exhaust Emission Standards and Test Procedures—Off-Road Compression-Ignition Engines.	1/10/2013	82 FR 14446, 3/21/2017	Amends the rule to harmonize certain aspects of the California emissions requirements with the corresponding federal emissions requirements.
2424	Emission Control Labels—1996 and Later Off-Road Compression-Ignition Engines.	1/6/2006	81 FR 39424, 6/16/2016	Requirements on manufacturers to affix a label on each production engine (or equipment) to provide the engine or equipment owner and service mechanic with information necessary for the proper maintenance of these parts in customer use.
2424(a)	Emission Control Labels—1996 and Later Off-Road Compression-Ignition Engines.	11/15/2006	81 FR 39424, 6/16/2016	The requirements of section 2424 recognize that certain emissions-critical or emissions-related parts must be properly identified and maintained in order for engines to meet the applicable emissions standards.
2424(a), (b), (c) and (l).	Emission Control Labels—1996 and Later Off-Road Compression-Ignition Engines.	1/10/2013	82 FR 14446, 3/21/2017	Amends the rule to reflect updated test procedures and to add provisions prohibiting altering or removal of emission control information labels except under certain circumstances.
2425	Defects Warranty Requirements for 1996 and Later Off-Road Compression-Ignition Engines.	1/6/2006	81 FR 39424, 6/16/2016	Applies to new 1996–1999 model year heavy-duty off-road CI engines and new 2000 and later model year CI engines.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2425(e)	Defects Warranty Requirements for 1996 and Later Off-Road Compression-Ignition Engines.	11/15/2006	81 FR 39424, 6/16/2016	Requirement on manufacturers to furnish with each new engine written instructions for the maintenance and use of the engine by the owner.
2425(a)	Defects Warranty Requirements for 1996 and Later Off-Road Compression-Ignition Engines.	1/10/2013	82 FR 14446, 3/21/2017	Amends the rule to apply certain federal warranty-related requirements to 2011 and later model-year compression-ignition engines.
2425.1	Defect Investigation and Reporting Requirements.	1/10/2013	82 FR 14446, 3/21/2017	Amends the rule to reflect certain updated test procedures.
2426	Emission Control System Warranty Statement.	1/6/2006	81 FR 39424, 6/16/2016	Requires manufacturers to furnish a specific warranty statements with each 1996–1999 heavy-duty off-road CI engine.
2426(a) and (b)	Emission Control System Warranty Statement.	1/10/2013	82 FR 14446, 3/21/2017	Amends an existing SIP rule to make changes conforming to the changes made in 13 CCR § 2423.
2427	Production Engine Testing, Selection, Evaluation, and Enforcement Action.	1/6/2006	81 FR 39424, 6/16/2016	Compliance test procedures, quality-audit test procedures, selective enforcement audit requirements.
2427(c)	Production Engine Testing, Selection, Evaluation, and Enforcement Action.	1/10/2013	82 FR 14446, 3/21/2017	Amends an existing SIP rule to reflect updated test procedures.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 9 (Off-Road Vehicles and Engines Pollution Control Devices), Article 4.5 (Off-Road Large Spark-Ignition Engines)				
2430	Applicability	5/12/2007	81 FR 39424, 6/16/2016	Applies to LSI off-road engines 25 horsepower or greater after 1/1/2001 and all equipment and vehicles after 1/1/2001 that use such engines. On 1/1/2007, applicability remains the same but is defined in terms of kW (*i.e.,* 19 kW and above).
2431(a), (a)(19), (a)(28).	Definitions	5/12/2007	81 FR 39424, 6/16/2016	Definitions of ''Family Emission Level or FEL'' and ''Off-Road Large Spark-Ignition Engines'' or ''LSI Engines.''
2433	Emission Standards and Test Procedures—Off-Road Large Spark Ignition Engines.	5/12/2007	81 FR 39424, 6/16/2016	New off-road LSI exhaust, crankcase, and evaporative emission standards and test procedures.
2433(b)(1)(A), (b)(2), (b)(3), (b)(4), (b)(5), (c) and (d).	Emission Standards and Test Procedures—Off-Road Large Spark Ignition Engines.	10/20/2009	82 FR 14446, 3/21/2017	Amends the rule creating two new subcategories of LSI engines, establishing exhaust and evaporative emissions standards for new 2011 and subsequent model year LSI engines in each of these new subcategories, and establishing more stringent exhaust emissions standards for 2015 and subsequent model year LSI engines with engine displacement 825cc <1.0 L.
2433(c) and (d)(1)	Emission Standards and Test Procedures—Off-Road Large Spark Ignition Engines.	1/10/2013	82 FR 14446, 3/21/2017	Amends the rule to refer to updated test procedures.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2434(c)	Emission Control Labels—2001 and Later Off-Road Large Spark-Ignition Engines.	5/12/2007	81 FR 39424, 6/16/2016	Label content and location requirements.
2438(e)(7)	In-Use Compliance Program.	5/12/2007	81 FR 39424, 6/16/2016	Credit calculation.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 9 (Off-Road Vehicles and Engines Pollution Control Devices), Article 4.7 (Spark-Ignition Marine Engines)				
2440(a)(3)	Applicability	8/16/2009	81 FR 39424, 6/16/2016	Exemption for spark-ignition sterndrive/inboard marine engines used solely for competition.
2442(a)(1), (a)(2), (b), (c), (d), (e), (f), (g), (h).	Emissions Standards	8/16/2009	81 FR 39424, 6/16/2016	Model year 2001 and later model year spark-ignition personal watercraft and outboard marine engines; model year 2003 and later model year spark-ignition sterndrive/inboard marine engines; Not-to-Exceed (NTE) limits; voluntary standards; new replacement engine requirements for manufacturers; test equipment and test procedures.
2443.1(b)(1), (c)(2)(B), (c)(4)(B), (c)(4)(D), (c)(4)(G), (c)(4)(H), (d)(4)(B).	Emission Control Labels—Model Year 2001 and Later Spark-Ignition Marine Engines.	8/16/2009	81 FR 39424, 6/16/2016	Requirements related to emission control labels.
2443.2(b)(1), (c)(1), (c)(2), (e).	Consumer/Environmental Label Requirements.	8/16/2009	81 FR 39424, 6/16/2016	Label requirements for certified model year 2001 and later spark-ignition personal watercraft and outboard marine engines and certified model year 2003 and later spark-ignition sterndrive/inboard engines.
2444.1(a), (b)(3)(B), (b)(3)(E), (b)(3)(G), (e)(4)(A)(1. Through 10.), (e)(4)(B), (e)(4)(C)(1., 2., and 3.).	In-Use Compliance Testing and Recall Regulations—Model Year 2001 and Later Spark-Ignition Marine Engines.	8/16/2009	81 FR 39424, 6/16/2016	Recordkeeping and reporting requirements.
2444.2	On-Board Engine Malfunction Detection System Requirements—Model Year 2007 and Later Spark-Ignition Sterndrive/Inboard Marine Engines.	8/16/2009	81 FR 39424, 6/16/2016	General requirements; monitoring requirements; additional audio/visual alert device activation and diagnostic trouble code storage protocol; tampering protection; certification documentation; testing, standardization, and implementation schedule.
2445.1(a), (c)(1), (c)(2), (c)(3), (e)(10), (e)(11), (g)(2)(A).	Defects Warranty Requirements for Model Year 2001 and Later Spark-Ignition Marine Engines.	8/16/2009	81 FR 39424, 6/16/2016	Warranty requirements.
2445.2(a)	Emission Control Warranty Statements.	8/16/2009	81 FR 39424, 6/16/2016	Emission control warranty statement requirements.
2446(a), (b)(4)(B), (c)(1)(A), (c)(1)(B), (c)(2)(A), (c)(3)(D), (c)(3)(E), (d)(3)(D), (d)(5), (e).	2001 and Later Model Year Production-Line Test Procedures and Selective Enforcement Auditing Regulations for Spark-Ignition Marine Engines.	8/16/2009	81 FR 39424, 6/16/2016	Applicability provision; certain quality-audit line test procedures for 2001 and later model years; test procedures; selective enforcement auditing regulations.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2447	California Exhaust Emission Standards and Test Procedures for 2001 Model Year and Later Spark-Ignition Marine Engines.	1/10/2013	82 FR 14446, 3/21/2017	Specifies certain test procedures.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 9 (Off-Road Vehicles and Engines Pollution Control Devices), Article 4.8 (In-Use Off-Road Diesel-Fueled Fleets)				
2449, excluding (d)(2)	General Requirements for In-Use Off-Road Diesel-Fueled Fleets.	12/14/2011	81 FR 39424, 6/16/2016	Applicability, definitions, performance requirements (different requirements apply to large, medium and small fleets), compliance date extension provision, labeling requirements, reporting and recordkeeping requirements. Excluded subsection relates to idling limits.
2449.1	Performance Requirements.	12/14/2011	81 FR 39424, 6/16/2016	Establishes fleet average requirements and compliance dates, BACT provisions, credit provisions.
2449.2, excluding (f)(4).	Surplus Off-Road Opt-In for NO_X (SOON) Program.	12/14/2011	81 FR 39424, 6/16/2016	Purpose is to achieve additional reductions of NO_X from in-use off-road diesel-fueled vehicles beyond those achieved through implementation of the requirements in 13 CCR §§ 2449 and 2449.1. Applicability, definitions, requirements, SOON targets, local air district opt-in provisions.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 9 (Off-Road Vehicles and Engines Pollution Control Devices), Article 5 (Portable Engine and Equipment Registration)				
2451	Applicability	9/12/2007	81 FR 39424, 6/16/2016	Voluntary registration program for owners or portable engines or equipment units, with certain exceptions. If not registered under this program, the engine or equipment units shall be subject to district permitting requirements pursuant to district regulations.
2452	Definitions	9/12/2007	81 FR 39424, 6/16/2016	Definitions that apply to the portable engine and equipment registration regulations.
2453	Application Process	9/12/2007	81 FR 39424, 6/16/2016	To be considered for registration, portable engines or equipment units must meet the requirements in article 5, including the application-related requirements in this section.
2455, excluding (a) and (b).	General Requirements.	9/12/2007	81 FR 39424, 6/16/2016	Provisions related to operation of portable engines and equipment units during emergency events; PSD notification requirements if the registered equipment unit operates at a major stationary source. Excluded subsections relate to attainment or maintenance of ambient air quality standards, nuisance, and opacity.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2456, excluding (a), (d)(3), (d)(5), and (d)(6).	Engine Requirements	9/12/2007	81 FR 39424, 6/16/2016	Various requirements specified for different categories of engines. Excluded subsections relate to opacity limits, fuel specifications, and daily and annual mass (per engine) limits.
2458	Recordkeeping and Reporting.	9/12/2007	81 FR 39424, 6/16/2016	Recordkeeping and reporting requirements for owners of registered portable engines and equipment units.
2459	Notification	9/12/2007	81 FR 39424, 6/16/2016	In most instances, if a registered equipment unit will be at a location for more than five days, the owner or operator of that equipment must notify the district in writing.
2460	Inspections and Testing.	9/12/2007	81 FR 39424, 6/16/2016	Authorization for CARB to conduct testing both before and after registration in the program. Districts must inspect all register engines and equipment units for which the district has been designated as the home district. Test methods are specified.
2461	Fees	9/12/2007	81 FR 39424, 6/16/2016	Provisions establishing fees for registration, renewal, and associated administrative tasks.
2462	Duration of Registration.	9/12/2007	81 FR 39424, 6/16/2016	Registrations and renewal are generally valid for three years from the date of issuance.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 9 (Off-Road Vehicles and Engines Pollution Control Devices), Article 7 (Certification Procedures for Aftermarket Parts for Off-Road Vehicles, Engines, Equipment)				
2474(e), (i)(1)	Add-On Parts and Modified Parts.	8/16/2009	81 FR 39424, 6/16/2016	Incorporation of procedures for exemptions of add-on and modified parts for off-road categories.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 9 (Off-Road Vehicles and Engines Pollution Control Devices), Article 8 (Off-Road Airborne Toxic Control Measures)				
2477	Airborne Toxic Control Measure for In-Use Diesel-Fueled Transport Refrigeration Units (TRU) and TRU Generator Sets, and Facilities Where TRUs Operate.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.1	Purpose	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.2	Applicability	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2477.3	Exemptions	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.4	Definitions	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.5	Requirements for Owners or Owner/Operators.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.6	Requirements for Terminal Operators.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.7	Requirements for Drivers.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.8	Requirements for Freight Brokers and Freight Forwarders.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.9	Requirements for Motor Carriers.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.10	Requirements for California-Based Shippers.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2477.11	Requirements for California-Based Receivers.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.12	Requirements for Lessors and Lessees.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.13	Requirements for TRU and TRU Gen Set Original Equipment Manufacturers.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.14	Requirements for TRU, TRU Gen Set, and TRU-Equipped Truck and Trailer Dealers.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.15	Requirements for Repair Shops Located in California that Work on TRUs or TRU Gen Sets.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.16	Requirements for Engine Rebuilders.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.17	Facility Reporting	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.18	Prohibitions	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
2477.19	Penalties	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.20	Authority to Request Additional Information.	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2477.21	Severability	10/15/2012	83 FR 23232, 5/18/2018	Sections 2477–2477.21 establish emissions standards and other requirements relating to the control of emissions from in-use diesel-fueled transport refrigeration units (TRUs), TRU generator sets, and facilities where TRUs operate.
2479, excluding (e)(2) and (e)(4).	Regulation for Mobile Cargo Handling Equipment at Ports and Intermodal Rail Yards.	12/31/2006	81 FR 39424, 6/16/2016	Applies to any person who conducts business in California who sells, offers for sale, leases, rents, purchases, owns or operates any CI mobile cargo handling equipment that operates at any California port or intermodal rail yard. Includes exemptions, definitions, performance standards for newly purchased leased or rented yard trucks and non-yard truck cargo handling equipment, provisions for compliance extensions and alternative compliance plans, recordkeeping and reporting requirements, test methods. Excluded subsections relate to in-use performance standards for yard trucks, and fuel requirements.
2479(a), (b), (c), (d), (e)(1), (e)(3), (e)(5), (f)(1), (f)(2), (f)(3), (f)(6), (h)(1), (i), (j)(1), (j)(2), (j)(3), (k), (l), (m), (n), (o), (p), (q), (r).	Regulation for Mobile Cargo Handling Equipment at Ports and Intermodal Rail Yards.	10/14/2012	81 FR 39424, 6/16/2016	Amendments to exemptions, definitions, performance standards for newly purchased leased or rented equipment and in-use performance standards for non-yard truck mobile CHE, provisions for compliance extensions and alternative compliance plans, recordkeeping and reporting requirements, test methods.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 10 (Mobile Source Operational Controls), Article 1 (Motor Vehicles)				
2485, excluding (c)(1)(A), (c)(1)(B), (c)(3)(B).	Airborne Toxic Control Measure to Limit Diesel-Fueled Commercial Motor Vehicle Idling.	11/15/2006	81 FR 39424, 6/16/2016	Establishes requirements to reduce emissions from idling of diesel-fueled commercial motor vehicles that operate in California with gross vehicle weight ratings greater than 10,000 pounds; exceptions; enforcement and penalty provisions; definitions. Excluded subsections relate to idling restrictions on drivers and a fuel-fired heater provision.
2485, subsections (c)(1)(A), (c)(1)(B) only.	Airborne Toxic Control Measure to Limit Diesel-Fueled Commercial Motor Vehicle Idling.	11/15/2006	82 FR 61178, 12/27/2017	Submitted December 9, 2011. Limits diesel vehicle idling to 5 minutes.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 14 (Verification Procedures, Warranty and In-Use Compliance Requirements for In-Use Strategies to Control Emissions from Diesel Engines)				
2701	Definitions	1/1/2005	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(376)(i)(A)(1).
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 15 (Additional Off-Road Vehicles and Engines Pollution Control Requirements), Article 2 (Large Spark Ignition (LSI) Engines Fleet Requirements)				
2775	Applicability	12/14/2011	82 FR 14446, 3/21/2017	Applies to operators of certain off-road LSI engine forklifts, sweepers/scrubbers, industrial tow tractors or airport ground support equipment operated within the State of California. Exemptions provided for small fleets and certain other equipment. Includes definitions.
2775.1	Standards	12/14/2011	82 FR 14446, 3/21/2017	Establishes fleet average emission level standards with certain exceptions.
2775.2	Compliance Requirements for Fleet Operators.	12/14/2011	82 FR 14446, 3/21/2017	Compliance and recordkeeping requirements, provisions for extensions in compliance dates.
Title 13 (Motor Vehicles), Division 3 (Air Resources Board), Chapter 15 (Additional Off-Road Vehicles and Engines Pollution Control Requirements), Article 3 (Verification Procedure, Warranty, and In-Use Compliance Requirements for Retrofits to Control Emissions from Off-Road Large Spark-Ignition Engines)				
2783(d)(1)–(d)(4)	Emissions Reduction Testing Requirements.	1/10/2013	82 FR 14446, 3/21/2017	Specifies test fuels for emissions reduction testing purposes for gasoline-fueled, off-road, large spark-ignition engines.
2784(c)(1)–(c)(4)	Durability Demonstration Requirements.	1/10/2013	82 FR 14446, 3/21/2017	Specifies test fuels for durability demonstration purposes for gasoline-fueled, off-road, large spark-ignition engines.
Title 16 (Professional and Vocational Regulations), Division 33 (Bureau of Automotive Repair), Chapter 1 (Automotive Repair Dealers and Official Stations and Adjusters); Article 1 (General Provisions)				
3303.1	Public Access to License, Administrative Action, and Complaint Information.	7/20/2007	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
3303.2	Review of Applications for Licensure, Registration and Certification; Processing Time.	7/9/2003	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
Title 16 (Professional and Vocational Regulations), Division 33 (Bureau of Automotive Repair), Chapter 1 (Automotive Repair Dealers and Official Stations and Adjusters); Article 5.5 (Motor Vehicle Inspection Program)				
3340.1	Definitions	6/29/2006	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.5	Vehicles Exempt from Inspections.	4/16/1990	1/8/1997, 62 FR 1150	Submitted on January 22, 1996. See 40 CFR 52.220(c)(234)(i)(A)(1)(iv).
3340.6	Vehicles Subject to Inspection upon Change of Ownership and Initial Registration in California.	4/16/1990	1/8/1997, 62 FR 1150	Submitted on January 22, 1996. See 40 CFR 52.220(c)(234)(i)(A)(1)(iv).
3340.7	Fee for Inspection at State Contracted Test-Only Facility.	8/17/1995	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.9	Repair Assistance Program.	10/30/2000	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.10	Licensing of Smog Check Stations.	7/26/1996	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.15	General Requirements for Smog Check Stations.	7/9/2003	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.16	Test-Only Station Requirements.	8/1/2007	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.16.5	Test-and-Repair Station Requirements.	6/29/2006	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.17	Test Equipment, Electronic Transmission, Maintenance and Calibration Requirements.	6/29/2006	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.18	Gases and Blenders of Gases.	7/9/2003	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.22	Smog Check Station Signs.	4/16/1990	1/8/1997, 62 FR 1150	Submitted on January 22, 1996. See 40 CFR 52.220(c)(234)(i)(A)(1)(iv).
3340.22.1	Smog Check Station Service Signs.	2/1/2001	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.22.2	Smog Check Repair Cost Limit Sign.	2/1/2001	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.22.3	Replacement of Signs	9/17/1992	1/8/1997, 62 FR 1150	Submitted on January 22, 1996. See 40 CFR 52.220(c)(234)(i)(A)(1)(iv).
3340.23	Licensed Smog Check Station That Ceases Operating As a Licensed Station.	6/23/1995	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.24	Suspension, Revocation, and Reinstatement of Licenses.	6/23/1995	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.28	Licensing and Qualifications of Technicians.	1/17/2009	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
3340.29	Licensing of Technicians.	1/17/2009	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.30	General Requirements for Licensed Technicians.	6/23/1995	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.31	Retraining of Licensed Technicians.	6/23/1995	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.32	Standards for the Certification of Institutions Providing Retraining to Licensed Technicians or Prerequisite Training to Those Seeking to Become Licensed Technicians.	7/9/2003	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.32.1	Standards for Decertification of Institutions Providing Retraining to Licensed Technicians or Prerequisite Training to Those Seeking to Become Licensed Technicians.	6/23/1995	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.33	Standards for the Certification of Basic and Advanced Instructors Providing Retraining to Intern, Basic Area, and Advanced Emission Specialist Licensed Technicians or Prerequisite Training to Those Seeking to Become Intern, Basic Area, or Advanced Emission Specialist Licensed Technicians.	2/1/2001	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.33.1	Standards for the Decertification and Recertification of Instructors Providing Retraining to Licensed Technicians or Prerequisite Training to Those Seeking to Become Licensed Technicians.	6/23/1995	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.35	A Certificate of Compliance, Noncompliance, Repair Cost Waiver or an Economic Hardship Extension.	6/25/1998	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.35.1	A Certificate of Compliance, Noncompliance, Repair Cost Waiver or an Economic Hardship Extension Calculation.	12/2/1998	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.36	Clearing Enforcement Forms.	7/26/1996	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).

