### § 301-73.100 Must we require employees to use the E-Gov Travel Service?

Yes, unless you have an exception to the use of the ETS (*see* §§ 301-73.102 and 301-73.104), you must have fully deployed the ETS across your agency and require employees to use the ETS for all temporary duty travel no later than September 30, 2006. Agencies must submit their ETS migration plans and schedules by March 31, 2004 to the eTravel PMO, (*see* § 301-73.101). You must implement the ETS no later than December 31, 2004, and require employees to use the ETS as soon as it becomes available in your agency. The Department of Defense and the Government of the District of Columbia are not subject to this requirement.

NOTES TO § 301-73.100: (1) You have the option to use the contracted travel agent serv-

ice(s) of your choice (through the ETS or other contract vehicles). You have the responsibility for ensuring agency-contracted travel agent services complement and support the ETS in an efficient and cost effective manner.

(2) Award of a task order to a vendor on the ETS Master Contract constitutes ETS implementation. Agency-wide use of the ETS for all travel management processes and travel claim submission constitutes complete migration.

### § 301-73.101 How must we prepare to implement ETS?

(a) Developing a migration plan and schedule to deploy ETS across your agency as early as possible with full deployment required no later than September 30, 2006;

(b) Requiring employees to use your ETS unless you approve an exception under § 301-50.6, § 301-73.102 or § 301-73.104;

(c) Establishing goals, plans and procedures to maximize agency-wide traveler use of your online self-service booking tool once you have fully deployed ETS within your agency. These goals, plans, and procedures should be available for submission to the ETS PMO upon its request.

NOTE 1 TO § 301-73.101: Your agency should work with the Office of Management and Budget (OMB) to allocate budget and personnel resources to support ETS migration and data exchange. Your agency is responsible for providing the funds required to establish interfaces between the ETS standard data output and applicable business systems (e.g., financial, human resources, etc.).

NOTE 2 TO § 301-73.101: Best practices show that organizations are able to realize significant benefits once they achieve a 70 percent or greater self-booking rate.
