

determine what measures are necessary to minimize the likelihood of further prohibited take and ensure MMPA compliance. UCSC/PISCO may not resume the activities until notified by NMFS via letter, email, or telephone.

(c) *Notification of dead or injured marine mammals.* (1) In the event that UCSC/PISCO discovers an injured or dead marine mammal and determines that the cause of the injury or death is unknown and the death is relatively recent (*e.g.*, in less than a moderate state of decomposition), UCSC/PISCO shall immediately report the incident to the Office of Protected Resources, NMFS, and the West Coast Regional Stranding Coordinator, NMFS. The report must include the information identified in paragraph (b)(1) of this section. Activities may continue while NMFS reviews the circumstances of the incident. NMFS will work with UCSC/PISCO to determine whether additional mitigation measures or modifications to the activities are appropriate.

(2) In the event that an injured or dead marine mammal is discovered and it is determined that the injury or death is not associated with or related to the activities authorized in this subpart and LOA (*e.g.*, previously wounded animal, carcass with moderate to advanced decomposition, or scavenger damage), UCSC/PISCO shall report the incident to the Office of Protected Resources, NMFS, and the West Coast Regional Stranding Coordinator, NMFS, within 24 hours of the discovery. UCSC/PISCO shall provide photographs, video footage (if available), or other documentation of the stranded animal sighting to NMFS and the Marine Mammal Stranding Network. Activities may continue while NMFS reviews the circumstances of the incident.

(d) *Annual report.* (1) A draft annual report shall be submitted to NMFS Office of Protected Resources within 90 days after the conclusion of each annual field season. The final annual report after year five may be included as part of the final report (see paragraph (e) of this section). The report must include a summary of the information gathered pursuant to the monitoring requirements set forth in paragraph (a) of this section and in the LOA.

(2) A final annual report shall be submitted to the Director of the NMFS Office of Protected Resources within 30 days after receiving comments from NMFS on the draft annual report. If no comments are received from NMFS, the draft annual report will be considered the final report.

(e) *Final report.* A draft final report shall be submitted to NMFS Office of Protected Resources within 60 days after the conclusion of the fifth year. A final report shall be submitted to the Director of the NMFS Office of Protected Resources and to the NMFS West Coast Regional Administrator within 30 days after receiving comments from NMFS on the draft final report. If no comments are received from NMFS, the draft final report will be considered the final report.

#### §217.106 Letters of Authorization.

(a) To incidentally take marine mammals pursuant to this subpart, UCSC/PISCO must apply for and obtain an LOA.

(b) An LOA, unless suspended or revoked, may be effective for a period of time not to exceed the expiration date of this subpart.

(c) If an LOA expires prior to the expiration date of this subpart, UCSC/PISCO may apply for and obtain a renewal of the LOA.

(d) In the event of projected changes to the activity or to mitigation and monitoring measures required by an LOA, UCSC/PISCO must apply for and obtain a modification of the LOA as described in §217.107.

(e) The LOA shall set forth:

(1) Permissible methods and numbers of incidental taking;

(2) Means of effecting the least practicable adverse impact (*i.e.*, mitigation) on the species, its habitat, and on the availability of the species for subsistence uses; and

(3) Requirements for monitoring and reporting.

(f) Issuance of the LOA shall be based on a determination that the level of taking will be consistent with the findings made for the total taking allowable under this subpart.

(g) Notice of issuance or denial of an LOA shall be published in the FEDERAL

REGISTER within 30 days of a determination.

**§ 217.107 Renewals and modifications of Letters of Authorization.**

(a) An LOA issued under §§ 216.106 of this chapter and 217.106 for the activity identified in § 217.100(a) shall be renewed or modified upon request by the applicant, provided that:

(1) The proposed specified activity and mitigation, monitoring, and reporting measures, as well as the anticipated impacts, are the same as those described and analyzed for this subpart (excluding changes made pursuant to the adaptive management provision in paragraph (c)(1) of this section); and

(2) NMFS' Office of Protected Resources determines that the mitigation, monitoring, and reporting measures required by the previous LOA under this subpart were implemented.

(b) For an LOA modification or renewal requests by the applicant that include changes to the activity or the mitigation, monitoring, or reporting (excluding changes made pursuant to the adaptive management provision in paragraph (c)(1) of this section) that do not change the findings made for this subpart or result in no more than a minor change in the total estimated number of takes (or distribution by species or years), NMFS' Office of Protected Resources may publish a notice of proposed LOA in the FEDERAL REGISTER, including the associated analysis of the change, and solicit public comment before issuing the LOA.

(c) An LOA issued under §§ 216.106 of this chapter and 217.106 for the activity identified in § 217.100(a) may be modified by NMFS' Office of Protected Resources under the following circumstances:

(1) *Adaptive management.* NMFS' Office of Protected Resources may modify (including augment) the existing mitigation, monitoring, or reporting measures (after consulting with UCSC/PISCO regarding the practicability of the modifications) if doing so creates a reasonable likelihood of more effectively accomplishing the goals of the mitigation and monitoring set forth in this subpart.

(i) Possible sources of data that could contribute to the decision to modify

the mitigation, monitoring, or reporting measures in an LOA:

(A) Results from UCSC/PISCO's monitoring from the previous year(s).

(B) Results from other marine mammal and/or sound research or studies.

(C) Any information that reveals marine mammals may have been taken in a manner, extent, or number not authorized by this subpart or subsequent LOAs.

(ii) If, through adaptive management, the modifications to the mitigation, monitoring, or reporting measures are substantial, NMFS' Office of Protected Resources will publish a notice of proposed LOA in the FEDERAL REGISTER and solicit public comment.

(2) *Emergencies.* If NMFS' Office of Protected Resources determines that an emergency exists that poses a significant risk to the well-being of the species or stocks of marine mammals specified in LOAs issued pursuant to §§ 216.106 of this chapter and 217.106, an LOA may be modified without prior notice or opportunity for public comment. Notice would be published in the FEDERAL REGISTER within thirty days of the action.

§§ 217.108–217.109 [Reserved]

**Subpart L—Taking Marine Mammals Incidental to Conducting Precision Strike Weapon and Air-to-Surface Gunnery Missions at Eglin Gulf Test and Training Range (EGTR) in the Gulf of Mexico**

SOURCE: 79 FR 13588, Mar. 11, 2014, unless otherwise noted.

**§ 217.110 Specified activity and specified geographical region.**

(a) Regulations in this subpart apply only to the U.S. Air Force for the incidental taking of marine mammals that occurs in the area outlined in paragraph (b) of this section and that occur incidental to the activities described in paragraph (c) of this section.

(b) The taking of marine mammals by the Air Force is only authorized if it occurs within the Eglin Air Force Base Gulf Test and Training Range (as depicted in Figure 1–9 of the Air Force's