3340.37	Installation of Oxides of Nitrogen (NO_x) Devices.	7/26/1996	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.41	Inspection, Test, and Repair Requirements.	6/29/2006	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.41.3	Invoice Requirements	4/16/1990	1/8/1997, 62 FR 1150	Submitted on January 22, 1996. See 40 CFR 52.220(c)(234)(i)(A)(1)(iv).
3340.41.5	Tampering with Emissions Control Systems.	12/7/1984	1/8/1997, 62 FR 1150	Submitted on January 22, 1996. See 40 CFR 52.220(c)(234)(i)(A)(1)(iv).
3340.42	Mandatory Smog Check Inspection and Test Procedures, and Emission Standards.	1/11/2008	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.50	Fleet Facility Requirements.	2/15/2002	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.50.1	Application for Fleet Facility License; Renewal; Replacement.	4/16/1990	1/8/1997, 62 FR 1150	Submitted on January 22, 1996. See 40 CFR 52.220(c)(234)(i)(A)(1)(iv).
3340.50.3	Fleet Records and Reporting Requirements.	6/23/1995	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.50.4	Fleet Certificates	6/25/1998	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3340.50.5	Suspension or Rescission of Fleet Facility License.	6/25/1998	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
Title 16 (Professional and Vocational Regulations), Division 33 (Bureau of Automotive Repair), Chapter 1 (Automotive Repair Dealers and Official Stations and Adjusters); Article 10 (Gold Shield Program)				
3392.1	Gold Shield Program (GSP).	5/28/2003	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3392.2	Responsibilities of Smog Check Stations Certified as Gold Shield.	8/1/2007	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3392.3	Eligibility for Gold Shield Certification; Quality Assurance.	5/28/2003	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3392.4	Gold Shield Guaranteed Repair (GSGR) Program Advertising Rights.	5/28/2003	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3392.5	Causes for Invalidation of Gold Shield Station Certification.	5/28/2003	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3392.6	Gold Shield Program Hearing and Determination.	5/28/2003	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
Title 16 (Professional and Vocational Regulations), Division 33 (Bureau of Automotive Repair), Chapter 1 (Automotive Repair Dealers and Official Stations and Adjusters); Article 11 (Consumer Assistance Program)				
3394.1	Purpose and Components of the Consumer Assistance Program.	10/30/2000	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3394.2	Consumer Assistance Program Administration.	10/30/2000	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3394.3	State Assistance Limits.	10/30/2000	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
3394.4	Eligibility Requirements.	8/12/2008	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3394.5	Ineligible Vehicles	10/30/2000	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
3394.6	Application and Documentation Requirements.	7/3/2006	7/1/2010, 75 FR 38023	Submitted on June 5, 2009. See 40 CFR 52.220(c)(372)(i)(A)(1).
Title 17 (Public Health), Division 3 (Air Resources), Chapter 1 (Air Resources Board); Subchapter 7.5 (Airborne Toxic Control Measures)				
93114	Airborne Toxic Control Measure to Reduce Particulate Emissions from Diesel-Fueled Engines—Standards for Nonvehicular Diesel Fuel.	8/14/2004	5/12/2010, 75 FR 26653	Submitted on February 3, 2009. See 40 CFR 52.220(c)(376)(i)(A)(2).
93116	Purpose	3/11/2005	81 FR 39424, 6/16/2016	Purpose is to reduce diesel particulate matter emissions from portable diesel-fueled engines having a rated brake horsepower of 50 and greater.
93116.1	Applicability	3/11/2005	81 FR 39424, 6/16/2016	Applies to all portable engines having a maximum rated horse horsepower of 50 bhp and greater and fueled with diesel unless exempted under (b).
93116.2	Definitions	3/11/2005	81 FR 39424, 6/16/2016	Defines specific terms used in the regulation.
93116.3, excluding (a)	Requirements	3/11/2005	81 FR 39424, 6/16/2016	Diesel PM standards for in-use portable diesel-fueled engines; different requirements apply to such engines not permitted or registered prior to January 1, 2006; fleet requirements (for subject engines operated in California), fleet average calculation provisions. Excluded subsection relates to fuel requirements.
93116.4	Fleet Recordkeeping and Reporting Requirements.	3/11/2005	81 FR 39424, 6/16/2016	Fleet recordkeeping and reporting requirements.
93116.5	Enforcement of Fleet Requirements.	3/11/2005	81 FR 39424, 6/16/2016	Authority to review and seek enforcement action for violation of the fleet emission standard.
93118.3	Airborne Toxic Control Measure for Auxiliary Diesel Engines Operated on Ocean-Going Vessels At-Berth in a California Port.	1/2/2009	81 FR 39424, 6/16/2016	Applicability, exemptions, definitions, vessel in-use operational requirements, calculation procedures for certain options, terminal plan requirements, reporting and recordkeeping requirements.
93118.5, excluding (e)(1).	Airborne Toxic Control Measure for Commercial Harbor Craft.	7/20/2011	83 FR 23232, 5/18/2018	Applicability, exemptions, definitions, engine emission requirements, alternative control provisions, recordkeeping and reporting requirements, test methods. Excluded subsection relates to the low sulfur fuel use requirement.

