

STATEMENT OF INCOME AND TAX FILING STATUS—TWO-YEAR PROCESS—Continued
Employee's signature _____ Date _____

Spouse's signature (if filing jointly) _____

Date _____

§ 302-17.64 When should I file my “Statement of Income and Tax Filing Status” and RITA claim under the two-year process?

For the two-year process, you should file the “Statement of Income and Tax Filing Status” in Year 2, along with your RITA claim, after you file your income tax return. If your agency pays any taxable expenses covered by the WTA (if any) in more than one year, then you will have to file a new “Statement of Income and Tax Filing Status” each year. Your agency establishes the deadline each year for filing of your Statement.

§ 302-17.65 What happens if I do not file the “Statement of Income and Tax Filing Status” in a timely manner?

The WTA is an advance on your income tax expenses, thus if you don't file the “Statement of Income and Tax Filing Status” in a timely manner, your agency will require you to repay the entire amount of the withholding and WTA (if any) that the agency has paid on your behalf.

§ 302-17.66 How do I claim my RITA under the two-year process?

(a) To claim your RITA under the two-year process, you must submit a voucher and attach the “Statement of Income and Tax Filing Status,” as discussed in §§ 302-17.63–302-17.65.

(b) Your voucher must claim a specific amount. However, your agency will calculate your actual RITA after you submit your RITA voucher and your “Statement of Income and Tax Filing Status;” the amount you claim on your voucher does not enter into that calculation. You should perform the RITA calculation for yourself, as a check on your agency's calculation, but you are not required to put the “right answer” on the voucher you submit to claim your RITA.

§ 302-17.67 How does my agency calculate my RITA under the two-year process?

(a) Your agency calculates your RITA after receipt of your RITA voucher.

(b) Your RITA is itself taxable income to you. To account for taxes on the RITA, your agency will gross-up your RITA by applying the CMTR to the final amount rather than the reimbursed amount.

(c) Thus, your agency calculates your RITA by multiplying the Combined Marginal Tax Rate (CMTR) (using the state and local tax tables most current at the time of the RITA calculation) by the total of all covered taxable relocation benefits during the applicable Year 1, and then subtracting your WTA(s), if any, from the same Year 1 from that total. That is:

$$RITA = \left(\left(\frac{C}{1-C} \right) \times R \right) - Z$$

Where

C = CMTR

R = Reimbursements, allowances, and direct payments to vendors covered by WTA during Year 1

Z = Total grossed-up WTAs paid during Year 1.

NOTE TO § 302-17.67(c) – If your agency offers you the choice, the WTA is optional to you. If the employee has declined the WTA, enter zero for element Z in the above calculation.
