

§ 1717.600

Subpart M—Operational Controls

SOURCE: 60 FR 67405, Dec. 29, 1995, unless otherwise noted.

§ 1717.600 General.

(a) *General.* The loan contract and mortgage between the Rural Utilities Service (RUS) and electric borrowers imposes certain restrictions and controls on the borrowers and gives RUS (and other co-mortgagees in the case of the mortgage) the right to approve or disapprove certain actions contemplated by the borrowers. Certain of these controls and approval rights are referred to informally as "operational controls" because they pertain to decisions or actions with respect to the operation of the borrowers' electric systems. The approval authority granted to RUS by the loan contract or mortgage regarding each decision or action subject to controls is often stated in broad, unlimited terms. This subpart lists the main operational controls affecting borrowers and establishes for each area of control the circumstances under which RUS approval of a decision or action by a borrower is either required or not required. In some cases, only the general principles or general circumstances pertaining to RUS approval or control are presented in this subpart, while the details regarding the circumstances and requirements of RUS approval or control are set forth in other RUS regulations. Since this subpart addresses only the main operational controls, failure to address a control or approval right in this subpart in no way invalidates such controls or rights established by the loan contract, mortgage, other agreements between a borrower and RUS, and RUS regulations.

(b) *Case by case amendments.* Upon written notice to a borrower, RUS may amend or annul the approvals and exceptions to controls set forth in this subpart or other RUS regulations if the borrower is in violation of any provision of its loan documents or any other agreement with RUS, or if RUS determines that loan security and/or repayment is threatened. Such amendment or annulment will apply to decisions and actions of the borrower after said

7 CFR Ch. XVII (1-1-20 Edition)

written notice has been provided by RUS.

(c) *Generic notices.* By written notice to all borrowers or a group of borrowers, RUS may grant or waive approval of decisions and actions by the borrowers that are controlled under the loan documents and RUS regulations. RUS may also by written notice withdraw or cut back its grant or waiver of approval of said decisions and actions made by previous written notice, but may not by such notice extend its authority to approve decisions and actions by borrowers beyond the authority granted by the loan documents and RUS regulations.

§ 1717.601 Applicability.

(a) The approvals and exceptions to controls conveyed by this subpart apply only to controls and approval rights normally included in RUS loan documents dated prior to January 29, 1996. They do not apply to special controls and approval requirements included in loan documents or other agreements executed between a borrower and RUS that relate to individual problems or circumstances specific to an individual borrower.

(b) The approvals and exceptions to controls granted by RUS in this subpart shall not in any way affect the rights of other co-mortgagees under the mortgage or their loan contracts.

§ 1717.602 Definitions.

Terms used in this subpart that are not defined in this section have the meanings set forth in 7 CFR part 1710. In addition, for the purposes of this subpart:

Default means an event of default as defined in the borrower's loan documents or other agreement with RUS, and furthermore includes any event that has occurred and is continuing which, with notice or lapse of time and notice, would become an event of default.

Equity means the borrower's total margins and equities computed pursuant to RUS accounting requirements but excluding any regulatory created assets.

Financed or funded by RUS means financed or funded wholly or in part by

a loan made or guaranteed by RUS, including concurrent supplemental loans required by 7 CFR 1710.110, loans to reimburse funds already expended by the borrower, and loans to replace interim financing.

Interchange agreement means a contractual arrangement that can include a variety of services utilities provide each other to increase reliability and efficiency, and to avoid duplicating expenses. Some examples are: transmission service (the use of transmission lines to move power and energy from one area to another); emergency service (an agreement by one utility to furnish another with power and energy to protect it in times of emergency, such as power plant outages); reserve sharing (contributions to a common pool of generating plant reserves so that each individual utility's reserves can be reduced); and economic exchanges (swapping power and energy from different plants to avoid running the most expensive units).

Interconnection agreement means a contract governing the terms for establishing or using one or more electrical connections between two or more electric systems permitting a flow of power and energy among the systems.

Loan documents means the mortgage (or other security instrument acceptable to RUS), the loan contract, and the promissory note entered into between the borrower and RUS.

Net utility plant means the amount constituting the total utility plant of the borrower, less depreciation, computed in accordance with RUS accounting requirements.

Pooling agreement means a contract among two or more interconnected electric systems to operate on a coordinated basis to achieve economies and/or enhance reliability in supplying their respective loads.

Power supply contract means any contract entered into by a borrower for the sale or purchase, at wholesale, of electric energy.

Regulatory created assets means the sum of any amounts properly recordable as unrecovered plant and regulatory study costs or as other regulatory assets, computed pursuant to RUS accounting requirements.

RUS accounting requirements means the system of accounts prescribed for electric borrowers by RUS regulations as such RUS accounting requirements exist at the date of applicability thereof.