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
Title 17 (Public Health), Division 3 (Air Resources), Chapter 1 (Air Resources Board); Subchapter 8 (Compliance with Nonvehicular Emissions Standards)				
94000	Test Procedures for Vapor Recovery Systems—Service Stations.	10/29/1978	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
94001	Certification of Vapor Recovery Systems—Service Stations.	10/29/1978	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
94002	Certification of Vapor Recovery Systems—Gasoline Bulk Plants.	10/29/1978	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
94003	Certification of Vapor Recovery Systems—Gasoline Terminals.	5/10/1977	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
94004	Certification of Vapor Recovery Systems—Gasoline Delivery Tanks.	5/10/1977	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
Title 17 (Public Health), Division 3 (Air Resources), Chapter 1 (Air Resources Board); Subchapter 8.5 (Consumer Products); Article 1 (Antiperspirants and Deodorants)				
94500	Applicability	5/30/1996	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(1).
94501	Definitions	7/20/2005	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(1).
94502	Standards for Antiperspirants and Deodorants.	6/6/2001	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(1).
94503	Exemptions	3/30/1996	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(1).
94503.5	Innovative Products	3/30/1996	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(1).
94504	Administrative Requirements.	6/6/2001	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(1).
94505	Variances	3/30/1996	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(1).
94506	Test Methods	7/20/2005	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(1).
94506.5	Federal Enforceability	12/16/1999	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(1).
Title 17 (Public Health), Division 3 (Air Resources), Chapter 1 (Air Resources Board); Subchapter 8.5 (Consumer Products); Article 2 (Consumer Products)				
94507	Applicability	11/19/2000	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
94508	Definitions	12/10/2011	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
94509	Standards for Consumer Products.	12/10/2011	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
94510	Exemptions	12/10/2011	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).

TABLE 1—EPA-APPROVED STATUTES AND STATE REGULATIONS [1]—Continued

State citation	Title/subject	State effective date	EPA approval date	Additional explanation
94511	Innovative Products ...	10/20/2010	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
94512	Administrative Requirements.	12/10/2011	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
94513	Reporting Requirements.	10/20/2010	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
94514	Variances	12/8/2007	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
94515	Test Methods	12/10/2011	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
94516	Severability	10/21/1991	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
94517	Federal Enforceability	11/18/1997	10/17/2014, 79 FR 62346	Submitted on May 28, 2014. See 40 CFR 52.220(c)(444)(i)(A)(1).
Title 17 (Public Health), Division 3 (Air Resources), Chapter 1 (Air Resources Board); Subchapter 8.5 (Consumer Products); Article 3 (Aerosol Coating Products)				
94520	Applicability	1/8/1996	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(3).
94521	Definitions	7/18/2001	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(3).
94522	Limits and Requirements for Aerosol Coating Products.	7/18/2001	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(3).
94523	Exemptions	12/8/2007	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(3).
94524	Administrative Requirements.	7/18/2001	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(3).
94525	Variances	1/8/1996	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(3).
94526	Test Methods	7/20/2005	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(3).
94527	Severability	1/8/1996	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(3).
94528	Federal Enforceability	1/8/1996	11/4/2009, 74 FR 57074	Submitted on March 27, 2008. See 40 CFR 52.220(c)(365)(i)(A)(3).
Title 17 (Public Health), Division 3 (Air Resources), Chapter 1 (Air Resources Board); Subchapter 8.6 (Maximum Incremental Reactivity); Article 1 (Tables of Maximum Incremental Reactivity (MIR) Values)				
94700	MIR Values for Compounds.	7/18/2001	9/13/2005, 70 FR 53930	Submitted on March 13, 2002. See 40 CFR 52.220(c)(338)(i)(A)(1).
94701	MIR Values for Hydrocarbon Solvents.	7/18/2001	9/13/2005, 70 FR 53930	Submitted on March 13, 2002. See 40 CFR 52.220(c)(338)(i)(A)(1).

[1] Table 1 lists EPA-approved California statutes and regulations incorporated by reference in the applicable SIP. Table 2 of paragraph (c) lists approved California test procedures, test methods and specifications that are cited in certain regulations listed in Table 1. Approved California statutes that are nonregulatory or quasi-regulatory are listed in paragraph (e).

TABLE 2—EPA-APPROVED CALIFORNIA TEST PROCEDURES, TEST METHODS, AND SPECIFICATIONS

Title/subject	State effective date	EPA approval date	Additional explanation
Method 2–1: Test Procedures for Determining the Efficiency of Gasoline Vapor Recovery Systems at Service Stations.	9/1/1982	5/3/1984, 49 FR 18829	Submitted on January 20, 1983. See 40 CFR 52.220(c)(149)(i)(A).
Method 2–2: Certification Procedures for Gasoline Vapor Recovery Systems at Service Stations.	8/9/1978	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
Method 2–3: Certification and Test Procedures for Vapor Recovery Systems at Gasoline Bulk Plants.	8/9/1978	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
Method 2–4: Certification and Test Procedures for Vapor Recovery Systems at Gasoline Terminals.	4/18/1977	7/8/1982, 47 FR 29668	Submitted on April 23, 1980. See 40 CFR 52.220(c)(69)(iv).
Method 2–5: Certification and Test Procedures for Vapor Recovery Systems of Gasoline Delivery Tanks.	9/1/1982	5/3/1984, 49 FR 18829	Submitted on January 20, 1983. See 40 CFR 52.220(c)(149)(i)(A).
Test Procedures for Gasoline Vapor Leak Detection Using Combustible Gas Detector.	9/1/1982	5/3/1984, 49 FR 18829	Submitted on January 20, 1983. See 40 CFR 52.220(c)(149)(i)(A).
California Procedures for Evaluating Alternative Specifications for Phase 2 Reformulated Gasoline Using the California Predictive Model.	12/11/1998	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(2).
California Procedures for Evaluating Alternative Specifications for Gasoline Using Vehicle Emissions Testing.	4/25/2001	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(374)(i)(A)(4).
California Procedures for Evaluating Alternative Specifications for Phase 3 Reformulated Gasoline Using the California Predictive Model.	8/7/2008	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(375)(i)(A)(2).
Procedures for Using the California Model for California Reformulated Gasoline Blendstocks for Oxygenate Blending (CARBOB).	8/7/2008	5/12/2010, 75 FR 26653	Submitted on June 15, 2004. See 40 CFR 52.220(c)(375)(i)(A)(3).
California Exhaust Emission Standards and Test Procedures for 2001 and Subsequent Model Passenger Cars, Light-Duty Trucks and Medium-Duty Vehicles, as last amended September 5, 2003.	12/4/2003	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Motor Vehicle Emission Control and Smog Index Label Specifications for 1978 through 2003 Model Year Motorcycles, Light-, Medium- and Heavy-Duty Engines and Vehicles,'' as last amended September 5, 2003.	12/4/2003	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Smog Index Label Specifications for 2004 and Subsequent Model Passenger Cars and Light-Duty Trucks,'' adopted September 5, 2003.	12/4/2003	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Refueling Emission Standards and Test Procedures for 2001 and Subsequent Model Motor Vehicles, as last amended September 5, 2003.	12/4/2003	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Evaporative Emission Standards and Test Procedures for 2001 and Subsequent Model Motor Vehicles, as amended June 22, 2006.	2/17/2007	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Refueling Emission Standards and Test Procedures for 2001 and Subsequent Model Motor Vehicles, as last amended June 22, 2006.	2/17/2007	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards Test Procedures for 2001 and Subsequent Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles, as last amended June 22, 2006.	2/17/2007	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2004 and Subsequent Model Heavy-Duty Diesel Engines and Vehicles, as last amended March 22, 2012.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.

