

**§ 412.632 Method of payment under the inpatient rehabilitation facility prospective payment system.**

(a) *General rule.* Subject to the exceptions in paragraphs (b) and (c) of this section, an inpatient rehabilitation facility receives payment under this subpart for inpatient operating costs and capital-related costs for each discharge only following submission of a discharge bill.

(b) *Periodic interim payments—(1) Criteria for receiving periodic interim payments.* (i) An inpatient rehabilitation facility receiving payment under this subpart may receive periodic interim payments (PIP) for Part A services under the PIP method subject to the provisions of § 413.64(h) of this subchapter.

(ii) To be approved for PIP, the inpatient rehabilitation facility must meet the qualifying requirements in § 413.64(h)(3) of this subchapter.

(iii) Payments to a rehabilitation unit are made under the same method of payment as the hospital of which it is a part as described in § 412.116.

(iv) As provided in § 413.64(h)(5) of this chapter, intermediary approval is conditioned upon the intermediary's best judgment as to whether payment can be made under the PIP method without undue risk of its resulting in an overpayment to the provider.

(2) *Frequency of payment.* For facilities approved for PIP, the intermediary estimates the inpatient rehabilitation facility's Federal prospective payments net of estimated beneficiary deductibles and coinsurance and makes biweekly payments equal to  $\frac{1}{26}$  of the total estimated amount of payment for the year. If the inpatient rehabilitation facility has payment experience under the prospective payment system, the intermediary estimates PIP based on that payment experience, adjusted for projected changes supported by substantiated information for the current year. Each payment is made 2 weeks after the end of a biweekly period of service as described in § 413.64(h)(6) of this subchapter. The interim payments are reviewed at least twice during the reporting period and adjusted if necessary. Fewer reviews may be necessary if an inpatient rehabilitation facility receives interim payments for

less than a full reporting period. These payments are subject to final settlement.

(3) *Termination of PIP.* (i) *Request by the inpatient rehabilitation facility.* Subject to the provisions of paragraph (b)(1)(iii) of this section, an inpatient rehabilitation facility receiving PIP may convert to receiving prospective payments on a non-PIP basis at any time.

(ii) *Removal by the intermediary.* An intermediary terminates PIP if the inpatient rehabilitation facility no longer meets the requirements of § 413.64(h) of this chapter.

(c) *Interim payments for Medicare bad debts and for Part A costs not paid under the prospective payment system.* For Medicare bad debts and for costs of an approved education program and other costs paid outside the prospective payment system, the intermediary determines the interim payments by estimating the reimbursable amount for the year based on the previous year's experience, adjusted for projected changes supported by substantiated information for the current year, and makes biweekly payments equal to  $\frac{1}{26}$  of the total estimated amount. Each payment is made 2 weeks after the end of a biweekly period of service as described in § 413.64(h)(6) of this chapter. The interim payments are reviewed at least twice during the reporting period and adjusted if necessary. Fewer reviews may be necessary if an inpatient rehabilitation facility receives interim payments for less than a full reporting period. These payments are subject to final cost settlement.

(d) *Outlier payments.* Additional payments for outliers are not made on an interim basis. The outlier payments are made based on the submission of a discharge bill and represent final payment.

(e) *Accelerated payments—(1) General rule.* Upon request, an accelerated payment may be made to an inpatient rehabilitation facility that is receiving payment under this subpart and is not receiving PIP under paragraph (b) of this section if the inpatient rehabilitation facility is experiencing financial difficulties because of the following:

(i) There is a delay by the intermediary in making payment to the inpatient rehabilitation facility.

(ii) Due to an exceptional situation, there is a temporary delay in the inpatient rehabilitation facility's preparation and submittal of bills to the intermediary beyond its normal billing cycle.

(2) *Approval of payment.* An inpatient rehabilitation facility's request for an accelerated payment must be approved by the intermediary and us.

(3) *Amount of payment.* The amount of the accelerated payment is computed as a percentage of the net payment for unbilled or unpaid covered services.

(4) *Recovery of payment.* Recovery of the accelerated payment is made by recoupment as inpatient rehabilitation facility bills are processed or by direct payment by the inpatient rehabilitation facility.

**§412.634 Requirements under the Inpatient Rehabilitation Facility (IRF) Quality Reporting Program (QRP).**

(a) *Participation.*(1) For the FY 2018 payment determination and subsequent years, an IRF must begin reporting data under the IRF QRP requirements no later than the first day of the calendar quarter subsequent to 30 days after the date on its CMS Certification Number (CCN) notification letter, which designates the IRF as operating in the CMS designated data submission system.

(2) [Reserved]

(b) *Submission requirements.* (1) IRFs must submit to CMS data on measures specified under sections 1886(j)(7)(D), 1899B(c)(1), 1899B(d)(1) of the Act, and standardized patient assessment data required under section 1899B(b)(1) of the Act, as applicable. Such data must be submitted in the form and manner, and at a time, specified by CMS.

(2) CMS may remove a quality measure from the IRF QRP based on one or more of the following factors:

(i) Measure performance among IRFs is so high and unvarying that meaningful distinctions in improvements in performance can no longer be made;

(ii) Performance or improvement on a measure does not result in better patient outcomes;

(iii) A measure does not align with current clinical guidelines or practice;

(iv) The availability of a more broadly applicable (across settings, populations, or conditions) measure for the particular topic;

(v) The availability of a measure that is more proximal in time to desired patient outcomes for the particular topic;

(vi) The availability of a measure that is more strongly associated with desired patient outcomes for the particular topic;

(vii) The collection or public reporting of a measure leads to negative unintended consequences other than patient harm;

(viii) The costs associated with a measure outweigh the benefit of its continued use in the program.

(c) *Exception and Extension Requirements.* (1) An IRF may request and CMS may grant exceptions or extensions to the measures data or standardized patient assessment data reporting requirements, for one or more quarters, when there are certain extraordinary circumstances beyond the control of the IRF.

(2) An IRF must request an exception or extension within 90 days of the date that the extraordinary circumstances occurred.

(3) Exception and extension requests must be submitted to CMS from the IRF by sending an email to [IRFQRPreconsiderations@cms.hhs.gov](mailto:IRFQRPreconsiderations@cms.hhs.gov) containing all of the following information:

(i) IRF CMS Certification Number (CCN).

(ii) IRF Business Name.

(iii) IRF Business Address.

(iv) CEO or CEO-designated personnel contact information including name, telephone number, title, email address, and mailing address. (The address must be a physical address, not a post office box.)

(v) IRF's reason for requesting the exception or extension.

(vi) Evidence of the impact of extraordinary circumstances, including, but not limited to, photographs, newspaper, and other media articles.

(vii) Date when the IRF believes it will be able to again submit IRF QRP data and a justification for the proposed date.