RUS regulations mean regulations of general applicability published by RUS from time to time as they exist at the date of applicability thereof, and shall also include any regulations of other federal entities which RUS is required by law to implement.

Total assets means an amount constituting the total assets of the borrower as computed pursuant to RUS accounting requirements, but excluding any regulatory created assets.

Wheeling agreement means a contract providing for the use of the electric transmission facilities of one electric utility to transmit power and energy of another electric utility or other entity to a third party. Such transmission may be accomplished directly or by displacement.

§ 1717.603 RUS approval of extensions and additions.

(a) *Distribution borrowers.* Prior written approval by RUS is required for a distribution borrower to extend or add to its electric system if the extension or addition will be financed by RUS. For extensions and additions that will not be financed by RUS, approval is hereby given to distribution borrowers to make such extensions and additions to their electric systems, including the use of (or commitment to use) general funds of the borrower, except for the following:

(1) Construction, procurement, or leasing of generating facilities if the combined capacity of the facilities to be built, procured, or leased, including any future facilities included in the planned project, will exceed the lesser of 5 megawatts or 30 percent of the borrower's equity;

(2) Acquisition or leasing of existing electric facilities or systems in service whose purchase price, or capitalized value in the case of a lease, exceeds 10 percent of the borrower's net utility plant; and

(3) Construction, procurement, or leasing of electric facilities to serve a customer whose annual kWh purchases

§ 1717.604

or maximum annual kW demand in the foreseeable future is projected to exceed 25 percent of the borrower's total kWh sales or maximum kW demand in the year immediately preceding the acquisition or start of construction.

(b) *Power supply borrowers.* Prior written approval by RUS is required for a power supply borrower to extend or add to its electric system if the extension or addition will be financed by RUS. Requirements for RUS approval of extensions and additions that will not be financed by RUS are set forth in other RUS regulations.

(c) *Additional details.* Additional details relating to RUS approval of extensions and additions of a borrower's electric system financed by RUS are set forth in other RUS regulations, e.g., in 7 CFR parts 1710 and 1726.

§ 1717.604 Long-range engineering plans and construction work plans.

(a) All borrowers are required to maintain up-to-date long-range engineering plans and construction work plans (CWP) in form and substance as set forth in 7 CFR part 1710, subpart F.

(b) Applications for financing from RUS must be supported by a long-range engineering plan and CWP approved by RUS.

(c) RUS approval is not required for long-range engineering plans and CWP if the borrower does not intend to seek RUS financing for any of the facilities, equipment or other purposes included in those plans. However, if requested by RUS, a borrower must provide an informational copy of such plans to RUS.

§ 1717.605 Design standards, plans and specifications, construction standards, and RUS accepted materials.

All borrowers, regardless of the source of funding, are required to comply with applicable RUS requirements with respect to system design, construction standards, and the use of RUS accepted materials. Borrowers must comply with applicable RUS requirements with respect to plans and specifications only if the construction or procurement will be financed by RUS. These requirements are set forth in other RUS regulations, especially in 7 CFR parts 1724 and 1728.

7 CFR Ch. XVII (1-1-20 Edition)

§ 1717.606 Standard forms of construction contracts, and engineering and architectural services contracts.

All borrowers are encouraged to use the standard forms of contracts promulgated by RUS for construction, materials, equipment, engineering services, and architectural services, regardless of the source of funding for such construction and services. Borrowers are required to use these standard forms of contracts only if the construction, procurement or services are financed by RUS, and only to the extent required by RUS regulations. RUS requirements with respect to such standard forms of contract are set forth in 7 CFR part 1724 for architectural and engineering services, and in 7 CFR part 1726 for construction, materials, and equipment.

§ 1717.607 Contract bidding requirements.

Borrowers must follow RUS requirements regarding bidding for contracts for construction, materials, and equipment only if financing of the construction or procurement will be provided by RUS. These requirements are set forth in 7 CFR part 1726.

§ 1717.608 RUS approval of contracts.

(a) *Construction contracts and architectural and engineering contracts.* RUS approval of contracts for construction and procurement and for architectural and engineering services is required only when such construction, procurement or services are financed by RUS. Detailed requirements regarding RUS approval of such contracts are set forth in 7 CFR part 1724 for architectural and engineering services, and in 7 CFR part 1726 for construction and procurement.

(b) *Large retail power contracts.* RUS approval of contracts to sell electric power to retail customers is required only if the contract is for longer than 2 years and the kWh sales or kW demand for any year covered by the contract exceeds 25 percent of the borrower's total kWh sales or maximum kW demand for the year immediately preceding execution of the contract. This requirement applies regardless of the source of funding of any plant extensions, additions or improvements

Rural Utilities Service, USDA**§ 1717.612**

that may be involved in connection with the contract.

