An employee who must be absent from work to receive medical treatment for a serious health condition is considered to be unable to perform the essential functions of the position during the absence for treatment.

Intermittent leave or leave taken intermittently means leave taken in separate blocks of time, rather than for one continuous period of time, and may include leave periods of 1 hour to several weeks. Placement means a new placement of a son or daughter with an employee for adoption or foster care. For example, this excludes the adoption of a step-child or a foster child who has already been a member of the employee’s household and has an existing parent-child relationship with an adopting parent. When the term “placement” is used in connection with the use of leave under this subpart before placement has occurred, it refers to a planned or anticipated placement.

Reduced leave schedule means a daily or weekly work schedule under which the usual number of hours actually worked during the employee’s scheduled tour of duty are reduced as a result of the increased use of leave.

Scheduled tour of duty means the regular work hours in an established full-time or part-time work schedule during which an employee is charged leave or time off when absent. Serious health condition. (1) Serious health condition means an illness, injury, impairment, or mental condition that involves—

(i) Inpatient care (i.e., an overnight stay) in a hospital, hospice, or residential medical care facility, including any period of incapacity or any subsequent treatment in connection with such inpatient care; or

(ii) Continuing treatment by a health care provider that includes (but is not limited to) examinations to determine if there is a serious health condition and evaluations of such conditions if the examinations or evaluations determine that a serious health condition exists. Continuing treatment by a
health care provider may include one or more of the following—

(A) A period of incapacity of more than 3 consecutive calendar days, including any subsequent treatment or period of incapacity relating to the same condition, that also involves—

(1) Treatment two or more times by a health care provider, by a health care provider under the direct supervision of the affected individual’s health care provider, or by a provider of health care services under orders of, or on referral by, a health care provider; or

(2) Treatment by a health care provider on at least one occasion which results in a regimen of continuing treatment under the supervision of the health care provider (e.g., a course of prescription medication or therapy requiring special equipment to resolve or alleviate the health condition).

(B) Any period of incapacity due to pregnancy or childbirth, or for prenatal care, even if the affected individual does not receive active treatment from a health care provider during the period of incapacity or the period of incapacity does not last more than 3 consecutive calendar days.

(C) Any period of incapacity or treatment for such incapacity due to a chronic serious health condition that—

(1) Requires periodic visits for treatment by a health care provider or by a health care provider under the direct supervision of the affected individual’s health care provider;

(2) Continues over an extended period of time (including recurring episodes of a single underlying condition); and

(3) May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.). The condition is covered even if the affected individual does not receive active treatment from a health care provider during the period of incapacity or the period of incapacity does not last more than 3 consecutive calendar days.

(D) A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The affected individual must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider (e.g., Alzheimer’s, severe stroke, or terminal stages of a disease).

(E) Any period of absence to receive multiple treatments (including any period of recovery) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury or for a condition that would likely result in a period of incapacity or more than 3 consecutive calendar days in the absence of medical intervention or treatment (e.g., chemotherapy/radiation for cancer, physical therapy for severe arthritis, dialysis for kidney disease).

(2) (Serious health condition does not include routine physical, eye, or dental examinations; a regimen of continuing treatment that includes the taking of over-the-counter medications, bed-rest, exercise, and other similar activities that can be initiated without a visit to the health care provider; a condition for which cosmetic treatments are administered, unless inpatient hospital care is required or unless complications develop; or an absence because of an employee’s use of an illegal substance, unless the employee is receiving treatment for substance abuse by a health care provider or by a provider of health care services on referral by a health care provider. Ordinarily, unless complications arise, the common cold, the flu, earaches, upset stomach, minor ulcers, headaches (other than migraines), routine dental or orthodontia problems, and periodontal disease are not serious health conditions. Allergies, restorative dental or plastic surgery after an injury, removal of cancerous growth, or mental illness resulting from stress may be serious health conditions only if such conditions require inpatient care or continuing treatment by a health care provider.)

Son or daughter means a biological, adopted, or foster child; a step child; a legal ward; or a child of a person standing in loco parentis who is—

(1) Under 18 years of age; or

(2) 18 years of age or older and incapable of self-care because of a mental or physical disability. A son or daughter incapable of self-care requires active assistance or supervision to provide daily self-care in three or more of the “activities of daily living” (ADL’s).
or “instrumental activities of daily living” (IADL’s). Activities of daily living include adaptive activities such as caring appropriately for one’s grooming and hygiene, bathing, dressing, and eating. Instrumental activities of daily living include cooking, cleaning, shopping, taking public transportation, paying bills, maintaining a residence, using the telephones and directories, using a post office, etc. A “physical or mental disability” refers to a physical or mental impairment that substantially limits one or more of the major life activities of an individual as defined in 29 CFR 1630.2 (h), (i) and (j).

Son or daughter on covered active duty or call to covered active duty status means the employee’s biological, adopted, or foster child, stepchild, legal ward, or a child for whom the employee stood in loco parentis, who is on covered active duty or call to covered active duty status, and who is of any age.

For purposes of this definition, husband or wife refers to the other person with whom an individual entered into marriage as defined or recognized under State law for purposes of marriage in the State where the marriage was entered into or, in the case of a marriage entered into outside of any State, if the marriage is valid in the place where entered into and could have been entered into in at least one State. This definition includes an individual in a same-sex or common law marriage that either:

1. Was entered into in a State that recognizes such marriages, or
2. If entered into outside of any State, is valid in the place where entered into and could have been entered into in at least one State.

State means any State of the United States or the District of Columbia or any Territory or possession of the United States.

§ 630.1203 Leave entitlement.

(a) An employee shall be entitled to a total of 12 administrative workweeks of unpaid leave during any 12-month period for one or more of the following reasons:

2. The placement of a son or daughter with the employee for adoption or foster care and the care of such son or daughter.
3. The care of a spouse, son, daughter, or parent of the employee, if such spouse, son, daughter, or parent has a serious health condition;
4. A serious health condition of the employee that makes the employee unable to perform any one or more of the essential functions of his or her position.
5. Any qualifying exigency arising out of the fact that the employee’s spouse, son, daughter, or parent is a covered military member on covered active duty (or has been notified of an impending call or order to covered active duty) in the Armed Forces.

(b) An employee must invoke his or her entitlement to family and medical leave under paragraph (a) of this section, subject to the notification and medical certification requirements in §§630.1207 and 630.1208. An employee may not retroactively invoke his or her entitlement to family and medical leave. However, if an employee and his or her personal representative are physically or mentally incapable of invoking the employee’s entitlement to FMLA leave during the entire period in which the employee is absent from work for an FMLA-qualifying purpose under paragraph (a) of this section, the employee may retroactively invoke his or her entitlement to FMLA leave within 5 workdays after returning to work. In such cases, the incapacity of the employee must be documented by a written medical certification from a health care provider. In addition, the employee must provide documentation acceptable to the agency explaining the inability of his or her personal representative to contact the agency and invoke the employee’s entitlement to FMLA leave during the entire period in which the employee was absent from work.
