

§ 302-17.54 How does my agency calculate my RITA under the one-year process?

(a) Your agency provides allowances to you, reimburses you for vouchers that you submit, and pays certain relocation vendors directly, all during the calendar year as described in subpart B of this part. Some of these reimbursements, allowances, and direct payments to vendors are taxable income to you, the employee, as described in subpart A of this part. Your agency computes a WTA and reports the WTA to the IRS as taxes withheld for you for each of these taxable reimbursements, allowances, and direct payments to vendors. The WTA may be optional to you. However, if your agency is using a one-year RITA process, there is no advantage to you in choosing not to receive the WTA, because your agency will adjust the WTA payment to the IRS. See § 302-17.55(a)(1).

(b) Your agency establishes a cutoff date (for example, December 1), after

which it will not issue reimbursements or allowances to you or make direct payments to relocation vendors for the rest of the calendar year.

(c) If the information on your “Statement of Income and Tax Filing Status” changes after you have submitted the initial version, you must submit an amended “Statement of Income and Tax Filing Status” no later than your agency’s cutoff date.

(d) During the period between the cutoff date and the end of the calendar year, your agency calculates your RITA.

(e) Your RITA is itself taxable income to you. To account for taxes on the RITA, your agency will gross-up your RITA by using a gross-up formula that multiplies the grossed-up CMTR by the total of all covered taxable relocation benefits, and then subtracts your grossed-up WTA from that total. That is:

$$RITA = \left(\left(\frac{C}{1-C} \right) \times R \right) - Y$$

Where

C = CMTR

R = Reimbursements, allowances, and direct payments to vendors covered by WTA

Y = Total grossed-up WTA paid during the current year.

§ 302-17.55 What does my agency do once it has calculated my RITA under the one-year process?

(a) Your RITA is likely to be different from the sum of the WTA computed and reported during the year, because the WTA is calculated using a flat rate, established by the IRC, while the RITA is calculated using the CMTR. Therefore:

(1) If the calculation above results in a negative value (that is, if your agency’s calculation shows that it withheld and reported too much money as WTA), then your agency will send an adjustment to the IRS using Form 941. In this case, your agency does not make a

RITA payment to you because you do not need additional funds to pay your taxes. That is, everything you need to pay substantially all of your taxes was included in the adjusted WTA, and that is the amount that will appear on your Form W-2.

(2) If the calculation above results in a positive value (that is if your agency’s calculation shows that it did not withhold enough money for your income taxes), then your agency will pay your RITA to you before the end of the calendar year and report it to the IRS as part of your income for that year.

(b) Shortly after the end of the calendar year, your agency will provide one or two W-2 Forms to you. At your agency’s discretion, you may receive one W-2 that includes all of your taxable relocation expenses, WTA, and RITA (if any), along with your payroll wages, or you may receive one W-2 for