TABLE 2—EPA-APPROVED CALIFORNIA TEST PROCEDURES, TEST METHODS, AND SPECIFICATIONS—Continued

Title/subject	State effective date	EPA approval date	Additional explanation
California Exhaust Emission Standards and Test Procedures for 2004 and Subsequent Model Heavy-Duty Otto-Cycle Engines, as last amended March 22, 2012.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Non-Methane Organic Gas Test Procedures, as last amended March 22, 2012.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California 2001 through 2014 Model Criteria Pollutant Exhaust Emission Standards and Test Procedures and 2009 through 2016 Model Greenhouse Gas Exhaust Emission Standards and Test Procedures for Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles, as last amended March 22, 2012, excluding GHG-related provisions.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Environmental Performance Label Specifications for 2009 and Subsequent Model Year Passenger Cars, Light-Duty Trucks, and Medium-Duty Passenger Vehicles, as last amended March 22, 2012.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Evaporative Emission Standards and Test Procedures for 2001 and Subsequent Model Motor Vehicles, as last amended March 22, 2012.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Refueling Emission Standards and Test Procedures for 2001 and Subsequent Model Motor Vehicles, as last amended March 22, 2012.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
Specifications for Fill Pipes and Openings of 1977 through 2014 Model Motor Vehicle Fuel Tanks, as last amended March 22, 2012.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
Specifications for Fill Pipes and Openings of 2015 and Subsequent Model Motor Vehicle Fuel Tanks, adopted March 22, 2012.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California 2015 and Subsequent Model Criteria Pollutant Exhaust Emission Standards and Test Procedures and 2017 and Subsequent Model Greenhouse Gas Exhaust Emission Standards and Test Procedures for Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles, adopted March 22, 2012, excluding GHG-related provisions.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2009 through 2017 Model Zero-Emission Vehicles and Hybrid Electric Vehicles, in the Passenger Car, Light-Duty Truck, and Medium-Duty Vehicle Classes, as last amended March 22, 2012, excluding GHG-related provisions.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2018 and Subsequent Model Zero-Emission Vehicles and Hybrid Electric Vehicles, in the Passenger Car, Light-Duty Truck, and Medium-Duty Vehicle Classes, adopted March 22, 2012, excluding GHG-related provisions.	8/7/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California 2015 and Subsequent Model Criteria Pollutant Exhaust Emission Standards and Test Procedures and 2017 and Subsequent Model Greenhouse Gas Exhaust Emission Standards and Test Procedures for Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles, as last amended December 6, 2012, excluding GHG-related provisions.	12/31/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.

TABLE 2—EPA-APPROVED CALIFORNIA TEST PROCEDURES, TEST METHODS, AND SPECIFICATIONS—Continued

Title/subject	State effective date	EPA approval date	Additional explanation
California 2001 through 2014 Model Criteria Pollutant Exhaust Emission Standards and Test Procedures and 2009 through 2016 Model Greenhouse Gas Exhaust Emission standards and Test Procedures for Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles, as last amended December 6, 2012, excluding GHG-related provisions.	12/31/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Non-Methane Organic Gas Test Procedures, as last amended December 6, 2012.	12/31/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Evaporative Emission Standards and Test Procedures for 2001 and Subsequent Model Motor Vehicles, as last amended December 6, 2012.	12/31/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2004 and Subsequent Model Heavy-Duty Otto-Cycle Engines, as last amended December 6, 2012.	12/31/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2004 and Subsequent Model Heavy-Duty Diesel Engines and Vehicles, as last amended December 6, 2012.	12/31/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2009 through 2017 Model Zero-Emission Vehicles and Hybrid Electric Vehicles, in the Passenger Car, Light-Duty Truck, and Medium-Duty Vehicle Classes, as last amended December 6, 2012.	12/31/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2018 and Subsequent Model Zero-Emission Vehicles and Hybrid Vehicles, in the Passenger Car, Light-Duty Truck, and Medium-Duty Vehicle Classes, adopted December 6, 2012, excluding GHG-related provisions.	12/31/2012	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2004 and Subsequent Model Heavy-Duty Otto-cycle Engines, as last amended December 12, 2002.	12/4/2003	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 1985 and Subsequent Model Heavy-Duty Diesel Engines and Vehicles, as last amended October 25, 2001.	11/17/2002	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Motor Vehicle Emission Control and Smog Index Label Specifications, as last amended October 22, 1999.	11/22/1999	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2004 and Subsequent Model Heavy-Duty Diesel Engines, as last amended September 1, 2006.	11/15/2006	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2004 and Subsequent Model Heavy-Duty Diesel Engines and Vehicles, as last amended October 12, 2011.	12/22/2011	83 FR 23232, 5/18/2018	Submitted by CARB on June 15, 2017.
California Exhaust Emission Standards and Test Procedures for New 2001 through 2006 Off-Road Large Spark-Ignition Engines, Parts I and II, adopted September 1, 1999 and as last amended March 2, 2007.	5/12/2007	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust and Evaporative Emission Standards and Test Procedures for 2007 through 2009 Off-Road Large Spark-Ignition Engines, (2007–2009 Test Procedure 1048), adopted March 2, 2007.	5/12/2007	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.

TABLE 2—EPA-APPROVED CALIFORNIA TEST PROCEDURES, TEST METHODS, AND SPECIFICATIONS—Continued

Title/subject	State effective date	EPA approval date	Additional explanation
California Exhaust and Evaporative Emission Standards and Test Procedures for New 2010 and Later Off-Road Large Spark-Ignition Engines, (2010 and Later Test Procedure 1048), adopted March 2, 2007.	5/12/2007	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust and Evaporative Emission Standards and Test Procedures for New 2010 and Later Off-Road Large Spark-Ignition Engines, (2010 and Later Test Procedure 1048), amended November 21, 2008.	10/20/2009	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust and Evaporative Emission Standards and Test Procedures for New 2010 and Later Off-Road Large Spark-Ignition Engines, (2010 and Later Test Procedure 1048), amended October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust and Evaporative Emission Standards and Test Procedures for New 2007 and Later Off-Road Large Spark-Ignition Engines (Test Procedures 1065 and 1068), adopted March 2, 2007.	5/12/2007	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust and Evaporative Emission Standards and Test Procedures for New 2007 and Later Off-Road Large Spark-Ignition Engines (Test Procedures 1065 and 1068), amended October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
Small Off-Road Engine and Equipment Evaporative Emissions Test Procedure (TP–901), adopted July 26, 2004.	10/20/2004	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
Small Off-Road Engine and Equipment Evaporative Emissions Test Procedure (TP–902), adopted July 26, 2004.	10/20/2004	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
Small Off-Road Engine Evaporative Emission Control System Certification Procedure (CP–901), adopted July 26, 2004.	10/20/2004	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
Small Off-Road Engine Evaporative Emission Control System Certification Procedure (CP–902), adopted July 26, 2004.	10/20/2004	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust Emission Standards and Test Procedures for 2005 and Later Small Off-Road Engines, as last amended February 24, 2010.	5/5/2010	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2005 and Later Small Off-Road Engines, as last amended October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust Emission Standards and Test Procedures for New 2013 and Later Small Off-Road Engines, Engine-Testing Procedures (Part 1054), adopted October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust Emission Standards and Test Procedures for New 2013 and Later Small Off-Road Engines, Engine-Testing Procedures (Part 1065), adopted October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust Emission Standards and Test Procedures for New 2000 and Later Tier 1, Tier 2, and Tier 3 Off-Road Compression-Ignition Engines, Part I–B, adopted January 28, 2000 and as last amended October 20, 2005.	1/6/2006	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for New 1996 and Later Tier 1, Tier 2, and Tier 3 Off-Road Compression-Ignition Engines, Part II, adopted May 12, 1993 and as last amended October 20, 2005.	1/6/2006	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.

TABLE 2—EPA-APPROVED CALIFORNIA TEST PROCEDURES, TEST METHODS, AND SPECIFICATIONS—Continued

Title/subject	State effective date	EPA approval date	Additional explanation
California Exhaust Emission Standards and Test Procedures for New 2008 and Later Tier 4 Off-Road Compression-Ignition Engines, Part I–C, adopted October 20, 2005.	1/6/2006	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for New 2008–2010 Tier 4 Off-Road Compression-Ignition Engines, Part I–C, as last amended October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust Emission Standards and Test Procedures for New 2011 and Later Tier 4 Off-Road Compression-Ignition Engines, Part I–D, as last amended October 25, 2012 (excluding optional alternative NO_X + NMHC standards and associated family emission limits in § 1039.102(e).	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust Emission Standards and Test Procedures for New 2011 and Later Tier 4 Off-Road Compression-Ignition Engines, Part I–F, as last amended October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust Emission Standards and Test Procedures for New 2011 and Later Tier 4 Off-Road Compression-Ignition Engines, Part I–E, adopted October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
California Exhaust Emission Standards and Test Procedures for 2001 Model Year and Later Spark-Ignition Marine Engines, as last amended June 5, 2009.	8/16/2009	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emission Standards and Test Procedures for 2001 Model Year and Later Spark-Ignition Marine Engines, as last amended October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
Procedures for Exemption of Add-On and Modified Parts for Off-Road Categories, as last amended June 5, 2009.	8/16/2009	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emissions Standards and Test Procedures for 1997 and Later Off-Highway Recreational Vehicles, and Engines, as last amended August 15, 2007.	8/15/2007	81 FR 39424, 6/16/2016	Submitted by CARB on August 14, 2015.
California Exhaust Emissions Standards and Test Procedures for 1997 and Later Off-Highway Recreational Vehicles and Engines, as last amended October 25, 2012.	1/10/2013	82 FR 14446, 3/21/2017	Submitted by CARB on December 7, 2016.
Test Procedures for Determining Evaporative Emissions from Off-Highway Recreational Vehicles (TP–933), adopted November 5, 2014.	4/1/2015	83 FR 23232, 5/18/2018	Submitted by CARB on June 15, 2017.

[81 FR 33400, May 26, 2016, as amended at 81 FR 39432, June 16, 2016; 81 FR 64352, Sept. 20, 2016; 82 FR 14453, Mar. 21, 2017; 82 FR 61179, Dec. 27, 2017; 83 FR 23235, May 18, 2018]

§ 52.221 Classification of regions.

