

Fishery Conservation and Management

§ 600.518

of fishing operations subjects the fishing vessel operator to enforcement action under the International Convention for the Protection of Submarine Cables, and to the criminal penalties prescribed by the Submarine Cable Act (47 U.S.C. 21) and other laws that implement that Convention. Fishing vessel operators also should be aware that the Submarine Cable Act prohibits fishing operations at a distance of less than 1 nautical mile (1.85 km) from a vessel engaged in laying or repairing a submarine cable; or at a distance of less than 0.25 nautical mile (0.46 km) from a buoy or buoys intended to mark the position of a cable when being laid, or when out of order, or broken.

§ 600.515 Interpretation of 16 U.S.C. 1857(4).

Section 307(4) of the Magnuson-Stevens Act prohibits any fishing vessel other than a vessel of the United States (foreign fishing vessel) from operating in the EEZ if all of the fishing gear on board the vessel is not stowed in compliance with that section “unless such vessel is authorized to engage in fishing in the area in which the vessel is operating.” If such a vessel has a permit authorization that is limited to fishing activities other than catching, taking or harvesting (such as support, scouting or processing activities), it must have all of its fishing gear stowed at all times while it is in the EEZ. If such a vessel has a permit authorization to engage in catching, taking or harvesting activities, but such authorization is limited to a specific area within the EEZ, and/or to a specific period of time, the vessel must have all of its fishing gear stowed while it is in the EEZ, except when it is in the specific area authorized, and/or during the specific period of time authorized.

[61 FR 32540, June 24, 1996, as amended at 63 FR 7075, Feb. 12, 1998]

§ 600.516 Total allowable level of foreign fishing (TALFF).

(a) The TALFF, if any, with respect to any fishery subject to the exclusive fishery management authority of the United States, is that portion of the OY of such fishery, which cannot or will not be harvested by vessels of the United States. Allocations of TALFF

are discretionary, except that the total allowable level shall be zero for fisheries determined by the Secretary to have adequate or excess domestic harvest capacity.

(b) Each specification of OY and each assessment of the anticipated U.S. harvest will be reviewed during each fishing season. Adjustments to TALFF's will be made based on updated information relating to status of stocks, estimated and actual performance of domestic and foreign fleets, and other relevant factors.

(c) Specifications of OY and the initial estimates of U.S. harvests and TALFF's at the beginning of the relevant fishing year will be published in the FEDERAL REGISTER. Adjustments to those numbers will be published in the FEDERAL REGISTER upon occasion or as directed by regulations implementing FMPs. For current apportionments, contact the appropriate Regional Administrator or the Director.

[61 FR 32540, June 24, 1996, as amended at 63 FR 7075, Feb. 12, 1998; 73 FR 67811, Nov. 17, 2008]

§ 600.517 Allocations.

The Secretary of State, in cooperation with the Secretary, determines the allocation among foreign nations of fish species and species groups. The Secretary of State officially notifies each foreign nation of its allocation. The burden of ascertaining and accurately transmitting current allocations and status of harvest of an applicable allocation to fishing vessels is upon the foreign nation and the owner or operator of the FFV.

§ 600.518 Fee schedule for foreign fishing.

(a) *Permit application fees.* Each vessel permit application submitted under § 600.501 must be accompanied by a fee. The amount of the fee will be determined in accordance with the procedures for determining administrative costs of each special product or service contained in the NOAA Finance Handbook, which is available upon request from the Office of International Affairs (see address at § 600.501(d)(1)). The fee is specified with the application form. At the time the application is submitted, a check for the fees, drawn on a U.S.

bank, payable to the order of “Department of Commerce, NOAA,” must be sent to the Assistant Administrator. The permit fee payment must be accompanied by a list of the vessels for which the payment is made. In the case of applications for permits authorizing activity code 10, the permit application fee will be waived if the applicant provides satisfactory documentary proof to the Assistant Administrator that the foreign nation under which the vessel is registered does not collect a fee from a vessel of the United States engaged in similar activities in the waters of such foreign nation. The documentation presented (e.g., copy of foreign fishing regulations applicable to vessels of the United States) must clearly exempt vessels of the United States from such a fee.

(b) *Poundage fees*—(1) *Rates*. If a Nation chooses to accept an allocation, poundage fees must be paid at the rate specified in the following table.

TABLE—SPECIES AND POUNDAGE FEES
[Dollars per metric ton]

Species	Poundage fees
Northwest Atlantic Ocean fisheries:	
1. Butterfish	277.96
2. Herring, Atlantic	25.75
3. Herring, River	49.59
4. Mackerel, Atlantic	64.76
5. Other finfish	45.48
6. Squid, <i>Illex</i>	97.56
7. Squid, <i>Loligo</i>	321.68

(2) *Method of payment of poundage fees and observer fees*. (i) If a Nation chooses to accept an allocation, a revolving letter of credit (L/C) must be established and maintained to cover the poundage fees for at least 25 percent of the previous year’s total allocation at the rate in paragraph (b)(1) of this section, or as determined by the Assistant Administrator, plus the observer fees required by paragraph (c) of this section. The L/C must—

- (A) Be irrevocable.
 - (B) Be with a bank subscribing to ICC Pub. 290.
 - (C) Designate “Department of Commerce, NOAA” as beneficiary;
 - (D) Allow partial withdrawals.
 - (E) Be confirmed by a U.S. bank.
- (ii) The customer must pay all commissions, transmission, and service

charges. No fishing will be allowed until the L/C is established, and authorized written notice of its issuance is provided to the Assistant Administrator.

