

(b)(2)(i) through (b)(2)(iii) of this section, unless the swine are exported after the periods described.

(4) The swine must not have transited any region or zone described in paragraphs (b)(2)(i) through (b)(2)(iii) of this section, unless the swine were moved directly through the region or zone in a sealed means of conveyance with the seal determined to be intact upon arrival at the point of destination, or unless the swine are exported after the periods described;

(5) No equipment or materials used in transporting the swine may have been used previously for transporting swine that do not meet the requirements of this section, unless the equipment and materials have first been cleaned and disinfected.

(6) The swine must be accompanied by a certificate issued by a salaried veterinary officer of the competent veterinary authority, stating that the conditions of paragraphs (b)(1) through (b)(5) of this section have been met.<sup>20</sup>

(c) The certificates required by paragraphs (a)(5) and (b)(6) of this section must be presented by the importer to an authorized inspector at the port of arrival, upon arrival of the swine, pork, or pork products at the port.

**§ 94.32 Restrictions on the importation of live swine, pork, or pork products from certain regions free of classical swine fever.**

(a) Live swine, pork, or pork products and ship stores, airplane meals, and baggage containing pork or pork products, other than those articles regulated under part 95 or part 96 of this chapter, may not be imported into the United States from a region listed under paragraph (a)(2) of this section unless the requirements in this section,

<sup>20</sup>The certification required may be placed on the certificate required by § 93.505(a) of this chapter or may be contained in a separate document

in addition to other applicable requirements of part 93 of this chapter and part 327 of this title, are met.

(1) The regions listed under paragraph (a)(2) of this section have been declared free of classical swine fever (CSF) by APHIS in accordance with §§ 94.9(a) and 94.10(a) but either supplement their pork supplies with fresh (chilled or frozen) pork imported from regions considered to be affected by CSF, or supplement their pork supplies with pork from CSF-affected regions that is not processed in accordance with the requirements of this part, or share a common land border with CSF-affected regions, or import live swine from CSF-affected regions under conditions less restrictive than would be acceptable for importation into the United States. Thus, the live swine, pork, or pork products from those regions may be commingled with live swine, pork, or pork products from CSF-affected regions, resulting in a risk of CSF introduction into the United States.

(2) A list of regions whose live swine, pork, and pork products are regulated under this section is maintained on the APHIS Web site at [http://www.aphis.usda.gov/import\\_export/animals/animal\\_disease\\_status.shtml](http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml). Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issues Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(3) APHIS will add a region to the list of those whose live swine, pork, and pork products are regulated under this section after conducting an evaluation of the region and determining that one or more of the circumstances described in paragraph (a)(1) of this section exists. APHIS will remove a region from the list upon conducting an evaluation of the region and determining that the circumstances in paragraph (a)(1) of this section no longer exist or upon determining that classical swine fever exists in the region.

(b) *Live swine.* The swine must be accompanied by a certification issued by a full-time salaried veterinary officer

### § 94.33

### 9 CFR Ch. I (1–1–20 Edition)

of the national government of the region of export. Upon arrival of the swine in the United States, the certification must be presented to an authorized inspector at the port of arrival. The certification must identify both the exporting region and the region of origin as a region listed under §§ 94.9 and 94.10 as free of CSF at the time the swine were in the region and must state that:

(1) The swine have not lived in a region classified under §§ 94.9 and 94.10 as a region in which CSF is known to exist;

(2) The swine have never been commingled with swine that have been in a region that is classified under §§ 94.9 and 94.10 as a region in which CSF is known to exist;

(3) The swine have not transited a region classified under §§ 94.9 and 94.10 as a region in which CSF is known to exist unless moved directly through the region to their destination in a sealed means of conveyance with the seal intact upon arrival at the point of destination; and

(4) The conveyances or materials used in transporting the swine, if previously used for transporting swine, have been cleaned and disinfected in accordance with the requirements of § 93.502 of this chapter.

(c) *Pork or pork products.* The pork or pork products must be accompanied by a certification issued by a full-time salaried veterinary officer of the national government of the region of export. Upon arrival of the pork or pork products in the United States, the certification must be presented to an authorized inspector at the port of arrival. The certification must identify both the exporting region and the region of origin of the pork or pork products as a region listed under §§ 94.9 and 94.10 as free of CSF at the time the pork or pork products were in the region and must state that:

(1) The pork or pork products were derived from swine that were born and raised in a region listed under §§ 94.9 and 94.10 as free of CSF and were slaughtered in such a region at a federally inspected slaughter plant that is under the direct supervision of a full-time salaried veterinarian of the national government of that region and

that is eligible to have its products imported into the United States under the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) and the regulations in § 327.2 of this title;

(2) The pork or pork products were derived from swine that have not lived in a region classified under §§ 94.9 and 94.10 as a region in which CSF is known to exist;

(3) The pork or pork products have never been commingled with pork or pork products that have been in a region that is classified under §§ 94.9 and 94.10 as a region in which CSF is known to exist;

(4) The pork or pork products have not transited through a region classified under §§ 94.9 and 94.10 as a region in which CSF is known to exist unless moved directly through the region to their destination in a sealed means of conveyance with the seal intact upon arrival at the point of destination; and

(5) If processed, the pork or pork products were processed in a region listed under §§ 94.9 and 94.10 as free of CSF in a federally inspected processing plant that is under the direct supervision of a full-time salaried veterinary official of the national government of that region.

### **§ 94.33 Restrictions on importation of live poultry, poultry meat, and other poultry products from specified regions.**

Argentina and the Mexican States of Campeche, Quintana Roo, and Yucatan, which are declared in § 94.6(a)(1) to be free of Newcastle disease, supplement their meat supply by the importation of fresh (chilled or frozen) poultry meat from regions designated in § 94.6(a) as regions where Newcastle disease is considered to exist, have a common land border with regions where Newcastle disease is considered to exist, or import live poultry from regions where Newcastle disease is considered to exist under conditions less restrictive than would be acceptable