The California plan was evaluated on the basis of the following classifications:

Air quality control region	Pollutant				
	Particulate matter	Sulfur oxides	Nitrogen dioxide	Carbon monoxide	Photochemical oxidants (hydrocarbons)
Great Basin Valley Intrastate	I	III	III	III	III
Lake County Intrastate	II	III	III	III	III
Lake Tahoe Intrastate	II	III	III	I	III
Metropolitan Los Angeles Intrastate	I	III	III	I	I
Mountain Counties Intrastate	II	III	III	I	I
North Central Coast Intrastate	II	III	III	III	III
North Coast Intrastate	II	III	III	III	III
Northeast Plateau Intrastate	III	III	III	III	III
Sacramento Valley Intrastate	II	III	III	I	I
San Diego Intrastate	II	III	III	I	I
San Francisco Bay Area Intrastate	II	III	III	I	I
San Joaquin Valley Intrastate	II	III	III	I	I
South Central Coast Intrastate	III	III	III	III	III
Southeast Desert Intrastate	I	III	III	III	I

[81 FR 18778, Apr. 1, 2016]

§ 52.222 Negative declarations.

(a) The following air pollution control districts submitted negative declarations for volatile organic compound source categories to satisfy the requirements of section 182 of the Clean Air Act, as amended. The following negative declarations are approved as additional information to the State Implementation Plan.

(1) Mojave Desert Air Quality Management District.

(i) Natural Gas and Gasoline Processing Equipment and Chemical Processing and Manufacturing were submitted on July 13, 1994 and adopted on May 25, 1994.

(ii) Asphalt Air Blowing was submitted on December 20, 1994 and adopted on October 26, 1994.

(iii) Vacuum Producing Devices or Systems was submitted on December 29, 1994 and adopted on December 21, 1994.

(iv) Synthetic Organic Chemical Manufacturing Industry (SOCMI) Distillation, SOCMI Reactors, SOCMI Batch Processing, Offset Lithography, Industrial Wastewater, Plastic Parts Coating (Business Machines), Plastic Parts (Other), and Ship Building were submitted on August 7, 1995 and adopted on June 28, 1995.

(v) Pneumatic Rubber Tire Manufacturing, Large Petroleum Dry Cleaners, Surface Coating of Cans, Surface Coating of Coils, Surface Coating Fabrics, Surface Coating Operations at Automotive and Light Duty Truck Assembly Plants, Surface of Coating of Large Appliances, Surface of Coating of Magnet Wire, Vacuum Producing Devices or Systems, Leaks From Petroleum Refinery Equipment, Process Unit Turnarounds, Equipment Leaks From Natural Gas/Gasoline Processing Plants, Synthesized Pharmaceutical Products, Air Oxidation Process—SOCMI, Polymer Manufacturing SOCMI and Polymer Manufacturing Equipment Leaks, Reactor Processes and Distillation Operations in SOCMI, and Synthetic Organic Chemical Polymer and Resin Manufacturing were submitted on July 11, 2007 and adopted January 22, 2007.

(vi) Petroleum Refinery Equipment, Manufacture of High-Density Polyethylene, Polypropylene, and Polystyrene Resins, and Fugitive Emissions from Synthetic Organic Chemical Polymer and Resin Manufacturing Equipment were submitted on October 22, 2010 and adopted on August 23, 2010.

(vii) The following negative declarations for the 2008 ozone NAAQS were adopted by the District on February 23, 2015 and submitted to EPA on September 9, 2015.

CTG source category	CTG reference document
Large Petroleum Dry Cleaners	EPA 450/3–82–009, 9/82 Control of VOC Emissions from Large Petroleum Dry Cleaners.
Manufacture of High-Density Polyethylene, Polypropylene, and Polystyrene Resins.	EPA–450/3–83–008, 11/83 Control of Volatile Organic Compound Emissions from Manufacture of High-Density Polyethylene, Polypropylene, and Polystyrene Resins.
Manufacture of Pneumatic Rubber Tires	EPA–450/2–78–030, 12/78 Control of Volatile Organic Emissions from Manufacture of Pneumatic Rubber Tires.
Surface Coating of Cans	EPA–450/2–77–008, 5/77 Control of Volatile Organic Emissions from Existing Stationary Sources—Vol. II: Surface Coating of Cans, Coils, Paper, Fabrics, Automobiles, and Light-Duty Trucks.
Surface Coating of Coils	EPA–450/2–77–008, 5/77 Control of Volatile Organic Emissions from Existing Stationary Sources—Vol. II: Surface Coating of Cans, Coils, Paper, Fabrics, Automobiles, and Light-Duty Trucks.
Surface Coating Operations at Automotive and Light Duty Truck Assembly Plants.	EPA 453/R–08–006, 09/08 Control Technique Guidelines for Automobile and Light-Duty Truck Assembly Coatings.
	EPA–450/2–77–008, 5/77 Control of Volatile Organic Emissions from Existing Stationary Sources—Vol. II: Surface Coating of Cans, Coils, Paper, Fabrics, Automobiles, and Light-Duty Trucks.
Large Appliances, Surface Coatings	EPA–450/2–77–034, 12/77 Control of Volatile Organic Emissions from Existing Stationary Sources—Volume V: Surface Coating of Large Appliances.
	EPA 453/R–07–004, 09/07 Control Techniques Guidelines for Large Appliance Coatings.
Surface Coating of Magnet Wire	EPA–450/2–77–033, 12/77 Control of Volatile Organic Emissions from Existing Stationary Sources, Volume IV: Surface Coating of Insulation of Magnet Wire.
Vacuum Producing Devices or Systems	EPA–450/2–77–025, 10/77 Control of Refinery Vacuum Producing Systems, Wastewater Separators, and Process Unit Turnarounds.

CTG source category	CTG reference document
Leaks from Petroleum Refinery Equipment	EPA–450/2–77–025, 10/77 Control of Refinery Vacuum Producing Systems, Wastewater Separators, and Process Unit Turnarounds.
Process Unit Turnarounds	EPA–450/2–77–025, 10/77 Control of Refinery Vacuum Producing Systems, Wastewater Separators, and Process Unit Turnarounds.
Equipment Leaks from Natural Gas/Gasoline Processing Plants.	EPA–450/3–83–007,12/83 Control of Volatile Organic Compound Equipment Leaks from Natural Gas/Gasoline Processing Plants.
Manufacture of Synthesized Pharmaceutical Products.	EPA–450/2–78–029, 12/78 Control of Volatile Organic Emissions from Manufacture of Synthesized Pharmaceutical Products.
Air Oxidation Processes (SOCMI)	EPA–450/3–84–015, 12/84 Control of Volatile Organic Compound Emissions from Air Oxidation Process in Synthetic Organic Chemical Manufacturing Industry (SOCMI).
Reactor and Distillation Processes (SOCMI).	EPA–450/4–91–031, 08/93 Control of Volatile Organic Compound Emissions from Reactor Process and Distillation Operations in SOCMI.
Equipment used in Synthetic Organic Chemical Polymers and Resin Manufacturing.	EPA–450/3–83–006, 03/84 Control of Volatile Organic Compound Leaks from Synthetic Organic Chemical Polymer and Resin Manufacturing Equipment.
Leaks from Petroleum Refinery Equipment	EPA–450/2–78–036, 06/78 Control of Volatile Organic Compound Leaks from Petroleum Refinery Equipment.

(b) The following air pollution control districts submitted negative declarations for oxides of nitrogen source categories to satisfy the requirements of section 182 of the Clean Air Act, as amended. The following negative declarations are approved as additional information to the State Implementation Plan.

(1) Sacramento Metropolitan Air Quality Management District.

(i) Nitric and Adipic Acid Manufacturing Plants, Utility Boilers, Cement Manufacturing Plants, Glass Manufacturing Plants, and Iron and Steel Manufacturing Plants were submitted on March 4, 1996, and adopted on August 3, 1995.

(2) San Joaquin Valley Unified Air Pollution Control District.

(i) Nitric and Adipic Acid Manufacturing Plants, Cement Manufacturing Plants, Asphalt Batch Plants, Iron and Steel Manufacturing Plants, and Driers were submitted on October 17, 1994 and adopted on September 14, 1994.

(3) Placer County Air Pollution Control District.

(i) Nitric and Adipic Acid Manufacturing Plants, Utility Boilers, Cement Manufacturing Plants, Glass Manufacturing Plants, and Iron and Steel Manufacturing Plants were submitted on February 25, 1998 and adopted on October 9, 1997.

(4) Antelope Valley Air Pollution Control District.

(i) Boilers and Process Heaters In Petroleum Refineries submitted on May 13, 1999 and adopted on April 21, 1998.

(ii) Cement Kilns and Glass Melting Furnaces submitted on July 23, 1999 and adopted on March 16, 1999.

(iii) Nitric Acid Units submitted on March 28, 2000 and adopted on January 18, 2000.

[60 FR 47076, Sept. 11, 1995]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.222, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§ 52.223 Approval status.

(a) With the exceptions set forth in this subpart, the Administrator approves California's plan for the attainment and maintenance of the national standards under section 110 of the Clean Air Act.

(b) With the exceptions set forth in this subpart, the Administrator approves the plan with respect to Part D, Title I of the Clean Air Act, as amended in 1977, for the nonattainment areas listed in this paragraph. In addition, continued satisfaction of the requirements of Part D for the ozone portion of the State Implementation Plan (SIP) depends on the adoption and submittal of reasonably available control technology (RACT) requirements by July 1, 1980, for sources covered by Control Technique Guidelines (CTGs) issued between January 1978 and January 1979 and adoption and submittal by each subsequent January of additional RACT requirements for sources covered by CTGs issued by the previous January.

(1) Imperial County for O_3.

(2) North Central Coast Air Basin for O_3.

(3) South Coast Air Basin for O_3, CO, NO_2, and PM.

(4) San Diego Air Basin for O_3, CO, and TSP.

(5) San Joaquin Valley Air Basin.

(i) Kern County nonattainment area for ozone, CO, SO_2, and PM.

(ii) Kings County for O_3 and TSP.

(iii) Madera County for O_3 and TSP.

(iv) Merced County for O_3 and TSP.

(v) San Joaquin County for CO, O_3 and TSP.

(vi) Stanislaus County for CO, O_3 and TSP.

(vii) Tulare County for O_3 and TSP.

(viii) Fresno County for O_3, CO, and TSP.

(6) South Central Coast Air Basin.

(i) Santa Barbara County nonattainment area for O_3, CO and TSP.

(ii) Ventura County for O_3, CO and TSP.

(7) Sacramento Valley Air Basin.

(i) Butte County for O_3 and CO.

(ii) Sutter County for O_3.

(iii) Yuba County for O_3.

(iv) Sacramento AQMA for O_3.

(v) Sacramento County Metropolitan Area for CO.

(8) Southeast Desert Air Basin.

(i) Los Angeles County for Ozone.

(ii) San Bernardino County for Ozone.

(iii) Riverside County for Ozone.

(9) San Francisco Bay Area Air Basin for O_3, CO and TSP.

(10) Mountain Counties Air Basin.