(3) *Assessment of poundage fees*. Poundage fees will be assessed quarterly for the actual catch during January through March, April through June, July through September, and October through December. The appropriate Regional Administrator will reconcile catch figures with each country following the procedures of § 600.511(d). When the catch figures are agreed upon, NOAA will present a bill for collection as the documentary demand for payment to the confirming bank. If, after 45 days from the end of the quarter, catches have not been reconciled, the estimate of the Regional Administrator will stand and a bill will be issued for that amount. If necessary, the catch figures may be refined by the Regional Administrator during the next 60 days, and any modifications will be reflected in the next quarter’s bill.

(c) *Observer fees*. The Assistant Administrator will notify the owners or operators of FFV’s of the estimated annual costs of placing observers aboard their vessels. The owners or operators of any such vessel must provide for repayment of those costs by including one-fourth of the estimated annual observer fee as determined by the Assistant Administrator in a L/C as prescribed in § 600.518(b)(2). During the fiscal year, payment will be withdrawn from the L/C as required to cover anticipated observer coverage for the upcoming fishery. The Assistant Administrator will reconcile any differences between the estimated cost and actual costs of observer coverage within 90 days after the end of the fiscal year.

(d) *Financial assurances*. (1) A foreign nation, or the owners and operators of certain vessels of that foreign nation, may be required by the Assistant Administrator to provide financial assurances. Such assurances may be required if—

- (i) Civil and criminal penalties assessed against fishing vessels of the Nation have not effectively deterred violations;

Fishery Conservation and Management

§ 600.520

(ii) Vessels of that Nation have engaged in fishing in the EEZ without proper authorization to conduct such activities;

(iii) The Nation's vessel owners have refused to answer administrative charges or summons to appear in court; or

(iv) Enforcement of Magnuson-Stevens Act civil or criminal judgments in the courts of a foreign nation is unattainable.

(2) The level of financial assurances will be guided by the level of penalties assessed and costs to the U.S. Government.

[61 FR 32540, June 24, 1996, as amended at 63 FR 7075, Feb. 12, 1998; 64 FR 39020, July 21, 1999; 66 FR 28132, May 22, 2001; 76 FR 59305, Sept. 26, 2011]

§ 600.520 Northwest Atlantic Ocean fishery.

(a) *Purpose.* Sections 600.520 and 600.525 regulate all foreign fishing conducted under a GIFA within the EEZ in the Atlantic Ocean north of 35°00' N. lat.

(b) *Authorized fishery—(1) Allocations.* Foreign vessels may engage in fishing only in accordance with applicable national allocations.

(2) *Time and area restrictions.* (i) Fishing, including processing, scouting, and support of foreign or U.S. vessels, is prohibited south of 35°00' N. lat., and north and east of a line beginning at the shore at 44°22' N. lat., 67°52' W. long. and intersecting the boundary of the EEZ at 44°11'12" N. lat., 67°16'46" W. long.

(ii) The Regional Administrator will consult with the Council prior to giving notice of any area or time restriction. NMFS will also consult with the USCG if the restriction is proposed to reduce gear conflicts. If NMFS determines after such consultation that the restriction appears to be appropriate, NMFS will publish the proposed restriction in the FEDERAL REGISTER, together with a summary of the information on which the restriction is based. Following a 30-day comment period, NMFS will publish a final action.

(iii) The Regional Administrator may rescind any restriction if he/she determines that the basis for the restriction no longer exists.

(iv) Any notice of restriction shall operate as a condition imposed on the permit issued to the foreign vessels involved in the fishery.

(3) *TALFF.* The TALFFs for the fisheries of the Northwest Atlantic Ocean are published in the FEDERAL REGISTER. Current TALFFs are also available from the Regional Administrator.

(4) *Species definitions.* The category "other finfish" used in TALFFs and in allocations includes all species except:

(i) The other allocated species, namely: Short-finned squid, long-finned squid, Atlantic herring, Atlantic mackerel, river herring (includes alewife, blueback herring, and hickory shad), and butterfish.

(ii) The prohibited species, namely: American plaice, American shad, Atlantic cod, Atlantic menhaden, Atlantic redfish, Atlantic salmon, all marlin, all spearfish, sailfish, swordfish, black sea bass, bluefish, croaker, haddock, ocean pout, pollock, red hake, scup, sea turtles, sharks (except dogfish), silver hake, spot, striped bass, summer flounder, tilefish, yellowtail flounder, weakfish, white hake, windowpane flounder, winter flounder, witch flounder, Continental Shelf fishery resources, and other invertebrates (except nonallocated squids).

(5) *Closures.* The taking of any species for which a Nation has an allocation is permitted, provided that:

(i) The vessels of the foreign nation have not caught the allocation of that Nation for any species or species group (e.g., "other finfish"). When vessels of a foreign nation have caught an applicable allocation of any species, all further fishing other than scouting, processing, or support by vessels of that Nation must cease, even if other allocations have not been reached. Therefore, it is essential that foreign nations plan their fishing strategy to ensure that the reaching of an allocation for one species does not result in the premature closing of a Nation's fishery for other allocated species.

(ii) The fishery has not been closed for other reasons under § 600.511.

(6) *Allocation utilization.* Foreign fishing vessels may elect to retain or discard allocated species; however, the computation of allocation utilization and fee refunds will be based on the
