

| Method of shipment | How weight of shipment is determined |
|---|---|
| (b) Crated shipments | When crated the net weight will not include the weight of the crating material. The net weight will be computed as being 60 percent of the gross weight. However, if the net weight computed in this manner exceeds the applicable weight limitation and if it is determined that, for reasons beyond the employee's control, unusually heavy crating and packing materials were necessarily used, the net weight may be computed at less than 60 percent of the gross weight. |
| (c) Containerized shipments (Special containers designed, e.g., lift vans, CONEX transporters, HHG shipping boxes, for repeated use). | When the known tare weight does not include the weight of interior bracing and padding materials but only the weight of the container, the net weight will be 85 percent of the gross weight less the weight of the container. If the known tare weight includes such material, so that the net weight is the same as it would be for uncrated shipments in interstate commerce, the net weight will not be subject to reduction. |
| (d) Constructive weight | If adequate scales are not available at origin, en route or at destination, a constructive weight based on 7 pounds per cubic foot of properly loaded van space may be used. Such weight may be used for a part-load when its weight could not be obtained, without first unloading it or other part-loads being carried in the same vehicle or when the HHG are not weighed because the carrier's charges for local or metropolitan area moves are properly computed on the basis other than weight or volume of the shipment (as when payment is based on an hourly rate and distance involved). In such instances a statement from the carrier showing the properly loaded van space required for the shipment should be obtained with respect to proof of entitlement to a commuted rate payment when net weight cannot be shown. |

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Redesignated and amended by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.14 What methods of transporting and paying for the movement of HHG, PBP&E and temporary storage are authorized?

There are two authorized methods of transporting and paying for the movement of HHG, PBP&E and temporary storage. Your agency will determine which of the following methods will be authorized.

(a) *Commuted rate system.* Under the commuted rate system you assume total responsibility for arranging and paying for, at least the following services: packing/unpacking, crating/uncrating, pickup/delivery, weighing, line-haul, drayage, and temporary storage of your HHG and PBP&E with a commercial HHG carrier or by renting self drive equipment for a do-it-yourself move. When any PBP&E is transported as an administrative expense of your agency, all arrangements (e.g., packing/unpacking, pickup/delivery, weighing, temporary storage, etc.) will be handled and paid for by your agency.

(b) *Actual expense method.* Under the actual expense method, your agency assumes the responsibility for arranging and paying for all aspects (e.g., packing/unpacking, pickup/delivery, weighing, line-haul, drayage, temporary storage, etc.), of transporting

your HHG and PBP&E with a commercial HHG carrier.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Redesignated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.15 Are there any disadvantages to using the commuted rate method for transporting HHG, PBP&E and temporary storage?

Yes. The disadvantages to using the commuted rate method for transporting HHG, PBP&E and temporary storage are that the:

- (a) Government cannot take advantage of any special rates that may be offered only to Government shipments;
- (b) Commuted rate method does not apply to intrastate moves; and
- (c) Commuted rate method may not fully reimburse your out-of-pocket expenses.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Redesignated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.16 Must I use the methods selected by my agency for transportation and temporary storage of my HHG and PBP&E?

No, you do not have to use the method selected (*see* § 302-7.401) by your agency for transportation and temporary storage of your HHG and

Relocation Allowances

§ 302-7.21

PBP&E. You may pursue other methods; however, your reimbursement is limited to the actual cost incurred, not to exceed what the Government would have incurred under the method selected by your agency.

[FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.17 Is the maximum weight allowance for HHG and temporary storage limited when quarters are furnished or partly furnished by the Government OCONUS or upon return to CONUS?

When quarters are furnished or partly furnished by the Government OCONUS, your agency may limit the weight of HHG and temporary storage that can be transported to that location. Only the authorized weight allowance that was shipped to the OCONUS location may be returned to CONUS upon completion of the tour of duty, unless the agency makes an exception under conditions specified in agency internal regulations.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Re-designated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.18 May PBP&E be transported at Government expense upon returning to CONUS for separation from Government service, after completion of an OCONUS assignment?

Any PBP&E that was transported as an administrative expense of the Government to the OCONUS assignment will be returned as an administrative expense of the Government to the place of actual residence or any other location, not to exceed the cost to the authorized destination.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Re-designated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.19 Who is liable for any loss or damage to HHG incident to an authorized relocation?

When transporting HHG under the commuted rate or actual expense method and a commercial HHG carrier is used, the carrier accepts limited liability for any loss or damage in accordance with HHG carrier tariffs. For transporting HHG by self drive equipment for a do-it-yourself-move and for

any loss or damage not covered by the HHG carrier, see part 302-11 of this chapter.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Re-designated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.20 Should I include items that are irreplaceable or of extremely high monetary or sentimental value in my HHG shipment?

Generally no; items that are irreplaceable or of extremely high monetary or sentimental value should not be included in your HHG shipment. Additional insurance may be purchased, at your expense, to cover any loss or damage, however, such items are not necessarily provided special security. Accordingly, it is advisable that you or an immediate family member(s) transport such items personally.

[FTR Amdt. 98, 66 FR 58196, Nov. 20, 2001. Re-designated by FTR Amdt. 2011-01, 76 FR 18340, Apr. 1, 2011]

§ 302-7.21 If my HHG shipment includes an item for which a weight additive is assessed by the HHG carrier (e.g., boat, trailer, ultralight vehicle), am I responsible for payment?

(a) No, you will not be responsible for the shipping charges that result from a weight additive so long as the actual weight of your HHG without the additive does not exceed the 18,000 pound net weight allowance for relocation. However you are responsible for any amount your HHG exceeds the 18,000 pound net weight allowance prior to the addition of the weight additive (e.g., when a weight additive of 700 pounds is imposed by a HHG carrier for a 65-pound canoe and the total net weight of the HHG, including the weight additive, is 18,765 pounds, you are only responsible for the 65 pounds actually added by the canoe).

(b) You are also responsible for the cost of special packing, crating, and handling of the weight additive items, if any. See § 302-7.200 on how charges are paid and who makes the shipping arrangements.
