

§ 250.4

32 CFR Ch. I (7-1-23 Edition)

case of joint sponsorship, the controlling office is determined by advance agreement and may be either a party, a group, or a committee representing the interested activities or DoD Components. (The controlling DoD office is identified on each export-controlled document in accordance with DoD Directive 5230.24.

(c) *Critical Technology.* Technologies that consist of (1) arrays of design and manufacturing know-how (including technical data); (2) keystone manufacturing, inspection, and test equipment; (3) keystone materials; and (4) goods accompanied by sophisticated operation, application, or maintenance know-how that would make a significant contribution to the military potential of any country or combination of countries and that may prove detrimental to the security of the United States (also referred to as militarily critical technology).

(d) *Other legitimate business purposes.* Include:

(1) Providing or seeking to provide equipment or technology to a foreign government with the approval of the U.S. Government (for example, through a licensed direct foreign military sale).

(2) Bidding, or preparing to bid, on a sale of surplus property.

(3) Selling or producing products for the commercial domestic marketplace or for the commercial foreign marketplace, providing that any required export license is obtained.

(4) Engaging in scientific research in a professional capacity.

(5) Acting as a subcontractor to a concern described in paragraphs (d) (1) through (4) of this section; or

(6) Selling technical data subject to this part in support of DoD contractors or in supporting of the competitive process for DoD contracts, provided such sales are limited solely to DoD contractors or potential DoD contractors who also are qualified U.S. contractors and provided such technical data are related to the purpose for which the qualified U.S. contractor is certified, or selling technical data to foreign contractors or governments overseas after receiving the required export license or approval by the U.S. Government.

(e) *Potential DoD contractor.* An individual or organization outside the Department of Defense declared eligible for DoD information services by a sponsoring DoD activity on the basis of participation in one of the following programs:

(1) The Department of the Army Qualitative Requirements Information Program.

(2) The Department of the Navy Industry Cooperative Research and Development Program.

(3) The Department of the Air Force Potential Contractor Program.

(4) The DoD Scientific and Technical Program; or

(5) Any similar program in use by other DoD Components.

(f) *Public disclosure.* Making technical data available without restricting its dissemination or use.

(g) *Technical data with military or space application, or technical data.* Any blueprints, drawings, plans, instructions, computer software and documentation, or other technical information that can be used or be adapted for use to design, engineer, produce, manufacture, operate, repair, overhaul, or reproduce any military or space equipment or technology concerning such equipment.

(h) *United States.* For the purpose of this part, the 50 States, the District of Columbia, and the territories and possessions of the United States.

§ 250.4 Policy.

(a) In accordance with 10 U.S.C. 140c, the Secretary of Defense may withhold from public disclosure, notwithstanding any other provision of law, any technical data with military or space application in the possession of, or under the control of, the Department of Defense, if such data may not be exported lawfully without an approval, authorization, or license under E.O. 12470 or the Arms Export Control Act. However, technical data may not be withheld under this section if regulations promulgated under either the Order or Act authorize the export of such data pursuant to a general, unrestricted license or exemption in such regulations. (Pertinent portions of such regulations are set forth in §§ 250.7 and 250.8).

(b) Because public disclosure of technical data subject to this part is tantamount to providing uncontrolled foreign access, withholding such data from public disclosure, unless approved, authorized, or licensed in accordance with export control laws, is necessary and in the national interest. Unclassified technical data that are not governed by this part, unless otherwise restricted, shall continue to be made available to the public as well as to state and local governments.

(c) Notwithstanding the authority provided in paragraph (a), of this section, it is DoD policy to provide technical data governed by this part to individuals and enterprises that are determined to be currently qualified U.S. contractors, when such data relate to a legitimate business purpose for which the contractor is certified. However, when such data are for a purpose other than to permit the requester to bid or perform on a contract with the Department of Defense, or other U.S. Government agency, and the significance of such data for military purposes is such that release for purposes other than direct support of DoD activities may jeopardize an important U.S. technological or operational advantage, those data shall be withheld in such cases.

(d) This part may not be used by DoD Components as authority to deny access to technical data to the Congress, or to any Federal, State, or local governmental agency that requires such data for regulatory or other official governmental purposes. Any such dissemination will include a statement that the technical data are controlled by the Department of Defense in accordance with this part.

(e) The authority provided herein may not be used to withhold from public disclosure unclassified information regarding DoD operations, policies, activities, or programs, including the costs and evaluations of performance and reliability of military and space equipment. When such information does contain technical data subject to this part, the technical data shall be excised from that which is disclosed publicly.

(f) This part may not be used as a basis for the release of "limited rights" or "restricted rights" data as defined

in 32 CFR 9-201(c) and 9-601(j) of the DoD Acquisition Regulation or that are authorized to be withheld from public disclosure under the Freedom of Information Act (FOIA).

(g) This part may not be used to provide protection for technical data that should be classified in accordance with E.O. 12356 and DoD 5200.1-R.

(h) This part provides immediate authority to cite 5 U.S.C. 552(b)(3) as the basis for denials under the FOIA of technical data currently determined to be subject to the provisions of this part.

§ 250.5 Procedures.

All determinations to disseminate or withhold technical data subject to this part shall be consistent both with the policies set forth in § 250.4 of this part, and with the following procedures:

(a) Requests for technical data shall be processed in accordance with DoD Directive 5230.24 and DoD Instruction 5200.21. FOIA requests for technical data subject to this part shall be handled in accordance with the procedures established in DoD 5400.7-R. Such FOIA requests for technical data currently determined to be subject to the withholding authority effected by this part shall be denied under citing the third exemption to mandatory disclosure, and the requester shall be referred to the provisions of this part permitting access by qualified U.S. contractors.

(b) Upon receipt of a request for technical data in the possession of, or under the control of, the Department of Defense, the controlling DoD office shall determine whether such data are governed by this part. The determination shall be based on the following:

(1) The office's finding³ that such data would require an approval, authorization, or license for export under E.O. 12470 or the Arms Export Control Act and that such data may not be exported pursuant to a general, unrestricted license (15 CFR 379.3, EAR) (see § 250.7) or exemption (22 CFR 125.11, ITAR) (see § 250.8).

³May require consultation with the Department of State or the Department of Commerce, as appropriate.
