SOURCE: 81 FR 5918, Feb. 4, 2016, unless otherwise noted.

§ 1331.1 Basis, scope, and definition.

(a) *Basis.* This part implements, in part, the provisions of section 4360 of Public Law 101–508 by establishing a minimum level of funding for grants made to States for the purpose of providing information, counseling, and assistance relating to obtaining adequate and appropriate health insurance coverage to individuals eligible to receive benefits under the Medicare program.

(b) *Scope of part.* This part sets forth the following:

(1) Conditions of eligibility for the grant.

(2) Minimum levels of funding for those States qualifying for the grants.

(3) Reporting requirements.

(c) *Definition.* For purposes of this subpart, the term “State” includes (except where otherwise indicated by the context) the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

§ 1331.2 Eligibility for grants.

To be eligible for a grant under this subpart, the State must have an approved Medicare supplemental regulatory program under section 1882 of the Act and submit a timely application to ACL that meets the requirements of—

(a) Section 4360 of Public Law 101–508 (42 U.S.C. 1395b–4);

(b) This subpart; and

(c) The applicable solicitation for grant applications issued by ACL.

§ 1331.3 Availability of grants.

ACL awards grants to States subject to availability of funds, and if applicable, subject to the satisfactory progress

in the State's project during the preceding grant period. The criteria by which progress is evaluated and the performance standards for determining whether satisfactory progress has been made are specified in the terms and conditions included in the notice of grant award sent to each State. ACL advises each State as to when to make application, what to include in the application, and provides information as to the timing of the grant award and the duration of the grant award. ACL also provides an estimate of the amount of funds that may be available to the State.

§ 1331.4 Number and size of grants.

(a) *General.* For available grant funds, up to and including \$10,000,000, grants will be made to States according to the terms and formula in paragraphs (b) and (c) of this section. For any available grant funds in excess of \$10,000,000, distribution of grants will be at the discretion of ACL, and will be made according to criteria that ACL will communicate to the States via grant solicitation. ACL will provide information to each State as to what must be included in the application for grant funds. ACL awards the following type of grants:

- (1) New program grants.
- (2) Existing program enhancement grants.
- (b) *Grant award.* Subject to the availability of funds, each eligible State that submits an acceptable application receives a grant that includes a fixed amount (minimum funding level) and a variable amount.

(1) A fixed portion is awarded to States in the following amounts:

- (i) Each of the 50 States, \$75,000.
- (ii) The District of Columbia, \$75,000.
- (iii) Puerto Rico, \$75,000.
- (iv) American Samoa, \$25,000.
- (v) Guam, \$25,000.
- (vi) The Virgin Islands, \$25,000.

(2) A variable portion which is based on the number and location of Medicare beneficiaries residing in the State is awarded to each State. The variable amount a particular State receives is determined as set forth in paragraph (c) of this section.

(c) *Calculation of variable portion of the grant.* (1) ACL bases the variable portion of the grant on—

(i) The amount of available funds, and

(ii) A comparison of each State with the average of all of the States (except the State being compared) with respect to three factors that relate to the size of the State's Medicare population and where that population resides.

(2) The factors ACL uses to compare States' Medicare populations comprise separate components of the variable amount. These factors, and the extent to which they each contribute to the variable amount, are as follows:

(i) Approximately 75 percent of the variable amount is based on the number of Medicare beneficiaries living in the State as a percentage of all Medicare beneficiaries nationwide.

(ii) Approximately 10 percent of the variable amount is based on the percentage of the State's total population who are Medicare beneficiaries.

(iii) Approximately 15 percent of the variable amount is based on the percentage of the State's Medicare beneficiaries that reside in rural areas ("rural areas" are defined as all areas not included within a metropolitan Statistical Area).

(3) Based on the foregoing four factors (that is, the amount of available funds and the three comparative factors), ACL determines a variable rate for each participating State for each grant period.

(d) *Submission of revised budget.* A State that receives an amount of grant funds under this subpart that differs from the amount requested in the budget submitted with its application must submit a revised budget to ACL, along with its acceptance of the grant award, which reflects the amount awarded.

§ 1331.5 Limitations.

(a) *Use of grants.* Except as specified in paragraph (b) of this section, and in the terms and conditions in the notice of grant award, a State that receives a grant under this subpart may use the grant for any reasonable expenses for planning, developing, implementing and/or operating the program for which the grant is made as described in the