(c) *Power supply arrangements.* (1) Power supply contracts (including but not limited to economy energy sales and emergency power and energy sales), interconnection agreements, interchange agreements, wheeling agreements, pooling agreements, and any other similar power supply arrangements subject to approval by RUS are deemed approved if they have a term of 2 years or less. Amendments to said power supply arrangements are also deemed approved provided that the amendment does not extend the term of the arrangement for more than 2 years beyond the date of the amendment.

(2) Any amendment to a schedule or exhibit contained in any power supply arrangement subject to RUS approval, which merely has the effect of either altering a list of interconnection or delivery points or changing the value of a variable term (but not the formula itself) contained in a formulary rate or charge is deemed approved.

(3) The provisions of this paragraph (c) apply regardless of whether the borrower is a seller or purchaser of the services furnished by the contracts or arrangements, and regardless of whether or not a Federal power marketing agency is a party to any of them.

(d) *System management and maintenance contracts.* RUS approval of contracts for the management and operation of a borrower's electric system or for the maintenance of the electric system is required only if such contracts cover all or substantially all of the electric system.

(e) *Other contracts.* [Reserved]

§ 1717.609 RUS approval of general manager.

(a) If a borrower's mortgage or loan contract grants RUS the unconditioned right to approve the employment and/or the employment contract of the general manager of the borrower's system, such approval is hereby granted provided that the borrower is in compliance with all provisions of its loan documents and any other agreements with RUS.

(b) If a borrower is in default with respect to any provision of its loan docu-

ments or any other agreement with RUS:

(1) Such borrower, if directed in writing by RUS, shall replace its general manager within 30 days after the date of such written notice; and

(2) Such borrower shall not hire a general manager without prior written approval by RUS.

§ 1717.610 RUS approval of compensation of the board of directors.

If a borrower's mortgage or loan contract requires the borrower to obtain approval from RUS for compensation provided to members of the borrower's board of directors, such requirement is hereby waived.

§ 1717.611 RUS approval of expenditures for legal, accounting, engineering, and supervisory services.

(a) If a borrower's mortgage or loan contract requires the borrower to obtain approval from RUS before incurring expenses for legal, accounting, supervisory (other than for the management and operation of the borrower's electric system, see § 1717.608(d)), or other similar services, such approval is hereby granted. However, while expenditures for accounting do not require RUS approval, the selection of a certified public accountant by the borrower to prepare audited reports required by RUS remains subject to RUS approval.

(b) If a borrower's mortgage or loan contract requires the borrower to obtain approval from RUS before incurring expenses for engineering services, such approval is hereby granted if such services will not be financed by RUS. Approval requirements with respect to engineering services financed by RUS are set forth in other RUS regulations.

§ 1717.612 RUS approval of borrower's bank or other depository.

If a borrower's mortgage or loan contract gives RUS the authority to approve the bank or other depositories used by the borrower, such approval is hereby granted. However, without the prior written approval of RUS, a borrower shall not deposit funds from loans made or guaranteed by RUS in any bank or other depository that is

§ 1717.613

not insured by the Federal Deposit Insurance Corporation or other Federal agency acceptable to RUS, or in any account not so insured.

§ 1717.613 RUS approval of data processing and system control equipment.

If a borrower's mortgage or loan contract requires the borrower to obtain approval from RUS before purchasing data processing equipment or system control equipment, such approval is hereby granted if the equipment will not be financed by RUS.

§ 1717.614 Notification of rate changes.

If a distribution borrower is required by its loan documents to notify RUS in writing of proposed changes in electric rates more than 30 days prior to the effective date of such rates, the required notification period shall be 30 days. Moreover, such notification shall be required only upon the request of RUS.

§ 1717.615 Consolidations and mergers.

A distribution or power supply borrower may without the prior approval of RUS, consolidate or merge with any other corporation or convey or transfer the mortgaged property substantially as an entirety if the following conditions are met:

(a) Such consolidation, merger, conveyance or transfer shall be on such terms as shall fully preserve the lien and security of the RUS mortgage and the rights and powers of the mortgagees;

(b) The entity formed by such consolidation or with which the borrower is merged or the corporation which acquires by conveyance or transfer the mortgaged property substantially as an entirety shall execute and deliver to the mortgagees a mortgage supplemental in recordable form and containing an assumption by such successor entity of the due and punctual payment of the principal of and interest on all of the outstanding notes and the performance and observance of every covenant and condition of the mortgage;

(c) Immediately after giving effect to such transaction, no default under the mortgage shall have occurred and be continuing;