(i) El Dorado County (Mountain Counties Air Basin portion) for O_3.

(ii) Placer County (Mid-County portion) for O_3.

(c) [Reserved]

(d) With the exceptions set forth in this subpart, the Administrator approves the plan with respect to Part D, Title I of the Clean Air Act, as amended in 1977, for the nonattainment areas listed in this paragraph.

(1) Lake Tahoe Basin for CO.

(2) EPA approves the CO plan for the Lake Tahoe Basin as meeting the requirements of Part D. This approval includes the resolution of the Lake Tahoe Regional Planning Agency banning new source construction pending the adoption of a new regional plan and ordinances. However, EPA disapproves the plan for any future time during which the Tahoe Regional Planning Agency may remove its construction ban prior to EPA approval of the new regional plan and ordinances.

(e) The Administrator approves the following portions of the 1999 Ozone Attainment Plan for the San Francisco Bay Area submitted by the California Air Resources Board on August 13, 1999: the 1995 baseline emissions inventory, the reasonable further progress demonstration, and the deletion of transportation control measures #6 and #16.

(f)(1) Insofar as the Prevention of Significant Deterioration (PSD) provisions found in North Coast Unified Air Quality Management District's approved plan apply to stationary sources of greenhouse gas (GHGs) emissions, the Administrator approves that application only to the extent that GHGs are ''subject to regulation'', as provided in this paragraph (b), and the Administrator takes no action on that application to the extent that GHGs are not ''subject to regulation.''

(2) Beginning January 2, 2011, the pollutant GHGs is subject to regulation if:

(i) The stationary source is a new major stationary source for a regulated NSR pollutant that is not GHGs, and also will emit or will have the potential to emit 75,000 tpy CO_2e or more; or

(ii) The stationary source is an existing major stationary source for a regulated NSR pollutant that is not GHGs, and also will have an emissions increase of a regulated NSR pollutant, and an emissions increase of 75,000 tpy CO_2e or more; and

(3) Beginning July 1, 2011, in addition to the provisions in paragraph (b)(2) of this section, the pollutant GHGs shall also be subject to regulation:

(i) At a new stationary source that will emit or have the potential to emit 100,000 tpy CO_2e; or

(ii) At an existing stationary source that emits or has the potential to emit 100,000 tpy CO_2e, when such stationary source undertakes a physical change or change in the method of operation that will result in an emissions increase of 75,000 tpy CO_2e or more.

(4) For purposes of this paragraph (b)—

(i) The term greenhouse gas shall mean the air pollutant defined in 40 CFR 86.1818–12(a) as the aggregate group of six greenhouse gases: Carbon dioxide, nitrous oxide, methane, hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride.

(ii) The term tpy CO_2 equivalent emissions (CO_2e) shall represent an amount of GHGs emitted, and shall be computed as follows:

(A) Multiplying the mass amount of emissions (tpy), for each of the six greenhouse gases in the pollutant GHGs, by the gas's associated global warming potential published at Table

A–1 to subpart A of 40 CFR part 98—Global Warming Potentials.

(B) Sum the resultant value from paragraph (b)(4)(ii)(A) of this section for each gas to compute a tpy CO_2e.

(iii) The term emissions increase shall mean that both a significant emissions increase (as calculated using the procedures in the EPA-approved North Coast Unified Air Quality Management District rules at R1–1–130(s2)) and a significant net emissions increase (as defined in the North Coast Unified Air Quality Management District rules at R1–1–130(n1)) occur. For the pollutant GHGs, an emissions increase shall be based on tpy CO_2e, and shall be calculated assuming the pollutant GHGs is a regulated NSR pollutant, and ''significant'' is defined as 75,000 tpy CO_2e instead of applying the value in the EPA-approved North Coast Unified Air Quality Management District rules at R1–1–130(s2).

(g)(1) Insofar as the Prevention of Significant Deterioration (PSD) provisions found in Northern Sonoma County Air Pollution Control District's approved plan apply to stationary sources of greenhouse gas (GHGs) emissions, the Administrator approves that application only to the extent that GHGs are ''subject to regulation'', as provided in this paragraph (b), and the Administrator takes no action on that application to the extent that GHGs are not ''subject to regulation.''

(2) Beginning January 2, 2011, the pollutant GHGs is subject to regulation if:

(i) The stationary source is a new major stationary source for a regulated NSR pollutant that is not GHGs, and also will emit or will have the potential to emit 75,000 tpy CO_2e or more; or

(ii) The stationary source is an existing major stationary source for a regulated NSR pollutant that is not GHGs, and also will have an emissions increase of a regulated NSR pollutant, and an emissions increase of 75,000 tpy CO_2e or more; and,

(3) Beginning July 1, 2011, in addition to the provisions in paragraph (b)(2) of this section, the pollutant GHGs shall also be subject to regulation:

(i) At a new stationary source that will emit or have the potential to emit 100,000 tpy CO_2e; or

(ii) At an existing stationary source that emits or has the potential to emit 100,000 tpy CO_2e, when such stationary source undertakes a physical change or change in the method of operation that will result in an emissions increase of 75,000 tpy CO_2e or more.

(4) For purposes of this paragraph (b)—

(i) The term greenhouse gas shall mean the air pollutant defined in 40 CFR 86.1818–12(a) as the aggregate group of six greenhouse gases: Carbon dioxide, nitrous oxide, methane, hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride.

(ii) The term tpy CO_2 equivalent emissions (CO_2e) shall represent an amount of GHGs emitted, and shall be computed as follows:

(A) Multiplying the mass amount of emissions (tpy), for each of the six greenhouse gases in the pollutant GHGs, by the gas's associated global warming potential published at Table A–1 to subpart A of 40 CFR part 98—Global Warming Potentials.

(B) Sum the resultant value from paragraph (b)(4)(ii)(A) of this section for each gas to compute a tpy CO_2e.

(iii) The term emissions increase shall mean that both a significant emissions increase (as calculated using the procedures in the EPA-approved Northern Sonoma County Air Pollution Control District rules at R1–1–130(s2)) and a significant net emissions increase (as defined in the Northern Sonoma County Air Pollution Control District rules at R1–1–130(n1)) occur. For the pollutant GHGs, an emissions increase shall be based on tpy CO_2e, and shall be calculated assuming the pollutant GHGs is a regulated NSR pollutant, and ''significant'' is defined as 75,000 tpy CO_2e instead of applying the value in the EPA-approved Northern Sonoma County Air Pollution Control District rules at R1–1–130(s2).

(h)(1) Insofar as the Prevention of Significant Deterioration (PSD) provisions found in Mendocino County Air Quality Management District's approved plan apply to stationary sources of greenhouse gas (GHGs) emissions, the Administrator approves that application only to the extent that GHGs

are ''subject to regulation'', as provided in this paragraph (b), and the Administrator takes no action on that application to the extent that GHGs are not ''subject to regulation.''

(2) Beginning January 2, 2011, the pollutant GHGs is subject to regulation if:

(i) The stationary source is a new major stationary source for a regulated NSR pollutant that is not GHGs, and also will emit or will have the potential to emit 75,000 tpy CO_2e or more; or

(ii) The stationary source is an existing major stationary source for a regulated NSR pollutant that is not GHGs, and also will have an emissions increase of a regulated NSR pollutant, and an emissions increase of 75,000 tpy CO_2e or more; and,

(3) Beginning July 1, 2011, in addition to the provisions in paragraph (b)(2) of this section, the pollutant GHGs shall also be subject to regulation:

(i) At a new stationary source that will emit or have the potential to emit 100,000 tpy CO_2e; or

(ii) At an existing stationary source that emits or has the potential to emit 100,000 tpy CO_2e, when such stationary source undertakes a physical change or change in the method of operation that will result in an emissions increase of 75,000 tpy CO_2e or more.

(4) For purposes of this paragraph (b)—

(i) The term greenhouse gas shall mean the air pollutant defined in 40 CFR 86.1818–12(a) as the aggregate group of six greenhouse gases: Carbon dioxide, nitrous oxide, methane, hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride.

(ii) The term tpy CO_2 equivalent emissions (CO_2e) shall represent an amount of GHGs emitted, and shall be computed as follows:

(A) Multiplying the mass amount of emissions (tpy), for each of the six greenhouse gases in the pollutant GHGs, by the gas's associated global warming potential published at Table A–1 to subpart A of 40 CFR part 98—Global Warming Potentials.

(B) Sum the resultant value from paragraph (b)(4)(ii)(A) of this section for each gas to compute a tpy CO_2e.

(iii) The term emissions increase shall mean that both a significant emissions increase (as calculated using the procedures in the EPA-approved Mendocino County Air Quality Management District rules at R1–1–130(s2)) and a significant net emissions increase (as defined in the Mendocino County Air Quality Management District rules at R1–1–130(m1) (1982)) occur. For the pollutant GHGs, an emissions increase shall be based on tpy CO_2e, and shall be calculated assuming the pollutant GHGs is a regulated NSR pollutant, and ''significant'' is defined as 75,000 tpy CO_2e instead of applying the value in the EPA-approved Mendocino County Air Quality Management District rules at R1–1–130(s2).

(i) *1997 ozone NAAQS:* The 2007 Infrastructure SIP, submitted on November 16, 2007, and the 2014 Multi-pollutant Infrastructure SIP, submitted on March 6, 2014, are partially disapproved for specific requirements of Clean Air Act section 110(a)(2) for the 1997 8-hour ozone NAAQS for the Air Pollution Control Districts (APCDs), Air Quality Management Districts (AQMDs), or Air Quality Control Regions (AQCRs) listed in this paragraph.

(1)–(2) [Reserved]

(3) North Coast Unified AQMD (PSD requirements for the regulation of $PM_{2.5}$, $PM_{2.5}$ precursors, condensable $PM_{2.5}$, $PM_{2.5}$ increments, and NO_X as an ozone precursor, only) for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J).

(4) [Reserved]

(5) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J), except for South Coast AQMD where the Federal PSD program applies to greenhouse gases, only.

(6) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(D)(ii) (with respect to section 126(a), only).

(7) [Reserved]

(j) *1997 $PM_{2.5}$ NAAQS:* The 2007 Infrastructure SIP, submitted on November 16, 2007, and the 2014 Multi-pollutant Infrastructure SIP, submitted on March 6, 2014, are partially disapproved

for specific requirements of Clean Air Act section 110(a)(2) for the 1997 $PM_{2.5}$ NAAQS for the Air Pollution Control Districts (APCDs), Air Quality Management Districts (AQMDs), or Air Quality Control Regions (AQCRs) listed in this paragraph.

(1) [Reserved]

(2) North Coast Unified AQMD (PSD requirements for the regulation of $PM_{2.5}$, $PM_{2.5}$ precursors, condensable $PM_{2.5}$, $PM_{2.5}$ increments, and NO_X as an ozone precursor, only) for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J).

(3) [Reserved]

(4) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J), except for South Coast AQMD where the Federal PSD program applies to greenhouse gases, only.

(5) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(D)(ii) (with respect to section 126(a), only).

(6) San Joaquin Valley Mountain Counties AQCR for section 110(a)(2)(G).

