

Relocation Allowances

§ 302-17.44

If:	But:	Your agency will use the following as the state marginal tax rate in the CMTR:	Your RITA will include an appropriate allowance for:	Your action:
Two or more involved states tax some of the same relocation benefits.	One or more involved states <i>does not allow</i> you to adjust or take a credit for income taxes paid to other states.	The sum of all applicable state marginal tax rates.	Taxes you incur in all involved states.	You file tax returns in each involved state, and pay the applicable taxes. This may result in paying taxes in more than one state on the same relocation benefits.

§302-17.43 What local marginal tax rate(s) does my agency use?

(a) If you incur local tax liability, you provide the applicable marginal tax rate(s) on your "Statement of Income and Tax Filing Status". Your agency validates the applicable local marginal tax rate(s) and uses it (them) in the CMTR formula.

(b) If you incur local income tax liability in more than one locality, then your agency should follow the rules described for state income taxes in §302-17.42 to calculate the local marginal tax rate that will be used in the CMTR formula and to compute your RITA, and you should follow the rules in §302-17.42 to determine your actions.

(c) If a locality in which you incur income tax liability publishes its tax rates in terms of a percentage of your Federal or state taxes, then your agency must convert that tax rate to a percentage of your income to use it in computing your CMTR. This is accomplished by multiplying the applicable Federal or state tax rate by the applicable local tax rate. For example, if the state marginal tax rate is 6 percent and the local tax rate is 50 percent of state income tax liability, the local marginal tax rate stated as a percentage of taxable income would be 3 percent.

§302-17.44 What if I incur income tax liability to the Commonwealth of Puerto Rico?

A Federal employee who is relocated to or from a point, or between points, in the Commonwealth of Puerto Rico may be subject to income tax by both the Federal Government and the government of Puerto Rico. However, under current Puerto Rico law, an employee receives a credit on his/her Puerto Rico income tax for the amount of taxes paid to the Federal Government. Therefore:

(a) If the applicable Puerto Rico marginal tax rate, as shown in the tables provided by the Commonwealth of Puerto Rico, is *equal to or lower* than the applicable Federal marginal tax rate, then your agency uses the Federal marginal tax rates and the formula in §302-17.40(c) in calculating your CMTR.

(b) If the applicable Puerto Rico marginal tax rate, as shown in the tables provided by the Commonwealth of Puerto Rico, is *higher* than the applicable Federal marginal tax rate, and if all of the states involved either have no income tax or *allow* an adjustment or credit for income taxes paid to the other state(s) and Puerto Rico, then your agency uses the rate for Puerto Rico in place of the Federal marginal tax rate in the formula in §302-17.40(c).
