

(2) The potential for disseminating an exotic bee disease or parasite, or an undesirable species or subspecies of honeybee, with the restricted organism outweighs the probable benefits that could be derived from the proposed movement and use of the restricted organism; or

(3) When you, as a previous permittee, failed to maintain the safeguards or otherwise observe the conditions prescribed in a previous permit and have failed to demonstrate your ability or intent to observe them in the future; or

(4) The proposed movement of the restricted organism is adverse to the conduct of an eradication, suppression, control, or regulatory program of APHIS.

(5) APHIS may also deny a permit to import restricted organisms:

(i) To a person who has previously failed to comply with any APHIS regulation, except:

(A) A permit revoked in an investigation concerning that failure has been reinstated on appeal, at the discretion of APHIS; or

(B) All measures ordered by APHIS to correct the failure, including but not limited to, payment of penalties or restitution, have been complied with to the satisfaction of APHIS.

(ii) To a person who has previously failed to comply with any international or Federal regulation or instruction concerning the importation of prohibited or restricted foreign agricultural products; or

(iii) If the application for a permit contains information that is found to be materially false, fraudulent, deceptive, or misrepresentative.

(d) *Cancellation of permits.* (1) APHIS may cancel any outstanding permit whenever:

(i) We receive information subsequent to the issuance of the permit of circumstances that would constitute cause for the denial of an application for permit under paragraph (c) of this section; or

(ii) You, as the permittee, fail to maintain the safeguards or otherwise observe the conditions specified in the permit or in any applicable regulations.

(2) Upon cancellation of a permit, you must either:

(i) Surrender all restricted organisms to an APHIS inspector; or

(ii) Destroy all restricted organisms under the supervision of an APHIS inspector.

(e) *Appealing the denial of permit applications or revocation of permits.* If your permit application has been denied or your permit has been revoked, APHIS will inform you in writing, including by electronic methods, as promptly as circumstances permit and will include the reasons for the denial or revocation. You may appeal the decision by writing to APHIS within 10 business days from the date you received the communication notifying you of the denial or revocation of the permit. Your appeal must state all facts and reasons upon which you are relying to show that your permit application was wrongfully denied or your permit was wrongfully revoked. APHIS will grant or deny the appeal in writing and will state in writing the reason for the decision. The denial or revocation will remain in effect during the resolution of the appeal.

[69 FR 61747, Oct. 21, 2004, as amended at 79 FR 19811, Apr. 10, 2014]

§ 322.16 Packaging of shipments.

(a) Restricted organisms must be packed in a container or combination of containers that will prevent the escape of the organisms and the leakage of any contained materials. The container must be sufficiently strong to prevent it from rupturing or breaking during shipment.

(b) The outer container must be clearly marked with the contents of the shipment, *i.e.*, either "Live Bees," "Bee Germ Plasm," or "Live Bee Brood," and the name of the region of origin.

(c) Only approved packing materials may be used in a shipment of restricted organisms.

(1) The following materials are approved as packing materials: Absorbent cotton or processed cotton padding free of cottonseed; cages made of processed wood; cellulose materials; excelsior; felt; ground peat (peat moss); paper or

§ 322.17

paper products; phenolic resin foam; sawdust; sponge rubber; thread waste, twine, or cord; and vermiculite.

(2) Other materials, such as host material for the organism, soil, or other types of packing material, may be included in a container only if identified in the permit application and approved by APHIS on the permit.

§ 322.17 Mailed packages.

(a) If you import a restricted organism through the mail or through commercial express delivery, you must attach a special mailing label (APHIS Form 599), which APHIS will provide with your permit, to the package or container. The mailing label indicates that APHIS has authorized the shipment.

(b) You must address the package containing the restricted organism to the containment facility or apiary identified on the permit (post office boxes are not allowed).

(c) If the restricted organism arrives in the mail without the mailing label described in paragraph (a) of this section or addressed to a containment facility or apiary other than the one listed on the permit, an inspector will refuse to allow the organism to enter the United States.

§ 322.18 Restricted organisms in a commercial vehicle arriving at a land border port in the United States.

(a) If you import a restricted organism through a land border port in the United States by commercial vehicle (*i.e.*, automobile or truck), then the person carrying the restricted organism must present the permit required by § 322.14 and an invoice or packing slip accurately indicating the complete contents of the shipment to the inspector at the land border port.

(b) The restricted organisms must be surrendered at the port of entry and can continue on to the destination identified on the permit only by a bonded carrier (commercial express delivery).

(c) If you fail to present a copy of the permit and an invoice or packing list accurately indicating the complete contents of the shipment at the port of entry, an inspector will refuse the or-

ganism's entry to the United States or confiscate and destroy the refused material.

(Approved by the Office of Management and Budget under control number 0579–0207)

§ 322.19 Inspection; refusal of entry.

(a) APHIS may inspect any restricted organism at the time of importation to determine if the organism meets all of the requirements of this part.

(b) If, upon inspection, any shipment fails to meet the requirements of the regulations, that shipment will be refused entry into the United States. In accordance with § 322.2(c), the inspector will offer the shipper the opportunity to immediately export any refused shipments. If the shipper declines to immediately export the shipment, we will destroy the shipment at his or her expense.

§ 322.20 Ports of entry.

A restricted organism may be imported only at a port of entry staffed by an APHIS inspector.⁵ After a restricted organism has been cleared for importation at the port of entry, the organism can only be transported by a bonded commercial carrier immediately and directly from the port of entry to the containment facility or apiary identified on the permit. You may open the package containing the restricted organism only within the containment facility or apiary identified on the permit.

(Approved by the Office of Management and Budget under control number 0579–0207)

§ 322.21 Post-entry handling.

(a) Immediately following clearance at the port of entry, a restricted organism must move by a bonded commercial carrier directly to a containment facility or apiary that has been inspected and approved by APHIS.⁶ We

⁵To find out if a specific port is staffed by an APHIS inspector, or for a list of ports staffed by APHIS inspectors, contact Permit Unit, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737–1236; toll-free (877) 770–5990; fax (301) 734–8700.