(k) *2006 $PM_{2.5}$ NAAQS* and *2012 $PM_{2.5}$ NAAQS:* The 2014 Multi-pollutant Infrastructure SIP, submitted on March 6, 2014, is partially disapproved for specific requirements of Clean Air Act section 110(a)(2) for the 2006 $PM_{2.5}$ NAAQS and 2012 $PM_{2.5}$ NAAQS for the Air Pollution Control Districts (APCDs), Air Quality Management Districts (AQMDs), or Air Quality Control Regions (AQCRs) listed in this paragraph.

(1) [Reserved]

(2) North Coast Unified AQMD (PSD requirements for the regulation of $PM_{2.5}$, $PM_{2.5}$ precursors, condensable $PM_{2.5}$, $PM_{2.5}$ increments, and NO_X as an ozone precursor, only) for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J).

(3) [Reserved]

(4) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J), except for South Coast AQMD where the Federal PSD program applies to greenhouse gases, only.

(5) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(D)(ii) (with respect to section 126(a), only).

(6) San Joaquin Valley Mountain Counties AQCR for section 110(a)(2)(G).

(l) *2008 ozone NAAQS:* The 2014 Multi-pollutant Infrastructure SIP, submitted on March 6, 2014, is partially disapproved for specific requirements of Clean Air Act section 110(a)(2) for the 2008 8-hour ozone NAAQS for the Air Pollution Control Districts (APCDs), Air Quality Management Districts (AQMDs), or Air Quality Control Regions (AQCRs) listed in this paragraph.

(1)–(2) [Reserved]

(3) North Coast Unified AQMD (PSD requirements for the regulation of $PM_{2.5}$, $PM_{2.5}$ precursors, condensable $PM_{2.5}$, $PM_{2.5}$ PSD, and NO_X as an ozone precursor, only) for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J).

(4) [Reserved]

(5) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J), except for South Coast AQMD where the Federal PSD program applies to greenhouse gases, only.

(6) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(D)(ii) (with respect to section 126(a), only).

(7) [Reserved]

(m) *2008 Pb NAAQS:* The 2011 Pb Infrastructure SIP, submitted on September 22, 2011, and the 2014 Multi-pollutant Infrastructure SIP, submitted on March 6, 2014, are partially disapproved for specific requirements of Clean Air Act section 110(a)(2) for the 2008 Pb NAAQS for the Air Pollution Control

Districts (APCDs), Air Quality Management Districts (AQMDs), or Air Quality Control Regions (AQCRs) listed in this paragraph.

(1) [Reserved]

(2) North Coast Unified AQMD (PSD requirements for the regulation of $PM_{2.5}$, $PM_{2.5}$ precursors, condensable $PM_{2.5}$, $PM_{2.5}$ increments, and NO_X as an ozone precursor, only) for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J).

(3) [Reserved]

(4) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J), except for South Coast AQMD where the Federal PSD program applies to greenhouse gases, only.

(5) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(D)(ii) (with respect to section 126(a), only).

(n) *2010 NO_2 NAAQS:* The 2012 NO_2 Infrastructure SIP, submitted on November 15, 2012, and the 2014 Multi-pollutant Infrastructure SIP, submitted on March 6, 2014, are partially disapproved for specific requirements of Clean Air Act section 110(a)(2) for the 2010 NO_2 NAAQS for the Air Pollution Control Districts (APCDs), Air Quality Management Districts (AQMDs), or Air Quality Control Regions (AQCRs) listed in this paragraph.

(1) [Reserved]

(2) North Coast Unified AQMD (PSD requirements for the regulation of $PM_{2.5}$, $PM_{2.5}$ precursors, condensable $PM_{2.5}$, $PM_{2.5}$ increments, and NO_X as an ozone precursor, only) for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J).

(3) [Reserved]

(4) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J), except for South Coast AQMD where the Federal PSD program applies to greenhouse gases, only.

(5) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(D)(ii) (with respect to section 126(a), only).

(o) *2010 SO_2 NAAQS:* The 2014 Multi-pollutant Infrastructure SIP, submitted on March 6, 2014, is partially disapproved for specific requirements of Clean Air Act section 110(a)(2) for the 2010 SO_2 NAAQS for the Air Pollution Control Districts (APCDs), Air Quality Management Districts (AQMDs), or Air Quality Control Regions (AQCRs) listed in this paragraph.

(1) [Reserved]

(2) North Coast Unified AQMD (PSD requirements for the regulation of $PM_{2.5}$, $PM_{2.5}$ precursors, condensable $PM_{2.5}$, $PM_{2.5}$ increments, and NO_X as an ozone precursor, only) for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J).

(3) [Reserved]

(4) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(C), (D)(i)(II) (interfere with measures in any other state to prevent significant deterioration of air quality, only), and (J), except for South Coast AQMD where the Federal PSD program applies to greenhouse gases, only.

(5) All areas in California that are subject to the Federal PSD program as provided in 40 CFR 52.270 for sections 110(a)(2)(D)(ii) (with respect to section 126(a), only).

[45 FR 74484, Nov. 11, 1980]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.223, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§ 52.224 General requirements.

(a) The requirements of § 51.116(c) of this chapter are not met except in certain Air Pollution Control Districts (APCD) as indicated in this paragraph since the plan does not provide procedures by which emission data, as correlated with applicable emission limitations, will be made available to the public.

(1) The following APCD's meet the requirements of § 51.116(c) of this chapter:

(i) Siskiyou County APCD.
(ii) San Diego County APCD.
(iii) Great Basin Unified APCD.
(iv) Del Norte County APCD.
(v) Humboldt County APCD.
(vi) Mendocino County APCD.
(vii) Northern Sonoma County APCD.
(viii) Trinity County APCD.
(ix) Amador County APCD.

(2) The following APCD's do not provide for the correlation of emission data with applicable emission limitations as required by § 51.116(c) of this chapter. In these APCD's, only the requirements of § 52.224(b)(4) are in effect:

(i) Merced County APCD.
(ii) Stanislaus County APCD.
(iii) Fresno County APCD.
(iv) Calaveras County APCD.
(v) Tuolumne County APCD.
(vi) San Joaquin County APCD.
(vii) Mariposa County APCD.
(viii) Tulare County APCD.
(ix) Kern County APCD.
(x) Madera County APCD.
(xi) Yolo-Solano APCD.
(xii) Sutter County APCD.
(xiii) Glenn County APCD.
(xiv) Tehama County APCD.
(xv) Sierra County APCD.
(xvi) Shasta County APCD.
(xvii) Sacramento County APCD.
(xviii)–(xix) [Reserved]
(xx) Lake County APCD.
(xxi) Imperial County APCD.
(xxii) [Reserved]
(xxiii) Ventura County APCD.
(xxiv) Monterey Bay Unified APCD.
(xxv) [Reserved]
(xxvi) San Luis Obispo County APCD.
(xxvii) Kings County APCD.
(xxviii) Plumas County APCD.
(xxix) Nevada County APCD.

(b) *Regulation for public availability of emission data.* (1) Any person who cannot obtain emission data from the Agency responsible for making emission data available to the public, as specified in the applicable plan, except for those APCD's specified in paragraph (a) of this section, concerning emissions from any source subject to emission limitations which are part of the approved plan may request that the appropriate Regional Administrator obtain and make public such data. Within 30 days after receipt of any such written request, the Regional Administrator shall require the owner or operator of any such source to submit information within 30 days on the nature and amounts of emissions from such source and any other information as may be deemed necessary by the Regional Administrator to determine whether such source is in compliance with applicable emission limitations or other control measures that are part of the applicable plan.

(2) Commencing after the initial notification by the Regional Administrator pursuant to paragraph (b)(1) of this section, the owner or operator of the source shall maintain records of the nature and amounts of emissions from such source and any other information as may be deemed necessary by the Regional Administrator to determine whether such source is in compliance with applicable emission limitations or other control measures that are part of the plan. The information recorded shall be summarized and reported to the Regional Administrator, on forms furnished by the Regional Administrator, and shall be submitted within 45 days after the end of the reporting period. Reporting periods are January 1 to June 30 and July 1 to December 31.

(3) Information recorded by the owner or operator and copies of this summarizing report submitted to the Regional Administrator shall be retained by the owner or operator for 2 years after the date on which the pertinent report is submitted.

(4) Emission data obtained from owners or operators of stationary sources will be correlated with applicable emission limitations and other control measures that are part of the applicable plan and will be available at the appropriate regional office and at other locations in the state designated by the Regional Administrator.

(c) The deletion of the following rules or portions of rules is disapproved, since these regulations are necessary to fulfill the requirements of 40 CFR 51.116(c).

(1) Northcoast intrastate region:

(i) Lake County APCD.

(A) Section 49a, *Public Records*, and Section 49b, *Record*, of Part III, *Definitions;* and Part II, *Authorization and Disclosure*, submitted on October 23, 1974 and previously approved under 40 CFR 52.223, are retained.

[40 FR 55328, Nov. 28, 1975]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.224, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§ 52.225 Legal authority.

(a) [Reserved]

(b) The requirements of § 51.230(f) of this chapter are not met since authority to make emission data available to the public inadequate. Such release is precluded under certain circumstances.

[37 FR 10852, May 31, 1972, as amended at 51 FR 40676, Nov. 7, 1986; 81 FR 18780, Apr. 1, 2016]

§ 52.226 Control strategy and regulations: Particulate matter, San Joaquin Valley and Mountain Counties Intrastate Regions.

(a) [Reserved]

(b) The following regulatory changes represent a relaxation of previously submitted regulations and an adequate control strategy has not been submitted showing that the relaxation will not interfere with attainment and maintenance of the National Ambient Air Quality Standards for particulate matter:

(1) Kings County APCD.

(i) Rule 405, Process Weight, submitted on July 25, 1973 is disapproved; and Rule 405, submitted on June 30, 1972, and previously approved in 40 CFR 52.223 is retained.

(ii) Rule 407.1, *Disposal of Solid and Liquid Wastes*, submitted on November 4, 1977, is disapproved; and Rule 407.1, *Disposal of Solid and Liquid Wastes*, submitted on June 30, 1972, and previously approved under 40 CFR 52.223 is retained.

(2) Calaveras County APCD.

(i) The revocation of Rule 407(b), Combustion Contaminants, is disapproved; and Rule 407(b), submitted on June 30, 1972, and previously approved in 40 CFR 52.223 is retained.

(ii) The revocation of Rule 408, Fuel Burning Equipment, is disapproved; and Rule 408, submitted on June 30, 1972, and previously approved in 40 CFR 52.223 is retained.

(iii) The addition of Rule 209, Fossil Fuel-Steam Generator Facility, is disapproved; and Rule 408, submitted on June 30, 1972 and previously approved in 40 CFR 52.223 is retained.

(3) Tuolumne County APCD.

(i) Rule 207, Particulate Matter, submitted on July 22, 1975, is disapproved; and Rules 404 and 407(b), submitted on June 30, 1972 and previously approved in 40 CFR 52.223 are retained.

(ii) Rule 209, Fossil Fuel-Steam Generator Facility, submitted on July 22, 1975, is disapproved; and Rule 408, submitted on June 30, 1972, and previously approved in 40 CFR 52.223 is retained.