7 CFR Ch. XVII (1-1-20 Edition)

(d) The borrower shall have delivered to the mortgagees a certificate of its general manager or other officer, in form and substance satisfactory to each of the mortgagees, which shall state that such consolidation, merger, conveyance or transfer and such supplemental mortgage comply with this section and that all conditions precedent herein provided for relating to such transaction have been complied with;

(e) The borrower shall have delivered to the mortgagees an opinion of counsel in form and substance satisfactory to each of the mortgagees; and

(f) The entity formed by such consolidation or with which the borrower is merged or the corporation which acquires by conveyance or transfer the mortgaged property substantially as an entirety shall be an entity having:

(1) Equity equal to at least 27% of its total assets on a pro forma basis after giving effect to such transaction;

(2) A pro forma TIER of not less than 1.25 and a pro forma DSC of not less than 1.25 for each of the two preceding calendar years;

(3) Net utility plant equal to or greater than 1.0 times its total long-term debt on a pro forma basis.

[60 FR 67405, Dec. 29, 1995, as amended at 65 FR 51748, Aug. 25, 2000; 67 FR 70153, Nov. 21, 2002]

§ 1717.616 Sale, lease, or transfer of capital assets.

A distribution borrower may without the prior approval of RUS sell, lease, or transfer any capital asset if the following conditions are met:

(a) The borrower is not in default;

(b) In the most recent year for which data are available, the borrower achieved a TIER of at least 1.25, DSC of at least 1.25, OTIER of at least 1.1, and ODSC of at least 1.1 in each case based on the average or the best 2 out of the 3 most recent years;

(c) The sale, lease, or transfer of assets will not reduce the borrower's existing or future requirements for energy or capacity being furnished to the borrower under any wholesale power contract which has been pledged as security to the government;

(d) Fair market value is obtained for the assets;

Rural Utilities Service, USDA**§ 1717.618**

(e) The aggregate value of assets sold, leased, or transferred in any 12-month period is less than 10 percent of the borrower's net utility plant prior to the transaction;

(f) The proceeds of such sale, lease, or transfer, less ordinary and reasonable expenses incident to such transaction, are immediately:

(1) Applied as a prepayment of all notes secured under the mortgage equally and ratably;

(2) In the case of dispositions of equipment, materials or scrap, applied to the purchase of other property useful in the borrower's utility business; or

(3) Applied to the acquisition of construction of utility plant.

[60 FR 67405, Dec. 29, 1995, as amended at 65 FR 51748, Aug. 25, 2000]

§ 1717.617 Limitations on distributions.

If a distribution or power supply borrower is required by its loan documents to obtain prior approval from RUS before declaring or paying any dividends, paying or determining to pay any patronage refunds, or retiring any patronage capital, or making any other cash distributions, such approval is hereby given if the following conditions are met:

(a) After giving effect to the distribution, the borrower's equity will be greater than or equal to 30 percent of its total assets;

(b) The borrower is current on all payments due on all notes secured under the mortgage;

(c) The borrower is not otherwise in default under its loan documents; and

(d) After giving effect to the distribution, the borrower's current and accrued assets will be not less than its current and accrued liabilities.

§ 1717.618 Wholesale power contracts.

(a) Pursuant to the terms of the RUS documents each power supply borrower shall establish and adjust rates for the sale of electric power and energy in such a manner as to assure that the borrower will be able to make required payments on secured loans.

(b) Pursuant to the terms of the RUS wholesale power contract, the Board of

Directors or Board of Trustees of the power supply borrower shall review rates not less frequently than once each calendar year and revise its rates as therein set forth. The RUS wholesale power contract further provides that the borrower shall notify the Administrator not less than 30 nor more than 45 days prior to the effective date of any adjustment and shall set forth the basis upon which the rate is to be adjusted and established. The RUS wholesale power contract provides that no final revision in rates shall be effective unless approved in writing by the Administrator.

NOTE 1 TO PARAGRAPH (b): The Wholesale Power Contract, with minor modifications which are approved by RUS on a case by case basis, provides that the rate charged for electric power and energy, shall produce revenues which shall be sufficient, but only sufficient, with the revenues of the Seller from all other sources, to meet the cost of the operation and maintenance (including without limitation, replacements, insurance, taxes and administrative and general overhead expenses) of the generating plant transmission system and related facilities of the Seller, the cost of any power and energy purchased for resale hereunder by the Seller, the cost of transmission service, make payments on account of principal and interest on all indebtedness of the Seller, and to provide for the establishment and maintenance of reasonable reserves.

(c) Pursuant to the terms of the RUS mortgage, each power supply borrower must design its rates as therein set forth and must give 90 days prior notice to RUS of any proposed change in its general rate structure.

(Approved by the Office of Management and Budget under control number 0572-0089)