(iii) Rule 207, Particulate Matter, submitted on February 10, 1977, is disapproved and the previously approved Rules 404 and 407(b), submitted on June 30, 1972, remain in effect.

(iv) Rule 209, Fossil Fuel-Steam Generator Facility, submitted on February 10, 1977, is disapproved and the previously approved Rule 408, submitted on June 30, 1972, remains in effect.

(4) Fresno County APCD.

(i) Rule 407, Disposal of Solid or Liquid Wastes, submitted on February 10, 1976, is disapproved; and Rule 407.1, submitted on June 30, 1972, and previously approved in 40 CFR 52.223 is retained.

(ii) Rule 407, Disposal of Solid or Liquid Wastes, submitted on November 10, 1976, is disapproved; and Rule 407.1, submitted on June 30, 1972 and previously approved in 40 CFR 52.223 is retained.

(5) San Joaquin County APCD.

(i) Rule 407.1, Disposal of Solid or Liquid Wastes, submitted on February 10, 1976, is disapproved; and Rule 407.1, submitted on June 30, 1972 and previously approved in 40 CFR 52.223 is retained.

(6) Mariposa County APCD.

(i) Rule 209, Fossil Fuel-Steam Generator Facility, submitted on January 10, 1975, is disapproved; and Rule 6.4, submitted on June 30, 1972 and previously approved in 40 CFR 52.223 is retained.

(7) Kern County APCD.

(i) Rule 407.1, Disposal of Solid or Liquid Wastes, submitted on July 22,

1975, is disapproved; and Rule 407.1, submitted on June 30, 1972 and previously approved in 40 CFR 52.223 is retained.

(8) Madera County APCD.

(i) Rule 405, Process Weight, submitted on January 10, 1975 is disapproved; and Rule 405, submitted on June 30, 1972 and previously approved in 40 CFR 52.223 is retained.

(9) Tulare County APCD.

(i) Paragraph b. of Rule 407.1.

(10) Merced County APCD.

(i) Rule 407.1, Disposal of Solid or Liquid Wastes, submitted on August 2, 1976 is disapproved; and Rule 407.1 submitted on June 30, 1972 and previously approved in 40 CFR 52.223 is retained.

[37 FR 10850, May 31, 1972]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.226, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at *www.govinfo.gov*.

§ 52.227 Control strategy and regulations: Particulate matter, Metropolitan Los Angeles Intrastate Region.

(a) The requirements of Subpart G of this chapter are not met since the plan does not provide for attainment and maintenance of the secondary standards for particulate matter in the Metropolitan Los Angeles Intrastate Region.

(b) The following regulations are disapproved since they are not part of the approved control strategy and do not provide for the degree of control needed for the attainment and maintenance of the primary standards for particulate matter in the Metropolitan Los Angeles Intrastate Region.

(1) Los Angeles County Air Pollution Control District:

(i) Regulation IV, Rule 68.1.

(2) Riverside County Air Pollution Control District:

(i) Regulation IV, Rule 54 for process sources with a process weight rate in excess of 62,000 lbs. per hour. Rule 54 is approved for process sources with a process weight of 62,000 lbs. per hour or less.

(3) Southern California APCD:

(i) Regulation IV, Rule 404 Particulate Matter—Concentration, submitted on August 2, 1976.

(ii) Regulation IV, Rule 473 Disposal of Solid and Liquid Wastes, submitted on August 2, 1976.

(4) South Coast AQMD.

(i) Rule 401(b) submitted on August 15, 1980.

(c) The rescission by the Southern California APCD of the following rules, which were previously approved in the May 31, 1972 (37 FR 10850) and September 22, 1972 (37 FR 19813) FEDERAL REGISTER issues, is disapproved since adequate replacement rules have not been submitted and no analysis has been presented to show that this rescission will not interfere with the attainment and maintenance of the NAAQS for particulate matter as required by section 110 of the Clean Air Act. In addition, the following rules, as submitted in June 1972 and approved for the SIP, remain federally enforceable:

(1) Los Angeles County APCD.

(i) Regulation IV, Rule 52 Particulate Matter—Concentration.

(ii) Regulation IV, Rule 58 Disposal of Solid and Liquid Wastes.

(2) San Bernardino County APCD.

(i) Regulation IV, Rule 52A Particulate Matter—Concentration.

(ii) Regulation IV, Rule 58A Disposal of Solid and Liquid Wastes.

(3) Riverside County APCD.

(i) Regulation IV, Rule 52 Particulate Matter—Concentration.

(ii) Regulation IV, Rule 58 Disposal of Solid and Liquid Wastes.

(4) Orange County APCD.

(i) Regulation IV, Rule 52 Particulate Matter—Concentration.

(ii) Regulation IV, Rule 58 Disposal of Solid and Liquid Wastes.

[37 FR 10850, May 31, 1972, as amended at 37 FR 19813, Sept. 22, 1972; 43 FR 25687, June 14, 1978; 49 FR 18824, May 3, 1984; 51 FR 40676, Nov. 7, 1986]

§ 52.228 Regulations: Particulate matter, Southeast Desert Intrastate Region.

(a) The following regulations are disapproved since they are not part of the approved control strategy and do not provide for the degree of control needed for the attainment and maintenance of the national standards for particulate matter in the Southeast Desert Intrastate Region.

(1) Imperial County Air Pollution Control District:

(i) Rule 114A.

(ii) Rule 116B.

(2) Los Angeles County Air Pollution Control District:

(i) Regulation IV, Rule 68.1.

(3) Riverside County Air Pollution Control District:

(i) Regulation IV, Rule 54 for process sources with a process weight rate in excess of 160,000 lbs. per hour. Rule 54 is approved for process sources with a process weight of 160,000 lbs. per hour or less.

(b) The following regulatory changes represent a relaxation of previously submitted regulations, and an adequate control strategy has not been submitted showing that the relaxation will not interfere with the attainment and maintenance of the national ambient air quality standards for particulate matter:

(1) Southeast Desert Intrastate Region:

(i) Imperial County APCD.

(A) Rule 406, Disposal of Solid and Liquid Wastes submitted on November 4, 1977 is disapproved; and Rule 116 C, Specific Contaminants submitted on June 30, 1972 and previously approved under 40 CFR 52.223 is retained.

(ii) Los Angeles County Air Pollution Control District.

(A) Regulation IV, Rule 404 Particulate Matter-Concentration, and Rule 473, Disposal of Solid and Liquid Wastes, submitted on June 6, 1977 are disapproved. Rules 52 and 58, titled as above, respectively, and submitted on June 30, 1972 and previously approved under 40 CFR 52.223 are retained.

(iii) Riverside County Air Pollution Control District.

(A) Regulation IV, Rules 404 Particulate Matter-Concentration, 405 Particulate Matter-Weight, and Rule 473, Disposal of Solid and Liquid Wastes, submitted on June 6, 1977 are disapproved. Rules 52, Particulate Matter-Weight, 54, Dust and Fumes, and 58, Disposal of Solid and Liquid Wastes, submitted in 1972 and approved under 40 CFR 52.223, are retained.

[37 FR 10850, May 31, 1972, as amended at 37 FR 19813, Sept. 22, 1972; 43 FR 35695, Aug. 11, 1978; 43 FR 40014, Sept. 8, 1978; 64 FR 49400, Sept. 13, 1999]

§ 52.229 Control strategy and regulations: Photochemical oxidants (hydrocarbons), Metropolitan Los Angeles Intrastate Region.

(a) [Reserved]

(b) The following rules are disapproved because they would result in a relaxation of control requirements contained in the presently approved State Implementation Plan, and no analysis has been presented to show that this relaxation will not interfere with the attainment and maintenance of NAAQS for photochemical oxidants (hydrocarbons) as required by section 110 of the Clean Air Act.

(1) Southern California APCD.

(i) Regulation IV, Rule 465 Vacuum Producing Devices or Systems, submitted on August 2, 1976.

(2) South Coast Air Quality Management District.

(i) Regulation IV, Rule 461 Gasoline Transfer and Dispensing, submitted on June 6, 1977. The version of this rule by the same number and title submitted on April 21, 1976 and approved under 40 CFR 52.223 is retained.

(ii) Rule 1115, Automotive Coatings, adopted on March 16, 1984 by the District and submitted by the state to EPA on July 10, 1984.

(iii) Rule 1113, Architectural Coatings, adopted on August 2, 1985 and submitted to EPA on November 12, 1985. The version of this rule by the same number and title submitted on July 10, 1984 and approved by EPA on January 24, 1985 is retained.

(c) The rescission by the Southern California APCD of the following rules, which were previously approved in the September 22, 1972 (37 FR 19813) FEDERAL REGISTER issue, is disapproved since adequate replacement rules have not been submitted and no analysis has been presented to show that this rescission will not interfere with the attainment and maintenance of the NAAQS for photochemical oxidants (hydrocarbons) as required by section 110 of the Clean Air Act. In addition, the following rules, as submitted in June 1972 and approved for the SIP, remain federally enforceable:

(1) Los Angeles County APCD, Regulation IV, Rule 69, Vacuum Producing Devices or Systems.

(2) San Bernardino County APCD, Regulation IV, Rule 69, Vacuum Producing Devices or Systems.

(3) Riverside County APCD, Regulation IV, Rule 74, Vacuum Producing Devices or Systems.

(4) Orange County APCD, Regulation IV, Rule 69, Vacuum Producing Devices or Systems.

[37 FR 10850, May 31, 1972, as amended at 43 FR 25687, June 14, 1978; 43 FR 40014, Sept. 8, 1978; 46 FR 5978, Jan. 21, 1981; 54 FR 5237, Feb. 2, 1989; 54 FR 34515, Aug. 21, 1989]

§ 52.230 Control strategy and regulations: Nitrogen dioxide.

(a) The requirements of § 52.14(c)(3) of this chapter as of September 22, 1972 (47 FR 1983), are not met since the plan does not provide for the degree of nitrogen oxides emission reduction attainable through application of reasonably available control technology in the Metropolitan Los Angeles Intrastate Region. Therefore, Rule 68.b of the Orange County Air Pollution Control District is disapproved.

(b) The following rules are disapproved since they are not part of the approved control strategy and do not provide for the degree of control necessary for the attainment and maintenance of NAAQS for nitrogen dioxide in the Metropolitan Los Angeles Intrastate AQCR:

(1) Orange County APCD, Regulation IV, Rule 474, Fuel Burning Equipment—Oxides of Nitrogen, submitted on February 10, 1977.

(c) The rescission by the Southern California APCD of the following rules is disapproved since adequate replacement rules have not been submitted and no analysis has been presented to show that this rescission will not interfere with the attainment and maintenance of the National Ambient Air Quality Standards as required by section 110 of the Clean Air Act. In addition, the following rules, as submitted in June 1972 and approved for the SIP, remain federally enforceable:

(1) Orange County APCD, Regulation IV, Rule 68, Fuel Burning Equipment—NOx.

(2) Orange County APCD, Regulation IV, Rule 67.1, Fuel Burning Equipment.
